**Commercial Bank of Ceylon PLC** Annual Report 2023 (Integrated Report and Financial Statements)

# IN CONTEXT

Navigating storms together with conviction, courage and empathy

In the Annual Report 2022, we presented the report theme in mirrored text on the front cover while re-presenting it in standard text on the inner cover. This design aimed to evoke the disorienting and turbulent operating landscape in Sri Lanka during 2022.

 $\rightarrow$ 

In this year's report, we present the theme in standard text on the cover to signify the gradual progression of our journey towards calmer waters, as we navigate out of the tempest with conviction, courage and empathy.

Strongest Bank in Sri Lanka 2023 -The Asian Banker Magazine

### **Our Vision**

To be the most technologically advanced, innovative and customer friendly financial services organisation in Sri Lanka, poised for further expansion in South Asia.

### **Our Mission**

Providing reliable, innovative, customer friendly financial services, utilising cutting-edge technology and focusing continuously on productivity improvement whilst developing our staff and acquiring necessary expertise to expand locally and regionally.

### **Our Purpose**

To be a responsible financial services provider by enabling and empowering people, enterprises and communities towards environmentally-responsible, socially-inclusive and economically-enriching growth.

### Our Values

Accountability – We live by our brand values, ready to take responsibility for our actions towards all stakeholders.

Responsible citizenship – Continuing our commitment to the community we focus on making lives better and being a force for good. **Honesty** – We strive to earn and retain the trust of our stakeholders through transparent actions that inspire them and align with their values.

**Integrity** – Maintaining our integrity is of paramount importance to us in ensuring that our brand value keeps growing for all stakeholders.

**Fairness** – We focus on doing the right thing by all our stakeholders so that their trust in us continues to deepen, enriching invaluable relationships.

# **IN CONTEXT**

## Navigating storms together with conviction, courage and empathy

In a volatile financial landscape characterised by steadiness at times and turbulence at others, the Bank draws its strength from unwavering conviction, fortified by boundless courage and profound empathy. This is the foundation on which our dedicated staff helps shape the future for our valued customers and other stakeholders. Each financial story is unique and we are committed to supporting them in crafting it with innovative solutions that truly matter. As we face challenges and seize opportunities, we stand as a steadfast partner, navigating the path forward together.

### **Annual Report of the Board of Directors**

#### Preamble

The Board of Directors of Commercial Bank of Ceylon PLC (the Bank) is pleased to present to the shareholders the 55th Annual Report of the Bank comprising an integrated report, the Audited Financial Statements of the Group and the Bank for the year ended December 31, 2023 and the Independent Auditors' Report on the Financial Statements conforming to all applicable statutory requirements. Besides the printed report, considering the growing popularity of digital formats, the Bank has made it available in a number of digital formats such as an HTML version and an interactive PDF.

### Integrated reporting and strategic thinking

This Integrated Report, where applicable, is presented in accordance with the Guiding Principles and the Content Elements as stipulated by the International <IR> Framework of the IFRS Foundation.

The Bank has obtained independent assurance on Integrated Annual Report and Sustainability Reporting Criteria presented in the Integrated Annual Report from Messrs Ernst & Young and the above independent assurance reports are appearing on pages 472 to 475.

This Report effectively communicates the Bank's efforts to create value for all its stakeholders across the short, medium and long-term through its business model (depicted on pages 58 and 59) and identifies the emerging developments and trends that are likely to impact the business model and the value creation process.

These trends have been categorised into risks and opportunities based on their importance to the Bank and its stakeholders, together with the stakeholders that are likely to be affected most. Through its annual strategic planning exercise, the Bank has developed a Sustainability Framework and identified strategic imperatives and continued to execute the required strategies to mitigate risks and capitalise on opportunities.

A detailed account of the three pillars of the Sustainability Framework, the strategic imperatives and strategies are given in the Management Discussion and Analysis (pages 62 to 159) contained in this Report. The underlying governance structure and the risk management framework are detailed on pages 160 and 258.

#### **Board's responsibility**

According to sections 150 (1), 151, 152 and 153 (1) & (2) of the Companies Act No. 07 of 2007 and amendments thereto, the Bank's Board of Directors is responsible for the preparation of the Financial Statements of the Group and the Bank, which reflect a true and fair view of the financial position and performance of the Group and the Bank. In this respect, the Board of Directors wishes to confirm that the Financial Statements, namely, Income Statement, Statement of Profit or Loss and Other Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of **Cash Flows and Material Accounting Policies** and Notes thereto appearing on pages 267 to 420 have been prepared and presented in conformity with the requirements of the Sri Lanka Accounting Standards as mandated by the Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995 and the Companies Act No. 07 of 2007 and amendments thereto.

This Report also provides the information and disclosures as required by the Companies Act No. 07 of 2007 and amendments thereto, Banking Act No. 30 of 1988 and amendments thereto, the Directions issued thereunder including the Banking Act Direction No. 11 of 2007 and subsequent amendments thereto, the Listing Rules of the Colombo Stock Exchange (CSE) including the Rules pertaining to Related Party Transactions as required by Section 9.14.8 (4) thereof and the Code of Best Practice on Corporate Governance 2023 issued by The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka).

The Board of Directors has approved and authorised for issue the Financial Statements of the Group and the Bank for the year ended December 31, 2023, including comparatives for 2022, in accordance with the resolution of the Directors on February 21, 2024. Within the statutory time limits, the appropriate number of copies of the Annual Report will be submitted to the CSE and to the Sri Lanka Accounting and Auditing Standards Monitoring Board (SLAASMB) and soft copies of same will be hosted on the website of the Bank, www.combank.lk.

The opinion expressed by the Bank's External Auditors, Messrs Ernst & Young, who were appointed in accordance with a resolution passed at the 54th Annual General Meeting held on March 30, 2023, is given on pages 262 to 264 of this Annual Report. The details on the remuneration of External Auditors are given in Note 21 on page 311 to the Financial Statements. As far as the Directors are aware, the Auditors do not have any other relationship with the Bank, or any of its subsidiaries and the associate. The External Auditors do not have any interest in contracts with the Bank, or any of its subsidiaries and the associate.

The Board, to the best of its knowledge and belief, is satisfied with the timely disbursement of all statutory payments to the Government, other regulatory institutions and to employees.

Having reviewed the business plans of the Bank and its subsidiaries and the associate, the Board of Directors is satisfied that the Bank and its subsidiaries and the associate have adequate resources to continue their operations in the foreseeable future. Accordingly, the Financial Statements of the Group and the Bank are prepared based on a going concern assumption.

The Bank will conduct a gap analysis on the applicability of Sustainability Accounting Standards IFRS S1 – General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 – Climaterelated Disclosures and will make appropriate disclosures commencing from the year ending December 31, 2024.

### Extent of Compliance with applicable Statutes, Directions and Codes on Governance

The extent of compliance with the requirements of Section 168 of the Companies Act No. 7 of 2007 and amendments thereto and other relevant statutes is disclosed in detail on pages 216 to 223 while a comprehensive disclosure on the extent of compliance with the requirements of the following Directions and Code on Good Governance is given in Annex 1 on pages 422 to 450.

- The Banking Act Direction No. 11 of 2007 and subsequent amendments thereto on Corporate Governance for Licensed Commercial Banks in Sri Lanka issued by the Central Bank of Sri Lanka (Annex 1.1 on pages 422 to 433)
- The Code of Best Practice on Corporate Governance 2023 issued by CA Sri Lanka (Annex 1.2 on pages 434 to 438)
- Compliance with requirements of Section 9 of the Listing Rules of the Colombo Stock Exchange (Annex 1.3 on pages 439 to 445)

• Disclosure requirements under the prescribed format issued by the Central Bank of Sri Lanka (CBSL) for preparation, presentation and publication of Annual Audited Financial Statements of Licensed Commercial Banks (Annex 1.4 on pages 446 to 450)

### Fifty Fifth (55th) Annual General Meeting

Shareholders are kindly requested to attend the Fifty Fifth Annual General Meeting of the Bank to be held at the Galadari Hotel,

"Grand Ballroom", No. 64, Lotus Road, Colombo 01, on Thursday, March 28, 2024, at 2.30 p.m. as stated in the Notice of Meeting given on page 491 of this Annual Report which is signed in accordance with a resolution adopted by the Directors.

### **Introducing our 55th Annual Report**

#### **Continuing the journey**

Since 2013, Commercial Bank of Ceylon PLC has been producing its annual report in accordance with the guiding principles and the content elements of the International <IR> Framework for integrated reporting. This Report comprising the Integrated Report and the Financial Statements is the 55th Annual Report of the Bank and covers the 12-month period from January 01 to December 31, 2023 and is consistent with our usual annual reporting cycle for financial and sustainability reporting. This follows our most recent Annual Report for the year ended December 31, 2022, for which comparatives are given, where applicable.

In response to stakeholder demands and industry best practices, we have diligently refined this Report to offer a succinct yet comprehensive account of the Bank's financial as well as non-financial performance. Accordingly, each main section of the Report commences with a clear and concise overview, expanding into detailed narratives, ensuring that our diverse stakeholders gain profound insights into the Bank's significant milestones and performance in 2023. Thereby, this Annual Report seeks to provide a holistic and integrated narrative of the Bank's performance, operations and strategic imperatives, leading to sustainable value creation.

### Transcending the medium to a handful of avatars

In tune with last year's trends and the modern approach to annual reporting, our Annual Report takes on various forms to suit the preferences of our diverse stakeholders. following the Swiss Army Knife model. While a limited number of printed reports have been produced, we have prioritised digital accessibility for environmental sustainability and compliance with regulations. Readers who prefer the ease of accessing our Annual Report online through either a computer or mobile device can access our Online Interactive (HTML) version of the Annual Report while a soft copy (PDF) version is hosted on the websites of the Bank as well as the CSE for those who would like to maintain an easy-portable digital version of the Annual Report. The Report can also be accessed by clicking the button given on page 2. These measures aim to balance the disparate imperatives of conciseness, comprehensiveness and accessibility in our disclosure practices.

Regardless of the medium, this Annual Report remains a key resource for investors, offering profound insights into our growth trajectory, governance framework in place and the strategies driving our expansion. It is our commitment to delivering comprehensive and accessible information, ensuring effective investor engagement across all channels.

### Strategic focus and plurality of capitals

Sections 2.17 & 2.18 of the International <IR> Framework of the IFRS Foundation gives discretion to organisations to structure an integrated report and select capitals that suit the Organisation most. Accordingly, this Report is structured based on the Bank's 3-Pillar Approach to sustainability, viz. Sustainable Banking, Responsible Organisation and Community Engagement, giving the reader a clear understanding of the Bank's Sustainability Framework given on page 54 and how it will help the Bank achieve the underlying purpose of "Being a responsible financial services provider by enabling and empowering people, enterprises and communities towards environmentallyresponsible, socially inclusive and economically-enriching growth".

How the activities undertaken under these three pillars and in terms of the four strategic imperatives of Prudent Growth, Customer Centricity, Leading through Innovation and Operational Excellence lead to value creation over short, medium and long-term for the mutual benefit of the Bank and the various stakeholders, which is reflected in financial, manufactured, intellectual, human, social and relationship and natural capitals is given on pages 60 and 61. While assimilating the many efforts mostly in inhospitable times - made by the Bank's cross-disciplinary leadership into cohesive and convergent outcomes, this structure highlights how the plotted course of action will propel the Bank forward and sustain the value creation process while contributing to eight UN Sustainable Development Goals (SDGs) most relevant to the Bank in the context of guiding principles. standards and governance structure.

### Criteria underlying the preparation of this Annual Report

- Strategic focus and future orientation
- Integrated thinking
- Non-financial information
- Guiding principles and frameworks
- Qualitative criteria
- Independent assurances

### An integrated thinking cap

- Since adopting integrated reporting aligned with the <IR> Framework in 2013, the Bank has bolstered integrated thinking, harmonising diverse facets. This transformation enhances sustainability by mitigating risks, breaking silos, optimising costs and streamlining capital allocation. Beyond aligning economic objectives with societal and environmental goals, this integration extends to various other dimensions, as you will find later in this Report:
- Formerly operating as a physical establishment, the Bank has transformed into a digital superstore, offering a range of user-friendly integrated products showcased on virtual shelves.
- Strategically repurposing its approach, the Bank aims to adjust its business model to better align with emerging and disruptive forces of change.

- Evolving from a function-centric and team-oriented structure, the Organisation has transitioned into a cross-functional integrated entity.
- Implementation of unified service standards across all channels ensures a consistent customer experience.
- The Bank emphasises key messages consistently across all communication channels for enhanced clarity.
- Leveraging integrated software systems, the Bank achieves elevated levels of efficiency and agility.
- Integrated audits now employ a combination of onsite, offsite, online, and near real-time methodologies.
- Integration of data from diverse sources results in a cohesive and unified perspective.
- Information is accessible across various channels and about products within the Bank.
- Collaborative efforts with other service providers, including telcos, insurers, other banks, Non-Banking Financial Institutions (NBFIs) and fintechs are pursued by the Bank.

### **Non-financial information**

Recent trends highlight a growing demand for non-financial information alongside traditional financial reporting, indicating a shift in stakeholders' preferences, especially among financial capital providers. The Bank recognises the evolving information needs within the dynamic operational environment. Notably, investors are increasingly prioritising the future potential of the Bank over its past performance and sustainability over profitability. Non-financial information is gaining significance in evaluating this future potential and sustainability. Consequently, we have expanded our disclosures to include enhanced information beyond historical financial data. This includes non-financial and future-oriented insights, emphasising the Bank's capacity to create value in the short, medium and long term a key aspect of sustainability and integrated reporting.

### **Basis of preparation**

This Report has been prepared in line with the International <IR> framework. The Bank's social and environmental impacts are presented in accordance with the GRI Standards. It also comments on the Bank's contribution towards eight of the UNDP Sustainable Development Goals most relevant to the Bank (pages 54 and 119). The concepts, principles and guidelines used in the preparation of this Annual Report are drawn from the following sources:

Sustainability Framework of the Bank – Page 54

### **Report boundary**

The Financial Statements depict the consolidated performance of the entire Group, which includes the Bank along with seven subsidiaries – Commercial Development Company PLC, CBC Tech Solutions Limited, CBC Finance Ltd., Commercial Insurance Brokers (Pvt) Ltd., Commex Sri Lanka S.R.L. Italy (liquidation is nearing completion), Commercial Bank of Maldives Private Limited and CBC Myanmar Microfinance Company Limited – and the associate – Equity Investments Lanka Ltd. (III) refer the Consolidated Financial Statements on pages 267 to 420).

Unless stated otherwise, the Bank's social and environmental impact, as discussed within the Management Discussion and Analysis on pages 62 to 159, focuses on both Sri Lankan and Bangladesh operations of Commercial Bank of Ceylon PLC, the parent entity of the Group which accounts for more than 97% of Group's revenue, loans and advances, deposits and assets.

Based on internal and external assessments, the Bank's operations in Sri Lanka and other countries such as Bangladesh are captured within the material aspects boundaries. The Bank consistently takes into account the reasonable aspirations and expectations of its stakeholders, engaging with them through various means, as depicted in "Connecting with Stakeholders" and "Material Matters" on pages 38 to 47. The content of this Report is determined with these considerations in mind. The information is presented in a sustainability context, covering topics that reflect the Bank's substantial economic, environmental and social impacts, significantly influencing stakeholder decisions. To enhance stakeholder convenience, the Report includes quantitative and qualitative data, along with reliable external benchmarks whenever possible, ensuring completeness and facilitating comparisons and further analysis.

During the year under review, there were no significant changes in the organisation type, structure, ownership, supply chain or topic boundaries. Additionally, there were no changes in reporting or restatements to the previously reported financial, social or environmental information.

#### **Quality assurance**

Through this integrated report, we set out to provide you with a holistic and meaningful picture of our business model, sustainability framework, strategy, governance framework, performance and future prospects. We also strive to illustrate the value created by the Bank in terms of non-financial resources such as human, natural, intellectual and social and relationship capitals, in addition to financial and manufactured capital. We have also taken every effort to provide credible information with the aid of visual elements such as figures, graphs and tables in a consistent manner facilitating clarity and comparability. The qualitative criteria taken into account in the production of both text and visual elements presented in this Annual Report are given in Figure 01.

### **Precautionary principle**

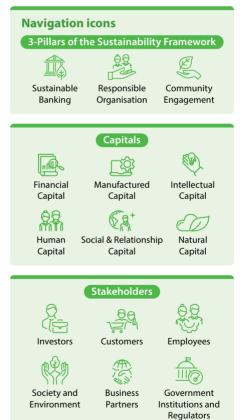

We remain cognisant of the direct and indirect social, climate and environmental implications of our operations, particularly the indirect consequences stemming from the business activities of our borrowers. We consistently fulfil our *de facto* role by actively avoiding, mitigating and addressing any adverse impacts through the Bank's sustainability framework viz., ongoing review of credit policies, stronger screening based on the Social and Environmental Management System (SEMS), close post-disbursement supervision, dedicated green portfolio of products and astute risk management procedures.

While our business model and operations do not inherently generate significant negative environmental impacts, we are committed to minimising our carbon footprint. Initiatives such as the adoption of solar energy, energy-efficient air conditioning and the elimination of paper usage in our processes underscore our dedication to sustainability. These endeavours led the Bank to achieve the distinction of becoming the first fully carbon-neutral bank in the country in 2020, complemented by carbon credits. We are now progressing towards achieving carbon neutrality on our own. Figure 02 on page 8 outlines the guiding principles, regulations, codes and acts influencing financial and narrative reporting, sustainability goals and practices and the governance of the Bank.

### **Responsibility for sustainability** practices and external assurance

Guided by the Bank's Sustainability Framework and the Executive Sustainability Committee, the responsibility for the sustainability practices and disclosures in this Report lies with the Bank's Managing Director/Chief Executive Officer, the Executive Director/Chief Operating Officer and other members of the Corporate Management. They actively collaborated with external assurance providers to ensure the credibility of the Report's content.

The Bank's External Auditors, Messrs Ernst & Young, have provided assurance for the Group's Financial Statements, Integrated Annual Report and Sustainability Reporting Criteria presented in the Integrated Annual Report 2023. The Board of Directors and the Management have no other relationship with Messrs Ernst & Young, aside from their engagement as an Independent Assurance Service provider for the Group.

### Steps taken by the Bank to enhance transparency

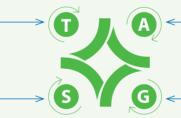

Transparency builds trust and credibility with stakeholders, enables informed decision making, helps identify and manage risks, facilitates regulatory compliance and enhances reputation. The Bank has taken several measures to enhance transparency, including:

- Prioritising openness, honesty and accuracy in all communications, ensuring customers are well-informed about products, services, and policies.
- Engaging with stakeholders through social media, demonstrating transparent communication and prompt issue resolution to maintain trust and strengthen relationships.
- Remaining compliant with mandatory and voluntary reporting standards and requirements, setting internal standards more stringent.
- Paying special emphasis to making the basis of granting ESOPs and their features transparent, prior to seeking approval from the shareholders.
- Using global frameworks such as GRI and International <IR>
   Framework to measure and disclose sustainability performance, aiming to enhance long-term stakeholder value.
- Fostering transparency and open communication by providing staff access to policies and procedures via the intranet and website, while also allowing unrestricted access for employees and trade union representatives to engage with management regarding their concerns.

### Steps taken by the Bank to enhance accountability

Accountability promotes ethical behaviour, transparency and effective governance practices which will lead to enhance stakeholder trust, mitigate risks and improve long-term sustainability. The Bank has taken several measures to promote accountability, including:

- The Board Related Party Transactions Review Committee assists the Board in maintaining accountability and transparency in relation to related party transactions with the required disclosures.
- A number of policies including Code of Ethics, Gift Policy, Communication Policy, Credit Policy, Anti-Bribery and Anti-Corruption Policy, Whistleblowers' Charter and Conduct Risk Management Policy demand highest standards of honesty, integrity and accountability from every employee.
- Separating of the roles of the Chairman and the Chief Executive Officer making their roles and responsibilities clearly distinctive.
- Preparation of an Integrated Report featuring comprehensive voluntary disclosures surpassing compliance requirements, clearly demonstrating the Bank's accountability to the stakeholders.
- Implementing the Three Lines of Defence model for risk management fostering a responsible risk culture with clear accountability at every level.
- Adoption of a capital augmentation plan, a liquidity contingency plan, and a Business Recovery Plan.

#### Steps taken by the Bank to enhance sustainability

Sustainability enables value creation in the short, medium and long term with the interests of all the stakeholders at heart in an environmentally friendly, socially responsible, economically viable manner. The Bank is committed to integrating sustainability into its operations, culture and value chain. Some of the measures the Bank has taken to promote sustainability are given below:

- Adoption of a Sustainability Framework, a blueprint steering the Bank towards a future where economic prosperity harmonises with environmental conservation and social equity.
- Establishment of Executive Sustainability Committee and Sustainability Working Group to guide sustainability initiatives.
- Adoption of a Green Financing Policy encompassing the overall green financing processes and functions together with green initiatives and activities.
- Instilling principles like the 4R (Reduce, Reuse, Recycle and Recover) and Circular Economy concepts among staff.
- Adoption of a climate position statement, underscoring the Bank's proactive approach to minimising the ecological footprint.
- Unveiling of the evolved logo reflecting the Bank's dedication to total sustainability in all spheres of its operations and practical commitment to the way it does business.

#### Steps taken by the Bank to enhance governance

Governance enables managing risks, complying with regulations, building stakeholder confidence, enhancing financial performance, effective Board oversight, promoting ethical conduct and effectively responding to crises, leading to stability, resilience and success. The Bank has taken several measures to promote governance including:

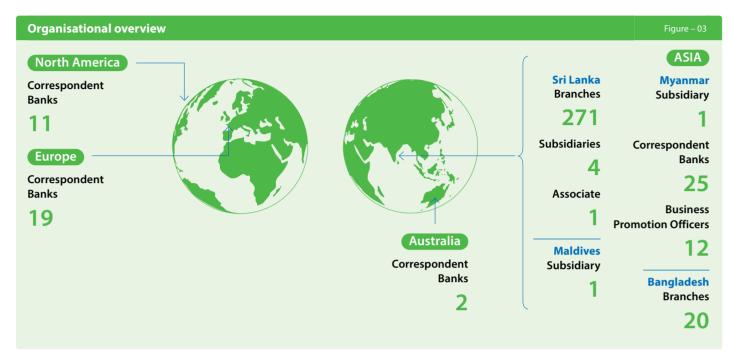

- Establishment of Board Capital Expenditure Review Committee.
- Group Conduct Risk Management Policy is expected to establish a risk culture that not only addresses the risk of misconduct but also highlights clear accountability of actions through a preventive approach.
- Adoption of a system of self-assessment, where each Director undertakes an annual self-assessment of their own effectiveness as an individual and the effectiveness of the Board as a whole.
- Continuous monitoring of capital adequacy and other prudential measures to ensure compliance with regulatory requirements and the Bank's defined risk appetite.
- Commitment to compliance with Laws and Regulations not only in letter but also in spirit, at all levels across the Bank upholding the highest standards of legal and regulatory adherence.
- Nomination of candidates for appointment as Directors takes place under a formal and transparent procedure formulated by the Board Nominations and Governance Committee.

## **INTEGRATED REPORT**

As permitted by the International <IR> Framework, this Annual Report constitutes a distinct and prominent section on Integrated Report, followed by Financial Statements and other supplementary information. The Integrated Report adheres to the guiding principles and content elements outlined in the Framework. As affirmed in the Annual Report of the Board of Directors on page 4, due diligence has been exercised in preparing and presenting this Integrated Report to uphold its integrity.

### Organisational overview About the Bank

### Higher-tier domestic systemically important bank

Commercial Bank of Ceylon PLC (the Bank) is the only private sector Bank in Sri Lanka that has been designated by the Central Bank of Sri Lanka as a higher-tier Domestic Systemically Important Bank (D-SIB). Total assets of the Commercial Bank Group (which comprises the Bank and its seven subsidiaries and the associate) stood at Rs. 2.656 Tn. as at December 31, 2023 (Rs. 2.500 Tn. as at December 31, 2022).

### Largest private sector bank in Sri Lanka

Commercial Bank is the largest private sector bank in Sri Lanka in terms of business volumes and assets as shown below. It is also the third largest bank in the country.

### Over a century of legacy

A century-long legacy defines the Bank, tracing its roots to 1920 on Chatham Street. Colombo. From humble beginnings as the Eastern Bank, it has soared to the summit of private sector banking in Sri Lanka, celebrating over 50 years under its current name in 2023. This journey has been a relentless pursuit of innovation, steering strategic shifts and revolutionising the banking landscape. With a total staff strength of 5,201 as at end 2023, the Bank serves over 4 million customers through a wide network of local and international branches, subsidiaries, agency arrangements, Business Promotion Officers and correspondent banking relationships and an array of digital channels.

### **Growing international footprint**

Once a local player, the Commercial Bank has transcended borders, carving an international footprint marked by stability and innovation. Its global journey commenced in 2003 by acquiring Crédit Agricole Indosuez's Bangladesh operations, pioneering Sri Lanka's private sector banks in foreign branch establishments. Today, it boasts of subsidiaries in the Maldives and Myanmar, heralding a strategic expansion that foresees a broader reach across South Asia's regional landscape and beyond in the near future. Notably, Commercial Bank stands as the sole private sector bank in Sri Lanka to have a network of branches and subsidiaries outside Sri Lanka, to date.

#### **Risk profile**

In January 2023, Fitch Ratings downgraded the rating assigned to the Bank from AA-(Ika) with a Negative Outlook to A(lka) amidst the sovereign downgrade and recalibration of the agency's Sri Lanka's national rating scale, along with nine other banks. Fitch Ratings upgraded the Outlook to Stable in October 2023. The change of rating outlook from Negative to Stable was largely due to the ease in downside risks for the banking sector with upgrades to Sri Lanka's Long-Term-Local-Currency Issuer Default Rating to CCC- from RD (Restricted Default). Further, the successful conclusion of the local currency sovereign debt restructuring and the gradual restoration of key macroeconomic variables have alleviated some pressure on the Bank's capital position from weakening loan quality as well as rupee depreciation. In the meantime, the Bank's Bangladesh Operation's credit rating was reaffirmed at AAA by Credit Rating Information Services Ltd in June 2023 for the 13th consecutive year. The ratings reflect the Bank's intrinsic financial strength, the established domestic franchise as Sri Lanka's third-largest bank and the entrenched domestic deposit franchise that underpins the Bank's funding and liquidity profile.

#### **Diversification**

The Bank's business is well-diversified across four main business segments - Personal Banking, Corporate Banking, Treasury and International Operations. The International Operations of the Bank, which accounted for 16.94% of consolidated assets as at December 31, 2023 (2022 - 16,92%) and 78.57% of consolidated profit before taxes for the year ended December 31, 2023 (2022 - 71.10%), covers operations in Bangladesh, the Maldives and Myanmar. Besides geographical diversification, the Bank has successfully achieved a high level of diversification in its operations across several parameters such as customer profile, currency, products and services portfolio, funding profile, maturity profile, economic sectors and the sources of revenue given on pages 70 and 71.

#### Vibrant financial intermediation

Commercial Bank became the first private sector bank in Sri Lanka to have three key balance sheet indicators to surpass Rs. 1 Tn., having crossed the Rs. 1 Tn. mark in assets, deposits and loan book in 2016, 2019 and 2021, respectively. As a leader in financial intermediation, 80.81% of the total assets of the Bank are funded by customer deposits (2022 – 78.92%), while the Bank's loans to deposits ratio stood at 60.70% as at end of 2023. The Bank's asset quality is one of the best in the industry, while its Current Accounts and Savings Accounts (CASA) is the highest among the peer banks accounting for 39.23% of total deposits as of December 31, 2023 (38.36% of total deposits as of December 31, 2022).

#### **Capital position of the Bank**

The Bank's Tier 1 Capital Ratio and Total Capital Ratio stood at 11.442% and 15.151%, respectively, as at December 31, 2023 (11.389% and 14.657% respectively as of December 31, 2022) compared to the regulatory minimum ratios of 10% and 14% applicable for the Bank as a higher-tier D-SIB. The Bank's growth was prudent with gearing in terms of on-balance sheet assets as well as risk-weighted assets remaining at 12.01 times and 6.60 times, respectively, as of end of 2023 (11.91 times and 6.82 times, respectively, as of end of 2022).

Demonstrating the strength of the franchise, the Bank's shares reported the highest price to book value of 0.58 times (0.31 times as of end 2022) and the highest market capitalisation of Rs. 124.327 Bn. (USD 383.429 Mn.) among the banking sector on the CSE at year's end (Rs. 61.591 Bn. (USD 167.824 Mn.) as at end of 2022). The Bank was the ninth largest institution listed on the CSE overall as of end 2023 (12th as of end 2022).

#### **Commitment to sustainability**

The Bank has made significant strides in embedding sustainability principles into its core operations. It established an Executive Sustainability Committee and a Sustainability Working Committee to oversee and execute sustainability strategies. The Bank's sustainability goals align with the United Nations' Sustainable Development Goals (SDGs), focusing on areas such as quality education, gender equality, clean energy, decent work and responsible consumption. It has also formed collaborations with international organisations to develop sustainable financing products and engage in environmental initiatives such as tree-planting and conservation projects. The Bank has been recognised as the first carbon-neutral bank in Sri Lanka and continues to lead in climate financing. It has also set KPIs for Women Banking and CSR to drive sustainability efforts.

#### Commitment to regulatory compliance

The Bank places a strong emphasis on regulatory compliance to stay true to both the spirit and the letter of the law. It maintains a comprehensive Compliance Policy that outlines how compliance risks are identified, monitored and managed in a structured manner. The Bank's culture and Code of Ethics also play a crucial role in managing compliance risks. Efforts have been made to strengthen regulatory compliance requirements, including incorporating new regulatory developments into internal policies and procedures, adding new scenarios for transaction monitoring and regularly reviewing the Bank's Compliance programme. The Bank also maintains oversight on regulatory compliance through a dedicated compliance function reporting directly to the Board of Directors.

#### **Ownership of the Bank**

Of the 15,857 ordinary voting shareholders of the Bank at end of 2023, DFCC Bank PLC held 12.11% and entities related to the State, including Employees' Provident Fund, Employees' Trust Fund Board and Sri Lanka Insurance Corporation, collectively held 18.81% of the Bank's shares. Mr Y S H I Silva (9.89%), Mr D P Peiris (7.71%), the International Finance Corporation (7.11%), Melstacorp PLC (4.14%), Mr K D D Perera (3.67%), CB NY S/A IFC Emerging Asia Fund LP (3.67%), CB NY S/A IFC Financial Institutions Growth Fund LP (3.67%) and Renuka Hotels PLC (1.29%), are the other major shareholders, holding a combined ownership stake of 41.15%. Notably, the Bank has a substantial foreign shareholding, with foreign shareholders owning a combined stake of 18.0% in ordinary voting shares as at end 2023 (17.26% as of end 2022).

### **Strategic highlights**

The Strategic Highlights for 2023 given on pages 14 and 15 are structured according to the Bank's four Strategic Imperatives given on page 64. While the Financial Highlights outline the essential aspects of the Bank's financial performance, the Strategic Highlights illustrate how this performance was realised within the framework of the Bank's overarching vision for the future.

- Total assets of the Group grew to Rs. 2.656 Tn.
- High level of diversification in its income and portfolios across a multitude of parameters.
- The Bank's deposit base grew by 8.92% Year-on-Year (YoY) to Rs. 2.085 Tn., while the Bank's CASA ratio stood at 39.23% at end of 2023, the best in the Banking Sector.
- Overseas operations accounted for 17.1% of the assets and made a significant contribution to the pre-tax profits.
- Impairment (Stage 3) to Stage 3 Loans Ratio (Stage 3 Impairment Coverage Ratio) improved to 43.22% as at end 2023 from 39.60% in 2022.
- The Rs. 12 Bn. debenture issue further strengthened the Tier II capital base of the Bank, bridged maturity mismatches in the assets and liabilities and will help expand the lending portfolio, especially in the SME segment and exportoriented industries to support the national economy.
- The Bank won the IFC's CAFI award for recording the highest number of climate finance transactions in South Asia in the past two years, for meeting the IFC's stringent climate eligibility criteria.
- The Bank entered into an exclusive long-term bancassurance partnership with AIA during the year, that will enable the Bank to draw on AIA's best-in-class capabilities and AIA to leverage the Bank's meaningful connections with the local communities.
- Launched of two new Green products catering to individuals via the "Green Home Loan" and also the SME and Corporate customers through the "Green Building Loan".
- The Bank's Green Financing portfolio has so far contributed to reduce 233,918.20 tCO<sub>2</sub>e GHG emissions by end 2023.
- Green Finance Policy was approved by the Board during the year.

### **Customer Centricity**

- Established a Customer Experience Unit, which prioritises surpassing customer expectations and fostering loyalty through passionate service.
- The Ministry of Finance, Sri Lanka, recognised Commercial Bank as the **leading SME lender** for the years 2020, 2021 and 2022, underscoring the Bank's dedicated focus and commitment to the SME Sector.
- Recognised as the "Best SME Bank" by the UK-based Global Business Outlook for the fifth occasion in 2023.
- Development Credit Department of the Bank conducted 50 awareness programmes for over 2,200 Micro-SMEs (MSMEs), Women SMEs (WSMEs) and prospective SMEs.
- Launched a Digital Business Ecosystem named "Commercial Bank LEAP GlobalLinker", an industry first initiative. This innovative digital business ecosystem is designed to enhance the global reach of SMEs and MSMEs, connecting them with markets spanning over 150 countries.
- The number of members of the "ComBank BIZ Club" now exceeds 5,600, representing half of the Bank's SME customer base.
- The Bank offered concessions to individuals and businesses by restructuring and rescheduling loan facilities, particularly those emerging from moratoriums, to support during challenging times.
- Launched the "Combank Trade Club", an ecosystem designed to stimulate business growth for trade customers. This platform provided exporters with access to innovative trade solutions, expert advice and networking opportunities.
- The Bank launched the "Diribala Export Grooming Programme" with the aim to enhance the export capabilities of businesses and strengthen the export value chains across various sectors, recognising the vital role of the export segment in the economy.
- In collaboration with LankaPay, launched a national credit and debit card with international acceptance. This is the first launch of LankaPay Credit Cards in Sri Lanka and the first time five variants of LankaPay cards (three credit cards and two debit cards) were launched by a Sri Lankan Bank. This National Card Scheme is an initiative implemented by LankaPay in partnership JCB International Co. Ltd.

### **Leading Through Innovation**

- Invested over Rs. 2.6 Bn. in IT infrastructure.
- Over 335,000 existing customers migrated to digital channels.
- "ComBank Digital" offers a comprehensive range of services, including the integration of "Widgets" for added convenience, the ability to create "Savings Objectives" to assist users in achieving their financial goals, automated redemption of eFDs (electronic fixed deposits), creation of secondary accounts such as *eSavings* and *eMoney* market accounts.
- eFDs opened during the year represented 50% of total FDs opened during the year 2023.
- Launched 'Flash FAM' Sri Lanka's first Teen Digital Bank account to encourage parents to foster financial independence and responsible money management skills in their children.
- "Flash" was selected as the Best Digital Account by Global Retail Banking and Innovation Awards 2023 by The Digital Banker Magazine Singapore and also represented Sri Lanka at APICTA Awards 2023 held in Hong Kong.
- Automation of CRIB reports analysis through robotic process automation (RPA) for efficient decision-making.
- The Bank ranked second in overall card acceptance in Sri Lanka, according to both Mastercard and Visa. The Bank's Point-of-Sale (POS) network has earned recognition from Visa for having the highest coverage in Sri Lanka.
- Introduction of a state-of-the-art treasury software system, developed in collaboration with the esteemed international software service provider, Quantum. This innovative solution, currently undergoing rigorous testing, signifies a critical leap forward in enhancing efficiency and responsiveness.
- The Treasury FX Portal has significantly reduced turnaround times for FX rate requisitions.
- Commenced onboarding corporate customers to host to host (H2H) connectivity enabling them to connect their ERP systems to the Bank.
- The Bank was the top facilitator of CEFT transactions in Sri Lanka, with over 19.2 million transactions worth Rs. 2.361 Tn. in outward CEFT and over 25.9 million transactions worth Rs. 2.307 Tn. in inward CEFT transactions.
- The Bank's digital banking retail customer base grew by 45% YoY and its digital banking business customer base grew to over 72,000 users.

### **Operational Excellence**

- Transformed strategically to ensure Bank's readiness to offer uninterrupted services to its stakeholders through the implementation of the Business Continuity Management framework.
- Remained committed to maintaining the loan book's quality and managing interest rate risk, while enhancing compliance in order to reduce reputational risk.
- Made considerable use of the Early Warning System, focusing more on machine learning models and real-time data.
- Continued to engage in cordial relations with the CBEU, with negotiations fueling dialogue between the two, delivering two-way rewards to the Bank as well as the members of the employee union.
- Offered an array of training and development programmes to guarantee that staff members are stewards of continuous education and strategic self-improvement, which can serve as avenues for self-actualisation. Recorded a significant increase in eLearning hours through the Learning Management System.
- Enabled on-boarding of new customers with Digital KYC through "Flash"
- Commenced implementation of a queue management system in branches.
- Placed a strong emphasis on maintaining employee safety and morale in a volatile workplace to protect their livelihoods, health and well-being while highlighting the power of the workforce as a whole.

### **Performance review**

As we take a moment to glance back at the journey through 2023, a year filled with speculation and uncertainty, it is with immense pride and satisfaction that I report our successful navigation through the multitude of challenges with grace and determination. The challenges we faced tested the mettle of our organisation, but they also served as opportunities for growth and innovation. Guided by our core principles of integrity, innovation and excellence, we emerged stronger and more resilient than ever before. It is a year we exhibited sustained growth and firm commitment to delivering value to our stakeholders, a testament to unwavering dedication and a force for positive change in our ever-evolving landscape.

At the heart of our success lies a simple yet powerful truth – Commercial Bank is more than just a financial institution; it is a catalyst for change, a champion of progress and a steadfast partner in the journey towards a brighter future. Rooted in values as solid as the bedrock beneath our feet, we are driven by a singular mission – to make a difference, not just in the lives of our customers, but in the communities we serve and the world at large.

As we look back on the challenges overcome and the victories won, we cannot help but feel a sense of immense pride and satisfaction. Through sheer resilience, resolute dedication and the indomitable spirit of our team, Commercial Bank has not merely weathered the storms of 2023, but emerged as a towering monument of strength and fortitude.

In 2023, Sri Lankan businesses encountered a mix of challenges amidst efforts to stabilise the economy. Despite achieving a degree of macroeconomic

### Message from the Chairman

At the heart of our success lies a simple yet powerful truth – Commercial Bank is more than just a financial institution; it is a catalyst for change, a champion of progress and a steadfast partner in the journey towards a brighter future.

stability through adherence to IMF programs, concerns over debt sustainability, revenue mobilisation and energy pricing persisted. The government prioritised social safety nets and financial stability, while grappling with the task of managing inflation amidst tax increases. Although positive indicators such as rebounding of credit to private sector and external sector resilience were observed, businesses continued to navigate uncertainties, including access to credit and vulnerabilities in the external sector, highlighting the ongoing complexities in fostering sustainable growth. The Commercial Bank has always been an ardent intermediator in helping enterprises to overcome such challenges.

### Steering along a growth trajectory

Throughout the year, our primary goal has been to steer the Bank along a growth trajectory. I am pleased to inform that we have successfully achieved this goal. Despite the diverse challenges posed by the ever-changing economic landscape, we have managed to create enviable shareholder value through prudent decision-making, strategic investments and a relentless pursuit of excellence in all aspects of our operations. Our comprehensive approach to growth has been multifaceted, encompassing innovative product development, expansion into new markets and strategic partnerships aimed at enhancing our competitiveness. By leveraging emerging opportunities and mitigating risks effectively, we have not only sustained our momentum but have also positioned ourselves for sustained growth in the years to come. This achievement reflects the dedication and hard work of our entire team, whose firm commitment to our vision has been instrumental in driving our success.

#### **Commitment to customers**

At the heart of our success lies our steadfast commitment to supporting all our customers. particularly during times of hardship. We have remained by their side, offering assistance and guidance to help them overcome obstacles and emerge stronger. Our dedication goes beyond financial aid; we see ourselves as partners in their journey towards growth and success. Throughout the year, we have implemented tailored support programs, such as restructuring loan repayments and providing financial counselling addressing their individual needs. Additionally, we have invested in initiatives to enhance financial literacy and empower our customers to make informed decisions about their financial futures. Our customer service teams have consistently gone the extra mile to ensure each interaction is marked by empathy, professionalism and genuine support. Through fostering strong relationships built on trust and mutual respect, we have not only strengthened our connection with our customers but also earned their loyalty and admiration. As we navigate uncertain times, our commitment to standing by our customers remains solid, supporting them every step of the way towards overcoming challenges and achieving their aspirations.

### Sustainable practices and corporate responsibility

As a responsible corporate entity, Commercial Bank remains committed to fulfilling our societal obligations and supporting the communities where we operate. Through ethical business practices and transparent financial operations, we not only contribute significantly through taxes but also actively engage in initiatives promoting fiscal resilience and community welfare. Our adherence to tax regulations underscores our commitment to governance principles and contributes to sustainable development of economies. By upholding tax obligations diligently, we positively impact the fiscal landscape, fostering economic stability and growth.

Moreover, our Corporate Social Responsibility (CSR) initiatives are integral to our identity as a socially responsible corporation. Through strategic partnerships and targeted investments, we address societal challenges such as education, healthcare, environmental conservation and poverty alleviation. By leveraging our resources, we make meaningful and lasting impacts on individuals and communities, enhancing our reputation as a socially responsible entity. Additionally, our sustainability commitment reflects our acknowledgment of environmental stewardship's importance and resource conservation. By integrating sustainable practices, we aim to minimise our environmental impact and contribute to future generations' well-being. By adopting energy-efficient technologies to promoting eco-friendly initiatives, we strive for a sustainable future.

### Resilience and strategic agility in times of uncertainty

Throughout this turbulent period, our resilience, adaptability and strategic planning capabilities were put to the test. We leveraged our robust risk management framework, coupled with a proactive approach to scenario planning and contingency measures, to navigate through uncertain waters successfully. Moreover, our firm commitment to our core values and objectives served as a guiding light, enabling us to stay focused on our long-term goals and objectives amidst the chaos. As we reflect on the challenges overcome and the lessons learned from the past year, we are confident in our ability to tackle whatever challenges lie ahead. Armed with a stronger sense of purpose, renewed determination and a deep-seated commitment to excellence, Commercial Bank is well-poised to navigate through uncertain times and seize new opportunities for growth and innovation. Together, we have weathered the storm and emerged stronger, united in our pursuit of excellence and success.

Throughout the year, we have consistently reinforced our balance sheet strength and reaffirmed our position as the leading private sector bank. Our solid performance stands as a testament to our resilience and enduring dedication to serving our customers and stakeholders with distinction. As we celebrate our achievements, we look forward to building upon this foundation of success and strategic agility charting new heights of prosperity in the future.

### Robust performance and strategic expansion

In terms of performance, I am delighted to report that Commercial Bank has once again delivered robust results across diverse sectors, both domestically and internationally. Despite the challenging economic environment, our commitment to excellence and strategic initiatives have yielded exceptional outcomes, reinforcing our position as a leader in the banking industry.

The Bank achieved two significant milestones during the year when total assets crossed Rs. 2.500 Tn. and deposits surpassed Rs. 2.000 Tn., the first private sector commercial bank to do so.

Across our domestic operations, we have continued to expand our market presence and enhance our product offerings, resulting in sustained growth and profitability. Our focus on customer-centricity and innovation has enabled us to meet the evolving needs of our clients effectively, driving increased engagement and satisfaction levels. Our prudent risk management practices and streamlined operational processes have contributed to improved efficiency and effectiveness, optimising our performance and maximising shareholder value.

Our overseas ventures have flourished, with our international operations contributing significantly to our overall success. Through targeted investments and strategic partnerships, we have strengthened our foothold in key markets, leveraging local expertise and market insights to capitalise on emerging opportunities. Our international expansion strategy has not only diversified our revenue streams but has also enhanced our resilience to regional market fluctuations, positioning us for sustained growth and profitability in the long term.

#### **Elevating excellence for superior service**

Our commitment to operational excellence has been consistently acknowledged through over 100 awards and accolades during the year, reaffirming our reputation as a provider of superior service and innovative solutions. These accolades underscore our unwavering dedication to delivering value to our customers, while also highlighting our success in implementing cost reduction strategies and sustainable practices. By prioritising efficiency, innovation and sustainability in all aspects of our operations, we are not only driving positive financial outcomes but are also contributing to the long-term sustainability of our business and the communities we serve.

#### Charting the path to financial excellence

Looking ahead, we remain committed to building on our achievements and further strengthening our position as a leading financial institution. Through continued investment in technology, talent development and customer-centric initiatives, we are confident in our ability to deliver sustained growth and value creation for our shareholders, customers and other stakeholders. Together, we will continue to innovate, adapt and excel, setting new standards of excellence in the banking industry.

Our strategic direction remains focused, driven by a commitment to digital transformation, technological innovation and data-driven decision-making. Recognising the importance of embracing emerging technologies, we aim to revolutionise our operations and offerings through digital transformation. By investing in cutting-edge solutions, we streamline processes, enhance efficiency and provide seamless, personalised experiences to customers across all touchpoints, empowering them to manage their finances with ease.

Our commitment extends beyond digitisation to the adoption of transformative technologies like artificial intelligence and blockchain. By leveraging these advancements, we seek to drive operational efficiencies and stay ahead in a competitive landscape. Anchored in data-driven decisionmaking, we harness analytics to inform strategic initiatives and anticipate customer needs proactively.

In parallel, we prioritise enhancing the customer journey, exceeding expectations and fostering lasting relationships built on trust. Through continuous refinement of products, services and processes, we drive engagement and foster long-lasting relationships. By benchmarking against industry standards and best practices, we maintain our position as innovators and strive for operational excellence. Looking ahead, we are excited about the possibilities as we execute our strategic roadmap, committed to innovation, customer-centricity and excellence. Staying true to our core values and embracing change with agility, we are confident in our ability to thrive and create sustainable value for all stakeholders.

Our commitment to prudent growth, proactive risk management and sound corporate governance practices serves as the foundation of our operational ethos, guiding us as we navigate the complex financial landscape. In an environment characterised by uncertainty and volatility, safeguarding stakeholders' interests and preserving institutional integrity are paramount. To achieve this, we have implemented robust risk management framework, addressing various risks such as credit, market, operational, IT and compliance risks. Through a proactive approach, we anticipate and mitigate potential threats, ensuring financial stability and resilience.

Our steadfast commitment to corporate governance, transparency and ethical conduct underscores our dedication to fostering trust and accountability within our organisation and among stakeholders. Adhering to rigorous governance principles ensures that our decision-making processes are ethical, informed and aligned with the interests of all stakeholders.

### A journey of gratitude, resilience, and excellence

As we reflect on the past and look towards the future, I am imbued with a profound sense of gratitude and confidence for Commercial Bank's journey. Our dedicated team has been the cornerstone of our success, showcasing resilience and excellence in the face of challenges. Their passion and pursuit of innovation have propelled us to new heights and will be our driving force as we continue to serve our customers, shareholders and other stakeholders with unwavering commitment.

I am grateful for the wisdom and guidance of our esteemed Board of Directors. I extend my appreciation to Mr K Dharmasiri who retired in January 2023, for his invaluable contribution during his tenure. Special thanks are due to Mr Sanath Manatunge, Managing Director/Chief Executive Officer for his leadership and guidance in navigating the complex financial landscape and in fostering a culture of excellence within our organisation. Our gratitude extends to the Governor and officials of the Central Bank of Sri Lanka whose guidance and support has been crucial in maintaining a stable and conducive regulatory environment, enabling us to achieve our goals.

Our investors' confidence and our stakeholders' loyalty, including our customers and business partners, have been pivotal to our enduring success. Your belief in our vision has empowered us to reach where we are today.

#### **Building tomorrow together**

In closing, I invite each of our stakeholders to join us in our ongoing journey towards excellence and prosperity. Let us continue to work hand in hand, united by our shared values and aspirations, to build a future where opportunities abound, communities thrive and dreams are realised. Together, we can achieve greatness and leave a lasting legacy of positive impact. I urge you to stay engaged, support our endeavours and collaborate with us as we embark on this exciting path forward. With your continued partnership and unwavering commitment, there is no limit to what we can achieve together. Thank you for your trust, your dedication and your belief in the vision of Commercial Bank. Together, let us shape a brighter tomorrow for generations to come.

Prof A K W Jayawardane Chairman

February 21, 2024 Colombo

### Managing Director/Chief Executive Officer's review

As we stand poised for 2024, amidst the symphony of progress and the cacophony of challenges, I take this opportunity to reflect on the dynamic journey we have embarked upon and the vision that propels us forward. Our narrative is one of resilience in the face of adversity, of innovation amidst uncertainty and of unwavering commitment in a world ever-changing. I take pride in our ability to not only weather the storm but to emerge stronger, outperforming market expectations and steadfastly securing and expanding our market share with our strategic roadmap guiding us all the way. This agility and foresight have been pivotal in sustaining our competitive edge amidst turbulent times.

Embracing a technology-centric approach with a human touch, the Bank remains steadfast in its commitment to digitising every facet of the customer journey, thereby guaranteeing flawless interactions, seamless experiences and operational prowess. Our ongoing investment efforts are directed towards enhancing our IT infrastructure and retaining premier IT talent, reflecting our unwavering commitment to staying at the forefront of technological innovation.

### Navigating challenges with resilience

In 2023, despite the challenges stemming from Sri Lanka's economic revival and reform, Commercial Bank showcased unwavering resilience and adaptability. Through focused strategies and a commitment to stakeholder equity, we navigated these transformative times, embracing reforms and innovative approaches to ensure stability and sustainable value creation. This resilience, emblematic of our dedicated team, underscores our gratitude to customers and stakeholders for their enduring support. Embracing a technology-centric approach with a human touch, the Bank remains steadfast in its commitment to digitising every facet of the customer journey, thereby guaranteeing flawless interactions, seamless experiences and operational prowess.

As the leading private sector commercial bank, we prioritised customer, employee and community support during these trying times, strengthening our foundation through strategic investments in people, processes, technology and products. Noteworthy efforts in digital transformation enhanced the customer journey, optimised operations and modernised risk capabilities.

Aligned with our sustainability commitment, substantial strides were made towards climate goals, community initiatives and inclusivity, extending beyond financial support to encompass knowledge-sharing and empowerment programs for our customers.

Despite socio-economic hurdles, our teams demonstrated empathy and resilience, delivering tailored support to customers and advancing financial inclusion efforts. Our dedication to seamless service, fueled by talent development and succession planning initiatives, remained unwavering.

Looking forward, our focus on SME support with special focus on women entrepreneurs, renewable energy investments, trade finance and international expansion positions us for sustainable growth. Transitioning to NetZero by 2050 underscores our commitment to sustainability and responsible banking. With customer confidence as our cornerstone, our achievements were recognised with prestigious titles such as "Best Bank in Sri Lanka 2023" by Global Finance Magazine, UK among over 100 other domestic and foreign awards, reaffirming our market leadership and balance sheet strength.

#### **Our 2023 performance**

Despite the persistent challenges posed by macroeconomic factors, the Bank exhibited robust operational performance, showcasing resilience and the enduring strength of our long-term strategy. We witnessed substantial growth in key metrics, with gross income surging by 21.90%, primarily driven by a notable 34.03% increase in interest income. Despite the challenges posed by the Rupee appreciation on FCY loans & advances during the year, our loan book expanded by 3.76%, particularly buoyed by increased credit to the private sector in the latter half of the year. Deposits also saw a healthy growth of 8.92%, even after negating the impact of Rupee appreciation on FCY deposits. Consequently, total assets expanded by 6.37% as of December 31, 2023, compared to the end of 2022. After factoring in an impairment provision of Rs. 38.624 Bn. for the year (covering both loans and advances and investments in USD-denominated Government securities) and operating expenses amounting to Rs. 42.644 Bn., our operating profit before taxes on financial services surged to Rs. 36.842 Bn., marking a significant increase of 39.07% compared to 2022. Following a provision for income tax totaling Rs. 11.419 Bn., our profit after tax for the year stood at Rs. 20.461 Bn., compared to Rs. 22.970 Bn. in 2022. Notably, our Bangladesh operation made a significant contribution to the overall performance of the Bank which negated the temporary setback experienced in the challenging economic context in Sri Lanka during the first half of 2023.

For a detailed review of our financial performance, please D refer to pages 120 to 143.

#### **Portfolio quality**

Amidst the pending sovereign debt restructuring and the domestic debt optimisation concluded during the year under review, we have adapted with foresight, proactively provisioning for potential reductions in the value of sovereign bonds. Agile and vigilant, we navigated the year to uphold the Bank's robust financial position. In the realm of customer loans, a notable decline in asset quality pervaded the banking industry amidst challenging operating conditions. Forecasts suggest that the industry's ratio of Impaired Loans (Stage 3) likely hit double digits by the close of 2023. Our provision for loan impairments took note of this trend as well as the improvements witnessed in the macroeconomic variables and the economic scenarios.

Our Early Warning Signal (EWS) System has been guite effective in its predictive capabilities in enabling us to foresee potential exposures showing signs of delinquency 9 - 12 months in advance. This proactive approach empowered Lending Officers with ample lead time to address warnings promptly and strategically, thereby preserving the Bank's portfolio quality. Consequently, we were able to close the year with a marginal increase in Impaired Loans (Stage 3) ratio to 5.85%, from 5.25% in 2022, marking one of the lowest rates in the banking industry. We improved the Impairment (Stage 3) to Stage 3 Loans Ratio to 43.22% from 39.60% a year ago.

## Ensuring robust capitalisation for sustainable growth

Amidst macro-economic pressures, significant challenges surrounding impairment provisioning and diminishing profitability, maintaining a robust capital base is imperative for sustained growth and resilience. Throughout the year, we remained steadfast in upholding prudent capital management practices, ensuring that our capital adequacy ratios consistently exceeded regulatory thresholds. By continuing to strategically prioritise capital-light activities and executing targeted capital-raising endeavours, alongside prudent dividend policy, we fortified our capitalisation levels. To safeguard our operations, we adopted a proactive approach, emphasising capital management through frequent Assets and Liabilities Committee (ALCO) meetings. Successfully raising Rs. 12 Bn. in Tier II capital

in December, we improved the total capital adequacy ratio to 15.151%. Our commitment to rebalancing the balance sheet, fostering a capital-centric decision-making ethos and optimising divisional capital allocation is ongoing, supported by a Board-approved Capital Augmentation Plan. These initiatives further fortified our capital base, ensuring sustained resilience amid evolving market dynamics, with our capital adequacy ratios exceeding regulatory minimum requirements as of December 31, 2023.

#### **Innovative digital solutions**

With ongoing investments in digital innovation, we have revolutionised how customers engage with us, elevating their experience to new heights. Our awardwinning Flash Digital Account, Sri Lanka's first "wearable banking" product, has opened doors to endless possibilities for our customers, setting a new standard of convenience. Further, we introduced digital customer verification, streamlined teller services and enabled seamless foreign remittances, all aimed at enhancing accessibility and security.

Partnering with Quantum, an international software service provider, we are about to unveil a cutting-edge treasury software system, showcasing our commitment to staying ahead of the curve. These technological strides have not only positioned us for the future but have also fortified our foundation, making us a safer and more resilient institution. As a result, our digitally enabled retail customer base has grown by over 45%, with digital transactions soaring by over 19% year on year.

Automation has been a focal point, optimising processes across the board, from centralised procurement to real-time monitoring of branch operations. Looking ahead, we are poised to introduce AI-based interfaces, including a trilingual AI-Smart chatbot on our website, enhancing customer support while maintaining the human touch through our call center operations. Digital Assistants deployed across our branches have further facilitated customer onboarding and engagement with our digital platforms.

By harnessing the power of analytics to gauge stakeholder engagement, we are well-positioned to strategically leverage future-ready products and services, ensuring we continue to meet and exceed customer expectations in the ever-evolving digital landscape.

## Promoting women's empowerment and SME growth

Our dedication to empowering women and SMEs extends far beyond a range of financial products and services specifically tailored to their needs; it encompasses training and capacity building programmes, the digital business ecosystem – "Commercial Bank LEAP GlobalLinker" – to enhance global market access, SME fairs and clinics and advisory services. Through targeted resource allocation and succession planning, we foster an internal environment conducive to the advancement of women into middle and senior management positions.

Through collaboration with the IFC and DFAT Women in Work program, the Bank has undertaken various initiatives aimed at improving women's access to finance and enhancing financial literacy. Our inaugural women-focused product, the Anagi Women's Savings Account, introduced in 2012, has seen significant growth, with over 600,000 accounts opened and the balance exceeding Rs. 36 Bn. Additionally, the "Anagi Business Loan for Women Small and Medium Entrepreneurs", launched in 2022, has amassed a portfolio worth over Rs. 3.0 Bn. as of the end of 2023. This initiative not only provides financial support but also offers capacity-building services and educational partnerships, empowering women entrepreneurs to date throughout Sri Lanka.

Despite facing challenges, we maintain a strong focus on the quality of our SME portfolio while actively engaging in government-sponsored credit lines to bolster support for SMEs. Our emphasis on sectors like agriculture and microfinance extends to rural areas, contributing to the development of the rural economy and mitigating potential food shortages. Notably, the Ministry of Finance, Sri Lanka, acknowledged Commercial Bank as the foremost SME lender for the years 2020, 2021 and 2022, highlighting the Bank's strong dedication to the SME sector. In collaboration with GlobalLinker, an international business enabling platform committed to making SME businesses simpler, we launched Commercial Bank LEAP GlobalLinker, an online business ecosystem providing SMEs and corporate clients with free access to a wide array of tools and resources. From digital catalogues to e-commerce platforms, this initiative fosters growth, facilitates networking and enhances industry awareness, enabling SMEs to explore new avenues and expand their local and global market presence.

## Pioneering ESG and wider sustainability stewardship

This Annual Report details the Bank's proactive efforts in ESG and wider sustainability stewardship. Despite not being bound by mandatory environmental regulations, the Bank acknowledges climate change as a shared responsibility and is committed to set an example for environmentally conscious corporate practices. This commitment is exemplified by the Bank's comprehensive "Climate Position Statement", which outlines its strategies for sustainable operations and environmental stewardship. Notably, the Bank achieved carbon neutrality status, surpassing regulatory requirements and demonstrating its dedication to reducing its carbon footprint voluntarily.

Aligned with its Sustainability Framework, these initiatives showcase the Bank's leadership in environmental sustainability and innovative approaches. By embracing responsible finance and sustainable banking practices, the Bank empowers communities and businesses towards environmentally conscious, socially inclusive and economically enriching progress, aligning with the CBSL's Road Map for Sustainable Finance in Sri Lanka.

The Bank's commitment extends beyond words to impactful action through its CSR Trust, which invests in education, healthcare, environment, community and cultural heritage initiatives. With initiatives such as providing green financing facilities and transitioning towards a paperless culture, the Bank is actively working towards reducing its environmental impact. These efforts have been recognised internationally, with accolades such as being named the "Best CSR Bank" by Global Banking and Finance Review Magazine, UK and the "Best Sustainable Practices in Banking - Sri Lanka 2023" at the Global Business and Finance Magazine Awards 2023.

Moreover, the Bank's participation in global forums, such as the UN Climate Change Conference and integration of eco-friendly features into its digital banking platforms further highlight its commitment to sustainability. As Commercial Bank stands at the forefront of leading the charge towards a sustainable future, it inspires other businesses to adopt proactive roles in safeguarding the planet and driving positive change.

#### 2024: A forward-thinking outlook

Looking forward to 2024, we acknowledge the persistent economic hurdles and reaffirm our dedication to resilience and preparedness for the future. Our strategic agenda prioritises refining digital customer experiences to ensure seamless interactions, that obviate the need for physical visits to the Bank. Capital management efforts will continue to focus on engaging in capital-light activities and capital-raising exercises and fundraising endeavours, ensuring robust capitalisation for stakeholder value maximisation.

Moreover, our unwavering commitment to supporting exporters, local manufacturers, renewable energy projects, corporates and SMEs will remain steadfast, ensuring their sustained financial strength and operational viability in the long run. We will further enrich our groundbreaking digital ecosystem for business clients, emphasising our commitment to pioneering solutions tailored to customer needs. The long-term bancassurance partnership we entered into with AIA will enable us to leverage AIA's exceptional capabilities and broaden our revenue sources. Additionally, we will sustain our focus on operations in Bangladesh and other international markets, leveraging this competitive advantage to propel growth and profitability.

Following the receipt of the National Quality Award in 2022, we dedicated ourselves to uphold and enhance the quality standards ingrained in our services and values, honed over our 104-year journey. With the Customer Experience Unit set up in 2023, we aim to set new benchmarks in customer satisfaction starting from 2024 and establish itself as a service leader in the banking industry.

Fuelled by the courage, conviction and empathy of our skilled team and the unwavering trust of our clientele, we approach the future with confidence. Through continued emphasis on supporting SMEs, advancing renewable energy endeavours and embracing technological evolution, we remain steadfast in our mission to construct a digitally empowered, sustainable and forward-looking institution, anchored in our enduring pursuit of excellence.

#### Acknowledgements

Concluding my review, I wish to extend my heartfelt gratitude to our esteemed customers and shareholders for their unwavering support throughout the years. I am deeply appreciative of the dedication and hard work demonstrated by our Corporate Management, Senior Management, and staff members across all regions, including Sri Lanka, Bangladesh, the Maldives and other overseas locations, as well as our Sri Lankan subsidiaries. Additionally, I am thankful for the invaluable guidance provided by the Chairman and the Board of Directors in navigating unprecedented challenges. I also wish to express my sincere appreciation to the Governor, members of the Governing Board and the Monetary Policy Board and officials of the Central Bank of Sri Lanka for their guidance and support in maintaining a stable regulatory environment. Special thanks are extended to our External Auditors, Ernst & Young, for their professionalism and timely completion of the audit.

As we embark on the journey ahead, let us pledge to remain agile, innovative and customer-centric in all our endeavours, embracing change, fostering collaboration and upholding our core values. With renewed vigour, determination and a shared resolve, let us make 2024 a year of innovation, sustainability and unparalleled achievement, inscribing new tales of triumph and prosperity in the annals of our Bank's legacy. Together, we possess the formidable power to shape a brighter, more inclusive future for all stakeholders.

I would like to end my review by referencing to a fitting quote from Helen Keller that reads as "Alone we can do so little; together we can do so much" which emphasises the power of collaboration and unity in accomplishing great things.

# **Operating environment Connecting with stakeholders**

Engaging with stakeholders involves recognising the unique expectations of various stakeholder groups, understanding their differences, devising appropriate engagement strategies, prioritising their needs and actively seeking and responding to their feedback. This approach aims to foster enduring and mutually beneficial relationships, ensuring the Bank remains aligned with its core values and ethical principles. By consistently delivering on its commitments, the Bank aims to establish itself as a reliable and influential leader in financial services, leaving a lasting impression on stakeholders.

The Bank interacts with a vast array of internal and external stakeholders, crucial for value creation and sustainability. While legal obligations highlight certain groups like employees and investors, the pervasive influence of social media has expanded the stakeholder landscape to virtually anyone interacting with the Bank. This proliferation complicates stakeholder selection and prioritisation, challenging communication standardisation across networks and media. Stakeholders' preferences and expectations further complicate engagement strategies, intensified by recent unprecedented conditions. Yet, this turbulence emphasises the pressing need to deeply engage, understanding concerns and aspirations to engage appropriately.

In this swiftly evolving banking land scape, the shift from physical to digital engagement is evident. Particularly, customers prefer digital interactions, favouring the comfort and convenience of remote engagement. The digital wave is not a passing trend – it is here to stay.

Acknowledging these dynamics, the Bank has identified key stakeholders given in the Figure 04 to be its key stakeholders considering their influence and their interest in our business. We have presented them in the order of their ability to affect our operations from high to low.

The Figure that follows showcases our stakeholder engagement process, embodying our commitment to prioritise stakeholders' interests—an ethos reflected in our tagline, "Our interest is in you". This dedication drives ongoing, transparent engagement across diverse platforms, fostering robust collaboration. By integrating their valid concerns and expectations into our strategy, we not only deliver value to stakeholders but also derive mutual benefits, fueling sustainable value creation.

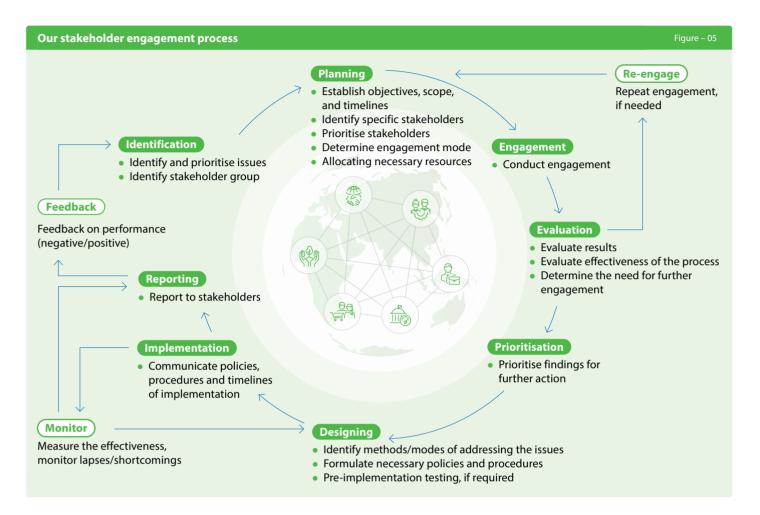

Table 03 on pages 40 and 41 showcases various formal mechanisms utilised to meet stakeholder expectations, with engagement responsibilities spread across the Bank's touchpoints. The pandemic shifted the dynamics, altering the depth, frequency and mode of engagement, prompting a greater reliance on digital platforms. Our stakeholder engagement process serves as an agile tool, facilitating adaptation to evolving challenges, bolstering our business model, fostering innovation and gathering vital insights crucial for strategic planning.

#### Mode and frequency of stakeholder engagement

### Investors

#### Customers

>	Engagement mechanism	Frequency	Engagement mechanism	Frequency

# **Material matters**

Amidst the post-COVID-19 landscape, banking operations have witnessed the emergence of new trends and influences. The surge in demand for digital banking has spurred our Bank to enhance its digital services, aligning them with customer value streams across the entire journey. To bolster this initiative, we established a Customer Experience Unit, reflecting our commitment to elevate service standards. This customercentric approach is integral to our Vision, Mission and Values, emphasising the delivery of exceptional service and fostering loyalty through innovative technology and seamless interactions.

The proliferation of digital products since 2020 has been pivotal in transforming the banking culture from traditional footfall to a diverse array of digital offerings readily available to stakeholders. Alongside this transformation, our Bank has actively assisted stakeholders in transitioning not only to digital platforms but also towards environmentally-conscious business practices aimed at reducing carbon emissions. Emerging from the pandemic, we have entered a new era of sustainability, where our procurement and lending practices adhere to both internal and external standards of sustainable banking. Our commitment to creativity has been instrumental, driving forward-thinking digitalisation efforts across various channels and streamlining internal processes through automation.

The Bank demonstrated unparalleled resilience, swiftly adapting to the dynamic shifts in technology, demographics and stakeholder preferences. As a leader in technology, we bolstered our customers' technological and financial literacy, guiding them through their banking journeys. Our trilingual presence across various interfaces contributed significantly to customer retention and expansion. We remained vigilant of global trends, embracing new initiatives and technologies that shaped the landscape of 2023. Despite market and credit risks inherent in our operations, we maintained robust financial reserves, ensuring ample liquidity and capital buffers. Our proactive provisioning strategies were especially crucial in navigating the challenging economic environment marked by subdued growth, fluctuating interest rates and ongoing sovereign debt restructuring efforts.

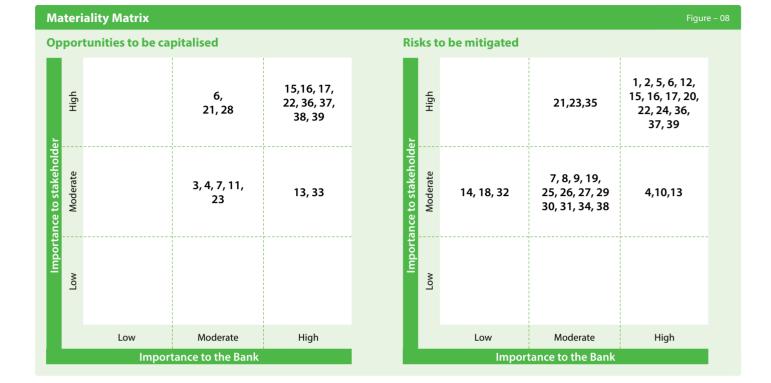

In this environment, it was imperative to implement astute and forward-thinking measures. Resilience meant anticipating and adapting to disruptions, ensuring our relevance as a modern institution that embraces technology, digital innovation and automation while remaining true to the core values upon which our Bank was founded over a century ago.

Identification of Material Matters to Address	Prioritisation of material matters	Integration and execution
We identify matters that most impact the execution of our strategy. Relevant matters are those that have, or may have, an effect on the Bank's ability to create value to our stakeholders.	We prioritise matters that most significantly impact our ability to effectively execute our strategy in delivering long-term value and influencing the decision of key stakeholders.	Those matters that are material to the value creation process were then integrated into strategy formulation process in settling KPIs, driving behaviours, measurement of performance and determine the remuneration packages of our staff.

To assist in pinpointing material topics, adjust the Bank's strategy to address the "new normal" and actively contribute to shaping the recovery, the Bank conducted an analysis of its external environment. This analysis aimed to identify issues stemming from shifts catalysed by recent developments in the political, economic, social, technological, environmental and legal/regulatory domains that were pertinent to key stakeholder groups, as outlined below:

43

#### **Management approach**

The Bank prioritises the interests of all stakeholders and thus adheres to principles of mutuality and shared value, ensuring that value is both delivered to and derived from them, ultimately resulting in value creation for all parties involved.

In managing its material topics, the Bank integrates them into its strategic planning process. This involves assigning accountability to the heads of relevant divisions within the Bank and allocating resources accordingly based on the importance of each material topic in achieving strategic objectives. Goals and targets related to these material topics are integrated into the Key Performance Indicators (KPIs) of Key Management Personnel (KMP) and are regularly reviewed to ensure alignment with the Bank's objectives. Numerous policies have been established to ensure that staff conduct activities responsibly, transparently and ethically in managing material topics. The Board of Directors has formally adopted these policies, which undergo regular review at predetermined intervals to ensure they remain current and reflective of changing conditions. The Integrated Risk Management Department (IRMD) monitors timely revisions to these policies and reports its findings to the Board Integrated Risk Management Committee (BIRMC).

When applicable, grievance mechanisms have been established, with divisional heads assigned responsibility for managing, addressing and resolving grievances. The Bank also screens its lending to customers and dealings with business partners for social and environmental considerations. Periodic internal and external audits and verifications are conducted to ensure adherence to internal controls, policies and procedures established to achieve the objectives of material topics. Findings from these audits are reported to the Board of Directors and/or relevant Management Committees for review and corrective action, as needed.

The overall risk profile of the Bank, as depicted by its rating and the awards and accolades it has secured over the years, serves as a clear demonstration of the effectiveness of the management approach.

### Material topics, risks, opportunities, how we manage and GRI disclosures

The Bank has identified material topics mapped into the blocks representing high importance to stakeholders and high and moderate importance to the Bank under both opportunities to be capitalised on and risks to be managed in the Materiality Matrix shown above.

### Material topics, risks, opportunities, how we manage and GRI disclosures

Table – 04

				Table – 04
Material matters	Risks	Opportunities	How we manage	GRI disclosure
Policy inconsistency	Difficulties encountered in the process of planning and budgeting and risk of being unable to comply with regulatory requirements,		Increasing the stress levels of the parameters used for and frequency of stress testing.	GRI 201: Economic Performance GRI 207: Tax
	leading to strategic risks.		Frequently reviewing strategies and goals against changes in the external environment.	
Economic slowdown	Stifled business growth affecting value creation and resulting disappointment among the stakeholders.	Being prepared to meet the pent up demand that could arise when the situation comes back to normalcy.	Being alert to the developments and maintaining fundamentals to exploit opportunities when they come.	GRI 201: Economic Performance
New regulations, compliance requirements and directives	Increased costs in implementation, modification and monitoring of process and the risk of not being compliant.	Good governance is the bedrock of a sustainable business and helps boost stakeholder confidence.	Bank is committed to being compliant to the letter and spirit of rules and regulations and believes in commitment to good governance provides a strong footing for	GRI 205: Anti-corruption GRI 206: Anti-competitive
5 and 12			sustainable growth. Please refer section on "Annual Corporate Governance Report" on pages 177 to 194.	Behaviour
Transparency and accountability	Non-disclosure of adequate information may give rise to reputation risks and regulatory pressures.	Transparency breeds extra assurance on the Bank, creates trust, leverages faith that will be seen in an upsurge of stakeholder engagement. It will	Bank's approach on transparency and accountability is discussed in detail on the section on "Annual Corporate Governance Report" on	GRI 205: Anti-corruption GRI 207: Tax
	Increased demand for forward looking strategic direction by investors over conventional reporting of past performance.	also help reduce risks of unwarranted suspicion and help achieve faster resolution of issues and reputation related risks.	D pages 177 to 194.	
Downgrading of sovereign rating	Reduction of international trade transaction volumes and hampers the ability to raise foreign currency in the international market	Healthy mix of foreign currency portfolios and Bank's regional presence supporting foreign currency liquidity supports Bank's ability to sustain its foreign currency transactions.	Bank's strength in the foreign currency mix in the balance sheet, built over the years and our regional presence has supported sustain our foreign currency operations. the section "Managing and Funding Liquidity" on D page 72 provides as insight how the Bank managed the impacts of this material aspect.	GRI 201: Economic Performance
Asset growth and asset quality	As a financial intermediary, Bank's value creation depends heavily on its ability to gear its capital in terms of assets and the quality of those assets. Inability to grow assets and deterioration in asset quality will lead to regulatory issues, stifled business growth and disappointment of stakeholders.	Growing the asset base and improving asset quality by strengthening credit evaluation and post disbursement monitoring mechanisms, using predictive capabilities.	The Bank implemented an Early Warning Signals system with predictive capabilities that can possible deterioration in asset quality 9-12 months in advance.	GRI 201: Economic Performance
Changing customer expectations	Customers, millennial in particular tend to value simplicity, convenience and experience above everything else in their interactions with the Bank, creating a risk for the Bank in maintaining customer loyalty by providing its services in a conventional manner.	Augmenting customer experience to capture the new age customers by investing in state-of-the-art technologies to replace legacy systems and reskilling staff for the digital age.	Investing in new technologies, implementing the Digital Road Map and continuous development of staff knowledge on emerging technologies.	GRI 203: Indirect Economic Impacts
Migration towards digital platforms nd 39	Failure to migrate to digital platforms and deploy new technologies such as AI, Robotics, blockchain etc. will affect customer service and their experience as well as operational efficiency.	Migration to digital platforms and deploying new technologies such as AI, Robotics, blockchain etc. will augment customer service and their experience as well as operational efficiency.	The Bank has introduced many digital platforms and apps to suit the divergent customer base of the Bank and is gradually introducing new technologies for its internal operations.	GRI 203: Indirect Economic Impacts

Material matters	Risks	Opportunities	How we manage	GRI disclosure
Cyber security	Cyber threats continue to increase globally and the need to protect the integrity and privacy of data becoming important than ever before. The pandemic has fuelled the risk of cyber attacks and thefts.	Having a robust cyber security programme boosts customer confidence in embracing and using digital platform and provides a distinctive advantage over competition in digital banking space.	A high importance is placed on this critical aspect and is always on the toes. Internationally recognised certifications we hold vets the robustness in our security systems. For more details please refer the section "IT Risk" in Risk Governance and Management report on pages 252 and 253.	GRI 418: Customer Privacy
Productivity	With the conventional business model, the profitability of the financial services industry has been declining globally over the past several decades. Productivity is an important aspect that will help to improve profitability. Failure to adopt mechanisms such as automation and digitalisation will make the Bank less attractive to most of the stakeholders.	Enhancing profitability through investing in automation and digitalisation to enhance operational efficiency and improve profitability and attractiveness of the Bank to them.	Investing in new technologies, implementing the Digital Road Map and continuous development of staff focussing on digital channels to facilitate the entire customer journey.	GRI 203: Indirect Economic Impacts
Talent management 22	Among the risks brought about by the pandemic and the aftermaths of the political and economic unrest are the high staff attrition, health and safety of the workforce, sustaining critical operations, sudden adjustments in to new working conditions top the list. Staff retention and recruitment becoming more challenging.	Adoption of digital means for remote working results in enhancing technology related skills and prompt rethinking of working conditions that may improve work-life balance and reduction in costs.	The Bank has given utmost priority when it comes to investing in employee training and development and placing safety of employees first by providing a safe working environment. Deviating from the conventional practices, the Bank is successfully experimenting newer methods and levels to recruit staff such as recruiting more Management trainees recruiting A/L students awaiting results as banking interns, creating new categories of employment for certain specialised categories of staff such as IT staff.	GRI 404: Training and Education GRI 405: Diversity and Equal Opportunity GRI 403: Occupational Health and Safety
Need to reskill employees 23	The Bank being unable to meet the stakeholder expectations, millennial customers in particular, due to the staff not being reskilled to keep abreast with the latest technologies.	Proper reskilling of staff and helping and encouraging them to keep abreast with the latest technologies will help to delight customers and create "moments of truth".	Continuous training and development of staff and incentivising them to keep abreast with technologies used in the Bank.	GRI 401: Employment
Health and safety	Inability to ensure health and safety of staff will affect their work life balance and productivity and operational efficiency of the Bank. It may also lead to reputational risk.	Ensuring health and safety of staff will help the Bank to improve its efficiency of operations, productivity and profitability.	The Bank conducted regular firedrills and maintains safe buildings with clear signboards for emergencies. Further, a number of health awareness programmes were conducted to enhance employee health.	GRI 401: Employment GRI 403: Occupational Health and Safety
Need to commit to SDGs 23	As a national bank, failure to commit and work towards UN Sustainable Development Goals will seriously affect the sustainability of the banking operations and also cause reputational risk.	Commitment to UN Sustainable Development Goals will improve the sustainability of the banking operations and minimise reputational risk. This also makes the Bank's business model future-ready	Bank is explicitly committed and working towards 8 out of the 17 UN Sustainable Development Goals. Strategic initiatives in this regard are stemming from the Bank's Sustainability Framework and are built into the strategy.	GRI 203: Indirect Economic Impacts

Material matters	Risks	Opportunities	How we manage	GRI disclosure
Drug pedalling and drug and alcohol addiction 35	Failure to detect instances of money laundering and related compliance and reputational risks. Also, drug and alcohol addicts can cause an increase in security related risks.		Compliance with all the applicable rules and regulations. Continuous strengthening of systems and procedures relating to detection and prevention of the use of the Bank for money laundering operations.	GRI 205: Anti-corruption
Climate Change	Increasing frequency and magnitude of natural disasters may affect infrastructure, banking operations, business growth, operating costs, asset quality and pause reputational risks.	Responsible lending through Social and Environment screening may help reduce reputational risks and maintain asset quality.	Though the Bank's own footprint is minimal, it endeavours to minimise same through adopting green processes, moving to green buildings and generating solar energy for it operations. However, the Bank could make a bigger impact through its lending to renewal energy generation, greening of processes and screening for environmental impacts on businesses we lend to. Further, moving towards climate change mitigation procedures, such as reforestation with saplings, remote and hybrid work options lessening the commuting- dependent emissions are also helpful in this regard. How we do this is detailed in the section on "Climate Position Statement" on page 99.	GRI 302: Energy GRI 305: Emission
Being socially responsible 37	The world, increasingly ideological, will mandate that the Bank focuses on diversity factor to ensure that social justice, inclusivity and stakeholder welfare as apex issues.	Collaboration with Fin-Tech could open up new avenues to reach untapped markets and evolve alongside changing customer expectations. Advancement in new technologies such as Artificial Intelligence, Robotics and Block Chain could be used to boost operational excellence.	We believe in sharing the value created with the society we operate. Hence, the Bank has set up a CSR Trust for undertaking projects for improving the quality of education, health, culture & heritage and preservation of environment. Please refer section "Community Engagement – Outreach on pages 112 to 119.	GRI 203: Indirect Economic Impacts
Partnerships for goals 33	Interruption to critical services could disrupt smooth execution of the Bank's operations. Unorthodox competition, financial disintermediation and failure to collaborate may threaten the conventional business model.	Increasing awareness and tendency towards renewable energy and greening of buildings and processes bring about green financing opportunities. Initiatives in countering impacts of carbon emission. Adopting a collaborative approach to co-create and offer products and services.	The Bank's continued it efforts on building win-win partnerships and constantly seek for avenues to leverage evolving new technologies for the development of our own products, services, and delivery, described more in section on "Leading through Innovation" on pages 91 to 95.	GRI 206: Anti-competitive Behaviour

# **Operating context and outlook**

We recommend the readers to review the Bank's performance detailed in this Annual Report alongside the global and local developments and projections outlined below, since it offers the underlying context for a comprehensive understanding.

#### **Global economy**

In 2023, the global economy exhibited resilience amid several significant challenges, including the ongoing recovery from the COVID-19 pandemic, geopolitical tensions resulting from Russia's invasion of Ukraine and the cost-of-living crisis. Despite these hurdles, the global economic recovery remained robust, with inflation falling faster than anticipated from its peak in 2022. This decline in inflation was attributed to favourable supply-side developments and central bank tightening measures, which helped to anchor inflation expectations.

Economic growth exceeded expectations in the second half of 2023, particularly in the United States and several major emerging market economies. Both government and private spending contributed to this upswing, supported by real disposable income gains and a supply-side expansion characterised by increased labour force participation and resolution of pandemic-era supply chain issues.

However, geopolitical tensions, such as the conflict in Gaza and Israel and ongoing warfare in Ukraine, posed risks to the global recovery. Continued attacks in key trade routes and potential supply disruptions threatened to generate adverse shocks to the global economy, particularly in terms of food, energy and transportation costs.

Looking ahead to 2024, global growth is projected to reach 3.1%, with a slight increase to 3.2% in 2025. Despite this positive outlook, forecasts remain below historical averages due to factors such as elevated central bank policy rates to combat inflation and fiscal tightening amid high debt levels. Global headline inflation is expected to decrease to 5.8% in 2024.

Although the likelihood of a hard landing has diminished, policymakers face the challenge of managing inflation while supporting economic growth. This requires a careful calibration of monetary policy and, in many cases, a renewed focus on fiscal consolidation to address budgetary concerns and curb the rise of public debt.

Targeted structural reforms are also deemed necessary to enhance productivity growth and debt sustainability, as well as to facilitate the transition to higher income levels. Additionally, efficient multilateral coordination is essential for debt resolution and climate change mitigation efforts to mitigate the adverse effects of these challenges on the global economy.

#### World Economic Outlook Projections (% change)

			Table – 05
	2022	2023 Est.	2024 Proj.
World Output	3.5	3.1	3.1
Advanced Economies	2.6	1.6	1.5
United States	1.9	2.5	2.1
Euro Area	3.4	0.5	0.9

Oil (***)	39.2	-16.0	-2.3

\* For India, data and projections are presented on a fiscal year (FY) basis, with FY 2022/23 (starting in April 2022) shown in the 2022 column. India's growth projections are 5.7% in 2024.

\*\* Simple average of growth rates for export and import volumes (goods and services)

\*\*\* Simple average of prices of UK Brent, Dubai Fateh and West Texas Intermediate crude oil. The average assumed price of oil in US dollars a barrel, based on futures markets (as of November 29, 2023), is \$79.10 in 2024.

Source: IMF World Economic Outlook – January 2024

		lobal
	2023	2024
Growth Outlook	Global growth is estimated to have slowed down to 3.1% in 2023 compared to 3.5% in 2022. Graph – 01 GDP growth 2022 2023 (estimated) 2024 (projected)	Global growth is projected at 3.1% in 2024 by the IMF. High interest rates aimed at fighting inflation and a withdrawal of fiscal support amid high debt are expected to weigh on growth in 2024.
Inflation	Inflation fell faster than expected from its 2022 peak, with a smaller-than-expected toll on employment and activity, reflecting favourable supply-side developments and tightening by central banks, which has kept inflation expectations anchored. Global headline inflation in 2023 is estimated at 6.3% (annual average).	Global headline inflation is expected to fall to 5.8% in 2024. The drivers of declining inflation differ by country but generally reflect lower core inflation as a result of still-tight monetary policies, a related softening in labour markets and pass-through effects from earlier and ongoing declines in relative energy prices.
Interest Rates	To reduce inflation, major central banks raised policy interest rates to restrictive levels in 2023.	The faster-than-expected fall in inflation is allowing an increasing number of central banks to move from raising policy rates to adjusting to a less restrictive stance.
Exchange Rate	The dollar ended 2023 with its first loss since 2020 against the euro and a basket of currencies on expectations the U.S. Federal Reserve will begin cutting rates in 2024 as inflation moderates.	With inflation hovering well above the Fed's 2% target and the US economy showing a resilience few had predicted, the markets have priced in a scenario where interest rates remain high for longer.
Trade	Global trade has experienced a decline throughout 2023, primarily influenced by diminished demand in developed nations, under performance in East Asia economies and a decrease in commodity prices – UNCTAD.	According to UNCTAD, forecast for global trade in 2024 remained highly uncertain and generally pessimistic. While certain economic indicators hint at potential improvements, persistent geopolitical tensions, high levels of debt and widespread economic fragility are anticipated to exert negative influences on global trade patterns.

#### Sri Lankan economy

Despite facing multiple crises, the Sri Lankan economy has achieved a degree of macroeconomic stability through adherence to the IMF program and its recommendations. Moving forward, the focus is on timely implementation of agreements and resolving issues with external private creditors to restore the country's debt sustainability over the medium term.

Key priorities for the government include advancing revenue mobilisation, aligning energy pricing with costs, strengthening social safety nets, rebuilding external buffers, safeguarding financial stability, eradicating corruption and enhancing governance, all in line with IMF expectations.

The IMF has emphasised that the Central Bank of Sri Lanka should maintain its focus on a multi-pronged disinflation strategy to safeguard the credibility of its inflation targeting regime, despite challenges posed by the increase in VAT to 18% in 2024 from 15% in 2023.

After bringing inflation down to 12% in June 2023, the Central Bank began relaxing its policy rates in June 2023 to stimulate economic growth. Positive economic growth was recorded in the third quarter of 2023, following consecutive contractions since the first quarter of 2022.

Credit to the private sector staged a recovery in June 2023 after a full year of negative growth, indicating a potential revival in economic activity. The external sector has shown resilience, with stability largely restored in 2023 supported by improved foreign exchange inflows.

Despite challenges, the banking sector continued to operate amidst adverse conditions in 2023, reflecting its resilience in navigating the recent economic crisis. Overall, concerted efforts are underway to address economic challenges and foster sustainable growth in Sri Lanka.

	Sri Lanka	n Economy	
	2023	2024	
Growth Outlook	Graph – 02: Quarterly GDP growth – Sri Lanka 2020, 2021 and 2022 ■ 2023 %	Central Bank of Sri Lanka projects that the Sri Lankan economy will expand by 3.3% in 2024. IMF forecast for GDP growth in 2024 is lower at 1.8%.	
	Towards the end of 2023, the Sri Lankan economy began displaying indications of a gradual recovery. Following consecutive contractions since the first quarter of 2022, positive economic growth of 1.6% was observed in the third quarter of 2023. However, the overall growth for 2023 is anticipated to be moderately negative with IMF projecting a 3.6% contraction.		
Inflation	After reaching unprecedented levels in 2022, inflation decreased to single-digit levels by mid-2023. Headline inflation, as measured by the year-on-year change in the Colombo Consumer Price Index (CCPI, 2021=100), was recorded at 4.0% in December 2023. Graph – 03: Inflation NCPI-Headline (Point to point %) CCPI-Headline (Point to point %) NCPI-Core (Point to point %) CCPI-Core % (Point to point %) NCPI-Core (Point to point %) CCPI-Core % (Point to point %) MCPI-Core (Point to point %) CCPI-Core % (Point to point %) MCPI-Core (Point to point %) CCPI-Core % (Point to point %) MCPI-Core (Point to point %) CCPI-Core % (Point to point %) MCPI-Core (Point to point %) CCPI-Core % (Point to point %) May Sep. Jan. May Sep. Jan. May Sep. Jan. May Sep. Jan.	An upward trajectory in headline inflation is anticipated in the near term, largely attributed to changes in VAT starting January 2024. The Central Bank of Sri Lanka aims to maintain CCPI-based headline inflation at around 5%.	
Interest Rates	Interest rates underwent downward adjustments in response to monetary policy easing initiated by the Central Bank since June 2023. Falling risk premiums, following the finalisation of the Domestic Debt Optimisation (DDO), also contributed to this trend. Graph – 04: Interest rates	More stable inflation rates, improved macroeconomic conditions and other policy measures are expected to alleviate upward pressure on interest rates going forward. However, towards the latter part of the year upward pressure on interest rates is expected in view of anticipated greater government borrowing pressure.	
Credit to Private Sector	Outstanding credit to the private sector by LCBs (month-on-month movement in absolute terms) which recorded contractions from May 2022 to May 2023, started increasing from June 2023. Credit to the private sector expanded notably on a month-on-month basis in November (by Rs. 62.9 Bn.) as well as December 2023 (by Rs. 102.6 Bn.).	The gradual normalisation of market lending interest rates, along with improving investor and business sentiments, is anticipated to bolster the expansion of credit to the private sector.	
Exchange Rate	Exchange rate stabilised below Rs. 330 per USD and ended 2023 at Rs. 324.25 per USD (appreciation of 13.18% during 2023).	An anticipated growth in imports in the light of an increase in economic activity is expected to exert downward pressure on the rupee although improvements in inflows from multilateral sources are expected to alleviate this pressure to some extent.	
External Sector	The cumulative deficit in the trade account in 2023 narrowed to the lowest since 2010 to USD 4.9 Bn. from USD 5.18 Bn. in 2022. Earnings from merchandise exports declined by 9.1%, to USD 11.9 Bn. The decline in industrial exports led by garments mainly contributed to the decline in export earnings. Expenditure on merchandise imports amounted to USD 16.8 Bn., recording a decline of 8.1%, year-on-year.	The decline in export earnings, particularly the significant drop in apparel export earnings, remains a critical concern for the Sri Lankan economy on the external front. The revival of apparel exports hinges on the timing of apparel export order revivals. In the event of any dela in this revival, the external current account's stability will heavily rely on earnings from tourism, remittances and services exports.	
Sovereign Credit Rating	Following the completion of the Domestic Debt Optimisation (DDO), credit rating agencies Fitch and S&P upgraded Sri Lanka's long-term local currency sovereign credit rating. Fitch upgraded the rating from RD to CCC-, while S&P raised it from SD to CCC+.	If Sri Lanka manages to successfully conclude its external debt optimisation it will help the country to obtain a better sovereign credit rating, thereby paving the way for commercial borrowings.	

#### **Bangladesh economy**

Bangladesh has emerged as a significant player on the global economic stage. Over the past decade, the country has witnessed remarkable economic growth while making strides in improving various socio-economic indicators. The agricultural sector remains a cornerstone of the economy, contributing significantly to GDP through key products such as rice and jute. Additionally, Bangladesh has solidified its position as a global leader in the garment industry, with the Ready-Made Garments (RMG) sector driving exports and employment opportunities. The services sector, including information technology and remittances, has also become a vital contributor to economic growth.

Despite these achievements, Bangladesh faces persistent challenges such as growing demand for infrastructure and widespread income inequality. However, the government's commitment to foreign investments, infrastructure development and social programs underscores its dedication to achieving sustainable development goals. Bangladesh's economic resilience, demonstrated during times of global adversity, positions it for continued growth and diversification.

In 2023, Bangladesh experienced a strong recovery from the COVID-19 pandemic, but its post-pandemic recovery was disrupted by challenges such as rising inflation, financial sector vulnerabilities, external pressure and global economic uncertainties. Despite these hurdles, the country remained on track to graduate from the Least Developed Country (LDC) status by 2026 and aimed to achieve upper middle-income status by 2031.

The ready-made garment industry continued to be the powerhouse of Bangladesh's economy, contributing over 80% of total exports. However, challenges such as lower demand among western consumers, geopolitical conflicts and labour unrest impacted export earnings. Additionally, rising fuel costs and energy production deficits strained government finances, leading to the depletion of foreign exchange reserves. To address these challenges and spur economic growth, Bangladesh focused on increasing investment-to-GDP ratios and implementing various infrastructure development projects. Projects such as the Rooppur Nuclear Power Plant, Metro Rail project in Dhaka and Padma Bridge have significantly improved connectivity and infrastructure across the country. Furthermore, the government aimed to enhance climate resilience through increased investments in adaptation measures.

Looking ahead to 2024, Bangladesh aims to moderate its GDP growth ambitions in light of potential challenges in the export sector. However, solid growth records and proactive policy measures are expected to sustain the country's economic momentum. Despite subdued performance in the capital market and challenges in trade financing, Bangladesh remains resilient and poised for continued growth and development.

#### **Banking sector**

In 2023, the Sri Lankan banking sector navigated through a challenging economic landscape marked by multiple crises, including the impact of the COVID-19 pandemic and the need for adherence to IMF programs. Despite these challenges, the sector achieved a degree of macroeconomic stability, with efforts focused on implementing IMF recommendations and restructuring initiatives.

Key highlights of the Sri Lankan banking sector in 2023 include:

- Loans and advances experienced a contraction on a year-on-year basis, while deposits recorded an increase, indicating mixed performance in credit and liquidity indicators.
- Profit After Tax of the banking sector significantly increased, attributed to a decline in new impairment allocation by banks, FCY denominated Government securities in particular, reflecting improved financial health.
- Efforts were made towards strengthening corporate governance frameworks to align with international best practices and enhanced transparency and accountability.

#### The Bank's performance compared to the Banking Sector

						Table – 06
		2023			2022	
	Banking Sector (*) End September 2023	Commercial Bank 2023	Market share % Commercial Bank	Banking Sector (*) End 2022	Commercial Bank 2022	Market share % Commercial Bank

[(\*) Banking Sector = Licensed Commercial Banks + Licensed Specialised Banks (Source: CBSL)]

Notes: (a) Excluding undrawn portion

(b) Total loans and advances including Stage 3 loans (c) Net of Stage 3 impairment (including undrawn portion)

Looking ahead to 2024, the Sri Lankan banking sector aims to build upon the progress made in 2023 and address ongoing challenges while capitalising on emerging opportunities.

The outlook for 2024 includes:

- Implementation of the Roadmap for the Restructuring and Recapitalisation of Nine Large Banks to ensure strong and adequately capitalised institutions.
- Proposed amendments to the Banking Act to further strengthen the legal and regulatory framework of licensed banks.

- Establishment of Business Revival Units in licensed banks to support the recovery of businesses, particularly Small and Medium Enterprises (SMEs) and corporates.
- Encouragement of consolidation among small and mid-sized banks to enhance scale, efficiency and financial strength.
- Revision and enactment of a new Payment and Settlement Systems Act to facilitate the expansion of payment innovations and digital transactions.

(d) The ratio of Stage 3 impairment to Stage 3 loans (including undrawn portion) (e) The ratio of total impairment to Total Loans and advances

> The Sri Lankan banking sector is poised to navigate through uncertainties and challenges in 2024 with resilience and adaptability, driven by concerted efforts to strengthen regulatory frameworks, enhance corporate governance and foster financial stability and growth.

- Uncertainties in relation to political stability in a year of elections

# **Business model for sustainable value creation** Bank's sustainability framework

The Bank's Business Model, designed for Sustainable Value Creation, is rooted in its Sustainability Framework (Figure 10). This framework embodies a 3-pillar approach to sustainability, encompassing the Bank's enduring viability as well as its commitment to societal and environmental well-being. This integrated strategy intertwines the Bank's sustainability as an ongoing enterprise with its responsibility towards the society and the environment.

The Bank has established a robust organisational structure led by the Executive Sustainability Committee which is supported by the Sustainability Working Committee with Board oversight to uphold ESG principles and undertake sustainability initiatives to ensure alignment with regulatory standards and the Central Bank's Sustainable Finance Roadmap, as detailed later in this section. Additionally, the Bank promotes sustainability internally through distribution of educational materials and conducting workshops to cultivate a culture of responsible behaviour among staff.

# Commercial Bank unveiled evolved logo, fusing blue with green to embody its holistic commitment to sustainability

# COMMERCIAL BANK

Commercial Bank proudly became the first corporate entity in Sri Lanka to introduce a green element to its corporate identity. It mirrors the Bank's strong commitment and the sincere dedication to sustainability, spanning diversity, social equity, inclusivity, good governance, transparency, accountability and eco-friendly financial solutions. This strategic initiative is expected to enhance the Bank's image and solidify its position as a forward-thinking institution dedicated to making a positive impact on Environment, Society and Governance (ESG).

With a strategic approach to sustainability across the three key pillars – Sustainable Banking, Responsible Organisation and Community Engagement – the Bank ensures holistic consideration of economic, social and environmental factors, fostering the best interests of all stakeholders at all times.

#### ESG and wider sustainability credentials

Demonstrating a strong commitment to ESG principles and wider sustainability initiatives, the Bank has established a robust organisational structure to guide, drive and oversee sustainability initiatives and compliance with regulatory standards. At the helm is the Executive Sustainability Committee, which convenes quarterly to ensure alignment with the Central Bank's Sustainable Finance Roadmap and other regulatory directives. This Committee oversees the implementation of sustainability principles throughout the Bank. Supporting this Committee is the Sustainability Working Committee (SWC), tasked with deliberating on and recommending sustainability initiatives. The SWC assesses proposed activities, evaluates their impact and identifies associated risks, ensuring alignment with broader sustainability objectives.

The Bank has accordingly integrated ESG considerations into its products, develops strategies for ESG risk management and discloses environmental and social impacts. It actively participates in international cooperation platforms, sharing knowledge and mobilising resources. The Bank's comprehensive reporting, aligned with Global Reporting Initiative (GRI) standards, showcases its contribution to the UN SDGs. It engages in initiatives such as mangrove replanting, planting 100,000 trees islandwide, reforestation and coral restoration, while promoting paperless banking and installing solar power at branches. The Bank's credit policy and lending guidelines emphasise responsible lending and minimising environmental risks. During the year, the Bank implemented a Board-approved Green Financing Policy. These efforts have earned the Bank numerous awards and recognition

for its ESG and sustainability credentials, which included Best Bank for Environmental, Social and Governance (ESG) Sri Lanka 2023 by Global Business Review Magazine, UAE and highly recommended – Best ESG Offering by Private Banker International Global Wealth Awards 2023, Singapore for Sustainable initiatives carbon neutral bank road map and paperless banking initiatives.

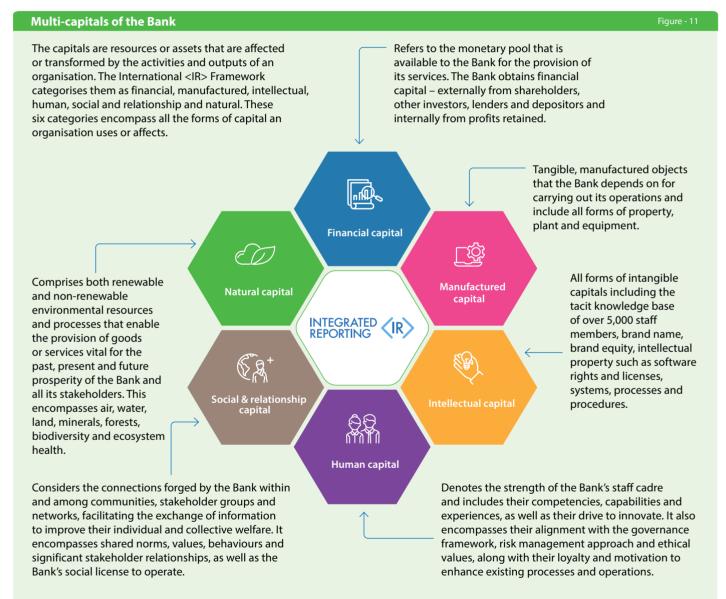

Additionally, internal communication efforts, facilitated through platforms like ComPulse, disseminate educational materials on responsible and sustainable behaviours to staff members. Workshops on 4R (Reduce, Reuse, Recycle and Recover) and Circular Economy concepts further enhance staff understanding and engagement with sustainability practices. Through these structures and initiatives, the Bank fosters a culture of sustainability within its operations.

## Financial intermediation and maturity transformation

Leveraging the Bank's strengths for long term value creation, its resilient business model centers on two primary activities: financial intermediation and maturity transformation.

Financial intermediation involves acting as a bridge between stakeholders—especially depositors and borrowers—converting deposits into investments and assets. Meanwhile, maturity transformation focuses on transforming short-term funds into longterm lending and investments. Effectively allocating financial resources for these activities is crucial for the country's overall economic growth. These activities harness resources from various capital sources including Financial, Manufactured, Intellectual, Human, Social and Relationship and Natural capitals.

Figure 11 below depicts these six capitals, followed by a brief narrative of each.

The Bank's Business Model given on pages 58 and 59 and the Statement of Capital Position given on pages 60 and 61 demonstrate how the Bank draws on these capital inputs and how its activities transform them into outputs.

These resources are then transformed into outputs, resulting in outcomes that benefit the stakeholders who contribute and own these capital inputs. One of the content elements in an integrated report as per the International Integrated Reporting Framework is the disclosure of the business model. Accordingly, given below is a narrative guide to the visual depiction of the Business Model (Figure 12 on pages 58 and 59) and the Statement of Capital Position (Table 07 on pages 60 and 61).

Stakeholders fuel the Bank's operations, providing essential resources termed as "capitals" within the Business Model (Figure 12 on pages 58 and 59). Beyond financial capital, these inputs encompass institutional knowledge, brand equity and robust stakeholder relationships often labeled as "off-balance sheet" or "hidden" capitals. These inputs are actively leveraged, capitalising on them to produce outputs key products and services and valuable outcomes for both the Bank and its stakeholders. This dynamic process, depicted in the Business Model, illustrates constant capital circulation and ongoing value creation, captured within this Integrated Report for the year 2023. The Statement of Capital Position provides a snapshot of the Bank's capital status, highlighting various indicators under each capital.

#### **Statement of capital position**

The Bank's actions in advancing financial intermediation and maturity transformation, along with the ensuing interactions among capitals, fortify these capitals and reflect the year's value creation, evident in the Bank's Statement of Capital Position at the start and the end of 2023 (Table 07 on pages 60 and 61).

Two primary income streams – net interest income from fund-based operations and fee and commission income from fee-based operations – boost the Bank's financial capital. The process of delivering value to and deriving value from various stakeholders also elevates other capitals. In fund-based operations, money is mobilised from depositors and other external sources for lending and investment, generating interest income and costs. The resultant net interest income compensates the Bank for credit, funding and interest rate risks. The Bank generated 70.36% of its total operating income from net interest income in 2023 (2022 – 61.51%). Fee-based operations, encompassing all other services provided by the Bank, generated the remaining 29.64% of the total operating income (2022 – 38.49%). Showcasing efficient financial intermediation, the Bank grew its deposit base by 8.92%, the lending portfolio by 3.76% and fee and commission income by 16.65% during the year under review.

#### Gearing

Financial intermediation and maturity transformation distinguish the Bank's business model from typical corporations. As a commercial bank relying mostly on customer deposits for funding, the Bank employs gearing to compensate for the comparatively lower Return on Assets (ROA) and meet acceptable Return on Equity (ROE) targets for investors. Gearing involves expanding business scope by increasing deposits, securing additional funding and leveraging these resources through lending or investments to amplify the loan book and investment portfolios based on existing capital.

This strategy, fundamental in banking, enables handling business volumes nearly 10 times greater than available equity, primarily fueled by the ability to mobilise deposits from the public. However, gearing poses multiple internal and external risks, accentuated by emerging global shifts potentially disrupting this model. The Bank, as outlined in this Annual Report, has established robust risk governance and management frameworks, overseen by the Board, effectively navigating and mitigating such risks.

For an in-depth understanding of the Bank's capital, risk-weighted assets and Capital Adequacy Ratios, III refer to Annex 2 Basel III – Disclosures under Pillar III as per the Banking Act Direction No. 1 of 2016 on pages 451 to 463.

#### **Stakeholder returns**

As illustrated in Table 07 on pages 60 and 61 within the Statement of Capital Position, the Bank has consistently enhanced profitability while prudently managing gearing levels. This profitability mirrors the net impact of value creation for stakeholders-reflecting in investor returns through earnings, dividends and share price appreciation. Ending 2023 with the highest market capitalisation among banking institutions and ninth among all CSE-listed companies, the Bank's Investor Relations section details its shares' performance.

As an established regional bank, the Bank is actively seeking opportunities for inorganic growth and regional expansion, while aiming for organic growth in Sri Lanka, Bangladesh, the Maldives and Myanmar. The exclusive long-term bancassurance partnership the Bank entered into with AIA during the year, which will enable the Bank to draw on AIA's best in class capabilities and AIA to leverage the Bank's meaningful connections with the local communities is a case in point. Such strategic moves aim to diversify risk exposure and revenue streams, strengthening operational sustainability and long-term value creation.

# **Business model**

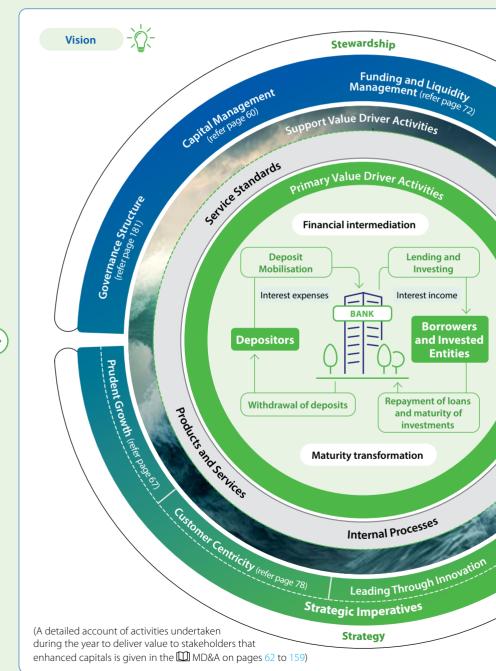

#### INPUTS

"Raw materials" for the value driver activities drawn from capitals. Please refer page 60 of the Statement of Capital Position for the opening capital position as at January 01, 2023 of different capitals built by the Bank over the past 104 years.

### VALUE DRIVER ACTIVITIES

Include primary, support and other value driver activities that promoted growth, positive stakeholder interactions and minimise risk. It is the inputs from the capitals together with relationships, interactions, interdependencies and trade-offs among capitals that generated outputs, leading to creation of value reflected in capitals.

Operating Environment that provides context for value creation (III) Refer pages 38 to 53)

### **OUTPUTS**

Products and services and externalities generated through the value driver activities.

# **Management discussion and analysis**

#### Value creation and capital formation

Value creation and capital formation are integral aspects of any organisation's growth and success. In today's dynamic business landscape, organisations need to go beyond financial value and consider a broader range of capitals to drive sustainable growth. This integrated report showcases the value the Bank has created for its stakeholders, evident in various types of capital described here and the Bank's consistent ability to derive value from these capitals in the short, medium and long term.

#### **Multi-capital model**

Utilising a "multi-capital" model is a fundamental principle of Integrated Reporting, allowing us to comprehensively understand and disclose the diverse facets of value creation, transcending beyond mere financial gains. This interconnectedness underscores the significance of delivering value - both financial and non-financial - to investors, customers, employees, partners, regulators, society and the environment, which in turn drives our future earnings and intrinsic value. This holistic approach and the underlying duality of value creation, i.e. delivering value to and deriving value from various stakeholders, is epitomised by the multi-capital model, which acknowledges different forms of capital, including financial, manufactured, intellectual, human, social and relationship and natural capital.

The interconnectedness of these capitals is paramount, as the Bank's ability to generate value for stakeholders and for itself is intricately linked. The greater the value the Bank generates for its stakeholders, the greater the value the Bank can expect in return. By embracing a broader perspective of value creation beyond financial metrics, the Bank has been able to capture a more comprehensive range of information and enhance its disclosures relating to the value creation process.

### Strategic imperatives and capital formation

To drive value creation over the short, medium and long term, the Bank needs to focus on its strategic imperatives. These imperatives serve as guiding principles for sustainable growth and include prudent growth, customer centricity, leading through innovation and operational excellence.

- Prudent growth involves astute business expansion with a long-term perspective, ensuring sustainable value creation.
- Customer centricity emphasises enhancing the quality of stakeholder interactions and experiences, leading to increased value for both the Bank and its customers.
- Leading through innovation encourages the Bank to continuously innovate and improve, driving value creation through new products, services and processes.
- Operational excellence focuses on enhancing operational efficiencies to improve productivity and customer service, leading to value creation.

Capital formation is a result of strategic actions undertaken by the Bank to grow its stock of capitals and create value. These actions, often referred to as value driver activities, contribute to the growth of financial, manufactured, intellectual, human, social and relationship and natural capitals. The Management Discussion and Analysis (pages 62 to 159) structured on our Sustainability Framework and strategic imperatives, depicts how we steer strategic actions to grow our capitals and create value.

The Statement of Capital Position (Table 07 on page 60 and 61) reflects the value amassed over 104 years as a result of these actions and the relationships they foster, fueling our future expansion and value generation, distinguishing us among private sector banks.

Table 03 on page 40 and 41 highlights the structured mechanisms of the Bank for stakeholder engagement process and how it aids in adapting to challenges, fortifying our business model, fostering innovation and guiding strategic planning.

### Sustainability and long-term value creation

The Bank always focuses on long-term sustainability and value creation. By aligning its actions with Sustainable Development Goals (SDGs) and adhering to guiding principles, the Bank contributes to a more sustainable future while creating value.

Furthermore, the Bank strives to diversify its risk exposures and revenue streams geographically. This expansion, both organic and inorganic, helps improve the sustainability and long-term value creation of its operations. By constantly seeking opportunities for growth and innovation, the Bank has been able to ensure its continued success and value creation and make a positive impact on the world.

# Strategic imperatives and actions

#### Activities

Activities leading to value creation are detailed under the four strategic imperatives on pages 66 to 96.

Customers

Society and

environment

Stakeholders to whom value was delivered and from whom value was derived

Government institutions and regulators

### **Prudent growth**

Growing the business astutely with a long-term perspective

#### Short-term

- Maintaining capital buffers and optimum liquidity to remain well capitalised and liquid in support of sustaining the Bank's growth trajectory
- Increasing penetration among multiple customer segments, towards making banking a lifestyle product
- Encouraging sustainable growth in SMEs and related communities, through creation of ecosystems
- Making responsible investments by financing Green Banking projects and employing the Social and Environmental Management System to assess sustainability in all lending activities
- Focus growth in women banking to increase financial inclusivity

#### Medium-term

- Creation of ecosystems to support customer communities for continuous sustainable growth
- Strengthening risk governance and management to enhance asset quality
- Further diversification of the portfolio by customer, product, sector, currency and geography

#### Long-term

- Focus on creating long-term value for all our stakeholders
- Focus on making banking a lifestyle by integrating it into our customers' lifecycle
- Strengthening our proposition as a financial intermediary, supported via an omni-channel platform

### **Customer centricity**

Providing the experience, simplicity and convenience that customers value most today

#### Short-term

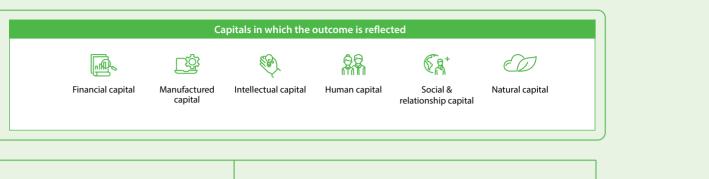

- Understanding customer expectations to build our capabilities in service excellence around customer journeys
- Revisiting and enhancing customer journeys to provide convenience and creating customer loyalty
- Connecting customers through multiple platforms facilitating simplicity and convenience, a step towards integrating banking as a lifestyle
- Partnering businesses ecosystems to provide innovative solutions to support and grow the Corporate customer base
- Providing greater opportunities for growth to our SME customers through networking and capacity building, augmenting the SME value proposition
- Providing greater opportunities for financial inclusion for our micro customers through responsible lending
- Implementing a customer experience measurement platform to gather customer feedback and obtain insights on their interactions with the Bank to identify improvements required
- Enabling host-to-host (H2H) connectivity for corporate customers enabling them to connect their ERP systems to the Bank

#### Medium-term

- Supporting the community by investing in innovative solutions for the well-being of both existing and potential customers
- Enhancing technology to support our efforts in continuous customer engagements and enduring partnerships

#### Long-term

- Creating a culture centered around customer experience
- Establishing a governance framework to measure and monitor customer experience

### Leading through innovation

Innovating to enhance the quality of stakeholder interactions and experience

#### Short-term

- Bolster the technological infrastructure and digital capabilities guided by a unified technology roadmap
- Creating complete digital banking platforms integrated with all system networks and eco-systems to provide a one-stop-shop experience for customers across all segments
- Increasing the proportion of digital usage by facilitating and encouraging digital transactions and interactions
- Segmenting customers through data analytics to identify and serve unique banking needs and deliver personalised user experiences
- Redesigning conventional banking processes as digital processes to create end-to-end digital solutions
- Investing in cyber security to create a safe space for the Bank's digitalisation initiatives

#### Medium-term

- Fortifying digital leadership by leveraging platforms and technologies to align with changing customer aspirations
- Investing in creating a seamless customer journey through integration of multiple platforms and syncing the physical and digital experience

#### Long-term

- Optimising the Bank's branch network together with the Digital Transformation
- Standardising the services offered across the network

### **Operational excellence**

Enhancing operational efficiencies for better productivity and customer service

#### Short-term

- Facilitating customer connect and service excellence through technology and process improvements
- Centralising work processes to enable branches concentrate more on business development and managing customer relationships
- Re-engineering business processes by deploying technological and automation for meeting changing business needs and service standards
- Optimising resources by maintaining an optimum mix of CAPEX and OPEX models
- Investing in employees to better align them with the changing needs and to improve productivity
- Implementation of a CRM system with added functionalities for tracking sales from end to end

#### Medium-term

- Safeguarding the environment by continuously reducing our carbon footprint to contribute to the fight against climate change
- Evaluating core and non-core banking activities for insourcing
- Development of a comprehensive climate transition plan

#### Long-term

- Invest in creating the right technological architecture to support the Bank's Digital journey
- Optimising the branch model amidst our digitalisation efforts
- Achieving "Net Zero" status by the year 2050

# Sustainable banking – Value creation

In the pursuit of sustainable banking practices, the Commercial Bank of Ceylon PLC has embraced a strategic framework that focuses on value creation through **prudent growth**, **customer centricity, leading through innovation** and **operational excellence.** 

These four pillars form the foundation of the Bank's commitment to delivering long-term value for its stakeholders while addressing the challenges and opportunities of an ever-evolving banking landscape. By leveraging its strengths, understanding customer expectations, fostering innovation, financial inclusion and ensuring operational efficiency, the Bank aims to create a positive impact on the society, the environment and the economy. This introduction sets the stage for a comprehensive exploration of how the Bank's sustainable banking practices drive value creation and contribute to its overall success.

Throughout the year, the Bank maintained a vigilant stance, prudently navigating the risks inherent in its business model for responsible financing. This cautious approach was deliberate, aiming for responsible value creation across its diverse stakeholder base. Particularly within its lending portfolio, consistently exposed to elevated risks, the Bank proactively adjusted its risk management strategies. This recalibration aimed to mitigate risks and infuse greater prudence into the Bank's multifaceted approaches, ensuring continued relevance and timeliness. Although the Sri Lankan economy showed signs of stabilisation in 2023 with pivotal reforms introduced, the uncertainty of the economic performance continued to burden the Bank's operating environment. The above realities required recognition to manage the risk-elevated landscapes with prudent planning, driving reciprocals of mutual growth.

In a climate fraught with risks, the Bank's imperative is to remain a steady and accountable force, ensuring stakeholders find empowerment through the Bank's ongoing commitment as the cornerstone of their financial aspirations. Partnerships for the Bank encompass various relationships, spanning investors, customers, employees, government institutions and regulators, business partners and the society and the environment - essential stakeholders forming an interconnected network relying on each other for their prosperity and sustenance. The Bank's core mission remains centered on providing responsible financial products, leveraging strengths and deriving insights from daily encounters to bolster the financial well-being of all involved stakeholders.

### Prudent growth

## Growing the business astutely with a long-term perspective

In the dynamic landscape of banking, prudent growth demands a delicate balance: leveraging strengths, capitalising on select opportunities, risk management and mitigating the impact of threats. The year under review had its share of the challenges, mostly flowing from the immediately preceding year(s), as detailed in Operating Context and Outlook on pages 48 to 53. Sovereign rating downgrade, managing NPCF and loan book expansion stood out as key challenges.

Nevertheless, as the leading private sector bank in Sri Lanka, serving over four million customers, Commercial Bank remained committed to meticulous governance and robust capitalisation. Prudent Growth, ensuring stakeholder value creation across short, medium and long term, remained central, with a continued focus on operational agility, innovation, workforce evolution, risk management and exemplary governance for driving growth.

Safeguarding stakeholders against internal and external stresses is integral to prudent growth. The following narrative highlights how the banking ecosystem navigated this growth, emphasising holistic sustainability as a guiding principle amid disruptive times. Prudent growth extends beyond the broader vision, encapsulating the meticulous details in the Bank's operations to ensure stakeholder protection. This methodical approach establishes a benchmark for the Bank's functioning, emphasising safety and sustainability as core strengths amid times of disruption.

Furthermore, the Bank remained committed to being well-capitalised and liquid, adhering to sound capital and liquidity requirements. This commitment not only strengthened the Bank's financial position but also enhanced its ability to withstand economic shocks and uncertainties. Adopting a well-diversified approach, the Bank minimised concentration risks across various parameters, including geography, customers, products, sectors and currencies. This strategic action further contributed to the Bank's long-term viability by reducing vulnerabilities to specific market conditions or events.

#### **Creating long-term value**

The Bank is poised to confront the hurdles facing the banking sector and contribute

to the economic stability. Commercial Bank is renowned for its commitment to sustainable value generation for all involved. With a robust local presence and a regional influence, it holds substantial financial leverage, impacting various domains and engaging diverse stakeholders. The Bank's cautious approach to risk has been a cornerstone of stability, earning the trust of a strong base of stakeholders who rely on its diverse range of financial offerings to create value.

### Our commitment to prudent growth

- Diversification of operations
- Prudent Capital Management
- Liquidity Management
- Optimising financial resources
- Prudent impairment provisioning
- Leveraging data analytics and predictive capabilities
- Robust Governance and Risk Management framework
- Compliance with laws and regulations (both in letter and in spirit)
- Products and services to cater to the green financing activities
- Social and Environmental Management System (SEMS)

- First private sector bank to cross Rs. 2.5 Tn. in assets and Rs. 2.0 Tn. deposits
- Comfortable level of liquidity
- Highest market capitalisation in the Banking sector
- Impaired Loans (Stage 3) Ratio 5.85%
- Stage 3 provision coverage at 43.22%
- Recognising growth opportunities
- Conservative risk profile
- Transparency in reporting and disclosures
- 1st Sri Lankan Bank to have a Green Financing Taxonomy
- 1st Bank to introduce SEMS

The Bank's robust market share in exports. successful worker remittances business, industry best CASA ratio and wellestablished overseas operations, particularly in Bangladesh and the Maldives, have fortified its resilience. Its sterling reputation both internationally and domestically expedites its operations across borders. Moreover, its comprehensive governance and risk management frameworks ensure comprehensive coverage and readiness to manage risks and seize opportunities, driving sustainable financial performance. The loyalty of its multi-generational customer base positions the Bank as a leader across retail, corporate and SME banking segments, fostering a responsible approach to managing its loans and advances portfolio. With a dynamic and highly skilled team, the Bank is primed to tackle challenges and foster enduring relationships, offering practical solutions to its customers' needs.

In 2023, despite the significant appreciation of the Sri Lankan Rupee by 13.18% during the year, the Bank witnessed a 8.92% increase in its deposit base to Rs. 2.085 Tn. and a CASA ratio of 39.23% while its gross loans and advances grew by 3.76% to Rs. 1.266 Tn. by year-end.

### Growth in the deposit base and the lending portfolio over the past decade

	2023	2013	10-year
	Rs. Tn.	Rs. Tn.	CAGR (%)
Donasithass	2.085	0.451	16.54
Deposit base	2.065	0.451	10.54
C			
Gross loans			
and advances	1.266	0.435	11.27
and advances	1.200	0.455	11.27

#### **A diversified Bank**

Diversification was evident in regional geography, customer profile, banking channels, products and services repertoire and the currency mix of the Bank, among other factors. This commitment to diversification serves as a risk management tool allowing us to navigate volatile market conditions and remain agile in an everchanging financial landscape. The Bank's diversity can be highlighted by the following parameters.

- Geographically: The Bank operates in Sri Lanka, Bangladesh, The Maldives, Myanmar and has placed several Business Promotion Offices (BPOs) across the Middle East and Korea (III) Refer Figure 03 on page 12)
- Customer Profile (<sup>1</sup>) Refer customer segmentation – Table 09 on page 78)
- Diverse Banking Channels (<sup>[1]</sup> Refer channel mix – Table 10 on page 78)
- Products portfolio [<sup>[]]</sup> Refer Notes 33.1 (a) on page 327 and 45.1 (a) on page 357]
- Currency-wise Product Mix [<sup>[]]</sup> Refer Notes 33.1 (b) on page 327 and 45.1 (b) on page 358]
- Varied Funding channels (Ш Refer Graph 05 on page 70 and funding diversification by product Ш refer Graph 06 on page 70)
- Maturity Profile (III) Refer Note 60 to the Financial Statements on pages 380 and 381)
- Economic Sectors [<sup>[1]</sup> Refer Note 33.1 (c) to the Financial Statements on page 328]
- Sources of Revenue (D Refer Notes 13.1 and 14.1 to the Financial Statements on pages 302 and 304)

#### **Staying well capitalised**

The Bank's sustainability relies heavily on a sturdy capital base, acting as a safeguard against unforeseen losses and as a regulatory check on unjustified asset expansion. A key driver of the Bank's success is its dependable shareholder base, which consistently provides additional capital when needed. Securing capital is crucial for banks to establish, sustain and grow their operations. Tightened regulatory requirements and stricter reporting standards have been imposed to ensure adequate capitalisation, benefitting various stakeholders, particularly depositors.

Despite the lacklustre growth in loans and advances and hence, limited growth in risk weighted assets during the year, substantial impairment provisions made on investments in Sri Lanka Sovereign Bonds denominated in US Dollar exerted pressure on capital of the Bank. Raising capital remained challenging, particularly during the early part of the year under review. Nevertheless, the Bank raised Rs. 12 Bn. at rates varying from 13.50% to 15.00% for tenures of 5 years, 7 years and 10 years in Tier II capital in December 2023 to meet the capital requirements arising from credit growth in the fourth quarter and to create leeway for leveraging envisaged credit growth in the ensuing year.

To evaluate its capital needs, the Bank employs the Internal Capital Adequacy Assessment Process (ICAAP), annual strategic planning exercises and Risk-Adjusted Return on Capital (RAROC). It also practices prudent capital allocation, controlled growth in riskweighted assets, expansion of fee-based services, timely asset and liability pricing and maintains a diversified portfolio of products and services. Through these practices, the Bank consistently maintains its capital adequacy ratios at required levels.

We are also of the view that in the absence of further significant increase in the impairment provisions moving forward and the stabilisation of the Sri Lankan economy, retained earnings could provide reasonable comfort to the Tier 1 capital. However, if the credit demand is going to be at a significant level, the conversion of zero risk weighted assets to risk weighted assets can exert some pressure on the Tier 1.

#### **Optimising financial resources**

Criticality of prudent asset and liability management, strong risk oversight, sustainable growth in assets and liabilities, regular stress testing and establishing essential buffers for unforeseen future challenges to ensure stability and prudent expansion cannot be overemphasised.

Serving as the Bank's balance sheet manager, the Treasury Division plays a pivotal role in shaping the Bank's financial wellbeing. In addition to optimising financial assets and proficiently handling financial risks, the Treasury's strategic significance in bolstering operations has been heightened to facilitate the Bank's attainment of prudent expansion.

The unprecedented economic challenges, mostly flowing from immediately preceding years, including elevated interest rates, inflation, devaluation of the Sri Lankan Rupee, sovereign rating downgrade, sovereign debt default, unsustainable sovereign debt levels and contraction of economic growth have presented formidable challenges that resonate deeply within the Banking sector. Nevertheless, rigorous risk management practices, prudent investment decisions and a proactive stance in the face of uncertainties have been instrumental in steering the Bank through the dynamic and evolving economic landscape and maintaining the financial resilience.

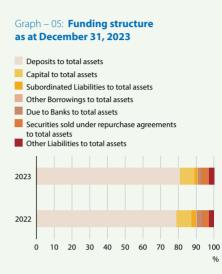

The specific challenges arising from sovereign debt restructuring and domestic debt optimisation initiatives have been met with adaptability and strategic foresight. The Treasury Division has diligently managed its position amidst evolving debt dynamics, ensuring that the impact on the Bank is thoroughly assessed and mitigated. In anticipation of possible haircuts initiated by the government, the Treasury Division has prudently taken action to create provisions for potential reductions in the value of sovereign bonds. Recognising the dynamic nature of economic conditions, the division has assessed and adapted its strategies to meet possible haircuts while ensuring the Bank's financial health remains robust. The Treasury Division acknowledges that the ramifications of sovereign debt restructuring will continue to unfold, but it remains agile and ready to meet the challenges with resilience and strategic acumen.

Regulatory developments, fiscal and monetary policy shifts and unorthodox competition from Primary Dealer and FinTech firms, digital transformation and emerging customer needs are anticipated factors that may reshape the financial landscape. The ongoing commitment to sustainability is another factor that will influence the Treasury Division's operations. Collaborative efforts in co-creation, enhancing user experience and embracing a digital culture are integral components of the division's strategy. As the Banking industry witnesses transformative shifts, the Treasury Division is well-prepared to meet these changes head-on, focusing on innovation, efficient digitalisation and strategic collaborations to create enduring value. A noteworthy milestone in the adoption of advanced technology is the introduction of a state-of-the-art treasury software system, developed in collaboration with the esteemed international software service provider, Quantum. This innovative solution, currently undergoing rigorous testing, signifies a critical leap forward in enhancing efficiency and responsiveness. Similarly, the implementation of the Treasury FX Portal, a real-time rate request web interface, has proven instrumental in reducing turnaround times for FX rate requisitions.

To navigate this challenging landscape, the Treasury implemented such initiatives as adopting a focused approach to win over new clients, restructured the FIS portfolio and placed under active portfolio management, targeted remittances from identified key markets, talent acquisition and development to improve client services, engaging in derivative transactions and organised client awareness sessions. Efforts were made to strengthen client relationships by enhancing the client value proposition, offering structured solutions and assigning dedicated Treasury Relationship Managers. Looking ahead, plans involve launch of the new treasury system, developing research and analytical capabilities, positioning the balance sheet to sustain market shocks, customised FX portal for augmenting customer experience, broad basing the skills set and exploring opportunities for diversification in terms of business, products and location such as targeting to cater to white-collar professionals by offering them investment opportunities, encompassing instruments like government securities, stock market investments and real estate ventures.

### Prudent impairment provisioning

The Bank has been cautious in its approach to impairment provisioning, ensuring that it recognises sufficient provisions and identifies declines in asset quality, in both loans and advances and investments, in a timely manner. Provisions for impairment are made prudently through regular reviews of the individually significant loans and advances, assessing future cash flows and borrower financial situations and determining the net realisable value of collateral. Such assessments are independently reviewed and challenged by the Integrated Risk Management Department to enhance the accuracy of provisions. Management overlays too are applied to take into account economic conditions and forward-looking information to account for current and anticipated external factors. Moreover, additional provisions are applied to loans in high-risk sectors and those under moratoriums, factoring in probability of default and loss given default to address unforeseen events. These careful measures ensure that the Bank appropriately addresses potential credit impairments. Consequently, Impairment (Stage 3) to Stage 3 Loans Ratio (Stage 3 Impairment Coverage Ratio) improved to 43.22% as at end 2023 from 39.60% in 2022.

# Leveraging data analytics and predictive capabilities

The Bank leverages data analytics and predictive capabilities for growth by utilising advanced technologies such as machine learning and artificial intelligence. It has implemented machine learning predictive analysis models to identify and target potential borrowers for cross-selling and upselling opportunities. These models analyse transaction data, sentiment analysis and macroeconomic data to predict customer behaviour and needs. By harnessing the power of data analytics, the Bank can make more informed decisions, enhance customer experience and improve operational efficiency. Additionally, it uses data analytics to assess risk, pricing loans and automate impairment assessments, ensuring accuracy and objectivity. Overall, data analytics and predictive capabilities enable the Bank to identify growth opportunities, optimise lending strategies and drive business growth.

### **Cost Optimisation Committee**

In July 2023, the Bank established a Cost Optimisation Committee aimed at reducing expenses and improving the overall cost structure. This Committee convenes monthly to make recommendations for the Executive Strategy Development Committee. Numerous initiatives identified by the Committee are currently underway across the Bank. With a focus on finalising the budgeted capital and operating expenditures for 2024, the Committee has placed particular emphasis on this task. Additionally, to enhance the scope of its operations, the Bank is in the process of establishing a dedicated Cost Management Unit.

### **Capital management objectives**

The Bank places utmost importance on capital management, ensuring availability of sufficient capital at all times through its ICAAP, with the following objectives:

- Maintaining compliance with industry standards while targeting a more stringent internal capital adequacy level above the minimum regulatory requirements in order to remain well capitalised
- Ensuring efficient capital allocation for optimum risk adjusted returns
- Maximising profitability by utilising capital optimally
- Facilitating wealth creation and business expansion
- Maintaining a credit rating that surpasses the industry peers

For more information on Bank's Capital Management, please III refer page 232 on Risk Governance and Management section, Note 66.5 to the Financial Statements on pages 419 and 420 and page 456 for Annex 2, Disclosure 7 on Summary discussion on adequacy/meeting current and future capital requirements.

### **Managing funding and liquidity**

The Bank has established a robust liquidity foundation to withstand ad hoc, acute and unforeseen shocks, aligning with Basel III regulations which introduced Liquidity Coverage Ratio (LCR, 2015) and Net Stable Funding Ratio (NSFR, 2019) as regulatory benchmarks. The Bank's steadfast commitment to maintaining its liquidity status has bolstered stakeholders' confidence in its reliability. The Bank's Asset Liability Committee (ALCO) convenes regularly, at least fortnightly, to ensure that funding and liquidity align with the Bank's overarching commitments to stakeholders. ALCO actively assesses market liquidity, foreign currency funding positions, prevailing and anticipated interest rates, changes in policy rates, credit growth and alternative investment opportunities for surplus funds, especially given the modest growth in loans and advances.

With the gradual deceleration of inflation and the Central Bank beginning its monetary policy easing cycle in mid 2023, market interest rates declined significantly. This coupled with the improvements observed in the external sector gradually eased the difficulties encountered by the banking industry in managing funding and liquidity in both rupee and foreign currencies. In fact, the Bank had a comfortable level of liquidity throughout the year, thanks to the Bank's solid deposit franchise and as a result of stagnation of credit extended to the private sector, with the Bank having to make short term investments in government securities and invest in bank deposits. The gradual normalisation of market lending interest rates and improving investor and business sentiments are expected to support the expansion of credit to the private sector, as witnessed in the latter part of the year.

The Bank's funding sources for onward lending, in order of their assessed stability include:

- Retail deposits mobilised through the branch network
- Low-cost foreign currency borrowing (provided the interest and swap cost attached to such borrowing is cheaper as compared to the cost of wholesale deposits)
- Selected long-term wholesale deposits
- Re-purchase agreements
- Subordinated debentures

The Bank's Investment Banking Division remained committed to sustainability, integrating Environmental, Social and Governance (ESG) considerations alongside traditional investment practices to enhance long-term performance. Despite experiencing a period of relative inactivity in 2023, the division successfully managed a Rs. 12 Bn. debenture issue. This initiative bolstered the Bank's Tier II capital base, addressed maturity mismatches in its asset-liability profile and secured funds to expand lending activities, particularly in the SME sector and exportoriented industries, to support national economic growth. The debenture issue which was closed within hours of opening after it was oversubscribed on the opening day reflects the investor confidence in the Bank, amid the challenging operating environment.

# Funding and liquidity management objectives

The overarching objectives of the Bank's funding and liquidity profile management include the following:

- Honouring the stakeholders' varied transactions with the Bank, including deposit withdrawals upon maturity and numerous cash commitments, both during normal operations and periods of financial strain or economic adversity.
- Ensuring compliance with regulatory and reporting standards, setting internal funding and liquidity targets higher than prescribed thresholds, thus establishing stricter internal standards.
- Maximising profitability by effectively utilising liquid assets, both for immediate needs and through prudent long-term planning.
- Funding future business expansion at optimum cost.
- Supporting the desired credit rating.

 Complying with Basel III regulatory requirements concerning funding and liquidity (III) Refer Annex 2, Basel III – Disclosures under Pillar III on page 451).

### Anti-Money Laundering (AML)

The Bank conducts risk assessments for Money Laundering and Terrorist Financing to safeguard its reputation from involvement in illegal activities. These assessments, carried out in accordance with regulatory directives and internal protocols, occur during customer onboarding and at regular intervals thereafter, utilising algorithms within the computer systems to gauge risk levels. The AML/Compliance Department regularly communicates its findings and observations to the Board through the BIRMC, alongside monthly statutory reports submitted to the Financial Intelligence Unit of the CBSL.

### **Anti-bribery and anti-corruption**

The Bank's Anti-Bribery and Anti-Corruption Policy is employed to eradicate criminal activities and uphold ethical standards. Aligned with the 10 principles of the UNGC and emphasising the importance of the Code of Ethics, the Bank requires all employees to adhere to the highest levels of ethical behaviour. It maintains a zerotolerance stance towards abuse of power, solicitation or acceptance of bribes, any form of corruption and other unlawful behaviours that tarnish the integrity of the banking culture. Additionally, the Bank ensures that all contractors, vendors, suppliers, service providers, consultants and representatives adhere to ethical standards. The Bank follows guidelines outlined in the Whistleblowers Charter, addressing issues such as accepting or offering illegal gratifications, financial transactions, favouritism and conflicts of interest. Click below to read more on the Board-approved Anti-Bribery and Anti-Corruption Policy via the Bank's website.

### Ethics and conduct

The Bank upholds a strong commitment to ethics and conduct standards, both as mandated by regulatory compliance and as part of its proactive ethical approach. It strives to maintain the highest ethical standards and acts as a virtuous exemplar in its conduct. Embracing a zero-tolerance stance towards bribery, corruption, fraud, money laundering and other unethical behaviours, the Bank's conduct is regularly audited by the Inspection Department of the Bank to ensure adherence to best practices and eliminate any wrongdoing. The Bank reinforces its code of ethics with an active whistleblower policy, encouraging the reporting of unethical practices such as corruption, fraud and misappropriations to the Compliance Officer, thus safeguarding the Bank's integrity.

### Conduct Risk Management Policy Framework

The Bank has implemented a Group Conduct **Risk Management Policy Framework to** bolster risk management and corporate governance. This framework aims to prevent the Bank from engaging in actions detrimental to customers, market stability and effective competition. It seeks to instill a risk-aware culture that addresses misconduct risk and emphasises clear accountability through a preventive approach. This involves implementing proper customer onboarding practices, ensuring transparency in fees and charges and avoiding fraudulent activities, insider trading, improper financial advice, mis-selling of financial products, tax avoidance, collusion with financial markets and inaccurate financial and regulatory disclosures.

### **Responsible Financing**

### **A cohesive effort**

Numerous factors come together in a cohesive effort to establish the Bank as a responsible entity, allowing it to consistently generate and distribute value sustainably. Each functional department plays a crucial role in steering the Bank's operations towards the creation of sustainable finance, aligning with the diverse financial goals of stakeholders and fostering enduring partnerships. Throughout this journey, the Bank adheres to specific principles and standards outlined in its Sustainability Framework which include;

- The CBSL Roadmap for Sustainable Finance in Sri Lanka
- The CBSL Direction on Sustainable Finance Activities
- Sustainable Banking Principles of Sri Lanka Banks' Association
- United Nations (UN) Global Compact Principles
- UN Sustainable Development Goals

The Bank has aligned its sustainabilityrelated metrics with the CBSL Road Map for Sustainable Finance in Sri Lanka. This Road Map outlines various initiatives across six focal points aimed at promoting sustainable finance practices.

The six focus areas are,

- Financing Vision 2030
- ESG integration into financial market
- Financial inclusion

- Capacity building
- International cooperation
- Measurement and reporting

The Road Map outlines short, medium and long-term economic, social and environmental objectives. To transition Sri Lanka towards a green, inclusive and balanced economy, substantial investments are needed in eight key sectors: agriculture and food, marine resources, education, transport, energy, urban development and physical planning, health and water. The facilitation of financial institutions to create innovative sustainable finance products and services is crucial for implementing Sri Lanka's sustainable development agenda. This not only presents new business opportunities for financial institutions but also serves as a catalyst for sustainable finance.

Within the six focus areas mentioned above, the Road Map provides specific action plans for financial institutions, leasing companies and capital markets. The Bank has accordingly established key performance indicators (KPIs) for each focus area, assigned responsibilities to relevant departments, identified associated Sustainable Development Goals (SDGs) and monitors progress on a quarterly basis.

Figure – 17

### The Pillars of Sustainable Finance

### MEASUREMENT AND REPORTING

- Establish monitoring and evaluation mechanisms
- Include ESG factors in internal rating systems
- Publicly disclose ESG performance and impact

### INTERNATIONAL COOPERATION

- Participate and learn from international collaboration platforms
- Knowledge sharing and capacity building with international partners
- Mobilise international resources and funding

### CAPACITY BUILDING

- Develop internal ESG risk management training
- Hire sustainable finance professionals
- Develop campaigns centered on sustainable finance products and services

### FINANCING VISION 2030

- Innovate loan and savings accounts for green economy
- Support green and socially inclusive projects
- Develop sustainable bond products

### ESG INTEGRATION INTO FINANCIAL MARKETS

- Develop internal ESG risk management strategies
- Disclose positive and negative environmental and social impacts
- Disclose sustainable finance policies and programmes

### FINANCIAL INCLUSION

- Develop more accessible, affordable and efficient financial products and services
- Explore the application of fintech and digital tools
- Entrepreneurship development and ethical product and service offerings

In accordance with the aforementioned principles, the Bank strives to make banking accessible and cost-effective while also prioritising environmental preservation and ensuring that no one is excluded from the path towards sustainable long-term goals.

### Socially and environmentally sustainable lending and practices

The Bank uses its Social and Environmental Management System (SEMS) to proactively identify and assesses social and environmental risks associated with lending and operations. This empowers the Bank to make informed decisions, avoiding projects with high sustainability risk challenges. By prioritising risk areas, SEMS helps develop strategies to mitigate and manage them. This could involve adopting green technologies, promoting resource efficiency, or setting social safeguards for development projects. Implementing a SEMS demonstrates our commitment to sustainability, fostering trust and positive perception among customers, investors and employees who increasingly value responsible practices. SEMS helps the Bank to comply with national and international regulations increasingly focusing on environmental and social responsibility in the financial sector. Identifying sustainable opportunities

enables the Bank to develop innovative financial products and services catering to the growing demand for green finance and socially responsible investments.

### **Green finance**

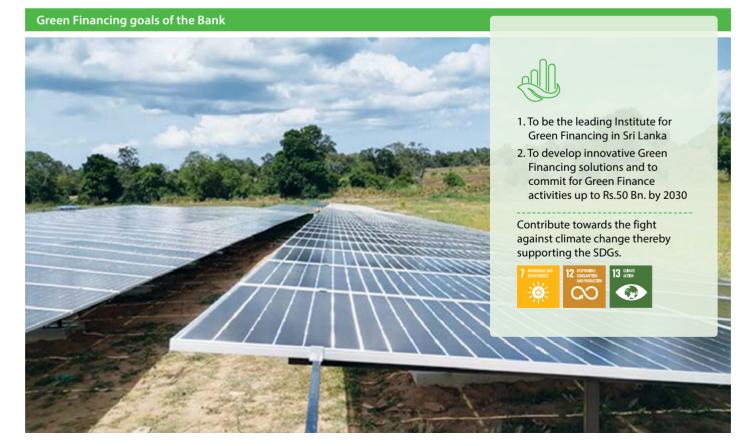

The Commercial Bank's dedication to environmental initiatives is articulated in its Sustainability vision, "to be a responsible financial service provider by enabling and empowering people, enterprises and communities, towards environmentallyresponsible, socially-inclusive and economically-enriching growth".

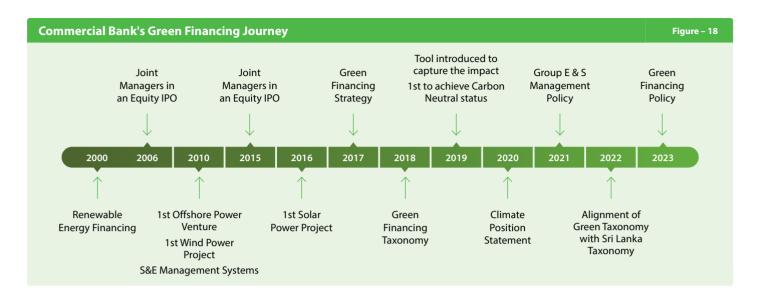

The Bank's climate strategy involves integrating climate considerations into its primary product and service offerings through a three-pronged approach; Green Financing, Internal capacity building to support Green Financing and supporting clients and customers to reduce their environmental footprint. Accordingly, the Bank has designed tailor made products and services to cater to the green financing activities coming under Green Finance Taxonomy published by the Central Bank. The Bank is engaged in financing a wide array of projects including Renewable energy, smart agriculture, environmentally friendly transport, waste management and resource efficiency and green buildings.

For over five years, the Bank has prioritised Green Finance, even in the absence of strict Green Banking guidelines. It established a green finance taxonomy which describes what activities could be classified and considered as Green. While the Bank's voluntary measures primarily focused on the climate, the Central Bank's prescribed system encompasses climate, environment, pollution, ecological changes and social impact, providing a comprehensive approach to green finance taxonomy.

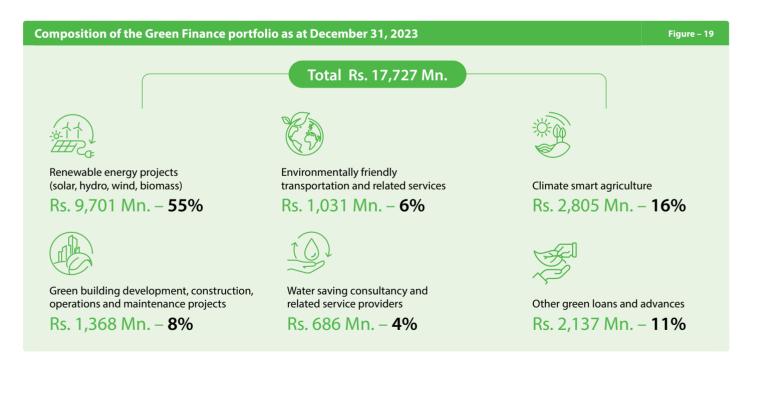

The Bank adopted a Board approved Green Financing Policy during the year which encapsulates the entirety of its green financing processes, functions and initiatives. It outlines the Bank's commitment to environmental sustainability and its strategies for integrating green principles into its financing activities and processes to ensure alignment of such activities with the Bank's overall sustainability objectives and governance framework.

The Central Bank has implemented compliance reporting mandates relating to sustainable financing activities for licensed banks, as outlined in the Banking Act Direction No. 05 of 2022. In response, the Bank has established a framework for quarterly reporting to ensure adherence to these requirements.

In 2023, the green finance portfolio recorded a growth of 7.59%, rebounding from a subdued lending period in 2022, primarily attributed to elevated interest rates and the delayed payments from the CEB, particularly impacting lending to the renewable energy sector. In 2020, Commercial Bank secured a USD 50 Mn. loan from the UK-based CDC Group with the specific aim of boosting the Bank's Green Financing to SMEs, contributing to national climate objectives. Moreover, an internal campaign was launched to encourage staff members to promote green finance solutions to customers actively. The Bank also focused on promoting "*Diribala Green Development Loans*", facilitating the installation of rooftop solar panels. Consequently, the Green Financing portfolio of the Bank grew to Rs. 17.727 Bn. during the year, from Rs. 16.476 Bn. a year ago.

Contribution of Green Financing portfolio for reduction of CO<sub>2</sub> emissions as at December 31

2023 - 233,918tCO,e

2022 – 229,752 tCO<sub>2</sub>e

Other activities undertaken by the Bank to further support the implementation of sustainable finance activities include;

- Relaunching the "Diribala Green Development Loan" product covering a wider range of green activities.
- Launching of two new Green products catering to individuals via the "Green Home Loan" and also the SME and Corporate customers through the "Green Building Loan".
- The Bank is in the process of developing a green bond framework.
- The Bank represented in various forums as a presenter and panelist, where our experience and our sustainability/green journey have been shared with peer banks, others in the finance sector and various other stakeholders.
- Several staff members directly involved in sustainability initiatives of the Bank are members of the Sri Lanka Banks' Association's Sustainable Banking Initiative (SLBA - SBI) which contribute to several national initiatives.
- As part of continuous capacity development of the staff engaged in sustainable financing activities, the Bank conducted 10 internal training programmes during the year for 1,121 staff members
- Engaging in collaborative efforts with Green Vendors and service providers to enhance Green practices.

### **Green financing risks**

In addition to conventional and emerging risks associated with other lending activities, green financing encounters specific risks inherent to its products. These include regulatory inconsistencies affecting project feasibility and viability, exposure to natural disasters or environmental challenges for projects focused on environmental sustainability, the influence of community acceptance, stakeholder engagement and social impact on project success and the risk of losing competitiveness due to technological advancements.

### Climate Assessment for Financial Institutions (CAFI) tool

The Bank has adopted the Climate Assessment for Financial Institutions (CAFI) tool developed by the International Finance Corporation (IFC), a member of World Bank Group, to measure and report on the GHG emission reduction attributed to the Bank's Green Financing portfolio. The Bank was honoured with the prestigious Climate Assessment for Financial Institutions (CAFI) award for recording the highest number of climate finance transactions in South Asia in the past two years. This award recognised the Bank's successful completion of the highest number of climate finance transactions in South Asia that met the IFC's stringent climate eligibility criteria. The CAFI tool was instrumental in assessing climate eligibility and quantifying the climate impact of investments.

### **Customer centricity**

# Providing the experience, simplicity and convenience that customers value most today

The Bank's commitment to customer centricity is exemplified through its proactive efforts to maintain transparent communication, provide tailored solutions through segmentation and foster meaningful relationships with its customers. By prioritising transparency in its communication, the Bank ensures that customers are kept informed about products, services, policies and any changes that may impact them. This openness not only builds trust but also helps manage customer expectations and address concerns

### **Customer segmentation**

effectively. Furthermore, the Bank goes above and beyond to understand the unique needs of its customers and offer personalised solutions that align with their financial goals and aspirations. Whether it is restructuring loan facilities to provide relief during challenging times or offering specialised accounts and services to cater to specific customer segments, the Bank demonstrated its dedication to meeting the diverse needs of its clientele. Moreover, by organising capacity building programmes, SME fairs and clinics, the Bank created opportunities for customers to enhance their skills, expand their networks and access resources that contribute to their financial well-being and success. Overall, the Bank's customer-centric approach permeates every aspect of its operations.

### **Customer segmentation**

The Bank utilises customer segmentation as a strategic approach to better understand and address the unique needs and preferences of each segment, enabling it to provide tailored solutions to its customers, offering products and services that not only met but often surpassed their expectations. This required internal adaptations and process enhancements to ensure agility and relevance. By segmenting its diverse customer base and providing exceptional services accordingly, the Bank aimed to enhance the Commercial Bank brand, fostering stronger customer loyalty and engagement. This segmentation strategy is illustrated in tables 09 and 10 below.

					Table – 09
Criteria	High net-worth	Corporate	SME (Small and Medium Enterprises)	Micro customers	Mass market
Income/Size of relationship/ Business turnover/Exposure	Individuals with banking relationships above set thresholds	Exposure> Rs. 250 Mn.	Exposure< Rs. 250 Mn.	Exposure< Rs. 1 Mn.	Individuals not falling into other categories
Price sensitivity	High	High	Moderate	Low	Low
Products of interest	Investment	Transactional, trade finance, and project loans	Leasing and project financing	Transactional	Transactional
Number of transactions	Low	High	High/Moderate	Low	Low

#### **Crafting a Customer-Centric Future**

### Commercial Bank's Journey Towards Customer Experience Excellence

In response to the increasingly competitive banking landscape, Commercial Bank recognises the paramount importance of excelling in customer experience as a key differentiator. With a steadfast commitment to understanding and fulfilling customer needs, the Bank established the Customer Experience Unit in late 2023, signalling a transformative journey towards elevating service standards. This focus on customer-centricity is deeply ingrained in the Bank's Vision, Mission and 12 service commandments, which prioritise surpassing customer expectations and fostering loyalty through passionate service and cutting-edge technology enabling seamless interactions.

### Six pillars of the strategic journey towards a Customer-Centric Culture

- The Bank aims to instill a customer-first culture through targeted training and empowerment programmes for its workforce,
- A robust Customer Excellence Governance Framework ensures consistency and high-quality service delivery through policies, service-level agreements and a dedicated Customer Experience Steering Committee,
- Active engagement and proactive empathy are prioritised to anticipate and address customer needs effectively,
- Product and service offerings are tailored to evolving customer needs through data analysis and persona creation
- 5 Best-in-class customer management and communication practices are adopted to enhance interactions across all channels and
- Strategic action plans are implemented to translate these goals into tangible outcomes, including customer persona creation, journey mapping, standardised communication protocols and structured feedback gathering.

Led by the Chief Manager - Customer Experience, the Customer Experience Unit represents a strategic shift towards customercentricity. With a dedicated focus on passionate service, active engagement and superior customer service, the Bank aims to set new benchmarks in customer satisfaction starting from 2024 and establish itself as a service leader in the banking industry.

### A measure of customer satisfaction

In 2022, the Bank enlisted Kantar Research to assess customer satisfaction levels. The Bank attained an outstanding total TRI\*M score of 101 for Corporate Banking, surpassing the regional benchmark of 85 and indicating excellence within the range of 100 – 150. In Retail Banking, the TRI\*M score was 85, the highest among competitors whose average score was 74. Additionally, the Bank achieved the second-highest TRI\*M score of 92 for SME Banking. The Bank will continue to monitor the customer satisfaction levels.

### Acquiring a new Corporate Digital Platform

The Bank is planning to acquire and deploy a robust corporate banking App with comprehensive front-end and back-end capabilities. This App aims to prioritise customer-centricity by covering various aspects of corporate banking, including lending, deposits, trade and treasury services. By identifying all service and revenue points, the App intends to streamline processes and enhance efficiency.

One of the key objectives of the proposed app is to address challenges related to talent loss, skill deficiencies and personal biases by automating repetitive tasks, audits and workflows. This automation will help mitigate the impact of talent gaps and ensure consistency in service delivery.

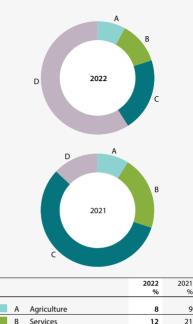

Moreover, the introduction of this corporate banking App signifies a strategic shift for the Bank, transitioning from a traditional brick-and-mortar institution to a modern entity with cutting-edge digital capabilities. By embracing state-of-the-art technology and leveraging its financial strength, the Bank aims to further strengthen its formidable position in the corporate banking sector.

Overall, the acquisition and rollout of this corporate banking App represents a significant step towards enhancing the Bank's competitiveness, improving operational efficiency and meeting the evolving needs of corporate clients in today's digital era.

### Uplifting the Small and Medium Enterprises (SMEs)

The Bank recognises the crucial role of SMEs in the Sri Lankan economy and is deeply committed to supporting their growth through a range of financial products and services. Fourteen dedicated SME Managers appointed to support all the regions and there are 57 dedicated Branches established as SME Cluster branches demonstrate this commitment. As part of this commitment, the Bank prioritises the development of financial literacy and capacity building among SMEs. To this end, the Bank organised webinars aimed at helping SMEs expand into new markets, utilise non-financial services and establish connections with supply chains and exporters. Additionally, the Bank provided training to SMEs on various topics including entering the export market, product marketing and leveraging international methodologies to access new markets. During the year, the Development Credit Department of the Bank conducted 50 awareness programmes for over 2,200 Micro-SMEs (MSMEs), Women SMEs (WSMEs) and prospective SMEs. Further details on these SME training programmes can be found on page 81 of this Report. In addition, the Bank actively participates in MSME support initiatives organised by external institutions, facilitating financial literacy and awareness sessions on various topics such as waste management and renewable energy. These collaborative efforts, supported by stakeholders such as the Central Bank and government agencies, aim to empower MSMEs and enhance their competitiveness in the market.

In this regard, it is noteworthy to mention that the Ministry of Finance, Sri Lanka, recognised Commercial Bank as the leading SME lender for the years 2020, 2021 and 2022 underscoring the Bank's dedicated focus and commitment to the SME Sector. ComLEAP – Online Business Ecosystem in partnership with GlobalLinker

In the realm of digital transformation, the Bank pioneered a ground-breaking initiative in Sri Lanka's banking sector by introducing the "Commercial Bank LEAP GlobalLinker", providing a suite of services free of charge. This innovative digital business ecosystem is designed to enhance the global reach SMEs and MSMEs, connecting them with markets spanning over 150 countries. With a focus on fostering cross-border collaborations and opening doors to new opportunities, the platform has already attracted over 8,000 customers, including leading manufacturers, exporters and women-led SMEs from across the country.

	Numbe	Number of loans		e (Rs. Mn.)
Year/Sector	2022	2021	2022	2021
Agriculture	3,470	2,974	19,890	17,574
Services	4,254	5,814	29,040	40,398
Industries	7,531	31,538	49,068	111,742
Other	41,060	3,101	137,101	26,138
Total	56,315	43,427	235,099	195,852

Awareness programme for WSMEs

Moreover, the platform has facilitated over 90 entities to share their success stories, contributing to its growing significance within the business community. The Bank's dedicated SME teams are actively engaged in customer acquisition efforts, organising events in collaboration with government institutes, chambers and organisations to highlight the platform's value proposition. The Commercial Bank LEAP GlobalLinker distinguishes itself with advanced features such as e-stores, digital catalogues and an enhanced online presence, offering a dynamic environment for businesses to thrive in an interconnected global landscape.

Moving forward, the platform is poised for further growth and innovation, with plans to onboard additional partners and expand its features to meet evolving business needs. The IFC has played a pivotal role in providing advisory support for the successful implementation of this transformative initiative, which marks a significant milestone in Sri Lanka's digital banking landscape. Additionally, webinars and structured entrepreneurial skill development programmes conducted in collaboration with IFC have further underscored the Bank's commitment to embracing digital solutions and fostering economic advancement for businesses.

### **ComBank BIZ Club**

Since its establishment in 2017, the "ComBank BIZ Club" has persistently supported SMEs, offering more than just financial aid. Its membership has exceeded 5,600, representing majority of the Bank's SME customers by December 31, 2023. The Club provides an array of advantages to its members, such as complimentary financial advisory services and access to specialised business seminars, contributing significantly to their business growth. Additionally, since establishment of the Club, the Bank has conducted over 2,200 financial literacy programmes, benefitting over almost 15,000 MSME customers to date.

The Bank initiated a widespread extension of microcredit facilities to support MSMEs during an impending crisis. Equipped with microfinancing, small business owners were empowered to navigate challenging situations and access the Bank's value creation processes. To aid SMEs in recovery, a dedicated Business Rehabilitation & Revival Unit was established, along with measures like NPCF management, staff redeployment, regional rehabilitation centers and loan delinguency management. In challenging economic circumstances, the Bank collaborated closely with SMEs, offering concessions through loan restructuring and rescheduling. SME officers underwent training to better understand SMEs and implement adaptable practices for their recovery. As moratoriums on SME loans concluded in January 2023, revised repayment schemes and restructured loans with concessions were introduced to support the hardest-hit SMEs through 2023 and beyond.

SME Trade Fair conducted by the Bank

The Commercial Bank of Ceylon's impactful efforts to support the local SME sector were recently acknowledged on a global platform when the Bank won the award for the 'Best SME Bank' in Sri Lanka from New York -head quartered Global Finance magazine.

Chief Operating Officer, Mr S Prabagar accepting the award for the "Best SME Bank" in Sri Lanka by the Global Finance Magazine at the Awards Ceremony held in London

### Conducting capacity building programmes and training sessions for SMEs

The Bank conducted capacity building programmes and training sessions for SMEs with the aim of enhancing their knowledge, skills and capabilities to navigate business challenges and seize growth opportunities. These programmes focused on improving financial literacy, essential business skills, and industry-specific expertise.

Financial literacy training equipped SMEs with the understanding of financial management, budgeting and cash flow analysis, empowering them to make informed financial decisions and plan for growth effectively. Additionally, training sessions covered essential business skills such as marketing strategies, product development, customer relationship management and human resource management, enhancing SMEs' competitiveness and overall performance in the market.

Moreover, specialised training sessions addressed industry-specific knowledge and expertise, providing insights into the latest trends, technologies and best practices relevant to sectors like manufacturing, agriculture and technology. These programmes helped SMEs innovate, adapt to market changes and stay ahead of the competition.

The Bank offered a variety of learning formats, including workshops, seminars, online courses and mentoring sessions, to provide accessible and practical learning opportunities tailored to the needs of SMEs.

The benefits of these capacity building programmes were manifold. They contributed to the growth and development of the SME sector, fostering entrepreneurship, innovation and economic diversification. Additionally, they promoted job creation, poverty reduction and improved standards of living within local communities.

In the agriculture sector, the Bank provided advisory and consultancy services through initiatives such as sessions on improving savings habits and loan schemes conducted by the Development Credit Department. Technical sessions on soil fertilisation and machinery usage, led by relevant organisations like TRI and TSHDA, aimed to enhance productivity and sustainability among farmers and entrepreneurs in the agriculture sector.

# Enhancing the literacy of SMEs in areas such as entering the export market and marketing products

The Bank recognised the significance of SMEs in driving economic growth and innovation, yet acknowledged their challenges in entering the export market and marketing their products effectively. To address this, the Bank undertook initiatives to enhance SME literacy in these areas.

In terms of entering the export market, the Bank provided SMEs with knowledge and skills to navigate global trade complexities. This included understanding market trends, consumer preferences and legal frameworks governing international trade. By equipping SMEs with this knowledge, they could identify export opportunities, target suitable markets and ensure compliance with export regulations, thereby facilitating smooth operations and minimising legal risks.

Similarly, the Bank focused on enhancing SME literacy in marketing to empower businesses to effectively promote their products and reach target customers. This involved understanding consumer behaviour, market segmentation and digital marketing strategies. By conducting market research and leveraging digital platforms, SMEs could tailor their marketing campaigns to resonate with their audience, increase brand awareness and drive sales.

Overall, these initiatives aimed to equip SMEs with the knowledge and skills necessary to overcome barriers in entering the export market and implementing effective marketing strategies, thereby fostering their growth and competitiveness in the global marketplace.

Details of a training programme conducted during the year are given below;

## Conducting SME fairs and clinics to develop networks and resolve problems

The Bank utilised SME fairs and clinics as well as the BIZ Club strategically to extend networking opportunities and support the growth and resilience of SMEs. These events served as platforms for SMEs to build connections with each other as well as government institutions and industry stakeholders, showcase their products, engage with potential partners and customers and address challenges they faced. The primary objectives were to cultivate networks among SMEs and offer solutions to their problems.

SME fairs provided them with valuable networking opportunities, bringing together various stakeholders such as other SMEs, industry experts, governmental bodies and potential clients. This facilitated collaboration, knowledge-sharing and the establishment of mutually beneficial relationships, enabling SMEs to forge partnerships and explore new markets, thereby leveraging resources and support systems conducive to their growth.

Similarly, SME clinics offered SMEs a platform to seek expert advice on specific challenges, including financial management, marketing strategies and digital transformation. With facilitators knowledgeable in various fields, SMEs could overcome obstacles and enhance operational efficiency, leading to sustainable growth.

Moreover, SME fairs and clinics served as catalysts for innovation and entrepreneurship within the SME community, showcasing innovative products and services, business models and inspiring creative approaches.

Target audience	Details of content	Resource persons	Number of participants
MSME/Indirect Exporters/Local Producers	Industry Overlook Export Procedures Potential Industries/ Markets Standards and Good Manufacturing Practices Certifications	Officials of Industrial Development Board/Export Development Board/ Sri Lanka Standards Institution/ National Plant Quarantine Services	112

These events helped raise awareness of the importance of the SME sector, share success stories, explore new opportunities and provide access to resources and support services, empowering SMEs to thrive.

Beyond networking and problemsolving, SME fairs and clinics contributed to the broader development of the SME sector by raising awareness of its significance in the economy and the available support mechanisms. These events provided platforms for governmental agencies, financial institutions and other stakeholders to showcase their initiatives, programmes and services tailored to SME needs. By facilitating access to resources, funding and expertise, SMEs were empowered to thrive. Additionally, the events facilitated knowledge exchange, learning and capacity building among SMEs, essential for their long-term sustainability and success.

The digital ecosystem, Commercial Bank LEAP GlobalLinker too supports MSMEs and enhances global market access, addressing key pain points and promoting business networking on a global scale.

### Restructuring and rescheduling of loan facilities

The Bank offered concessions to individuals and businesses by restructuring and rescheduling loan facilities, particularly those emerging from moratoriums, to provide support during challenging times. This approach allowed borrowers to adjust repayment plans according to their current financial capabilities, offering relief and a pathway to financial recovery.

During economic downturns and crises, borrowers faced difficulties meeting loan obligations, leading to increased defaults. By offering concessions, the Bank helped borrowers navigate these challenges, preventing further financial distress and stabilising the overall economy.

Concessions were primarily provided through loan restructuring, which involved modifying loan terms like extending repayment periods or reducing interest rates. This flexibility helped borrowers manage cash flows and stabilise finances. Additionally, loan rescheduling adjusted repayment schedules to align with borrowers' financial situations, facilitating better financial organisation and repayment management.

These concessions benefited borrowers by averting defaults and maintaining creditworthiness. By preventing loan defaults, the Bank preserved asset quality, ensuring financial stability and continued credit availability. Moreover, supporting borrowers sustained consumer spending, business operations and economic growth, particularly among small and medium-sized enterprises, crucial for job preservation and entrepreneurship.

### Setting up a Business Revival and Rehabilitation Unit to support struggling businesses

The establishment of a Business Revival and Rehabilitation Unit by the Bank in 2020 exemplifies its commitment to supporting struggling businesses during challenging times. With the policy direction of the Central Bank, the Bank took steps to expand the scope of the Unit in 2022. This Unit provides targeted assistance, guidance and resources to SMEs facing difficulties due to external and internal challenges and undertakes projects for rehabilitation with a hand holding process. The unit identifies struggling businesses, understands their unique obstacles and tailors solutions to aid in their recovery. By dedicating resources to business revival and rehabilitation, the Bank ensures the survival and long-term success of these enterprises.

The Unit's primary goal is to assess the financial needs of SMEs and identify lending opportunities in specific segments. This may involve providing additional financing, adjusting business processes, or offering concessionary credit lines to alleviate financial burdens. Through close collaboration with SMEs, the Unit understands their needs and provides necessary tools and resources for overcoming challenges.

Moreover, the Unit fosters open communication and collaboration through regular meetings, seminars and workshops with clients and stakeholders. This approach allows for a deeper understanding of SMEs' needs and the development of effective support strategies.

Ultimately, the Unit's success lies in its holistic approach to supporting struggling businesses. In addition to addressing immediate financial needs, it assists SMEs in reevaluating their operations and identifying new market opportunities. By optimising costs and implementing innovative strategies, SMEs can regain momentum and achieve sustainable growth under the Unit's guidance.

The Unit has undertaken 22 projects for business rehabilitation during the year of which four SMEs were successfully rehabilitated and 14 SMEs are under rehabilitation while four SMEs could not be rehabilitated.

### Promoting digital innovation and creating new business opportunities

The Bank promoted digital innovation and created new business opportunities by leveraging technology to improve operational processes, enhance customer experience and drive growth. Embracing digital transformation allowed the Bank to identify untapped markets, develop innovative products and services and reach a wider customer base, similar to the rise of e-commerce platforms and fintech companies. Additionally, digital innovation enhanced customer experience by offering personalised recommendations, streamlining processes and providing convenient self-service options, leading to improved customer satisfaction and loyalty.

At the same time, digital innovation improved operational efficiency and productivity through automation, integration of systems and data-driven decision-making, despite challenges such as the need for investment in technology, infrastructure, talent and addressing cybersecurity concerns. Overall, embracing digital transformation enabled the Bank to stay competitive, seize new opportunities and thrive in the digital age.

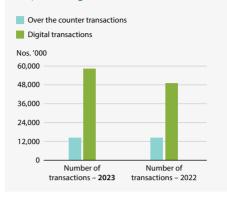

The Bank adopted digital signatures as an operational process whereby allowing customers to submit digital documents instead of physical paper-based documentation to the Bank.

Commercial Bank is the first Sri Lankan Bank to accept digitally signed documents from business customers using LankaSign operated by LankaClear, the only commercially operating Certification Authority in the country that complies with the Electronic Transaction Act.

As part of its commitment to sustainability, the Bank prioritises transitioning customers to eco-friendly digital banking channels. Offering six banking apps, including ComBank Digital online banking platform, Flash Digital Bank Account, Q+ Payment App, ComBank ePassbook, ComBank eSlip and ComBank Remit Plus, the Bank also provides social network banking with WhatsApp Banking and Viber Banking. Throughout the year, efforts were made to encourage customers to shift to digital channels, aligning with the Bank's digital vision of fostering a digital economy accessible to all customers regardless of their technological proficiency.

The Bank's Digital Road Map focuses on retail customers, promoting paperless and sustainable digital products, services, processes and interactions. In 2023, the number of customer transactions carried through digital channels compared to over-the-counter transactions continued to increase as shown in the Graph below;

#### Graph – 16: Digital transformation

Notably, the Bank's green-initiative apps given below received top ratings from users compared to competitors across all parameters.

### **Supporting exporters**

The Bank played a crucial role in supporting exporters by providing them with financial solutions, market insights, networking opportunities and trade finance services.

The strategic partnership the Bank entered into with the National Chamber of Exporters of Sri Lanka (NCE) helped it to extend financial solutions to exporters, with a focus on SMEs. This partnership aimed to encourage and strengthen SMEs engaged in the export market by providing them with a full range of international banking capabilities and expertise. Additionally, the Bank organised trade fairs, seminars and webinars in collaboration with industry experts such as the Export Development Board (EDB) and the Ministry of Commerce. These events provided exporters with opportunities to showcase their products, learn about market trends and network with potential buyers and partners.

The Bank also offered a range of trade finance products and services to support exporters. These included documentary credits, letters of guarantee, forward exchange contracts, document collection, shipping guarantees, marine insurance and assistance with entrepot trade shipments. These services helped exporters manage their trade transactions, mitigate risks and access financing for their export activities.

Furthermore, the Bank launched the "Combank Trade Club", an ecosystem designed to stimulate business growth for its trade customers. This platform provided exporters with access to innovative trade solutions, expert advice and networking opportunities.

#### Diribala Export Grooming Programme

The Diribala Export Grooming Programme, initiated by the Bank, aims to enhance the export capabilities of businesses and strengthen the export value chains across various sectors, recognising the vital role of the export segment in the economy. The programme focuses on preparing businesses to become export-ready, with an emphasis on understanding export procedures, industry potential, standards and good manufacturing practices.

In its initial phase, the programme involved conducting awareness sessions for 112 potential direct and indirect exporters, providing them with valuable insights and resources. These sessions, facilitated by key institutions such as the Export Development Board, Industrial Development Board, Sri Lanka Standards Institution and National Plant Quarantine Service, aimed to equip participants with the knowledge and tools necessary for successful exporting.

Moving forward, the programme seeks to facilitate market connections for potential exporters, bringing together various stakeholders from the export ecosystem to address their challenges and facilitate their entry into export markets. By fostering collaboration and providing access to resources and expertise, the Diribala Export Grooming Programme aims to support businesses in tapping into the vast opportunities offered by international trade.

#### **Supporting importers**

As a result of a shortage of foreign exchange, rapid fluctuations in exchange rates and sovereign rating downgrades, the Bank encountered difficulties in relation to foreign exchange management. However, the Bank effectively addressed customer concerns and expectations, particularly in trade finance, thanks to the fact that a significant portion of export proceeds goes through the Bank. Despite the sovereign rating downgrade, the Bank successfully negotiated reduced commission rates for confirmations with multinational banks, alleviating the financial strain on customers.

#### Female participation

In the ever-evolving landscape of financial services, the Bank's dedication to empowering women remained steadfast throughout 2023. A themed campaign revolving around Anagi Women Banking was unveiled in March, featuring prominently in press and media advertisements. The Bank also took to social media platforms, publishing a Women's Day post showcasing the top four corporate management members. Additionally, a Women's Day event saw a competition to recognise the top five WSME customers in the Colombo region, complete with benefits and prizes, creating a festive atmosphere. This event attracted the participation of 100 attendees.

Furthermore, beyond its core financial services, the Bank showcased its commitment to social causes through strategic nonfinancial endeavours. A series of social media posts centered around significant events such as Women's Day, Mothers' Day, Cancer Awareness Month and Women Entrepreneurs' Day, engaging the audience and contributing to broader societal dialogues. Leveraging its corporate webpage, Facebook fan page and other social media channels, the Bank disseminated information about its Women Banking initiatives and products through banners, posts and EDMs, ensuring widespread awareness and engagement among its audience.

The Bank's commitment to skill development was underscored by the extension of the PIM Certificate Programme for Women Entrepreneurs across various regions, including the Northern, the Southern and the Eastern areas. Successful programme completions in Jaffna, Galle and the Eastern region, alongside sessions in Colombo North and Uva Sabaragamuwa, highlighted the Bank's extensive regional outreach efforts. As of the end of 2023, women-connected SMEs accounted for 51% of the Bank's entire SME loan portfolio, compared to 50% in 2022. The Bank provided facilities to over 15,000 women-connected SMEs, up from 14,000 in 2022 and served over 6,200 womenconnected SME customers, up from 5,600 in 2022. Moreover, within the Bank's overall retail loan portfolio, women-connected retail loans represented 32% at the end of 2022 and 34.50% at the end of 2023.

Following the relaunch of the *Anagi* brand in 2022, the Bank successfully opened over 112,500 new *Anagi* Women's Savings accounts by the end of 2023, marking a growth of 21.3% compared to the number of accounts before the relaunch. The growth in the new female customer base recorded a 24.30% increase in 2023 compared to the previous year's growth of 16.5%.

Customer testimonials played a crucial role in illustrating the impact of Women Banking initiatives, with an inspirational video featuring PIM participants adding a personal touch to the Bank's endeavours. Furthermore, sponsorships of various media events and the launch of an online portal with IFC & GlobalLinker in March signified significant technological advancements, showcasing the Bank's commitment to embracing digital solutions.

The Bank's dedication to supporting women entrepreneurs extended beyond financial assistance, encompassing comprehensive skill development programmes and tailored non-financial services. Additionally, ongoing branch competitions, employee engagement initiatives, strategic partnerships and database marketing campaigns further demonstrated the Bank's unwavering commitment to empowering women and fostering gender-inclusive workplace practices. Through gender awareness training programmes at all levels and plans to establish a forum for staff suggestions on Women Banking initiatives, the Bank emphasised its commitment to creating an inclusive and collaborative workplace culture.

### Sustainable finance for Micro and Agriculture sectors

The Bank demonstrates a robust commitment to Agriculture and Micro Financing, crucial for fostering financial inclusion and reaching under-banked and unbanked communities, thereby bolstering rural economies in particular. Leveraging specialised units like Agriculture and Micro Finance Units (AMFUs) and "Bank on Wheels" mobile banking units to enhance the Bank's outreach, the Bank extends its services to underbanked and unbanked communities, particularly in rural areas. With a strategic focus on strengthening the rural economy and averting potential food scarcity, the Bank has significantly increased its lending activities in rural and semi-urban regions and supports smart agriculture. Support for smart agriculture included concessionary funding for setting up greenhouses, modernisation of irrigation systems and mechanisation of tea plucking as well as conducting demonstrations on the use of drones for paddy cultivation in collaboration with technology partners. Training programmes conducted by the Development Credit Department for internal staff included microfinance and lending related to agriculture projects.

Facilities disbursed by the Bank for agriculture activities and under Microfinance credit lines as of December 31, 2023 are given below.

Facility	As at December 31, 2023		
	Number of facilities	Amount Rs. Bn.	
Agriculture activities	17,941	120.682	
Microfinance credit lines	6,694	2.017	

In addition, the Bank's "Bank on Wheel" operations have facilitated 1,429 loans and opening of 1,172 accounts during the year 2023, bringing the total number of loans and opening of accounts so far under this facility to 2,127 and 13,093 respectively, further enhancing financial access in these areas. Additionally, through partnerships like the one with ADB, the Bank promotes initiatives like the ADB Funded Tea Development Credit line, benefitting 314 customers with loans totaling to Rs. 469.650 Mn. The Bank's AMFUs focus on development of micro value chain financing, expanding access to finance for micro and agriculture sectors and grooming micro-enterprises into SMEs and beyond. The Bank currently operates 19 AMFUs covering 63 branches and has plans to expand the AMFU operation by adding further 11 units in the near future to cover 100 branches to aggressively promote micro and agriculture-based lending. This planned expansion of AMFU operations underscores the Bank's proactive approach to promote Micro and Agriculture-based lending, ensuring sustainable economic development in rural communities.

With the intention of transforming potential Micro entrepreneurs to registered entities and moving them to formal SME stream, the Bank commenced Dirishakthi Micro Grooming programme. During the year, 95 customers have been selected and are being groomed through the specially designed training programmes to enhance their knowledge on Business & Financial Management.

Further, in an effort to enhance value chains in rural regions, the Bank implemented five In-Kind Grant Programmes across Gampola, Mulliyawalai, Vavuniya, Welimada and Nelliyadi areas, benefitting over 370 farmers. These programmes aim to introduce technology, mechanise agricultural projects and improve infrastructure within identified value chains.

### Maintaining transparent communication with customers

The Bank maintained transparent communication with customers through various strategies and initiatives. Firstly, it prioritised openness, honesty and accuracy in all communications, ensuring customers were well-informed about products, services and policies. This approach helped to establish credibility and trust, leading to increased customer loyalty and repeat business. Additionally, by providing clear information, the Bank managed customer expectations effectively, reducing misunderstandings and complaints while enhancing overall satisfaction.

Sustainable banking – Value creation

Training programmes conducted by the Bank on improving financial literacy and capacity building

The Bank also actively addressed and resolved customer concerns and issues, demonstrating a commitment to customer satisfaction. Through prompt and honest responses to feedback, the Bank showed that it valued customer opinions, thereby strengthening customer relationships and turning potential negative experiences into positive ones.

Moreover, in the digital age, the Bank leveraged social media platforms to engage with customers proactively. By monitoring and responding to feedback and inquiries on these platforms, the Bank showcased its dedication to transparent communication and demonstrated a willingness to address customer concerns promptly. This proactive approach helped to maintain trust and strengthen customer relationships.

To ensure consistent and effective communication, the Bank had clear communication policies in place, outlining how it would interact with customers and address their concerns. It also invested in training employees to communicate effectively, empowering them with the knowledge and skills needed to provide accurate and helpful information to customers.

Overall, by prioritising transparent communication and actively engaging with customers, the Bank was able to build trust, manage expectations, resolve issues and stay ahead of the competition. This commitment to openness and honesty contributed to enhanced customer satisfaction and longterm success for the Bank.

### **Trilingual presence**

The Bank has embraced a trilingual approach in its operations through various initiatives and strategies. These include the establishment of an Integrated Contact Centre in 2020, operating 24/7, allowing customers to connect with the Bank through multiple channels and languages for inquiries and assistance. This ensures that individuals from diverse cultural, religious and ethnic backgrounds can communicate in their preferred language.

Strategies adapted to improve customer experience and sustainability within contact centre.

### • Green initiatives

Establishing a centralised knowledge hub within the Contact Centre aimed at enabling operations without the reliance on physical paperwork, enforcing a nopaper policy for Contact Centre agents at their workstations

### • Customer engagement

Educating customers and encourage them to use digital channels for their day-to-day Banking operations and communication to the Bank.

Engaging with customers through Outbound calling campaigns to create awareness on banking apps and enrolling them with credit card e-statements instead of the paper statement.

### • Employee engagement

Assigning a leader to the unit to spearhead sustainability efforts and raise staff awareness to reduce energy usage.

#### Automations with technology utilisation

Implementing IVR (Intelligent Voice Response) to automate specific functions to enhance customer convenience.

Implementation of "*Chat Bot*" to provide quick seamless information through the bank official web portal.

Setting up a customer relationship management solution, "*The Service Portal*", internally to manage customer complaints and services requests within the specified Service Level Agreement, ensuring exceptional service delivery and customer satisfaction.

Furthermore, the Bank's on-site customer service teams are proficient in three languages, ensuring that customers receive support in their chosen language. The Bank's website has been revamped to offer content in English, Sinhala and Tamil, catering to users' language preferences and enhancing accessibility to information. Introducing digital receipts in multiple languages, accessible via SMS for ComBank Cardholders, further reinforces this commitment. The Bank enabled trilingual accessibility for "Bank with ComBank on Viber" for enhanced user convenience. The Bank launched trilingual service for Q+ Consumer payment app with a view to attract Island wide mass market in to digital space. Overall, these efforts underscore the Bank's dedication to accommodating customers from various linguistic backgrounds and providing a seamless banking experience for all.

Some of the banking products and services now available with a trilingual presence are given below.

### e-Passbook

"ComBank e-Passbook" – Sri Lanka's first digital passbook – is now operable in Sinhala and Tamil in addition to English

### WhatsApp banking

Enabling tri-lingual accessibility

Viber

Enabling tri-lingual accessibility

### Driving customer engagement and market expansion

The Retail Products and Marketing Department has been actively engaged in enhancing customer reach through both traditional ground-level activities and modern social media interactions, with the aim of establishing direct communication channels with customers. Furthermore, promotional campaigns have been executed across various media channels to bolster the performance of product divisions and help them achieve their targets effectively. Moving forward, strategies will revolve around introducing innovative products, optimising the channel mix, targeting specific markets and enhancing customer profitability. This approach is aligned with the Bank's commitment to driving value for stakeholders by implementing impactful marketing strategies, expanding product offerings and ensuring a customer-centric approach across all activities.

In the year 2023, the Bank commemorated 20 years of remittance operations by pioneering a sophisticated yet a simple web base money transfer system two decades ago to serve over two million Sri Lankans overseas. Today the Bank is one of the strongest players in the remittance business serving thousands of Sri Lankans who are working in many countries, world wide.

The Bank is further undertaking strategic initiatives to improve its ranking in the remittance market. This includes repositioning Bank representatives in emerging markets and collaborating with international Money Transfer Operators, Exchange Houses and International Banks to serve our focus customer segment in offering more benefits and convenience in this business vertical. Another 1st in the industry was the "RemitPlus App" which was introduced to its remittance stake holder to offer tailor made solutions while also taking steps to integrate systems with emerging technologies to offer speed, security and customer experience.

Specifically, there are plans to strategically reposition remittance partners in emerging markets to further establish the bank's footprint in potential markets. These efforts signify the Bank's dedication to strengthening its presence and competitiveness in the remittance market.

### An expanding ecosystem

The Bank grew its branch network by opening branches in Anamaduwa and Kanthale during the year.

In year 2023 the Bank commemorated 20 years of remittance operations by pioneering a sophisticated yet a simple web base money transfer system 2 decades ago to serve over two million Sri Lankans working overseas. Today the Bank is one of the strongest players in the remittance business serving thousands of Sri Lankans who are working in many countries, worldwide.

### Figure - 22

The Bank introduced several new products and made enhancements to existing ones to better cater to the needs of its customers. Among the new offerings, a 4-month Fixed Deposits Scheme was launched, providing customers with a flexible savings option. The Bank revamped its Isuru Minors' Savings Plan and the Millionaire Investment Plan, aiming to provide more attractive benefits to customers.

Notably, an exciting feature was introduced to the *Anagi* Women's Savings Account, entitling their children to a free minor savings account with an initial deposit of Rs 500, fostering financial education from a young age. Further, the ability to perform digital transactions was extended to DotCom Teen Savings Account holders, granting teenagers aged 16 and above fund transfer and bill payment options, promoting financial independence and responsibility from an early stage.

During the year, Personal Foreign Currency Account holders were entitled to a free debit card and digital banking facility with no joining fee and a waiver of the firstyear annual fee enhancing the value addition. Furthermore, customers investing in FCY Fixed Deposits with the Bank were given the opportunity to obtain a free premium credit card with no joining fee and annual fee and other value added benefits including complimentary airport lounge access, free travel insurance and other merchant discounts.

In terms of lending, new product launches included Green Home Loans, a revolutionary offering with special benefits to customers obtaining loans to construct or purchase a house with a Green Building Certificate issued by the Green Building Council of Sri Lanka. Green Home Loans are also available to customers who wish to implement other green initiatives such as installing solar power systems, waste and rain water management systems and composting systems. The Bank also introduced step up leasing, a scheme that provides salaried professionals the option to structure their repayments, taking into consideration the projected incremental employment income.

### **Process improvements**

The implementation of an approval workflow for Facilities Against eFDs has brought about significant advantages for stakeholders, including customers and staff members. This advancement has largely eliminated the need for manual appraisal raising in Loan Origination System, thereby freeing up staff time for other tasks and considerably reducing the turnaround time (TAT) for the product. Moreover, this development sets the stage for the complete automation of the approval and disbursement process for Facilities Against eFD.

Efforts have been made to streamline the account opening process for Millionaire Investment Plans, simplifying procedures to minimise technical errors. Additionally, the automation of the Certificate generation process for Millionaire Investment Plans has eradicated delays associated with manual preparation. Innovative systems have been devised to enhance the efficiency of back-end functions related to Pawning, alleviating the burden on branch teams and line management by simplifying approval processes. Initial steps have also been taken to offer Pawning customers enhanced value through Special LTV, recognising valued banking relationships.

In the realm of innovations, the Retail Products Department introduced the "QuickSales", a Retail Sales Management App to expedite processes and reduce costs associated with submitting retail facility applications and documentation. This app enables Sales Agents to request retail facilities and upload related documents without the need for physical travel between customer locations and branches. It also extends the benefits of business leads to branches beyond the Sales Team's physical reach, facilitating transactions between customers and outstation branches. Additionally, the QuickSales App offers performance dashboards, enabling users at various levels to monitor open workflows effectively.

Further, as a specific initiative the Bank stopped using receipts at ATMs contributing to the overall strategy of reducing operational expenses while maintaining uninterrupted services.

### Leading through innovation

Innovating to enhance the quality of stakeholder interactions and experience

### **Digital strategy**

The Bank's transition towards a digital-first approach is evident in its strategic evolution over the years, progressing from emphasising technology leadership to enhancing digital usage and prioritising customer experience.

Investments in the Bank's digital ecosystem have laid a strong foundation, enabling it to tackle emerging challenges and excel in the digital payment landscape. Through innovative initiatives and technological advancements, the Bank has emerged as a leader, benefitting both retail and corporate customers.

Remaining committed to fostering a digital culture, the Bank actively recognises and implements digital initiatives, leveraging integrated technologies and striking a balance between traditional and digital channels. It integrates legacy systems, conducts strategic experiments, facilitates smart interactions and enhances the digital experience for stakeholders. The Bank's digital efforts have garnered recognition, earning awards and accolades. As the top facilitator of CEFT transactions in Sri Lanka, the Bank recorded over 19.2 million transactions worth Rs. 2,361 Bn. in outward CEFT and over 25.9 million transactions worth Rs. 2,307 Bn. in inward CEFT transactions in 2023. Stakeholders have embraced digitalisation, demonstrating increased proficiency in navigating the digital learning curve, leading to broad acceptance of digital banking. Consequently, the Bank observed a robust 46% year-on-year growth in its digital banking retail customer base, while its digital banking business customer base exceeded 72,000 users.

The Bank was awarded the title of "Best Bank for Digital Solutions in Sri Lanka" for the year 2023 by the esteemed UK-based Asiamoney Magazine. This recognition further solidifies the Bank's standing as a frontrunner in digital innovation within the country.

Digital Penetration 36% - 2023 (29% - 2022)

### Digital roadmap 2023–2025

In line with the Bank's digital vision of fostering a digital economy that caters to every customer's technological proficiency, the Bank's digital strategy primarily targets retail customers, encompassing a wide array of products, services, processes and interaction points. The forthcoming digital transformation, spanning the next two years, is guided by the following objectives:

- Service transformation to achieve service excellence.
- Operational transformation to be more efficient and effective.
- Digital transformation to reaffirm digital leadership.
- Talent transformation to enhance performance.

As part of this strategy, the Bank reaffirms its dedication to continuous investments in the conversion of conventional banking procedures into digital workflows. Emphasising seamless integration with external ecosystems and the improvement of internal systems takes precedence to ensure flexibility amidst anticipated changes in regulatory and risk management frameworks. Alongside these initiatives, the Bank will concentrate on re-skilling its staff and acquiring talent in specialised areas, forging strategic partnerships and fortifying its data capabilities, highlighting the ongoing areas of focus.

The Bank's commitment to be at the forefront of technological innovation and efforts to continually strive to develop cutting-edge products and services that cater to the evolving needs of its customers is evident from the following array of products.

### **ComBank Digital**

The Bank has achieved groundbreaking status in the banking sector with the launch of *"ComBank Digital"*, the country's first Omni-channel online banking solution. Currently, ComBank Digital boasts a sizable user base of approximately 1.2 million subscribers and efficiently handles an average of over three million financial transactions each month. This solution has garnered widespread praise from users, solidifying its position as the top-rated Sri Lankan financial app in the AppStore.

ComBank Digital is easily accessible via a responsive web application and three native mobile applications, ensuring compatibility with various devices, including desktop Personal Computers, laptops, tablets and smartphones. The platform is equipped with internationally recognised user security features that adhere to industry standards, providing users with peace of mind.

Moreover, "ComBank Digital" offers a comprehensive range of services, catering to various banking needs such as basic account inquiries, bill payments, fund transfers, instant payments to government institutions, international fund transfers, fixed deposit investments, credit card payments, savings goal setting, convenient transfer orders and loan applications, covering every aspect of a customer's banking requirements.

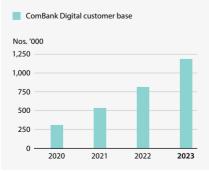

Additionally, the platform introduces several pioneering features, including the integration of "*Widgets*" for added convenience, the ability to create savings "*Objectives*" to assist users in achieving their financial goals, automated redemption of "*eFDs*" (electronic fixed deposits), creation of secondary accounts like "*eSavings* and *eMoney market accounts*" and the provision of a dedicated mobile banking application tailored specifically for business customers, highlighting its commitment to delivering a unique and personalised banking experience.

Enhancing the platform's capabilities are various user-friendly self-assisted functionalities, including automatic password recovery, customisable alert setups, management of transaction limits, 24/7 instant payment capability and a dedicated YouTube channel for user awareness. Moreover, informative features such as viewing images of issued and deposited cheques, self-managed services like alert delivery and alert setup management. beneficiary creation, Bank Statement download in PDF format, request for card replacements and graphical representations for exchange rate inquiries to track fluctuations are incorporated. Robust security features allow users to block credit/debit cards when needed and facilitate secure communication with the Bank through attached documents and a comprehensive message reply history, collectively providing a comprehensive and secure banking experience.

Recent upgrades to the ComBank Digital platform encompass several key enhancements. These include the addition of an OTP auto-fill option for user convenience, improvements to cyber receipts to enhance transaction security, the introduction of a multilingual application to cater to diverse user needs and the activation of cards/cards PIN reset feature for enhanced user control and security. Furthermore, enhancements to the Biller Module are currently underway and will be implemented shortly to further improve the platform's functionality.

Commercial Bank has expanded its digital platform to its overseas operations in Bangladesh and Maldives as well.

### Graph – 17: ComBank Digital customer base

# eFDs opened during the year as a percentage of total FDs opened

**50%** - 2023 (27% - 2022)

### **Flash toolkit**

The "Flash Digital Bank account" was introduced with a focus on the digitally inclined new generation, catering to their preference for digital banking channels. A standout feature of self-registration ensures a seamless onboarding experience, distinguishing the app from competitors. The Flash app offers a comprehensive suite of financial services and wealth management tools. Notable features include the introduction of the "Flash Teen Digital Bank account" under the name "Flash Fam" for teens, non-face-to-face customer onboarding via Digital KYC and the release of Flash 4.2. with a new look and feel.

The Flash Digital Bank Account received recognition at the 2023 NBQSA ICT Awards and planned to allow all Sri Lankans working abroad to open an account. Key features include tri-lingual accessibility, a unique Hospitalisation Support Insurance Plan, fund transfers, actionable alerts, biometric login, savings targets, group payments, QR code and NFC payments and spend tracking.

Future plans include enabling a Smart loan facility, expanding to other corridors, introducing an In-app Virtual assistant, launching transactional wearable banking and implementing voice banking. Additionally, partnerships with Fairfirst Insurance enhance the offering, with further plans to introduce more innovative features.

Flash was selected as the Best Digital Account by Global Retail Banking and Innovation Awards 2023, The Digital Banker Magazine Singapore and also represented Sri Lanka at APICTA Awards 2023 held in Hong Kong.

### ePassbook

The Bank has launched the "ePassbook" facility, a mobile application enabling account holders to conveniently access and view their account transactions on Android or Apple smartphones, online and offline. This feature mirrors traditional savings passbooks, offering a comprehensive account history and real-time transaction view. Eligible account holders can self-register via the "ComBank ePassbook" app without branch visits, with options for authentication preferences. The service is free and provides benefits such as balance checks, transaction views and account nickname settings for easy reference. Additionally, users can access exchange rates, interest rates, ATM/ Branch locations and search transactions by key names. They also have the flexibility to self-enroll/remove accounts.

### WhatsApp Banking

Commercial Bank has pioneered the introduction of "WhatsApp Banking", becoming the first bank in Sri Lanka to offer this innovative service. This initiative underscores the bank's commitment to utilising cutting-edge technologies to enhance customer experiences. Through WhatsApp Banking, account holders can conveniently access features such as Account Balance, Account History and Cheque Book requests. Additionally, both customers and non-customers can inquire about Fixed Deposit rates and foreign exchange rates. The platform also allows for self-registration with the ComBank Digital app and facilitates the opening of new accounts through the Flash Digital Bank Account, ensuring a seamless and efficient banking experience. The benefits of WhatsApp Banking include its safe, secure and contactless nature, offering up-to-date banking information at no cost. Furthermore, the service caters to both account holders and non-customers and enables the online opening of accounts.

Additionally, WhatsApp Banking facilitates loan leads, forwarding successful loan requests to the Retail Products Department.

### **Bank with ComBank on Viber**

"Bank with ComBank on Viber" extends accessibility to all Commercial Bank customers with registered mobile numbers, as well as non-customers interested in opening an account with Commercial Bank, ensuring inclusivity. This service offers realtime customer support and utilises an AI Chat-Bot to provide banking services 24/7, enhancing user experience. With trilingual accessibility, users can conveniently engage with the platform. Benefits include the ability to check account balances, view account history (last three transactions), place Cheque Book requests, inquire about Fixed Deposit rates and Exchange Rates. Users can also self-register or access the "ComBank Digital" platform and open a new account through the "Flash Digital Banking App." Additionally, loan applications for Personal Loan, Home Loan and Leasing are available through this service, providing comprehensive banking solutions.

### Paymaster

"Paymaster" provides an efficient solution for consolidating various payment processes, spanning employee salaries, supplier payments, interests, dividends, agent commissions and statutory payments. Users can easily upload ETF/EPF contributions and surcharges digitally through Paymaster, enhancing security and bypassing the challenges associated with cash and cheques. Notable features include bulk payment capabilities, real-time credit to ComBank and other banks, round-the-clock payment access and flexible authorisation levels. Accessible via web or mobile app, Paymaster processes transactions above Rs. 5 Mn. via RTGS. Benefits encompass reduced risk in cash transportation, streamlined manual payment

processing, immediate disbursement to both Commercial Bank and other banks, lowered transaction costs and connectivity to Commercial Bank's extensive network of branches and ATMs. With Paymaster, users enjoy enhanced security and convenience, eliminating the need for traditional payment methods like cash and cheques.

Future plans include enabling this capability through Host-to-Host (H2H) services enabling corporates to seamlessly integrate their ERP systems with that of the Bank for a real time 24/7 corporate payments.

### Advancing card and cashless initiatives

The Bank has implemented a comprehensive strategy to promote card and cashless initiatives, utilising Al-based algorithms and predictive modules to identify and address specific gaps. Through the deployment of an Al-based data analytic tool by the Card Centre, transaction visualisation, segmentation, promotion and churn prediction modules have been facilitated. Various innovative products and services have been introduced to meet evolving customer needs and industry trends.

Among these initiatives, the introduction of "Visa Direct" and "MasterCard Send" cardbased fund transfer facilities has notably enhanced functionality and convenience for debit and prepaid cardholders, allowing them to transfer funds to any locallyissued Visa and MasterCard debit, credit, or prepaid card through the Bank's ATMs, CRMs and Q+ Payment App. Additionally, the Bank pioneered card acceptance through Android smartphones in Sri Lanka, enabling merchants to conveniently and costeffectively accept card payments using their mobile devices via the "Tap to Phone" feature, thereby revolutionising the digital payment landscape.

In collaboration with LankaPay, launched a national credit and debit card with international acceptance. This is the first launch of LankaPay Credit Cards in Sri Lanka and the first time five variants of LankaPay cards-three credits cards and two debit – cards were launched by a Sri Lankan Bank. This National Card Scheme is an initiative implemented by LankaPay in partnership with JCB International Co. Ltd.

In efforts to promote sustainability, the Bank has replaced paper receipts with digital receipts for ATM and CRM withdrawals, reducing paper waste and supporting environmental conservation. Furthermore, initiatives aimed at expanding digital reach include the enhancement of the Q+ Payment App, the introduction of a missed call SMS facility for checking credit card balances and the launch of Simplified Commerce – SimplePay facility to facilitate digital payments, particularly for SME merchants. Additionally, the Bank has enabled the Send Money facility to any local bank card through ComBank CRMs, further enhancing customer convenience.

The Bank's commitment to innovation and service excellence is evident in its launch of 90 new products and services since 2016, with 30 of these being "Sri Lanka's first" launches. These include groundbreaking initiatives such as the introduction of the 1st LANKAQR supported Android POS machine, UnionPay OR facility for consumers and merchants, UnionPav Contactless Card issuance for Sri Lanka and the launch of the Q+ Payment App, among others. In terms of service standards and internal processes, the Bank focused on automating credit card capturing and evaluation processes, implementing a Smart Collect recoveries software, automating CRIB reports through a BOT, developing a workflow system for scanned image processing of a Credit Card and archival, Credit Card status report for Sales and Branches, developing a workflow system to handle all service requests for Debit and Credit Cards, implementing Mastercard Payment Gateway Services and Cybersource for IPGs and developing Al-based data analytics tools to support cardholder visualisation and monitoring.

New product and feature developments lined up for implementation in 2024 include Trilingual for Q+ Consumer payment app, WeChatPay & AliPay with LANKAQR, Enabling self-care features (Do it yourself) such as Card activation/deactivation, Customer initiated installment plans, PIN resets, etc., Popularising Card-less & Contactless transactions, further improvements to the ATM Interface including new convenient features, further feature enhancements to improve Card-less and contactless payments, implementing all modes of LANKAQR payments including addition of other Bank CASA and Cards. Through these initiatives, the Bank has been able to facilitate growing digitalisation requirements for both cardholders and merchants, expand Digital Bill Payments options by creating additional channels, facilitate Central Bank initiatives in growing and popularising QR code based payments as a low cost, instant & convenient payment acquiring solution for merchants and comply with latest global security and compliance requirements for payment cards industry.

Since 2016, Commercial Bank's cards have experienced rapid growth, becoming the fastest-growing cards in Sri Lanka and dominating the market with a 23% share in combined credit and debit card spending. by the end of 2023. Additionally, by the close of 2023, Commercial Bank ranked second in overall card acceptance in Sri Lanka, according to both Mastercard and Visa. The Bank's Point-of-Sale (POS) network has earned recognition from Visa for having the highest coverage in Sri Lanka, available at numerous locations across the country. Equipped with 'Tap n Go' NFC technology, Commercial Bank's cards are supported by a robust NFC POS network. Moreover, the Bank's credit and debit cards offer continuous promotions and Easy Payment Plans for a wide range of products and services. Notably, Commercial Bank was the pioneer in offering loyalty rewards for both credit and debit cardholders through its Max Loyalty Rewards scheme. Furthermore, it stands out as the sole bank in Sri Lanka to provide Visa, MasterCard, UnionPay and LankaPay JCB brands for both card issuance and acquiring, enhancing its versatility and accessibility in the market.

- Growth in Credit Card Portfolio YoY
  - Issuance Growth 27%
  - Usage Growth 24%
- Growth in POS Terminals YoY
- POS Terminals **17%**
- POS Transaction Volume 57%
- POS Transaction Value 42%
- Growth in customer registrations for Q+ Payment App YoY
- Card Added Customer Base **92%**
- Growth in LANKAQR Merchants YoY
   LANKAQR Merchants Growth 20%

### Strategic partnerships for co-branding:

- Card Schemes VISA, MasterCard, UnionPay, LankaPay JCB
- Co-branded Credit Cards Mobitel, Sri Lanka Insurance Corporation, Nuwara Eliya Golf Club (NEGC)
- Affinity Credit Cards Wesley College, Dharmaraja College, Maris Stella College, St. Anthony's College and Dharmasoka College
- Co-branded Debit Card initiatives Insee, JAT
- Integration of PayHere with Q+ Payment App
- Enabling "Tap to Phone" Card Acceptance through PAYable
- Three Send Money Options via Q+ Payment App; Card to Account, Card to Card and Card to PEN
- Digital Receipts for ATM/CRM Withdrawals

### Technology roadmap

The Bank is embarking on an ambitious endeavour to bolster its technological infrastructure and digital capabilities, aligning closely with its commitment to offer best customer experience while enhancing operational efficiency, augmenting security and enabling expanding operations to new revenue lines and geographies with minimum distractions and effort. The Bank has a unified technology roadmap that encompass plans for digital, IT, security, analytics etc. which will on one hand address capacity enhancements while others are for augmenting customer functionality.

This required completion of a few core projects that got postponed due to disturbances from the operating environment, on a priority basis. These included upgrades to software and hardware platforms to enhance capacity, a new enterprise infrastructure in terms of perimeter/virtual firewalls, networks and switches and reaching an agreement for a new blueprint for our systems architecture. In terms of upgrades, the Bank implemented a new AS400 system alongside upgrades to key platforms like ComBank Digital and Flash in 2024 while upgrades to the software stack included T4S Teller system, Loan Origination System (LOS), new Treasury System and a data loss prevention system. Projects in the pipeline include an Identity and Access Management System, MicroService implementation, Corporate Banking Digital Platform, Interactive bank and card statements. Further, the Bank has plans to enhance lower counter operations by automating customer interactions that take long time (such as account opening) through an integrated device. Most of the branch operations will be centralised, thereby relieving the branch staff for customer engagement.

With the implementation of the plans in the Roadmap for the immediate future. the Bank will be offering fully automated approvals for personal loans, leasing and housing loans (to some extent) and credit cards online, particularly for existing customers. The planned implementations will also enable the Bank to scale up operations efficiently and cost effectively. A customer experience measurement platform too will be implemented shortly which will tag customer transactions for feedback to obtain insights on customer interactions with the Bank and identify improvements required. This will enable the Bank to gradually standardise service quality across all the touch points in the network which will help the Bank to differentiate its offering. The Bank expects to make a paradigm shift in its sales culture through the implementation of a CRM system with added functionalities such as sales tracking from end to end. The Bank aims to encourage digital usage among customers through robust loyalty programmes, leveraging data analytics and AI-driven predictive modeling to personalise offerings based on historical data insights. The Bank will enable host-to-host (H2H) connectivity for corporate customers enabling them to connect their ERP systems to the Bank. With the guidance of a consultant who is already on board, the Bank will augment its data analytics capabilities and data visualisation and build use cases to address pain points in the operations. The Human Resources Information System will be upgraded for better talent management.

These efforts underscore the Bank's dedication to continuous improvement and its pursuit of digital excellence. Through these multifaceted initiatives, the Bank aims to leverage technology, data analytics and AI to elevate customer experience, streamline processes and maintain a competitive edge in the ever-evolving digital landscape. **Operational excellence** 

### Enhancing operational efficiencies for better productivity and customer service

In 2023, the Bank continued to navigate the dynamic landscape shaped by the unprecedented challenges of the previous years. The lessons learned from the disruptions over 2020-22 prompted the Bank to further strengthen its adaptability and operational resilience. The cultural shift towards remote work and technologyenabled operations, catalysed by the global impact of COVID-19, remained a focal point. Embracing the evolving paradigm, the Bank continued to prioritise virtual collaboration, flexible work hours and net productivity models. Recognising the necessity of breaking away from traditional approaches, the institution diligently implemented readymade, time-tested systems. This strategic shift enabled the Bank to proactively address emerging threats and solidify its position as a fast learner in the continually evolving landscape defined by the "new normal" of the post pandemic era.

The notion that learning requires unlearning implies a willingness to embrace change, allowing it to foster a range of new developments. These transformations encompass reduced face-to-face interactions, a proliferation of digital communication apps and software and a gradual shift toward

### **Productivity and efficiency ratios**

nurturing a remote workforce, altering the traditional dynamics of work and business.

In the past year, the Bank demonstrated notable progress in adapting to the evolving paradigms triggered by the pandemic. Fueled by integrated thinking, the institution implemented customised insights and forward-thinking designs, propelling it toward new milestones and maintaining control over both foreseeable and distant futures.

Functioning as a finely tuned financial engine, the Bank ensured seamless coordination among its functional divisions, fostering synergies that contributed to value creation. Looking ahead to 2024 and beyond, the banking operations aspire to uphold the same ethos, aiming to ascend to greater heights through a dual strategy of leveraging strengths and maintaining agility to navigate the intricate operating landscape. The Bank is gradually executing a systematic digitalisation strategy to streamline and automate work processes with the objective of widening the scope of its commitment to a paperless operational environment.

The numerous awards and accolades garnered by the Bank bears testament to the strength, innovation and resilience of the Bank. Please III refer the list of awards on pages 35 to 37.

Key productivity and efficiency ratios depicting operational excellence are given below:

				Table – 14
2023	2022	2021	2020	2019
40.31	29.22	37.97	39.96	49.41
36.11	26.29	31.61	33.95	38.51
64.559	53.787	31.720	29.605	29.377
70.313	79.480	82.251	57.050	59.320
3.934	4.485	4.654	3.238	3.363
	40.31 36.11 64.559 70.313	40.31         29.22           36.11         26.29           64.559         53.787           70.313         79.480	40.31         29.22         37.97           36.11         26.29         31.61           64.559         53.787         31.720           70.313         79.480         82.251	40.31         29.22         37.97         39.96           36.11         26.29         31.61         33.95           64.559         53.787         31.720         29.605           70.313         79.480         82.251         57.050

### A transformed working environment

In 2023, the Bank underwent strategic transformation in the realms of financial intermediation and maturity transformation, aiming to ensure seamless service delivery to stakeholders through the adoption of the Business Continuity Management (BCM) framework. Throughout this process, the Bank maintained a steadfast focus on prioritising its human resources, delivering exceptional services to customers and safeguarding the health and well-being of its employees. Additionally, the Bank remained committed to meeting regulatory obligations and upholding principles of good governance at all times. The key principles of the BCM include,

- Support the Bank's core banking systems and assuring that all mechanisms and processes are marshalled by the Bank's guiding principles to ensure service continuity.
- Ensure availability of the systemically important payments and securities settlement systems by meeting the predefined service levels after a disruption.
- Minimise the financial, legal and other operational risk associated with disruption of operations or failures.
- Protect human life and ensure minimal exposure to hazards and dangers within the Bank's ecosystem.
- Safeguard the Bank's image and reputation.
- Minimise the impact of disruption and ensure that maximum resources were streamlined to resume normal operations by implementing effective incident and crisis management and business continuity.

#### **Risk aversion and management**

The Bank maintained effective management of its risk appetite and tolerance, particularly amidst the challenges confronting the banking sector. Emphasis persisted on preserving the loan book's quality, handling interest rates and liquidity and enhancing compliance to minimise reputational risks. The incorporation of risk-control selfassessment exercises, regular evaluations of risk management processes and tools and scrutiny of Key Risk Indicators (KRIs) became ingrained in the Bank's culture. Pragmatic adherence to relevant laws, regulatory guidelines and internal controls across all business operations underscored the Bank's adept risk management. Critical risk domains encompassed credit, operational, market, liquidity, IT and other factors that could adversely impact the Bank's sustained growth, influencing both governance and operations.

In 2024, the Bank is poised for prudent, cohesive and sustained growth while strategically leveraging key risks to enhance confidence. A crucial aspect of this approach involves managing emerging risks, including model risk, conduct risk, bribery risk, among others, to foster sustainable value creation for its stakeholders.

### The transformation of the banking model

The banking industry is undergoing a significant transformation marked by heightened competition from expanding utility companies and emerging Fintechs, the transformative impact of blockchain and cryptocurrencies facilitated by digitisation and increasing regulatory and compliance pressures. Additionally, banks are entering a new era where they must proactively

manage risk exposures without historical precedent, with a limited timeframe to adapt to emerging scenarios.

Technology is reshaping the landscape of the banking sector, necessitating a surge in digital products. This shift demands an enhancement of digital literacy, both externally for customer interfaces and internally for employees who need to excel in tailored systems. In response to the challenges posed by the COVID-19 pandemic, the Bank undertook a thorough review and revision of disaster recovery plans. This process considered the impact of the pandemic-related issues such as long COVID and co-morbidities on employee health and productivity.

Allocating resources to manage diverse risks and cultivating a positive risk culture throughout the Bank remained a top priority. This approach was championed from the highest levels, with the Board of Directors, the Board Integrated Risk Management Committee and the Corporate Management leading by example. Efforts included leveraging Early Warning Systems (EWS) with a heightened focus on real-time data and machine learning models, as well as gradually bolstering Foreign Currency Reserves to previous levels of strength.

# **Responsible organisation – Shared value**

Commercial Bank is a responsible organisation due to its commitment to sustainable practices and values that enable it to create and share value in a sustainable manner. The Bank's operations are guided by principles and standards outlined in its Sustainability Framework, which include aligning with regulatory requirements, adopting a Group Conduct Risk Management Policy Framework, minimising negative externalities to the society and the environment and establishing a Sustainability Framework for sustainable banking, responsible organisation and community engagement. Additionally, the Bank emphasises good corporate governance, ethical conduct and stakeholder interests, ensuring that all employees adhere to a Code of Ethics covering various aspects such as preventing insider dealing, managing conflicts of interest and respecting communities and the environment.

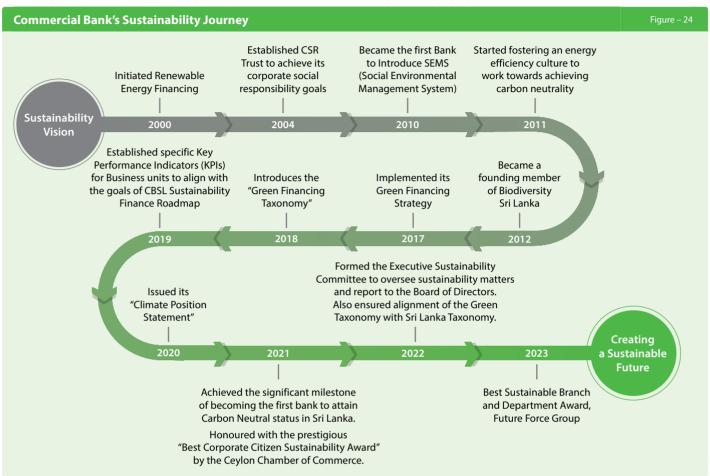

It places a strong emphasis on good corporate governance, viewing it as a collective responsibility that serves as the foundation for financial integrity, sustainable value creation and investor confidence. The Bank conducts its affairs with utmost intellectual honesty, integrity and diligence, while also being mindful of its obligations to the society and the environment. The Bank also places a strong emphasis on environmental engagement and conservation. It actively participates in initiatives to fight climate change and reduce its carbon footprint. The Bank became the first carbon-neutral bank in Sri Lanka in 2020 and is on its way to be carbon neutral on its own by 2030, demonstrating its commitment to environmental sustainability. It engages in preventative, regenerative and restorative programmes to meet Sustainable Development Goals related to clean energy and responsible consumption and production.

Additionally, the Bank demonstrates its commitment to responsible practices through its approach to risk management. It carefully manages the risks associated with financial intermediation and maturity transformation, ensuring responsible value creation for its diverse stakeholders. The Bank actively identifies, assesses and remediates business risks through day-to-day decisions made by line managers and various management and Board committees.

As a socially responsible entity, the Bank fosters an environmentally friendly and secure workplace, promotes a supportive work environment and seeks sustainability throughout its supply chain.

Embarking on a steadfast sustainability journey, the Bank has established a long-standing legacy of sustainable initiatives as illustrated below:

### **Sustainability Objectives**

### Green and safe workplace

Managing the footprint and curbing the emissions

The Bank's green initiative focuses on preventive, regenerative and restorative programmes aligned with SDGs 7, 12 and 13, which aim to achieve "Affordable and Clean Energy", "Responsible Consumption and Production" and "Climate Action" respectively. By implementing best practices, the Bank strives to transform its ecosystem into a green powerhouse, ensuring that every green alternative adopted is either preventive or regenerative/restorative, thus promoting environmental sustainability.

### Environmental Stewardship Approach and carbon neutrality

The banking sector inherently exerts a limited environmental footprint, with minimal utilisation of natural resources, negligible emissions and waste generation and not bound by mandatory environmental regulations. Yet, the Bank acknowledges that the mitigation of climate change is a shared obligation and endeavours to set a precedent and advocate for environmentally conscious corporate practices. The Bank's extensive "Climate Position Statement" exemplifies its proactive stance, defining its strategies for sustainable operations and environmental stewardship. The Bank attaining carbon neutrality status is a significant achievement, marking it a notable commitment to voluntarily reduce its carbon footprint by surpassing regulatory requirements. Aligned with its overarching

Sustainability Framework, these extraordinary commitments not only underscore the Bank's leadership in environmental sustainability and innovative approaches but also position it as a driver of positive change, inspiring other businesses to adopt proactive roles in safeguarding the planet.

Some of the measures that the Bank has endeavoured to reduce emissions are as follows:

- Introducing LED lighting across the Bank's branch network
- Investing Rs. 76.5 Mn. to commission solar systems at 11 Commercial Bank branches
- Replacing outdated water-cooling systems at the Bank's City Office with a new VRF system
- Optimising air conditioning systems at the Bank's Head Office

- Introducing auto-timed switch off of over 5,000 servers and workstations across the Bank's branch network
- Replacing 10 CRT monitors with powersaving LCD monitors
- Installing Turbine Ventilation at two offsite ATM locations to replace conventional Air Conditioning
- Installing sensor lights at ATM locations
- Converting Trincomalee and Jaffna branch buildings with eco-friendly features promoting sustainable construction.

One of the technologically advanced approaches is the "Flash" mobile application, which accurately measures the environmental footprint of customers and provides suggestions to mitigate the impact of their banking activities by offsetting greenhouse gas emissions.

The Bank was honoured to gain global recognition as one of the 25 banks worldwide dedicated to fostering environmental awareness among their customers. This acknowledgment occurred during the United Nations Climate Change Conference (COP 27), where Doconomy AB, a Swedenbased Impact-Tech Solutions company that enable banks to accelerate green transition, partnered with the Commercial Bank's Flash Digital Bank Account App, showcased a map illustrating the global presence of these 25 banks. Together, these institutions utilise Doconomy's environmental impact index to calculate the carbon footprint of transactions made through their respective apps, contributing to environmental conservation efforts.

### **Climate Position Statement of Commercial Bank of Ceylon PLC**

Commercial Bank of Ceylon PLC is the leading private bank in Sri Lanka. It also provides Banking and Financial Services to South Asian Countries. The Bank firmly believes that;

Natural resources are finite and need to be used sustainably

The transition to a low-carbon economy is essential and systematic transition does not only bring substantial benefits to the planet earth but lead to business and economic growth opportunities

It is imperative that global warming is limited to well below 2 Degrees Celsius and pursue efforts to limit to 1.5 Degrees Celsius compared to pre-industrial level, as committed to the Paris Pledge for Action The main geographic locations that the Bank operates; Sri Lanka, Bangladesh, Maldives and Myanmar are nations with ambitious National Determined Contributions to limit the Greenhouse Gas (GHG) Emission for climate change mitigation. The Bank has duly identified its role in providing financial support to its customers in mitigating climate change effects through Climate Financing.

Even with the current levels of GHG Emission in the atmosphere, changes in the climate are likely and will impose serious consequences to many sectors in the economies. Adaptive actions are therefore necessary in addition to the efforts made to mitigate climate change. Further, Asia is regularly identified as one of the regions hardest hit by climate change. Hence, adaptation to effects of climate change through support to climate resilient agriculture, water resources management and disaster risk management, etc. are priorities. Accordingly, the Bank assesses climate risks and opportunities associated with banking activities and integrate climate adaptation considerations to the Banking Operations, as well as to its product and service offerings.

Climate Financing is a subset of the Bank's broader Green Financing commitment to positively contribute towards safeguarding the environment. Our Green Financing Strategy, reinforces the commitment to integrate climate change mitigation and adaptation actions and environment safeguard factors into its business strategies, risk management and governance.

Our desire is to align our operations towards **NetZero by 2050,** supported by a climate transition plan.

### **Renewable power generation**

Prioritising the security of all stakeholders, the Bank strategically devised plans to gradually transition away from electricity generation via power generators. The goal is to replace this with solar panels wherever feasible, aligning with a broader movement towards cleaner energy. While not applicable to every Commercial Bank branch, the implementation of off-grid solar power generation is now a reality in 82 branches.

### Power generated through renewable sources

			Table – 15
	2023	2022	2021
Power generated through renewable sources (%)	16.09	15.09	2.35
Number of branches connected with off-grid solar power generation	82	71	66

Another initiative aimed at ensuring the continuous functioning of banking operations was cost optimisation. The Bank implemented an "open" idea box policy, inviting all employees to contribute suggestions on enhancing service delivery amidst volatile conditions.

### Utility power consumption and GHG emissions

Year		2023	2022	2021	2020	2019
Total utility power (CEB/LECO) consumption	Gigajoules	46,971	38,416	42,906	45,045	50,296
Increase/(decrease) in utility power consumption	Gigajoules	8,555	(4,490)	(2,139)	(5,251)	338
Direct (Scope 1) GHG emissions	CO <sub>2</sub> Tonnes	850	1,880	1,203	1,079	1,282
Energy indirect (Scope 2) GHG emissions	CO <sub>2</sub> Tonnes	5,581	6,496	7,144	8,413	10,957
Solar power generated	Gigajoules	7,556	5,796	1,008	72	1,044

Solar power generation by the Bank

Total solar generation capacity

2,209 kwh

Total generation per day

8,838 kwh

Total solar generation per month

265,140 kwh

Total savings per month

Rs. 14.8 Mn.

### Solar panels installed in

82 branches

Table – 16

### **Green Building**

Being a leader in sustainable eco-friendly practices, the Bank made quantum leaps in going green, by implementing green architecture models, which are now synonymous with the Bank branches in Jaffna, Trincomalee and Galle Fort. This has helped to reduce carbon and water footprints. Going forward, more branches will be equipped with renewable energy generated from solar panels to streamline the Bank's sustainability focus.

### Trincomalee branch building

The Trincomalee branch building was awarded a Gold rating under the Green Building awards presented by the Green Building Council of Sri Lanka (GBCSL) for the building's eco-friendly features.

### Employee morale, health and safety

Amidst the challenging circumstances of the year, the Bank placed considerable emphasis on upholding high employee morale and ensuring their safety. Prioritising the vigilant protection of employees from both external and internal pressures, along with offering support and care, remained paramount. Safeguarding employees' livelihoods, health and overall well-being, while fostering a sense of unity among the workforce, stood as pivotal focuses for the Bank throughout 2023.

Employee welfare is upheld with facilities supported by comprehensive policies and by considering occupational safety measures to prioritise employee health and safety, contributing to a positive and secure work environment. Following are some of the measures taken by the Bank to ensure employee health and safety

Regular fire drills and the well-marked fire exits

Safe building maintenance with clear signboards for emergencies

Health awareness programmes

- Awareness session on "Digital Life & Eye Care" presented by Vision Care Optical Services (private) limited
- Eye Screening Camp conducted by Vision Care Optical Services (private) limited
- Webinar on "Mastering the Art of Mental Well-Being: Empowering Employees to Thrive" presented by Prof Priyanjali de Zoysa
- Webinar on "A holistic approach to well-being" presented by Prof Sri Kandiah

### **Optimised operations**

Throughout 2023, the HR Division of the Bank played a pivotal role in guiding employees through the challenges that flowed from the preceding year. The Bank extended a caring stewardship to each employee throughout, implementing remedial measures not only to adapt to local stresses but also to foster interconnectedness, synergy and efficient management of human resources. The HR division was able to instill a culture of support and engagement, encouraging employees to be resilient and agile.

During the period under review, several initiatives were launched to bolster business operations. The HR Division strategically implemented promotions and prioritised employee training and development, utilising a variety of learning platforms and training materials. Areas of focus encompassed thorough employee career planning, succession planning across middle management and departmental levels, leadership development programmes and a heightened effort to increase female representation in managerial positions. Notable endeavours included the introduction of the employee app (ComLink) and the implementation of a salary survey, both aimed at enhancing the overall benefits offered to employees.

### Workplace culture

### Raising the employee morale through engagement

To elevate employee engagement, events originally scheduled between 2020–22 were rescheduled, culminating in the Annual Award Ceremony that considered a two-year timeframe. This grand ceremony not only celebrated employee contributions during challenging times but also recognised those who excelled in ensuring the continuity of banking operations.

Furthermore, the loyalty and 25 year of service of 74 employees of the Bank was celebrated at the 2023 edition of the Bank's annual Seniority Awards ceremony where the employees were felicitated with valuable gifts and certificates of appreciation. Many of the recipients of these awards were school leavers when they joined the Bank in 1998 and now hold key positions in Corporate Management and in various departments and branches. stakeholders who entrusted the Bank with their savings. Morale played a pivotal role, fostered by a culture that personalises and humanises employees, extracting the best from their work ethic while ensuring their well-being is resilient against unnecessary stresses. The Commercial Bank family newsletter, "Compulse," continued to engage employees, keeping them informed about each other's endeavours in both work and personal pursuits. Improved connectivity and communication between Bank branches set a precedent for more seamless cross-functional and cross-branch dialogues.

### **Combank Super Talent Season 3**

Combank Super Talent Season 3 was conducted in 2023 capturing the essence of brilliance and dedication of Combank Staff.

It was a journey of extraordinary moments. Each frame tells a story of passion, commitment and the unwavering spirit of our exceptional teams.

Seniority Awards Ceremony – 2023

Furthermore, the Bank organised additional morale-boosting events, including a lively employee carnival and a Christmas Party, aiming to instill a sense of joy within the Commercial Bank family.

The year marked a significant milestone in terms of staff engagement, featuring diverse activities such as a talent show, football and cricket tournaments, excellence awards and performance awards. These initiatives were designed to foster a vibrant and participative culture within Commercial Bank, recognising and appreciating the diverse talents and contributions of the employees.

Amid the constraints of the contemporary pandemic, employees demonstrated respect and loyalty to both the Bank and the banking family by providing exemplary service to

Combank Super Talent was started in 2016 and had season two in 2019. In Combank Super Talent Season 03, a total 72 applications were received out of which 34 for singing while 20 for Dancing and 18 for Drama category which shows the enthusiasm of our Combank Staff. 15 teams selected to perform at the Grand finale comprising 5 teams for each category (Drama, Singing and Dancing) while nearly 1000 staff members witnessed the glamorous event held at Monarch Imperial, Kotte on November 4, 2024 followed by fellowship with Music and Dancing. 3 Winners and 3 runners up teams were selected by an eminent panel of Judges comprising of Industry experts and presented the Awards and cash prizes by MD/CEO.

Combank Super Talent – Season 3

#### Sports events

The Bank recognises the importance of sports events to foster an environment of employee wellness, improve team spirit and create a sense of camaraderie among employees to stay motivated and productive.

Therefore the Bank promotes sports among its employees by organising a variety of sports events including the annual cricket tournament, netball tournament and football tournament.

Sports Events – 2023

### **Fast track promotions**

Promotions are a key strategy for talent retention and business growth. In today's fast-paced and competitive environment, employees seek prospects for advancement and new challenges. In this context, the Bank recognises the importance of motivating high-performers by facilitating smoother promotions with a clear path for career progression. Therefore the promotion criteria of the Bank's employee grades were revised in order to motivate employees to fast- track their careers and advance within the organisation.

#### **Recruitment drive**

In order to meet organisational needs and fill the vacancies created with resignations, the recruitment drive was continued and strengthened with recruiting ideal candidates from the external job market for various specialised positions as well.

#### The banking vocation

The banking vocation is multifaceted in its many roles and responsibilities in its primary functions as a financial intermediary and a maturity transformer. To keep the banking operations at a peak, there should be both job security as well as a means to develop an employee's repertoire of skills and talents. The banking vocation in 2023, stood uplifted by the vocational purposing of each employee to the bigger banking ecosystem, the provision of diversified training programmes, a special monthly allowance to staff in certain grades, hosting of talent shows for the development of employee skill sets, provision of work-from-home and hybrid work arrangements, facilitation of commuting of the employees by pioneering logistics (a bus service) and appreciating the staff by rewarding promotions, awards and financial reimbursements.

While several facets changed in their outlook, the ergonomic landscapes and the backdrop of advertising and marketing of hiring processes did not undergo significant modifications in 2023. In the current operational context, there is anticipation

### Employees by category and gender – Bank

that there will be a re-evaluation of the operational dimensions of the HR Division in 2024.

### **Colours of diversity**

Highlighting the diversity within its workforce, the Bank actively participated in various cultural activities to connect with its multi cultural employees. Events like Christmas Carols were organised to resonate with the cultural, ethnic and religious identities of the workforce, fostering a sense of belonging to a larger community. The Bank took strides to enhance female participation in management by promoting 12 employees to Senior Management roles.

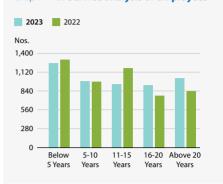

The Bank's promotion policy delineates the staff promotion procedure for all grades, encompassing appointment/ career advancement and promotions up to the Corporate Management level. A key tenet of the policy is that promotions and recruitments are merit-based, with clearly defined criteria outlined in a scheme that eliminates gender bias from the promotion process.

Viewing diversity as an essential element adding vibrancy to the banking units, the Bank actively engages its workforce to grow within a multicultural landscape, enhancing each employee's sense of purpose. This diversity not only serves a crucial role in the ecosystem but also enriches the Banking family with the unique colours brought by its diverse members.

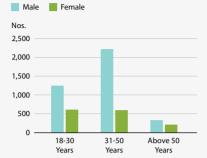

Table – 17

As at December 31, 2023	Age 18	-30 years	Age 31-	Age 31-50 years		Age over 50 years		%
	Male	Female	Male	Female	Male	Female

### Staff training

Training and Development remains a crucial element within the Bank's Human Resource Development Philosophy. With a robust strategy in place, the Bank continues to prioritise equipping its staff with relevant and up-to-date skill sets, ensuring they possess the necessary competencies to deliver enhanced value. The Retail Products Division, in collaboration with the Digital Banking Unit, initiated a cross-functional knowledgesharing and skills development programme to cultivate a digitally-aware culture. This initiative aims to facilitate more effective development and deployment of tech-based products.

Regular staff training programmes were implemented, specifically focusing on accuracy, efficiency and fluency in pawning transactions, contributing to the overall improvement of the valuation process. Additionally, customer service training was intensified, reaching over 2,000 staff across all branches, reinforcing the Bank's dedication to delivering an enhanced service experience. The renovated state-of-the-art auditorium, located in the Union Place branch building, serves as an integral addition to the Commercial Bank's facilities. This modern space caters to diverse events, including product launches, competitions, staff training programmes and cultural extravagansas, meeting contemporary requirements.

During the year, the Bank invested Rs. 88.620 Mn., on training and development and delivered on average 9 hours of training per employee.

### **Training statistics**

					Table – 20
	2023	2022	2021	2020	2019
Total training cost (Rs. Mn.)	88.620	65.375	22.955	15.183	54.695

Total investments on virtual training (Rs. Mn.)	9.100	14.435	16.958	3.455	0.315

### Middle Management Development Programme

The Bank launched the Middle Management Development Programme in 2022 which will benefit more than 130 middle managers over a period of 2 years. The programme was introduced to enhance the competencies of the Bank's future leaders, develop their potential to assume greater responsibilities, enable emerging leaders to grow and connect across diverse business disciplines, prepare them for future challenges and roles and equip them with a strategic leadership mindset. The phase 1 of the programme was concluded at the end of the year 2023 and the Final presentations on various topics related to the Bank from each group were presented for a panel comprising of a DGM, two AGMs and PIM Senior Faculty/Lecturer. The phase 2 of the programme is to be started in 2024.

#### **Remuneration and job security**

Prioritising the continuity of employee remuneration and job security, the Bank conducted annual performance appraisals in 2023. All increments and bonus entitlements, in accordance with the Bank's Pay-for-Performance policy, were fully paid, ensuring that performance-based bonus entitlements for the year were duly rewarded. Additionally, the Defined Contribution Pension Fund, launched in 2020 on the occasion of the Bank's 100th anniversary, provides financial assurances for employees not covered by the pension fund.

To further enhance employee benefits, the Bank introduced a tax relief allowance specifically for executive grades, coupled with the renaming of titles to reflect their social significance. As part of the compensation policy change, a special salary structure was implemented for IT personnel. This involved a comprehensive salary survey, considering both external benchmarks and internal movements. The new structure, encompassing cash, bonus and expedited promotion, aimed at attracting and retaining IT talent.

Each employee received a yearly average increment of 9%, aiming to offset inflation and alleviate the challenges of a high cost of living. The HR Division, operating under the motto "Believe in Commercial Bank" for 2023, built on the momentum of prudent confidence and solidarity, values integral to the Bank's ethos.

In 2023, the banking ecosystem witnessed a brain drain, with nearly 163 employees migrating overseas for better opportunities. To address resulting vacancies, the Bank hired 589 new employees during the year. The Bank actively supported talent upskilling and career development initiatives, ensuring employees were equipped with the necessary capabilities for professional growth.

Continuing its strategy, the Bank outsourced services for Digital Assistants and call center operations. Outbound excursions were also organised to enhance the harmony among hierarchical and geographically dispersed branches, fostering a cohesive and flourishing singular system within the banking operations.

### **Collective bargaining**

In December 2023, the Bank solidified its partnership with the Commercial Bank Employees Union (CBEU) by signing a collective agreement for a three-year period. Throughout the year, the Bank maintained harmonious relations with the CBEU, fostering open dialogue and negotiations that mutually benefited both parties. This collaborative approach yielded rewards for both the Bank and the union members, reflecting a positive and constructive engagement between the two entities.

### HR challenges, initiatives and plans

The HR Department of the Bank faced multifaceted challenges, including significant turnover at the executive level influenced by global job market trends and the aftermath of the COVID-19 pandemic. This rapid turnover complicates the process of replacing departing employees, particularly in the traditional model of training from entry-level to higher positions. To tackle this, the Bank has accelerated the banking trainee process, eased promotion criteria and recruited mid-career professionals for specific roles. Despite acknowledging challenges in talent acquisition and potential long-term impacts on the leadership pipeline, the Bank remains optimistic about the influx of external talent bringing fresh ideas and competition.

To adapt to the evolving workforce landscape, the Bank initiated various strategies such as creating new roles, restructuring the salary system and recruiting professionals from non-banking sectors. Furthermore, efforts to enhance employee engagement, the Bank introduced special tax relief allowances and also engaged in a range of training and development schemes to ensure that the employees are custodians of lifelong learning and strategic self-development that can be vehicles of selfactualisation. Plans for succession planning, increased training activities and potential compensation adjustments are also in the pipeline.

The Bank adopts a comprehensive approach to address HR challenges through digital transformation, competency frameworks, coaching initiatives and employee development. In addition, the Bank is focusing on cross-functional opportunities to encourage mobility among employees, upgrading its Human Resources Information System (HRIS) to improve talent management and centralising routine tasks for better service delivery. These initiatives reflect the Bank's commitment to overcoming challenges and fostering a resilient and adaptable workforce in the ever-changing banking sector landscape to deliver operational excellence.

The Bank values upholding established standards and principles concerning labour practices, human rights and occupational health and safety as crucial for maintaining productivity. Particularly in demanding situations, it is vital to prevent burnout and fatigue, boost morale and foster an environment where employees can thrive and contribute to the Bank's success. Despite facing challenges, the staff's camaraderie and team spirit remained robust, ensuring their productivity stayed consistently high.

#### **Retention rate (Maternity leave)**

			Table – 21
Number of Employees	2023	2022	2021
Availed leave during the year	36	49	50
Due to return during the year	39	54	59

Retained ratio %	83.33	94.92	95.89

# Integrating sustainability into HR Strategy

#### **Encouraging sustainability-related behaviour**

The Bank is dedicated to fostering a green and sustainable work environment as part of its sustainability initiatives. This commitment encompasses various strategies aimed at reducing environmental impact, promoting energy efficiency and supporting sustainable practices within the workplace, as depicted in the Figure 27 below:

Environmental stewardship and corpora	ate responsibility		Figure – 27
Energy Conservation Encourage staff to turn off lights, computers and other electronic devices when not in use	Æ		Water Conservation Raise awareness among team members about the importance of water conservation
Paperless Operations Advocate for digitalisation and paperless processes wherever possible		2-2	Employee Engagement Encourage team members to actively participate in all sustainability initiatives
Waste Management Implement proper waste segregation practices within the Branch/ Department, recycling materials	E.	Ę	Community Involvement Encourage teams to get involved in sustainability initiatives and volunteer programmes in the locality

#### **Responsible consumption of resources**

The Bank actively promotes responsible resource consumption through education and awareness initiatives, instilling principles like the 4R (Reduce, Reuse, Recycle and Recover) and Circular Economy concepts among our committed staff. Our aim is to foster sustainable business operations by encouraging efficient energy and material management to minimise the Bank's environmental footprint. Aligned with our sustainability blueprint, we are dedicated to coordinating joint efforts with pertinent SDGs, with a particular focus on SDG 12. This commitment is demonstrated through responsible practices across various aspects.

# Responsible Construction of Buildings

The Bank ensures responsible usage of materials when constructing bank buildings. Our procurement teams well calculate the necessary resources to minimise wastage of resources

### **Efficient Resource Consumption**

The Bank actively promotes responsible consumption of resources, particularly paper, water and electricity within our operations

#### EDMs & Internal Campaigns

The Bank uses electronic direct mailers (EDMs) and internal campaigns to spread awareness on environmental issues and foster a culture of resource minimisation among staff and other stakeholders

### Beach Cleaning Initiatives

These initiatives have educated our staff, customers and stakeholders of the importance of protecting our oceans and marine life

#### School Revamping Projects

Through such projects we have engaged in educating and instilling sustainable practices among students, school staff and the broader community

#### **Paperless operations**

The advent of technology has revolutionised numerous aspects of our lives, including how the Bank conducts financial transactions and manages its operations. In recent years, there has been a growing emphasis on promoting paperless operations within the banking sector, driven by the dual goals of cost reduction and environmental sustainability. Having introduced digital tabling and viewing of Board and Board Committee Papers via the BoardPac System over a decade ago, Commercial Bank has been at the forefront of this movement, implementing various initiatives to minimise paper usage and transition towards digital alternatives.

One of the primary objectives of promoting paperless operations is to reduce paper consumption and the associated costs, including purchase, transportation and storage. By embracing digitalisation, the Bank has streamlined and automated work processes, leading to greater efficiency and cost savings. Additionally, the scarcity and increasing cost of materials such as plastic, EMV chips and POS devices, coupled with the rise of green banking initiatives, have further incentivised the shift towards paperless, digital and eco-friendly products and services.

The Bank has implemented a systematic digitalisation strategy aimed at achieving a paperless operational environment. This strategy involves leveraging technology to drive paperless payment transaction initiatives, introducing electronic loan application procedures, launching mobile apps for digital deposits and implementing digital workflow systems for internal memos and approvals. Furthermore, the Bank has replaced traditional notice boards with LED panels and introduced e-statements for both account and credit card holders, eliminating the need for physical paper statements.

The transition towards paperless processes is not only a cost-effective measure but also aligns with industry trends and environmental sustainability goals. By managing the supply side through effective sourcing and price negotiations and establishing accountability on the demand side through digitalisation and benchmarking, the Bank has been able to significantly reduce quantities of heavily used stationery items year on year. This approach not only reduces operational costs but also minimises the environmental impact associated with paper production and disposal.

The commitment to promoting paperless operations extends beyond individual initiatives to a holistic approach encompassing all spheres of banking operations. The Bank has embraced total sustainability as reflected in its new logo and practical commitment to business practices, including paperless transactions, responsible compliance practices and energy-efficient operations. Moving forward, the Bank will continue to explore best practices and opportunities to further digitalise and re-engineer processes through initiatives led by the Cost Optimisation Committee.

# Reduction in paper usage (A4 bundles)

**27,000** - **2023** (51,500 - 2022)

#### Water management

Cognisant of the importance of responsible water usage, the Bank has implemented various initiatives to minimise its water footprint while ensuring efficient water management across its operations. Although the Bank's primary water requirement is for utility and sanitation purposes for its staff and customers, it has taken proactive steps to actively manage its daily water consumption.

One notable initiative undertaken by the Bank is the installation of dual-flushing water closets in all Bank-owned branch buildings. These water-saving fixtures are designed to reduce water usage by providing users with the option to use a lower volume of water for liquid waste and a higher volume for solid waste. The Bank has also implemented rainwater harvesting systems at select branches, including Wellawatte, Galle Fort and Jaffna. These systems allow the Bank to capture and store rainwater for various non-potable uses, such as irrigation and toilet flushing. By harnessing rainwater, Commercial Bank not only reduces its reliance on municipal water sources but also promotes sustainable water management practices. Furthermore, at the Bank's Head Office premises, a tube well has been installed to supply water specifically for flushing toilets. This dedicated water source helps minimise the use of potable water for sanitation purposes, thereby conserving valuable freshwater resources. In addition to these specific initiatives, the Bank has also implemented a conscious effort to control daily water usage across all its operations. By promoting water-saving practices and raising awareness among staff and customers, the Bank aims to foster a culture of responsible water consumption throughout the organisation.

#### Offering sustainability training - Zero trash

Vibhava Solution offers comprehensive solutions spanning agriculture, reforestation, waste collection and corporate training and consultation, all geared towards assisting companies in achieving their environmental and social objectives in line with the Sustainable Development Goals (SDGs). The Bank's proposal entails the implementation of a training programme designed to enhance employee environmental awareness and empower them to champion environmental sustainability both within their professional roles and in their personal lives, thereby serving as catalysts for positive change. This training module covers areas such as waste management, home gardening and climate change fundamentals, equipping employees at all levels with the knowledge and skills needed to make a meaningful impact. Furthermore, the Bank aims to leverage this workshop as a platform to facilitate the planning, design and execution of community-based climate adaptation and mitigation.

#### **Future Force Group**

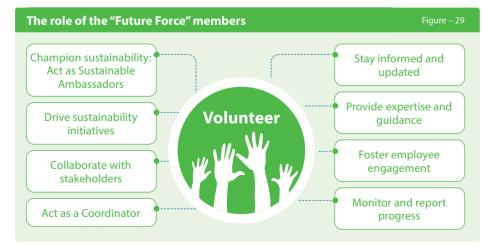

As a pioneering organisation committed to sustainability, Bank has recognised its role in supporting sustainable development of the country, while reducing our environmental footprint. In this context, establishment of Sustainability Group, is expected to create a platform for collaboration, innovation and knowledge-sharing among our staff members, customers and other stakeholders.

# **Future Force – The Sustainability Group of ComBank** Overall Goal

To create a platform for collaboration, innovation and knowledge-sharing among our staff members, customers and other stakeholders in the Sustainability sphere

#### **Encouraging sustainability-related innovation**

#### **Digitalised culture**

The Bank achieved a notable reduction in its paper footprint, evident across various internal and external processes. The digitisation of inward remittances played a key role in minimising paperwork associated with remittances-based printing. Additionally, the automation of the internal audit process contributed to the Bank's shift towards a paperless culture.

The upgrade of the AS400 server strengthened the core banking system, allowing it to efficiently handle increased workloads and adapt to traffic changes. This upgrade ensures high-performance, security and reliability. The automation of the Credit Information Bureau (CRIB) system has improved the Bank's decision-making processes, leading to a reduction in man-hours and associated costs. The introduction of an integrated loan appraisal system, enhancing efficiency in report generation, marked a noteworthy development during the year.

#### Recognising and rewarding sustainability-related achievements

branch or department in incorporating sustainable practices into its dayto-day operations. This includes factors such as energy efficiency, waste reduction and adherence to sustainability guidelines. Recognising the importance of innovation in sustainability, this criterion evaluates the implementation of creative and novel solutions that contribute to environmental conservation and sustainable development. Acknowledging that sustainable practices require a cultural shift, this criterion focuses on the behavioural aspects of teams. It assesses how well the team has embraced and integrated sustainable behaviours into their work ethics. This criterion highlights the initiation and execution of sustainable projects by the branch or department. Projects that demonstrate a positive impact on the environment, community, or internal processes are particularly valued.

# **Volunteer Initiatives**

27 Environment conservation projects were carried out during the year 2023

# Incorporating sustainability into performance evaluations

The Bank employs specific key performance indicators (KPIs) as tangible metrics to evaluate its achievements in fulfilling both its corporate objectives and its obligations towards the community and the environment. Figure 31 presents 11 essential KPIs from the range of KPIs utilised by the Bank to evaluate its performance in sustainable banking, along with their corresponding pillars of sustainability as outlined by the Central Bank, the Bank's own sustainability pillars and the United Nations Sustainable Development Goals (UN SDGs) that the Bank contributes to.

# **Expected outcomes of sustainable HR practices**

#### Fostering a Sustainable Culture

Cultivating a culture of sustainability by driving the responsible organisation concept by promoting a green and safe workplace, sustainable products and services

# Enhancing Trust and Brand Reputation

Promoting sustainable banking practices and engaging with the community to build trust among customers and enhance brand reputation

#### Managing Sustainability Risks

Identifying and effectively managing sustainability risks to minimise the potential for sustainability-related losses

## Promoting Digital Banking

Encouraging increased digital transactions to promote the usage of digital banking services

## **Boosting Employee Satisfaction** and Retention

Emphasising sustainability and community engagement initiatives to enhance employee satisfaction and ensure employee retention

#### Reducing Paper Usage and Waste

Implementing measures to reduce paper consumption and waste, which will result in reduced purchase, transportation and storage costs

### Enhancing Energy Efficiency

Implementing strategies to reduce energy usage and improve operational efficiency, leading to minimum resource usage and cost savings

#### Sustainable supply chain

#### **Logistical Framework**

In 2023, the Bank continued its efforts to broaden its network of business partners as a strategic measure to ensure seamless operations, particularly in times of crisis. The established trust and connectivity between the Bank and its suppliers play a pivotal role in providing technology platforms, market access and essential materials and services, thereby sustaining the supply chains essential to the Bank's operations. Throughout the year, the Bank actively

engaged with over 1,500 business partners, enhancing the efficiency and reliability of its banking operations. The e-procurement system, introduced in 2020 and vital during the extended pandemic period, continued to serve as a critical supplier base, mitigating the impacts and challenges in the operating environment on banking operations and employee health. This enabled the Bank to ensure an above-par supply chain, maintaining smooth operational continuity. Supply chain logistics were meticulously calibrated to ensure each branch received

required consumables in time to guarantee uninterrupted banking operations.

Procurements during this period prioritised uncompromised quality, introducing new avenues for digital products and innovative backend tools. The Bank made a significant investment of over Rs. 2.5 Bn. in Information Technology, with hardware and software acquisitions facilitated through strong supplier-business partner relationships cultivated over the years. Cost management remained a fundamental criterion in governing expenses for pioneering digital innovations.

# The Bank's business partners

#### CRITICAL TO OPERATIONS

- Utility services providers
- Software suppliers
- Material suppliers
- Travel and Transport

### EXTEND OUR REACH

- Correspondence banks
- Franchise partners
- Exchange houses
- FinTech companies

# INFREQUENT ENGAGEMENT

- Premises providers
- Contractors
- Professional services providers

### MAINTENANCE

- Staff welfare
- Waste management
- Communication
- Human Resource providers
- Asset suppliers
- Debt collection agencies

A technical introduction to the practice of procurement was the slow infusion of artificial intelligence (AI) into the procurement process, for best placement of supply materials in the utility pipelines, to improve overall efficiency of the procurement exercises, bolster the underlying business intelligence and to offset traditional procurement practices that can compromise the punctuality of supply chains.

#### **Collaboration and partnerships**

Within the realm of sustainable banking, the Bank not only provides a robust suite of services but has also implemented effective monitoring and evaluation processes along with a comprehensive reporting mechanism to track the progress of sustainable banking. In 2022, the Bank partnered with the Market Development Facility organisation (MDF), an NGO under the Australian Government, dedicated to sustainable economic development. This collaboration aimed to uplift and empower farmers and micro-producers in the sphere of sustainable finance. The Bank's support extends to community-based organisations, encompassing farmers, fishermen, cottage industries, women-led enterprises and other micro-businesses, fostering a sustainable supply chain.

At the SME Trade Fair, the Bank collaborated with the Sustainable Energy Authority (SEA) to conduct an awareness session for SMEs on how to reduce electricity consumption and energy bills by moving to renewable energy. The Bank has a Flexi-Payment Plan loan scheme for financing the establishment of solar-powered units. This initiative not only promotes financial inclusion but also aligns with green practices, showcasing the Bank's commitment to both aspects simultaneously.

Process followed in integrating sustainability in the Supply Chain:

• Supplier engagement:

The Bank engages with their suppliers to encourage the adoption of sustainable practices, such as reducing waste and emissions, conserving water and energy and using environmentally-friendly materials

Sustainable procurement:

The Bank adopts sustainable procurement policies that prioritise the purchase of goods and services that have a low environmental impact

• Collaboration and partnerships:

The Bank works with other organisations, such as non-profits and industry associations, to promote sustainability in their supply chain.

# **Community engagement – Outreach**

Guided by the Bank's Sustainability Framework and spearheaded by sustainability committees, the Bank achieves Community Engagement through multi-faceted initiatives, collaborations and programmes that focus on social and environmental aspects.

One aspect of Community Engagement is the Bank's outreach programmes, which aim to support and uplift needy communities at the grassroots level. The Bank's CSR activities directly address their needs and challenges. Through initiatives focused on education, healthcare, environment and community development, the Bank aims to uplift and empower individuals in such communities. This includes providing access to quality education and vocational training, improving healthcare facilities and services, promoting environmental sustainability and supporting community development projects which aim to make a positive and sustainable impact, improving the lives and opportunities of those in need.

Commercial Bank strategically supports social enterprises, collaborating with organisations like IFC, *Sarvodaya* and UNDP to empower marginalised communities by establishing initiatives such as childcare centers and donating food dehydrating machines, aiming to balance financial success with meaningful societal and environmental impact.

The Bank's Community Engagement efforts also include specific projects such as mangrove restoration, tree planting initiatives, providing water purification plants and storage tanks, etc. Through collaboration with Wildlife and Ocean Resource Conservation, the Bank initiated a mangrove planting project in designated areas to prevent land erosion, preserve buffer zones and restore the balance of fauna, flora and human settlements.

The Bank utilises diverse communication channels such as Facebook, Twitter, LinkedIn, and Instagram to ensure comprehensive reach and effective dissemination of information with regard to community engagement, sharing updates, success stories and educational content on sustainability.

The Bank encourages its staff to actively participate in community volunteering initiatives that benefit the community and the environment. To maximise their engagement and awareness, the Bank has introduced an awards programme for the Best Sustainable Branch and the Department. This recognises and encourages sustainable practices within the Bank and fosters a sense of social and environmental responsibility.

The Bank serves as a steadfast financial institution committed to the responsible management of societal and environmental well-being through a comprehensive approach. Aligned with its sustainability vision, the Bank has seamlessly integrated sustainability principles across its operations, organisational culture and the entire value chain. This involves robust and enduring outreach programmes shaped by an environmental conscience, emphasising the Bank's commitment to Corporate Social Responsibility (CSR) by reaching out to disadvantaged communities at the grassroots level. Leveraging its environmental awareness, the Bank actively balances conservation efforts with emissions management, striving to proactively protect nature while reducing its carbon footprint.

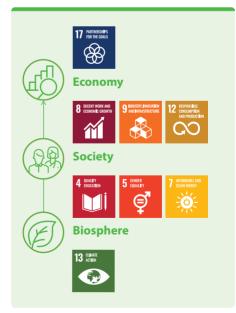

## Governance Framework in place at the Bank for community engagement

Figure – 34

Governing Body	CSR Trust	Executive Sustainability Committee
Managed by	A dedicated CSR Unit headed by a Senior Manager consisting of a four member team	Sustainability Working Committee comprising members of Corporate Management and Heads of 16 Departments
Process followed	Highly efficient project management process, includir based on feasibility, impact assessment coupled with monitoring of ongoing projects	
Membership	Future Force Members and ownership at branch and o	lepartment level

The Bank's sustainability endeavours are overseen by a cross-functional Sustainability Working Committee (SWC), featuring representation from key sustainability-related functional areas and incorporating a thorough measurement mechanism. The Bank's sustained and new partnerships with public, private and non-governmental organisations, both locally and internationally, play a crucial role in advancing its sustainability strategy.

Through these initiatives, the Bank commits to engage in the following SDGs:

#### Commercial Bank supports social enterprise

Commercial Bank took a strategic initiative to support social enterprise, empowering the communities to stand up on their own. Reaching out to the marginalised communities and supporting them to create livelihoods is the Bank's objective in this strategic focus.

In this, the Bank goes beyond traditional profit-driven models, striving to balance financial success with a meaningful contribution to the society and the environment. In taking this strategic initiative forward, the Bank enters into collaborations with like-minded entities having expertise in the relevant fields.

Establishing a Childcare Centre in Batticaloa in collaboration with IFC

# Collaboration with IFC and *Sarvodaya* to establish a Childcare Centre in Batticaloa

A study done by IFC in the Eastern Province highlighted that not having proper reliable childcare facilities in the region is negatively impacting the productivity levels of both men and women. Therefore, as a solution and also as an employment generating mechanism, IFC together with *Sarvodaya* proposed to establish a well-structured childcare centre in Batticaloa with welltrained childcare specialists and the Bank supported this initiative.

# Collaboration with UNDP to donate a food dehydrating machine to Hettipola Village

As an additional income generation mechanism to the underprivileged farming community in Hettipola, where UNDP through their GEF Small Grants Project had established women societies. The Bank donated a food dehydrating machine to the women society in the village. The society now initiates dehydration of excess produce to packet and sell them, generating an extra income for the poor farming families.

#### **Corporate Social Responsibility (CSR)**

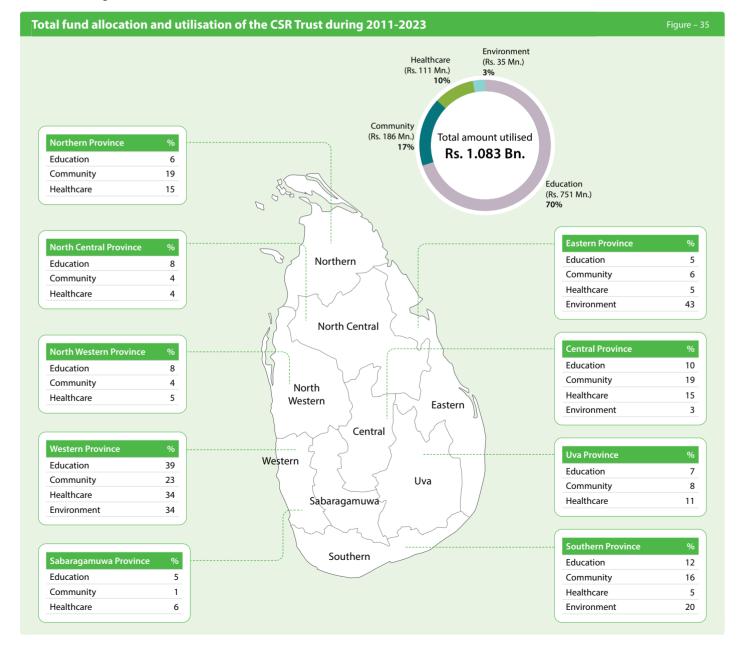

The Bank's Corporate Social Responsibility Trust (CSR Trust) envisions a future where no one is left behind and where the financial commitment of the Bank's outreach programmes will uplift societies, especially the younger generations who are the leaders of tomorrow.

The CSR Trust applies the foundational strengths of outreach in five sustainable areas targeted to empower communities.

- Education
- Healthcare
- Environment
- Community and
- Cultural Heritage

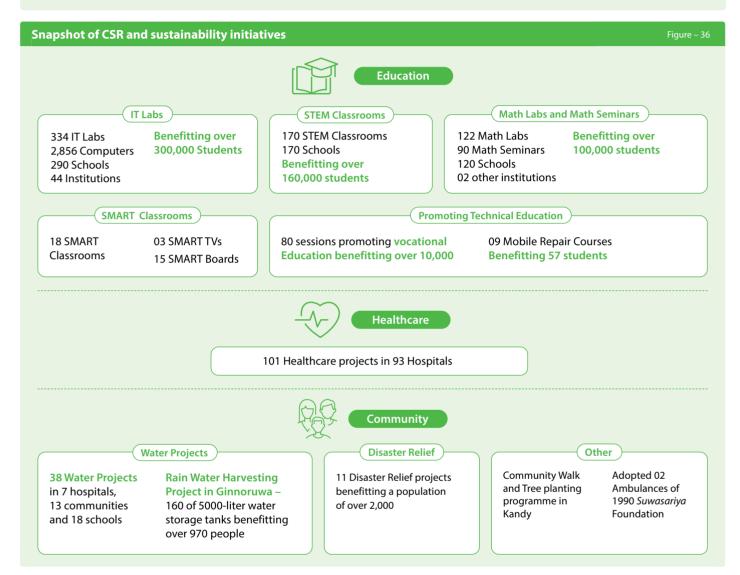

The unique mandate of the Bank's CSR Trust emphasises empowering the citizens of the nation to actively contribute to Sri Lanka's socio-economic development, rather than seeking direct benefits or aligning with the Bank's business objectives. Allocating up to 1% of its post-tax profit annually, the Trust focuses on five broad sustainable areas mention above to redirect its CSR initiatives meaningfully. Serving all communities, religions, geographical locations and races without discrimination, the Bank's CSR Trust aims to make a positive impact on society. Bank's well-planned approach to CSR initiatives:

- The Bank's CSR Trust comprises five-member Board of Trustees who drive the CSR strategy
- The commitment of the Bank's leadership to advance CSR initiatives
- All projects are managed by the CSR Unit of the Bank
- Volunteerism and ownership at the branch and department level
- Rigorous post-evaluation of the projects undertaken

#### The Bank has garnered the following awards and accolades for its CSR initiatives:

- Best CSR Bank from Global Banking and Finance Review Magazine, UK
- Winner Banking Category from ACCA – Sri Lanka at Sustainability Reporting Awards 2022
- Integrated AR & CSR: Non-Traditional Format Silver Award from MerComm ARC Awards 2023

Social engagement Education

#### IT labs

The Bank added 54 "IT Labs" in 2023, bringing the total to 334 and extending the technological access to a broader student population.

The Bank, through its CSR Trust, employs a comprehensive approach to implement impactful projects under the Education pillar, representing the largest CSR expenditure. Following a strategic decision to focus on IT Education and digital literacy development for the youth, the Bank has made substantial strides in increasing its investment in IT education, fostering a technologically proficient future generation. Building on the initiative to establish IT labs in rural schools since 2011, the Bank added 54 "IT Labs" in 2023, bringing the total to 334 and extending technological access to a broader student population. This initiative has played a crucial role in retaining students in rural schools and preventing the closure of some struggling schools due to a lack of IT resources.

In 2017, the Bank initiated efforts to enhance IT literacy among young individuals by establishing "smart learning environments", investing in skill development programmes and bolstering educational infrastructure. These endeavours directly align with Sri Lanka's Sustainable Development Goals, particularly Goal 4 (Quality Education), aimed at fostering inclusive, equitable and quality education while promoting lifelong learning opportunities. Furthermore, the Bank advocates for SDG 17 ("Partnerships for the Goals"), recognising that collaborative partnerships amplify impact and yield more robust outcomes.

#### 09 Mobile Repair Course for 57 students

## **SMART schools**

The SMART School project focuses on the digitisation of core subjects in GCE Ordinary Level and Advanced Level grades, creating a digital learning platform to enhance the education of secondary school students in rural areas. Through a Public-Private-Partnership with Headstart (Pvt) Ltd., Microsoft Sri Lanka and Dialog Axiata PLC, the Bank works to establish smart learning environments in traditional secondary education classrooms. Teacher training on the use of smart techniques is a key component of the initiative, benefitting over 75,000 students across nine districts. The Bank's commitment to promoting STEM education is evident through the expansion of the "Smart School" concept, establishing STEM Classrooms, Coding Clubs and Math Labs in schools.

#### **STEM classrooms**

The initiation of the STEM Classroom project in 2020 marked a significant advancement in the Bank's dedication to the Education pillar during its centennial celebrations. As part of the "100 Sipnena Smart STEM Schools" initiative, the Bank is actively involved in the long-term transformation of conventional classrooms into STEM centers. Leveraging digital learning content from the Sipnena online education platform, the project prioritises Science, Technology, Engineering and Mathematics (STEM) subjects crucial for various IT-related careers. Selected schools are equipped with computers, multimedia projectors, furniture and access to specially curated digital content, enhancing the overall learning experience. In 2023, the Bank successfully established 30 STEM Classrooms, increasing the total to 170 and benefitting approximately 160,000 students nationwide. Future plans involve extending the project to students from Grade one to the GCE Ordinary l evel

#### Math labs

Introduced in 2015 with the aim of nurturing the mathematical and analytical capabilities of schoolchildren, the Math Lab project remains an active venture spearheaded by the Bank. Throughout recent years, the Bank has established several math labs primarily in rural schools across Sri Lanka. This endeavour has garnered interest from young learners across various age brackets, eager to engage in hands-on learning through interactive mathematical activities. These labs serve as platforms for students to deepen their understanding of mathematical concepts, enhance problem-solving skills and foster critical thinking abilities. The Bank established 37 Math labs in 2023 raising the total to 122.

### **Coding Clubs Project**

Launched in July 2020 as part of the second phase of the STEM Classroom initiative, the Coding project is a collaborative venture involving Commercial Bank, STEMup Educational Foundation, IRIM Croatian Makers, Micro:bit Educational Foundation, Rotary Club Zagreb Centre and other contributors. Aligned with STEMup Foundation's mission to inspire students toward STEM degrees and careers, the project establishes computer coding clubs in 100 selected schools across the country. The objective is to equip students with programming skills, fostering innovation and the development of functional applications. The Bank's commitment extends to funding train-the-trainer programmes and providing essential learning tools, including "Internet of Things" (IoT) kits and other necessary resources.

### CISCO Networking Academy – Commercial Bank collaboration

In 2020, the Bank, in partnership with the CISCO Networking Academy, facilitated around 500 students from government schools to enroll in various basic IT courses of their choice through a virtual platform, free of charge. The Bank bears the students' lecture fees and CISCO Networking Academy provides the courses without any charge. This collaboration is designed to maximise the use of the IT labs donated by the Bank, allowing students to pursue IT courses by connecting to the CISCO Networking Academy curriculum and earn certifications upon successful completion. CISCO certifications hold significant value in the IT industry and the Bank has successfully trained over 2,000 students through this programme, making them eligible for well-paying jobs.

# Youth empowerment through vocational training

In partnership with the Vocational Training Authority (VTA), the Bank facilitated school leavers who completed their 10th grade to pursue technical qualifications up to NVQ Stage III certification across diverse technical disciplines. The "120 Days Training" initiative has provided essential skills to school dropouts, preparing them for opportunities in the construction sector. Through this sustained effort, Commercial Bank has empowered more than 340 young individuals to secure meaningful employment. The following VTA-enabled training facilities

The following VTA-enabled training facilities and programmes were conducted in 2023.

 Teamed up with the "Sipvin" Vocational Training Institute in Moratuwa, the Bank launched a Mobile Repair Course aimed at empowering underprivileged individuals. More than 57 students have completed this intensive one-month programme, gaining valuable skills to improve their employability prospects and secure higher monthly incomes.  Supported the Vocational Training Authority to enroll students from government schools and initiated the establishment of 15 STEAM Clubs in schools, emphasising its commitment to bridging the gap in vocational education for students.

### Impact assessment

In line with our dedication to education, we conducted a comprehensive impact assessment of the STEM educational facilities donated by the CSR Trust to underprivileged schools. This assessment highlighted the significant transformative influence of these IT labs on education, reaffirming our commitment to narrowing digital disparities and fostering a better future for our communities. Additionally, the collaboration with the National Science Foundation and the Sasnaka Sansada Foundation demonstrates our commitment to transparency and accountability. Through such partnerships, CSR Trust ensures thorough evaluation processes, enabling it to enrich its strategies and sustain positive contribution to education.

#### Healthcare

The CSR Trust executed healthcare projects in 08 hospitals disbursing funds amounting to Rs. 16.0 Mn. Noteworthy contributions included the donation of critical care equipment and development of infrastructure facilities to government hospitals. This initiative aimed to enhance the healthcare infrastructure and support the well-being of the local population.

#### **Contribution during the year 2023**

8 Healthcare Projects conducted in Government Hospitals – Spent Rs. 16 Mn.

Adopted 02 Ambulances of 1990 *Suwasariya* foundation with the cost Rs.10 Mn.

When fundamental human needs such as food, clean water and proper sanitation are lacking, it can trigger a cascade of adverse effects, with poor nutrition emerging as a

crucial and overarching concern.

According to the World Food Programme (WFP) Sri Lanka Situation Report from March 2023, 32% of households in Sri Lanka are experiencing food insecurity, with 73% resorting to negative food and livelihood coping strategies. To address this issue, WFP exclusively partnered with Commercial Bank to distribute funds to selected beneficiaries in Sri Lanka through an outreach programme aimed at preventing malnutrition and assisting families in accessing food. The memorandum of understanding (MOU) in this regard was signed in August 2023.

In collaboration with WFP as the exclusive financial partner, the Bank supported the community by distributing WFP Aid worth of Rs. 183.190 Mn. (USD 570,000) to 9,961 households in Jaffna, Mullaitivu, Badulla, Matara, Colombo, Kegalle and Ratnapura Districts to reach their alimentation and nutritive needs.

As a benefactor, partner and patron of the partnership with the WFP, the Bank bolstered the grassroots level capacity of over 10,000 households to reach their alimentation and nutritive needs.

## **Cultural heritage**

The Bank continued its annual children's art competition "Arunalu Siththam" for the fourth consecutive year, inviting young talents from all over Sri Lanka to showcase their artistic abilities. Looking ahead to 2024, the Bank plans to expand its philanthropic efforts by supporting traditional handcrafted arts and crafts of small and medium enterprises (SMEs), such as the mask industry in Ambalangoda.

#### **Community development**

In 2023, the Bank continued its commitment to social responsibility by supporting communities severely impacted by economic and environmental challenges. Collaborating with the Centre for Education, Research and Training on Kidney Diseases, the Bank donated 5,000-liter storage tanks to fifty families in the Ginnoruwa area. The "Ran Aswanu Mangalya" initiative, led by the Bank in Minneriya Dewalaya, exemplifies our commitment to community engagement and sustainable practices. Collaborating closely with the Dewalaya, the Bank orchestrated a comprehensive programme aimed at uplifting the agricultural community in the area. Activities included the distribution of farming equipment to local farmers, conducting capacity-building programmes, installing a water purification system at Dewalaya, installation of signage boards near the Minneriya Tank to increase visibility and awareness and organising a tree planting initiative in the locality. These efforts not only support the first harvest tradition of offering kanna to the Minneri Deity but also contribute to the overall well-being and prosperity of the community.

Ran Aswanu Mangalya

The Bank was also engaged in Planting trees around Gatabe Municipal Ground jointly with the Municipal Council of Kandy and the Forest Department. The Bank also sponsored two ambulances in "Adopt an ambulance" programme for 1990 Suwasariya Foundation.

Staff volunteering initiatives, such as the Conservation of Aquatic Ecosystem and Revamping School Premises projects, have involved the participation of volunteer staff members across 16 projects, reflecting our commitment to making a positive impact on the communities we serve.

Looking ahead to 2024, the Bank plans to expand its community development initiatives and engagement even further.

### Contribution during the year 2023

Community To enhance the standard of living Rain water Harvesting Projects in Ginnoruwa 7 Drinking Water projects in 3 hospitals, 1 school and 3 other institutions Donated 5,000 litre water tanks to 50 families in Ginnoruwa

# **Environmental engagement**

Environmental engagement is currently a crucial imperative in combating climate change. For many years, Commercial Bank has played a central role in advocating for the environment, showcasing how the local banking sector can contribute to Sri Lanka's shift towards a low-carbon economy. Achieving the distinction of being the first carbon-neutral bank in Sri Lanka in 2020 underscores the success of its innovative measures to significantly diminish its carbon footprint, as well as that of its customers and other stakeholders. The Bank received the Best Corporate Citizen Sustainability Award for 2021 from the Ceylon Chamber of Commerce in recognition of its carbonneutral accomplishment.

The Bank's initiatives to protect the environment encompass a restorative mangrove rehabilitation project, financial support for a conservation programme benefitting pollution-threatened turtles and a regeneration effort to reclaim degraded forest land. Additionally, these initiatives involve providing loans to promote ecofriendly operations, encouraging customers to adopt paperless banking and minimising the consumption of non-renewable energy, water and other resources in its operational processes.

#### **Environmental conscience**

The Bank is deeply involved in concrete environmental preservation endeavours, concentrating on minimising operational emissions and advocating for energy

conservation. Additionally, the Bank actively engages in vital projects dedicated to ecosystem preservation. These actions serve as clear manifestations of the Bank's steadfast dedication to safeguarding biodiversity and preserving ecosystems.

The Bank actively engages its employees in environmental initiatives, aiming to cultivate a culture of environmental awareness and responsibility within the Bank. Through targeted programmes such as environmental training, internal communications and green office practices, employees are encouraged to adopt sustainable behaviours. Additionally, initiatives like employee engagement programmes, reward schemes and competitions further promote environmental consciousness. Local employees play a crucial role in all environmental projects, facilitating easy monitoring, fostering ownership and raising awareness, thereby ensuring the long-term sustainability of these initiatives.

**Contribution during** the vear 2023

12,000 trees planted "Trees for Tomorrow"

Over 22,000

Sea turtles released

Scientific research study on the Mangrove Eco System in Koggala Lagoon

#### **Trees for Tomorrow**

The "Trees for Tomorrow" initiative engaged the entire branch network, highlighting the strength of collaboration and cross-functional teamwork. Orchestrated by a dedicated team, the event led to the successful planting of an impressive 12,000 trees nationwide, showcasing a commitment to environmental stewardship and the impactful results achievable through collective efforts. Looking forward, an ambitious goal of planting an additional 100,000 trees signifies a commitment to a substantial and lasting contribution to the environment. This objective extends beyond a numerical target, symbolising a determination to act as a catalyst for positive change and environmental sustainability.

Crucially, the "Trees for Tomorrow" project emphasises the significance of staff engagement on a volunteer basis. This aspect is integral to the sustainability philosophy, fostering a sense of community and shared responsibility among staff members. Through active participation in initiatives like tree planting, employees become ambassadors for sustainability, contributing to a more sustainable and green environment and cultivating a culture of environmental consciousness within the organisation.

#### Mangrove restoration project

The Bank has strategically pinpointed areas where human activities have negatively impacted the well-being of nature and has undertaken initiatives to restore and enhance the harmony between fauna, flora and human settlements. A mangrove planting project, conducted in partnership with Wildlife and Ocean Resource Conservation around Koggala Lagoon, aims to combat land erosion on 21 islands in the vicinity. During 1st, 2nd and 3rdPhases of the project more than 12,000 mangrove plants were planted to cover 1.25 kilometres in the Kathduwa and Madol Duwa.

In 2023 under the 4th phase, the initiative extended beyond reforestation, significantly contributing to scientific research while uncovering new mangrove species. Focused on a holistic approach ensuring project sustainability, the project also boosts community income through eco-friendly measures, such as catamaran promotion and supports the traditional cinnamon industry. With an emphasis on directed tourism, the project ensures enduring success, merging scientific insight with community economic well-being.

#### **Turtle Conservation Project**

The Turtle Conservation Project, initiated in collaboration with Wildlife and Ocean Resource Conservation, focuses on protecting sea turtles, which are classified as an endangered species by the IUCN, at Panama beach. Utilising a natural methodology known as in situ conservation, over 72,000 turtles have been released into the deep sea since 2019. In 2023, the Bank allocated Rs. 4 Mn. towards the conservation of turtles.

#### **Memberships**

The Bank's membership in various international and local alliances and affiliations underscores its commitment to collective action in curbing GHG emissions and promoting green environmental measures, which lie at the heart of sustainability. These alliances and affiliations serve as essential platforms for collaboration, knowledge sharing and coordinated efforts towards achieving environmental objectives. By aligning with like-minded organisations, the Bank strengthens its position as a consolidated force on the ground, leveraging collective resources and expertise to address pressing environmental challenges. Through these partnerships, the Bank demonstrates its dedication to sustainability and its recognition of the importance of collaborative action in safeguarding the planet for future generations. The Bank is a member of the following international and local alliances and affiliations:

- Sustainability Banking Initiative of the Sri Lanka Banks' Association
   United Nations Global Compact (UNGC)
   Business and Biodiversity Platform of Sri Lanka
- International Finance Corporation (IFC)

### **CSR Projects in Bangladesh**

# **Financial review 2023**

This financial review offers insights into the Bank's performance during the year under review. It should be read in conjunction with the Operating Context and Outlook section (pages 48 to 53), which outlines global, local and sector trends influencing the Bank's performance and the Management Discussion and Analysis section (pages 62 to 159), which elaborates how the Bank enhanced its financial and other capitals within the context of its Sustainability Framework and strategic imperatives.

#### **Performance of the Group**

#### **An overview**

In a period marked by lingering effects of the challenges from previous years, the Commercial Bank Group, comprising Sri Lanka's largest private sector bank, its subsidiaries and the associate, concluded the year 2023 with robust operational performance. The Group's assets grew to Rs. 2.656 Tn., marking a 6.24% (2022: 26.02%) increase from Rs. 2.500 Tn. at the end of 2022. Notably, the Group's gross income experienced a significant growth, rising by 21.82% (2022: 71.31%) to reach Rs. 341.566 Bn. compared to Rs. 280.387 Bn. in 2022. Moreover, the total operating income and profit after tax for the year amounted to Rs. 122.070 Bn. (2022: Rs. 136.637 Bn.) and Rs. 21.900 Bn. (2022: Rs. 24.399 Bn.), respectively, demonstrating the Group's resilience and adaptability in navigating challenging economic conditions.

With the Bank representing 97.17% of the total assets (2022: 97.05%) and 93.43% of the Group's profit after tax (2022: 94.14%), the following analysis delves into the Bank's financial performance in detail. Subsequently, a brief overview of the Bank's operations in Bangladesh, other overseas operations, local subsidiaries and the associate is given on pages 128 to 131.

#### **Performance of the Bank**

### An overview

The Bank's total assets exceeded the Rs. 2.500 Tn. milestone, marking a significant achievement as the first private sector commercial bank to do so, reaching Rs. 2.580 Tn. by December 31, 2023, compared to Rs. 2.426 Tn. in 2022, reflecting a growth of 6.37% (2022: 24.45%). This growth, amounting to Rs. 154.530 Bn., was primarily supported by an increase in deposits, which grew by Rs. 170.687 Bn., or 8.92% (2022: 32.66%), surpassing the Rs. 2.000 Tn. mark for the first time and reaching Rs. 2.085 Tn. by year-end, compared to Rs. 1.914 Tn. in 2022. Notably, Commercial Bank achieved the milestone of being the first private sector bank to surpass Rs. 2.000 Tn. in deposits in the fourth quarter of 2023, maintaining this status to date. The lending portfolio, adjusted for provision for impairment, grew by Rs. 45.917 Bn., or 4.06% (2022: 11.42%), reaching Rs. 1.176 Tn. by the end of the year, compared to Rs. 1.130 Tn. in 2022. It is noteworthy to mention that the Bank was able to increase its market share in total assets, deposits and loans and advances to 13.01%, 12.98% and 11.76% in 2023, respectively from 12.49%, 12.51% and 10.78% respectively, at the end of 2022, as shown in Table 06 on page 52. on the Bank's performance in 2023 compared to the Banking Sector.

It is pertinent to mention that the Bank achieved the above milestones despite the appreciation of the Rupee to 324.25 from 367.00 against the USD by 13.18% during the year.

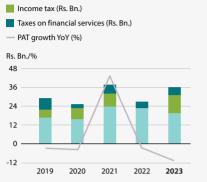

In 2023, the Bank's profit after tax amounted to Rs. 20.461 Bn., showing a decrease of 10.92% compared to Rs. 22.970 Bn. in 2022, which had experienced a negative growth of 2.70%. This decline is noteworthy considering the high tax regime throughout 2023, contrasting with 2022, where high taxes only affected the second half of the year.

The total operating income for 2023 decreased to Rs. 118.109 Bn., down by 11.12% from Rs. 132.888 Bn. reported in 2022, which had seen a significant increase of 45.40%.

However, impairment charges and other losses for 2023 decreased to Rs. 38.624 Bn., marking a 45.95% reduction compared to Rs. 71.462 Bn. recorded in 2022, which had shown a substantial increase of 189.41%, as detailed on page 306 under "Impairment charges and other losses". This decrease contributed to the Bank's improvement in net operating income to Rs. 79.486 Bn., up by 29.40% in 2023 from Rs. 61.427 Bn. recorded in 2022, which had decreased by 7.91%.

The total operating expenses of the Bank increased to Rs. 42.644 Bn., showing an increase of 22.06% (compared to 20.92% in 2022) from Rs. 34.936 Bn. reported in 2022. Consequently, the profit before tax of the Bank improved to Rs. 31.880 Bn. in 2023 from Rs. 22.598 Bn. in 2022, marking a growth of 41.07% (as against the negative growth of 29.38% in 2022).

The Colombo Stock Exchange witnessed a notable turnaround from its subdued performance in 2022, with both the ASPI and S&P SL20 indices experiencing significant gains by the end of 2023. The ASPI surpassed the 10,000-point mark, rising from 8,500 points, marking a substantial growth of 25.50%. Similarly, the S&P SL20 index exceeded the 3,000-point threshold, showing a notable growth of 16.42%. Against this backdrop, the banking sector observed a remarkable surge in both trading volumes and share prices, attributed to the dissipation of perceived elevated risks associated with the sector stemming from the unprecedented operating conditions of 2022. The banking sector index more than doubled, reaching nearly 800 points by the end of the period. The Bank's shares maintained the highest price-to-book value and market capitalisation among its peers in the banking sector. Consequently, the Bank's market capitalisation ranking improved, moving from twelfth place among all listed companies on the Colombo Stock Exchange as of December 31, 2022, to ninth place by December 31, 2023.

Taking into account the Bank's performance during the year, along with its dividend policy, capital augmentation plan and commitment to providing a reasonable return to shareholders, the Board of Directors has proposed a first and final dividend of Rs. 6.50 per share for the year 2023. This dividend consists of a cash dividend of Rs. 4.50 per share and a scrip dividend of Rs. 2.00 per share. In 2022, the Bank paid only a scrip dividend of Rs. 4.50 per share.

#### **Income statement**

#### **Financial intermediation**

The gross income increased by 21.90% in 2023, compared to the substantial growth of 71.20% in 2022, reaching Rs. 335.770 Bn., from Rs. 275.444 Bn., reported in 2022. This

growth was mainly driven by significant contributions from both fund-based and feebased operations, although other revenue sources experienced a decline, as elaborated below under "Other Income". Given that the growth in gross income outpaced the growth in average assets for the year, which stood at 14.43% in 2023 (compared to 18.71% in 2022), the financial intermediation margin (calculated as gross income divided by average total assets) improved to 13.41% by the end of 2023, compared to 12.59% in 2022, representing an improvement of 82 basis points (bps). The financial intermediation margin for the banking sector as a whole stood at 14.56% in 2023.

#### **Fund-based operations**

Interest income, constituting 87.15% of the gross income amounting to Rs. 335.770 Bn. (compared to 79.26% in 2022), rose to Rs. 292.618 Bn. in the year from Rs. 218.327 Bn. in 2022, recording an improvement of 34.03% (compared to 67.37% in 2022). This increase was primarily driven by growth in both the average interest-earning assets by Rs. 262.721 Bn. and the average interest rate on interest-earning assets by 2.03%.

The growth in average interest-earning assets was primarily fueled by excess liquidity resulting from the increase in deposits outpacing the growth in loans and advances, leading to investments in Government securities. Notably, the negative growth observed in loans and advances for most part of the year reversed in the fourth quarter, registering a year-on-year growth of 3.76% in gross loans and advances. The average interest rate on interest-earning assets improved due to the re-pricing effect of maturing low-yielding treasury investments and loans and advances being reinvested/ granted at relatively higher rates. Interest income earned from sources other than loans and advances contributed 46.44% of total interest income, compared to 34.46% in 2022, marking an increase of 80.62% compared to 46.47% in 2022. Meanwhile, interest income from loans and advances increased by 9.53% in 2023 (compared to 80.95% growth in 2022), accounting for 53.56% of the total interest income, compared to 65.54% in 2022.

Interest expenses, comprising 71.60% of the interest income (compared to 62.56% in 2022), rose to Rs. 209.515 Bn. during the year from Rs. 136.583 Bn. in 2022, marking a significant increase of 53.40% (compared to a growth of 107.47% in 2022). This increase was primarily driven by growth in average interest-bearing liabilities by Rs. 230.566 Bn. and the rise in the average cost of funds by

2.76%, attributed to the impact of high-cost funding mobilised in 2022. However, the gradual improvement of the CASA ratio of the Bank, considered an industry benchmark, from 38.36% at the end of 2022 to 39.23% at the end of 2023, had a positive impact on the cost of funds.

As a result, the Bank's net interest income increased to Rs. 83.104 Bn. from Rs. 81.744 Bn. recorded in 2022, recording a marginal growth of 1.66% (compared to 26.52% in 2022) and represented 70.36% of the total operating income (compared to 61.51% in 2022). However, the Bank's net interest margin, which indicates the difference between the return on interest-earning assets and the cost of funds of interest-bearing liabilities, declined by 73 bps to 2.82% in 2023 compared to 3.55% reported in 2022.

### Fee-based operations

Fee and commission income reached Rs. 29.704 Bn., compared to Rs. 25.464 Bn. in 2022, reflecting a growth of 16.65% (compared to 65.24% in 2022). This increase was primarily driven by higher income from credit and debit card-related services and other financial services provided during the year.

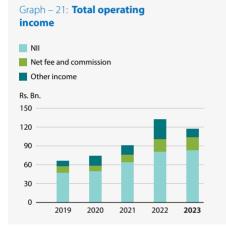

Fee and commission expenses, primarily associated with credit and debit cardrelated services, rose to Rs. 8.146 Bn. from Rs. 5.973 Bn. in 2022, marking an increase of 36.39% (compared to 63.24% in 2022). Consequently, net fee and commission income increased to Rs. 21.558 Bn. compared to Rs. 19.491 Bn. in 2022, showing a growth of 10.60% (compared to 65.86% in 2022). This income accounted for 18.25% of the total operating income (compared to 14.67% in 2022).

#### **Other income**

The Bank's total other income, consisting of net gains or losses from trading, net gains or losses from derecognition of financial assets and net other operating income, decreased by 57.52% to Rs. 13.448 Bn. for the year, compared to Rs. 31.653 Bn. reported in 2022 (which had seen a growth of 110.57%). The primary factor contributing to this decline was the significant exchange losses incurred by the Bank from swap/forward transactions due to the sharp appreciation of the Sri Lankan Rupee against the US Dollar, reaching Rs. 324.25 at the end of 2023 from Rs. 367.00 at the end of 2022, an appreciation of 13.18%. However, the impact of these losses was partially offset by exchange gains resulting from the revaluation of assets and liabilities.

#### **Total operating income**

Although there were improvements in both net interest income and net fee and commission income, the total operating income of the Bank declined to Rs. 118.109 Bn., representing a decrease of 11.12% compared to Rs. 132.888 Bn. reported in 2022 (which had experienced a growth of 45.40%). This decrease was primarily attributed to a substantial drop in other income by Rs. 18.205 Bn. or 57.52%, as explained previously.

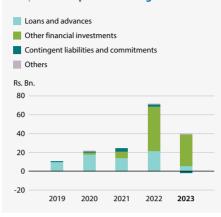

#### Impairment charges and other losses

Impairment charges and other losses for the year decreased significantly to Rs. 38.624 Bn., down by Rs. 32.838 Bn. or 45.95% (as opposed to an increase of 189.41% in 2022) from Rs. 71.462 Bn. reported in 2022, which marked the highest provision ever made by the Bank for a single year in its history.

The substantial increase in 2022 was primarily attributed to the Bank setting aside Rs. 47.134 Bn. for foreign currencydenominated securities issued by the Government of Sri Lanka following the downgrade of the sovereign rating, along with an additional Rs. 24.150 Bn. allocated for individual and collective impairment provisions for loans and advances. This provision also included management overlays to address potential losses not captured by impairment models due to the prevailing high level of uncertainty and volatility throughout the year.

For the year under review, the impairment provision consisted of Rs. 33.830 Bn. for foreign currency-denominated securities issued by the Government of Sri Lanka and Rs. 5.690 Bn. for loans and advances.

#### Graph – 22: Impairment charges

#### **Net operating income**

The net operating income for the year rose to Rs. 79.486 Bn., marking an increase of 29.40% (as against a negative growth of 7.91% in 2022) from Rs. 61.427 Bn. reported in 2022. This increase was primarily driven by the decrease in impairment charges and other losses, which more than offset the negative growth in total operating income as explained earlier.

#### **Operating expenses**

Total operating expenses for the year amounted to Rs. 42.644 Bn., compared to Rs. 34.936 Bn. reported in 2022, marking an increase of Rs. 7.708 Bn., or 22.06% (compared to 20.92% in 2022). This increase was primarily driven by an increase in personnel expenses by 14.96% (compared to 17.10% in 2022), reaching Rs. 21.972 Bn. from Rs. 19.113 Bn. in 2022, due to salary increments and other staff related expenses. Additionally, other operating expenses for the year also increased by 33.68% (compared to 30.54% in 2022) to Rs. 16.389 Bn. from Rs. 12.260 Bn. in 2022, attributed to price hikes across various expense categories, exchange impact of the higher foreign currency-related payments for asset maintenance and increased indirect taxes. Depreciation and amortisation expenses also rose to Rs. 4.284 Bn., marking a 20.21% increase (compared to 12.11% in 2022), primarily due to investments made in ITrelated assets.

Consequently, the Bank's Cost to Income ratio (excluding taxes on financial services) for 2023 increased to 36.11% for the year from 26.29% in 2022.

# Operating profit before taxes on Financial Services and taxes on Financial Services

Due to the growth in net operating income surpassing the increase in total operating expenses, as discussed earlier, the operating profit before taxes on Financial Services improved by 39.07% (as against the negative growth of 29.94% in 2022), reaching Rs. 36.842 Bn. from Rs. 26.491 Bn. in 2022.

Taxes on Financial Services rose to Rs. 4.961 Bn., marking a 27.47% increase (as against the negative growth of 33.00% in 2022) from Rs. 3.892 Bn. in 2022. This increase was attributed to the introduction of the Social Security Contribution Levy of 2.5% effective from October 1, 2022 and the rise in amount of the in value addition attributable to the supply of financial services in 2023.

Consequently, the Bank's Cost to Income ratio (including taxes on financial services) for 2023 increased to 40.31% for the year from 29.22% in 2022.

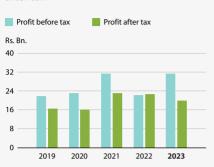

#### **Profit before and after taxes**

Due to the increase in operating profit before taxes on financial services outpacing the growth in taxes on financial services, as explained earlier, the profit before taxes for the year increased to Rs. 31.880 Bn., recording a growth of 41.07% (as against the negative growth of 29.38% in 2022).

The income tax charge for the year amounted to Rs. 11.419 Bn., in contrast to a tax reversal of Rs. 0.371 Bn. in 2022. This reversal in 2022 was primarily due to an increase in deferred tax assets resulting from the change in the income tax rate to 30% effective from July 01, 2022, compared to the previous rate of 24%. The overall reversal in deferred tax exceeded the current tax liability for 2022, which was computed at two different income tax rates: 24% for the first half of the year and 30% for the second half of the year for the Bank's operations in Sri Lanka. The tax rate for the Bank's operations in Bangladesh remained at 40% for both years.

Consequently, the profit after tax for the year recorded a negative growth of 10.92% (compared to the negative growth of 2.70% in 2022) and amounted to Rs. 20.461 Bn., compared to Rs. 22.970 Bn. reported for 2022.

# Graph – 23: Profit before and after tax

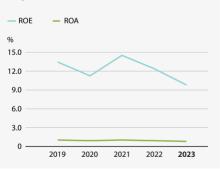

### Profitability

Reflecting the decline in profit after tax and the relatively higher growth in total assets and equity throughout the year, both the Return on Assets (ROA) and Return on Equity (ROE) decreased to 0.82% (compared to 1.05% in 2022) and 9.78% (compared to 12.46% in 2022) respectively.

However, the ROA (before tax) for the year increased to 1.27% (compared to 1.03% in 2022) due to the growth in profit before tax as explained earlier.

#### Graph – 24: ROE and ROA

#### **Other Comprehensive Income (OCI)**

The Bank reported a loss of Rs. 8.465 Bn. in Other Comprehensive Income during the year, contrasting with a profit of Rs. 26.215 Bn. reported in 2022. This was primarily due to a loss of Rs. 11.086 Bn. (as against the gain of Rs. 14.877 Bn. in 2022) on the translation of financial statements of the Bank's foreign operations. However, this loss for the year was partially offset by a net gain of Rs. 1.899 Bn. recognised fair valuation of investments in Financial Assets at Fair Value through Other Comprehensive Income (FVOCI), which was derived after discounting Rs. 3.542 Bn. recognised in profits as gains on disposal of financial assets at FVOCI during the year.

In contrast, in 2022, there was a reversal in fair value losses due to the reclassification of debt instruments from Fair Value through Other Comprehensive Income (FVOCI) to Amortised Cost (AC), amounting to Rs. 12.292 Bn. This was due to the Bank's decision to reclassify a significant portion of its Treasury Bond Portfolio amounting to Rs. 197.075 Bn., Sri Lanka Development Bond (SLDB) portfolio amounting to Rs. 55.473 Bn. (USD 152.19 Mn.) and the entire Sri Lanka Sovereign Bond (SLSB) portfolio amounting to Rs. 39.596 Bn. (USD 108.63 Mn.) from the FVOCI category to AC category, effective from April 01, 2022, in line with the guidelines issued by the CA Sri Lanka in the form of a Statement of Alternative Treatment (SoAT) on "Reclassification of Debt Portfolio due to unprecedented changes in the macroeconomic conditions".

The aforementioned fair value loss of Rs. 12.292 Bn. comprised the cumulative losses that the Bank recognised (net of tax) in equity through OCI prior to the reclassification. Furthermore, the effect of the loss of Rs. 11.086 Bn. on the translation of financial statements of the Bank's foreign operation for 2023 was partly offset by the net surplus on the revaluation of freehold land and buildings of the Bank, amounting to Rs. 1.012 Bn., recognised in equity through OCI.

In 2022, there was an increase in the deferred tax liability recognised on the cumulative surplus on the revaluation of freehold land and buildings of the Bank, amounting to Rs. 0.799 Bn., due to the increase in the income tax rate to 30% effective from July 2022 from the earlier income tax rate of 24%.

As a result, the total comprehensive income of the Bank for the year 2023 reduced to Rs. 11.996 Bn., compared to Rs. 49.185 Bn. reported in 2022, reflecting a negative growth of 75.61% (as against the growth of 281.24% in 2022).

#### **Statement of Financial Position**

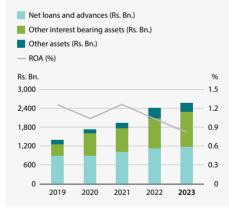

In 2023, the Bank achieved two significant milestones, continuing its trend of pioneering achievements. Firstly, it became the first private sector bank in the country to exceed Rs. 2.5 Tn. in total assets, reinforcing its position as a leader in the banking sector. Secondly, it surpassed the Rs. 2 Tn. mark in deposits, further solidifying its status as the benchmark private sector bank in the country. These accomplishments add to the Bank's legacy of being the first private sector bank to surpass the Rs. 1 Tn. mark in total assets (achieved in 2016), deposits (achieved in 2019) and loans and advances (achieved in 2021).

#### Assets

During the year, the Bank's total assets grew by 6.37% (compared to 24.45% in 2022), reaching Rs. 2.580 Tn. from Rs. 2.426 Tn. at the end of the previous year. This growth significantly exceeded the industry's asset growth of 2.16% (compared to 17.72% in 2022). This notable increase was primarily attributed to increased investments in Government Securities, driven by excess liquidity resulting from deposit growth outpacing the expansion of loans and advances.

However, it is important to note that the projected asset growth was hindered by the downward revaluation effect of the Bank's assets and liabilities denominated in foreign currency. This was due to the sharp appreciation of the Rupee against the US dollar during the year, contrasting with the Rupee's sharp depreciation against the US dollar witnessed during the previous year.

# Graph – 25: Composition of total assets

#### Loans and advances to customers

Reversing the trend observed in the first half of 2023, credit to the private sector increased during the latter part of the year. As of December 31, 2023, gross loans and advances amounted to Rs. 1.266 Tn., compared to Rs. 1.220 Tn. a year ago. The net loans and advances stood at Rs. 1.176 Tn. as of December 31, 2023, compared to Rs. 1.130 Tn. at the end of 2022, reflecting a growth of 4.06% (compared to 11.42% in 2022). Loans and advances accounted for 45.59% of total assets as of December 31, 2023, marginally lower than the 46.60% reported in 2022. The Bank maintained its position as the largest lender to the SME sector in Sri Lanka. (see page 79 for details). Additionally, the gross loans and advances of the Bank's operations in Bangladesh experienced a growth of 24.13% in 2023 (as against the negative growth of 11.27% in 2022) in BDT terms.

#### Asset quality

The quality of loans and advances serves as a critical factor in assessing the sustainability of the Bank's operations. Despite challenging macro-economic conditions that prevailed in the country in 2023, the Bank maintained a conservative risk profile, coupled with a moderate risk appetite and a robust risk management framework. This approach resulted in both the net impaired loans (Stage 3) to total loans and advances ratio (including undrawn commitments) and impaired loans (Stage 3) to total loans and advances ratio (excluding undrawn commitments) standing at 5.85% (2022: 5.25%) and 11.34% (2022: 9.41%), respectively, by the end of 2023. These figures compare favourably to industry averages of 13.56% (2022: 11.26%) and 13.41% (2022: 11.61%), respectively, indicating the Bank's prudent risk management practices. Although there was a deterioration in both the above ratios in 2023 due to the unprecedented macro-economic conditions that prevailed in the country, it is worth noting that both ratios remain within acceptable levels when compared to industry averages.

Additionally, the impairment (Stage 3) to Stage 3 loans ratio (Stage 3 impairment coverage ratio) and the cumulative impairment provisions for loans and advances as a percentage of the total loans and advances (total impairment coverage ratio) stood at 44.03% (2022: 40.42%) and 7.05% (2022: 7.32%), respectively, by the end of 2023. These figures, though showing a slight deterioration compared to the previous year, remain acceptable compared to industry averages. The Bank continued to review and adjust the stage assessment criteria for loans and advances to accurately reflect the associated risks with customers.

Moreover, the open credit exposure ratio, representing the net exposure on Stage 3 loans as a percentage of regulatory capital, stood at 38.69% at the end of 2023 (2022: 34.41%) compared to industry averages of 45.39% (2022: 44.00%), indicating prudent risk management practices in mitigating credit risks.

Furthermore, the Bank's loans to customers portfolio is well diversified across various industry sectors, with no significant exposure to any particular sector, ensuring resilience against sector-specific risks. Additional details regarding the sector-wise distribution of loans to customers can be found on page 328.

#### **Deposits**

With our solid franchise, customer deposits continued to remain the primary source of funding for the Bank, constituting 80.81% of the total assets as of December 31, 2023 (2022: 78.92%), compared to the industry average of 80.97% (2022: 78.79%). Deposits grew by 8.92% to reach Rs. 2.085 Tn. by the end of 2023, compared to the growth rate of 32.66% in 2022, which was influenced by the sharp depreciation of the Rupee against the US Dollar during that period. The growth in deposits for the year amounted to Rs. 170.687 Bn.

Despite these challenges, the Bank's CASA ratio marginally improved to 39.23% as of December 31, 2023, compared to 38.36% in 2022, which is considered the industry best compared to the industry average of 30.61% in 2023 (2022: 31.18%).

#### **Other liabilities**

The substantial increase in deposit liabilities compared to the relatively lower growth in loans and advances resulted in the Bank having excess liquidity throughout the year. Total other liabilities at the year-end amounted to Rs. 280.351 Bn., compared to Rs. 307.740 Bn. at the end of 2022. During the year, the Bank raised Rs. 12.000 Bn. through the issuance of BASEL III compliant debentures (compared to Rs. 10.000 Bn. in 2022), while BASEL III compliant debentures worth Rs. 8.294 Bn., issued in 2018 were matured during the year (2022: Nil). Additionally, the Bank successfully settled borrowings from IFC amounting to Rs. 24.100 Bn. in March 2023 obtained in March 2013 to strengthen Tier II Capital.

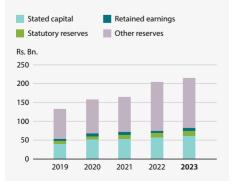

## Capital

The Bank is guided by its Internal Capital Adequacy Assessment Process (ICAAP), Capital Augmentation Plan and the Boardapproved dividend policy to maintain capital levels aligned with its current and projected business growth. Consequently, supported by the total comprehensive income for the year and the prudent dividend policy, the Bank increased its equity capital by 5.51% (2022: 23.53%) to Rs. 214.931 Bn. as of December 31, 2023, compared to Rs. 203.699 Bn. as of December 31, 2022. With an on-balance sheet multiplier (gearing ratio) of 12.01 times (2022: 11.91 times), equity funded 8.33% (2022: 8.40%) of total assets as of the current year-end, compared to industry averages of 11.52 times (2022: 12.15 times) and 8.68% (2022: 8.23%) respectively. The Bank ploughed back Rs. 12.660 Bn., from the profit for the year 2022 after the payment of one-off surcharge tax and dividends.

The risk-weighted assets of the Bank increased by 1.12% to Rs. 1.371 Tn. as of December 31, 2023, from Rs. 1.356 Tn. as of the end of 2022. Consequently, both the Tier 1 and total capital ratios stood at 11.442% (2022: 11.389%) and 15.151% (2022: 14.657%) respectively, as of December 31, 2023, exceeding the minimum requirements of 10.000% and 14.000% respectively, for 2023. These ratios demonstrate the Bank's compliance with the higher capital adequacy requirements as a Domestic Systemically Important Bank (D-SIB) under Basel III regulations. The equity multiplier, in terms of risk-weighted assets to regulatory total capital, decreased to 6.60 times from 6.82 times a year ago.

Under the CBSL Basel III regulations, the Bank is classified as one of the highest-graded D-SIBs, highlighting its significance to the Sri Lankan economy.

#### Graph – 27: Shareholders' funds

#### Liquidity

The growth in deposits continued to surpass the growth in loans and advances during the current year as well, prompting the Bank to invest excess liquidity in Government securities. Despite unprecedented volatility, excess liquidity offers a high level of reassurance to the Bank and positions it to capitalise on anticipated increases in credit demand in the future. Given its significance, liquidity review remains a permanent agenda item in the Bank's fortnightly ALCO meetings. The consolidated liquid assets ratio of the Bank's Sri Lankan operations stood at 46.06% (2022: 35.88%), compared to the statutory minimum requirement of 20%.

The gross loans to deposits ratio was 60.70% (2022: 63.71%). Available stable funding, as defined by the CBSL, amounted to Rs. 1.933 Tn. as of December 31, 2023 (2022: Rs. 1.768 Tn.), leading to a Net Stable Funding Ratio (NSFR) of 193.70% (2022: 173.58%), comfortably above the statutory minimum of 100% for 2023 (2022: 90%). This underscores the Bank's ability to meet its long-term funding requirements.

Moreover, the Liquidity Coverage Ratio (LCR) for all currencies and LCR for the Rupee stood at 516.27% (2022: 293.91%) and 491.61% (2022: 405.91%) respectively, as of December 31, 2023, well exceeding the statutory minimum of 100% (2022: 90%) for both ratios for 2023. These ratios highlight the Bank's ample supply of unencumbered high-quality liquid assets, ensuring its ability to withstand short-term liquidity disruptions.

#### Segmental performance

The Corporate and the Personal Banking Divisions made a significant contribution to the Group's profit before tax in 2023, primarily driven by a reduction in impairment charges and other losses. The International Operations too enhanced its contribution to the Group's profit before tax during the year, largely attributed to rises in net interest income and foreign exchange profits. However, the Treasury Division of the Bank experienced a substantial loss for the year 2023, albeit lower than the previous year, mainly due to additional impairment provisions related to USD-denominated Government Securities following the downgrade of the country's sovereign rating and the impact of interest rate volatility on the Funding Centre being borne by the Treasury.

For a detailed analysis of segmental performance, please III refer to pages 126 and 127 and the Note 61 to the Financial Statements on Operating Segments on III pages 382 and 383.

Quarterly financial performance and the financial position of both the Group and the Bank for 2023 and 2022 can be found on pages 132 to 137, while the Bank's performance in terms of key indicators over the past 10 year period is given in the "Decade at a Glance" section on pages 138 to 141.

The Financial Soundness Indicators presented below offer valuable insights into the financial robustness and stability of the Bank.

### **Core Financial soundness indicators (FSIs)**

					Table - 22
Financial soundness indicator (%)	2023	2022	2021	2020	2019
Capital Adequacy (under Basel III)					
Common equity Tier 1 ratio (current minimum requirement – 8.5%)	11.44	11.39	11.92	13.22	12.30
Tier 1 capital ratio (current minimum requirement – 10%)	11.44	11.39	11.92	13.22	12.30
Total Capital Ratio (current minimum requirement – 14%)	15.15	14.66	15.65	16.82	16.15
Asset quality:					
Impaired loans (Stage 3) ratio (based on existing regulatory provisions which includes undrawn commitments)	5.85	5.25	3.85	6.78	N/A
Impairment (Stage 3) to Stage 3 loans ratio (based on existing regulatory provisions which includes undrawn commitments)	43.22	39.60	42.76	30.87	N/A
Total impairment coverage ratio	7.05	7.32	5.94	5.38	3.89
Cost of credit risk	0.45	1.80	1.35	1.88	1.09
Open credit exposure ratio	38.69	34.41	25.33	N/A	N/A
(Net exposure on NPCFs as a % regulatory capital)					
Non-performing credit facilities (NPCFs) – (net of impairment) to equity	37.38	33.56	26.69	N/A	N/A
Earnings and profitability:					
Net interest income to total operating income	70.36	61.51	70.69	66.15	71.51

# Segmental analysis

#### Personal banking

- Highest contributor to the Group in terms of net interest income, net fee and commission income and net operating income.
- Total operating income increased by 13.39% to Rs. 53.652 Bn., contributing almost 44% to the Group.
- Profit before tax increased by 35.97% to Rs. 22.335 Bn.
- Accounted for more than one fourth of the assets of the Group as at end of 2023.
- Impairment charges decreased by 108.16% mainly due to the reversal in impairment provisions consequent to the revision of the Economic Factor Adjustment (EFA) in line with the latest available macro economic forecasts.

Rs. Bn.	2023	2022	Change	Change as a %
Net interest income	40.715	36.988	3.727	10.08
Foreign exchange profit	0.604	0.385	0.219	56.88
Net fee and commission income	11.802	9.214	2.588	28.09
Other income	0.532	0.729	(0.197)	(27.02)
Total operating income	53.652	47.316	6.336	13.39
Impairment charges and other losses	0.702	(8.602)	9.304	(108.16)
Net operating income	54.354	38.714	15.640	40.40
Profit before tax	22.335	16.427	5.908	35.97
Segment assets	716.364	620.050	96.314	15.53

#### **Corporate banking**

 Net operating income and profit before tax increased to Rs. 19.179 Bn. and Rs. 16.561 Bn., respectively with significant increases of 403.39% and 1,408.29% respectively. The main contributory factor for the above increases was the decrease in impairment charges and other losses by 61.37% as a result of the reversal in impairment provisions consequent to revision of the Economic Factor Adjustment (EFA) in line with the latest available macro economic forecasts.

• Accounted for almost one fifth of the assets of the Group as at end of 2023.

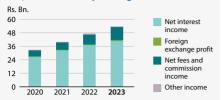

Rs. Bn.	2023	2022	Change	Change as a %
Net interest income	21.869	20.629	1.240	6.01
Foreign exchange profit	(0.460)	0.121	(0.581)	(480.17)
Net fee and commission income	7.094	8.017	(0.923)	(11.51)
Other income	0.306	(0.029)	0.335	(1,155.17)
Total operating income	28.808	28.739	0.069	0.24
Impairment charges and other losses	(9.629)	(24.928)	15.299	(61.37)
Net operating income	19.179	3.810	15.369	403.39
Profit before tax	16.561	1.098	15.463	1,408.29
Segment assets	472.431	498.406	(25.975)	(5.21)

## **International operations**

- Significant increases reported in net interest income and foreign exchange profit by 40.35% and 35.75% respectively.
- Highest contributor to the Group's foreign exchange profit amounting to Rs. 11.888 Bn., mainly due to the net exchange profit reported on revaluation of FCY denominated assets and liabilities of the Bangladesh operations.
- Total operating income increased by 35.29% to Rs. 34.282 Bn.
- The Bangladesh operation of the Bank made a noteworthy contribution of 91.95% of the profit before tax of international operations while having the highest asset base within the segment.
- Profit recorded by Commercial Bank of Maldives
   Private Limited for the year is the highest profit achieved by the Company during its 7-year history.

Rs. Bn.	2023	2022	Change	Change as a %
Net interest income	19.720	14.051	5.669	40.35
Foreign exchange profit	11.888	8.757	3.131	35.75
Net fee and commission income	2.576	2.387	0.189	7.92
Other income	0.098	0.145	(0.047)	(32.41)
Total operating income	34.282	25.339	8.943	35.29
Impairment charges and other losses	(0.239)	(1.091)	0.852	(78.09)
Net operating income	34.043	24.248	9.795	40.40
Profit before tax	26.654	17.424	9.230	52.97
Segment assets	449.873	422.835	27.038	6.39

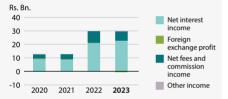

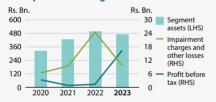

# Graph – 29: Assets vs profit before tax vs impairment charges

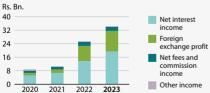

Graph – 30: Total operating income

# Graph – 31: Assets vs profit before tax vs impairment charges

Graph – 32: Total operating income

# Graph – 33: Assets vs profit before tax vs impairment charges

#### **Dealing/Treasury**

- Highest contributor (36.47%) to the Group's total assets of Rs. 2.656 Tn., mainly due to excess liquidity being invested in treasury related products consequent to subdued demand for loans and advances.
- Other income of Rs. 6.821 Bn., highest within the Group, which was generated mainly due to

the capital gains on realisation of Government securities.

- Considerable decrease in foreign exchange losses (98.48%) compared to previous year.
- Impairment charges and other losses reduced by 21.06% to Rs. 29.249 Bn.

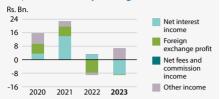

Rs. Bn.	2023	2022	Change	Change as a %
Net interest income	(8.945)	3.214	(12.159)	(378.31)

#### **NBFI, Real Estate and Services**

- Commercial Development Company PLC (CDC) was the main contributor in terms of profit before tax due to the increase in fair value gains recognised on investment properties.
- Impairment charges and other losses increased by 92.77%, mainly due to higher impairment charges provided by CBC Finance Ltd (CBCF).
- While accepting the challenge of growing the portfolios in an unprecedented market, CBCF's total assets increased from 13.73%, with a growth in loans and advances portfolio.

#### Performance of the Bank's Bangladesh Operations

The performance of the Bank's operations in Bangladesh (CBC Bangladesh) will have to be reviewed in conjunction with the Operating Context and Outlook section of this report (D refer to pages 48 to 53).

Commencing its operations in Bangladesh in November 2003 by acquiring the banking business of Credit Agricole Indosuez, CBC Bangladesh has emerged as a leading player in the country's banking sector over the past two decades. With a network comprising 20 operating units, including 11 branches, a sub-branch, six SME centers and two offshore banking units, CBC Bangladesh has established a strong foothold in the market. CBC Bangladesh has strategically positioned itself as a premier regional bank, focusing on corporate banking, consumer banking, treasury management and digital banking.

By the end of 2023, CBC Bangladesh possessed a total of 23 ATM machines, inclusive of seven in off-site locations. Additionally, at its Motijheel Branch, an Automated Banking Centre (ABC) has been established, featuring a real-time Cash Deposit Machine, Cheque Deposit Machine, KIOSK machine and digital signage.

CBC Bangladesh has achieved recognition as the top-performing regional bank, excelling in deposits, advances and profitability. This success stems from its commitment to delivering excellent service and fulfilling its commitments, with a focus on the following areas:

## **Corporate Banking:**

In the domain of corporate banking, CBC Bangladesh has solidified its reputation as a premier regional bank since its inception. It has achieved this by delivering exceptional relationship banking services to corporate clients, resulting in a significant expansion of its corporate banking portfolio.

#### **Consumer Banking:**

In the realm of consumer banking, CBC Bangladesh aims to emerge as the preferred provider of retail, SME and credit card services for its target market. It intends to achieve this goal by leveraging a superior IT platform and offering innovative products. These efforts are directed towards cultivating a healthy deposit mix anchored by a robust savings base.

#### **Treasury Management:**

In the sphere of treasury management, CBC Bangladesh ensures consistent and efficient

fund management. Leveraging superior expertise, it offers a range of diversified and innovative treasury products.

#### **Digital Banking:**

In the digital banking arena, CBC Bangladesh has launched innovative products, including the unique Digital Banking Product - the e-passbook. CBC Bangladesh also introduced PayMaster for corporate clients, ensuring smooth daily operations. Additionally, CBC Bangladesh has implemented a Two Factor Authentication system for online transactions, along with e-statements and Over the Air PIN (OTAP) for Credit Cards and Internet Banking, incorporating various innovative features.

#### Human resources:

CBC Bangladesh stands out as one of the most preferred employers in the banking industry. It has achieved this by offering excellent opportunities for training and development, introducing top-tier banking education programmes and fostering a healthy corporate environment.

Currently, CBC Bangladesh operates in five key districts across the country: Dhaka, Chittagong, Sylhet, Narayanganj and Gazipur. Despite facing stiff competition from both international and large local banks, CBC Bangladesh has consistently grown its business volumes. This growth is primarily attributed to its focus on serving multinationals and large local corporates with superior services and commitments. By expanding its branch network, CBC Bangladesh has successfully attracted more SME and retail clients, thus enhancing its lowcost deposit base, reducing the cost of funds and improving profitability.

In 2023, CBC Bangladesh upgraded its Internet Banking System with several

innovative features, some of which were introduced for the first time in Bangladesh. These enhancements included the implementation of e-Leave and e-Attendance Systems, a revamp of the Corporate Website and the integration with the National Payment System Bangladesh (NPSB). Additionally, CBC Bangladesh introduced a Call Centre Solution and incorporated various new features to enhance its existing products and services.

In 2023, CBC Bangladesh received numerous awards and recognitions, including:

- Best Foreign Bank in Bangladesh 2023 for the 4th consecutive year by Global Economic Limited, a UK-based magazine.
- Most Recommended Foreign Bank in Bangladesh – 2023 for the 3rd consecutive year by World Business Outlook, a Singapore-based magazine.
- Most Sustainable Bank in Bangladesh

   2023 for the 3rd consecutive year by International Business Magazine, UAE.
- Best Corporate Bank Bangladesh 2023 for the 2nd consecutive year by Global Business Review Magazine, UAE.
- Best Foreign Bank in Bangladesh 2023 by Global Business and Finance Magazine, USA.
- Most Innovative Foreign Banking Brand
   Bangladesh 2023 by Global Brand
   Magazine, UK.
- Bangladesh International Trade Finance Bank of the Year by Asian Banking & Finance Magazine, Singapore.
- Top Fastest Growing Companies to watch by Biz Tech Outlook, USA.
- Most Innovative Companies Focused on Changing the Future 2023 by The CIO Times Magazine, USA.

A significant highlight of the year was the recognition of Mr Najith Meewanage, Chief Executive Officer of CBC Bangladesh Operations, as one of the Top 10 Best Business Leaders in Bangladesh for 2023 by CEO Insights Magazine, India.

CBC Bangladesh also received a special commendation letter from the Central Bank of Bangladesh for fully disbursing the allocated stimulus package to the SME sector in 2022. Additionally, the Large Tax Payer Unit (LTU) of the National Board of Revenue (NBR), Bangladesh, recognised CBC Bangladesh with an award for being one of the highest taxpayers in the country.

Meanwhile, the Credit Rating Information and Services Ltd. (CRISL) rated CBC Bangladesh operations AAA for the 13th consecutive year based on the financial performance for 2022.

The progress of CBC Bangladesh operations in core banking areas over the past five years is given below:

# Key Performances Indicators – Bangladesh Operations (based on management accounts)

						Table - 25

Subsidiaries and associate of the Group

Given below is a brief overview of the operations of the subsidiaries and the associate of the Bank.

#### **Local subsidiaries**

# Commercial Development Company PLC (CDC)

Established in 1980 as the Bank's inaugural subsidiary, CDC owns the Head Office building of Commercial Bank, known as "Commercial House," along with two additional properties in Negombo and Tangalle. The Bank owns a 90% stake in CDC.

CDC stands as the sole listed subsidiary of the Group, boasting a market capitalisation of Rs. 1.341 Bn. as of the end of 2023 (2022: Rs. 1.146 Bn.). Its primary operations involve renting premises, hiring of vehicles, outsourcing non-core staff and offering various utility services to the Bank.

In 2023, CDC reported a post-tax profit of Rs. 294.060 Mn., recording an increase of 31.06% from Rs. 224.378 Mn. in 2022. The rise in profits was primarily attributed to increased fair value gains recognised on investment properties. Income from core business activities rose by 8.93% to Rs. 687.510 Mn. (2022: Rs. 631.128 Mn.), while the cost of sales increased by 29.62% to Rs. 420.758 Mn. (2022: Rs. 324.607 Mn.), mainly due to rising operating costs across various business lines. Consequently, the gross profit decreased by 12.97% to Rs. 266.753 Mn. (2022: Rs. 306.521 Mn.). However, the net finance income surged by 91.43% to Rs. 124.343 Mn. in 2023 compared to Rs. 64.956 Mn. in 2022. This led to a 15.12% increase in profit before tax to Rs. 461.971 Mn. in 2023 from Rs. 401.289 Mn. in 2022. The total assets of the Company stood at Rs. 4.326 Bn. as of the end of 2023. compared to Rs. 4.055 Bn. as of the end of 2022.

# **CBC Tech Solutions Limited**

CBC Tech Solutions Limited, a wholly owned subsidiary of the Bank, specialises in providing Information Technology services and solutions to the Bank, its subsidiaries and to a few selected corporates. Its primary lines of business include offering IT support, supplying hardware and licensed software, providing network solutions, hardware and Point of Sale (POS) maintenance, software development and outsourcing professional and skilled manpower to the Bank and its subsidiaries.

Currently, the Company operates from five regional support centers located in Colombo, Galle, Kandy, Jaffna and Badulla, aimed at providing prompt and efficient services.

In 2023, the Company maintained its island-wide personal computer/server maintenance, troubleshooted POS machines and provided IT first-level technical support for the Bank. Additionally, it introduced Network Solutions as a new business line to enhance profitability. The software development unit completed numerous projects, devised customer-centric products and white-labeled two products to expand market penetration. Furthermore, the Company focused on upskilling its employees and outsourcing them to the Bank's subsidiaries.

CBC Tech Solutions serves as an agent for Lenovo's lineup of personal computers, tablets and accessories, featuring popular series such as IdeaPad, Yoga, Legion and ThinkPad. Notably, the Company was the pioneer in importing Lenovo Think Centre Neo desktop computers equipped with 12th generation Intel® Core<sup>™</sup> processors. In recognition of its achievements, CBC Tech Solutions was honoured with the Best Reseller Award by Lenovo's Sri Lankan distributor, IT Gallery Computers (Pvt) Limited, in 2023.

In 2023, CBC Tech Solutions achieved a notable revenue of Rs. 812.547 Mn., marking a significant growth of 25.50% from Rs. 647.408 Mn. in 2022, largely attributed to increased income from licensed software sales. The Company's pre-tax profit also saw a substantial rise, reaching Rs. 228.546 Mn. compared to Rs. 186.761 Mn. in 2022, representing a growth of 22.37%. Despite a marginal increase in post-tax profit to Rs. 173.573 Mn. from Rs. 171.724 Mn. in 2022, primarily due to a rise in income tax rate to 30% for the year, (principal income sources being exempt from income tax in 2022), CBC Tech Solutions remains committed to becoming a leading provider of innovative ICT solutions in Sri Lanka, prioritising customer-centric products and services to drive technological advancements.

#### **CBC Finance Limited (CBCF)**

CBCF operates as a wholly-owned subsidiary of the Bank and functions as a Licensed Finance Company (LFC) under the Finance Business Act No. 42 of 2011. Formerly known as Serendib Finance Ltd, CBCF underwent a rebranding initiative to become CBC Finance Ltd, subsequently launching an assertive image-enhancing campaign. Additionally, the Company bolstered its governance framework and established synergies with its parent company, Commercial Bank of Ceylon PLC.

Despite challenging industry conditions affecting customers of all sizes, CBCF managed to increase its gross income for 2023 to Rs. 1.991 Bn., marking a 21.72% rise from Rs. 1.636 Bn. in 2022. However, the Company faced significant pressure on its cost of funds, resulting in a decrease in net interest income by 7.62% to Rs. 496.478 Mn.

in 2023 from Rs. 537.406 Mn. in 2022. On a positive note, net fee and commission income surged by 184.55% to Rs. 117.393 Mn. from Rs. 41.256 Mn. in 2022, contributing to a total operating income of Rs. 688.283 Mn. for 2023 compared to Rs. 639.900 Mn. in 2022. Despite this, impairment charges and other losses soared to Rs. 481.616 Mn., up by 93.29% from Rs. 249.162 Mn. in 2022, due to prudent provisions made for high-risk segments of the portfolio. As a result, the Company's net operating income decreased from Rs. 390.739 Mn. in 2022 to Rs. 206.667 Mn. in 2023. Total operating expenses also rose to Rs. 527.272 Mn. in 2023 from Rs. 351.847 Mn. in 2022, representing a 49.86% increase. Consequently, CBCF reported a net loss of Rs. 225.178 Mn. for the year, in contrast to the net profit of Rs. 39.583 Mn. reported in 2022.

The aggressive pursuit of deposits persisted amidst intense competition, resulting in the year-end portfolio reaching Rs. 6.534 Bn., up from Rs. 5.116 Bn. reported at the end of 2022.

Despite facing the challenge of expanding portfolios in an unprecedented market environment, the Company's total assets rose to Rs. 12.457 Bn. from Rs. 10.954 Bn. at the end of 2022. Additionally, its net loans and advances portfolio grew to Rs. 10.142 Bn. by the end of 2023, compared to Rs. 8.505 Bn. at the end of 2022.

The Company enhanced its delivery channels by establishing branches in Jaffna and Kalutara, with plans to open an additional five branches in 2024 in key business areas to strengthen its presence. Moreover, it intends to relocate its Kiribathgoda, Dambulla and Negombo branches in 2024 to improve the customer experience.

#### Commercial Insurance Brokers (Pvt) Ltd (CIBL)

The Bank holds a 60% stake in CIBL, which primarily engages in insurance brokering for various insurance types through reputable life and general insurance companies in Sri Lanka.

In the year ended December 31, 2023, CIBL reported a post-tax profit of Rs. 43.603 Mn., marking a significant growth of 39.09% compared to Rs. 31.349 Mn. in 2022. Additionally, CIBL's total assets increased to Rs. 815.257 Mn. as of December 31, 2023, compared to Rs. 758.701 Mn. in the previous year.

#### Local associate

#### Equity Investments Lanka Ltd. (EQUILL)

The Bank holds a 22.92% stake in EQUILL, a venture capital company operating for 33 years. EQUILL primarily invests in equity and equity-featured debt instruments. In 2023, EQUILL reported a net profit of Rs. 15.248 Mn., a notable improvement compared to the net loss of Rs. 6.695 Mn. reported in 2022.

#### **Foreign subsidiaries**

### Commercial Bank of Maldives Private Limited (CBM)

In collaboration with Tree Top Investments (TTI), CBM was established in the Republic of Maldives as the Bank's second foreign subsidiary. TTI brings essential local market expertise to the partnership, holding a 45% stake, while the Bank holds the majority stake of 55% in CBM. Founded in the latter part of 2016, CBM inaugurated its Head Office and first branch in the capital city, Malé. By the end of 2017, CBM expanded with its second branch in Hulhumale, totaling two branches and managed two Offsite Automated Teller Machines by the close of 2023.

As CBM continues to offer a wide range of financial services, its aim is to emerge as the premier financial institution in the Republic of Maldives, distinguished by its advanced technology, innovation and customer-centric approach. In its third year of operation, CBM received recognition for 'Excellence in Finance' in the Banking and Finance category at the 2019 Maldives Business Awards. Furthermore, CBM solidified its position by being ranked among the top 100 companies in the Maldives at the "Gold 100 Gala" events in both 2021 and 2023, organised by Corporate Maldives. In 2022, CBM was honoured with the Global Business Outlook Banking Award 2021 in the "Fastest Growing Commercial Bank - Maldives 2021" category.

In line with CBM's dedication to community engagement and social responsibility, CBM proudly sponsored the Children's Day celebration in partnership with Rehendi School. The event, held in June 2023, aimed to commemorate Children's Day with a special focus on Rehendi School students and other children in the community. As part of its contribution, CBM provided essential stationary items as gifts, distributed among all participating children. This initiative not only supported the Children's Day celebration but also highlighted CBM's commitment to the overall development of youth in the community.

CBM remained dedicated to its corporate social responsibility efforts through a valuable partnership with Care Society Maldives, which prioritises financial literacy and supports individuals with unique needs. In collaboration with Care Society, known for their work with children with disabilities, CBM organised a financial literacy session for 15 participants. The session focused on age-appropriate financial education, covering topics such as responsible spending, managing money physically and online and recognising scams.

CBM envisions itself "to be the trusted financial service provider for growth, committed to delivering excellence in service quality". Renowned for its technological advancement, innovation and customercentric approach, CBM aims to be the premier choice for financial services in the Republic of Maldives.

In 2023, CBM achieved significant growth in its deposits and advances, with a 9.52% increase in deposits reaching MVR 2.785 Bn. (2022: MVR 2.542 Bn.) and a 22.23% increase in net loans and advances reaching MVR 0.949 Bn. (2022: MVR 0.776 Bn.). Total assets also saw remarkable growth, up by 10.98% to MVR 3.248 Bn. (2022: 2.927 Bn.) by the end of 2023. CBM reported a post-tax profit of MVR 78.264 Mn. in 2023, marking a 36.15% increase from the previous year and the highest profit recorded in its 7-year operation period.

### CBC Myanmar Microfinance Company (CBC Myanmar)

CBC Myanmar, a fully owned subsidiary of the Bank, commenced operations in July 2018 with the opening of its Head Office and a branch in Lewe Township, Nay Pyi Taw. Initially focused on the Microfinance sector, the Company expanded its operations to Aye Lar, Zabuthiri and Pyinmana townships after securing a permanent business license in 2021. As business conditions improved, CBC Myanmar further expanded its presence to Tatkon township in the last quarter of 2023.

The Myanmar economy was forecasted to grow by 3% in 2023, rebounding from an 18% contraction in 2021 and following a growth of 3% in 2022.

At the beginning of the year, CBC Myanmar had 27.7% of its portfolio classified as Portfolio at Risk (PAR). Through consistent recovery efforts over the course of the year, the Company managed to reduce its PAR to 12.9% by the end of the year, compared to the industry PAR, which remained above 25%.

In November 2022, CBC Myanmar secured a credit facility of MMK 1.5 Bn. through United Amara Bank (UAB) of Myanmar, backed by a Standby Letter of Credit facility of USD 1 Mn. issued by the parent company. This arrangement enabled CBC Myanmar to maintain credit growth, as further capital infusion was not feasible at the time. Subsequently, the Company successfully negotiated a similar facility with UAB, with the loan proceeds earmarked for expanding its loan book.

During 2023, the Company disbursed MMK 7.1 Bn. in new loans, a significant increase from MMK 3.7 Bn. in 2022. This led to a growth in interest income from MMK 463.93 Mn. to MMK 905.53 Mn., representing a remarkable 95.18% increase compared to the previous year. Despite this positive development, the Company reported a loss of MMK 154.38 Mn. for the financial year ended December 31, 2023, an improvement from the loss of MMK 806.11 Mn. recorded in 2022, mainly due to an increase in operating expenses in 2023.

Overall, the Company achieved a substantial increase in interest income driven by improvements in portfolio quality and loan book growth. However, the Company's break-even target was further delayed due to sharp currency depreciation, as a significant portion of its expenses are denominated in USD.

The Company remains optimistic that current conditions will gradually improve, potentially allowing it to enter the profit zone early in 2024. Additionally, the Company has plans to expand into another region with more branches to maintain its growth momentum.

#### Commex Sri Lanka S.R.L. (Commex)

Commex, a fully-owned subsidiary of the Bank, commenced its operations under the Authorised Payments Institute (API) license issued by the Bank of Italy in 2016. However, due to the economic impact of COVID-19, the Board of Directors of Commex decided to voluntarily liquidate the Company in 2022. The Bank made an announcement regarding this decision to the Colombo Stock Exchange. The process of voluntary liquidation is underway and nearing completion.

Detailed information about the Group's companies and a summary of key financial information for each company is given in the section on "Group Structure" on pages 142 and 143.

# **Investor relations**

#### Dear Stakeholder,

We extend our heartfelt appreciation to our steadfast investors who have chosen to invest in both the equity and the debt of our Bank. Rest assured, we are dedicated to maximising returns on your investments through careful and sustainable growth. It is our responsibility to offer you a comprehensive and balanced perspective of the Bank's performance, including operational results, financial standing and cash flows, enabling you to make informed decisions. As one of Sri Lanka's four Domestic Systemically Important Banks (D-SIBs) and the largest private sector Bank, designated as such by the Central Bank of Sri Lanka, we are confident in our ability to meet your expectations despite the challenges presented by the operating environment, mostly due to or caused by factors that flowed from the previous years. We commit to fulfilling our obligations in the best interests of our investors and believe that the information provided in this Integrated Report and Financial Statements will enhance your understanding of our core strengths, thereby fostering trust and loyalty among our investor community, who share a long-term vision of sustainable value creation.

The Bank is committed to nurturing robust and reciprocal communication channels with our esteemed investors, cultivating mutual trust and confidence. We uphold the rights granted to investors by relevant statutes to address material concerns, as elaborated in the "Connecting with Stakeholders" section on pages 38 to 41. These efforts have enabled us to engage proactively with our investors in a consistent, thorough and meaningful manner, often surpassing legal obligations and enhancing our reputation.

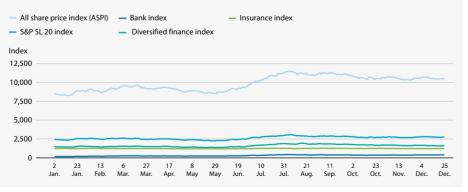

The Bank employs a diverse array of methods to engage and interact with its stakeholders. This encompasses the Annual Report, serving as the primary tool for investor communication, along with Annual General Meetings and Extra-Ordinary General Meetings, convened as necessary to provide opportunities for the investor community to connect with the Bank. Consistent with past practices, the Bank has produced an integrated Annual Report this year, presented in a concise format across each section. We deeply value the insightful feedback provided by our shareholders in previous surveys and comments, which has been carefully considered. To further enhance our reporting, we have included a stakeholder feedback form in this year's Annual Report, inviting your valuable suggestions and opinions. Your feedback is invaluable to us and we are committed to incorporating it into our strategies to create long-term value for all stakeholders. We believe that these interactions will provide investors with valuable insights into the Bank's performance, strategic direction, governance mechanisms, risk management strategies and the Sustainability Framework.

The investor relations section of our website which can be found at <u>https://www. combank.lk/investors</u> is another popular channel available for stakeholders, where both a PDF and an interactive version of the Bank's Annual Report have been hosted. The Bank makes sure that its pages are regularly updated along with the rest of the site's content.

We firmly believe that the Bank's efforts to have an effective communication and active engagement with important stakeholder groups have made the Bank's shares a creditable investment proposition, despite multitude of global and local developments detailed in *Our Operating Context and Outlook*.

## Performance of the Colombo Stock Exchange (CSE) in 2023

Contrary to the year 2022 which had a notable decline in the performance of the CSE primarily due to effect of COVID-19, followed by the social unrest and the unstable political environment, the year 2023 saw the main index of the CSE, All Share Price Index (ASPI) becoming one of the world's topperforming stock market index. ASPI which stood at 8,490 points by the end of 2022, improved by 2,164 points to 10,654 points by the end of 2023, recording a growth of 25.50%. In the meantime, the S&P SL20 index, following the ASPI, improved to 3,068 points by the end of 2023, from 2,636 points at the end of 2022, recording an improvement of 432 points or 16.42%. Consequently, the market capitalisation which was at Rs. 3.847 Tn. at the end of 2022 too increased to Rs. 4.249 Tn. at the end of 2023, with a notable improvement of 10.44%.

### Performance of the Banking Sector and Commercial Bank shares in 2023

In the backdrop of the excellent performance of the ASPI and the S&P SL20 indices during 2023, as shown in the above graph, the banking sector shares displayed a superior performance with the Bank index improving to 797 points at the end of 2023 compared to 386 points at the end 2022, with a commendable growth of 106.64%. It is pertinent to mention that the share prices of both voting and non-voting ordinary shares improved significantly by 90.24% and 94.67% respectively, during the year 2023, with the market prices of ordinary voting shares and ordinary non-voting shares closing Rs. 95.50 and Rs. 80.40 (Rs. 50.20 and Rs. 41.30 at end of 2022) respectively, as shown in the Table 29 on page 149. However, the share price of the Bank's ordinary voting shares traded at a discount to its book value at 0.58 times at the end of 2023 (0.31 times at the end of 2022). Nevertheless, it continued to remain the highest among its peers in the Banking Sector.

As at December 31, 2023, the Bank's public holding (free float) was 99.81% in ordinary voting shares (99.81% in 2022) and 99.88% in ordinary non-voting shares (99.88% in 2022), while its float-adjusted market capitalisation (compliant under option-1 of the Rules on minimum public holding requirement of the CSE) improved to Rs.124.095 Bn. from Rs. 61.476 Bn. in 2022 by 101.86%. As shown in Tables 32 and 33 on page 150, both voting and ordinary nonvoting shares of the Bank were actively traded in the CSE where the investors are given a convenient "enter and exit" mechanism with the number of share transactions in the CSE recorded a notable improvement while the number of shares traded in the CSE by the two categories of shares reflected mixed results. In the meantime, the number of shareholders holding both voting and nonvoting shares of the Bank at the end of the year stood at 15,857 and 5,702 respectively, as depicted in Table 35 on page 152 showing the confidence placed by investors in the Bank's shares.

## Compliance report on the contents of the Annual Report in terms of the Listing Rules of the CSE

We are pleased to inform you that the Bank has fully complied with all relevant provisions of Section 7.6 of the Listing Rules of the CSE regarding the information to be included in an entity's Annual Report and Financial Statements.

Table 25 given below provides a complete list of disclosure requirements and references to the relevant sections of this Annual Report where the Bank's compliance with the required disclosures are made together with the relevant page numbers.

The pages that follow contain information on the performance of the Bank's listed securities.

## Compliance with requirements of the Section 7.6 of the Listing Rules of the CSE

# 2. Performance of COMB shares and returns to shareholders

The investor interest in the Bank's shares persisted during the year 2023 compared to 2022 as evidenced by the increased number of share transactions (Table 32 on page 150) and the number of shares traded (Table 33 on page 150) despite a slight drop in the number of shareholders in both categories of ordinary Voting and Non-Voting shares (Table 35 on page 152).

The market price of an ordinary voting share of the Bank recorded a significant increase of 90.24% (as opposed to drop of 36.70% in 2022) to Rs. 95.50 at the end of 2023 from Rs. 50.20 at the end of 2022 while the market price of an ordinary non-voting share of the Bank too recorded an appreciable improvement of 94.67% (as opposed to drop of 42.64% in 2022) to Rs. 80.40 at the end of 2023 from Rs. 41.30 at the end of 2022 (Table 29 on page 149). During most of 2023, the movement of the prices of non-voting shares followed the trend of the voting shares. The Bank continued with its policy of issuing scrip dividends and Employee Share Option Plans. Market capitalisation in terms of Rupees for both voting and non-voting shares stood at Rs. 124.327 Bn. (USD 383.429 Mn.) at end of 2023 compared to Rs. 61.591 Bn. (USD 167.824 Mn.) at end of 2022 which accounted for 2.93% of the total market capitalisation of the CSE of Rs. 4.249 Tn. as at end of 2023 (1.60% in 2022). The Bank's shares ranked ninth among all listed entities at the CSE as at end of 2023 (twelfth in 2022) and first among the listed corporates in the Banking sector similar to 2022.

Shareholders' Funds

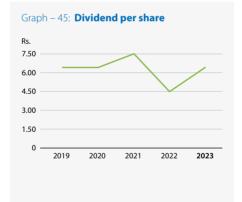

### 3. Dividends

We want to emphasise that the Bank recognises and comprehends the importance of declaring dividends as a means to strike a balance between shareholder expectations and the Bank's business requirements. While the Bank had been distributing interim cash dividends until 2019, there have been no such payments made since then until December 31, 2023. This was in compliance with the requirements of the Banking Act Direction No. 03 of 2020 dated May 13, 2020, the Direction No. 01 of 2021 dated January 19, 2021, the Direction No. 11 of 2021 dated July 13, 2021, the Direction No. 02 of 2022 dated May 06, 2022 and the Direction No. 01 of 2023 dated February 02, 2023, issued by the CBSL on "Restrictions on Discretionary Payments of Licensed Banks", wherein licensed banks were instructed to refrain from declaring cash dividends for financial years ended December 31, 2020, 2021, 2022 and 2023, respectively, in view of the possible adverse impact on liquidity and other key performance indicators of banks. However, as per the Banking Act Direction No. 01 of 2021, the Direction No. 11 of 2021 and the Direction No. 02 of 2022, Direction No. 01 of 2023 issued by the CBSL on the same subject, licensed banks incorporated or established in Sri Lanka were instructed to defer payment of cash dividends until the financial statements for the year ended December 31, 2020, 2021, 2022 and 2023, respectively, are finalised and audited by the External Auditors.

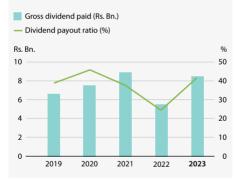

Accordingly, the Board of Directors of the Bank after giving due consideration to the requirements stipulated in the Banking Act Directions No. 01 of 2023, has now recommended a final dividend of Rs. 6.50 per share for both ordinary voting and non-voting shares of the Bank. This will be paid in the form of a cash dividend of Rs. 4.50 per share and a scrip dividend of Rs. 2.00 per share for both voting and non-voting shareholders of the Bank for the year ended December 31, 2023. This proposed first and final dividend for the year 2023 will be submitted for the approval of the shareholders at the 55th AGM, to be held on March 28, 2024. (A dividend of Rs. 4.50 per share was declared and paid by the Bank for the year ended December 31, 2022, in the form of issue and allotment of new shares for both voting and non-voting).

## 3.1 Dividend information (As per Rule No. 7.6 (xi) of the Listing Rules of the CSE)

#### 4. Shareholders

The Bank had 15,857 ordinary voting shareholders and 5,702 ordinary non-voting shareholders as at December 31, 2023, compared to 17,022 and 5,989 voting and non-voting shareholders as at December 31, 2022 (Table 35 on page 152). With one new investor joining ranks, the percentage of ordinary voting shares held by the 20 largest shareholders as at end 2023 marginally increased to 77.09% from 76.85% as at end 2022. Similarly, with four new investors joining ranks, an increase was witnessed in the non-voting ordinary shares held by the 20 largest shareholders to 36.48% as at end 2023 from 33.90% as at end 2022.

## 8. Engaging with shareholders

The Bank has in place a comprehensive Shareholder Communication Policy, which outlines the various formal channels through which it engages with shareholders. It covers the timely communication of quarterly performance of the Group and the Bank as set out on pages 132 to 137 in "Summary of Interim Financial Statements – Group and Bank". It also records significant events that may reasonably be expected to impact the share price. (More details are given in Financial Calendar on page 261).

Shareholders are kindly requested to provide their valuable feedback on the content of this Annual Report using the "Stakeholder Feedback Form" given at the end of this Annual Report for continuous improvements in the presentation and disclosures made in the Annual Report.

## 9. Quarterly performance in 2023 compared to 2022 (As per Rule No. 7.5 (a) (i) of the Listing Rules of the CSE)

We wish to inform the shareholders that the Bank duly submitted the Interim Financial Statements for the year 2023 to the CSE within applicable statutory deadlines (The Bank duly complied with this requirement for 2022 as well). Please III refer "Financial Calendar" on page 261 for details of the requirements and how the Bank complied with same. Further, a summary of the Income Statement and the Statement of Financial Position depicting quarterly performance during 2023 together with comparatives for 2022 is given in Summary of Interim Financial Statements – Group and Bank on pages 132 to 137 for the information of stakeholders. The Annual Report comprising of Audited Financial Statements for the year ended December 31, 2023 will be submitted to the CSE within three months from the year end, which is well within the required deadline as required by Rule No. 7.5 (a) of the Listing Rules of the CSE. (The Bank duly complied with this requirement for 2022).

This Annual Report in its entirety is available on the Bank's website both as a PDF file and as well as an interactive version (http://www.combank.lk/investors).

Shareholders may also elect to receive a hard copy of the Annual Report on request. The Company Secretary of the Bank will respond to individual letters received from shareholders based on the requests made through the specimen request letter included in the booklet sent to shareholders.

## **10. Debt securities**

Details of debentures issued and redeemed by the Bank during the year as well as the balances outstanding and other relevant information is as shown in the Note 50 to the Financial Statements on Subordinated Liabilities on pages 368 to 370.

## 10.1 Debenture composition (As per Rule No. 7.6 (xi) of the Listing Rules of the CSE)

Please III refer to Note 50 to the Financial Statements on Subordinated Liabilities on pages 368 to 370 for full details.

Please III refer "Financial Highlights" and "Core Financial Soundness Indicators" on pages 16 and 125 for a comprehensive list of financial indicators.

## 11. Key shareholder return indicators (As per Rule No. 7.6 (xi) of the Listing Rules of the CSE)

		Table – 43
Year	2023	2022
Key financial indicators		
Interest margin (%)	3.32	3.74
Return on assets (before tax) (%)	1.27	1.03
Return on equity (%)	9.78	12.46
Net asset value per share (Rs.)	163.55	164.30
Regulatory liquidity		
Liquid assets ratio (%) (Minimum requirement 20%)		
Consolidated (Sri Lankan operations)	46.06	35.88
Liquidity coverage ratio – LCR (%) (Current minimum requirement 100%)		
Rupee	491.61	405.91
All currencies	516.27	293.91
Net stable funding ratio – NSFR (%) (Current minimum requirement 100%)	193.70	173.58
Debt service related ratios		
Debt equity ratio (%)	16.97	34.02
Interest cover (Times)	8.84	7.31
Debt service coverage ratio (%)	127.11	56.84

# 12. Credit ratings (As per Rule No. 7.6 (xi) of the Listing Rules of the CSE)

## **12.1 National Long-term ratings**

Fitch Ratings upgraded the rating Outlook of the Bank's credit rating to Stable from Negative in October 2023, largely due to ease in downside risks for the banking sector with upgrades to Sri Lanka's Long-Term-Local-Currency Issuer Default Rating to CCC- from RD (Restricted Default). Earlier in January 2023, Fitch Ratings downgraded the rating assigned to the Bank from AA-(Ika) with a Negative Outlook to A (Ika) amidst the sovereign downgrade and recalibration of the agency's Sri Lanka's national rating scale, along with nine other banks. Meanwhile, the Bank's Bangladesh Operation's credit rating was reaffirmed at AAA by Credit Rating Information Services Ltd in June 2023 for the 13th consecutive year.

The ratings reflect the Bank's intrinsic financial strength, the established domestic franchise as Sri Lanka's third-largest bank and the entrenched domestic deposit franchise that underpins the Bank's funding and liquidity profile.

## 12.2 Credit ratings – Debentures (As per Rule No. 7.6 (xi) of the Listing Rules of the CSE)

The credit rating of the Bank's Subordinated Debentures was affirmed as BBB+(Ika) by Fitch Ratings Lanka Ltd., in November 2023.

# **Governance and risk management** Board of Directors and profiles

Prof A K W Jayawardane Chairman

Appointed as the Chairman of the Board of Directors in March 2022.

Appointed as the Deputy Chairman in December 2020.

Appointed as an Independent/ Non-Executive Director of the Commercial Bank in April 2015.

# Annual corporate governance report

### **Chairman's Message**

In navigating the complexities of rapidly evolving global landscape, characterised by both virtual and physical transformations, the imperative to remain competitive while upholding ethical standards has never been more pronounced. The banking industry, amidst heightened competition, technological advancements, demographic shifts, and regulatory requirements, is confronted with unprecedented challenges in scaling up operations. As demands from regulators, investors, and the wider community continue to rise, we are resolute in upholding the highest standards of corporate integrity and responsible governance.

As the Chairman of the Bank, I am pleased to convey our steadfast dedication to corporate governance principles and practices in our operations. Transparency, accountability, and good governance are no longer mere compliance requirements, but essential pillars of our Bank's success and sustainability.

Throughout the year, the Board has been actively engaged in overseeing our strategic direction, addressing evolving challenges, and strengthening our governance structure. We maintain a strong focus on shareholder engagement, while ensuring a robust and transparent process for Director appointments and re-elections.

At Commercial Bank, we operate within a framework of transparency, accountability, and adherence to ethical codes, recognising them as fundamental to sustainable growth. Transparency serves as a cornerstone of our governance framework, fostering accountability, good governance, and sound financial and risk management practices, which are essential to empower stakeholders and maintain trust, given our role as a financial intermediary.

Our Board guides value creation over the short, medium, and long term, taking responsibility for the Bank's actions and performance. Timely disclosures, including those in this Integrated Report and Financial Statements, are instrumental in maintaining transparency across functional areas. Committees at both Board and Executive levels follow stringent guidelines enumerated in their respective charters and terms of reference, fostering accountability through oversight on reporting, disclosures, performance evaluation, and reward structures. Transparency, accountability and good governance are no longer mere compliance requirements, but essential pillars of our Bank's success and sustainability.

In the year 2022, we introduced the Conduct Risk Management Policy and the Anti-Bribery and Anti-Corruption Policy (https://www.combank.lk/info/file/91/ anti-bribery-andanti-corruption-policy) to underscore our commitment to ethical conduct. Timely disclosures, accessible through our intranet and the website, ensures transparency while upholding confidentiality. Our Integrated Report and Financial Statements go well beyond compliance requirements, demonstrating our accountability to stakeholders showcasing our focus on environmental, social, governance and wider sustainability aspects.

Operational sustainability, guided by exemplary governance practices, ensures our ability to thrive in the future. Upholding legal and ethical principles, we strike a balance between financial aspirations and community welfare. Our commitment to societal and environmental welfare underscores our role as a consolidator of stakeholders' aspirations and a benefactor of grassroots communities.

The Conduct Risk Management Policy and the Anti-Bribery and Anti-Corruption Policy which together with the Code of Ethics and the Whistleblowers' Charter encourage all staff members at all levels to be ethical and accountable in their dealings.

I am happy to state that the Bank has adhered to all the applicable requirements of the Banking Act Direction No. 11 of 2007 on Corporate Governance of the CBSL. Additionally, the Bank is in compliance with the majority of the requirements of the recently revised Section 9 of the Listing Rules on Corporate Governance issued by the CSE, with efforts underway to fulfill the remaining requirements within the specified timelines. Furthermore, the Bank has largely complied with the requirements set out in the Code of Best Practice on Corporate Governance 2023 issued by CA Sri Lanka, with measures underway to comply with the remaining requirements.

This Integrated Annual Report, featuring comprehensive voluntary disclosures surpassing compliance requirements, is a clear demonstration of our accountability to the stakeholders. Guided by our Sustainability Framework (page 54), we have been steadily broadening our focus and disclosures on environmental, social and governancerelated aspects, to showcase in particular that the CSR Trust of the Bank envisages the social and environmental conscience as a pillar by itself, crucial not only for overall sustainability but also as a manifestation of corporate empathy.

Looking ahead, we remain committed to delivering even greater value to our shareholders, providing exemplary services to our customers, and adapting to the changing dynamics of the financial industry. Together, with the dedication of our Board, Management team, employees, shareholders, and stakeholders, we will navigate challenges and seize opportunities, building an evenmore-stronger and even-more-resilient Commercial Bank of Ceylon PLC.

I extend my heartfelt gratitude to our Board, Management team, employees, shareholders, customers and all other stakeholders for their unwavering support and commitment to our governance principles. Together, we will continue to uphold the highest standards of corporate governance, ensuring sustainable success of our organisation.

Prof A K W Jayawardane Chairman

February 21, 2024 Colombo

# How we govern

# (Principles D.6 and D.7)1

As per the disclosure requirements of the Banking Act Direction No. 11 of 2007 on Corporate Governance (the Direction) and the Section 9 of the Listing Rules on Corporate Governance issued by the CSE, pages 439 to 445 of this Report elaborate the structure, overarching principles, and elements of the Bank's corporate governance framework. In addition, the Bank has complied with the principles enumerated in the Code of Best Practice on Corporate Governance – 2023 (the Code) issued by CA Sri Lanka.

The External Auditors of the Bank, Messrs Ernst & Young have submitted their Assurance Statement to the Central Bank of Sri Lanka (CBSL), following their review of the Bank's compliance in line with the Direction.

The extent of compliance in line with the Direction is disclosed in Annex 1.1 on pages 422 to 433, while compliance with the Code is presented in Annex 1.2 on pages 434 to 438 and the compliance with the Section 9 of the Listing Rules is given in Annex 1.3 on pages 439 to 445. Furthermore, the Bank has complied with all the disclosure requirements under the prescribed format issued by the CBSL for the publication of Annual Financial Statements, and a comprehensive disclosure statement thereon is given in Annex 1.4 on pages 446 to 450.

### Bank's approach to governance

As the Bank holds the fiduciary responsibility of accepting and deploying vast sums of uncollateralised public funds, the importance of maintaining public trust and confidence for its long-term success and sustainability cannot be overemphasised. To this end, the Bank considers exemplary conduct on the part of all its employees as essential to good governance, be it from the Board of Directors at the highest governing body and the members of Corporate Management, to the Senior Management and the staff at the most junior level. Accordingly, the Bank has put in place a system of good corporate governance - the system of rules, practices, and processes that guides corporate behaviour ensuring a disciplined approach to decision-making and execution with the interests of all stakeholders at heart. This system has been the bedrock of the Bank of its existence for over 100 years and sustainable value creation.

At Commercial Bank, good corporate governance is not limited to legal and regulatory requirements alone but is viewed as a collective responsibility that serves as the foundation for financial integrity, sustainable value creation, and investor confidence. While it is a strong and highly effective risk management tool, it simultaneously paves the way for the Bank to exploit opportunities. Given this huge responsibility, the Bank has an unwavering commitment to good corporate governance and conducts its affairs with utmost intellectual honesty, integrity, and diligence whilst being mindful of its obligations to society and the environment. This tone is set at the topmost echelons of the Bank's Corporate governance structure and echoes through the entire work culture at the Bank.

While the commitment to good corporate governance has been in place for over a century, the underlying framework is regularly reviewed and updated to be in line with the evolving regulations and best practices. The framework has consistently and successfully guided the Board, Board Committees, Management, Management Committees, and staff in performing their stewardship roles. This framework is underpinned by the governance principles of leadership, integrity, effectiveness, accountability, transparency, sustainability, and shareholder engagement. These principles guide the Bank's Management in all its decisions relating to Board oversight, delegation of authority, division of responsibilities, resource allocation, risk management, internal controls, compliance, performance appraisal and compensation, related party transactions, and financial reporting. The fact that the Bank is the most awarded bank in Sri Lanka bears testimony to its commitment to good corporate governance (III) Refer page 35 for the details of awards and accolades won by the Bank in 2023). During the year under review, the Bank carried out a comprehensive study to ensure that the Bank complies with the guidelines stemming from the revised Code and the Section 9 of the amended Listing Rules of the CSE.

## Objectives of the Bank's Corporate Governance Framework

As the largest private sector bank and the third largest bank in Sri Lanka, Commercial Bank touches the lives of millions of people in various capacities, and these stakeholders in turn have high expectations of their interactions with the Bank. Given that this trust and confidence are imperative for the long-term success of the Bank, the Corporate Governance framework in place at the Bank has been designed to ensure the following as envisaged in its Business Model (D) pages 58 and 59):

- Guiding the Bank on ESG and broader sustainability matters (risks and opportunities) to ensure the long term success of the Bank.
- Facilitating adequate oversight on Management to ensure due diligence on key decisions and implementation of strategies as intended
- Establishing clear ownership and accountability on key and emerging risks
- Maintaining systems and processes efficiently to speedily identify, assess, and escalate issues, incidents, and risks
- Facilitating efficient decision-making for timely and effective outcomes to achieve expected results
- Ensuring business and support service functions are sufficiently resourced with the required competencies and maturity
- Ensuring the remuneration framework is properly aligned with the long-term success of the Bank
- Ensuring that the Bank's operations comply with policies, laws, regulations, and ethical standards both to the letter and spirit
- Ensuring assets are safeguarded by having proper controls in place
- Guiding the Bank and its Group companies to be more stable, resilient, and futureready
- Creating value sustainably for all stakeholders over the short, medium, and long-term

To achieve the objectives stated above, the Board has ensured the following:

- Clearly demarcating and distributing the roles and responsibilities among the Board, Board Committees, Management, and Management Committees, with the approved charters/mandates and Terms of Reference which are reviewed annually
- Establishing clear reporting lines and frequency of reporting
- Taking into consideration the legitimate needs, interests, and expectations of all the stakeholders
- Upholding the highest degree of fairness, transparency, and accountability

- Adopting an Anti-Bribery and Anti-Corruption Policy which sets out principles for countering bribery and corruption and the management of bribery and corruption risk and communicating same to all staff clearly indicating the Bank's stance on zero tolerance for non-compliance
- Adopting a Group Conduct Risk Management Policy Framework
- Adopting a Whistleblowers' Charter and communicating same to all staff clearly instructing that the staff are expected to

be familiar with the contents of same and that the staff are always expected to act in conformity with the Charter

- Aligning remuneration to performance, based on accurate job descriptions, pre-agreed KPIs and clear communication of expectations from the employees
- Minimising negative externalities to society and the environment
- Living by the claims made and values associated with the Bank's brand reputation
- Ensuring that the Sustainability Framework of the Bank operationalise sustainable banking, responsible organisation, and community impact

The key regulatory requirements and voluntary codes relevant to the Bank and elements of its Corporate Governance Framework are depicted in Figure 39 below on page 179.

- Integrated Risk Management Framework
- The Board approved policies on all major operational aspects
- Related Party Transactions Policy
- Code of Business Conduct and Ethics for all employees
- The Sustainability Framework

#### **Governance structure**

The foundation of the governance structure of the Bank is built on well-defined roles and responsibilities, greater accountability, and clear reporting lines of the Board, Board Committees, Corporate Management, and Executive Management Committees. The Board and Board Committees assisted by consultants where necessary are responsible for setting the strategy, defining the risk appetite, and exercising oversight while Corporate Management and Executive Management Committees are responsible for executing the strategy and driving performance. Responsibility and accountability for conducting operations and assuming risk under the purview of the Corporate Management lie with the those heading the strategic business units and support functions. The governance structure of the Bank is given in III Figure 40 on page 181.

The Bank has a Board approved organisation structure, which clearly depicts the work responsibilities and reporting relationships (<sup>11</sup>) Refer Annex 7 on page 476 for an abridged organisation chart).

### Board of Directors (Principles A.1, A.1.5, A.4, and A.10)

The Board of Directors plays a pivotal role in demonstrating good corporate citizenship, ethical behaviour, transparency, and accountability whilst also warding off all forms of corporate malfeasance. The Board of Directors - the highest decisionmaking authority - with responsibility for the sustainability of the Bank provides leadership by setting strategic direction, defining risk appetite, monitoring and evaluation of performance, resource allocation, compliance, business conduct, approving remuneration policies, and making appointments to the Board, Board Committees, and the Corporate Management. Under the due diligence and oversight of the Board, Corporate Management is responsible for the execution of the strategy, day-to-day operations, and implementing an effective system of internal control and risk management. The Board and Corporate Management have a clear mutual understanding of their respective roles, delegated authority, and boundaries. Based on trust and respect, the Board and

the Corporate Management work within a productive and harmonious relationship which is a pre-requisite for good corporate governance and organisational effectiveness. This has proved to be one of the key reasons for the many achievements of the Bank and its positioning as the benchmark private sector bank in the country over the years. Furthermore, the Bank is one of the two higher tier Domestic Systemically Important Banks (D-SIBs) in Sri Lanka.

The Board comprised twelve Directors at end of 2023 (eleven as of the end of 2022). Each Director is an eminent professional in his or her respective field and holds the skills and expertise necessary to constructively challenge the Corporate Management and enrich deliberations on matters set before the Board. They fully understand and appreciate the dynamism and complexity of the operations of the Bank, its subsidiaries, and its associate, particularly in the wake of emerging global developments threatening to challenge conventional business models. Ten of the Directors (nine as of the end of 2022) are Independent Non-Executive Directors (INEDs), ensuring a higher degree of autonomy. Directors act in the best interest of the shareholders, avoiding any conflicts of interest.

### Diversity and inclusion (Principle A.10.1)

Diversity and inclusion go hand in hand at the Bank, with a wide array of diverse people and voices being inclusively heard in the working environment, all towards the overall progress of the Bank.

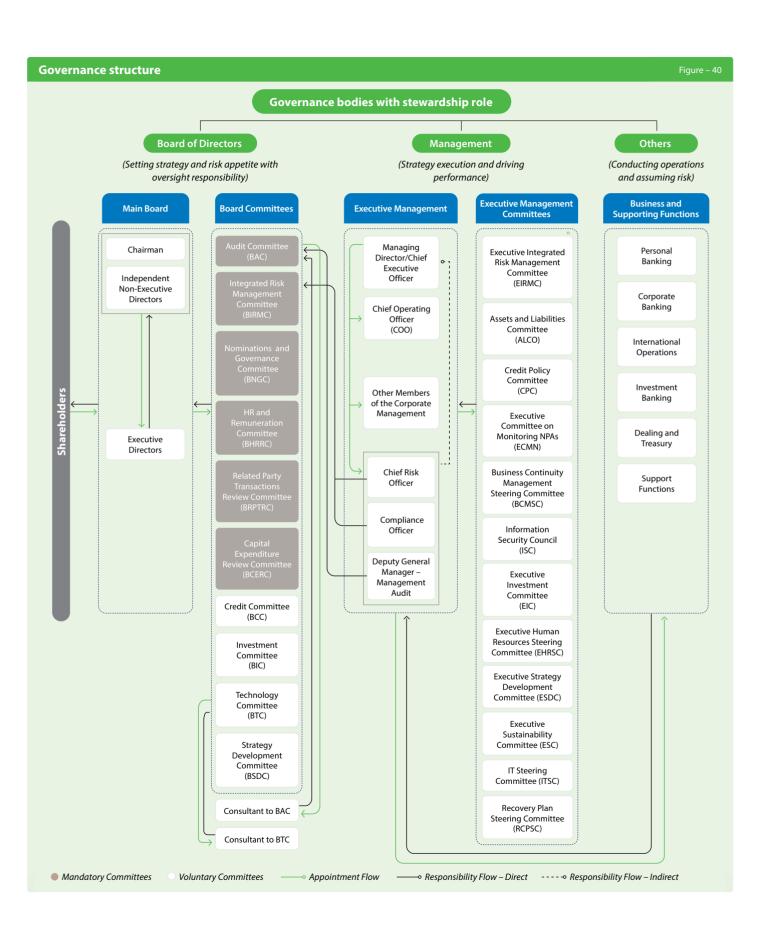

The Board of Directors mirrors this diversity and inclusion with expertise in accounting, banking and finance, economics, law, agriculture and chemical industry, engineering, information technology, risk management, manufacturing, healthcare, insurance, logistics, plantations, renewable power, and international capital markets. Having risen to the highest echelons of Government institutions or private sector organisations, they bring their independent judgement to bear on matters reserved for the Board. Bringing together banking, entrepreneurial, investor, and regulatory perspectives, the Board is able to explore matters from diverse points of view to facilitate long-term value creation. The Company Secretary assists the Board in discharging its responsibilities.

The diversity in the Board's composition has enabled it to bring a unique perspective to the Boardroom, enhancing dynamics and effectiveness while promoting a healthy and constructive exchange of views, leaving no room for groupthink. I Refer composition of the Board on page 183.

The profiles of the Board members which include the qualifications, memberships in Board Committees, and both current and previous significant appointments as well as the profile of the Company Secretary are given on D pages 162 to 167.

# Board process (Principles A.1.3, A1.4, A.1.6, A.1.7, A.3.1 and A.6)

Minutes of deliberations and decisions made at Board and Board Committee meetings are maintained in sufficient detail. If the need arises, members of Corporate Management are invited to make presentations to the Board on the performance of areas coming under their purview. Members of the Board are also allowed to seek independent professional advice, if necessary, at the Bank's expense. The Bank has also obtained a Directors' and Officers' Liability Insurance Policy, affording them protection against any allegations in the conduct of their duties.

# Conflicts of interest (Principles A.5.5 and A.10.1)

The Bank has a meticulous system in place to avoid conflict of interest. At an individual level, members of the Board declare a situation of conflicts of interest and withdraw from participating in deliberations on/ exercising influence over matters where conflict or the appearance of conflict of interest arises. The actions are appropriately minuted for future reference. In addition, the affiliations and transactions of Directors are regularly reviewed to ensure that there are no conflicts or relationships that might impair Directors' independence. The Board-approved **Related Party Transactions Policy of the Bank** sets out the procedure to be adopted in granting accommodation to the Directors, their close family members, and entities in which the Directors hold directorships, as permitted by the rules and regulations of the CBSL and within the terms and conditions such facilities are provided to other customers of the Bank. Such facilities, if any, are reviewed and recommended by the Board Credit Committee (BCC) and are submitted to the Board for approval. Once approved, details of such facilities are tabled at the next scheduled meetings of the Related Party Transactions Review Committee (BRPTRC) for information. The section on "Directors" Interest in Contracts with the Bank' on page 230 discloses the details of transactions carried out in the ordinary course of business on an arm's length basis with entities where the Bank's Chairman or Directors serve as the Chairman or as a Director in another entity. while Note 62 to the Financial Statements on pages 384 to 388 includes information on "Related Party Disclosures". At the point of joining and guarterly thereafter, the Directors declare their interests, and the necessary procedures in place to ensure that there are no conflicts of interest that will compromise the independence of members. A register of such declared interests is maintained by the Company Secretary and is available for inspection by shareholders or their authorised representatives as required by Section 119 (1) (d) of the Companies Act No. 07 of 2007 and amendments thereto.

# Board meetings (Principles A.1.1 and A.10.1)

In the year 2023, the Board held fourteen (14) scheduled meetings (fifteen in 2022) of which one meeting (one meeting in 2022) was allocated exclusively to deliberations on Corporate Plan 2024 – 2028 and Budget 2024, with the members of the Corporate Management being present. Twelve (12) meetings (thirteen meetings in 2022) were devoted to review and deliberate on matters including the following;

- Financial and operating results against the budgeted KPIs and previous periods
- Risk factors affecting financial and operating results and the risk mitigants
- Extent of compliance with the mandatory and voluntary requirements and corrective measures for any instances of noncompliance, if any
- The revised budget for 2023
- Lapses in internal controls and corrective measures taken
- Frauds reported, investigation outcomes and follow up on actions taken
- Minutes of Board committees
- Share transactions by staff members in Assistant Manager and above grades
- ESG and wider sustainability related risks and opportunities
- Cyber security related risks, risk mitigants, compliance reports from independent third parties etc., for priority 1 systems in particular
- Scope of the Recovery Plan (RCP) and recovery options identified to restore normalcy in a crisis or high stress situation
- Stage movements of Non-Performing Credit Facilities and recovery actions taken
- Updates on strategy implementation
- Investment strategies

Subsequent to the election/re-election of Directors at the Fifty-fourth Annual General Meeting (AGM) held on March 30, 2023, in place of those who retired by rotation, a Board Meeting was held on March 30, 2023 to review and revise the composition of the Board Committees.

Figure 41 on page 183 provides details of attendance at Board meetings including membership status, mode of attendance, positions held by the Board members in Board committees, and the tenure on the Board.

Such meetings are seen to provide an effective forum for discharging the oversight responsibility of the Board. With the Covid-19 pandemic no longer classified as a public health emergency, the Board meetings transitioned back to physical format during the year. However, in adherence to safety protocols and to accommodate members residing or traveling overseas, as well as those facing unavoidable circumstances, virtual attendance options were made available. This hybrid approach ensured that all Board members could actively participate in the meetings, whether in person or remotely, facilitating continued collaboration and decision-making in a safe and inclusive manner

The Board continued to play an active role in strategy formulation, providing directions to the Corporate Management for the preparation of the Bank's five-year strategic plan spanning 2024-2028. This plan was then reviewed and approved at a meeting specifically convened for this purpose, in December 2023. The meeting saw members of the Corporate Management present plans on areas coming under their purview, and extensive deliberations were made on said presentations, with the Board exploring and evaluating alternative strategies prior to the approval and allocation of resources for execution of the same.

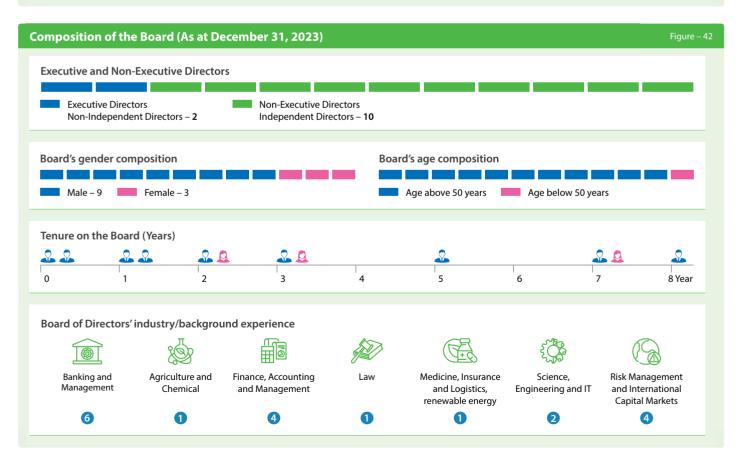

The Board continued to give prominence to liquidity and capital management, higher credit losses necessitated for foreign currency-denominated Government securities consequent to the downgrade of the country's sovereign rating in April 2022, and the subsequent announcement made by the Government to restructure foreign currency debt, deteriorating credit quality, and increasing tax burden, all in a bid to support growth and ensure sustainable value creation. One of the regular items on the agenda at the monthly Board meetings is to review performance against the strategic plans, allocating sufficient attention and time to review the progress and to identify areas of concern requiring further attention by the Board. In addition, the Board heightened its attention on credit quality, closely monitored exposures to risk-elevated industries, reviewed the appropriateness of the impairment methodology, monitored movements in staging of exposures, and sought to resolve distressed credit facilities. Further, the Board diligently addressed ESG and wider sustainability-related risks and opportunities, as well as cybersecurity risks and mitigation measures, alongside reports of security breaches, demonstrating their commitment to comprehensive risk management.

Furthermore, through periodic presentations made by the respective Chief Executive Officers and/or Managing Directors, the Board also reviewed the performance and future plans of the subsidiaries of the Bank. The Board reviewed and approved the updated policies and procedures in response to various new directions from the CBSL, including Directions No. 13 of 2021 concerning the classification, recognition, and measurement of credit facilities and Directions No. 14 of 2021 regarding the classification, recognition, and measurement of financial assets other than credit facilities in licensed banks. These directives, effective from January 1, 2022, prompted necessary revisions to ensure compliance and adherence to regulatory standards.

### Board Committees (Principles A.7.1 to A.7.3, A.7.5 & A.7.6, B.2, D.3 to D.5)

Board Committees are appointed both in terms of compulsory requirements and voluntarily. Out of the Ten Board Committees that have been appointed with delegated authority to strengthen governance and to deal with/decide on certain subject-specific and specialised matters, six are mandatory whilst the remaining four are voluntary. Four out of six mandatory Committees have been formed as required by the Direction. The Board Capital Expenditure Review Committee (BCERC) was formed during the year as required by the Banking Act Direction No. 01 of 2023 on "Restrictions on Discretionary Payments of Licensed Banks" while, demonstrating commitment to good governance, the BRPTRC was formed in 2014 by early adoption of the Code of Best Practice on Related Party Transactions as issued by the Securities and Exchange Commission (SEC) of Sri Lanka which became mandatory for all listed entities from January 01, 2016 under Rule 7.6 (xvi) of the CSE Listing Rules.

The four voluntary Board Committees have been established considering the business, operational, information technology, and strategy development needs of the Bank as permitted by the Bank's Articles of Association. These Committees hold regular meetings - once a quarter at a minimum. The Board Committees have sought guidance and advice from external consultants on several occasions. Furthermore, each of the Directors served in a minimum of three Committees during the year. The Board of Directors, however, retains responsibility for all Board Committee decisions, thereby ensuring the continuance of good corporate governance.

Important matters arising from the Board Committee meetings ware deliberated regularly at the Board meetings for information/approval of the members, and any concerns identified in relation to specialised areas were also referred to them for oversight. The minutes of these meetings, carefully ascertain and record the views and deliberations of the Directors on issues under consideration. The composition, areas of oversight responsibility under respective mandates, key activities in 2023, and attendance of members at the Board Committee meetings are given in the respective Board Committee reports given on pages 195 to 215.

### **Executive Management Committee**

The Executive Management Committee (EMC) comprises all members of the Corporate Management including the Managing Director/Chief Executive Officer (MD/CEO) and the Chief Operating Officer (COO), who are also the two EDs of the Bank. The primary responsibility of the EMC is to implement strategy – as approved by the Board under the leadership of the MD/ CEO - and deliver on the performance objectives while ensuring that the risks undertaken by the Bank are within the risk profile approved by the Board. The EMC has several responsibilities such as laying down policies, making operational decisions, monitoring financial performance against budgets, reviewing the achievement of strategic goals set for business divisions, allocating capital diligently, monitoring the progress of implementing the Digital Road Map, managing risk, deliberating on human resource development including health and safety, fortifying the compliance function, implementing the Sustainability Framework, solving operational and customer issues and ensuring compliance with all applicable regulatory requirements. Beyond the above functions, the EMC also reviews and deliberates information prior to Board review, thereby ensuring that the Board is provided with all material information in a timely and detailed manner, thus aiding the Board to effectively fulfil their oversight responsibilities as Directors. The EMC meetings are conducted to provide all members with the opportunity to gain a 360° view of the Group's operations. Detailed minutes are recorded by the Secretary of the EMC, which are then submitted to the approval by the MD/CEO for follow up action.

Members of the Corporate Management including the MD/CEO review the operations of the subsidiaries and the associate of the Bank while several members of the Corporate Management have been appointed as Directors of subsidiaries of the Bank to oversee the operations and to safeguard the Bank's interest and ensure a reasonable return thereon. An overview of performance of the subsidiaries and the associate is given on pages 129 to 131 in the Section on "Financial Review" while the Section on "Group Structure" carries a snapshot of all subsidiaries and the associate of the Bank on pages 142 and 143 together with details of Board of Directors of each Company.

The profiles of the members of the Corporate Management with their names, designations, qualifications, and experience are given on pages 170 and 171, while the names of members of the Senior Management related to the Bank's operations in Sri Lanka, Bangladesh, the Maldives, Myanmar, and the subsidiaries in Sri Lanka are given on pages 172 to 176.

### **Management Committees**

In addition to the Board, the Board Committees, and the EMC, several other Management Committees have been established for good governance along subject-specific lines to facilitate decisionmaking and executing Board-approved strategies. These Management Committees operate under delegated authority from the MD/CEO.

Based on approved Terms of Reference, the Management Committees which are chaired by either the MD/CEO or the COO operate under a structure and a process similar to that of the Board Committees. Detailed minutes are recorded by the Secretary of the respective Committee, which are then submitted to the relevant Board Committees after approval by the MD/CEO. These Committees undertake extensive deliberations, cooperate across departments, and debate on matters considered critical for the Bank's operations as described in the Figure 43 given on pages 185 and 186.

Monitors and reviews all risk exposures and risk-related policies and procedures affecting credit, market and operational areas in line with the directives from the BIRMC.

### Composition

MD/CEO, COO, and key members of Integrated Risk Management, Personal Banking, Corporate Banking, Treasury, Internal Audit, Compliance, Finance, and Information Security Divisions.

#### Meeting Frequency: Monthly

### Executive Committee on Monitoring NPAs (ECMN)

### **Purpose and tasks**

Review and monitor the Bank's Non-Performing Loans and Advances (NPAs) above a predetermined threshold to initiate timely corrective actions to prevent/reduce credit losses to the Bank.

#### Composition

MD/CEO, COO, and key members of the Corporate Banking, Personal Banking, Credit Supervision & Recoveries, and Integrated Risk Management Divisions.

Meeting Frequency: Monthly

### Assets and Liabilities Committee (ALCO)

#### **Purpose and tasks**

Optimises the Bank's economic goals whilst maintaining liquidity and market risk within the Bank's predetermined risk appetite.

#### Composition

MD/CEO, COO, and key members of the Treasury, Corporate Banking, Personal Banking, Integrated Risk Management, Marketing, and Finance Divisions.

#### Meeting Frequency: Fortnightly

### Business Continuity Management Steering Committee (BCMSC)

### **Purpose and tasks**

Direct, guide, and oversee the activities of the Business Continuity Plan of the Bank in accordance with the Bank's strategy.

### Composition

COO and key members of Human Resources Management, Personal Banking, Corporate Banking, IT, Services, Operations, Integrated Risk Management, and Internal Audit.

Meeting Frequency: Quarterly

# Information Security Council (ISC)

### Purpose and tasks

Focus continuously on meeting the information security objectives and requirements of the Bank in line with emerging technology and the Bank's Strategy.

#### Composition

MD/CEO, COO, and key members of Human Resources Management, Services, Operations, IT, and Information Security Divisions.

Meeting Frequency: Monthly

#### xecutive Investment Committee (EIC)

#### **Purpose and tasks**

Oversee investment activities by guiding the management on significant investment decisions and review performance.

### Composition

MD/CEO, COO, and key members of Corporate and Personal Banking, Investment Banking, Treasury, Finance, and Planning Divisions.

### Meeting Frequency: Quarterly

Executive Human Resources Steering Committee (EHRSC)

### **Purpose and tasks**

Set guidelines and policies on matters that may affect the Human Resource Management of the Bank and make recommendations on policy matters to the BHRRC and/or address any issues that may need to be reviewed at the Board level.

#### Composition

MD/CEO, COO, and key members of Human Resource Management, Personal Banking, Corporate Banking, Marketing, Finance, and Treasury Divisions.

Meeting Frequency: Quarterly

### Executive Strategy Development Committee (ESDC)

### Purpose and tasks

Formulate strategies geared for the sustainable development of the Bank based on overall insights provided by the BSDC. and monitor the implementation of the approved strategic plan and the progress made towards strategic milestones and goals.

### Composition

MD/CEO, COO, and key members of Personal Banking, Corporate Banking, Treasury, Human Resource Management, Marketing, Finance, and Planning Divisions.

Meeting Frequency: Quarterly

Figure – 43

### Executive Sustainability Committee (ESC)

### **Purpose and tasks**

To help advance the Sustainability agenda and performance of the Bank, directing Banks' activities to be in line with the regulatory requirements of the CBSL on Sustainable Finance Roadmap and Principles of the Sri Lanka Banks' Association sustainable banking voluntary initiatives, while assisting the Board to oversee and approve the implementation of sustainable policies, objectives and targets.

### Composition

MD/CEO, COO, and key members of Integrated Risk Management, Services, Corporate Banking, Personal Banking, Investment Banking, Human Resource Management, and Retail Banking & Marketing.

Meeting Frequency: Bi-annually

# Roles, responsibilities, and powers of the Board (Principles A.1.2 to 1.7)

The role of the Board of Directors and their responsibilities are set out in the Board Charter, which includes a schedule of powers reserved for the Board as detailed below:

# **Role of the Board**

- To represent and serve the interests of shareholders by overseeing and appraising the Bank's strategies, policies, and performance
- To provide leadership and guidance to the Management for the execution of strategies
- To optimise performance and build sustainable value for the shareholders and other stakeholders in accordance with the regulatory framework and internal policies
- To ensure that an appropriate governance framework is in place
- To ensure regulators are apprised of the Bank's performance and any major developments
- To review the performance of the key business units against the goals and objectives at regular intervals

### IT Steering Committee (ITSC)

#### **Purpose and tasks**

Assist the Management Committee and the Board of Directors to fulfil its overseeing responsibilities with respect to the overall role of technology, in executing the business strategy of the Bank including but not limited to, major technology investment, technology strategy, operational performance and technology trends that may affect future banking.

### Composition

COO, and key members of Corporate Banking, Personal Banking, Treasury, Human Resource Management, Integrated Risk Management, Retail Banking & Marketing, Management Audit, IT, Services and Operations.

Meeting Frequency: Monthly

### Recovery Plan Steering Committee (RCPSC)

### Purpose and tasks

Exercises the powers and authority entrusted by the Board/Corporate Management with respect to formulating, maintaining, regularly reviewing, executing, coordinating, activating the Bank's recovery plan to deal with shocks to capital, liquidity and all other aspects that may arise from institution-specific market wide stresses.

### Composition

COO, and key members of planning, Integrated Risk Management, Finance, Corporate Banking, Personal Banking, Treasury, Human Resource Management, Marketing, Management Audit, Compliance, IT, and Operations.

Meeting Frequency: Quarterly

# **Key responsibilities**

- Setting strategic direction and monitoring its effective implementation
- Ensuring effective systems are in place to secure integrity of information, risk management, internal control, cyber security, business continuity and compliance
- Ensuring the integrity of the financial reporting process
- Ensuring that appropriate corporate governance structure, policies, and framework are in place for compliance with laws, regulations and ethical standards
- Strengthening the safety and soundness of the Bank
- Reviewing the performance of the Bank and the Group companies
- Selecting, appointing, and evaluating the performance of the MD/CEO
- Appointing the Chair, members to the Board of Directors to fill casual vacancies
- Appointing members of the Corporate Management of the Bank who possess required skills and experience and knowledge to implement the strategy while ensuring succession plan
- Understanding the criticality of cyber risks and taking steps to mitigate them
- Ensuring the availability of an ICT Road map and monitoring diligent execution of same

- Recognising importance of ESG and wider sustainability concerns and aligning the Bank's strategy therewith to ensure long term value creation
- Appointing and overseeing the External Auditors' Responsibilities
- Approving Interim and Annual Financial Statements for publication

### **Powers reserved for the Board**

- Approving Corporate Plan and Budgets which include major capital expenditure, acquisitions, and divestitures, and monitoring capital management
- Appointing the Board Secretary in accordance with Section 43 of the Banking Act No. 30 of 1988
- Establishing and appointing members to Board Committees and evaluation of the performance of Board Committees
- Seeking professional advice in appropriate circumstances at the Bank's expense
- Reviewing, amending, and approving governance structures and policies

## Board's role in risk management (Principle D.2 and D.4)

Risk management is key to the long-term sustainability of the Bank. The Board, as the highest decision-making authority in the Bank, is responsible for implementing an effective risk management mechanism across the Group. With the support of the BIRMC, the Board has devised an effective risk management framework that sets the risk appetite and tolerance limits, facilitating monitoring of the risk profile on a regular basis through risk reports submitted to the Board. Risk management has continued to be one of the key and regular items on the agenda of Board and relevant Board Committees meetings. Clarifications were sought from the respective members of the Management for any deviations from the agreed risk profile and necessary guidance was given for taking mitigatory action. Further, risks related to the business strategies were carefully reviewed at a special Board meeting held to review the Budget for the year 2024 and deliberate on the strategic plan 2024-2028 (III) Refer Risk Governance and Management on pages 232 to 258 for further details).

# **Board Highlights 2023**

- Approval/recommendation of a First and Final dividend for the year ended December 31, 2022 of Rs.4.50 per share, constituting a total sum of Rs.5,579,001,211.50, distributed by way of the allotment and issue of new shares.
- Conducted the Annual General Meeting as a physical meeting.
- Approval/recommendation to issue and allot up to One Hundred and Twenty Million (120,000,000) fully paid, Basel III Compliant – Tier 2, Listed, Rated, Unsecured, Subordinated, Redeemable Debentures with a Nonviability Conversion feature at a par value of Rs.100/- each for tenures of 5 years, 7 years, and 10 years.
- Approval/recommendation to launch the Employee Share Option Plan 2023 (ESOP) covering executive officers falling under the categories of Assistant Manager and above.
- Conducted an Extraordinary General Meeting to obtain approval for the

debenture issue 2023 and ESOP 2023 in the form of a physical meeting.

- Two new Independent / Non-Executive Directors were appointed to further strengthen the Board.
- Reviewed the Composition of Board and Board Committees, respective Committee Charters and Terms of Reference.
- Approval for the Bank to seek required regulatory approvals to commence Offshore Banking activities within the Colombo Port City.
- Approval for the establishment of the Board Capital Expenditure Review Committee (BCERC) in compliance with the directives outlined in the Banking Act Direction No. 01 of 2023 dated February 2, 2023.
- Approval for the Bank to enter into an exclusive long term referral partnership with AIA Insurance Lanka Limited (the "Insurer") in respect of the long term life insurance products of the Insurer.
- Approval for the Bank to execute the Collective Agreement for 2024 2026 with

the Ceylon Bank Employees Union – Commercial Bank Branch.

- Conducted a training programme on Information Security Awareness for the Board of Directors by an external resource person.
- Reviewed all major policy documents of the Bank and approved new policies on Green Finance, Data Governance and Non-Audit Services Provided by the External Auditor.
- Annual strategy meeting with the Corporate Management Team.
- Based on recommendations made by the Board Nominations and Governance Committee (formerly known as the Board Nomination Committee), the Board approved the appointment of four senior officers to the Assistant General Manager grade and the promotion of one Assistant General Manager to the Deputy General Manager Grade.

Figure – 44

# Segregation of roles of Chairman and Chief Executive Officer

### (Principles A.2 and A.3)

The positions of the Chairman and the Chief Executive Officer (CEO) who is also the Managing Director are separated, to facilitate the balance of power and authority, and to adhere to the CSE Listing Rules on Corporate Governance. The Chairman is a NEID while the CEO is an ED appointed by the Board. Their respective roles are clearly set out in an approved Board paper and the Board Charter of the Bank.

Accordingly, as set out in the said Board paper and the Board Charter, a clear and effective separation of accountability and responsibility has made the role of the Chairman distinctive. By providing leadership to the Board, preserving order, and facilitating the effective discharge of its duties, the Chairman promotes good corporate governance and the highest standards of integrity, and probity throughout the Group. He ensures that the Board receives all information necessary for making informed decisions in discharging its responsibilities. The Chairman also ensures that a balance of power is maintained between executive and non-executive Directors and the Board is in full control of the Bank's affairs and is alert to its obligations to all stakeholders. Furthermore, he also ensures the effective participation of all Directors in Board deliberations by both EDs and NEDs and maintains open lines of communication with members of the Corporate Management, providing an effective platform for deliberating strategic and operational matters.

On the other hand, the role of the MD/ CEO, as set out in the Board Charter, is to conduct the management functions as directed by the Board. The corporate objectives and the boundaries of his authority as the MD/CEO are set by the Board, while his duties and responsibilities are jointly developed.

The MD/CEO leads the Management team in the day-to-day operations and ensures the implementation of strategies, plans, and budgets approved by the Board. He also conducts the affairs of the Group, upholding good corporate governance, and the highest standards of integrity and probity as established by the Board.

While they have separate functions, the Chairman and the MD/CEO meet regularly to set the Board agenda, deliberate on current and future developments, and discuss any material issues impacting the Bank, thereby working together toward the Bank's overall progress.

## Role of Independent Non-Executive Directors (Principles A.3.1, A.5, and A.5.1)

The Bank has a strong element of independence on the Board, with ten out of the twelve Directors as at December 31, 2023 being independent NEDs. The only connection of the independent Directors with the Bank and with other Companies in the Group is their directorships, thereby ensuring that their judgement is unlikely to be influenced by external considerations. The presence of independent NEDs is expected to complement the skills and experience of the other Board members through the independent NEDs conveying an objective and independent view on matters, using their expertise to challenge the Board and the Management constructively, and by assisting in guiding the strategy.

# Role of the Company Secretary (Principle A.1.4)

The Company Secretary plays a vital role in facilitating good Corporate Governance. His responsibilities encompass activities relating to Board meetings, general meetings, Articles of Association, reports, accounts and documentation, Corporate Governance, and Stock Exchange requirements. Primary responsibilities include:

- Assisting the Chairman in conducting the Board Meetings, AGMs, and EGMs in accordance with the Articles of Association, the Board Charter, and relevant legislation
- Maintaining minutes of meetings and statutory registers, and filing statutory returns on time
- Monitoring all Board Committees to ensure they are properly constituted and have clearly defined Terms of Reference
- Facilitating best practices of Corporate Governance including assisting the Directors with their duties and responsibilities
- Facilitating access to legal and independent professional advice in consultation with the Board, where necessary
- Ensuring the Bank complies with its Articles of Association incorporating the required amendments, following proper procedure
- Coordinating the publication and distribution of the Bank's Annual Reports and Accounts and interim financial statements, and preparing the Directors' Report
- Monitoring and ensuring compliance with Listing Rules including required

disclosure on related parties and related party transactions, and maintaining cordial relationships with the CSE, share, and debenture holders

Communicating promptly with the regulators

The appointment and removal of the Company Secretary are done by the Board.

# Appointments and retirements/ resignations of Directors (Principle A.7)

The appointment of new Directors is based on an annual assessment of the combined knowledge, experience, and diversity of the Board including gender, age and any other factors relevant to the industry, with new Directors chosen on their ability to bring added perspective and ensure the continued effectiveness of the Bank's strategic plans. Accordingly, the nomination of candidates for appointment as Directors takes place under a formal and transparent procedure formulated by the BNGC. The resumés of potential candidates are carefully evaluated by the BNGC prior to them being recommended to the Board for their consideration as NEDs. Such nominations may also include an interview with the candidate. Members of the BNGC do not participate in decision making relating to their own appointment/ reappointment and the Chairman of the Board should not chair the Committee when it is dealing with the appointment of his/her successor.

A similar process is followed when appointing EDs, with the exception of when candidates are selected from the Corporate Management of the Bank. The committee should ensure that there is a succession plan for the CEO and for all KMPs and determine the training and development requirements for those identified for succession.

As required by the Listing Rules, appointments of new Directors to the Board are promptly communicated to the CSE through announcements, subsequent to obtaining approval from the CBSL for their fitness and propriety. The announcements typically include a brief resumé of new Directors, relevant expertise, key appointments, shareholdings, the names of companies in which the new director holds directorships or memberships in board committees and status of independence. In addition, all the staff members of the Bank are informed of any new appointments to/ resignations and retirements from the Board as well as the appointment of Directors to the positions of the Chairman and the Deputy Chairman via internal circulars.

During the year under review, there were two new additions to the Board of Directors and one retirement from the Board, the details of which are given in Figure 41 titled *Composition of the Board and Attendance* on page 183. There were no resignations of Directors during the year ended December 31, 2023.

The required details on retirements of Directors were promptly communicated to the CSE as required by the Listing Rules.

# Re-election/election of Directors (Principle A.8 and A.9.3)

The Articles of Association of the Bank state that the two longest-serving NEDs must offer themselves for re-election at each AGM in rotation, with the period of service being considered from the last date of re-election or appointment. If two or more Directors qualify for re-election in a particular year, the Directors may decide amongst themselves, either by considering the affidavits and declarations submitted by them and all other relevant issues or by drawing lots to determine which Directors will offer themselves for re-election. Accordingly, Mr S Muhseen and Mr R Senanayake, the two longest-serving Directors since their last re-election will be seeking re-election at the forthcoming AGM to be held on March 28, 2024. Having reviewed the participation, contribution and engagement of Mr S Muhseen and Mr R Senanayake and the recommendation made by the Board Nominations and Governance Committee, the Board approved them to seek re-election. In addition to the above, if a Director has been appointed as a result of a casual vacancy that has arisen since the previous AGM, that Director will also offer himself/ herself for election at the immediately succeeding AGM. Accordingly, Mr P M Kumarasinghe who was appointed to the Board in April 2023 to fill a casual vacancy will offer himself for re-election at the forthcoming AGM.

### Induction and training of Directors (Principle A.1.8)

On appointment, Directors are provided with an induction pack that outlines the main areas that require familiarisation. The induction pack includes the Articles of Association, the Banking Act Directions, the Corporate Directors' Handbook published by the Sri Lanka Institute of Directors, the Code of Best Practice on Corporate Governance 2023 issued by CA Sri Lanka, the Bank's organisational structure, copies of the approved Board Charter and the Board Related Party Transactions Policy, and a copy of the most recent Annual Report of the Bank. They are also given access to the electronic support system which has archived minutes of meetings held over the past eleven years. All Directors are encouraged to obtain membership in the Sri Lanka Institute of Directors which conducts useful programmes to support Directors. Furthermore, it is mandatory for Directors to attend Director Forums organised by the CBSL. As additional support, members of the **Corporate Management and external experts** make regular presentations on the business environment in relation to the operations of the Bank, which enables newly appointed Directors to get familiarise themselves with the banking operations.

In addition, the Management makes presentations to the Board on Sustainability related initiatives and developments of the Bank, particularly at the Annual Corporate Plan meeting.

**Remuneration and Benefits Policy** 

The Remuneration and Benefits Policy seeks to provide a distinctive value proposition to current and prospective employees to attract and retain employees with the skills and values that are in line with the business needs of the Bank. The Policy also provides a framework for the Bank to design, administer, and evaluate effective reward programmes, thereby inspiring and motivating desired behaviours, and enabling proper alignment of remuneration with the long-term success of the Bank.

# Directors' and Executive remuneration (Principles A.10, B.1 and B.3)

The Bank has a number of processes in place to ensure that no individual Director is involved in determining his or her remuneration but is instead part of a larger deciding process that makes final decisions. Primarily, the BHRRC - which consists entirely of NEDs who also meet the criteria for independence as set out in the relevant regulations on corporate governance is responsible for making recommendations to the Board regarding the remuneration of the Directors and executives. The BHRRC in consultation with the MD/CEO and after obtaining professional advice, where necessary, makes such recommendations. Remuneration for Directors and executives is further set out with reference to the Remuneration and Benefit Policy of the Bank. The remuneration for NEDs is set by the Board as a whole. In order to provide fair judgements when discharging their duties on remuneration, the Board and the BHRRC engage the services of HR professionals on a regular basis as well.

The aggregate remuneration paid to EDs and NEDs is given on Note 62.2.1 to the Financial Statements on page 384 and the number and aggregate remuneration of the senior management personnel reporting directly to the MD/CEO including that of the MD/CEO ('the Corporate Management') is given under item B.3.2 in Annex 1.2 on Compliance with Code of Best Practice on Corporate Governance on pages 434 and 438.

### **Remuneration Committee (Principle B.2)**

It is the responsibility of the BHRRC to ensure that the remuneration of both EDs and NEDs is sufficient to attract eminent professionals to the Board and retain them to drive the performance of the Bank. The Bank has remuneration policies that are attractive, motivating, and capable of retaining highperforming, qualified, and experienced employees.

With the assistance of professionals, the BHRRC structures the remuneration packages and benchmarks them with the market on a regular basis to ensure that total remuneration levels remain competitive to attract and retain key talent whilst balancing the interests of the shareholders. The total remuneration of EDs and other members of the Corporate Management includes three components –guaranteed remuneration (the fixed component), annual performance bonus (a variable component), and the ESOP (a variable component). Special emphasis is paid to making the basis of granting ESOPs and their features transparent, prior to seeking approval from the shareholders.

As elaborated under Principles A.9 and A.11 below, the Committee reviews annually the performance of the CEO and EDs against the set targets and goals, which have been approved by the Board, and recommend the basis for revising the remuneration, benefits and other payments of performance based incentives.

Guaranteed remuneration comprises the monthly salary and allowances determined with due reference to the qualifications, experience, levels of competencies, skills, roles, and responsibilities of each employee. These are reviewed annually and adjusted for factors such as promotions, performance, and inflation. The annual performance bonus is based on the degree of achievement on a multi-layered performance criteria matrix which is clearly communicated to the relevant category of employees at the beginning of each year. The Bank maintains a regular dialogue and consults when necessary its two employee associations - the Association of Commercial Bank Executives and the Ceylon Bank Employees' Union (CBEU). In early January 2024, the Bank signed the Collective Agreement with the CBEU covering a three-year period from 2024-2026, after extensive but very cordial deliberations.

With a view to motivate employees to commit to long-term value creation, improve overall performance, and increase staff retention while raising equity funding, the Bank has structured many Employee Share Option Plans (ESOPs) since 1997. This entitles the eligible employees to buy a fixed number of shares at a price to be determined based on the pre-agreed formula over the vesting period. The Bank has duly obtained the approval of shareholders for all these ESOPs at Extraordinary General Meetings. The EDs, being employees of the Bank, are also eligible for these ESOPs. Approval for the ESOP vested during the year was obtained from the Board after obtaining a recommendation for the same from the BAC.

Details of the ESOPs and the eligibility criteria are given in Note 52 to the Financial Statements on "Share-based Payment" on pages 371 and 372.

While employment contracts do not contain any commitments for compensation or early terminations, there were no instances of early termination during the year that required compensation.

# Board and Board Committee evaluations (Principle A.9)

As set out in the Direction, the Code, and the other applicable regulations, the Board and the Board Committees annually appraise their own performance as well as the Board and the Committees as a whole to ensure that they are discharging their responsibilities satisfactorily in accordance with the Board Charter. This process requires each Director to fill out Board / Board Committee Performance Evaluation Forms incorporating relevant criteria specified in the Board Performance Evaluation Checklist of the Code. The responses are then collated by the Company Secretary and submitted to the BNGC for consideration. These are subsequently discussed at a Board meeting. Further, NEDs evaluate and approve the performance of EDs as recommended by the BHRRC. Board evaluations for 2022 and 2023 were taken up at the Board Meetings held in February 2023 and February 2024, respectively.

Evaluation of the NEDs to be carried out individually by the EDs and the Chairman and evaluation of EDs should be carried out individually by the Chairman and NEDs will be formalised in 2024.

The BHRRC carries out a 360° appraisal of the EDs and other Key Management Personnel annually. The collective outcome is compiled and made available to the Board, which considers the results of the evaluation and makes recommendation on initiatives and actions required to improve the balance of skills, experience, independence, industry and company knowledge, training of Directors, governance processes, strategy review and other factors relevant to its effectiveness.

# Appraisal of the Chief Executive Officer (Principle A.11)

With the assistance of the BHRRC, the Board assesses the performance of the Chief Executive Officer annually. This assessment is based on criteria agreed upon at the beginning of each year and consists of short, medium, and long-term objectives with financial and non-financial targets whilst also considering the changes in the operating environment. The Chairman discusses the evaluation with the Chief Executive Officer and provides him with formal feedback. The Chief Executive Officer's responses to the appraisal are given due consideration prior to it being approved. This exercise is finalised within three months from the financial year end.

## Shareholder engagement and voting (Principles C.1, C.2, E, and F)

The Bank actively engages with shareholders and potential investors as an aspect of good corporate governance and has established a structured process to facilitate the same. The Board-approved Shareholder Communication Policy is in place to ensure effective and timely communication of material matters to shareholders. The Bank maintains several communication channels with the shareholders which include the Annual Report, AGMs and EGMs, Interim Financial Statements, announcements to the CSE, press releases, the Bank's website, shareholder surveys on a need basis, and the investor feedback form given in the Annual Report (D Refer Table 03 on pages 40 and 41 on "How we connect with our stakeholders" for more details in this regard).

During the year, shareholders were notified – either through announcements made to the CSE or via media – about the following;

- Dividend declaration for 2022
- Annual financial statements for 2022
- Interim financial statements for 2023
- Disclosure on Fitch Ratings Preview
- Appointments and retirements of Directors
- The listing of shares issued as a part of the final dividend for 2022
- Date of the Annual General Meeting 2024
- Dealings in shares of the Bank by Directors and related entities
- Basel III compliant convertible debenture issue
- The Extraordinary General Meeting for the Basel III compliant convertible debenture issue and the ESOP 2023
- The Corporate Disclosure made on the mutually beneficial referral partnership entered into with AIA Insurance Lanka Limited.

The Bank's website was updated with new value-added features during the year and has a dedicated page for investors, 'Investor Relations' for investors which include interim financial statements and annual reports. The Bank's Annual Report is offered in both PDF and interactive formats, providing readers with a choice for viewing. The interactive report also features a tab for investor feedback. The Board is fully committed to treating all shareholders equitably while recognising, protecting, and facilitating their rights through open communication. The Bank arranged to publish the interim and annual financial statements in the newspapers in all three mediums within statutory deadlines as per the Directions issued by the CBSL, and also submitted interim and annual financial statements to the CSE within the stipulated timeframes in terms of the Listing Rule No. 7.4 of the CSE. In addition, the Bank issues commentaries on the interim financial statements in the form of press releases to the media.

The Bank always encourages shareholders to participate in the AGMs and the EGMs and exercise their votes. To this end, the Bank circulates clear instructions on procedures governing voting along with every notice of AGMs/EGMs. Shareholders play a key role in the re-election of Directors and the External Auditor, and vote on all matters for which notice is given including the adoption of the annual report and accounts. A total of 177 Voting and 79 Non-Voting shareholders participated in the Fifty-fourth AGM held on March 30, 2023, while further 124 Voting shareholders and 33 Non-Voting shareholders exercised their right to vote through proxy.

Shareholder approval was received at an EGM held on October 06, 2023, conducted with the physical attendance of shareholders for issuing Basel III compliant convertible debentures for augmenting Tier II capital and to support future lending growth of the Bank, raising Rs. 12.000 Bn. in Tier II capital and ESOP 2023. A total of 200 Voting and 74 Non-Voting shareholders (including proxies) representing 80% of the Voting-Shares and 7.14% of the Non-Voting Shares participated in the above EGM.

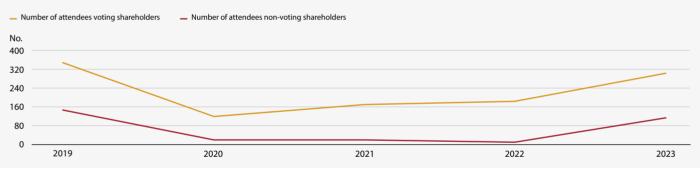

A tabulation of the details of shareholder attendance at AGMs during the past five years is given below:

Table – 44

### Attendance at AGMs - 2019 to 2023

Í (		Voting shareholders		Ν	lon-voting shareholders	
Year of the AGM	Number of Attendees	Shareholding	% of total shareholding	Number of Attendees	Shareholding	% of total shareholding
2023	301	943,963,856	80.87	112	10,962,985	15.11
2022	183	795,203,283	72.33	9	4,197,212	6.17
2021	169	795,052,531	72.32	19	4,326,942	6.36
2020	119	672,118,061	69.92	19	3,132,256	4.72
2019	346	703,703,954	73.21	145	12,048,304	18.18

### Graph – 47: Attendance at AGMs

# **Code of Business Conduct and Ethics (Principle D.6)**

The Bank has a Code of Ethics for all employees including the KMPs. The Code of Ethics together with several other Board approved policies address the topics referred to under Principles D.6.1 to D.6.6 as summarised below. The Bank will expand the application of Code of Ethics to include the Board of Directors in 2024.

Principle D.6.1	
Торіс	Key policies, documents and guidelines
Conflict of interest	Code of Ethics
	Related Party Transactions Policy
Bribery and corruption	Anti-Bribery and Anti-Corruption Policy
	AML/CFT Policy
Entertainment and gifts	Gift Policy
	Code of Ethics
Accurate accounting and record-keeping	Financial Statement closure process
	Operational Procedure Manual for the Finance Division
	<ul> <li>Accounts Reconciliation Process and Monitoring of Suspense Accounts of the Bank</li> </ul>
	Financial and Risk Management Disclosure Policy
Fair and transparent procurement policies	Procurement policy
	Expenditure approval guidelines
	Sponsorship Guidelines
Corporate opportunities	Code of Ethics
	HR Policies
Confidentiality	Information Classification Policy
	Data Governance Policy
Fair dealing	Group Conduct Risk Management Policy
Protection and proper use of company assets	Information Security Policy
including information assets	Risk Management Policies
Sexual harassment, discrimination and abuse	Code of Ethics
	HR Policies
Compliance with laws, rules and regulations (including insider trading laws)	Group Compliance Policy
Encouraging the reporting of any illegal, fraudulent or unethical behaviour	Whistleblowers' Charter

# Principle D.6.2

Process is in place to identify and report material and price sensitive information.

## Principle D.6.3

Process is in place to monitor and disclose shares purchased by any Director, KMP or by an employee in the grade of Assistant Manager and above

# Principle D.6.4

Whistleblower's charter (III) Refer page 193)

# Principle D.6.5

Conduct training on Code of Ethics as part of induction and training of new employees

# Principle D.6.6

Process is in place to disseminate policies and conduct training via the Bank's intranet and the e-learning module

# Anti-Bribery and Anti-Corruption (Principle D.6.1)

The Bank reviewed and updated the Board-approved Anti-Bribery and Anti-Corruption Policy during the year, which sets out principles for countering bribery and corruption in the Bank. The principles also set out the management of bribery and corruption risk by requiring the Bank, Bank personnel, and defined third parties to commit to countering bribery and corruption in all forms in relation to transactions routed through or involving the Bank.

The Bank has zero tolerance for any form of bribery and corruption and will treat potential instances of bribery or corrupt behaviour as a threat to its integrity and reputation as a business. The Bank developed the Policy in accordance with these commitments as well as in adherence to the applicable laws and regulations to promote a culture of compliance. As set out in this Policy, all employees are responsible for the prevention and mitigation of bribery and corruption within their own roles and responsibilities.

In addition, every single employee of the Bank has been issued with a Code of Ethics containing guidelines that encompass a wide range of aspects, which, inter-alia, include the prevention of insider dealing in securities, outlines the internal rules on the purchase/ sale of the Bank's shares, notes down the Gift Policy, highlights how to manage conflicts of interest, provides information on combating financial crimes, and discusses the importance of respecting communities and the environment etc.

The Bank's Anti-bribery and Anticorruption Policy was reviewed and updated during the year under review to include the fact that "The Bank categorically prohibits the use of Bank funds for the purpose of making or facilitating any political contribution". Accordingly, the Bank explicitly prohibits any form of political contributions.

A detailed discussion is given in the Section on "Sustainable Banking" on page 17.

# Group Conduct Risk Management Policy Framework (Principle D.6.1)

The Group Conduct Risk Management Policy Framework which was adopted in 2022 was reviewed and updated with a view to further strengthen risk management and corporate governance by ensuring that the Bank does not engage in any action that harms customers, negatively impacts market stability, and prevents effective competition. It is expected to establish a risk culture that not only addresses the risk of misconduct but also highlights clear accountability of actions through a preventive approach, by ensuring proper customer onboarding practices and transparency in fees and charges, and avoiding fraudulent activities, insider trading, improper financial advice to customers, mis-selling of financial products, tax avoidance, collusion with financial markets, and inaccurate financial and regulatory disclosures.

### Whistleblowing (Principle D.6.4)

The Bank has adopted a Whistleblowers' Charter to deter, detect, and address any genuine concerns of malpractices and unethical behaviour, with the Compliance Officer being appointed to manage the Bank's whistleblowing processes.

In addition, measures have been put in place to protect whistleblowers who act in good faith in the interest of the Bank. The Bank undertakes to maintain the utmost confidentiality of the staff who raise concerns or make serious specific allegations of malpractice or unethical behaviour. In this way, the Bank aims to promote a healthy workplace that practices good governance from the lowest to the highest tiers.

# Internet of things and cyber security (Principle G)

The Bank holds certifications in Information Security Management Systems (ISMS) and Payment Card Industry Data Security Standard (PCI DSS), ensuring the confidentiality, integrity, and availability of data. Led by a Chief Information Security Officer (CISO), the Information Security Council oversees security measures, reporting to the BIRMC.

An Information Security Policy (ISP) aligned with ISO/IEC 27001 sets security standards for employees, partners, and external parties, covering various domains. Multiple layers of security controls are implemented, including Security Information and Event Management (SIEM) systems to detect cyber threats.

The Bank conducts an information security awareness program for all staff, utilising classroom sessions, digital platforms, and simulations. Information Security Risk Assessments and technical security assessments are carried out periodically to mitigate cyber risks.

Internal audits, along with external validations by ISO 27001 auditors and Qualified Security Assessors, ensure compliance with security standards. The Information Security Council and Risk Management Committee receive regular updates on the performance of the ISMS, incidents, audits, and cybersecurity projects. Further discussions on cyber risk management occur during Board meetings.

Description Refer reports of the BIRMC, BTC and BAC on pages 199 and 200, 211 and 212 and 195 to 198 for further information.

### Data Security and Privacy

With the enactment of the Personal Data Protection Act No. 09 of 2022, the regulatory landscape concerning data protection formally came into operation, necessitating strict adherence to new reporting requirements. Under this legislation, any data breaches must be promptly reported to the Data Protection Authority, with guidelines for such reporting expected to be issued by the authority. Despite these regulatory shifts, it is noteworthy that during the period under review, no data breaches were reported relating to account holders, reflecting the Bank's robust data security measures and proactive approach to safeguarding customer information.

In response to the evolving regulatory environment and the heightened importance of data governance, the Board of Directors approved a comprehensive Data Governance Policy in March 2023. This Policy outlines the Bank's commitment to ensuring the responsible and ethical handling of data across all operations. Additionally, during the same period, the Bank issued a Data Processing Procedure, further strengthening its data management framework. These policies and procedures serve as guiding principles for all staff members involved in data processing activities, outlining clear protocols and standards to uphold. Notably, any data processing requests are subject to rigorous review and approval by the designated Data Protection Officer, ensuring adherence to regulatory requirements and best practices in data management.

# Sustainability: ESG Risks and Opportunities (Principle H)

The Bank acknowledges that integrating ESG considerations into its strategy and operations not only aligns the Bank with global sustainability goals but also presents opportunities for innovation, risk mitigation, and long-term value creation. Accordingly, by integrating ESG principles into its decisionmaking processes, the Bank aims to both mitigate risks and capitalise on opportunities stemming from environmental, social, and governance factors while ensuring compliance with relevant regulations and adapting to evolving stakeholder needs. Utilising internationally recognised frameworks like the Global Reporting Initiative (GRI) standards and International <IR> Framework, the Bank measures and discloses its sustainability performance, fostering transparency and accountability in its pursuit of long-term stakeholder value.

Overall, the Bank's approach to managing ESG risks involves proactive risk management, due diligence, and adherence to responsible lending practices, as well as efforts to minimise its own environmental impact.

Some of the specific initiatives include;

- Adoption of a Sustainability Framework and the establishment of an Executive Sustainability Committee, along with regular risk assessments, to identify and address ESG-related risks
- Implementation of a Social and Environmental Management System (SEMS) based on the International Finance Corporation (IFC) Performance Standards, which includes policies, procedures, and assessment tools for managing and appraising social and environmental risks.
- Conducting social and environmental due diligence exercises as required and proposes corrective actions for identified significant social and environmental risks. It assesses the social and environmental impacts of its lending activities, including factors such as environmental pollution, hazards to human health and safety, impacts on communities, and threats to biodiversity and cultural heritage.
- Reviewing the social and environmental impacts of its supply chains through supplier selection and evaluation processes. It also assesses the materiality of economic, environmental, social, human rights and product responsibility aspects to its operations and relevant stakeholders.
- Presence of a credit policy and lending guidelines that articulate the Bank's commitment to being a responsible lender by minimising transactions and activities that negatively impact the environment.
- Striving to minimise its own environmental footprint by adopting green processes, moving to green buildings and generating solar energy for its operations.

At the same time, the Bank leverages ESG opportunities by actively incorporating environmental, social, and governance factors into its business strategies and operations. This includes:

- Green Financing: The Bank promotes and provides financial support for sustainable projects and initiatives, such as renewable energy projects, energy-efficient buildings, and environmentally-friendly technologies. By offering green loans and leases, the Bank encourages clients to adopt sustainable practices.
- Supplier Evaluation: The Bank reviews the social and environmental impacts of its supply chains through supplier selection and evaluation processes. By working with responsible suppliers, the Bank aims to reduce its indirect environmental and social footprint.
- Staff Training and Engagement: The Bank provides training and awareness programs for its staff to enhance their understanding of sustainable finance and ESG principles. This helps to foster a culture of sustainability within the organisation and ensures that employees are equipped to identify and seize ESG opportunities.
- Collaboration and Partnerships: The Bank actively participates in international collaborations, platforms, and partnerships to learn from global best practices and share knowledge on sustainable finance. This enables the Bank to leverage international resources and funding for ESG initiatives.

# **Board Committee reports** Report of the Board Audit Committee

The Committee sought and obtained the required assurances from Business Units on the remedial action in respect of the identified risks to maintain the effectiveness of internal control procedures.

The Committee is empowered by the Board to:

- Ensure that financial reporting systems in place are effective and well managed in order to provide accurate, appropriate and timely information to the Board, Regulatory Authorities, the Management and other stakeholders.
- Review the appropriateness of accounting policies and ensure adherence to statutory and regulatory compliance requirements and applicable accounting standards.
- Ensure that the Bank adopts and adheres to high standards of corporate governance practices, conforming to the highest ethical standards and good industry practices in the best interest of all stakeholders.
- Evaluate the adequacy, efficiency, and effectiveness of risk management measures, internal controls including information systems controls and governance processes in place to avoid, mitigate, or transfer current and evolving risks.
- Monitor all aspects of Inspections, Information Systems Audit and external audit programme of the Bank and review internal and external audit reports for follow up with the Management on responses to their findings and recommendations.
- Review the Interim and Annual Financial Statements of the Bank in order to monitor the integrity of such Statements prepared for disclosure, prior to submission to the Board.

## **Composition of the Committee** The composition of the Board Audit Committee (the BAC) during the year under review is given below. Profiles of the members as at December 31, 2023 are given on pages 162 to 167.

# **Board members and attendance**

	/Eligible to attend attended

# Charter of the Committee

The Board approved Charter of the BAC (the Committee) clearly defines the Terms of Reference of the Committee. It is annually reviewed to ensure that new developments relating to the Committee's functions are addressed. The revised CSE rules on Corporate Governance that became effective from October 01, 2023, except to the extent stipulated, were taken into consideration when the Charter of the Committee was last reviewed and approval of the Board was obtained in November 2023.

The Committee assists the Board in discharging its responsibilities and exercises oversight over financial reporting, internal controls and internal/external audits.

The Committee has full access to information, cooperation from Management and discretion to invite any Director or Executive Officer to attend its meetings.

The Banking Act Direction No. 11 of 2007 on "Corporate Governance for Licensed Commercial Banks in Sri Lanka" and its subsequent amendments (hereinafter referred to as the Direction), the Companies Act, the Securities and Exchange Commission Act (SEC), the Listing Rules of the Colombo Stock Exchange and the "Code of Best Practice on Corporate Governance", issued by The Institute of Chartered Accountants of Sri Lanka (ICASL) further regulate the composition, role and functions of the Committee.

## Activities in 2023

The Committee held nine (09) meetings during the financial year ended December 31, 2023. Proceedings of these meetings with adequate details of matters discussed were regularly reported to the Board.

Representatives of the Bank's External Auditors, Messrs Ernst & Young too participated in all nine (09) meetings during the year. The Committee also invited members of the Senior Management of the Bank to participate in the meetings from time to time on a needs basis.

# Reporting of financial position and performance:

The Committee;

- Assisted the Board in its oversight on the preparation of Financial Statements to evidence a true and fair view on financial position and performance. This process is based on the Bank's accounting records and in accordance with the stipulated requirements of the Sri Lanka Accounting Standards. In fulfilling its oversight responsibilities, the Committee reviewed and deliberated on the Interim and Annual Financial Statements of the Bank and the Group, including the acceptability of the accounting principles and the reasonableness of significant estimates and judgement.
- Reviewed the accounting treatment, adequacy of the impairment provision and subsequent measurement of the Sri Lanka Treasury Bonds received in lieu of SLDBs under the Domestic Debt Optimisation programme announced by the Government of Sri Lanka during the year. The Committee also paid close attention to the adequacy of impairment provisioning for SLSBs and Loans and Advances.
- Reviewed and assessed the Bank's ability to continue as a Going Concern and the adequacy of its resources to be in business for the foreseeable future.
- Reviewed competitor analysis of Financial Statements of peer banks on a quarterly basis to draw insights on their performance viz a viz the Bank to recommend any improvements that can be institutionalised.
- Engaged the services of a Consultant to assist it in carrying out its oversight activities and evaluated his performance annually.

- Reviewed the Tax Assessments outstanding and action initiated for follow up for resolution through regular reports submitted by the Chief Financial Officer.
- Assessed the prevailing internal controls including information systems controls, procedures and expressed the view that adequate controls and procedures were in place to provide reasonable assurance to the effect that the Bank's assets including the information assets are safeguarded and the financial position of the Bank is well monitored and accurately reported.

# Internal Capital Adequacy Assessment Process (ICAAP):

The Committee reviewed the effectiveness of the internal control mechanism in place to meet the regulatory requirements on ICAAP and the mechanism in place to ensure integrity, accuracy, and reasonableness in capital assessment process of the Bank for the year 2023, as per the Section 10 (in Pillar II – Supervisory Review Process) of the Banking Act Direction No. 01 of 2016 on "Regulatory Framework on Supervisory Review Process".

### **Oversight on regulatory compliance:**

The Committee also ensured that the Bank complies with all regulatory and legal requirements. Closely scrutinised compliance with mandatory banking including other statutory requirements and the systems and procedures that are in place. The quarterly reports submitted by the Assistant General Manager - Compliance were used by the Committee to monitor compliance with all such legal and statutory requirements. The Bank's Inspection Department has been mandated to conduct independent test checks covering all regulatory compliance requirements, as a further monitoring measure.

The Committee monitored the progress on implementation of the recommendations made in the Statutory Examination Reports of the Central Bank of Sri Lanka (CBSL) through regular follow-up reports tabled during the year 2023.

# Identification of risks and control measures:

The Bank has adopted a risk-based audit approach towards assessing the effectiveness of the internal control procedures in place to identify and manage all significant risks and that these are being reviewed by the Committee.

The Committee sought and obtained the required assurances from Business Units on the remedial action in respect of the identified risks to maintain the effectiveness of internal control procedures.

The Committee has approved the quarterly reports on Independent Verification of Compliance with the CBSL Direction on "Repurchase and Reverse Repurchase Transactions of DDPs in Scripless Treasury Bonds and Bills".

# The Committee reviewed the following operational procedure of the Finance Department and related internal controls:

- Operational procedure manual for the overall process carried out by the Finance Department and related controls, as per the recommendation in the statutory examination report 2022 of the Central Bank of Sri Lanka (CBSL).
- Procedure manual for the Finance Department to ensure the strength and adequacy of the account reconciliation process and monitoring of the Suspense Accounts of the Bank, as per the recommendation in the statutory examination report 2022 of the CBSL.

### Revised Whistleblowers' Charter – 2023

As per the recommendation of the CBSL, the Board Audit Committee (BAC) recommended the revised Whistleblowers' Charter for Board approval. BAC ensured that proper arrangements are in place within the whistleblowing process for fair and independent investigations and for appropriate follow-up actions.

# Policy on non-audit services provided by the External Auditors of the Bank

The Committee reviewed the Policy on Non-Audit Services provided by the External Auditors of the Bank which was formulated as per the recommendations in the Statutory Examination Report of the CBSL.

### Internal audit and inspection:

The Committee;

- Ensured that the internal audit function is independent of the activities it audited and that it was performed with impartiality, proficiency, and due professional care.
- Approved the Inspection/IS Audit Programme for the year 2023 formulated by the Inspection Department and the Information Systems Audit Unit (ISAU). The type and frequency of audits of Business Units are determined based on a risk assessment that provides a systematic approach to prioritise them. The progress and scope of Inspections/IS Audits were dynamically reviewed to ensure that appropriate corrective actions have been taken to manage risks.

Bank's Inspection Department carried out onsite and online inspection of Business Units including four (4) subsidiaries in Sri Lanka and operations in Bangladesh. Overseas subsidiaries namely Commercial Bank of Maldives Private Limited and CBC Myanmar Microfinance Co. Ltd. were monitored through an on-site/off-site surveillance. With the concurrence of the Board, the Bank continued to engage the services of four (4) firms of Chartered Accountants approved by the CBSL in order to supplement the Bank's Inspection Department in carrying out inspection assignments.

A total of 925 inspection reports of Business Units including the integrated reports of subsidiaries and overseas operations received the attention of the Committee which highlighted the operational deficiencies, risks and recommendations. The Committee evaluated the Bank's system of internal controls and duly reported its findings to the Board.

Major findings of internal investigations with recommendations of the Management were considered and appropriate instructions issued.

- Invited representatives from the audit firms assisting in inspections to make presentations to the Committee on their observations and findings.
- Reviewed findings and recommendations of the ISAU following the conduct of on-site/ off-site audits covering local operations, overseas operations and subsidiaries (Bank and Group), reviews of systems change management activities under the agile approach and verification of compliance with industry standards such as ISO 27001:2013, PCI-DSS, Baseline

Security Standards (BSS), SWIFT CSP to ensure safeguarding of IT assets of the Bank and Group. The Committee ensured that ISAU makes optimal use of Computer Aided Audit Tools and Techniques (CAATTs) and Data Analytic Tools in conducting above assignments. Attention of the Committee was also drawn to contributions made by the ISAU on special assignments such as Bank wide major Hardware/Software upgrades, implementation of ISO 27001:2013 standard for information security, etc.

- Paid attention to significant findings and recommendations relating to key IT Projects including the version upgrade of Core Banking System, Oracle Asset Management System, Server migration of EPT system etc., and also on capitalising of costs associated with internally developed IT applications, establishment of Escrow Arrangements on the critical software used in the Bank.
- Deliberated on ISAU reports relating to monitoring over critical systems/ applications, IT Governance, Cyber Security, Cloud Security, Remote Access Controls, Network Security, API Security, Physical and Logical Access Management, Data Loss Prevention Controls, Endpoint Security, Privileged Access Management, Third Party Service Management, Robotic Process Automation, outdated operating systems and Vulnerability Assessment and Penetration Testing (VA/PT) Process aligning with the Audit Plan.
- Also emphasised on adoption of CBSL Regulatory Framework on Technological Risk Management and Resilience and Data Protection Law by the Bank and observed action being initiated for further strengthening of Information Security.
- Reviewed the controls implemented in OneSumX software solution that was used for Expected Credit Loss (ECL) computation, a transition from the manual to automated computation. Also, provided direction to ensure having a systematic approach to transmit data between core banking and auxiliary systems followed by audit trails and reconciliation processes.
- Reviewed the reports on findings relating to Business Continuity Planning and Disaster Recovery arrangement during the year 2023 including the Role Swap Exercise carried out.

- Reviewed the Internal Audit report on the independent assessment of the degree of compliance with the Banking Act Direction No. 11 of 2007 issued by the CBSL on Corporate Governance and the Code of Best Practice on Corporate Governance issued by the ICASL.
- Reviewed the adequacy and integrity of the Bank's Management Information System (MIS) through internal audit reports to ascertain whether information presented to the Board is "fit for purpose".
- Discussed and noted the contents stated in the Positive Assurance Statement of Risk Management measures tabled by the Chief Risk Officer (CRO).

The Committee members visited eight branches of the Bank during the year and provided their observations and recommendations to the Board and the Management.

# **External audit:**

The role of the Committee with regard to the external audit function of the Bank included:

- Assisting the Board in engaging External Auditors for audit services, in compliance with the provisions of the Direction and agreeing on their remuneration with the approval of the shareholders.
- Monitoring and evaluating the independence, objectivity, and effectiveness of the External Auditor.
- Reviewing non-audit services provided by the Auditors, with a view to ensuring that such functions do not fall within the restricted services and provision of such services will not impair the External Auditor's independence and objectivity.
- Discussing the audit plan, scope and the methodology proposed to be adopted in conducting the audit with the Auditors, prior to commencement of the annual audit.
- Discussing all relevant matters arising from the interim and final audits, and any matters the Auditor may wish to discuss, including matters that may need to be discussed in the absence of Key Management Personnel.
- Reviewing the External Auditor's Management Letter and the periodic progress reports with the Management responses thereto.

The Auditors were provided with the opportunity of meeting Non-Executive Directors of the Committee separately, without any Executive Directors being present, to ensure that the Auditors had the opportunity to discuss and express their opinions openly on any matter. It provided the assurance to the Committee that the Management has provided all information and explanations requested by the Auditors, that the Management has not imposed any restrictions on their scope of work and that there had not been any disagreements between the Auditor and the Management.

The Committee reviewed the Auditors' Declaration with regard to their relationships with or interest in the Bank or its subsidiaries, which may reasonably be expected to have a bearing on their independence within the meaning of the Code of Conduct and Ethics of the Institute of Chartered Accountants of Sri Lanka as applicable. The Committee also reviewed the audit fees and expenses for other services paid and payable to them.

At the conclusion of the audit for the year ended December 31, 2022, the Committee met the Auditors to review their Management Letter before it was submitted to the Board and the CBSL.

The Committee discussed the Audit Plan and the scope of the work proposed to be carried out in connection with the audit for the year ended December 31, 2023 to ensure that audit plan is aligned with the expectations of the Bank prior to commencement of the audit.

The members of the Committee evaluated the Bank's External Auditor, Messrs Ernst & Young covering key areas such as scope and delivery of audit, resources and quality assurance initiatives, during the year 2023.

### **Mechanism of internal controls:**

Sections 3 (8) (ii) (b) and (c) of the Banking Act Direction No. 11 of 2007 stipulate the requirements to be complied with by the Bank to ensure reliability of the financial reporting system in place at the Bank. The Committee is assisted by the External Auditor and the Inspection Department to closely monitor the procedures designed to maintain an effective internal control mechanism to provide reasonable assurance that this requirement is being complied with.

In addition, the Committee regularly monitored all exceptional items charged to the Income Statement, long outstanding items/balances in the Bank's chart of accounts, credit quality, risk management procedures and adherence to classification of non-performing loans and provisioning requirements specified by the CBSL. The Committee also reviewed the credit monitoring and follow-up procedures and the internal control procedures in place to ensure that necessary controls and mitigating measures are available in respect of newly identified risks.

The Committee reviewed and approved the Directors' Statement on Internal Controls over Financial Reporting for disclosure in the Annual Report.

### **Governance, Conduct and Ethics:**

Through a review of regulatory, external audit, compliance, risk and internal audit reports, the Committee ensured that Management's role over the first and second lines of defence is clearly defined and segregated to fortify good governance. The Committee strongly advocated and strengthened the Internal audit and the Chief Internal Auditor is independent from the management in their reporting lines, also has no management operational decisionmaking responsibilities, which provides an additional degree of independence and governance.

The Committee continuously emphasised on upholding ethical values of the staff members. In this regard, the Bank has a Code of Ethics, a Whistleblowers' Charter and an Anti-Bribery and Anti-Corruption Policy in place, which ensure and encourage all staff members to be ethical, transparent and accountable and resort to whistleblowing if they suspect any wrongdoings or other improprieties. Highest standards of corporate governance and adherence to the Bank's Code of Ethics were ensured. All appropriate procedures were in place to conduct independent investigations into incidents reported through whistleblowing or identified through other means.

### **Evaluation of the Committee:**

An independent evaluation of the effectiveness of the Committee was carried out by the other members of the Board during the year. Considering the overall conduct of the Committee and its contribution to the overall performance of the Bank, the Committee has been rated as highly effective.

**R Senanayake** Chairman Board Audit Committee

### Composition of the Committee The composition of the Board Integrated Pick Management Committee (the

Risk Management Committee (the BIRMC) during the year under review is given below. Profiles of the Members as at December 31, 2023 are given on pages 162 to 167.

# Report of the Board Integrated Risk Management Committee

The Key Risk Indicators (KRIs) designed to monitor the level of specific risks were reviewed regularly, with a view of determining the adequacy of such indicators to serve the intended risk management objectives.

# Charter of the Committee

The BIRMC has been established by the Board of Directors, in compliance with the Section 3(6) of the Direction No. 11 of 2007, on "Corporate Governance for Licensed Commercial Banks in Sri Lanka", issued by the Monetary Board of the CBSL under powers vested in the Monetary Board, in terms of the Banking Act No. 30 of 1988. The composition and the scope of work of the Committee are in line with the same, as set out in the BIRMC Charter which was reviewed during December 2022, clearly setting out; the membership, authority, duties and responsibilities of the BIRMC as described in the "Risk Governance and Management" Section of this Annual Report on pages 232 to 258.

The BIRMC assists the Board of Directors in fulfilling its responsibilities for overseeing the Bank's risk management framework and activities including; the review of major risk exposures and the steps taken to monitor and control those exposures pertaining to the myriad of risks faced by the Bank in its business operations. Duties of the BIRMC include; determining the adequacy and effectiveness of such measures, and ensuring that the actual overall risk profile of the Bank conforms to the desirable risk profile of the Bank, as defined by the Board. Material risk types within specific risks that the Bank may face due to existing risks or forward looking emerging risks that require action to minimise their impacts in future are given special attention.

All key risks such as; Credit, Operational, Market, Liquidity, Information Technology, Strategic, etc. are assessed by the BIRMC regularly through a set of defined risk indicators. The Committee works very closely with the Key Management Personnel and the Board in fulfilling its statutory, fiduciary and regulatory responsibilities for risk management. The risk profile of the Bank is communicated to the Board of Directors periodically through the Risk Assessment report following each BIRMC meeting.

# Activities in 2023

In discharging the above duties and responsibilities vested on the BIRMC, the Committee reviewed significant risks comprising of Credit, Operational, Market, Liquidity, Information Technology, Strategic, and other Emerging risk categories during the year. The activities carried out by the Committee are appended below;

- As was in the year 2022, the main focus area for the year 2023 was on the deteriorated credit quality level of many industries stemming from a weakened operating climate. Affected sectors and the factors that are within the control of the Bank were carefully evaluated in view of keeping credit quality challenges at bay.
- The business strategy of the Bank was reviewed by the Committee with consideration of the changes in the external economic factors of the country. Amid the decline in interest rates, the Committee steered primacies of the business strategy to optimise growth,

profitability and asset quality. Moreover, amidst the slow growth of the loan book during the year 2023, strategic level decisions were taken to improve the net interest income despite the formidable challenges that prevailed on the liquidity front.

- Approval of parameters and limits set by the Management against various categories of risk (upon ascertaining that they are in accordance with the relevant laws and regulations as well as the desired policy levels stipulated by the Board of Directors) were given attention in light of the multiple stressors driving economic uncertainty.
- The Data Governance Policy Framework was implemented to protect the Bank's data assets, ensuring confidentiality, integrity, and availability in accordance with the Personal Data Protection Act 09 of 2022
- Periodic reports from the Management were reviewed on the metrics used to measure, monitor and manage risks, including acceptable and appropriate levels of risk exposures. The reviews covered movements from inherent to residual risk levels which indicate the progress in implementing controls and assessing the effectiveness of measures in addressing the sources of risk.
- Improvements were recommended to the Bank's Risk Management Framework and related policies and procedures as deemed suitable, in consideration of anticipated changes in the economic and business environment, including consideration for emerging risks, legislative or regulatory changes and other factors relevant to the Group's risk profile.
- The Key Risk Indicators (KRIs) designed to monitor the level of specific risks were reviewed regularly, with a view of determining the adequacy of such indicators to serve the intended risk management objectives. Moreover, proactive measures were taken to control risk exposures. The actual results computed monthly were reviewed against each risk indicator and prompt corrective actions were recommended to mitigate the effects of specific risks, in case such risks exceeded the prudent thresholds defined by the Board of Directors.
- Reviewed and revised the Terms of Reference of all Management Committees dealing with specific risks or some aspects of risk such as; the Executive Integrated Risk Management Committee, Executive

Committee on Monitoring NPLs, Credit Policy Committee, Information Security Council, Asset and Liability Committee, etc. for enhanced effectiveness. Actions initiated by the Senior Management were monitored periodically to verify the effectiveness of the measures taken by these respective Committees.

- Operational efficiency, disruptions
  to services that lead to customer
  inconvenience, extended outage of the
  Bank's payment platforms and controls
  available when there is increased uptake
  in digital solutions were deliberated under
  the new normal business environment that
  the Bank is facing in the aftermath
  of the Global Pandemic and other external
  stress drivers.
- The annual work plans, related strategies, policies and frameworks of the above Committees were reviewed to ensure that these Committees have a sound understanding of their mandates and mechanisms to identify, measure, avoid, mitigate, transfer or manage the risks within the qualitative and quantitative parameters set by the BIRMC.
- Reviewed and approved the Internal Capital Adequacy Assessment Process (ICAAP) results related to Commercial Bank Group entities to ensure that the Group maintains an appropriate level and quality of capital in line with the risks inherent in its activities and projected business performance.
- Reviewed, approved and oversaw the Bank's Recovery Plan (RCP) framework whilst ensuring that RCP is subject to comprehensive internal audit. Moreover, the Early Warning Indicators/ Trigger events defined in the RCP paper were periodically monitored in order to assess compliance with; regulatory guidelines and Board approved RCP policy parameters.
- Unusual and unprecedented changes experienced by the Bank arising out of socio-economic and geo-political factors that had given rise to extreme market movements, and their impact on the capital and the Bank's performance were reviewed closely by the BIRMC. Mitigatory measures were deliberated accordingly to reduce the impact.
- Monitored the effectiveness and the independence of the risk management function within the Bank and ensured the adequacy of resources deployed for this purpose.

- Reviewed the effectiveness of the compliance function in order to assess the Bank's compliance with laws, regulations, regulatory guidelines, internal controls and approved policies in all areas of business operation. Increasing regulatory expectations, challenging working conditions and heightened levels of misbehaviour of certain customer segments posed further challenges during the period under review in this front.
- Initiated appropriate action through the Management against failures of the Risk Owners in order to improve the overall effectiveness of the Risk Management of the Bank.
- The risk profiles of the Subsidiaries of the Bank were monitored through periodic review of KRIs and comprehensive annual risk reviews.
- Continually overseeing the Sustainable Banking Initiatives performed by the Bank (through Executive Sustainable Banking Committee) whilst consistently directing the Data Governance Framework of the Bank and periodically evaluating the adequacy of controls deployed with regard to confidentiality, integrity and availability of Data Assets.
- Reviewed the adequacy of the Business Continuity and Disaster Recovery plans of the Bank, in line with the statutory requirements.
- Findings from the bi-annual Risk Control Self-Assessment (RCSA) exercise were reviewed.

During the year under review, the BIRMC held four (04) meetings on quarterly basis and one (01) additional meeting specifically to discuss the Internal Capital Adequacy Assessment process of the Bank.

Proceedings of the Committee meetings which also included activities under its Charter were regularly reported to the Board of Directors.

Ms J Lee Chairperson Board Integrated Risk Management Committee

# Report of the Board Nominations and Governance Committee

**Composition of the Committee** The composition of the Board Nominations and Governance Committee (the BNGC) during the year under review, is given below. Profiles of the members as at December 31, 2023, are given on pages 162 to 167.

Dr S Selliah* Director	04/04
(Appointed as a member w.e.f. June 29, 2022)	

### Attendees by invitation

**Mr S C U Manatunge** Managing Director/ Chief Executive Officer

### Secretary to the Committee

Mr R A P Rajapaksha Company Secretary

\*Independent Non-Executive Director

The Committee recommended the Succession Plan and suitable persons to fill vacancies created in the Board, for approval of the Board.

### **Charter of the Committee**

The Committee shall;

- review the composition of the Board and its Board Committees and make recommendations for approval by the Board of the membership of Board and Board Committees.
- review the leadership needs of the organisation, both executive and nonexecutive with a view to ensuring long term sustainability of the organisation to compete effectively in the market place.
- implement a procedure for the appointment and re-appointment of Directors to the Board taking into account factors such as fitness, propriety including qualifications, competencies, independence and relevant statutory provisions and regulations.
- oversee appointment and composition of the Sharia Supervisory Board (SSB or Sharia Board) of the Islamic Banking Unit (IBU).
- implement a procedure for the selection/ appointment of Managing Director/Chief Executive Officer, Chief Operating Officer and other Key Management Personnel.
- set the criteria such as qualifications, competencies, experience, independence, conflict of interest and other key attributes required for the eligibility to be considered for the appointment or promotion to the position of Managing Director/Chief Executive Officer, Chief Operating Officer and Key Management Personnel.

# Terms of reference of the Committee

To ensure compliance with Rule 9.11 of the recently revised Listing Rules of the Colombo Stock Exchange (CSE) the Bank proceeded to rename the existing Board Nomination Committee as the "Board Nominations and Governance Committee" with effect from December 20, 2023. The Committee was established to ensure Board's oversight and control over selection of Directors, Chief Executive Officer and Key Management Personnel. The Composition and the scope of work of the Committee are in line with the Terms of Reference of the Committee. The Committee has overall responsibility for making recommendations to the Board on all new appointments and for ensuring that the Board and its Committees have the appropriate balance of skills, experience, independence, diversity and knowledge to enable them to discharge their respective duties and responsibilities effectively. Refer "Diversity and inclusion (Principle A.10.1)" in Annual Corporate Governance Report in page 180 on details on diversity of the Board of Directors of the Bank.

The Committee has an overall responsibility to review and recommend the Corporate Governance Framework of the Bank. Refer Annual Corporate Governance Report on pages 177 to 194 for details on extent of compliance with corporate governance requirements stipulated under the applicable laws and regulations.

- prior to any appointment being made to the Board, evaluate the balance of skills, knowledge, experience and diversity on the Board and in the light of this evaluation, prepare a description of the role and capabilities required for a particular appointment.
- consider in respect of the Executive Directors and Key Management Personnel proposals for their appointment or promotion and any proposal for their dismissal or any substantial change in their duties or responsibilities or the terms of their appointment.
- prior to the appointment of a Director ensure that the proposed appointee would disclose any other business interests that may result in a conflict of interest and report any future business interests that could result in a conflict of interest.
- consider and recommend from time to time, the requirements of additional/new expertise for Directors and other Key Management Personnel.
- propose the maximum number of listed Company Board representations which any Director may hold in accordance with relevant statutory provisions and regulations.
- peruse duly completed Affidavits and Declarations of all Directors and Key Management Personnel and recommend same for approval of the Board.
- formulates and regularly review plans for succession for Key Management Personnel, Executive and Non-Executive Directors in the Board and in particular the key roles of Chairman, Chief Executive Officer and Chief Operating Officer, taking into account challenges and opportunities facing the Company and skills needed in the future.
- make recommendations to the Board concerning, suitable candidates for the role of Senior Independent Director in instances where Chairman is not an Independent Director, membership of other Board Committees as appropriate in consultation with the Chairpersons of those Committees and the re-election of Directors at the Annual General Meeting by the Shareholders or the retirement by rotation according to the provisions of the Articles of Association of the Bank.

- review and recommend the overall Corporate Governance framework of the Bank taking into account the Listing Rules of the CSE, other applicable regulatory requirements and industry/international best practices.
- monitor the progress of any relevant Corporate Governance or Regulatory Developments and recommend any actions or changes it considers necessary for Board approval and ensure compliance with existing laws and regulations.
- be authorised to express their independent views when making decisions.
- be authorised by the Board to obtain, at the Bank's expense, outside legal or other professional advice on any matters within its Terms of Reference.
- make recommendations to the Board concerning an indemnity and insurance cover to be taken in respect of all Directors and Key Management Personnel in accordance with the Articles of Association, relevant statutory provisions and regulations.
- invite any member of the Corporate Management, any member of the Bank staff or any external advisers to attend meetings as and when appropriate and necessary.

### Activities in 2023

Four (04) Committee meetings were held during the year under review.

The Committee obtained declarations from all Directors through a prescribed format confirming their status of independence. Affidavits signed by each of the Directors through a prescribed format were obtained with the assistance of the Company Secretary to satisfy an annual requirement imposed under a Direction issued by the Central Bank of Sri Lanka (CBSL) and the originals of same were furnished to the Director of Bank Supervision of CBSL to enable the CBSL to re-assess their fitness and propriety.

As provided for in the Articles of Association of the Bank, the Committee recommended retirement by rotation of two Directors and recommended the election of three Directors who were appointed to fill casual vacancies on the Board during the year 2023.

The Committee identified suitable persons to fill vacancies created in the Board upon the retirement of a Director and after carefully evaluating several candidates, recommended the appointment of Mr D N L Fernando and Mr P M Kumarasinghe, PC as new Non-Executive/Independent Directors to the Board in February and April 2023, respectively. Based on recommendations made by the Committee, the Board approved the appointment of the Assistant General Manager - Treasury. In addition, based on the recommendations of the Committee, the Board also approved the promotion of the Assistant General Manager - Finance to the grade of Deputy General Manager.

The Board approved the Succession Plan in January 2023, as recommended by the Committee.

The Committee continued to work closely with the Board of Directors on matters assigned to it and duties and responsibilities delegated to it in terms of the Committee Terms of Reference and reported back to the Board of Directors with its recommendations.

**Prof A K W Jayawardane** Chairman Board Nominations and Governance Committee

# **Regular attendees by invitation**

Mr S C U Manatunge	06/06
Managing Director/	
Chief Executive Officer	
(Participated in all deliberations except	
those matters impacting his own terms	
and conditions of employment)	

### Secretary to the Committee

**Mr U I S Tillakawardana** Deputy General Manager-Human Resource Management

\*Independent Non-Executive Director

# Report of the Board Human Resources and Remuneration Committee

The Committee reviewed and recommended changes to the Organisational Structure and amendments to the Banking Trainee Scheme, for Board approval.

The Committee is vested with power to evaluate, assess, decide and recommend to the Board of Directors on any matter that may affect the Human Resources Management of the Bank and shall specifically include:

- Determining the compensation of the Chairman, Deputy Chairman, Managing Director and other members of the Board of Directors of the Bank.
- Determining the compensation and benefits of the key management personnel and establishing performance parameters in setting their individual targets.
- Lay down guidelines, policies and parameters for the compensation structures for all executive staff of the Bank and oversee the implementation thereof.
- Review information related to executive pay from time to time to ensure same is in par with the market/industry rates as per the strategy of the Bank.
- Setting goals and targets for the Directors, Managing Director and Key Management Personnel.
- Evaluate the performance of the Managing Director and Key Management Personnel against the pre agreed targets and goals.
- Make recommendations to the Board of Directors from time to time of the additional/new expertise required at the Bank.
- Assess and recommend to the Board of Directors, succession management and issues connected to the Organisational Structure.

- Evaluate and assess and make recommendations and directions pertaining to the Board of Trustees and the management of the private provident fund of the Bank.
- Make recommendations/decisions/ directions pertaining to the statutory payments made by the Bank on behalf of its employees, ensuring the effective fulfillment of all commitments arising as a result of the employer–employee relationship.
- Recommend/decide/direct on disciplinary matters resulting in a significant financial loss to the Bank caused by key management personnel of the Bank.
- Review of the effectiveness of Terms of Reference of the Executive Human Resources Steering Management Committee.

The Chairman of the Committee can convene a special meeting in the event a requirement arises provided all members are given sufficient notice of such special meeting. The quorum for a meeting is three (3) members. Members of the Corporate Management may be invited to participate at the sittings of the Committee meetings as and when required by the Chairman, considering the topics for deliberation at such meeting. The proceedings of the Committee meetings are regularly reported to the Board of Directors.

# **Guiding Principles**

The overall focus of the Committee:

- Setting guidelines and policies to formulate compensation packages, which are attractive, motivating and capable of retaining qualified and experienced employees in the Bank. In this regard, the Committee sets the criteria such as qualifications, experience and the skills and competencies required, to be considered for appointment or promotion to the post of Managing Director and to Key Management Positions.
- Setting guidelines and policies to ensure that the Bank upholds and adheres to the provisions of the Laws of the Lands particularly those provisions of the Banking Act No. 30 of 1988, including the Directions issued by the Monetary Board/Director of Bank Supervision in accordance with the provisions of such Act.
- Providing guidance and policy direction for relevant matters connected to general areas of Human Resources Management of the Bank.
- Ensuring that the performance related element of remuneration is designed and tailored to align employee interests with those of the Bank and its main stakeholders and support sustainable growth.
- Structuring remuneration packages to ensure that a significant portion of the remuneration is linked to performance, to promote a pay for performance culture.
- Promoting a culture of regular performance reviews to enable staff to obtain feedback from their superiors in furtherance of achieving their objectives and development goals.
- Developing a robust pipeline of talent capable and available to fill key positions in the Bank.

# Methodology adopted by the Committee

The Committee recognises rewards as one of the key drivers influencing employee behaviour, thereby impacting business results. Therefore, the reward programmes are designed to attract, retain and motivate employees to perform by linking performance to demonstrable performancebased criteria. In this regard, the Committee evaluates the performance of the Managing Director and Key Management Personnel against the pre-agreed targets and goals that balance short-term and long-term financial and strategic objectives of the Bank. The Bank's variable (bonus) pay plan is determined according to the overall achievements of the Bank and pre-agreed individual targets, which are based on various performance parameters. The level of variable pay is set to ensure that individual rewards reflect the performance of the Bank overall, the particular business unit and individual performance. The Committee makes appropriate adjustments to the bonus pool in the event of over or under achievement against predetermined targets. In this regard, the Committee can seek external independent professional advice on matters falling within its purview.

Further, the Committee may seek external agencies to carry out salary surveys to determine the salaries paid to staff vis-à-vis the market position, enabling the Committee to make informed decisions regarding the salaries and perquisites in the Bank.

### Activities in 2023

The Committee held six (06) meetings during the year under review and the proceedings of the Committee meetings, which also included activities under its Terms of Reference, were regularly reported to the Board of Directors with its comments and observations.

The Committee determined the bonus payable for 2022 performance according to the Variable Pay Plan (VPP) for Executive staff and the grant of annual increments to the Executive staff who are not covered by the Collective Agreement. Performance of the members of the Corporate Management during the financial year 2022, including that of the Managing Director/Chief Executive Officer, and the Chief Operating Officer were reviewed. At the conclusion of the review process for 2022, the Key Performance Areas and the respective KPIs of the Corporate Management members set for 2023 were carefully perused by the Committee and agreed on, subject to changes.

Requests by the Pensioners for a revision of pension was considered and the revisions were recommended for the approval of the Board. Proposal on revising allowances for the staff of Dealing Room of the Treasury Division was submitted to the Committee for consideration. The Committee reviewed the proposal and recommended same for approval of the Board. The Committee considered the recommendation made by the Management to grant a special economic relief allowance for permanent staff members up to the Executive Officer Grade taking into account the prevailing economic situation in the country and recommended same for the approval of the Board. The Proposal on entering into a Collective Agreement with Ceylon Bank Employees' Union (CBEU) for the year 2024 -2026 was submitted to the Committee with proposed salary increments and Committee reviewed the proposal and recommended same for the approval of the Board.

The Board has approved the same and Collective Agreement was signed with Ceylon Bank Employees' Union (CBEU) on January 01, 2024. Renewal of Board Human Resources & Remuneration Charter (BHRRC) was submitted for the review of the Committee and with the recommendation of the Committee, Board approval was obtained.

A proposal for a special relief allowance for the staff in executive grades due to increase in personal income taxes was submitted to the Committee. With the recommendation of the Committee, Board approval was obtained to grant the relief allowance.

The Committee reviewed and recommended amendments to the Banking Trainee Scheme which were subsequently approved by the Board.

A paper was submitted to the Committee to consider the Treasury Division as a Specialised Unit in the HR Policy. On the recommendation of the Committee it was submitted to the approval of the Board of Directors.

A paper was submitted for renaming of Employees Grades. The Committee recommended the paper for the approval of the Board of Directors.

The Committee approved and recommended for Board approval, changes to the Organisational Structure to bring Digital Banking Unit under the purview of Chief Information officer.

**Prof A K W Jayawardane** Chairman Board Human Resources and Remuneration Committee

# **Composition of the Committee**

During the year under review, the **Board Related Party Transactions** Review Committee (the BRPTRC) comprised of the following Independent Non-Executive Directors (in conformity with the requirements of Section D.5 of the Code of Best Practice on Corporate Governance 2023 issued by CA Sri Lanka).

The composition of the BRPTRC during the year under review is given below. Profiles of the members as at December 31, 2023, are indicated on pages 162 to 167.

Mr L W P Indrajith Deputy General Manager-Finance

\*Independent Non-Executive Director

# Report of the Board Related Party Transactions Review Committee

The Committee reviewed and updated the RPT Policy in line with the revised Corporate Governance Requirements including the Rules governing the Related Party Transactions as set out in Section 9 of the Listing Rules issued by the CSE.

# **Charter of the Committee**

Demonstrating its commitment to good governance, the Board of Directors of the Bank (being one of the few listed entities to do so) formed the BRPTRC in 2014 by early adoption of the Code of Best Practice on Related Party Transactions as issued by the Securities and Exchange Commission (SEC) of Sri Lanka which became mandatory for all listed entities from January 01, 2016.

The Committee assists the Board in reviewing all Related Party Transactions (RPT) carried out by the Bank, all its subsidiaries and the associate in the Group to ensure that the interests of shareholders as a whole are taken into account by the Bank when entering into RPT and also to ensure that Directors, Key Management Personnel (KMP) and shareholders with substantial shareholding of the Bank do not secure any undue advantage due to their positions, thereby avoiding any conflicts of interest. The Committee also assists the Board in maintaining transparency in relation to RPT with the required disclosures.

The mandate of the Committee includes inter-alia, the following:

- Developing, updating and recommending a RPT Policy consistent with that proposed by the Section 9 of the Listing Rules on Corporate Governance issued by the Colombo Stock Exchange (CSE), for adoption by the Board of Directors of the Bank and its listed subsidiaries.
- Updating the Board of Directors on the RPT of each of the listed companies of the Group on a quarterly basis.

- Advising the Board in making immediate market disclosures on applicable RPT as required by Section 9.14.7 of the Listing Rules of the CSE.
- Advising the Board in making appropriate disclosures on RPT in the Annual Report as required by Section 9.14.8 of the Listing Rules of the CSE.
- Reviewing and recommending RPTs as per the RPT Policy for the approval of the Board of Directors.

# Methodology Adopted by the Committee

- Reviewing the mechanisms in place to obtain declarations from all Directors (at the time of joining the Board and guarterly thereafter) informing the Company Secretary, the primary contact point for Directors, of any existing or potential RPT carried out by them or their Close Family Members (CFM) and obtaining further declarations in the event of any change during the guarter to the positions previously disclosed.
- Reviewing the mechanisms in place to obtain confirmations on any new appointments accepted by Directors of the Bank in other entities as KMP, informing the Company Secretary to identify and capture transactions carried out by the Bank with such entities, if any, which need to be disclosed under 'Directors' Interest in Contracts with the Bank' as disclosed on page 230 of this Annual Report.

- Reviewing the mechanisms in place to capture and feed relevant information on RPT which also includes information on KMP, CFM and the Bank's subsidiaries and associate into the data collection system and the accuracy of such information.
- Ensuring that a Director who has a material personal interest in matters considered at meetings are abstain while the matter is being discussed at meetings and do not take part in recommending such RPT to the Board of Directors.
- Obtaining an annual declaration from each Director, as required by the CBSL designed to elicit information about any existing or potential RPT.
- Ensuring that annual declarations are submitted by Directors directly to the Bank's External Auditors immediately after the closure of the Financial Year for external audit purposes.
- Obtaining independent validation from the Bank's Internal Audit division for information submitted to the Committee for its review.

Following types of RPT are brought to the attention of the BRPTRC as required by the Sections 3(7)(iv) and (v) of the Banking Act Direction No. 11 of 2007 on Corporate Governance for Licensed Commercial Banks in Sri Lanka issued by the Central Bank of Sri Lanka.

- Any credit facility or any other form of accommodation for Directors or their CFMs as approved by the Board. In the case of facilities granted to the children of Directors, such transactions require approval of the Board only if the children are financially dependent in terms of the Definition given on "Close relation" in Section 86 of the Banking Act No. 30 of 1988.
- Any credit facility or any other form of accommodation for entities in which a Director of the Bank or their CFM holding more than 10% of its paid-up capital as approved by the Board.

# Activities in 2023

During the year, as a part of Bank's practice of review of policies, the RPT Policy was reviewed and updated in December 2023 line with the revised Corporate Governance Requirements including the Rules governing the Related Party Transactions as set out in Section 9 of the Listing Rules issued by the CSE. The amended RPT Policy was approved by the Board of Directors in December 2023 and implemented. Arrangements were also made to disseminate the amended RPT Policy among all relevant stakeholders and obtained their acknowledgements to ensure that they have read and understood the applicable regulatory requirements relating to identifying, capturing and reporting of RPT. In addition, the Terms of Reference of the Committee was also reviewed and revised in December 2023 to capture new developments and was approved by the Board of Directors in December 2023. Further, the Committee deliberated and took several steps to improve the accuracy of the processes involved in submitting the information on RPT which include process of updating the Related Parties in the Core Banking System of the Bank.

The Committee held four (4) meetings during the year under review as required by Section 9.14.4 (1) of the revised Listing Rules. The Committee reviewed all RPT carried out during the year at its quarterly meetings and the proceedings of the Committee meetings, which also included activities under its Terms of Reference, were regularly reported to the Board of Directors with its comments and observations.

**Prof A K W Jayawardane** Chairman Board Related Party Transactions Review Committee

### Secretary to the Committee

Mr R A P Rajapaksha Company Secretary

\*Independent Non-Executive Director

The Committee approved credit proposals above a predetermined limit, recommended credit proposals and other credit reports intended for approval/perusal by the Board of Directors after careful scrutiny.

### Charter of the Committee

The Committee shall assist the Board in effectively fulfilling its responsibilities relating to Credit Direction, Credit Policy and Lending Guidelines of the Bank in order to inculcate healthy lending culture, meeting standards and best practices and ensure relevant rules, regulations and directions issued by the appropriate authorities are complied with.

The Committee is empowered to:

- Review and consider changes proposed by the Management from time to time to the Credit Policy and the Lending Guidelines of the Bank.
- Review the credit risk controls in lending, ensure alignment with the market context and the internal policy of the Bank and the prevailing regulatory framework in order to ensure continuous maintenance and enhancement of the overall quality of the Bank's loan book.
- Evaluate, assess and approve credit proposals which fall within the delegated authority level of the Committee as prescribed by the Board from time to time.
- Evaluate, assess and approve concessions on interest and writing off of bad debts within the delegated authority level of the Committee as prescribed by the Board from time to time.

- Review and recommend credit proposals which fall within the purview of the Board.
- Evaluate and recommend counter party exposures over Rs. 1,000 Mn. sector exposures and cross border exposures to the Board as per the frequencies identified in Risk Management Policy of the Bank.
- Monitor and evaluate special reports called for by the Board.
- Set lending directions based on the current economic climate and risk appetite of the Bank.
- Proactively review, discuss and remedy significantly large lending exposures with increased vulnerabilities.

# Activities in 2023

The Committee held Twelve (12) meetings during the year under review. The proceedings of the Committee meetings were regularly reported to the Board of Directors.

In the face of a challenging environment characterised by the effects of unprecedented macroeconomic challenges within the country and global externalities such as war, political conflict, and the ongoing increase in the cost of living, the Committee strategically sets the Bank's lending directions. It seeks to ensure prudent management of the Bank's credit growth while aiming to maintain and improve credit quality, with a commitment to incorporating sustainable practices that align with environmental and social responsibility.

The Committee approved credit proposals above a predetermined limit, recommended credit proposals and other credit reports intended for approval/perusal by the Board of Directors after careful scrutiny.

These tasks were carried out by the Committee in line with the Bank's lending policies and credit risk appetite to ensure that the lending portfolios were managed in line with the stipulated credit risk parameters set by the Board of Directors while achieving the Bank's lending targets.

**Prof A K W Jayawardane** Chairman Board Credit Committee

# Regular attendees by invitation

Mr K D N Buddhipala Chief Financial Officer Mr S K K Hettihamu Chief Risk Officer Mr S B Pananwala Assistant General Manager -Corporate Banking

### Secretary to the Committee

**Mr A Wijesiriwardane** Deputy General Manager-Treasury

\*Independent Non-Executive Director

The Committee reviewed and recommended strategies to meet the implications of a possible Domestic Debt Optimisation (DDO) plan by the Government and align the Bank's investment portfolios to meet possible adverse outcomes.

### **Charter of the Committee**

BIC is mandated to achieve the Bank's financial goals, whilst maintaining market risk and liquidity risk at desired levels and maintaining a healthy capital buffer at all times. Main focus of the BIC encompasses management of market, liquidity and interest rate risks in the balance sheet whilst focusing on the concentration and reinvestment risks of investment assets and management of the Bank's capital.

The BIC reviews and approves the policies and operating parameters for investment activities, initiates discussions on capital management of the Bank, reviews and recommends significant investment decisions and reviews the performance of investment portfolios.

In addition, the Committee also evaluates the Bank's overall liquidity management operations, treasury investments and borrowing activities, and capital adequacy. The Bank's borrowing proposals are evaluated by the Committee together with the liquidity requirement and deployment, and suitable recommendations are provided.

The Committee also evaluates the impact of possible macroeconomic developments and trends to the profitability, liquidity, balance sheet, and capital through sensitivity and scenario analysis. As part of macroeconomic analysis process the Committee also recommends and sanctions undertaking of relevant research, investment in enhancing and developing research and analytical capabilities and acquisition of required technical and human resources. The Committee continuously benchmarks the performance of the Bank's investment portfolios, returns of the banking book, profitability of its business activities and implied risks factors associated with investment decisions.

# Methodology adopted by the Committee

The Committee meets monthly to discuss, review and action on following key responsibilities.

- Defining the investment objectives and guidelines of the Bank in alignment with the Bank's strategic goals and risk tolerance, taking into consideration the market conditions, regulatory changes and economic trends.
- Overseeing the implementation of the investment objectives in line with the investment related policies of the Bank by defining the asset allocations, investment horizons and potential returns.
- Approving the investment limits to be set for the Executive Investment Committee by setting the performance benchmarks and measurement criteria for different portfolios, liquidity credit and market risk parameters and reporting requirements.
- Making decisions on investments which fall beyond the limits of the Executive Investment Committee by evaluating the potential investment opportunities, risk return profiles of investments with due consideration for profitability and sustainability.

- Providing guidance on the investment activities of the Bank through oversight of the Due Diligence process, documentation, financial modeling and feasibility analysis and legal agreements. The Committee will ensure that the Bank adhere to the market best practices at all times in its investment activities.
- Provide regular updates and recommendations to the Board of Directors of the Bank on the investment opportunities and decisions approved by the Committee, performance review of portfolios, risk management measures and ensure that all Board members are well informed of the Bank's investment activities.

### Activities in 2023

The continuously evolving banking landscape required the Committee to regularly review the Bank's investment activities and financial position. The Committee evaluated and recommended the actions proposed by the Management in areas of investment, risk management and capital mobilisation during the year for the approval of the Board of Directors of the Bank.

Following key areas where the Committee was required to recommend and make decisions can be highlighted.

- Review and recommend strategies to meet the implications of a possible Domestic Debt Optimisation (DDO) plan by the Government of Sri Lanka and align the Bank's investment portfolios to meet possible adverse outcomes.
- Review of the investment and trading portfolio limits for LKR securities to allow better assets and liabilities management by the Bank's treasury. In the absence of growth in corporate and consumer credit the investment requirements in government debt needed to be managed within strict parameters considering the possible impact of DDO and the allocation of funding into debt.

- Continuous review of the Bank's FX Management Policy to optimise the impact high volatility of LKR and BDT on the Bank's balance sheet. This encompasses the revaluation impact of LKR appreciation on the reserves and risk weighted FCY assets of the Sri Lanka operations, impact of the BDT currency depreciation in Bangladesh operations, NOP impact arising from the impairment of the ISB portfolio in line with the External Auditors' recommendations and the absorption of FCY bond settlement in LKR as part of the DDO programme.
- Approval of investment in US Government treasury instruments to manage the excess FCY liquidity arising from impairment provisions and accepting LKR settlement for maturing SLDB investments.
- Recommendation of the Bank's Capital Augmentation Plan and Tier II debt issuance of the Bank to strengthen the capital base.
- Continuous review of the Bank's Liquidity Contingency Plan and Stressed Liquidity Contingency Plan to support the Asset & Liability Management.
- Adoption of the Terms of Reference for the Committee, review and recommendation of the Bank's ALM, Treasury and Investment policies for approval by the Board of Directors of the Bank.
- Reconstitution of the Bank's investment and trading activities in the fixed income securities to optimise the investment returns and segregation of trading and liquidity management activities from statutory investment requirements.
- Sanctioning of setting up dedicated Market and Macroeconomic Research Division.

**S Muhseen** Chairman Board Investment Committee

The Committee focused on improving the following areas, which are the key drivers of the Bank towards a digital era while ensuring the robustness of the IT infrastructure of the Bank. Committee focused on Building a Digital Roadmap, AI & Data Science Roadmap, Technology Roadmap, Information Security Roadmaps, overseeing the organisation's digital transformation initiatives, oversees the organisation's IT infrastructure, technology-related investments providing

recommendations to the Board, overseeing the organisation's major IT projects' progress against its goals, objectives, timelines ensuring that it aligns with the organisation's overall business strategy and objectives.

### **Key IT initiatives**

- Core Banking upgrade in Sri Lanka, Bangladesh and Maldives Operations and Branch Teller application upgrade for Maldives and Bangladesh branch network The Core Banking Upgrade initiative across Sri Lanka, Bangladesh, and Maldives Operations marks a pivotal milestone in our pursuit of technological excellence and operational efficiency. This strategic endeavour reflects our commitment to staying at the forefront of financial technology, ensuring that our banking systems are not only robust but also equipped to meet the evolving needs of our customers in these diverse markets.
- Automation of Service Counter Operations of Branches

The Automation of Service Counter Operations across our branches stands as a transformative initiative at the forefront of our commitment to operational excellence and customer service enhancement. By introducing automation to service counter operations, we aim to reduce transaction times, minimise errors, and enhance the overall customer experience. This initiative aligns with our broader vision of staying ahead in the rapidly evolving technological landscape of the financial industry.  Al and Data Science (SME/Data Visualisation) phase 1 for SME operations which enables the teams with data– driven decision-making

The Phase of Artificial Intelligence (AI) and Data Science strategies custommade specifically for Small and Medium Enterprises (SMEs), with a primary focus on Data Visualisation. This milestone marks a pivotal step in empowering SME teams with the tools and insights necessary for data-driven decision-making.

• Early warning signals for lending portfolio

This strategic initiative aims to fortify risk management practices and bolster the financial stability of our organisation. By deploying sophisticated algorithms and data analytics, the system has demonstrated its proficiency in identifying potential risks and signaling early indicators of distress within the lending portfolio. The EWS framework enables proactive decision-making by providing timely alerts on emerging threats, allowing for swift and effective risk mitigation strategies.

- Cloud-based email subscription solution with novel features
- Virtualised server platform for Bangladesh operations
- Loan Origination System version upgrade

Furthermore, the agile way of working at IT R&D has supported to cater to the business units with the targeted priorities and full transparency. The productivity and quality of deliveries have been greatly improved compared to the previous year.

Digital Infrastructure plays a vital role in providing an uninterrupted service and serves the ever-increasing customer expectations. Cognisant of the importance of the infrastructure, the Information Technology Department has identified and implemented the following key initiatives to enhance the internal system capabilities and streamline the hardware usage;

 900+ Touchpoints (ATM/CRM) – The Bank has further expanded its ATM/CRM facility while reaching 900+ touchpoints landmark at the end of the Year 2023 while being Sri Lanka's largest single ATM/CRM network owned by a private sector bank with 24 x 7 customer convenience and enhanced features.

- High availability framework The availability of IT systems for customers is of paramount importance in today's competitive banking industry, especially in digital platforms. When maintaining availability, 'High Availability' is important for IT systems to continue the business even with unpredictable failures of IT systems. The Bank has enhanced the 'High Availability' of its mission-critical systems.
- Server Virtualisation and Private Cloud Centralised Virtual Server Infrastructure at data centers facilitates the Bank's systems and applications covers 93% of the servers and provides many technical advantages while saving OPEX. The strategic decision has been taken to further enhance the server virtualisation platform while enabling a private cloud-ready platform.

Enterprise architecture focus has been set to align all the banking systems and infrastructure to the industry standards. The Business, Data, Application, and Infrastructure architectures have been considered as the key focus verticals incorporating IT standards with security compliance.

• Compliance and Certifications of ISO 20000/ISO 27001/PCI-DSS – The Bank was recertified for ISO 20000, ISO 27001, and PCI-DSS, standards in 2023. These are the de facto standards on, IT Service Management, Information Security, and Card Industry, and it will demonstrate that IT systems and processes are maintained with these world-renowned certifications. All these compliances build customer confidence and information security practices.

### **Projects in progress**

The Bank has initiated several key IT projects during the year, including New Treasury System Implementation, Open banking for Maldives, Improvement of Digital Banking platform, Revamp Flash application and implementing, new Micro Services architecture, AI and Data Science use cases, Robotic process automation for internal operations, Fraud monitoring system implementation, Employee self-service mobile app, ATM Channel manager, ITM Version upgrade, Q + Feature addition and Compliance related projects (GoAML, ITRS, RTGS), Implementation of new HR system.

# Following key projects were initiated in 2023

# The Committee has given its recommendations for following major initiatives of the Bank

- Consultancy on Data Analytics Strategies Developing Roadmaps and Use Cases
- Implementation of Customer Identity and Access Management (CIAM Solution)
- E-Statement Solution for Customer Statements and Advises
- Implementation of Modern Micro Services Platform (API Management, Governance and Observability)

# Report of the Board Strategy Development Committee

The Committee deliberated on the potential stress on the capital adequacy arising due to many external factors and measures that need to be taken to augment capital adequacy.

The Committee was established to have an overall Bank-wide strategic management oversight.

The Committee is empowered:

- To assist the Board in performing its core responsibilities relating to the Bank's strategy.
- To advise and monitor the Management on:
  - Identification of business strategies geared for the sustainable development of the Bank; and
  - Establishment of processes for planning, implementing, assessing and adjusting of the business strategies.
- To oversee the Management's engagement on the strategic perspective, direction and development of the strategy for the Bank and its business units.
- To oversee the Management's implementation of the approved strategic plan and the progress against strategic milestones and goals.
- To oversee the Management's implementation of major business transformation projects and their execution.
- To engage in detail discussion and provide guidance to the Management on:
  - Whether the governance, risk appetite, financial and capital planning, liquidity and funding management, control environment and resources can support the Bank's strategic objectives.

- Divestitures, Mergers and Acquisition (M&A) strategies including post transaction performance tracking.
- The impact of changes in the competitive environment.
- To foster a cooperative, interactive strategic planning process between the Board and the Management.
- To provide recommendations for strategic direction of the Bank's subsidiaries whenever appropriate.

#### Activities in 2023

The BSDC met more frequently during the year (six meetings) compared to the minimum requirement of four meetings as per the Terms of Reference to offer guidance in the strategic decision-making process of the Bank in a challenging socio economic environment which prevailed during 2023.

The BSDC assisted the Board by evaluating the business strategies and making recommendations to strengthen core competencies of the Bank.

The Committee carried out the following activities during the year 2023:

- Emphasised on the importance of augmenting customer experience and deliberated on the training requirements for the staff and tools available in this regard.
- Deliberated on the actions to be taken to increase the contribution of the subsidiaries to the Group performance.
- Considered the Government budget proposals and their impact on the Bank and the Banking Industry.

- Deliberated on the potential stress on the capital adequacy arising due to many external factors and measures that need to be taken to augment capital adequacy.
- Received frequent updates on major challenges in 2023 such as foreign exchange crisis, high interest rates, soaring inflation and stressed on capital adequacy to support its decision making.
- Received frequent updates on the progress on the initiatives taken in relation to the Government debt restructuring programme, and deliberated on their impact.
- Reviewed the impact of movements in market variables on capital adequacy.
- Reviewed and discussed matters of importance arising from the Minutes of the Executive Strategy Development Committee Meetings.
- Considered the market share analysis and the market share dashboard and discussed matters relating to same.
- Given the challenging operating environment and the consequent stresses on the Bank, the Committee recommended appropriate revisions to its expansion plans.
- Discussed matters relating to the 2024 Budget of the Bank.
- Deliberated and assessed various aspects concerning the digital banking platform of the Bank, exploring strategic insights, potential enhancements, and key considerations to propel its effectiveness.

- Conducted discussions regarding the initiation of operations at the Colombo Port City, exploring feasibility, strategic implications, and operational considerations to make informed decisions moving forward.
- Deliberated on the importance of standardising service levels across all customer touch points and the establishment of a Customer Experience Unit to enhance and streamline customer interactions across the Board.
- Deliberated on the importance of differentiating the Bank's service standards to gain a competitive advantage in the financial industry.
- Discussed issues pertaining to brain drain in the country and its potential impact on the Bank in depth with the central focus on formulating effective strategies to retain top performing staff members.
- Reviewed the Shareholder Communications Policy.
- Reviewed the Sri Lankan operations of the Bank and directed the main business units to present their plans for enhancing the Bank's market share.
- Reviewed the proposal for a strategic partnership with AIA Insurance Lanka Limited and monitored the progress leading up to the signing of the agreement on November 28, 2023.

Important decisions taken at the Committee meetings and deliberations on activities under the Terms of Reference were regularly reported to the Board of Directors for information/approval.

February 21, 2024

# Report of the Board Capital Expenditure Review Committee

**Composition of the Committee** The composition of the Board Capital Expenditure Review Committee (BCERC) during the year under review is given below. Profiles of the members as at December 31, 2023, are given on pages 162 to 167.

#### **Board Members and attendance**

	/Eligible to attend attended
Mr S Muhseen* Chairman	01/01
Ms N T M S Cooray* Director	01/01
Dr S Selliah* Director	01/01

#### **Regular attendees by invitation**

Mr S C U Manatunge Managing Director/ Chief Executive Officer	01/01
<b>Mr S Prabagar</b> Director/Chief Operating Officer	01/01

#### Secretary to the Committee

Mr R A P Rajapaksha Company Secretary

\*Independent Non-Executive Director

Set up during the year, the Committee conducted one meeting, reviewed its terms of reference and reported important decisions to the Board.

#### Terms of Reference of the Committee

Item 3.5 of the Banking Act Direction No. 01 of 2023 dated February 02, 2023 requires the Licensed Commercial Banks to form a Board Level Sub Committee to operate during the years 2023 and 2024, which is entrusted with the responsibility of evaluating, approving and recommending to the Board for approval all expenses including non-essential and/ or non-urgent expenditure and/or capital expenditure to be incurred by the Bank, if any.

Accordingly, with a view to ensure compliance with the above Direction, the Bank formed the Board Capital Expenditure Review Committee (BCERC).

Upon receipt of approval by the Executive Procurement Committee, the BCERC is empowered;

- to review and approve all capital expenditure projects, [except for IT related Capital Expenditure which will be recommended by the Board Technology Committee (BTC) for approval of the Board in terms of the Terms of Reference of BTC] in excess of Rs. 25 Mn. up to Rs. 50 Mn.; and
- to review and recommend for approval of the Board, all capital expenditure projects, (except for IT related Capital Expenditure which will be recommended by BTC in terms of the Terms of Reference of BTC) in excess of Rs. 50 Mn.

#### Charter of the Committee

The Committee shall;

- Evaluate any expense related to proposals received by the Committee to ascertain whether such expenditure can be considered as non-essential or non-urgent.
- Discuss the Company's capital expenditure, objectives and plans with the Management.
- Periodically review the performance of major capital expenditure projects which fall under the purview of the Committee, against original projections.
- Execution of any other duties or responsibilities expressly delegated to the Committee by the Board from time to time relating to the Company's non-essential or non-urgent expenditure and/or capital expenditure.
- Monitor, evaluate and compile special reports called for by the Board.

#### Activities in 2023

One (01) Committee meeting was held during the year under review and the BCERC reviewed the terms of reference pertaining to the same.

Important decisions taken at the Committee meetings and deliberations on activities under the Terms of Reference were regularly reported to the Board of Directors for information/approval.

**S Muhseen** Chairman Board Capital Expenditure Review Committee

February 21, 2024

# **Statement of compliance – 2023**

Further to the Annual report of the Board of Directors on the Affairs of the Company appearing on page 03, given below is a summary of the extent of compliance with the requirement of section 168 of the Companies Act No. 07 of 2007 and amendments thereto and other relevant statues.

#### **Statement of compliance**

				Table – 45
	Disclosure Requirement	Reference to the relevant statute/rule	Page reference for Compliance and other necessary disclosures	Page/s
Man	datory Disclosures as required by the	e Companies Act	: No. 07 of 2007 and amendments thereto (CA)	
01.	The nature of the business of the Group and the Bank together with any changes thereof during the accounting period	Section 168 (1) (a)	Notes to the Financial Statements: Item 1.3: Principal business activities, Nature of operations of the Group and ownership by the Bank in its subsidiaries and Associate	279 and 280
02.	Signed Financial Statements of the Group and the Bank for the accounting period completed in accordance with Section 152	Section 168 (1) (b)	Financial Statements of the Group and the Bank for the year ended December 31, 2023	267 to 420
03.	Auditors' Report on the Financial Statements of the Group and the Bank	Section 168 (1) (c)	Independent Auditors' Report	262 to 264
04.	Accounting Policies of the Group and the Bank and any changes therein	Section 168 (1) (d)	Notes 6 to 10 to the Financial Statements: Material Accounting Policies adopted in the preparation of the Financial Statements of the Group and the Bank	289 to 301
05.	Particulars of the entries made	Section 168	The Bank and all its Subsidiaries maintain Interests Registers.	
	in the Interests Registers of the Bank and its Subsidiaries during the accounting period	(1) (e)	All Directors have made declarations as required by the Section 192 (1) and (2) and all related entries were made in the Interests Registers during the year under review.	
			The Interests Registers are available for inspection by shareholders or their authorised representatives as required by the Section 119 (1) (d).	230 and
			"Directors' Interest in Contracts with the Bank" disclosed in the Annual Report.	230 and 231
06.	Remuneration and other benefits paid to Directors of the Bank and its Subsidiaries during the accounting period	Section 168 (1) (f)	Note 21 to the Financial Statements: Other Operating Expenses	311
			Report of the Board Human Resources and Remuneration Committee	203 and 204
07.	Total amount of donations made by the Bank and its Subsidiaries during the accounting period	Section 168 (1) (g)	Note 21 to the Financial Statements: Other Operating Expenses	311
08.	Information on Directorate of the Bank and its Subsidiaries	Section 168 (1) (h)	Governance and Risk Management	160 to 258
	during and at the end of the accounting period		"Board of Directors and Profiles" for details of members of the Board of Directors of the Bank	160 to 167
			"Group Structure" for details of members of the Board of Directors of the Group	142 and 143
			Recommendations for Re-election	
			(i) In terms of Article 85 of the Articles of Association, two Directors are required to retire by rotation at each Annual General Meeting (AGM). Article 86 provides that the Directors to retire by rotation at an AGM shall be those who (being subject to retirement by rotation) have been longest in office, since their last re-election or appointment.	

	Disclosure Requirement	Reference to the relevant statute/rule	Page reference for Compliance and other necessary disclosures	Page/
			(ii) The Board recommended the re-election/election of the following Directors, after considering the contents of the Affidavits and Declarations submitted by them and all other related issues:	
			<ul><li>(a) Re-election of Directors who retire by rotation</li><li>Mr S Muhseen</li></ul>	
			Mr R Senanayake	
			<ul><li>(b) Election of the Director who was appointed to fill the casual vacancy</li><li>Mr P M Kumarasinghe</li></ul>	
			(iii) Directors who served on the Board for nine years – None as at end of 2023.	
			[In terms of the Banking Act Direction No. 11 of 2007 on "Corporate Governance for Licensed Commercial Banks in Sri Lanka", the total period of service of a Director (other than a Director who holds the Position of Chief Executive Officer) is limited to nine years. Further, under the criteria to assess the fitness and proprietary of Directors, the age of a person who serves as director of a bank has been restricted to a maximum of 70 years].	
09.	Separate disclosure on amounts payable to the Auditors as Audit Fees and Fees for other services rendered during the accounting period by the Bank and its Subsidiaries	Section 168 (1) (i)	Note 21 to the Financial Statements: Other Operating Expenses	31
10.	Auditors' relationship or any interest with the Bank and its Subsidiaries (Lead auditor's independence)	Section 168 (1) (j)	Independence Confirmation has been provided by Messrs. Ernst & Young as required by Section 163 (3), in connection with the audit for the year ended December 31, 2023, confirming that Ernst & Young is not aware of any relationship with or interest in the Bank or any of its subsidiaries that in their judgement, may reasonably be thought to have a bearing on their independence within the meaning of the Code of Professional Conduct and Ethics issued by CA Sri Lanka, applicable as at the reporting date.	
			No prohibited non-audit services have been provided by Messrs. Ernst & Young as per the Direction issued by the CBSL on 'Guidelines for External Auditors relating to their Statutory Duties'. The Directors are satisfied as the BAC has assessed each service, having regard to auditor's independence requirements of applicable laws, rules and regulations, and concluded in respect of each non-audit service or type of non-audit service that the provision of that service or type of service would not impair the independence of Messrs. Ernst & Young.	
11.	Acknowledgement of the contents of this Report/ Signatures on behalf of the Board of Directors	Section 168 (1) (k)	The Board of Directors have acknowledged the contents of this Annual Report as disclosed.	0
			ctices (RBP), Listing Rules (LR) of the Colombo Stock Exchange, Companies Act No. 07 of Direction No. 11 of 2007 (the Direction)

32.	Appointment of Auditors and their remuneration	CBSL Direction 3 (1) (i) (m)	The Board has adopted a policy of rotation of Auditors, once in every five years, in keeping with the principles of good corporate governance. At the end of the five-year period, quotations are called from suitable audit firms, prior to the recommendation of new Auditors as per the rotation policy. In addition, External Auditors submit a statement annually confirming their independence as required by Section 163 (3) of the Companies Act No. 07 of 2007 (as amended) in connection with external audit.	
			Messrs Ernst & Young completed six consecutive years of external audit with the audit of the Financial Statements for year ended December 31, 2023. Although the Bank used to rotate the External Auditor every five years, Messrs Ernst & Young was retained as the External Auditor of the Bank for an additional year, considering the fact that the CBSL deployed Messrs KPMG to conduct an Asset Quality Review on the Banking Sector in the country in year 2023. With the recommendation of the BAC, a resolution to appoint Messrs KPMG as the External Auditor and granting authority to the Directors to fix their remuneration will be proposed at the forthcoming AGM to be held on March 28, 2024, for shareholder approval.

		CA S.135 (a)	Notice relating to the 55th AGM of the Bank is enclosed at the end of the Annual Report.	

# Statement of Directors' responsibility for financial reporting

The Statement sets out the responsibility of the Board of Directors, in relation to the Financial Statements of the Commercial Bank of Ceylon PLC (the Bank) and the Consolidated Financial Statements of the Bank and its Subsidiaries and the Associate (the Group).

The responsibilities of the External Auditors in relation to the Financial Statements are set out in the *"Independent Auditors' Report"* given on pages 262 to 264.

In terms of Sections 150 (1), 151, 152 and 153 (1) & (2) of the Companies Act No. 07 of 2007 and amendments thereto, the Board of Directors of the Bank is responsible for ensuring that the Group and the Bank keep proper books of account of all the transactions. The Directors are also responsible for preparing Financial Statements that give a true and fair view of the financial position as at the end of each financial year and the financial performance for each financial year of the Group and the Bank and placing them before a general meeting. The Financial Statements comprise of the Statement of Financial Position as at December 31, 2023, the Income Statement and Statement of Profit or Loss and Other Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows for the year then ended and Notes thereto of the Group and the Bank.

Accordingly, the Board of Directors confirms that the Financial Statements of the Group and the Bank give a true and fair view of the

- financial position of the Group and the Bank as at December 31, 2023 and
- financial performance of the Group and the Bank for the financial year then ended.

#### **Compliance Report**

The Board of Directors also wishes to confirm that:

(a) appropriate Accounting Policies have been selected and applied in preparing the Financial Statements exhibited on pages 267 to 420 based on the latest financial reporting framework on a consistent basis, while reasonable and prudent judgements have been made so that the form and substance of transactions are properly reflected and material departures, if any, have been disclosed and explained;

- (b) the Financial Statements for the year ended December 31, 2023, prepared and presented in this Annual Report are in agreement with the underlying books of account and are in conformity with the requirements of the following:
  - Sri Lanka Accounting Standards;
  - Companies Act
  - Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995;
  - Banking Act No. 30 of 1988 and amendments thereto;
  - Listing Rules of the Colombo Stock Exchange (CSE); and
  - Code of Best Practice on Corporate Governance 2023 issued by The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka);
- (c) these Financial Statements comply with the prescribed format issued by the CBSL for the preparation of annual financial statements of licensed commercial banks;
- (d) proper accounting records which correctly record and explain the Group's and the Bank's transactions have been maintained as required by the Section 148 (1) of the Companies Act to determine at any point of time the Group's and the Bank's financial position, with reasonable accuracy, enabling preparation of the Financial Statements, in accordance with the Companies Act to facilitate proper audit of the Financial Statements;
- (e) they have taken appropriate steps to ensure that the Group and the Bank maintain proper books of account and review the financial reporting system directly by them at their regular meetings and also through the BAC, the Report of which is given on pages 195 to 198. The Board of Directors also approves the Interim Financial Statements prior to their release, following a review and recommendation by the BAC;

- (f) they accept responsibility for the integrity and objectivity of the Financial Statements presented in this Annual Report;
- (g) they have taken reasonable measures to safeguard the assets of the Group and the Bank and to prevent and detect frauds and other irregularities. In this regard, the Board of Directors has instituted an effective and comprehensive system of internal controls comprising of internal checks, internal audit and financial and other controls required to carry on the business of banking in an orderly manner and safeguard its assets and secure as far as practicable, the accuracy and reliability of the records. The "Directors' Statement on Internal Control over Financial Reporting and Risk Management" is given on pages 226 and 227;
- (h) to the best of their knowledge, all taxes, duties and levies payable by the Bank and its Subsidiaries, all contributions, levies and taxes payable on behalf of and in respect of the employees of the Bank and its Subsidiaries, and all other known statutory dues as were due and payable by the Bank and its Subsidiaries as at the Reporting date have been paid or, where relevant, provided for, except as specified in Note 59 to the Financial Statements on "Litigation against the Bank" on page 379.
- (i) as required by the Section 56 (2) of the Companies Act, they have authorised distribution of the dividends paid and proposed upon being satisfied that the Bank and all its Subsidiaries, subject to complying with all the conditions imposed by the CBSL, would satisfy the solvency test after such distributions are made in accordance with the Section 57 of the Companies Act and have obtained in respect of dividends paid and proposed, and also for which approval is now sought, necessary certificates of solvency from the External Auditors;
- (j) as required by the Sections 166 (1) and 167 (1) of the Companies Act, they have prepared this Annual Report in time and ensured that a copy thereof is sent to every shareholder of the Bank, who have

expressed desire to receive a hard copy. A soft copy of this Annual Report has also been hosted in the "Investors" section of the Bank's website (*https://www.combank. lk/investors*), in addition to the soft copy thereof available in the CSE website, for the benefit of other shareholders within the stipulated period of time as required by the Rules No. 7.5 (a) and (b) of Continuing Listing Rules of the Listing Rules of the CSE, instead of sending a soft copy in a CD. Further, an interactive html version of the Annual Report too has been hosted in the Bank's website (*https://www.combank.lk/investors*);

- (k) that all shareholders in each category have been treated equitably in accordance with the original terms of issue;
- that the Bank and its quoted subsidiary have met all the requirements under the Section 07 of Continuing Listing Rules of the CSE, where applicable;
- (m) that after considering the financial position, operating conditions, regulatory and other factors and such matters required to be addressed in the 'Code of Best Practice on Corporate Governance 2023' issued by the CA Sri Lanka, the Board of Directors has a reasonable expectation that the Bank and its Subsidiaries possess adequate resources to continue in operation for the foreseeable future. For this reason, we continue to adopt the Going Concern basis in preparing the Financial Statements;
- (n) the Financial Statements of the Group and the Bank have been certified by the Chief Financial Officer, the officer responsible for their preparation, as required by the Sections 150 (1) (b) and 152 (1) (b) of the Companies Act and also have been signed by three Directors and the Company Secretary of the Bank on February 21, 2024 as required by the Sections 150 (1) (c) and 152 (1) (c) of the Companies Act and other regulatory requirements; and

(o) the Bank's External Auditors, Messrs Ernst & Young who were appointed in terms of the Section 158 of the Companies Act and in accordance with a resolution passed at the last Annual General Meeting held on March 30, 2023, were provided with every opportunity to undertake the inspections they considered appropriate. They carried out reviews and sample checks on the system of internal controls as they considered appropriate and necessary for expressing their opinion on the Financial Statements and maintaining accounting records. They have examined the Financial Statements made available to them by the Board of Directors of the Bank together with all the financial records, related data and Minutes of Shareholders' and Directors' Meetings and expressed their opinion in the "Independent Auditors' Report" which appears as reported by them on pages 262 to 264.

Accordingly, the Board of Directors is of the view that they have discharged their responsibilities as set out in this Statement. By Order of the Board,

**R A P Rajapaksha** Company Secretary

February 21, 2024 Colombo

# Directors' statement on internal control over financial reporting and risk management

#### Responsibility

The Board of Directors (the Board) of Commercial Bank of Ceylon PLC (the Bank) wishes to present this Report on Internal Control over Financial Reporting and Risk Management, in line with the Section 3 (8) (ii) (b) of the Banking Act Direction No. 11 of 2007, and Principle D.1.5 of the Code of Best Practice on Corporate Governance 2023 (Code) issued by CA Sri Lanka.

The Board is responsible for the adequacy and effectiveness of the system of risk management and internal controls in place at the Bank. However, such a system is designed to manage the Bank's key areas of risk within an acceptable risk profile, rather than to eliminate the risk of failure to achieve business objectives of the Bank. Accordingly, the system of internal controls can only provide reasonable but not absolute assurance against material misstatements of management and financial information and records or against financial losses or fraud.

The Board has established an ongoing process for identifying, evaluating and managing the principal risks faced by the Bank and this risk management framework has been well established for many years, which includes enhancing the system of internal controls as and when there are changes to business environment or regulatory guidelines. The process is regularly reviewed by the Board and accords with the "Guidance for Directors of Banks on the Directors' Statement on Internal Control" issued by CA Sri Lanka. The Board has assessed the internal controls taking into account all main principles for the assessment of an internal control system as given in that guidance.

The Board is of the view that the system of internal controls in place over financial reporting at the Bank is sound and adequate to provide reasonable assurance regarding the reliability of financial reporting, and that the preparation of Financial Statements for external purposes is done in accordance with relevant accounting principles and regulatory requirements.

The Management assists the Board in the implementation of the Board's policies and procedures on risk management and internal controls by identifying and assessing the risks faced, and in the design, implementation, operation and monitoring of suitable system of risk management and internal controls to mitigate and control these risks. Key features of the process adopted in applying and reviewing the design and effectiveness of the Internal Control System on Financial Reporting and Risk Management

The key processes that have been established in reviewing the adequacy and integrity of the system of internal controls with respect to financial reporting and risk management include the following:

- Ten (10) Subcommittees have been established by the Board, including those mandatary committees as required by the Banking Act Direction No 11 of 2007, the Listing Rules of the Colombo Stock Exchange, and the Banking Act Direction No 01 of 2023, to assist the Board in ensuring the effectiveness of the Bank's daily operations and that the Bank's operations are conducted in line with the corporate objectives, strategies and the annual budget as well as the policies and business directions that have been approved. Details of the activities undertaken by each Subcommittee are set out on pages 195 to 215.
- Policies/Charters have been developed covering all functional areas of the Bank and these have been recommended by Board appointed Committees and approved by the Board. Such policies and Charters are reviewed and approved at least annually.
- The Inspection/Internal Audit Department/ Information Systems Audit Unit of the Bank check for compliance with policies and procedures and the effectiveness of the internal control systems/Information System controls on an ongoing basis using samples and rotational procedures and highlight significant findings in respect of any non-compliance. Further, Onsite, Online and Offsite audits are carried out covering all departments, branches, subsidiaries and overseas operations in accordance with the annual audit plan reviewed and approved by the Board Audit Committee (BAC). The type and frequency of audits of Business units are determined by the level of risk assessed, to provide an independent and objective report. Findings of the internal audits are submitted to the BAC for review at its periodic meetings for initiating necessary action. The Inspection/ Internal Audit Department conducted online audits covering all Branches in Sri Lanka and Bangladesh, Corporate Banking Unit, Digital Banking Unit, Card

Center, Treasury, Finance, and Subsidiaries – CBC Finance Limited, Commercial Bank of Maldives Private Limited and CBC Myanmar Microfinance Company Limited during 2023 as well. Scope of Online, near time and real time audits was further enhanced to cover high risk transactions of the Bank. In addition, monitoring over cyber security controls and modifications to core banking systems/databases was further strengthened utilising appropriate tools/ techniques and resources. Through this initiative, the controls are being tested on a near or real time basis. Further, Offsite/ Online audit introduced during 2020 were continued in 2023 as well to test and verify internal controls relating to Credit area of Branches. The findings were tabled at the meetings of the BAC for review and for initiating necessary action. The "Online Auditing" initiative has further strengthened the review of the design and effectiveness of the internal control system of the Bank.

- The BAC reviews internal control issues identified by the Internal Audit Department, co-sourced Internal Auditors, Regulatory Authorities, External Auditors and the Management, and evaluates the adequacy and effectiveness of the risk management and internal control systems. The BAC also carries out an annual evaluation to review the effectiveness of internal audit function with particular emphasis on the scope, guality, independence of internal audit and the resources. The Minutes of the BAC meetings are tabled at the meetings of the Board of Directors of the Bank on a periodic basis.
- In assessing the internal control system over financial reporting, identified officers of the Bank continued to review and update all procedures and controls that are connected with significant accounts and disclosures of the Financial Statements of the Bank. The Internal Audit Department continued to verify the suitability of design and effectiveness of these procedures and controls on an ongoing basis. The assessment included both local and overseas subsidiaries and the Bangladesh operations of the Bank as well.

Since the adoption of the Sri Lanka Accounting Standard – SLFRS 9 on "Financial Instruments", which became effective from January 01, 2018, the Bank introduced and implemented the processes that are

required to comply with the requirements of recognition, measurement, presentation and disclosures under the above Accounting Standard. These processes were continuously strengthened based on the feedback received from the External Auditor, Internal Audit Department, regulators and the BAC. Continuous monitoring is in progress and steps are being taken to further improve the processes where required, and to enhance effectiveness and efficiency. The Bank has documented the procedures relating to these requirements and updates the procedure manuals as and when necessary and also obtained approval of the Board with the recommendation of the BAC for changes made to the documented procedures. The Bank's Internal Audit department conducts tests on these processes and the outcome of such exercise was tabled regularly for review by the BAC during the year 2023 as well. Having recognised the need to introduce an automated platform for various computations required under SLFRSs and LKASs including loan impairments, the Bank automated impairment calculations through a renowned software solution and the Bank commenced preparing its Financial Statements based on this automated impairment solution from the second quarter of 2023. However, the Bank decided to continue with the manual calculation of impairment as a parallel exercise despite the live deployment of the software solution. This is because impairment calculations require continuous refinements given the macro-economic challenges faced by the country, the consequent impact on the Bank's customers in most of the industries and the evolving regulatory requirements which are in addition to the requirements of the Sri Lanka Accounting Standards. In addition, the Bank also took steps to document the entire Financial Statements Closure Process in 2021 with the support of an external consultant, and the same was validated by an independent consultant. These proactive measures helped the Bank to ensure that the Bank is in compliance with the requirements of the Banking Act Direction Nos. 13 and 14 on "Classification, **Recognition and Measurement of Credit** Facilities and other Financial Assets in Licensed Banks" issued by the Central Bank which became effective from January 01, 2022.

The Bank in process of documenting the risks and controls underlying the automated impairment calculations referred to above.

The comments made by the External Auditor in the Management Letter in connection with the internal control system over financial reporting in previous years and the recommendations made in the Statutory Examination Reports of the CBSL were reviewed during the year and necessary steps were taken to address them with regular reports from the Management, where appropriate. The recommendations made by the External Auditor in 2023 in connection with the internal control system over financial system will be dealt within the future.

#### Confirmation

Based on the above processes, the Board of Directors confirms that the financial reporting system of the Bank has been designed to provide a reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes has been done in accordance with the Sri Lanka Accounting Standards and regulatory requirements of the Central Bank of Sri Lanka.

### Review of the Statement by External Auditors

The External Auditor, Messrs Ernst & Young, has reviewed the above Directors' Statement on Internal Control included in this Annual Report for the year ended December 31, 2023 and reported to the Board that nothing has come to their attention that causes them to believe that the statement is inconsistent with their understanding of the process adopted by the Board in the review of the design and effectiveness of the internal control system over financial reporting of the Bank. Their independent assurance report on the "Directors" Statement on Internal Control over Financial Reporting and Risk Management' is given on page 226 of this Annual Report.

By Order of the Board,

**Prof A K W Jayawardane** Chairman

**S Muhseen** Deputy Chairman

## **Independent Assurance Report**

Ernst & Young Chartered Accountants Rotunda Towers No. 109, Galle Road P.O. Box 101 Colombo 03, Sri Lanka

#### TO THE BOARD OF DIRECTORS OF COMMERCIAL BANK OF CEYLON PLC

### Report on the Director's Statement on Internal Control

We were engaged by the Board of Directors of Commercial Bank of Ceylon PLC ("the Bank") to provide assurance on the Directors' Statement on Internal Control over Financial Reporting ("Statement") included in the annual report for the year ended December 31, 2023.

#### **Management's responsibility**

Management is responsible for the preparation and presentation of the Statement in accordance with the "Guidance for Directors of Banks on the Directors' Statement on Internal Control" issued in compliance with Section 3 (8) (ii) (b) of the Banking Act Direction No. 11 of 2007, by The Institute of Chartered Accountants of Sri Lanka.

#### **Our Independence and Quality Control**

We have complied with the independence and other ethical requirement of the Code of Ethics for Professional Accountants issued by The Institute of Chartered Accountants of Sri Lanka, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Sri Lanka Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements. Tel s Fax Email ey.com : +94 11 246 3500 : +94 11 768 7869 : eysl@lk.ey.com

### Our responsibilities and compliance with SLSAE 3050 (Revised)

Our responsibility is to assess whether the Statement is both supported by the documentation prepared by or for directors and appropriately reflects the process the directors have adopted in reviewing the design and effectiveness of the internal control of the Bank.

We conducted our engagement in accordance with Sri Lanka Standard on Assurance Engagements (SLSAE) 3050 (Revised), Assurance Report for Banks on Directors' Statement on Internal Control, issued by The institute of Charted Accountants of Sri Lanka.

This Standard required that we plan and perform procedures to obtain limited assurance about whether Management has prepared, in all material respects, the Statement on Internal Control.

For purpose of this engagement, we are not responsible for updating or reissuing any reports, nor have we, in the course of this engagement, performed an audit or review of the financial information.

#### Summary of work performed

We conducted our engagement to assess whether the Statement is supported by the documentation prepared by or for Directors; and appropriately reflected the process the directors have adopted in reviewing the system of internal control over financial reporting of the Bank.

The procedures performed were limited primarily to inquiries of bank personnel and the existence of documentation on a sample basis that supported the process adopted by the Board of Directors. SLSAE 3050 (Revised) does not require us to consider whether the Statement covers all risks and controls or to form an opinion on the effectiveness of the Bank's risk and control procedures. SLSAE 3050 (Revised) also does not require us to consider whether the processes described to deal with material internal control aspects of any significant problems disclosed in the annual report will, in fact, remedy the problems.

The procedures selected depend on our judgement, having regard to our understanding of the nature of the Bank, the event or transaction in respect of which the Statement has been prepared.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

#### **Our conclusion**

Based on the procedures performed, nothing has come to our attention that causes us to believe that the Statement included in the annual report is inconsistent with our understanding of the process the Board of Directors has adopted in the review of the design and effectiveness of internal control over financial reporting of the Bank.

# Managing Director/Chief Executive Officer's and Chief Financial Officer's statement of responsibility

The Financial Statements of the Commercial Bank of Ceylon PLC (the Bank) and the Consolidated Financial Statements of the Bank and its Subsidiaries and the Associate (the Group) as at December 31, 2023 are prepared and presented in conformity with the requirements of the following:

- Sri Lanka Accounting Standards;
- Companies Act;
- Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995;
- Banking Act No. 30 of 1988 and amendments thereto and the Directions, Determinations and Guidelines issued by the Central Bank of Sri Lanka (CBSL);
- Listing Rules of the Colombo Stock Exchange (CSE); and
- Code of Best Practice on Corporate Governance 2023 issued by the CA Sri Lanka

The formats used in the preparation of the Financial Statements and disclosures made in this Annual Report and the Interim Financial Statements comply with the specified formats prescribed by the CBSL.

The Group presents the financial results to its shareholders on a quarterly basis.

The Material Accounting Policies have been consistently applied by the Group. Application of Material Accounting Policies and estimates that involve a high degree of judgement and complexity were discussed with the members of the BAC and Bank's External Auditors. Comparative information has been amended to comply with the current presentation, where applicable.

There were no changes to the Accounting Policies and methods of computation since the publication of the Annual Report for the year ended December 31, 2022. Accordingly, there was no necessity to amend the comparative information to comply with the current presentation.

We confirm that to the best of our knowledge, the Financial Statements, Material Accounting Policies and other financial information included in this Annual Report, fairly present in all material respects the financial position, results of the operations and the Cash Flows of the Group during the year under review. We also confirm that the Group has adequate resources to continue in operation and has applied the Going Concern basis in preparing these Financial Statements.

We are responsible for establishing, implementing, and maintaining Internal Controls and Procedures within the Bank and all its Subsidiaries and the Associate. We ensure that effective Internal Controls and Procedures are in place, ensuring material information relating to the Group is made known to us for safeguarding assets. preventing, and detecting fraud and/or error as well as other irregularities, which is reviewed, evaluated and updated on an ongoing basis. We have evaluated the Internal Controls and Risk Management Procedures of the Group for the financial period under review and are satisfied that there were no significant deficiencies and weaknesses in the design or operation of the Internal Controls and Risk Management Procedures, to the best of our knowledge. We confirm, based on our evaluations, that there were no significant deficiencies and material weaknesses in the design or operation of internal controls and the detection of fraud that involves management or other employees. The Bank's Internal Audit Department also conducts periodic reviews to ensure that the Internal Controls and **Risk Management Procedures are consistently** followed.

The Financial Statements of the Group were audited by Messrs Ernst & Young, Chartered Accountants and their Report is given on page 262 The BAC pre-approves the audit and non-audit services provided by Messrs Ernst & Young, to ensure that the provision of such services does not contravene with the guidelines issued by the CBSL on permitted non-audit services or impair Messrs Ernst & Young's independence and objectivity.

The BAC, inter alia, reviewed all the Internal and External Audit and Inspection Programmes, the efficiency of Internal Control Systems and Risk Management Procedures and also reviewed the quality of Material Accounting Policies and their adherence to Statutory and Regulatory requirements, the details of which are given in the "Report of the Board Audit Committee" appearing on pages 195 to 198. The Bank engaged the services of four firms of Chartered Accountants approved by the CBSL to strengthen the audit and inspection functions. The continuous inspection and audit functions, engagement of firms of Chartered Accountants and effective functioning of the BAC ensure that the Internal Controls and Procedures are followed consistently. To ensure complete

independence, the External Auditors and the Internal Auditors have full and free access to the members of the BAC to discuss any matters of substance. However, there are inherent limitations that should be recognised in weighing the assurances provided by any system of internal control and accounting.

It is also declared and confirmed that the Group and the Bank have complied with and ensured compliance with the guidelines for the audit of listed companies where mandatory compliance is required.

We confirm that to the best of our knowledge:

- The Group and the Bank have complied with all applicable laws and regulations and guidelines and there is no material litigation against the Group and the Bank other than those disclosed in Note 59 on Litigation Against the Bank on page 379 of the Financial Statements.
- All taxes, duties, levies and all statutory payments payable by the Group and the Bank and all contributions, levies and taxes payable on behalf of and in respect of the employees of the Group and the Bank as at December 31, 2023 have been paid, or where relevant provided for.

## **Risk governance and management**

#### Managing risk in turbulent times

In 2023, the Sri Lankan economy showed signs of stabilising after the formidable challenges lingering since 2020. This revival was considerable political stability, pivotal reforms, including the introduction of costreflective utility pricing, innovative revenue strategies, and tightened monetary policies. Notably, inflation receded to single digits by July 2023, marking a positive trend. Key economic indicators including a resurgence in tourism, an upswing in trade and worker remittances, ongoing external debt service suspension, increased development inflows, and a better trade balance owing to import restrictions contributed significantly to bolstering official reserves. Anomaly between the Prime Lending Rate and interest rates on Government Securities coupled with lacklustre demand for private sector credit, especially in the first half of the year, and absence of alternative investment opportunities for excess funds caused the banks' exposure to the Government of Sri Lanka to increase further. Amid a global turbulent landscape - marked by the post-pandemic recovery challenges, the Ukraine-Russia conflict, increased hostilities between Israel and Palestine, escalating global inflation, climate-induced disasters, disruptions in food and energy supply chains, cyber threats, and shifts in the dominance of the US Dollar-the global economic growth demonstrated resilience despite a sluggish pace.

A detailed analysis of the global and local operating environment that provided context to the Bank's performance in 2023 and efforts in the sphere of risk governance and management is given in operating context and outlook on pages 48 to 53.

The Integrated Risk Management Department (IRMD) went through the challenge of managing the increased risk levels within the risk appetite, while at the same time supporting innovation and growth and delivering the desired results for stakeholders.

The IRMD diligently monitored and managed risks within acceptable thresholds, striving to strike a balance between risk mitigation and the Bank's organisational objectives. The lending portfolio of the Bank continued to face heightened credit risks with rising defaults leading to a gradual deterioration of the asset quality. The Bank retained substantial investments in government securities amidst sluggish private sector credit growth, impacted by defaults in debt repayments, continued credit moratoria and increased interest rates.

Moreover, the discrepancy in interest rates between government securities and private credit lending creates a more favourable environment for Banks to invest more funds toward government securities. However, the Bank did see an increase in consumptionbased lending especially related to pawning. Market risks were relatively contained with gradual decrease in interest rates and improved foreign currency liquidity supported by import restrictions, rising tourist arrivals, and remittances. Operational risks surfaced due to suspect practices such as money laundering, terrorist financing and other contentious behaviours. The escalation of cyber risks due to surge in cybercrimes and system interruptions/ failures etc. posed additional challenges. Subdued earnings resulting from stressed economic conditions raised strategic risks impacting capital adequacy, credit ratings, and dealings with international counterparties, growing urgency to pivot the conventional business model.

Despite the risk landscape undergoing rapid changes and the resultant significant stresses, the Bank operated with utmost vigilance and maintained operational resilience during the year by being incisive, adaptable, and innovative in managing the many risks associated with the business model. Introduction of the Sustainability Framework ( IIII Refer page 54) helped the Bank identify and account for new risks in areas such as diversity, equity, and climate change as environment, sustainability, and governance (ESG) issues are brought to the heart of the corporate landscape. The Bank's fundamental guiding imperative of prudent growth has allowed it to remain a stable and responsible value creator throughout, empowering its stakeholders to meet their financial ambitions. Pragmatic exercises of conducting risk-control self-assessments, regular evaluations of risk management processes and tools, probing the Key Risk Indicators (KRIs) in relation to the traffic of risks, introduction of additional risk reviews, testing business continuity and disaster recovery plans, and the strict compliance to laws, regulatory guidelines, and internal controls in all areas of the business operations helped the Bank manage risks commendably.

In relative terms, the success of these efforts is evident from the moderate risk profile the Bank has been able to maintain in line with its risk parameters (IIII) Refer Table 47 on page 235) and the results of operations and the financial position as given in the financial statements published in this Annual Report.

#### **Business model and risk**

As a commercial bank, the Bank's business operations revolve around the two primary activities of financial intermediation and maturity transformation (see Business Model for Sustainable Value Creation on pages 54 to 61 for more information). As a result, the Bank has been able to function with an on-balance sheet asset base of Rs. 2,580.33 Bn. as of December 31, 2023, having geared its capital of Rs. 214.93 Bn. 12 times. The increased degree of gearing exposes the Bank to a variety of risks, which typically include credit risk, operational risk, and market risk in that order based on the amount of capital allocated in accordance with the Basel capital adequacy standards. In addition, a number of ancillary risks have emerged as a result of various developing trends, endangering the Bank's business model (D Refer page 53 for a summary of such emerging events). These risks together with the events mentioned in the preceding paragraphs, may significantly affect nearly all of the Bank's primary risk categories. However, the Bank was able to manage the related risks, optimise the trade-off between risk and return, maintain stability, retain the trust of its stakeholders - depositors in particular - and continue creating sustainable value due to the robust risk governance framework and the rigorous risk management function in place.

#### **Objectives**

The primary objectives of the Bank's risk governance framework and risk management function include:

- Establishing the necessary organisational structure for risk management and oversight;
- Defining the desired risk profile in terms of risk appetite and risk tolerance levels;
- Institutionalising a positive risk culture within the Bank that embodies values, beliefs, attitudes, and practices to drive highly effective risk decisions;
- Assigning functional responsibility for decisions relating to accepting, transferring, mitigating, and minimising risks and recommending the best ways of doing so;
- Evaluating the risk profile against the approved risk appetite on an ongoing basis;
- Estimating potential losses that could result from plausible risk exposures;
- Conducting regular stress tests to make sure that the Bank has enough liquidity and capital buffers to meet unexpected losses and fulfill contractual obligations;

- Integrating risk management into the development and implementation of strategies;
- Ensuring the effective use of available capital to generate the best possible risk-return trade-off; and
- Encouraging improved communication of risk among all levels of the Bank.

#### Key challenges to risk management in 2023

The key challenges in 2023 from a risk management perspective are detailed below:

- Low demand for Credit the overall demand for private sector credit continued to remain subdued during most part of the year under review due to the dampened economic conditions and high rates of interest that prevailed during the first half of the year. With a pickup in credit growth commencing from May 2023, the total loans and advances portfolio recorded a marginal growth of 4.27% as at December 31, 2023 over the previous year end.
- Heightened Credit Risk The borrowers' ability to repay debt continued to be negatively impacted by high interest rates and challenging economic conditions that overflowed from the previous year. Various schemes of moratoria that were given to borrowers in certain industries continued in 2023, but came to an end by December 2023. All these factors taken together, the Bank continued to witness a heightened level of credit risk.
- Provisioning for Government Securities

   While the Domestic Debt Optimisation was finalised and a plan for settlement of Sri Lanka Development Bonds (SLDBs) was agreed during the year without much impact, the banks continued to increase impairment provisions on their investments in Sri Lanka Sovereign Bonds (SLSBs) in anticipation of higher loss rates. Accordingly, the Bank increased impairment provision on SLSBs by Rs. 27.0 Bn.,(with the exchange rate impact), bringing the cumulative provision to Rs. 95.9 Bn. as at December 31, 2023.
- "Masked" credit risk This refers to the exposure of the Bank to a form of financial risk wherein certain aspects of a borrower's credit risk profile are concealed or not fully transparent, influencing the overall determination of the borrower's creditworthiness. The Bank has been compelled to safeguard borrowers' privacy and mitigate bias or discrimination during lending decisions. The consequences of masked credit risk are extensive, potentially leading to a false sense of security within

the Bank and consequently, a lack of transparency in financial reporting. This exposure places the Bank at risk of capital misallocation, losses resulting from unforeseen defaults, and even fraudulent activities, posing a significant threat to its reputation.

- Managing the exchange rate risk With a significant proportion of both assets and liabilities being denominated in foreign currency and with operations in several countries, sharp fluctuations in exchange rates can have a notable impact on the profitability as well as the financial position of the Bank. Following the unprecedented depreciation from Rs. 200 to Rs. 367.00 against the US Dollar in 2022, the Sri Lankan Rupee settled down at Rs. 324.25 as at end 2023. However, continued stability in exchange rates is contingent upon many variables such as continuation of the IMF programme, achieving milestones in relation to debt sustainability. growth in worker remittances and tourist arrivals.
- Challenges in balance sheet management Managing the balance sheet continued to be challenging due to the Bank having to make significant investments in government securities as a result of the lower demand for credit over the past four years. The Board and the Management level committees, including the ALCO, the Board Investment Committee, and the Board level, engaged in lengthy deliberations before making investment and re-investment decisions. After much discussion, solutions for managing investment risk, interest rate risk, liquidity risk, and foreign exchange risk were developed. These moves helped efficient management of the balance sheet. Reinvestment risk in government securities was given particular consideration.
- Increased cyber security risk The potential for cyber security assaults continues to increase due to clients' growing reliance on digital banking products and services and the increasing levels of automation of internal operations for operational efficiency. Therefore, in order to avoid related remediation expenses and reputational damage, the Bank prioritised and fortified its cyber security programs.
- Increased compliance risk In the wake of increasing compliance requirements and regulatory scrutiny coupled with growing complexity of operations, compliance teams continued to engage with the risk management team to ensure compliance

with regulatory requirements to prevent any financial impact and regulatory sanctions due to non-compliance and avoid reputational risk.

### Key risk management initiatives adopted in 2023

In the wake of the aforementioned challenges, the Bank implemented various initiatives during the year to manage risks which, among others, included the following:

Classification / declassification of Risk Elevated Industries (REIs) – IRMD continued to independently classify / declassify industry sectors that are identified as susceptible to business cycles and could face higher negative impact during times of recession or negative economic growth ("Risk Elevated Industries or REIs"), thereby strengthening the underlying governance framework. This was done through analysis of stress levels of borrowers in the Bank's loan book and their industries, taking into account macro and micro variables such as GDP growth, account operations / days past due position, early warning signals etc.

Strengthening individual impairment In order to comply with the regulatory guidelines, further strengthen the process and enhance accuracy of related provisioning, IRMD commenced an independent review of credit facilities and borrowers subjected to individual impairment, on a guarterly basis. This involves a review of cash flow projections done by the business units to determine how objectively such projections have been made, based on the knowledge of the industry and borrowers IRMD possesses and challenge the business units wherever the conclusions significantly differ. The effectiveness of this review is evident from the gradual improvement of cash flow projections leading to improved back testing results. Hence, the further strengthening of impairment provisioning against credit exposures of Individually Significant Customers.

Risk management as an enabler in business innovation – IRMD is not merely about risk prevention; it acts as a catalyst for business innovation and helps the Bank maintain the optimum balance between risk and return. It takes on this role, for example, by identifying Risk Elevated Industries sectors vulnerable to risks - and assisting them to manage their activities. Additionally, IRMD enhances credit risk rating mechanism of financial subsidiaries/ associate companies, ensuring alignment with industry standards.

Risk governance and management

Expanding the use of the Early Warning Signals (EWS) mechanism - The Early Warning System (EWS) framework has significantly aided the Bank in promptly identifying credit risk by using sophisticated analytical tools with predictive capabilities to anticipate potential defaults among borrowers. This capability has enabled the Bank to take pre-emptive measures to mitigate credit losses. Moreover, the system tracks the correlation between the risk assessments made during credit evaluation and the eventual classification of these facilities as Non-Performing Credit Facilities (NPCF). Additionally, it has bolstered underwriting standards for high-risk proposals. To reinforce this process, an EWS Health Council has been established.

Implementing RCSA in all IT related processes – The Bank implemented a quarterly Risk and Control Self-Assessment (RCSA) process in all business units responsible for technology driven banking products and services such as payment cards and electronic banking, and information technology and information security, as required by the CBSL Direction No. 16 on Regulatory Framework on Technology Risk Management and Resilience for licensed commercial banks. This RCSA process is monitored by the IRMD.

FCY Liquidity Contingency Plan – Further refined the foreign currency (FCY) liquidity contingency plan based on lessons learned during 2022 and early part of 2023 with regard to FCY liquidity. The Bank also extended the monitoring process to Bangladesh for both the Bangladesh Taka and the US Dollar.

Improving alignment with Social and Environmental Management System (SEMS) – enhanced the alignment with social and environmental dimensions by incorporating climate aspects into the Bank's SEMS risk assessment introduced in 2010. The Bank is in the process of drawing a Climate Risk framework with the assistance of a third party focusing on the Bank's carbon footprint against the country's net zero targets. The Bank is also looking to lend towards sectors that contribute to a reduction in GHG emissions.

Green Financing Policy – The Bank identified green financing as an area of strategic focus and engaged the services of International Finance Corporation (IFC) in 2017 to assist in developing the Green Financing strategy for the Bank. Ever since, Green Financing has become well integrated in to the corporate strategies of the Bank. Given that it is a continuously evolving subject and hence, the need to align the Bank to suit the global standards as well as local regulations and requirements, the Bank developed a Green Financing Policy during the year.

Group Social and Environmental Policy – Updated the Group Social and Environmental Policy by incorporating Green Financing Policy to the list of other aligned policies, viz. Social and Environmental Risk Management Procedure(s), Credit Policy and Lending Guidelines, committing to the principle of "Do No Significant Harm to the environment" to be in line with the Sri Lanka Green Financing Taxonomy, May 2022 and to acknowledge the Bank's commitment towards emerging financial risks posed by climate change and climate risk assessment.

Updating the BIRMC Charter for Financial Consumer Protection Regulations – Updated the Board Integrated Risk Management Committee (BIRMC) Charter to include responsibilities for reviewing, approving, and providing oversight for the Financial Consumer Protection Regulations Framework of the Bank and periodic evaluation on the adequacy of controls to ensure that an appropriate monitoring mechanism is in place to ensure compliance with the Financial Consumer Protection Regulations.

Climate risk-based value generation – With a view to be the pioneer in climate risk-based value generation by embracing a robust ESG framework in support of Sustainable Banking Initiatives of the Bank by 2025, the Social and Environmental Risk Unit of the IRMD together with the Sustainability Banking Unit and the Investment Banking Unit initiated efforts to obtain global best practices/tools to be implemented in the Bank and become a beneficiary of concessionary financing. In this regard, the Bank commenced a pilot project to analyse the portfolio for climate risk.

**Establishment of the Executive** Sustainability Committee – To fortify the governance structure within the Bank and ensure a steadfast commitment to sustainability, the Bank established the Executive Sustainability Committee, which will play a pivotal role in steering the sustainability agenda and overseeing its implementation. The Committee convenes quarterly, providing a robust platform for strategic discussions, decision-making, and the alignment of the practices with global and national sustainability frameworks. The establishment of this Committee underscores the Bank's dedication to improve our sustainability practices and maintain the highest standards in sustainable banking.

Streamlining customer complaint handling – customer complaint handling process was streamlined by implementing the customer complaint management system to improve customer satisfaction and enable better resolution of their grievances.

Strengthening cyber security – the Bank conducted ongoing independent risk evaluations and monitored its IT risk profile based on the established key IT risk indicators. The performance of the Commercial Bank of Ceylon PLC was ranked as 'Excellent' at TechCERT's annual Cyber Security Drill 2023.

Improve the scope of Privilege Access Monitoring (PAM) – Commenced review of high priority systems with a view to onboard them to the PAM tool, arrange a mechanism to obtain native logs where any system cannot be onboarded due to the Bank not having application level access and to prepare scenarios to be checked.

Data Governance - In order to comply with the requirements of Banking Act **Directions No. 16: Regulatory Framework** for on Technology Risk Management and Resilience for Licensed Banks and to fulfill the obligations of the Bank in terms of the Personal Data Protection Act which came into effect from September 2023, the Bank took the several steps during the year. These included the introduction of a Data Protection Impact Assessment, development of a Board approved Data Governance Policy. appointment of a Data Protection Officer and creating awareness on the subject among several layers of the Management and the Board, putting in place the required framework to ensure compliance at the respective line of defence.

Policy for Continuous Professional Development – As mandated by the Banking Act Directions No. 16: Regulatory Framework for on Technology Risk Management and Resilience for Licensed Banks, the Bank developed a Policy for Continuous Professional Development (CPD) for Information Security, Technology Risk Management and Internal Audit Functions, during the year. The Policy has set out the applicable departments, CPD requirements, qualifying CPD activities, and submission of CPD details for assessment.

**Contribution of the BIRMC** – Throughout the year, the BIRMC too diligently discharged its duties by reviewing and addressing all the significant risk categories. The focus for 2023 was on managing the deteriorating credit quality in various industries due to challenging operating conditions. The Committee evaluated affected sectors and made strategic decisions to optimise growth,

profitability, and asset quality in light of economic changes. It reviewed and approved parameters and limits, implemented the Data Governance Policy Framework, and monitored risk metrics regularly. The BIRMC recommended improvements to the Risk Management Framework, revised the Terms of Reference for Management Committees, and deliberated on operational efficiency and disruptions. It also oversaw the Bank's Recovery Plan, assessed the impact of unusual market movements, and ensured the effectiveness of the risk management and compliance functions. The BIRMC took action against failures in risk management and continuously monitored the risk profiles of subsidiaries, Sustainable Banking Initiatives, and Business Continuity and Disaster Recovery plans. Additionally, findings from the bi-annual Risk Control Self-Assessment exercise were thoroughly reviewed.

Details of specific activities undertaken by the BIRMC during the year to further risk governance and risk management are given in its report on page 199 and 200 of this Annual Report.

#### **Risk appetite and risk profile**

The Board-endorsed Risk Appetite Statement outlines the types and degrees of risks, and the maximum amount of aggregate risk exposure that the Bank is willing to assume at any given point in time. It quantifies risk thresholds across various indicators for each risk category, showing the Bank's preferred asset guality, maximum market and operational risk losses and minimum capital and liquidity requirements. This statement considers the dynamic operating environment, regulatory requirements, strategic focus, ability to withstand losses, and stress scenarios with available capital, funding, liquidity, and the strength of the risk management framework.

Regular reports from the risk management function to the Management, BIRMC, and the Board detail the Bank's overall risk status using Key Risk Indicators and a Risk Profile Dashboard. This information allows for continuous monitoring of the risk profile, ensuring adherence to the approved risk limits. Swift corrective measures are taken for any deviations to maintain actual risk exposures within the approved risk appetite.

The Bank's risk profile is shaped by its capital adequacy and liquidity positions, which determine its capacity to take on risks. It is characterised by a portfolio of high-quality assets and stable funding sources diversified across geographies, sectors, products, currencies, sizes, and tenors. The risk profile of the Bank's Sri Lankan operations as of December 31, 2023, and December 31, 2022 in comparison to the defined risk appetite by regulatory/Board-approved policies, is presented below:

				Table – 47
Risk category	Key Risk Indicator	Policy parameter	Actual	position
			December 31, 2023	December 31, 2022
Credit risk:				
Quality of lending	Impaired loans Stage 3 ratio (%)	2 – 5	5.85	5.25
portfolio	Impairment (Stage 3) to Stage 3 loans ratio (%)	40 – 45	43.22	39.60
	Weighted average rating score of the overall lending portfolios to be better than '6' (%)	35 – 40	80.89	51.14
Concentration	Loans and advances by product – Highest exposure to be maintained as a percentage of the total loan portfolio (%)	30 – 40	35.40	37.78
	Advances by economic sub sector (using HHI-Herfindahl- Hirschman-index)	0.015 - 0.025	0.0136	0.0152
	Exposures exceeding 5% of the eligible capital (using HHI)	0.05 - 0.10	0.0095	0.0096
	Exposures exceeding 15% of the eligible capital (using HHI)	0.10 - 0.20	0.0049	0.0087
	Exposure to any sub sector out of total loan portfolio to be maintained at (%)	4 – 5	3.18	4.05
	Aggregate of exposures exceeding 15% of the eligible capital (%)	20 – 30	15.04	19.61
Cross border exposure	Rating of the highest exposure of the portfolio on S&P Investment Grade – AAA to BBB-	AA	AAA	AAA
Market risk:				
Interest rate risk	Interest rate shock: (Impact to NII as a result of 100bps parallel rate shock for LKR and 25bps for FCY)	Maximum of Rs. 2,000 Mn.	Rs. 100.79 Mn.	Rs. 392.20 Mn.
	Maximum repricing gap (RSA/RSL in each maturity bucket – up to one- year period)	<1-1.5 Times	0.99	1.36
Liquidity risk	Liquid Asset Ratio for Domestic Banking Unit (DBU)	22%	46.40%	35.01%
	Liquidity Coverage Ratio (LCR) for All Currencies	100%	516.27%	293.91%
	Net Stable Funding Ratio (NSFR)	100%	193.70%	173.58%
Foreign exchange risk	Exchange rate shocks on Total FCY exposure	Rs. 750 Mn.	Rs. 602.23 Mn.	Rs. 725.73Mn.
Operational risk	Operational loss tolerance limit (as a percentage of last three years average gross income)	3% - 5%	0.23%	0.86%
Strategic risk:	Capital adequacy ratios:			
	CET 1	Over 8.5%	11.442%	11.389%
	Total capital	Over 14%	15.151%	14.657%
	ROE	Over 15%	<b>9.78</b> %	12.46%
	Creditworthiness – Fitch Rating	AA(lka)	A(lka)	A(lka)

#### **Risk profile**

#### **Credit rating**

Fitch Ratings Lanka Ltd. downgraded the Bank's rating from AA-(lka) with a Negative Outlook to A(lka) in January 2023 amidst the sovereign downgrade and recalibration of the Fitch Ratings' Sri Lanka's national rating scale. A Stable Outlook with A(lka) rating was affirmed by Fitch in October 2023. Change of rating outlook from Negative to Stable was largely due to ease in downside risks for the banking sector with upgrades to Sri Lanka's Long-Term-Local-Currency Issuer Default Rating to CCC- from RD (Restricted Default).

Further, the successful conclusion of the local currency sovereign debt restructuring has alleviated some pressure on the Bank's capital position from weakening loan quality and increased provisioning for Sri Lanka Sovereign Bonds.

### Future outlook and plans for 2024 and beyond

The tumultuous economic conditions somewhat eased during 2023 compared to the precedent year. The resulting risk impacts on the Bank and how the Bank navigated through them are elaborated in the preceding sections of this risk management report. The CBSL and research institutions, have expressed a moderate recovery for the Sri Lankan economy for 2024. In the local front, some confidence was evident in hard hit sectors such as tourism in the form of notable increase in foreign tourist arrivals. Renewed confidence, though small comparatively, motivated expatriates to increase foreign remittances. Yet, Sri Lanka continued to struggle amid low tax income and high debt burden. The Government is yet to agree on the way forward for sovereign debt restructuring.

The world economy is showing signs of a very delicate balance with political tensions between nations threatening to disrupt world peace. Furthermore, increase in prices of essential commodities, disruptions to supply chains, global inflation, food insecurity, and increasing incidents due to climate change, increasing incidents of financial crimes, cyber-security breaches, negative impacts of misinformation/ disinformation, continue to threaten the outlook for 2024.

In the aftermath of climate changeinduced disasters and the growing awareness of sustainable finance, both governments and businesses consider managing climate risks a paramount concern. The initiatives undertaken by the Bank in the past years are laying the groundwork for a more systematic and sustainable approach to business. It is expected that risks will become more unpredictable, increase in magnitude, and become interconnected. The Bank needs to be mindful of the interrelated nature of risks and the potential for contagion effects, where one risk sets off a ripple effect on many others.

Conversely, regulatory requirements are anticipated to become more stringent due to the emerging complexities of the economy and challenges to the industry. Further, Sri Lanka is preparing for the upcoming Financial Action Task Force (FATF) Mutual Evaluation scheduled for March 2025. It is crucial to attain technical compliance with the FATF's 40 Recommendations and guarantee positive outcomes in the implementation of an Anti-Money Laundering/Countering the Financing of Terrorism framework. Hence, regulations pertaining to issues such as anti-money laundering and sanctions are likely to take a prominent role. Consequently, enhanced integrated risk management methodologies and systems will be crucial in the upcoming years. The cost of doing business, in terms of managing risks and ensuring compliance, is expected to rise accordingly. The consequences of non-compliance or the realisation of an unforeseen risk would be more challenging.

These circumstances require an enhanced focus on fortifying risk governance, assessment, control and management functions. Proactively anticipating risks and implementing preventive measures to counter potential adverse effects will be crucial in this environment. The swift progress in technology, particularly the utilisation of Artificial Intelligence (AI) and Business Intelligence (BI) for driving business innovations, will continue to hold significance in the times ahead. Consequently, the Bank will explore opportunities arising from these innovations to foster business growth and effectively handle the complex risks associated with these advancements. The role of risk management will be to facilitate business growth by offering proactive and forward-thinking risk management strategies, serving as a genuine catalyst for business development.

The future landscape of risk management will be heavily influenced by growing new regulatory requirements, cyber threats, prominence of cyber threats and customer expectations. The Bank is gearing itself to leverage technology and enhance collaboration to address these influences by heightening its focus on advanced digital predictive capabilities, data analytics and intelligence. In order to accelerate the journey to be future ready in this regard, the Bank entered into an agreement with an external party to obtain consultancy to develop a holistic view and adopt a scalable solution to achieve desired maturity.

Specific initiatives planned for 2024 and beyond in this regard will encompass:

- Development of a Data Analytics Roadmap with use cases for several business units to be implemented along with required training.
- Introducing predictive capabilities into credit risk and operational risk supported by EWS and data analytics. This would facilitate effective prediction of risks and streamline capital requirements for such risks.
- Introducing technology to independently predict future cash flows to further improve accuracy of impairment provisions relating to individually significant customers. This will enable the IRMD to assess the accuracy and acceptability of the assumptions used by the business units for cash flow projections. This initiative is expected to enable the IRMD to assess all the individually significant customers within the prescribed time horizon and improve acceptability from independent assurers' perspective as well.
- As part of the efforts to digitalise the Treasury operations through an integrated system encompassing trade finance, remittances, digital banking and a client interface, implementation of the new Treasury system will be completed in Q2 2024. This will enable the IRMD to independently monitor Treasury operations in both Sri Lankan and Bangladesh operations.
- Subsequent to the integration of the Risk Control Self-Assessment (RCSA) framework within CBC Myanmar Microfinance Company and Commercial Insurance Brokers Limited during the year 2023, Risk Management framework is planned to be implemented at Commercial Insurance Brokers (Pvt.) Ltd. in the year 2024.
- Enhancing the analytical capabilities of the EWS to capture retail lending (credit cards, personal loans and home loans) products in addition to SME lending and providing business units with EWS analysis for effective business decisions and objective business growth.

- Introduction of risk control mechanisms and processes through knowledge enhancement on critical IT systems adopted in the Bank and through benchmarked tools and effective software support.
- Introducing an intelligent Credit Risk Review (CRR) tool coupled with a workflow capability through a data repository to facilitate pattern recognition and proactive decision-making.
- Introducing behavioural decision-making models to selected retail lending products (credit cards and personal loans) through data analytic capabilities.
- Introducing a climate risk assessment tool in line with emerging global initiatives to continue the pioneering activities of driving the ESG agenda. The Executive Sustainable Banking Committee to develop an ESG framework, and identify, and assess ESG risks and opportunities of the Bank.
- Reviewing the pending regulation on large exposure limits which will impact the Bank as well as large borrowers of the Bank.
- Extending the scope of Bank's ISO 27001 Certification to encompass additional business functions in accordance with Banking Act Directions No. 16 of 2021.

#### **Risk management framework**

The Bank has a comprehensive Integrated Risk Management Framework (IRMF) developed according to CBSL guidelines and the Three Lines of Defence model. This framework considers the distinct roles of different Bank departments and how they collectively contribute to the Bank's risk management effectiveness. It is a structured approach encompassing all risk exposures, supported by robust organisational structures, systems, processes, procedures, and global best practices. It addresses potential risks, losses, and uncertainties faced by the Bank. Following the international standard of the Three Lines of Defence model, the IRMF equips the Bank with specialised skills and a framework to manage risks efficiently while balancing responsibilities across daily operations.

The IRMF undergoes an annual review or more frequent updates, particularly considering changes in regulatory and operational environments.

#### **Risk governance**

Risk governance represents the structured organisational setup aimed at upholding high standard of governance. It encompasses committees, regulations, processes, and mechanisms guiding risk-related decisions aligned with the risk appetite and tolerance levels. Its goal is to embed a robust risk culture while overseeing and managing risks effectively.

Implementing the Three Lines of Defence model fosters a responsible risk culture with clear accountability at every level. The Board of Directors has established a strong governance framework, blending corporate governance best practices with risk management. This structure, inclusive of Board committees, executive functions, and empowered executive committees, ensures accountability for risks across all Bank levels and types.

This disciplined approach to risk management is illustrated in the Bank's risk governance organisation outlined in Figure 46 on page 238. Decision-making in risk management, due to its specialised and cohesive nature, is somewhat centralised across various risk management committees to ensure an integrated and consistent approach.

#### **Board of Directors**

The Board of Directors serves as the highest governing body, tasked with formulating strategy and policies, setting objectives, and overseeing executive functions. It bears the overarching responsibility for supervising the risks undertaken by both the Bank and the Group, ensuring their proper identification and management (III) Refer to pages 160 to 167 for detailed profiles of the members of the Board of Directors). Hence, the Board establishes the risk appetite of the Bank by striking a balance between achieving strategic goals and the level of risk assumed in pursuit of those goals. Oversight responsibility has been delegated by the Board to various Board committees, as listed on page 181. These committees, supported by executive-level counterparts, collaborate closely with the executive functions to evaluate the effectiveness of the risk management function. They regularly report their findings to the Board, providing a comprehensive view of the Bank's risk profile, management actions, and outcomes. This facilitates the Board in recognising risk exposures, identifying potential gaps, and implementing necessary mitigating actions promptly. The Board consistently guides the executive management in aligning business strategies and objectives with the desired risk levels. The ethical and effective leadership of the Board, coupled with the established tone at the top and corporate culture, plays a pivotal role in effectively managing risks at the Bank.

Bevond the Three Lines of Defence model and the tone set by top management, the Bank places considerable emphasis on conducting its business ethically as a crucial aspect of risk management. The Bank's steadfast dedication and its demands on all employees to conduct business responsibly, transparently, and with discipline are clearly outlined in various documents. These include the Code of Ethics, Gift Policy, Communication Policy, Credit Policy, Anti-Bribery and Anti-Corruption Policy, and Conduct Risk Management Policy Framework. These documents underscore the expectation for the highest standards of honesty, integrity, and accountability from every employee.

Due to the potential for financial losses and reputational risk, and in compliance with regulatory requirements, the Board of Directors diligently oversees the risk profiles of all subsidiaries within the Group, in addition to that of the Bank (III) Refer to page 142 for the list of subsidiaries.)

#### **Board committees**

The Board has established four Board committees to aid in fulfilling its oversight responsibilities for risk management and ensuring the sufficiency and effectiveness of internal control systems. These committees are:

- Board Audit Committee (BAC)
- Board Integrated Risk Management Committee (BIRMC)
- Board Credit Committee (BCC)
- Board Strategy Development Committee (BSDC)

Each sub-committee operates according to its Terms of Reference (ToR) and holds meetings at predetermined intervals and as needed. Through their discussions and evaluations, these committees review and provide recommendations to the Board on matters such as risk appetite, risk profile, strategy, risk management and internal control frameworks, risk policies, limits, and delegated authority.

For comprehensive information regarding the composition, Terms of Reference, authority, meeting details, attendance records, activities conducted during the year, and more, refer to the respective subcommittee reports on D pages 195 to 235.

#### **Executive Committees**

The executive management holds the responsibility for implementing strategies and plans as per the mandates assigned to each committee by the Board of Directors. This is done while ensuring that the risk profile remains within the approved risk appetite. The Executive Integrated Risk Management Committee (EIRMC) consists of members from units overseeing credit risk, market risk, liquidity risk, operational risk, and IT risk. Led by the EIRMC, several committees have been established to address specific aspects of risk, facilitating comprehensive risk management across both the First and the Second Lines of Defence.

- Asset and Liability Management Committee (ALCO)
- Credit Policy Committee (CPC)
- Executive Committee on Monitoring Non-Performing Credit Facilities (ECMN)
- Information Security Council (ISC)
- Business Continuity Management Steering Committee (BCMSC)
- Executive Sustainability Committee (ESC)

The EIRMC actively communicates with the BIRMC to ensure that risk management activities align with the Integrated Risk Management Framework and that risks are managed within the specified parameters. Furthermore, the Chief Risk Officer directly reports to the BIRMC, emphasising the independence of the risk management function. Specifics regarding the composition of the executive committees can be found in the "Annual Corporate Governance Report" on pages 185 and 186.

Ensuring adequate presence in all major risk and control forums, the Chief Risk Officer, who is leading the Integrated Risk Management Division (IRMD), actively engages in the executive committees mentioned earlier, as well as in BIRMC, BCC and BAC meetings. The IRMD bears the responsibility of autonomously overseeing the compliance of the First Line of Defence with established policies, procedures, guidelines, and limits. Any deviations are to be escalated to the relevant executive committees. The IRMD also offers a comprehensive perspective on all types of risk to facilitate independent risk assessments by these committees. The findings are then shared with Line Managers and Senior Management, fostering effective communication of significant issues and prompting discussions and necessary actions.

#### **Risk management**

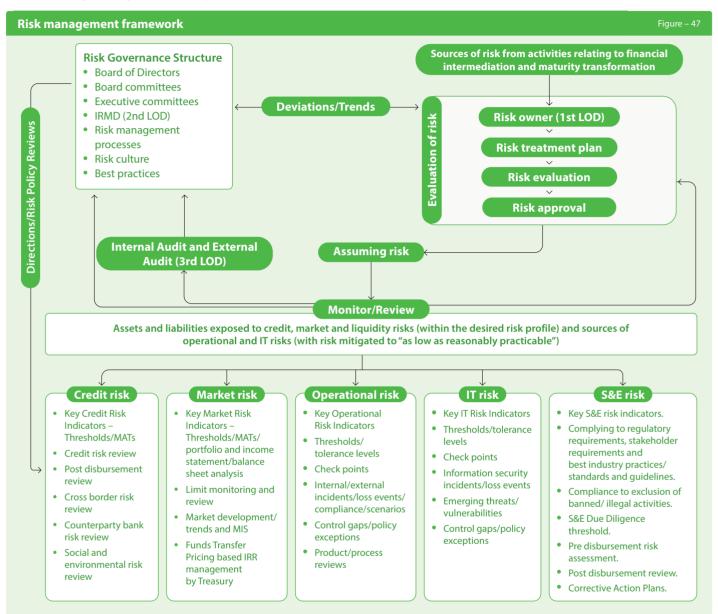

Risk management entails the functional responsibility of identifying, assessing, controlling, and mitigating risks. This includes formulating risk mitigation strategies, monitoring early warning signals (EWS), estimating potential future losses, and implementing measures to contain losses or transfer risk. The risk management framework (depicted in Figure 47) aids in devising and executing risk management strategies, policies, and procedures. This framework considers the strategic focus outlined in the Bank's Corporate Plan and its risk appetite.

To bolster the detection and management of risks, the Bank has made substantial investments in developing and maintaining the necessary infrastructure, encompassing human and physical resources. This includes mandates, policies and procedures, limits, software, databases, expertise, communication channels, etc., aligning with international best practices. As risk management is a collective responsibility of every Bank employee, a clear understanding of the risks faced is crucial. The IRMD provides continuous training and awareness programs, particularly for risk owners, disseminating knowledge and enhancing skills on all aspects related to risk to instill the desired risk culture throughout the organisation.

#### Policies, procedures, and limits

The Bank has established a comprehensive set of risk management policies covering all managed risks. These policies serve to guide business and support units in risk management, ensuring regulatory compliance, including adherence to the Banking Act Direction No. 07 of 2011 – Integrated Risk Management Framework for Licensed Commercial Banks, based on the Basel Framework, and subsequent directives from the Central Bank of Sri Lanka (CBSL). By institutionalising the risk knowledge base, these policies aim to reduce bias and subjectivity in risk decisions.

Key documents, such as risk management policies, contribute to defining the Bank's risk culture by outlining objectives, priorities, processes, and the roles of the Board of Directors and the Management in risk management. The Risk Assessment Statement (RAS) establishes risk limits and is an integral component of the risk management framework. The BIRMC and the Board of Directors review the RAS at least annually, if not more frequently, aligning with regulatory and business requirements. Considering the regulatory landscape in the countries where it operates, the Bank ensures its overall risk exposure, including international operations, remains within the CBSL's regulatory framework. Operational guidelines have been issued to facilitate the implementation of the Risk Management Policy and the limits outlined in the RAS. These guidelines provide staff with clarity on the types of facilities, processes, and terms and conditions governing the Bank's daily operations.

#### **Risk management tools**

The Bank employs a combination of qualitative and quantitative tools to identify, measure, manage, and report risks. The selection of the most appropriate tool(s) for managing a specific risk is determined by factors such as the likelihood of occurrence, potential impact, and data availability. Among the tools utilised are Early Warning Systems (EWS), threat analysis, risk policies, risk registers, risk maps, risk dashboards, Risk and Control Self-Assessment (RCSA), Internal Capital Adequacy Assessment Process (ICAAP), diversification strategies, covenants, Social and Environmental Management System (SEMS), workflow-based operational risk management system, insurance, benchmarking against limits, gap analysis, Net Present Value (NPV) analysis, swaps, caps and floors, hedging, risk rating, risk scoring, risk modeling, duration analysis, scenario analysis, marking to market, stress testing, and Value at Risk (VaR) analysis, among others.

Sumn	nary of key Risks				Figure – 48
			External		
	Conomic performance and trade cycles	Cyber threats	Increased regulations	Stability of fiscal and monetary policy	Other emerging risks
ctive Mitigation	Guiding business strategy and resource allocation communicated to business lines.	Specialised teams within the risk management function (in addition to the First Line of Defence) and continued investments in enhancing cyber security. #### **Types of risks**

The Bank faces a diverse range of both financial and non-financial risks, broadly classified into categories such as credit, market, liquidity, operational, reputational, IT, strategic, social & environmental, and legal risks. The collective impact of these risks determines the overall risk profile of the Bank, which is regularly monitored against the established risk appetite.

The Bank has implemented a robust risk management framework, allowing for the prudent management of these risks. Despite these measures, banks are not entirely immune to the substantial uncertainty stemming from external developments and internal factors, which will persistently influence their risk profiles. Ongoing vigilance and adaptability are essential in navigating the dynamic risk landscape.

External developments may include;

- The outbreak of pandemics
- Movements in macroeconomic variables
- Fragile supply chains
- Sovereign risk destabilising financial markets
- Political instability
- Demographic changes
- Changes in Government fiscal and monetary policies
- Technological advances
- Regulatory developments
- Mounting stakeholder pressures especially for ethical business practices
- Competitor activities
- Unsubstantiated information being circulated on social media and hence, the increased public scrutiny
- A decline in property market valuations giving rise to higher losses on defaulting loans
- Unfounded public perceptions that banks are exploiting customers
- Distressed businesses and individuals
- Downgrading of ratings of the banks and
- Growing sustainability concerns

In addition to restricting the physical mobility of individuals and global trade, these developments have the potential to influence public perceptions, people's disposable income, demand for banking products and services, the funding mix, interest margins, and the tax obligations of the Bank.

Internal factors may include;

- High staff turnover
- Knowledge and skill gaps among staff members
- Lapses in internal administration
- Deterioration of internal sub-cultures
- Deliberate acts of fraud, cheating, and misappropriation etc.
- Arbitrary decision making
- Inaccurate/insufficient risk reporting
- Inadequacies/misalignments of digitisation
- Strategic misalignments
- Lapses in implementing the risk management framework
- Improper alignment of remuneration to performance and risk
- Incorrect advice offered to customers
- Inaccurate predictions of macroeconomic variables
- Execution gaps in internal processes
- Lack of industrial harmony
- Critical accounting judgments and estimates turning to be inaccurate
- Lack of robust data infrastructure adversely affecting business and operational decisions and
- Subsidiaries and associates not performing up to the expectations of the Bank.
- Challenges in adopting to evolving regulations and compliance requirements

If not effectively managed, these factors have the potential to impact the risk profile of the Bank and lead to reputational damage, hindering the goal of creating sustainable value for all stakeholders. Moreover, the operating environment has become notably more intricate and uncertain due to emerging threats and uncertainties that could disrupt the status quo. This has challenged longstanding assumptions about markets, competition, and fundamental business principles. To address these concerns, the Bank must gain a deeper understanding of its stakeholders and strive for excellence in internal processes execution. The Bank navigates these developments by implementing strategic responses, viewing them as opportunities to distinguish its value proposition for future growth. A concise summary of key risks is provided in Figure 48 on page 241.

These evolving circumstances are progressively heightening the complexity, dynamism, and competitiveness of the operating environment, posing ongoing challenges for risk management. Effectively addressing these risks and adopting a consistent approach to navigate uncertainties are imperative prerequisites for implementing the Bank's strategy to create value for all stakeholders. Consequently, discussions on risk management took precedence on the agenda in all Board, Board Committee, and Executive Committee meetings of the Bank.

A detailed account of the various types of risks managed by the Bank's risk management function and the adopted risk mitigation measures is provided below.

#### **Credit risk**

Credit risk pertains to the potential financial loss that may occur when a borrower or counterparty fails to fulfill its obligations as per agreed terms. The Bank faces credit risk through both direct lending activities as well as commitments and contingencies. Various factors influence credit risk, including the quality of the lending portfolio, concentration levels, ratings of counterparties with international exposures, and sovereign ratings concerning government exposures. The unprecedented market and supply disruptions, and subsequent socio-economic and political developments prevailed during the year have led to certain consequences. These include obscured credit risk and an increase in risks across various sectors. In response, the Bank has been compelled to explore novel approaches for effectively managing and mitigating credit risk, all while carrying out existing risk management and mitigation processes in a more granular and stringent manner.

The Bank's total credit risk is made up of counterparty risk, concentration risk, and settlement risk.

#### Maximum credit risk exposure

	As of December	31, 2023	As of December	31, 2022
	Rs. Bn.	%	Rs. Bn.	%
Net carrying amount of credit exposure:				
Cash and cash equivalents	157.819	5.2	149.394	5.4
Placements with central banks and other banks (excluding reserves)	86.248	2.9	95.900	3.5
Financial assets at amortised cost – Loans and advances to Banks		0.0		0.0
Financial assets at amortised cost – Loans and advances to Other Customers	1,176.360	38.9	1,130.442	40.9
Financial assets at amortised cost – Debt and Other financial instruments	649.740	21.5	725.935	26.2
Financial assets measured at fair value through other comprehensive income	287.023	9.5	117.056	4.2
Total (a)	2,357.190		2,218.727	
Off-balance sheet maximum exposure:				
Lending commitments	157.205	5.2	132.065	4.8
Contingencies	507.169	16.8	415.235	15.0
Total (b)	664.374		547.300	
Total of maximum credit exposure (a + b)	3,021.564	100.0	2,766.027	100.0
Gross carrying amount of loans and advances to Other Customers	1,265.559		1,219.667	
Stage 3 (credit impaired) loans and advances to Other Customers	143.564		114.739	
Impaired loans as a % of gross loans and advances to Other Customers		11.3		9.4
Allowance for impairment – loans and advances to Other Customers	89.199		89.225	
Allowance for impairment as a % of gross loans and advances to Other Customers		7.0		7.3
Impairment charge – loans and advances to Other Customers	5.690		21.962	

Amidst the socio-economic changes in the country, the maximum credit exposure of the Bank increased from Rs. 2,766.0 Bn. (as of end December 2022) to Rs. 3,021.5 Bn. (as of end December 2023).

In view of the heightened risks mentioned earlier, the financial services industry continued to observe a rising trend in loans and advances to other customers being categorised as Non-Performing Credit Facilities (NPCF). Consequently, the creditimpaired (Stage 3) loans to customers of the Bank increased to Rs. 143.5 Bn. (compared to Rs. 114.7 Bn. as at end 2022), constituting 11.3% (compared to 9.4% in 2022) of the gross loans and advances to other customers. The Bank has made a cumulative impairment provision of Rs. 89.2 Bn. on the loans and advances portfolio as of December 31, 2023 in accordance with the requirements of SLFRS 9.

Additionally, due to the sovereign rating downgrade and the ongoing debt restructuring program in relation to Sri Lanka sovereign bonds (SLSBs), the Bank found it necessary to classify its exposure to SLSBs as Stage 2. Consequently, the Bank continued to increase impairment provisions for SLSBs during the year under review, bringing the cumulative provision to 52% or Rs. 95.9 Bn. of the exposure as at end 2023 from 35% or Rs. 68.9 Bn. as of the end of December 2022.

#### **Managing credit risk**

The lending portfolio represents 45% of the total assets of the Bank, with credit risk accounting for over 90% of the total risk-weighted assets. Consequently, the Bank places critical emphasis on prudently managing credit risk, extending beyond regulatory compliance. This focus is governed by a Board-approved credit risk management framework encompassing a robust risk governance structure and a comprehensive array of risk management processes. These processes involve policies and procedures, risk assessments, collateral management, credit risk segregation, environmental and social risk management, independent risk verifications, ongoing credit risk monitoring, post-disbursement reviews, guidance to business line managers, knowledge dissemination on credit risk, and internal audit information sharing.

Throughout the year, the EIRMC/BIRMC diligently addressed credit risk management due to the escalation of persistent risks. Vigilant oversight mechanisms were implemented to monitor exposures across three categories – Watchlist, High-risk list, and Exit list – in both Sri Lanka and Bangladesh operations. The top 5 Stage 3 customers in each subsector falling within these categories were under close surveillance. Moreover, leveraging insights from the EWS (Early Waning Signals) system, the movements of exposures and the count of customers categorised as EWS Watch List, Cautious Care, and Intensive Care were meticulously tracked. An effective process involving Lending Officers and the IRMD ensured continuous monitoring of stressed lending assets identified through EWS. IRMD independently reviewed impairment of Individually Significant Customers, on a quarterly basis, with plans underway to enhance this process deploying technology to enhance accuracy and efficiency, in 2024.

During the year under review, the Bank continued to give significant attention to its exposures to the Risk Elevated Industries (REIs) and closely tracked the Expected Credit Loss (ECL) for individually and collectively impaired facilities in both Stage 2 and Stage 3 against the underlying exposures. A separate analysis and a monitoring process were maintained for tourism-related and such other exposures. The Bank closely monitored the top 10 borrowers in each REI category within Stage 2 and Stage 3. Simultaneously, the Bank paid close attention to its exposures to the Government, both in terms of commercial lending and against treasury guarantees, while also closely monitoring the concentration of collateral in its advances.

The Bank has established internal limits encompassing various aspects of credit exposure management, including but not limited to:

- Open credit exposure
- Aggregate credit exposures to corporate borrowers owned and controlled by a single common shareholder or stakeholder
- Related party exposure
- Economic group exposure ratio
- Cross border exposures

The Bank conducts post-disbursement credit reviews for Loans & Overdrafts in accordance with the "Credit Risk Review Policy." The scope of these reviews aligns with the provisions outlined in the Credit Policy, Lending Guidelines, and the Credit Risk Review Policy. Upon completing the review, the findings are communicated to lending officers, and their responses are subsequently assessed. In addition to routine reviews, particular emphasis is placed on lending units/regions displaying elevated stress levels in terms of substandard lending. Detailed analyses of these units are escalated to the Executive Committees for prompt actions.

Credit health checks for branches and other lending units involve assessments based on the credit evaluation process, account behaviour, risk rating, compliance with guidelines, post-sanction compliance, concentration levels in the Loan Book, recovery efforts, follow-up of Non-Performing Credit Facilities (NPCF), regular examination of problematic advances, credit process adherence, and the reporting system.

#### **Review of credit risk**

During the first half of the year under review, the Bank continued to face the aftermath of the challenging operating environment that marked the year 2022, economic difficulties, increased living costs and ongoing import restrictions, to name a few. The prevailing conditions led to heightened stress levels among individuals and businesses, SME sector in particular. However, the Government's proactive measures, including maintaining reasonable political stability, reaching agreements with the IMF on the Extended Fund Facility, conclusion of the Domestic Debt Optimisation and efforts to attract Foreign Direct Investments (FDIs) and revive tourism, played a role in reviving growth in credit to the private sector and sustaining economic activities at a moderate level in the second half of the year.

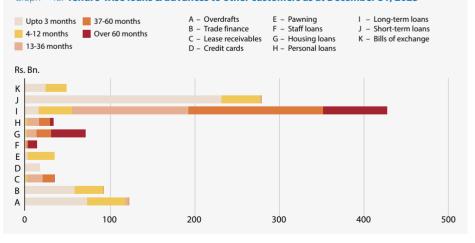

Consequently, the Bank exhibited resilience, gradually navigating the impacts of the challenges and making progress. Continuous efforts such as closely monitoring advances subjected to moratoria, implementing plans for facilities coming out of the moratoria, implementing recovery initiatives, intensifying scrutiny in loan appraisals, rationalising credit exposures through in-depth analyses, and undertaking post-sanction monitoring and recovery initiatives, coupled with the early identification of stressed borrowers through Early Warning Signals (EWS), contributed to maintain the credit quality at an acceptable level towards the end of 2023 and the mitigation of potential credit risks. The Bank adopted a cautious approach in creating new credit exposures and managing existing ones, particularly considering the increased social stress amid the country's economic conditions.

In addition to the robust credit risk management framework guiding the Bank in onboarding new exposures and monitoring existing ones, which significantly contributes to maintaining the quality of the loan book, the Bank remains vigilant and exercises caution in selecting customers, products, industries, segments, and geographies it serves. Continuous monitoring of age analysis and the movement of overdue loans through arrears buckets allowed the Bank to promptly take action, to effectively mitigate default risks during the year.

#### **Concentration risk**

The Bank proactively mitigated concentration risk by implementing strategic diversification across various dimensions such as industry sectors, products, counterparties, and geographies. The Risk Assessment Statement (RAS) establishes limits for these segments, ensuring compliance, and monitoring of these exposures is conducted by the Board, Board Integrated Risk Management Committee (BIRMC), Executive Integrated Risk Management Committee (EIRMC), and the Credit Policy Committee (CPC). These committees not only oversee these exposures but also provide recommendations and suggestions for adjustments to defined limits based on emerging trends and developments in the business environment.

Graph 48 provides a breakdown of the portfolio of total loans and advances to other customers based on tenure, aligning with the risk appetite defined by the Bank.

The distribution of Stage 3 credit- impaired loans and advances to other customers in terms of identified industry sectors at the year-end is given in Table 49 on page 245.

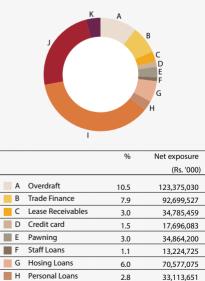

Graph – 48: Tenure-wise loans & advances to other customers as at December 31, 2023

<b>Distribution of Stage 3 credit impaired</b>	loans and advances to other customers as of December 31, 2023

					lable – 49
Industry Category	Stage 3 Loans & Advances	Allowance for Individual Impairment	Allowance for Collective Impairment	ECL Allowance	Amount Written-off
	Rs.'000	Rs.'000	Rs.'000	Rs.'000	Rs.'000
Agriculture, forestry & fishing	12,937,804	3,624,268	2,511,898	6,136,166	142,388

Due to the concentration of economic activities and the location of corporates' registered offices primarily in the Western Province, the Loan Book exhibits a high level of concentration in this particular province (refer to Graph 50).

J

An analysis of the Bank's lending portfolio by product (D refer to Graph 49) illustrates that the effectiveness of the Bank's credit policies is evident, with risks being well-diversified across a range of credit products.

### Graph – 50: Product-wise geographical analysis of loans & advances to other customers as at December 31, 2023

The Bank has a relatively high exposure of 36% to long-term loans, which is vigilantly monitored and mitigated through adequate collateral.

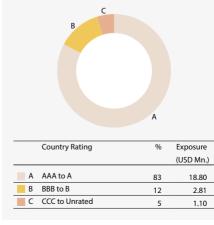

#### **Counterparty risk**

Counterparty risk management at the Bank is done through established policies, procedures, and limit structures, encompassing single borrower limits and group exposure limits for various products. The Bank has set limits that are more stringent than those mandated by regulators, offering greater flexibility in managing concentration levels related to counterparty exposures.

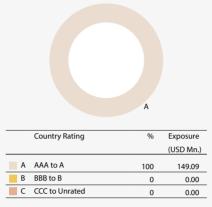

Loans and advances to the Bank from both local and foreign counterparties are significant contributors to counterparty risk. The Bank monitors these exposures against established product limits at regular intervals, employing a specific set of policies, procedures, and a limit structure. The financial and economic performance of counterparties is rigorously scrutinised throughout the year. For counterparty bank exposures, limits are monitored at frequent intervals, and adjustments are made as needed to reflect the latest information.

The analysis incorporates ratings provided by Fitch Ratings for local banks in Sri Lanka and Credit Ratings Agency in Bangladesh (CRAB) for local banks in Bangladesh. Equivalent CRISL/Alpha ratings are utilised in cases where CRAB ratings are unavailable. Exposure to local banks in Sri Lanka rated AAA to A category accounted for 83% (III) refer to Graph 51), while 100% of exposure to local banks in Bangladesh consisted of AAA to AA rated counterparties (III) refer to Graph 52) as at December 31, 2023.

Graph – 52: The concentration of counterparty bank exposures in Bangladesh as at December 31,2023 (CRAB ratings-wise\*)

Equal CRISIL/ Alpha ratings are given where CRAB ratings are unavailable

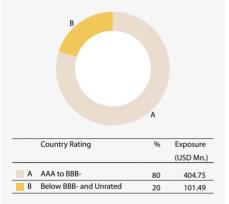

#### **Cross-border risk**

This pertains to the risk that the Bank may face challenges in receiving payments from its customers or third parties concerning contractual obligations due to specific actions taken by foreign governments, particularly those related to the convertibility and transferability of foreign currency. Assets exposed to cross-border risk include loans and advances, interest-bearing deposits with other banks, trade and other bills, as well as acceptances, mainly associated with short-term money market activities.

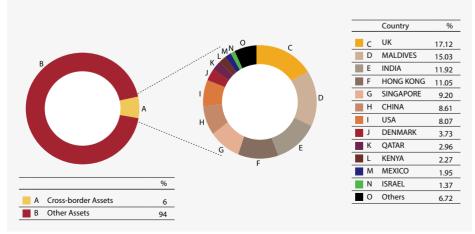

To mitigate the risk associated with over-concentration in cross-border exposures, the Bank has established limit structures. It consistently monitors macroeconomic and market developments in countries where counterparties are located, rigorously evaluates these counterparties, and maintains regular communication with them. Timely actions, such as suspending or revising limits to countries experiencing adverse economic or political developments, are taken.

The Bank restricts its total cross-border exposure to 6% of its total assets (Ш) refer to Graph 53). Cross-border exposures encompass various countries, including the UK, the Maldives, India, Hong Kong, Singapore, China etc. 80% of cross-border exposures related to Sri Lankan and Bangladesh operations are to countries rated AAA to BBB-, while 20% are to countries rated below BBB- and those that are unrated (Ш) refer to Graph 54).

#### **Market risk**

Market risk for a bank refers to the potential adverse impact on its financial position due to fluctuations in financial market conditions. These conditions encompass changes in interest rates, exchange rates, commodity prices, and equity/debt prices, along with their correlations, deviating from the expectations the Bank had when making decisions. The Bank's operations are subject to these variables and correlations in different magnitudes. Market risk encompasses interest rate risk, liquidity risk, foreign currency risk, and equity risk

#### Market risk categories

						Table – 5
Major market risk category	Risk components	Description	Tools to monitor	Severity	Impact	Exposure
Interest rate		Risk of loss arising from movements or volatility in interest rates				
	Re-pricing	Differences in amounts of interest-earning assets and interest-bearing liabilities getting re-priced at the same time or due to timing differences in the fixed rate maturities, and appropriately re-pricing of floating rate assets, liabilities, and off-balance sheet instruments	Re-pricing gap limits and interest rate sensitivity limits	High 5	Medium	Medium
	Yield curve	Unanticipated changes in shape and the gradient of the yield curve	Rate shocks and reports	High	High	High
	Basis	Differences in the relative movements of rate indices which are used for pricing instruments with similar characteristics	Rate shocks and reports	High	Medium	Medium
Foreign exchange		Possible impact on earnings or capital arising from movements in exchange rates arising out of maturity mismatches in foreign currency positions other than those denominated in base currency, Sri Lankan Rupee (LKR)	Risk tolerance limits for individual currency exposures as well as aggregate exposures within regulatory limits for NOP	High	Medium	Medium
Equity		Possible losses arising from changes in prices and volatilities of individual equities	Mark-to-market calculations are carried out daily for Fair Value Through Profit and Loss (FVTPL) and Fair Value Through Other	Low	Low	Negligible
			Comprehensive Income (FVOCI) portfolios			
Commodity		Exposures to changes in prices and volatilities of individual commodities	Mark to market calculations	Low	Low	Negligible

#### **Managing market risk**

Market risk at the Bank is effectively managed through a Board-approved market risk management framework. This framework consists of a robust risk governance structure and a comprehensive set of risk management processes, including policies, market risk limits, Management Action Triggers (MATs), risk monitoring, and risk assessment.

To assess the impact on the Bank's Net Interest Income (NII) under stress conditions, scenarios involving a change of 100 – 400 basis points (bps) on LKR and 25 – 100 bps on foreign currency (FCY) over a 12-month period were considered. The Bank also employs the Economic Value of Equity (EVE), a long-term measure of Interest Rate Risk (IRR), to analyse the Bank's value in present market conditions and its sensitivity to changes in market rates. Additionally, the repricing gap of Rate Sensitive Assets (RSA) and Rate Sensitive Liabilities (RSL) was analysed.

Monitoring of Net Interest Margin (NIM) changes on a monthly basis for both LKR and FCY in Sri Lanka and Bangladesh operations was conducted. The Bank also assessed FX position gains/losses under stress conditions with a 1% up/down exchange rate movement between USD and LKR rates. Furthermore, the impact of Mark To Market (MTM) gains/ losses was assessed if interest rates changed by 1% up/down and 2% up/down on the Fair Value Through Profit or Loss (FVTPL) portfolio of LKR Government securities, as well as on the Fair Value Through Other Comprehensive Income (FVTOCI) portfolio.

Opportunity loss of the amortised cost portfolio and the FCY cash flow for the next three months are monitored on an ongoing basis. The Bank also prepares a summary of FCY liquidity gap, which includes funding liquidity against undrawn overdraft limits and the projected loan disbursements for the next three months. Additionally, the Bank assesses funding concentration in terms of tenor and values, top 20 depositors, and based on currency.

#### **Review of market risk**

Market risk at the Bank primarily emanates from the Non-Trading Portfolio (Banking Book), constituting 92.22% of the total assets and 93.04% of the total liabilities as of December 31, 2023. The exposure to market risk is mainly attributed to Interest Rate Risk (IRR) and Foreign Exchange (FX) risk, as the Bank has minimal exposure to commodity-related price risk, equity, and debt price risk, accounting for less than 15% of the total risk-weighted exposure for market risk. Further details regarding the Bank's exposure to market risk, analysed by Trading Book and Non-Trading Portfolios (Banking Book), can be found in Note 66.3.1 on page 415.

#### Market risk portfolio analysis

The gap report is compiled by categorising Rate Sensitive Assets (RSA) and Rate Sensitive Liabilities (RSL) into different time bands based on maturity (for fixed-rated) or time remaining until their next repricing (for floating-rated). The distribution of savings deposit balances aligns with the results of a behavioural analysis conducted by the Bank and follows the guidelines of the Central Bank of Sri Lanka (CBSL) on overdrafts and credit cards. The Bank's exposure to interest rate volatility is reflected in the gap between RSA and RSL (III) refer to Table 52).

#### Interest rate risk (IRR)

Extreme fluctuations in interest rates pose a risk to the Bank, impacting the Net Interest Income (NII) and potentially affecting the value of interest-earning assets, interest-bearing liabilities, and off-balance sheet items. The primary types of Interest Rate Risk (IRR) that the Bank is exposed to include re-pricing risk, yield curve risk, and basis risk.

#### Sensitivity of projected NII

The Bank conducts regular stress tests on Interest Rate Risk in the Banking Book (IRRBB), incorporating variations in positions and new economic variables, along with both systemic and specific stress scenarios. The

#### Sensitivity of NII to rate shocks

change in the value of the Fixed Income Securities (FIS) portfolio in Fair Value Through Profit or Loss (FVTPL) and Fair Value Through Other Comprehensive Income (FVOCI) categories, resulting from abnormal market movements, is assessed using both Economic Value of Equity (EVE) and Earnings At Risk (EAR) perspectives. The outcomes of stress tests on IRR are carefully analysed to discern the impact of such scenarios on the Bank's profitability and capital.

The impact on Net Interest Income (NII) due to rate shocks on Sri Lankan Rupee (LKR) and foreign currency (FCY) is continuously monitored to gauge the Bank's susceptibility to abrupt changes in interest rates (<sup>[[1]]</sup> refer to Table 51).

	20	)23	2022		
Net Interest Income (NII)	Parallel increase Rs. '000	Parallel decrease Rs. '000	Parallel increase Rs. '000	Parallel decrease Rs. '000	
As at December 31,	100,792	(101,013)	392,200	(392,737)	
Average for the period	(18,795)	16,928	369,472	(369,892)	
Maximum for the period	276,499	(276,604)	813,181	(813,616)	
Minimum for the period	(576,068)	557,037	19,531	(20,281)	

#### Interest rate sensitivity gap analysis of assets and liabilities of the Banking Book as of December 31, 2023 – Bank

Description	0-90 days Rs. '000	3 to 12 months Rs. '000	1 to 3 years Rs. '000	3 to 5 years Rs. '000	More than 5 years Rs. '000	Non-sensitive Rs. '000	Total Rs. '000
Total financial assets	764,261,482	421,609,515	402,763,670	383,520,242	254,557,257	209,541,436	2,436,253,602
Total financial liabilities	767,224,705	703,454,962	203,742,713	222,809,488	155,944,508	239,581,610	2,292,757,986
Interest rate sensitivity gap	(2,963,223)	(281,845,447)	199,020,957	160,710,754	98,612,749	(30,040,174)	143,495,616
Cumulative gap	(2,963,223)	(284,808,670)	(85,787,713)	74,923,041	173,535,790	143,495,616	
RSA/RSL	0.99	0.60	1.98	1.72	1.63		

#### Foreign exchange risk

To mitigate potential losses arising from fluctuations in foreign exchange (FX) rates, the Bank adheres to stringent risk tolerance limits for individual currency exposures as well as aggregate exposures within regulatory limits, ensuring that such losses are minimised and kept within the Bank's risk appetite.

During the year under review, the USD/ LKR exchange rate appreciated by 11.65% (Source: Central Bank of Sri Lanka) Refer to Note 66.3.3 – Exposure to currency risk – non-trading portfolio on page 418 for further details.

Stress testing is conducted on the net open position (NOP) by applying rate shocks ranging from 5% to 25% to estimate the impact on the Bank's profitability and capital adequacy (III) Refer to Table 56 on page 258). The impact of a 1% downward change in the exchange rate on the foreign currency position indicated a loss of Rs. 602.23 Mn. as of December 31, 2023 (III) Refer to Graph 78 on page 418 for the impact of a 1% upward change in the exchange rate).

#### **Equity price risk**

While the Bank's exposure to equity price risk is minimal, daily mark-to-market calculations are performed on Fair Value Through Profit or Loss (FVTPL) and Fair Value Through Other Comprehensive Income (FVOCI) portfolios. Additionally, the Bank calculates Value at Risk (VaR) on the equity portfolio. I Refer to Note 66.3.4 on page 419 for a summary of the impact of a 10% shock on equity prices on profit, other comprehensive income (OCI), and equity.

#### **Commodity price risk**

The Bank's exposure to commodity price risk is confined to the fluctuations in the gold price affecting the pawning portfolio. The Bank has adopted lower LTV ratio and regular marking to market valuation of the portfolio as risk mitigants in this regard.

#### **Liquidity risk**

Liquidity risk refers to the Bank's potential inability to fulfill on- or off-balance sheet contractual and contingent financial obligations as they become due, without incurring unacceptable losses. Banks face vulnerability to liquidity and solvency issues stemming from mismatches in the maturities of assets and liabilities. Therefore, the key goal of liquidity risk management is to evaluate and ensure the availability of funds needed to meet obligations at the right times, both in normal and stressed conditions. Liquid assets ratios as of December 31, 2023 are given below:

#### **Statutory liquidity ratios**

		Table – 53
	2023 %	2022 %
Statutory Liquid Assets Ratio (SLAR)		
Consolidated (Sri Lankan Operation)	46.06	35.88
Liquidity Coverage Ratio (LCR)		
Rupee	491.61	405.91
All currencies	516.27	293.91
Net Stable Funding Ratio (NSFR)	193.70	173.58

#### **Managing liquidity risk**

The Bank employs a comprehensive approach to managing liquidity risk, incorporating policies, procedures, measurement methods, mitigation strategies, stress testing methodologies, and contingency funding arrangements. During the year, the Bank faced an excess liquidity situation, driven by relatively slow credit growth compared to deposit inflow. As depicted in Table 53, managing this excess liquidity posed a challenge, requiring substantial investments in Government securities, both denominated in Sri Lankan Rupees (LKR) and foreign currency (FCY), at optimal yields to minimise adverse effects on profitability.

The Bank made a concerted effort to leverage available opportunities and mitigate the impact of negative carry on specific treasury investments. However, the Bank anticipates a challenging period until the majority of bonds in the portfolio mature over the next 2 to 3 years. A scenario analysis of the magnitude of the negative carry was conducted during the year.

To avoid the risk of potential haircuts and impairment provisioning, the Bank chose to accept the proceeds of maturing USD-denominated Sri Lanka Development Bonds (SLDBs) in Rupees.

The resulting net open position (NOP) created from forex sales was managed by operating within the permanent negative NOP limit.

Additionally, in 2022, the Bank reclassified its bonds (excluding LKR bonds maturing before October 2022) following the guidelines issued by CA Sri Lanka through a Statement of Alternative Treatment (SoAT) on Reclassification of Debt Portfolio. The necessary disclosures have been provided in the interim financials and this Annual Report.

#### Liquidity risk review

The Asset and Liability Committee (ALCO) routinely monitors the net loans to deposits ratio to ensure that the Bank's asset and liability portfolios are structured to maintain a robust liquidity position. The Net Stable Funding Ratio (NSFR), indicating the stability of funding sources in comparison to granted loans and advances, was consistently maintained well above the policy threshold of 100%. This level is deemed healthy to support the Bank's business model and growth.

The key ratios utilised for liquidity measurement under the stock approach are outlined below:

#### Key ratios used for measuring liquidity under the stock approach

Liquidity ratios %	As at December 31, 2023	As at December 31, 2022
Loans to customer deposits	0.61	0.64
Net loans to total assets	0.46	0.47
Liquid assets to short-term liabilities	0.68	0.53
Purchased funds to total assets	0.25	0.26
(Large liabilities – Temporary Investments) to (Earning assets – Temporary Investments)	0.27	0.26
Commitment to total loans	0.21	0.15

#### Maturity gap analysis

The Maturity Gap Analysis of the Bank's assets and liabilities as of December 31, 2023, is detailed in Note 66.2.2(a) to the Financial Statements, found on pages 410 and 411.

This analysis of the maturity of financial assets and liabilities reveals that the Bank has adequate funding available to withstand adverse situations, as per the prescribed behavioural patterns. The examination of the maturity of financial assets and liabilities does not indicate any unfavourable situations, particularly when considering that cash outflows encompass savings deposits. These deposits can be deemed as a quasi-stable source of funds, aligned with the historical behavioural patterns of depositors, as further explained below.

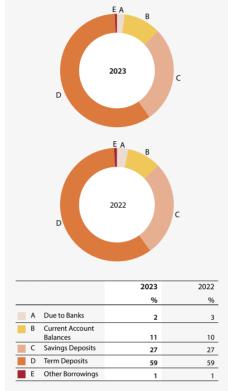

## Behavioural analysis on savings accounts

In the absence of a contractual agreement specifying maturity, savings deposits are categorised as non-maturing demand deposits. This product does not have a precise re-pricing frequency, and the Bank adjusts the offered rate on these deposits considering factors such as the re-pricing gap, liquidity, profitability, etc. Given the absence of an exact re-pricing frequency and its lower sensitivity to market interest rates, the segregation of savings products among predefined maturity buckets in the maturity gap report is determined through regular simulations conducted by the Bank, aligning with behavioural studies.

The Bank assesses its liquidity position in all major currencies, both at individual and aggregate levels, to ensure potential risks remain within specified threshold limits. Moreover, the Bank monitors potential liquidity commitments arising from loan disbursements and undrawn overdrafts to ensure sufficient funding sources are available.

#### Funding diversification by product

The Bank relies primarily on deposits from customers and other borrowings as its main source of funding. Graph 55 presents a product-wise analysis of the Bank's funding diversification as of the end of 2023 and 2022.

#### **Operational risk**

Operational risk refers to the potential for losses arising from inadequate or failed internal processes, human errors, system failures, or external events such as natural disasters, social, or political occurrences. It is an inherent aspect of all banking products and processes, and the Bank aims to manage it efficiently. The seven standard criteria used to assess operational risk are execution. delivery and process management, internal frauds, external frauds, employment practices and workplace safety, clients, products and business practices, and damage to physical assets and business, as well as disruption and system failures. It is important to note that operational risk encompasses legal risk but excludes strategic and reputational risk.

#### **Managing operational risk**

The Bank implements operational risk management through the establishment of policies, risk assessments, and risk mitigation strategies, including the utilisation of insurance coverage. The Bank also employs procedures for the outsourcing of business activities, manages technology-related risks, formulates comprehensive Business Continuity and Disaster Recovery Plans, fosters a culture of risk awareness across the organisation, conducts stress testing, and closely monitors and reports operational risks.

The policies and procedures concerning the outsourcing of business activities ensure continuous identification and effective management of significant risks associated with outsourcing arrangements. The Bank reports details of all outsourced functions to the CBSL on an annual basis. Before entering into new agreements or renewing existing ones, respective risk owners conduct due diligence tests on outsourced vendors. Additionally, bi-annual review meetings with key IT service providers are conducted to monitor service performance levels and verify adherence to agreements.

The Executive Integrated Risk Management Committee (EIRMC) and the Board Integrated Risk Management Committee (BIRMC) closely oversee and ensure the timely rectification of business disruptions caused by various factors such as network failures line failures, branch-level system failures, incidents like fire or natural disasters, industrial unrest, branch closures due to events like hartals, police curfews, and pandemics.

The Bank underwent an operational risk review of its Business Continuity Plan (BCP) and Disaster Recovery Plan (DRP) documents, including an examination of the Disaster Recovery (DR) site. This comprehensive assessment was conducted by the Integrated Risk Management Department (IRMD) in adherence to Section 3 (6) (v) of the Banking Act Direction No. 11 of 2007 on Corporate Governance for Licensed Commercial Banks (LCBs). As mandated by the Direction, the adequacy of preparedness was assessed through an independent review of the Bank's BCP and DRP by the BIRMC.

The Bank successfully implemented a Group-wide Conduct Risk Management Policy Framework. Additionally, an operational loss event database covering the Bank's operational incidents over the past 13 years has been integrated into the **Operational Risk Management System** (ORMS). Furthermore, the Risk and Control Self-Assessment (RCSA) Framework, originally implemented within the Bank, was extended to other financial entities within the Group, namely CBC Finance Ltd. (CBCF) ,CBC Myanmar Microfinance Ltd. (CBCMM) and Commercial Insurance Brokers Limited (CIBL). This framework empowers each entity to identify, assess, and manage its unique risks while ensuring alignment with the broader risk management objectives of the Group.

#### **Business continuity management**

The Business Continuity Management (BCM) framework at the Bank encompasses a range of activities, including business continuity, disaster recovery, crisis management, incident management, emergency management, and contingency planning. This framework is designed to uphold the Bank's commitment to serving all stakeholders, ensuring minimal interruptions during unforeseen disruptions to business activities caused by man-made, natural, or technical disasters, and facilitating a swift resumption of operations.

The BCM's scope involves program initiation and management, risk evaluation, and business impact analysis, the development of business continuity strategies, emergency preparedness and response, implementation of business continuity plans, awareness building and training, business continuity plan exercises, audit and maintenance, and crisis communications and coordination with external agencies.

In 2018, the Bank revamped its Business Continuity Plan (BCP) in consultation with an external BCP expert, aligning it with industry best practices. The IT Disaster Recovery Plan, a crucial component of the BCP, underwent review and approval by the Board of Directors. To enhance IT system recovery capabilities, a secondary high-availability set-up was introduced for core banking and other critical systems, improving redundancy.

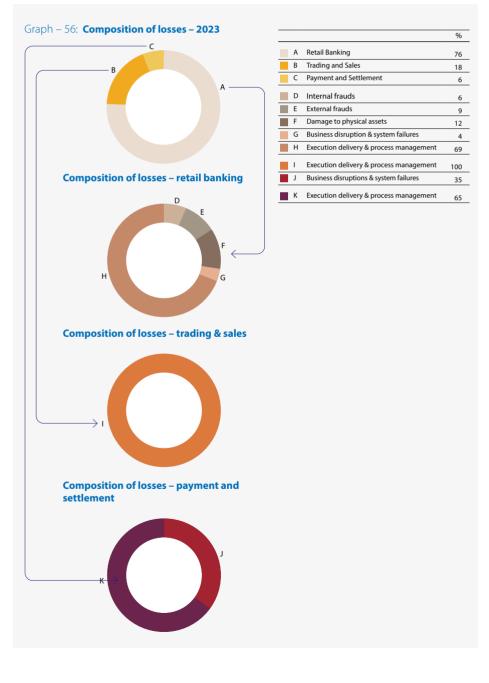

A BCP exercise (working day) was carried out in June 2023, which was conducted over a period of four months, beyond the current CBSL requirement of one working day. This extended duration ensured thorough testing of the Bank's disaster recovery capabilities following the installation of a new DR machine and a production machine upgrade. All application functionalities were rigorously tested before rollback, minimising disruptions throughout the exercise. The success of this extended BCP exercise demonstrates the Bank's growing maturity and commitment to preparedness. This commitment proactively safeguards the Bank's operations and customer access in the event of unforeseen disruptions.

#### **Review of operational risk**

The Bank maintains a low appetite for operational risk and has established tolerance levels for significant operational risk losses. These thresholds are determined based on various factors such as historical loss data, budgets and forecasts, the Bank's performance, and the effectiveness of existing systems and controls. For monitoring purposes, the following thresholds have been set, utilising audited financial statements:

- Alert level: 3% of the average gross income for the past three years
- Maximum level: 5% of the average gross income for the past three years

Operational losses for the financial year 2023 were reported to be below the internal alert level, standing at 0.226% of the average audited gross income for the past three years. The Bank has consistently maintained operational losses below the alert level for the past decade. This track record reflects the commitment set at the "tone at the top," the effectiveness of governance structures, and the robustness of processes and procedures in place to manage operational risk. Graph 56 provides an analysis of operational risk losses incurred by the Bank in 2023 across various business lines/categories.

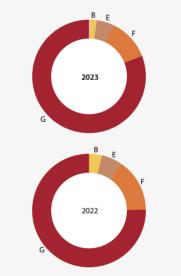

Upon analysing the losses incurred in 2023 categorised under the Basel II defined business lines, it becomes apparent that the majority (76%) of losses with financial impact are attributed to the "Retail Banking" business line. Followed by the losses reported under the "Trading & Sales" (18%) and "Payments & Settlement" (6%) business lines. Losses related to other business lines continued to remain negligible.

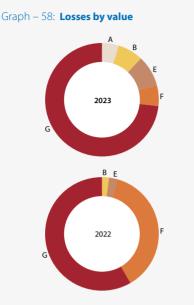

Graphs 57 and 58 provide a comparative representation of operational losses reported during 2023 and 2022 for each Basel II loss event type. The graphs depict both the number of occurrences and the corresponding values for a comprehensive analysis.

#### Losses by number of events

		2023	2022
		%	%
A	Internal frauds	0	0
В	External frauds	2	4
C	Employment practice & work place safety	0	0
D	Clients products & business practices	0	0
E	Damage to physical assets	5	6
F	Business disruption & system failures	12	15
G	Execution delivery & process management	81	75

	2023	2022
	%	%
Internal frauds	5	0
External frauds	7	2
Employment practice & work place safety	0	0
Clients products & business practices	0	0
Damage to physical assets	9	3
Business disruption & system failures	6	37
Execution delivery & process management	73	58
	External frauds Employment practice & work place safety Clients products & business practices Damage to physical assets Business disruption & system failures Execution delivery &	%       Internal frauds     5       External frauds     7       Employment practice & work place safety     0       Clients products & business practices     0       Damage to physical assets     9       Business disruption & system failures     6       Execution delivery &     6

Consistent with typical operational risk patterns, the majority of losses incurred by the Bank in 2023 comprised high-frequency/low financial impact events, primarily falling under the "Execution, Delivery, and Process Management" loss category. These lower-value events were predominantly associated with the Bank's service delivery network, encompassing over 1,000 points across Sri Lanka and Bangladesh, particularly in cash and ATM operations. Events with monetary values below Rs. 100,000 accounted for more than 88.17% of the total loss events for the year. Additionally, when comparing the number of loss events to the volume of transactions performed during the year, the ratio stood at a mere 0.0048%.

The Bank continued to enhance its anti-money laundering (AML) compliance, incorporating new audit reports to monitor transactions and ensure adherence to Know Your Customer (KYC) requirements throughout the year.

The values of losses incurred by the Bank in the year were primarily categorised under Execution, Delivery, and Process Management, Damage to Physical Assets, External Frauds, Business Disruptions & System Failures and Internal Frauds. These losses for the year were primarily driven by a limited number of events in these five categories, most of which the Bank managed to resolve through subsequent recovery/ rectification with minimal financial impact. Moreover, the Bank introduced necessary process improvements to prevent recurrence. The capital allocation for operational risk in 2023 under the Alternative Standardised Approach per Basel III is Rs. 79.858 Bn., while the net losses, after discounting subsequent recoveries, amount to only 0.091% of this capital allocation. This trend of remarkably low levels of operational risk losses underscores the effectiveness of the Bank's operational risk management framework and internal control environment.

#### IT risk

IT risk represents the business risk associated with the utilisation, ownership, operation, involvement, influence, and adoption of information technology within an organisation. This category constitutes a significant component of operational risk, encompassing various IT-related events such as system interruptions/failures, errors, frauds facilitated by system manipulations, cyberattacks, obsolescence in applications, and the risk of falling behind competitors in terms of technology adoption. IT risks cover governance aspects, critical system availability, access control, threat management, change management, physical and environmental security, as well as disaster recovery and business continuity planning.

Given the inherent uncertainty regarding the frequency and magnitude of IT-related risks, managing IT risk poses considerable challenges. Consequently, the Bank has assigned top priority to address IT risk, with a particular emphasis on cyber security strategies. The Bank continuously invests in cyber security improvements, focusing on securely enabling new technology and business initiatives while maintaining a persistent commitment to protecting both the Bank and its customers from cyber threats.

The IT Risk Unit within the IRMD is tasked with implementing the Bank's IT risk management framework. This involves ensuring the presence of an appropriate governance framework, policies, processes, and technical capabilities to effectively manage all significant IT risks. The IT Risk Management Policy, aligned with the Operational Risk Management Policy, complements the Information Security Policy. Together, these policies and related processes aim to enhance risk management and improve information security across the Bank.

The Risk Control Self-Assessment (RCSA) stands as a fundamental tool for identifying and assessing IT risks, with the IT Risk Unit conducting independent IT risk reviews aligned with the operational risk management process's established structure. Outcomes from these independent assessments, along with audit findings, analysis of information security incidents, and internal and external loss data, contribute to the identification and assessment of IT risks.

Mitigating IT risk involves prioritising, evaluating, and implementing risk-reducing controls or treatment techniques recommended through the risk identification and assessment process. The Bank has implemented a multi-layered control approach across various technological layers, including data, applications, devices, and networks. This approach ensures robust end-to-end protection while enhancing capabilities for detecting, preventing, responding to, and recovering from cyber threats. Critical units of the Bank have obtained certifications under globally recognised standards for Information Security Management System (ISMS), specifically ISO/IEC 27001:2013, and Payment Card Industry Data Security Standard (PCI DSS). Both certifications focus on ensuring the confidentiality, integrity, and availability of data and information. The Bank is on track to achieve full certification covering all 350 banking units by 2025. The ISMS undergoes annual independent validation by ISO 27001 ISMS external auditors and Qualified Security Assessors of the PCI Council.

The Bank has maintained its commitment to investing in information security, aligning with CBSL directions, and placing a heightened focus on information and cyber security. The rollout of Baseline Security Standards (BSS) across the branch network and head office signifies efforts to enhance information security governance. Specific initiatives related to this investment can be found in the "Key risk management initiatives in 2023" section on pages 233 and 234 of this report.

Continuous, independent monitoring of the Bank's IT risk profile is conducted by the IT Risk Unit using various tools and techniques, including Key IT Risk Indicators (KIRIs). The KIRI review process involves monitoring indicators such as information security-related incidents, supported by trend analyses that highlight high-risk or emerging issues, enabling prompt action to address them.

Staff turnover continued to remain a concern in 2023, prompting the Bank to devise strategies to address the issue. The Bank implemented a special grading system for IT staff and adjusted salaries for IT professionals to align with market rates. The Bank has also proactively identified the root causes of major incidents related to IT Operations during the year. Despite the growth in business volumes and operations, the number of major IT-related incidents has remained consistent over the past decade. The mitigatory actions taken for all major operational risk events, including IT-related incidents, were closely reviewed. Monthly monitoring is conducted for various indicators under each of the broader categories of IT risk.

#### **Social and Environmental Risk**

### Introduction – Leading with Sustainability and Managing S&E Risks

For the Bank, sustainability transcends mere rhetoric; it constitutes the cornerstone of our operations. Guided by our Board-approved Social and Environmental (S&E) Policy, we demonstrate an unwavering commitment to S&E risk management.

S&E risks are the potential negative impacts an entity's activities can have on the people and the environment. These risks can be diverse, ranging from pollution and resource depletion to unfair labour practices and community displacement. Proactively identifying, assessing, and mitigating these risks, can contribute to a more sustainable future for all.

For banks, the social and environmental risks associated with lending activities are generally much greater than those stemming from their own operations. This is due to the diversity of the borrowers, changing regulatory landscape, limited control over the S&E practices of the borrowers and particularly borrowers with international operations, and third-party S&E assessments and monitoring reports, with less reliability and comprehensiveness.

Thus, the Bank has duly prioritised mitigating the potentially larger social and environmental risks associated with its lending activities while managing S&E risks within its own operations. This is done through a proactive, comprehensive approach that integrates sustainability into all aspects of lending decisions, risk management, and stakeholder engagement.

#### S&E risks that may affect Commercial Bank of Ceylon PLC can be broadly categorised as:

#### Management of S&E risks

Proactive management of these risks is central to the Bank's long-term sustainability and success. By integrating responsible practices into its lending activities, the Bank aims to contribute to a healthier environment and stronger communities, fostering a secure foundation for future growth.

This involves;

- Maintaining a robust S&E risk management framework aligned with local regulations and applicable international standards like IFC Performance Standards.
- Integrating S&E considerations into all lending decisions through due diligence and risk assessment.
- Monitoring borrowers' S&E performance and enforcing agreed-upon mitigation measures.
- Supporting borrowers in improving their S&E practices through capacity building and technical assistance as applicable.

The Bank's dedicated Social and Environmental Management System (SEMS) serves as a comprehensive line of defense, employing policies, procedures, assessment tools, and expert personnel. This proactive approach helps to identify, evaluate, and manage potential S&E risks, mitigating their impact on the communities and the environment, and safeguarding long-term sustainability not only for stakeholders but also for the Bank itself.

Criteria used to gauge the S&E risks includes;

- Compliance to National S&E Regulations
- Pre-defined List of S&E Banned Activities
- Compliance to fundamental ILO
   Conventions
- Applicable IFC Performance Standards

The Bank has identified a list of activities that are illegal /banned according to the country's law or which violate international conventions, treaties or agreements ratified by country of operation such as "Production of or trade in pharmaceuticals, pesticides and herbicides, ozone depleting substances subject to international phase-outs or bans", "Trans-boundary movements of hazardous waste prohibited under Basel Convention", "Trade in wildlife or production of or trade in wildlife products regulated under national law and international conventions", "Unsustainable fishing methods", "production or activities involving forced labour or child labour", "Destruction of critical habitats and protected areas", "Production or activities impacting indigenous people/land" "Trade in Chemical, Biological, Nuclear and Radiological weapons" etc. and the Bank does not finance these activities at all times.

The Bank implements a comprehensive Social and Environmental (S&E) due diligence process for loan proposals. This rigorous approach encompasses document review, site visits, stakeholder engagement, and an assessment of the borrower's S&E risk management framework. Identified concerns and potential improvement opportunities are formally documented within an action plan, which becomes a legally binding component of the loan agreement.

The depth of this due diligence process is tailored to the specific risk profile of each project. This may range from a thorough review of relevant documentation to extensive on-site inspections and detailed stakeholder consultations. Additionally, stringent compliance checks are performed to ensure adherence to the Bank's banned activities list.

### Category A – Projects with High environmental and/or social risks

These projects are likely to have significant adverse environmental and/or social risks and/or impacts some of which may be large scale, unprecedented, and Irreversible.

### Category B – Projects with Medium environmental and/or social risks

These projects may result in specific environmental and /or social risks and /or impacts. Most of which could be mitigated by implementing a corrective action plan but on rare occasion, a few may be irreversible.

# Category C – Projects with Low environmental and/or social risks projects.

These projects are likely to have minimal or no adverse environmental and/or social impacts.

All facilities above a pre-determined threshold value are re-evaluated by the Integrated Risk Management Department. Additionally, third party independent experts are consulted when and where necessary, to carry out Social and Environmental Due Diligence of complex projects in order to ensure systematic identification and assessment of environmental and social risks associated with a proposed transaction. This process helps the Bank to identify the "Corrective Actions" that are necessary to eliminate/ mitigate the significant social and environmental risks. It is considered as part of the credit approval process and appropriately formalised through conditions and covenants, thereby reducing the Bank's exposure to potential S&E risks associated with a borrower's operations/project.

Robust Social and Environmental Management System (SEMS) of the Bank assigns clear roles and responsibilities for S&E risk management. From governance and oversight to daily practices, everyone plays a part. Lending staff undergoes comprehensive training on SEMS, IFC Performance Standards, and identifying environmental, health, and safety concerns during site visits.

The Bank continuously reviews and updates its S&E risk management system (SEMS) incorporating regulatory changes and developments as well as stakeholder requirements.

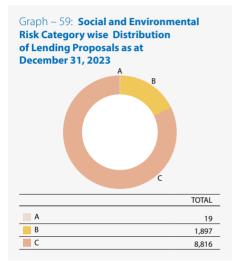

#### Monitoring, Supporting, and Sustainable Practices

The Bank closely monitors portfolios for borrowers' compliance with its S&E

requirements. Annual reporting on S&E risk management performance is mandatory.

The Board of Directors and Senior Management are fully committed to overseeing this Social and Environmental Risk Appetite. The Bank ensures that commitment to sustainability is embedded in organisational strategy, decision-making processes, and risk management framework.

During the year 2023, the S&E risk screening outcome is as follows;

Category A – Projects with High environmental and/or social risks.

**Category B** – Projects with Medium environmental and/or social risks

Category C – Projects with Low environmental and/or social risks projects

#### Legal risk

Legal risk is acknowledged as an integral component of operational risk, encompassing the exposure to adverse effects arising from inaccurately drafted contracts, their execution, the absence of written agreements, or inadequate agreements. This risk extends to potential consequences such as reprimands, fines, penalties, punitive damages resulting from supervisory actions, and the cost of private settlements.

The Bank proactively manages legal risk by ensuring that all applicable regulations are fully considered in its relations and contracts with individuals and institutions involved in business relationships with the Bank. This risk mitigation strategy is supported by the necessary documentation. To prevent breaches of rules and regulations, the Bank establishes and maintains an effective system for verifying the conformity of operations with relevant regulations. This proactive approach aims to minimise the likelihood and impact of legal risks associated with the Bank's activities.

#### **Compliance and regulatory risk**

Compliance and regulatory risk refer to the potential risk faced by the Bank due to non-compliance with applicable laws, rules, regulations, and codes of conduct. This non-compliance could lead to regulatory fines, financial losses, disruptions to business activities, and reputational damage. To systematically assess and manage this risk. the Bank has established a compliance function that reports directly to the Board of Directors. A comprehensive Compliance Policy outlines how the Bank identifies, monitors, and manages compliance risks in a structured manner. The Bank's culture and the Code of Ethics also play a crucial role in mitigating this risk.

The Bank fosters a strong culture of compliance, ensuring that its entire operation aligns with prevailing regulations. A series of measures have been implemented to reinforce regulatory compliance requirements and ensure effective monitoring, testing, reporting, and verification of compliance with risk mitigation activities across the Bank. These measures include:

- Incorporating new regulatory developments into internal policies, procedures, and controls.
- Introducing new scenarios for transaction monitoring.
- Regularly reviewing the Bank's Compliance program.
- Conducting Compliance Audits for over 140 branches/business units.
- Analysing Compliance risk and implementing effective controls to address identified shortcomings.
- Providing necessary training to staff members.
- Conducting periodic independent verifications of compliance function by Inspection Department

These initiatives collectively contribute to the Bank's commitment to regulatory compliance and risk management.

#### Strategic risk

Strategic risk in banking is associated with strategic decisions and the potential inability of the Bank to adapt to evolving market dynamics, leading to a loss of market share and the failure to achieve strategic goals. The Bank manages strategic risk through its corporate planning and budgeting processes, critically evaluating their alignment with the Bank's vision, mission, and risk appetite. To measure and monitor strategic risk, the Bank employs a detailed scorecardbased qualitative model aligned with the Internal Capital Adequacy Assessment Process (ICAAP). This approach considers various variables such as the Bank's size, sophistication, nature, and complexity of operations. The model highlights areas that require attention to mitigate potential strategic risks. Assessment of strategic risk involves factors like capital adequacy, earnings volatility, shareholder value, etc. The criteria are assigned suitable weightages, and scores are allocated against these weights.

This systematic approach enables the Bank to proactively identify, assess, and address strategic risks, ensuring that its strategic decisions align with its overall objectives and risk tolerance.

#### **Reputational risk**

Reputational risk in banking refers to the potential adverse impact on earnings, assets, liabilities, or brand value resulting from negative stakeholder perceptions of the Bank's business practices, activities, and financial position. The Bank recognises that reputational risk is influenced by a wide range of other business risks related to the conduct of the Bank, and it must be actively managed. The proliferation of social media has further expanded the stakeholder base and increased the sources of reputational risk.

The Bank adopts a comprehensive approach to managing reputational risk, integrating it into the systems and controls established for other risk types such as credit, market, and operational risk. This approach is supported by various policies, including the code of conduct, Anti-Bribery and Anti-Corruption Policy, Conduct Risk Management Policy Framework, Communication Policy, and business ethics that prohibit unethical behaviour. Employees are encouraged to adhere to these policies, promoting ethical conduct in all aspects of their work.

To measure and monitor reputational risk, the Bank employs a detailed scorecard under the Internal Capital Adequacy Assessment Process (ICAAP). This scorecard-based approach provides a structured framework for assessing reputational risk, helping the Bank proactively identify and address potential issues that could impact its reputation. The implementation of the Group Reputational Risk Management Policy framework further formalises these efforts.

#### **Conduct risk**

As an organisation that relies on public trust and confidence, the Bank acknowledges the importance of aligning its interests with those of its customers for success and sustainability. Various factors, such as unfair business practices, professional misbehaviour, ethical lapses, inefficient operations, bribery and corruption, compliance failures, and governance weaknesses, can dent customer confidence in the Bank. Fully cognisant of this, the Bank places significant emphasis on proper conduct and fair outcomes for customers.

The Bank adopts a customer-centric approach that encompasses multiple aspects, including:

- Accountability: Holding individuals accountable for their actions and decisions, ensuring that they align with the best interests of customers.
- Remuneration Structures: Designing compensation systems that encourage fair and ethical behaviour, discouraging practices that may lead to conduct risk.
- Compliance with Laws and Regulations: Ensuring compliance not only in letter but also in spirit, with a commitment to upholding the highest standards of legal and regulatory adherence.
- Learning Culture: Fostering a culture of continuous learning, where employees are educated on ethical behaviour, compliance requirements, and best practices.
- Transparency: Promoting transparency in operations and decision-making processes, providing clear information to customers and stakeholders.
- Public Disclosures: Providing relevant and timely disclosures to the public, fostering trust through open communication.
- Service Level Agreements (SLAs): Establishing and adhering to SLAs to ensure the timely and efficient delivery of services to customers.
- Customer Complaint Handling Procedure: Implementing a robust procedure for handling customer complaints promptly and fairly.
- Customer Engagement: Actively engaging with customers to understand their needs, expectations, and concerns, incorporating their feedback into the improvement of products and services.

To strengthen its commitment to ethical conduct and customer-centric practices, the Bank developed and adopted a Board-approved Conduct Risk Management Policy Framework covering the entire Group in 2022. This framework serves as a guide for managing conduct risk and upholding high standards of behaviour and integrity across the organisation.

#### **Contagion risk**

Contagion risk, also known as systemic risk, is a critical concern in the banking sector, and it refers to the potential spillover effects of financial stress or shocks in one country, market, industry, or counterparty, impacting others and causing disturbances or defaults. This risk arises due to the highly interconnected nature of global financial systems and cross-market linkages. A shock in one area can lead to a domino effect, affecting multiple countries, markets, industries, or counterparties, amplifying existing stresses and causing significant disruptions.

The impact of a contagion risk event can be severe, leading to financial volatility, damage to financial systems, and broader economic consequences. The COVID-19 pandemic serves as an example of how a health crisis can trigger financial contagion, affecting global markets and economies.

To address contagion risk, the Bank recognises the need to take additional steps to identify and monitor risk-elevated industries and potential distress among customers, and regions. This monitoring is conducted through the Early Warning Signals (EWS) system, utilising internal data sources. The goal is to proactively identify areas of heightened risk and implement measures to limit the potential impact on the Bank's operations.

Given the ongoing uncertainties related to the pandemic and the path to economic recovery, the Bank is committed to staying vigilant and responsive to potential contagion risks. This involves continuous risk assessment, scenario analysis, and strategic planning to navigate through challenging conditions and safeguard the stability of the financial system.

#### **Model Risk**

Model risk is a subset of operational risk that specifically refers to the risk associated with the failure or inaccuracy of financial models used by the Bank. Financial models employ statistical, economic, financial, and mathematical theories, techniques, and assumptions to process data and generate quantitative estimates for managing various risks. When these models fail or produce inaccurate results, it can lead to adverse outcomes for the Bank.

Model risk can arise from various factors, including programming errors, incorrect data input, technical issues, and misinterpretation of model outputs. Given the critical role that models play in decision-making processes, especially in risk management, it is essential to actively manage and mitigate model risk. The Bank employs several measures to manage model risk effectively:

- Extensive Testing: Rigorous testing procedures are implemented to validate the accuracy and reliability of financial models. This includes testing for potential errors, validating assumptions, and ensuring that the model's outputs align with expected results.
- Robust Governance Policies: The Bank establishes and adheres to robust governance policies and frameworks that govern the development, validation, and use of financial models. These policies define the standards and procedures that must be followed to ensure the integrity of the models.
- Independent Reviews: Independent reviews are conducted to provide an unbiased assessment of the models' effectiveness and accuracy. External experts or internal teams with expertise in model validation may perform these reviews to identify potential issues or areas for improvement.

By implementing these risk management practices, the Bank aims to minimise the likelihood of model failures and enhance the overall reliability of its quantitative estimates for risk management purposes. This proactive approach helps ensure that the models used by the Bank contribute to sound decision-making and support the effective management of various risks.

#### **Bribery and corruption-related risks**

The Bank emphasises a strong stance against bribery and corruption, considering them illegal and damaging to its reputation. To address these risks, the Bank has implemented the following measures:

- Anti-Bribery and Anti-Corruption
   Policy: The Bank has a Board-approved
   Anti-Bribery and Anti-Corruption Policy
   that outlines principles for countering
   bribery and corruption. This policy
   serves as a guide for employees, setting
   expectations regarding their conduct in
   relation to bribery, kickbacks, commissions,
   and corruption. The Anti-Bribery and Anti Corruption Policy is made accessible in
   the Bank's official website at <a href="https://www.combank.lk/info/file/91/anti-bribery-and-anti-corruption-policy">https://www.combank.lk/info/file/91/anti-bribery-and-anti-corruption-policy</a>. It has also been
   hosted in the intranet of the Bank for the
   benefit of the employees.
- Whistleblowers Charter: The Bank has a Whistleblowers Charter in place, providing guidelines and protection for employees who report any instances of bribery, corruption, or other unethical behaviour within the organisation. This encourages a culture of accountability and transparency.

- Guidelines on Gifts and Favours: The Bank has guidelines regarding the acceptance and offering of gifts or other illegal gratification, as well as the collection of funds or obtaining undue favours from customers and suppliers, holding a Directorship/being a Partner/Shareholder in private companies enumerated in the Code of Ethics and administrative circulars. These guidelines align with the Code of Ethics and aim to prevent situations that may lead to bribery or corruption.
- Code of Ethics: In implementing the Code of Ethics and affirming its commitment to the 10th Principle of the UN Global Compact, the Bank expects all employees to adhere to the Code that emphasises the importance of fighting corruption, avoiding abuse of power for personal gain (financial or otherwise), refraining from soliciting or accepting gifts, and ensuring that employees and the Bank are not compromised. No employee of the Bank should offer any bribe or other illegal gratification in order to obtain business for the Bank.
- Political Contributions: The Bank does not make any political contributions. The Anti-Bribery and Anti-Corruption Policy explicitly prohibits any form of political contributions.
- Training and Awareness The Bank conducts continuous training and awareness programs to educate staff on Code of Ethics, Whistleblowers Charter and incident-based discussions.

By implementing these measures and fostering a culture of ethical conduct, transparency, and accountability, the Bank aims to mitigate the risks associated with bribery and corruption and uphold its commitment to ethical business practices.

#### Sustainability risks

The Bank recognises sustainability risks as potential challenges arising from its failure to identify and manage risks related to various aspects in line with its policies, guidelines, commitments, and ambitions. These risks encompass a broad spectrum which include environmental factors such as climate-related concerns, carbon emissions and energy efficiency, social issues pertaining to human rights, diversity, equity & inclusion and community relations, governance factors such as bribery & corruption, ethical conduct of business and even financial crimes, information and IT security. It is acknowledged that sustainability risks may intersect with and influence other risks described earlier. Conversely, incorporation of environmental, social and governance (ESG) considerations and broader sustainability

issues into strategy and day-to-day operations will demonstrate good corporate citizenship and support long term value creation.

Hence, to formalise its approach to sustainability and to ensure that the Bank takes a holistic approach to it, the Bank has adopted a Sustainability Framework. This framework, along with the Social and Environmental Management System (SEMS) and the Social & Environmental Policy, guides the Bank in addressing sustainability risks. The Bank recognises that shortcomings in managing these aspects could lead to adverse consequences, impacting the institution financially, reputationally, and legally.

The Sustainability Framework, SEMS and Social & Environmental Policy are instrumental in shaping the Bank's operations and ensuring that it adheres to sustainable practices. By placing due attention on sustainability, the Bank aims not only to mitigate risks but also to build public confidence and enhance relationships with stakeholders. In managing sustainability-related risks, the Bank relies on established systems and processes, aligning its practices with the broader goals of responsible and sustainable banking.

#### **Capital Adequacy and ICAAP Framework**

The Bank adheres to Basel requirements and utilises internal models as stipulated in the Internal Capital Adequacy Assessment Process (ICAAP) framework. ICAAP is a comprehensive framework that enables the Bank to assess its risk profile, stress test risk drivers, and determine internal capital adequacy requirements. Internal limits, often more stringent than regulatory requirements, are implemented to provide early warnings regarding capital adequacy.

ICAAP plays a pivotal role in supporting the supervisory review process, offering valuable insights for evaluating the required capital in alignment with the Bank's future business plans. It facilitates the integration of strategic focus and risk management plans with the capital plan, incorporating inputs from various levels within the organisation, including Senior Management, Management Committees, Board Committees, and the Board itself. The process also considers the potential risks associated with capital inadequacy under stressed conditions, ensuring a holistic and forward-looking approach to capital management.

In addition to its role in assessing capital adequacy, the Internal Capital Adequacy Assessment Process (ICAAP) also serves to support profit optimisation through proactive decision-making on both current and potential exposures. The process involves measuring vulnerabilities through stress testing and scenario-based analysis, enabling the Bank to identify areas that may require attention in managing both qualitative and quantitative aspects of reputational and strategic risks. Notably, these aspects are not covered under Pillar I of Basel III.

The Bank maintains compliance with both regulatory and prudential requirements for capital adequacy. Thanks to a loyal shareholder base and profitable operations, the Bank is well-positioned to meet its capital requirements in the long term. This ensures sufficient coverage for material risks and supports the Bank's expansion initiatives, particularly as a Domestic Systemically Important Bank (D-SIB).

### Basel III minimum capital requirements and buffers

The Banking Act Direction No. 01 of 2016 mandated licensed commercial banks to adhere to the capital requirements outlined in Basel III starting from July 1, 2017. The directive established specific timelines for progressively elevating minimum capital ratios, with full implementation slated for January 1, 2019. This framework also included a Higher Loss Absorbency component for Domestic Systemically Important Banks (D-SIBs). However, in response to the exceptional circumstances brought about by the COVID-19 pandemic, the Central Bank of Sri Lanka (CBSL) permitted D-SIBs to utilise their Capital Conservation Buffers, allowing for a drawdown of 100 basis points in 2022.

#### **Target and actual capital**

Capital	Regulatory	Goal	2023	2022
ratios	minimum	(internal		
		requirement)		
	%	%	%	%
CET 1	8.500	>8.500	11.442	11.389
AT - 1	1.500	>1.500		
Tier I	10.000	>10.000	11.442	11.389
Total	14.000	>14.000	15.151	14.657

The comparison of the Bank's capital status as of December 31, 2023, with the minimum capital requirement stipulated by the Central Bank of Sri Lanka (CBSL) effective from January 1, 2019, underscores the robust capital strength of the Bank. This comparison serves as evidence of the Bank's capacity to meet and exceed the stringent regulatory requirements imposed by the CBSL, even in the face of ongoing economic challenges.

The Internal Capital Adequacy Assessment Process (ICAAP) enables the Bank to conduct periodic assessments of its capital requirements for the ensuing five years, develop plans to augment capital based on the evaluation, and submitted same for review by the Central Bank of Sri Lanka (CBSL). Unforeseen developments, such as increased impairment provisioning and a substantial rise in risk-weighted assets due to the depreciation of the Rupee against foreign currencies, led the Bank to draw down the Capital Conservation Buffer in 2022. However, the issuances of Basel III-compliant, Tier II, Listed, Rated, Unsecured, Subordinated, Redeemable debentures, along with profits generated have since enabled the Bank to restore its capital adequacy to a level above the minimum requirements.

The Bank has established a "Basel Workgroup" comprising members from various business and support units. This workgroup is tasked with assessing capital adequacy in alignment with the Bank's strategic direction. While the Internal Capital Adequacy Assessment Process (ICAAP) serves as a foundational element for this assessment, the Basel Workgroup is committed to continuous improvement, considering the evolving landscape in different areas. The group provides recommendations to the Asset Liability Committee (ALCO), offering insights on current and future capital requirements. assessments based on anticipated capital expenditure, and desirable capital levels, among other aspects.

In the capital-intensive banking business, the Bank recognises the significance of capital. The institution benefits from a dedicated shareholder base that holds a long-term perspective on the Bank. Prudent dividend policies and the retention of profits over the years contribute to this loyalty. To achieve an optimised level of capital allocation, the Bank consistently seeks ways to improve the judicious allocation of capital for its dayto-day operations. While recognising the challenges associated with raising capital from external sources, the Bank does not exclude this option as a sustainable means to enhance capital in the long run. The Bank expresses confidence in its current capital buffer, considering it adequate to support growth plans and withstand stressed market conditions. However, the Bank remains vigilant and does not become complacent with the current comfort levels, aiming to uphold stakeholder confidence through maintaining sound capital buffer levels.

#### **Stress testing**

Conducting stress tests is an integral part of the Internal Capital Adequacy Assessment Process (ICAAP) under Pillar II. The Bank performs stress tests periodically, subjecting its major risk exposures to severe yet plausible shocks. The purpose is to assess the sensitivity of the current and future risk profile in relation to risk appetite and to understand the impact on the resilience of capital, funding, liquidity, and earnings.

Stress testing not only supports assessment of the resilience of the Bank but also plays a role in strategic planning. Within the framework of ICAAP, stress testing informs various aspects of risk, capital and liquidity management. This includes setting risk appetite triggers and risk tolerance limits, mitigating risks by reviewing and adjusting limits, restricting or reducing exposures, and implementing hedging strategies where appropriate. Additionally, stress testing facilitates the development of risk mitigation or contingency plans across a spectrum of stressed conditions. Moreover, it supports communication with both internal and external stakeholders regarding the Bank's preparedness and resilience under adverse scenarios.

The Bank has established a governance framework for stress testing that outlines the responsibilities and approaches for conducting stress testing activities at various levels, including the Bank, business lines, and different risk types. The stress testing techniques employed encompass scenario analysis, sensitivity analysis, and reverse stress testing, allowing the Bank to assess and understand the potential impact of various stress scenarios.

This framework covers material risks such as credit risk, credit concentration risk, operational risk, liquidity risk, foreign exchange (FX) risk, and interest rate risk in the banking book (IRRBB) using both Economic Value of Equity (EVE) and Earnings at Risk (EAR) perspectives. The Bank evaluates stress levels categorised as Minor, Moderate, and Severe, considering the resulting impact on capital. If stress tests indicate a deterioration in capital that does not breach policy-level requirements, it is classified as Minor risk. A deterioration of up to 1% is considered Moderate risk. If the impact leads to capital falling below the statutory minimum, it is classified as Severe risk, requiring immediate attention of the Board and the management.

Stress testing serves as an effective communication tool, providing a comprehensive view of all risks faced by the Bank in hypothetical stress scenarios. The outcomes of stress testing are reported quarterly to the Executive Integrated Risk Management Committee (EIRMC) and the Board Integrated Risk Management Committee (BIRMC), enabling proactive decision-making. The stress testing results are instrumental in guiding risk tolerance and strategy while fostering a proactive risk management approach.

Extracts from the stress testing results are presented in Table 56 for reference.

#### Impact on CAR at minor, moderate and severe stress levels

						Idi	ole – 56
Particulars	Description	2023			2022		
		Minor N	loderate	Severe	Minor	Moderate	Severe
		%	%	%	%	%	%
Credit risk – asset quality downgrade	Increase in the direct non- performing facilities over the direct performing facilities for the entire portfolio(1)	-0.55	-1.54	-2.33	-0.42	-1.16	-1.76
Operational	Impact of;						
risk	<ol> <li>Top five operational losses during last five years</li> </ol>						
	2. Average of yearly operational risk losses during last three years whichever is higher	-0.03	-0.08	-0.17	-0.04	-0.09	-0.19
Foreign exchange risk	Percentage shock in the exchange rates for the Bank and Maldives operations (gross positions in each Book without netting)	-0.13	-0.39	-0.65	-0.21	-0.39	-0.59
Liquidity risk (LKR) –	<ol> <li>Withdrawal of percentage of the clients, banks and other banking institution deposits from the Bank within a period of three months</li> <li>Rollover of loans to a period greater than three months</li> </ol>	-0.14	-0.33	-0.61	-0.03	-0.12	-0.25
Interest rate risk – EAR and EVE (LKR) – Sri Lanka	To assess the long-term impact of changes in interest rates on Bank's EVE through changes in the economic value of its assets and liabilities and to assess the immediate impact of changes in interest rates on Bank's earnings through changes	0.70%	2.05		110	1.00	1.05
	in its net interest income	-0.72%	-2.08	-4.63	-1.18	-1.69	-1.95

(1) Stress scenarios are based on SLFRS-9 guidelines and staging of credit facilities pursuant to the Banking Act Direction No. 13 of 2021.

#### Monitoring and reporting

The risk management function at the Bank plays a crucial role in identifying, measuring, monitoring, and reporting risks. The staff members within this function undergo regular training to enhance their skills, and they are supported by advanced IT systems that facilitate data extraction, analysis, and scenario modeling. This combination of skilled personnel and technological tools ensures that the risk management team is well-equipped to fulfill its responsibilities effectively.

The team generates regular and adhoc reports on Key Risk Indicators (KRIs) and risk matrices for both the Bank and its subsidiaries. These reports are then reviewed by Senior Management, Executive and Board Committees, and the Board. The insights provided by these reports are instrumental in evaluating risks and providing strategic direction to the Bank.

The reports offer comprehensive information on aggregate risk measures across various dimensions, including products, portfolios, tenures, and geographies. This information is then compared to agreed-upon policy parameters, offering a clear representation of the risk profile and sensitivities of the risks undertaken by both the Bank and the entire Group. This holistic view aids in strategic decision-making and ensures that the organisation has a thorough understanding of its risk landscape.

#### **Basel III – Market Discipline**

Definition Refer Annex 2 on pages 451 to 463 for the minimum disclosure requirements under Pillar III as per the Banking Act Direction No. 01 of 2016.

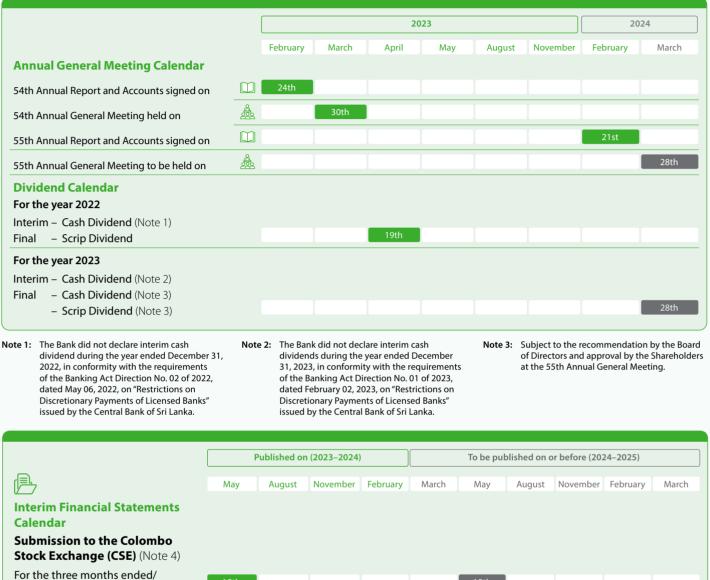

D Refer pages 462 and 463 on Annex 2 for the D-SIB Assessment Exercise disclosed as required by the Banking Act Direction No. 10 of 2019.

# FINANCIAL STATEMENTS

The Financial Statements, including the Accounting Policies and accompanying notes, adhere to all relevant Accounting Standards and are devoid of significant misstatements. As affirmed in the Auditors' Report, these Financial Statements provide a true and fair view of the Bank's performance, financial position, changes in equity and cash flows. The Auditors have expressed an unmodified opinion on these Financial Statements, as stated in their "Independent Auditors' Report" to the shareholders.

Financial calendar – 2023 and 2024 – 261 Independent Auditors' Report – 262 Financial statements highlights – Bank – 265 Financial statements – Table of contents – 266 Income Statement – 267 Statement of Profit or Loss and Other Comprehensive Income – 268 Statement of Financial Position – 269 Statement of Changes in Equity – Group – 270 Statement of Changes in Equity – Bank – 274 Statement of Cash Flows – 278 Notes to the Financial Statements – 279

#### TO THE SHAREHOLDERS OF COMMERCIAL BANK OF CEYLON PLC

## Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Commercial Bank of Ceylon PLC ("the Bank") and the consolidated financial statements of the Bank and its subsidiaries ("the Group"), which comprise the statement of financial position as at 31 December 2023, and the income statement, statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements of the Bank and the Group gives a true and fair view of the financial position of the Bank and the Group as at 31 December 2023, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

#### **Basis for opinion**

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

the ongoing foreign currency debt restructuring exercise, forward-looking macroeconomic scenarios and their associated weightages, which are subject to inherently heightened levels of estimation uncertainty.	<ul> <li>Evaluated the reasonableness of key inputs used in the allowance for expected credit losses made with particular focus on current economic volatility. Such evaluations were carried out considering the value and timing of cash flow forecasts particularly relating to elevated risk industries and status of recovery actions of the collaterals.</li> </ul>			
	<ul> <li>For financial assets assessed on a collective basis for impairment:</li> <li>Tested the key inputs and the calculations used in the allowance for expected credit losses.</li> </ul>			
	<ul> <li>Assessed the reasonableness of judgements, assumptions and estimates used by the Management in the underlying methodology and the management overlays.</li> </ul>			

those scenarios.

Notes 18, 33 & 66.

### Information Technology (IT) systems related internal controls over financial reporting

Bank's financial reporting process is significantly reliant on multiple IT systems with automated processes and internal controls. Further, key financial statement disclosures are prepared using data and reports generated by IT systems, that are compiled and formulated with the use of spreadsheets.

Accordingly, IT systems related internal controls over financial reporting were considered a key audit matter.

- Our audit procedures included the following key procedures:
- We obtained an understanding of the internal control environment of the processes and test checked relevant controls relating to financial reporting and related disclosures.

• We assessed the adequacy of the related financial statement disclosures set out in

Our testing included evaluating the reasonableness of forward-looking information used, economic scenarios considered, and probability weighting assigned to each of

- We involved our internal specialized resources and;
  - Identified, evaluated and tested the design and operating effectiveness of IT systems related internal controls, including those related to user access and change management, and
  - Obtained a high-level understanding of the cybersecurity risks affecting the bank and the actions taken to address these risks primarily through inquiry.
- We tested source data of the reports used to generate disclosures for accuracy and completeness, including review of the general ledger reconciliations.

#### Other information included in the 2023 Annual Report

Other information consists of the information included in the Annual Report, other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's and the Group's financial reporting process.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Bank and the Group financial reporting.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on other legal and regulatory requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and as far as appears from our examination, proper accounting records have been kept by the Bank.

CA Sri Lanka membership number of the engagement partner responsible for signing this independent auditor's report is 2199.

# **Notes to the Financial Statements**

#### **1. Reporting Entity**

#### **1.1 Corporate information**

Commercial Bank of Ceylon PLC (the "Bank") is a public limited liability company listed on the Colombo Stock Exchange (CSE), incorporated on June 25, 1969 under the Companies Ordinance No. 51 of 1938, and domiciled in Sri Lanka. It is a licensed commercial bank regulated under the Banking Act No. 30 of 1988 and amendments thereto (Banking Act). The Bank was re-registered under the Companies Act No. 07 of 2007 on January 23, 2008, under the Company Registration No. PQ 116. The registered office of the Bank is situated at "Commercial House", No. 21, Sir Razik Fareed Mawatha, Colombo 01, Sri Lanka. The ordinary shares of the Bank (both Ordinary Voting and Non-Voting shares) have a primary listing on the CSE. The unsecured subordinated debentures of the Bank are also listed on the CSE.

The staff strength of the Group and the Bank was as follows:

As at December 31,	2023	2022
Group	5,946	5,749
Bank	5,201	5,121

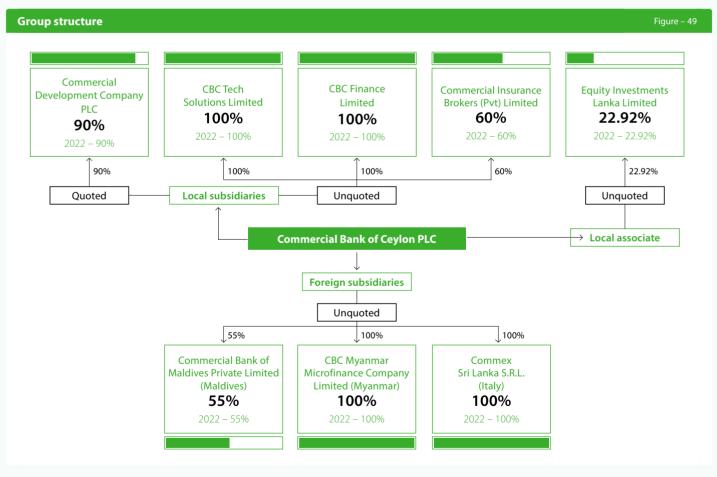

Corporate information is presented in the inner back cover of this Annual Report.

#### **1.2 Consolidated Financial Statements**

The Consolidated Financial Statements as at and for the year ended December 31, 2023, comprise the Bank (Parent Company) and its Subsidiaries (together referred to as the "Group" and individually as "Group entities") and the Group's interest in its Associate.

The Bank does not have an identifiable parent of its own. The Bank is the Ultimate Parent of the Group.

#### 1.3 Principal business activities, nature of operations of the Group and ownership by the Bank in its subsidiaries and associate

#### Principal business activities and nature of business operations of the Group

	Table – 57
Entity	Principal business activities
Commercial Bank of Ceylon PLC	Banking and related activities such as accepting deposits, personal banking, trade financing, offshore banking, RFC & NRFC operations, travel-related services, corporate and retail credit, syndicated financing, project financing, investment banking, development banking, lease & hire purchase, rural credit, issuing of local and international debit and credit cards, internet banking, mobile banking, money remittance facilities, dealing in Government Securities and treasury-related products, salary remittance package, bullion trading, export and domestic factoring, pawning, margin trading, digital banking services, bancassurance and Islamic banking products and services etc.
Local subsidiaries	
Commercial Development Company PLC (CDC)	Property development, related ancillary services and providing manpower needs for various support services which are unrelated to providing core banking services to the customers of the Bank (parent).
CBC Tech Solutions Limited	Providing Information and Communication Technology (ICT) related products, services and solutions to the corporate sector.
CBC Finance Limited	Granting of lease facilities, hire purchase, mortgage loans and other credit facilities and accepting deposits.
Commercial Insurance Brokers (Pvt) Limited (CIBL)	Providing professional service and handling all insurance portfolios of individuals as well as many leading and reputed organisations in Sri Lanka engaged in diverse business activities.
Foreign subsidiaries	
Commercial Bank of Maldives Private Limited (CBM)	Offering of an extensive range of banking and related financial services such as accepting deposits, retail banking, trade financing, corporate and retail credit, project financing, development banking, tele-banking, internet banking, mobile banking, money remittance facilities, dealing in Government securities and treasury-related products etc.
CBC Myanmar Microfinance Company Limited	Operating as a non-deposit taking microfinance institution throughout Myanmar providing micro financial services to the lower segment of the market, and to engage in all activities reasonably allowed by the Microfinance Supervisory Authority of Myanmar.
Commex Sri Lanka S.R.L - Italy (Commex)	Operated as an agent to the Bank (parent) for opening accounts, providing money transfer services, issuance and encashment of foreign currencies and travelers cheques, collecting applications for credit facilities and handling of ATM cards etc. (The Company is under voluntary liquidation and the liquidation is nearing completion).
Local associate	
Equity Investments Lanka Limited	Project financing in the form of equity, quasi equity and other corporate debt instruments of new and existing ventures in Sri Lanka.

#### 2. Basis of Accounting

#### 2.1 Statement of compliance

The Consolidated Financial Statements of the Group and the separate Financial Statements of the Bank, have been prepared and presented in accordance with the Sri Lanka Accounting Standards (SLFRSs and LKASs), laid down by The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) and in compliance with the requirements of the Companies Act No. 07 of 2007 and amendments thereto (Companies Act) and the Banking Act and provide appropriate disclosures as required by the Listing Rules of the CSE. These Financial Statements, except for information on cash flows have been prepared following the accrual basis of accounting.

These SLFRSs and LKASs are available at the website of CA Sri Lanka – *www.casrilanka.com*.

The Group did not adopt any inappropriate accounting treatments, which are not in compliance with the requirements of the SLFRSs and LKASs, regulations governing the preparation and presentation of the Financial Statements.

Details of the Group's Material Accounting Policies followed during the year are given in Notes 6 to 10 on pages 289 to 301.

The formats used in the preparation and presentation of the Financial Statements and the disclosures made therein also comply with the specified formats prescribed by the CBSL in the Circular No. 02 of 2019 dated January 18, 2019, on "Publication of Annual and Quarterly Financial Statements and Other Disclosures by Licensed Banks". The Bank also published annual and quarterly financial information and other disclosures in the Annual Report, Press and the Website in compliance with Section 4.2 of the aforementioned Circular.

#### 2.2 Responsibility for Financial Statements

The Board of Directors of the Bank is responsible for the preparation and presentation of the Financial Statements of the Group and the Bank as per the provisions of the Companies Act and Sri Lanka Accounting Standards.

The Board of Directors acknowledges their responsibility for Financial Statements as set out in the "Annual Report of the Board of Directors", "Statement of Directors' Responsibility for Financial Reporting" and the certification on the Statement of Financial Position on page 3, 224 and 269, respectively.

These Financial Statements include the following components:

 Income Statement and a Statement of Profit or Loss and Other Comprehensive Income (OCI) – which provides the information on the financial performance of the Group and the Bank for the year under review. 2 Refer pages 267 and 268;

- Statement of Financial Position (SOFP) which provides the information on the financial position of the Group and the Bank as at the year end. I Refer page 269;
- Statement of Changes in Equity- which depicts all changes in shareholders' funds during the year under review of the Group and the Bank. 2 Refer pages 270 to 277;
- Statement of Cash Flows- which provides the information to the users, on the ability of the Group and the Bank to generate cash and cash equivalents and utilisation of those cash flows. 2 Refer page 278;
- Notes to the Financial Statements comprising Material Accounting Policy Information and other explanatory information. 2 Refer pages 279 to 420.

## 2.3 Approval of Financial Statements by the Board of Directors

The Financial Statements of the Group and the Bank for the year ended December 31, 2023 (including comparatives for 2022), were approved and authorised for issue by the Board of Directors in accordance with Resolution of the Directors on February 21, 2024 (The Financial Statements of the Group and the Bank for the year ended December 31, 2022, were approved and authorised for issue by the Board of Directors on February 24, 2023).

#### 2.4 Basis of measurement

The Financial Statements of the Group have been prepared on the historical cost basis except for the following material items stated in the SOFP.

#### **Basis of measurement**

			Table – 58
Items	Basis of measurement	Note Number/s	Page/s
Financial instruments measured at fair value through profit or loss including derivative financial instruments	Fair value	31, 32 and 44	322, 323 and 356
Financial assets measured at fair value through other comprehensive income	Fair value	35	332
Land and buildings	Measured at cost at the time of acquisition and subsequently at revalued amounts which are the fair values at the date of revaluation	38	337
Investment property	Measured at cost at the time of acquisition and subsequently at fair value	39	349
Defined benefit obligation	Net liability for defined benefit obligations are recognised as the present value of the defined benefit obligation, less net total of the plan assets, plus unrecognised actuarial gains, less unrecognised past service cost, and unrecognised actuarial losses	48	359
Equity settled share-based payment arrangements	Fair value on grant date	52	371

#### 2.5 Going concern basis of accounting

The Management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. In making this assessment, the Bank has considered the possible impact of the down side economic scenarios and climaterelated matters on their going concern assessment.

Furthermore, the Management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the Financial Statements of the Group continue to be prepared on a going concern basis.

Considering a wide range of factors including history of profitable operations, strong liquidity positions and the availability of stable external funding sources, diversified lending profile and the initiatives taken to strengthen risk monitoring at borrower level, the Management is satisfied that the going concern basis is appropriate.

#### 2.6 Functional and presentation currency

Items included in these Financial Statements are measured using the currency of the primary economic environment in which the Bank operates (the functional currency).

Each entity in the Group determines its own functional currency and items included in the Financial Statements of these entities are measured using that functional currency. There was no change in the Group's presentation and functional currency during the year under review.

These Financial Statements are presented in Sri Lankan Rupees, the Group's functional and presentation currency.

The information presented in US Dollars in Annex 8 in the Section on "Supplementary Information" on pages 478 and 479 does not form part of the Financial Statements and is made available solely for the information of stakeholders.

#### 2.7 Presentation of Financial Statements

The assets and liabilities of the Group presented in the SOFP are grouped by nature and listed in an order that reflects their relative liquidity and maturity pattern.

No adjustments have been made for inflationary factors affecting the Financial Statements.

An analysis on recovery or settlement within 12 months and more than 12 months from the reporting date is presented in Note 60 on pages 380 and 381.

#### 2.8 Rounding

The amounts in the Financial Statements have been rounded-off to the nearest rupees thousands, except where otherwise indicated as permitted by the Sri Lanka Accounting Standard – LKAS 1 on "Presentation of Financial Statements" (LKAS 1).

#### 2.9 Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the SOFP, only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously. Income and expenses are not offset in the Income Statement, unless required or permitted by an Accounting Standard or Interpretation (issued by the IFRS Interpretations Committee and Standard Interpretations Committee) and as specifically disclosed in the Material Accounting Policy Information of the Group.

#### 2.10 Materiality and aggregation

Each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or function are presented separately, unless they are immaterial as permitted by the LKAS 1 and amendments to the LKAS 1 on "Disclosure Initiative" which was effective from January 1, 2016.

Notes to the Financial Statements are presented in a systematic manner which ensures the understandability and comparability of Financial Statements of the Group and the Bank. Understandability of the Financial Statements is not compromised by obscuring material information with immaterial information or by aggregating material items that have different natures or functions.

#### 2.11 Comparative information

Comparative information including quantitative, narrative and descriptive information is disclosed in respect of the previous period in the Financial Statements in order to enhance the understanding of the current period's Financial Statements and to enhance the inter period comparability. The presentation and classification of the Financial Statements of the previous year are amended, where relevant for better presentation and to be comparable with those of the current year.

# 2.12 Use of significant accounting judgements and assumptions and estimates

In preparing the Financial Statements of the Group in conformity with SLFRSs and LKASs,

the Management has made judgements, estimates and assumptions about the future, including climate related risks and opportunities which affect the application of Accounting Policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Group's risk management and climate related commitments where appropriate. Revisions to accounting estimates are recognised prospectively.

Significant areas of critical judgements, assumptions and estimation uncertainty, in applying the Accounting Policies that have material effects on the amounts recognised in the Financial Statements of the Group are as follows:

#### A. Significant Accounting Judgements

Information about judgements made in applying the Accounting Policies that have material effects on the amounts recognised in these Financial Statements is included in Notes 2.12.1 to 2.12.3 below.

#### 2.12.1 Determination of control over investees

Management applies its judgement to determine whether the control indicators set out in Note 36 on page 334 indicates that the Group controls the investees.

## **2.12.2 Classification of financial assets and liabilities**

The Material Accounting Policy Information of the Group provides scope for financial assets to be classified and subsequently measured into different categories, namely, at Amortised Cost (AC), Fair Value through Other Comprehensive Income (FVOCI) and Fair Value Through Profit or Loss (FVTPL) based on the following criteria;

- The entity's business model for managing the financial assets as set out in Note 7.1.3.1 on page 291.
- The contractual cash flow characteristics of the financial assets as set out in Note 7.1.3.2 on page 291.

#### 2.12.3 Classification of investment property

Management uses its judgement to determine whether a property qualifies as an investment property. A property that is held either to earn rental income or for capital appreciation or both and thus generates cash flows largely independently of the other assets held by the Group are classified as Investment Property. On the other hand, a property used in the production or supply of goods and services or for administrative purposes and thus generates cash flows that are attributable not only to that property but also to other assets used in the production or supply process are classified as Property, Plant & Equipment. The Group assesses on an annual basis, the accounting classification of its investment properties, taking into consideration the current use of such properties.

## B. Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in material adjustments are included in Notes 2.12.4 to 2.12.14 below.

#### 2.12.4 Fair value of financial instruments

The fair values of financial assets and financial liabilities recognised on the SOFP, for which there is no observable market price are determined using a variety of valuation techniques that include the use of mathematical models. The Group measures fair value using the fair value hierarchy that reflects the significance of input used in making measurements. Methodologies used for valuation of financial instruments and fair value hierarchy are stated in Note 27 on pages 316 to 320.

#### 2.12.5 Impairment losses on financial assets

The measurement of impairment losses across the categories of financial assets under Sri Lanka Accounting Standard-SLFRS 9 on "Financial Instruments" (SLFRS 9) requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses.

Accordingly, the Group reviews its individually significant loans and advances portfolio at each reporting date to assess whether an impairment loss should be recognised in the Income Statement. In particular, the Management's judgement is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. In estimating these cash flows, Management makes judgements about a borrower's financial situation and the net realisable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable. These estimates are based on assumptions about a number of factors and hence actual results may differ, resulting in future changes to the impairment allowance made.

A collective impairment provision is established for:

- groups of homogeneous loans and advances that are not considered individually significant; and
- groups of assets that are individually significant but that were not found to be individually impaired.

As per SLFRS 9, the Group's Expected Credit Loss (ECL) calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the Group's ECL models that are considered accounting judgements and estimates include:

- Criteria for qualitatively assessing whether there has been a significant increase in credit risk (SICR) and if so allowances for financial assets measured on a Life Time Expected Credit Loss (LTECL) basis.
- Segmentation of financial assets when their ECL is assessed on a collective basis.
- Various statistical formulas and the choice of inputs used in the development of ECL models.
- Associations between macroeconomic inputs, such as GDP growth, inflation, interest rates, exchange rates and unemployment and the effect of these inputs on Probability of Default (PDs), Loss Given Default (LGD) and Exposure At Default (EAD).
- Forward-looking macroeconomic scenarios and their probability weightings.

As such, the accuracy of the impairment provision depends on the model assumptions and parameters used in determining the ECL calculations.

In response to the Group's expectations of economic impacts due to uncertainties, key assumptions used in the Group's calculation of ECL have been revised. As at the reporting date, the expected impacts of the economic uncertainties have been captured via the modelled outcome as well as a separate management overlay reflecting the considerable uncertainty remaining in the modelled outcome given the unprecedented impacts in the economy. Although the credit model inputs and assumptions, including forward-looking macroeconomic assumptions, were revised in response to any possible adverse scenarios, the fundamental credit model mechanics and methodology underpinning the Group's calculation of ECL have remained consistent with prior periods.

Accordingly, the Bank took steps to identify the customers showing distress signs in identifying SICR under the individual impairment assessment. Under the collective assessment, customers operating in risk elevated industries including tourism and hospitality, selected personal loan categories, few subsectors under export, industrial, agricultural, arts & entertainment, transportation, construction & infrastructure development and other services categories were assessed for Lifetime ECL. Exposures outstanding from the borrowers operating in these industries have been classified as Stage 2 unless such exposures are individually significant and have specifically been identified as Stage 1 reflecting forward looking view of the economy in relation to the business.

During 2023, the Bank reviewed the weightages assigned for base case, best case and worst case scenarios when assessing the probability weighted forward looking macro-economic indicators in line with the latest available information. Further, the Bank reviewed the default point when assessing the EAD under collective impairment paying due consideration for future economic uncertainties. The Bank used Expert credit judgement in assessing individual significant customers and ensured adequate provisions are made considering riskiness of the customers.

Early observations of payment behaviour of expiries for this year were considered in the assessment of the changes in the risk of default occurring over the expected life of a financial instrument when determining staging and is a key input in determining migration.

Refer Note 18 on page 306 for details.

#### 2.12.6 Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for an asset or a Cash Generating Unit (CGU) at each reporting date or more frequently, if events or changes in circumstances necessitate to do so. This requires the estimation of the Value in use (VIU) of such individual assets or the CGUs. Estimating VIU requires the Management to make an estimate of the expected future cash flows from the asset or the CGU and also to select a suitable discount rate in order to calculate the present value of the relevant future cash flows. This valuation requires the Group to make estimates about expected future cash flows and discount rates and hence, they are subject to uncertainty.

Refer Note 7.6 on page 297 for details.

### 2.12.7 Revaluation of property, plant and equipment

The Group measures land and buildings at revalued amounts with changes in fair value being recognised in Equity through OCI. The Group engages independent professional valuers to assess fair value of land and buildings in terms of Sri Lanka Accounting Standard – SLFRS 13 on "Fair Value Measurement" (SLFRS 13). The key assumptions used to determine the fair value of the land and building and sensitivity analyses are provided in Notes 38.5 (b) and 38.5 (c) on pages 343 to 348.

### 2.12.8 Useful lifetime of the property, plant and equipment

The Group reviews the residual values, useful lives and methods of depreciation of Property, Plant and Equipment at each reporting date. Judgement of the Management is exercised in the estimation of these values, rates, methods and hence they are subject to uncertainty.

Refer Note 20 on page 310.

#### 2.12.9 Fair valuation of investment property

Fair valuation of the investment property is ascertained by independent valuations carried out by Chartered valuation surveyors, who have recent experience in valuing properties at similar locations and categories. They have made reference to market evidence of transaction prices for similar properties, with appropriate adjustments for size and location. The key assumptions used to determine the fair value of investment property are provided in detail in Note 39 on page 349.

#### 2.12.10 SLFRS 16 – leases

# 2.12.10.1 Determination of the lease term for lease contracts with renewal and termination options (Group as a lessee)

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either renewal or termination option. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation of the leased asset).

## 2.12.10.2 Estimating the incremental borrowing rate

As the Group cannot readily determine the interest rate implicit in the lease, it uses its Incremental Borrowing Rate ("IBR") to measure the lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available (or when they need to be adjusted to reflect the terms and conditions of the lease). The Group estimates the IBR using observable input when available and is required to make certain entity-specific adjustments.

#### 2.12.11 Deferred tax assets

Deferred tax assets are recognised in respect of tax losses to the extent that it is probable that future taxable profit will be available and can be utilised against such tax losses. Judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits, together with future tax-planning strategies.

Refer Note 41 on page 354 for details.

#### 2.12.12 Defined benefit obligation

The costs of the defined benefit plans are determined using an actuarial valuation. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates, future pension increase, etc. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

The Bank generally uses the long-term treasury bond rate as the discount rate for the purpose of assessing the present value of future obligations. The treasury bond rates increased significantly during the year 2022 and was around 30% range during the latter part of 2022. As per the "Frequently Asked Questions (FAQs) on Use of Discount rate under the uncertain Economic Conditions" issued by the CA Sri Lanka, an adjusted treasury bond rate could be considered as the discount rate for the purpose of the actuarial valuations as at December 31, 2022, on the basis that the then prevailed treasury bond rates did not reflect only the time value of money. Accordingly, an adjusted discount rate of 18% was derived by removing a credit spread from the treasury bond rate.

Refer Note 48 on pages 359 to 367 for the assumptions used.

#### 2.12.13 Impact of climate risk

3

Climate risks are potential negative impact on the Group arising from climate change. The Group and its customers are exposed to the physical risks from climate change and risks of transitioning to a net-zero economy. Most climate-related physical risks are expected to manifest over a term that is generally longer than the maturity of most of the outstanding exposures. The following balances may be impacted by physical and transition risks:

ECL: Customers and portfolios with exposure to climate risk may have a resultant deterioration in creditworthiness, which has an impact on ECL. On the whole, the Group is of the view that the counterparties who have exposures to climate risk are not expected to be materially impacted by physical or transition risks associated with climate change. For example, the majority of the counterparties are not employed, or do not operate, in high-risk sectors, nor are they located in high risk geographical areas. It was also noted that for a significant part of the portfolio, the time horizon for any physical impact of climate risk is longer than the maturity of most of the assets as described in Note 60 on page 380.

Fair value measurement: The Bank has assumed that any climate change variables incorporated in fair value measurement are those that market participants would consider when pricing the asset or liability, in line with SLFRS 13. The Bank has concluded that climate risk has been adequately reflected within the fair value.

### 2.12.14 Provisions for liabilities, commitments and contingencies

The Group receives legal claims in the normal course of business. Management has made judgements as to the likelihood of any claim succeeding in making provisions. The time of concluding legal claims is uncertain, as is the amount of possible outflow of economic benefits. Timing and cost ultimately depends on the due processes in respective legal jurisdictions.

Information about significant areas of estimation uncertainty and critical judgements in applying Accounting Policies other than those stated above that have material effects on the amounts recognised in the Consolidated Financial Statements are described in Notes 7.10 to 7.15 on pages 299 and 300.

#### 2.13 Events after the reporting period

Events after the reporting period are those events, favourable and unfavourable, that occur between the reporting date and the date when the Financial Statements are authorised for issue.

In this regard, all material and important events that occurred after the reporting period have been considered and appropriate disclosures are made in Note 68 on page 420, where necessary.

#### 3. Financial Risk Management 3.1 Introduction and overview

Like any other business model, risk is inherent in the Bank's activities too and attempts to manage through a process of ongoing identification, measurement and monitoring, subject to risk limits and controls are adopted to mitigate possible consequences arising out of volatile and fluid outcomes in the internal and external environment.

The process of risk management is identified as critical to maintain Bank's continuing profitability. Managing the changing stakeholder dynamics whilst preserving culture and value system of the Bank is considered as a priority in the business operation.

The Group has exposure mainly to the following broad risk categories arising out of its business activities that are undertaken in its day to day functions:

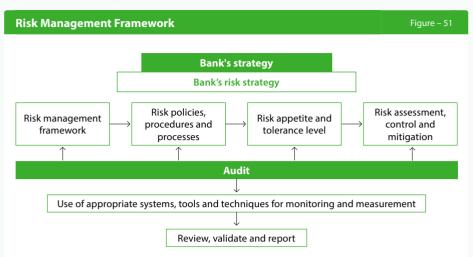

- Strategic and business risk;
- Credit risk;
- Reputational risk;
- Liquidity risk;
- Market risk;
- Operational risk;
- Conduct risk;
- Social and environmental risk.

Key risks faced by the Bank mainly associated with the post impact of socialpolitical-economic uncertainties and pit falls faced by the country in 2022 and the strategies adopted by the Government to address them. The global economy is signalling for a recession in 2024. Uncertainties prevailed in the business environment and the nuances and correlations associated with different key risk categories acted as major challenges in this continuously evolving risk universe which is going through a constant state of flux.

#### Figure – 50: Types of risk

### 3.2 Bank's risk management framework

The Board of Directors of the Bank has the overall responsibility for the establishment and oversight of the Bank's Risk Management Framework.

The Risk Management Framework of the Bank translates overall risk appetite on business activities in a holistic approach to provide the guidance required for convergence of strategic and risk perspectives of the Bank.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls to monitor risks and adherence to limits. The Risk Management Policy Framework constitutes the Credit Policy, Lending Guidelines, Credit Risk Review Policy, ALM Policy including **Contingency Funding Plan, Foreign** Exchange Policy, Operational Risk Policy, IT Risk Policy, Market Risk Policy, Stress Testing Policy, Financial & Risk Management Disclosure Policy, Conduct Risk Management Policy, Group Social & Environmental Policy and Reputational Risk Management Policy etc., which have been firmly established to provide control and guidance for decisionmaking throughout the Bank in a uniform manner.

The Committee structure embedded to the Risk Management Framework acts as a fact finding and decision making authority through deliberations and arriving at consensus arising out of multiple points of views. The Risk Management Committees effectively deliberate on matters at hand to provide guidance to the business lines with a view to managing risk in accordance with the strategic goals and risk appetite of the Bank.

The Board of Directors of the Bank has formed the Board Integrated Risk Management Committee (BIRMC) as a mandatory Board Committee, as per Banking Act Direction No. 11 of 2007 on Corporate Governance. The performance of the Committee and the duties and roles of members are reviewed by the Board annually or more frequently, if warranted.

The meetings of the Executive Integrated Risk Management Committee (EIRMC) are conducted on a monthly basis to discuss Credit, Operational, Market, IT and Social & Environmental risk matters of the Bank. Assets and Liabilities Committee (ALCO), that convene at least once a fortnight, gives priority for liquidity, funding and profitability in line with the changes taken place in the market.

Risk Control Self-Assessment (RCSA) framework is adopted to identify risks involved in business activities of the Bank and to implement appropriate risk mitigatory measures after assessing criticality of such risks. The Integrated Risk Management Department (IRMD) carries out semi-annual Bank-wide RCSA exercise focusing on adherence to laws, regulations, and regulatory guidelines as well as internal controls and approved policies.

Further, the Internal Audit function of the Bank independently monitors and evaluates the risk management function of the Bank and provides its views on the adequacy of the Risk Management Framework to the Board Audit Committee (BAC).

#### Strategic and business risk

Bank's inability to keep up with the evolving market dynamics, resulting in loss of market share and failure to achieve strategic goals in line with its Vision and Mission is identified as Strategic risk.

Business risk refers to any risk that arises from the Bank's long-term business strategies and affects its profitability, and relatively short term in nature.

### Management of strategic and business risk

Corporate planning and budgeting process and continuous evaluation of their alignment with the Bank's Vision, Mission and the risk appetite facilitate management of strategic risk. In the annual Internal Capital Adequacy Assessment Process (ICAAP) exercise of the Bank, detailed scorecard-based qualitative models are used to measure and monitor strategic risk of the Bank. This scorecard-based approach takes a number of variables into account, including the size and sophistication level of the Bank, the nature and complexity of its operations and highlights the areas that require focus to mitigate potential strategic risks.

Business risk of the Bank is managed through its day to day decisions made by the line managers and also at different Management Committees in identifying, assessing and remediating such risks.

Also, in line with the Banking Act Direction No. 09 of 2021, commencing from 2022, the Bank being the largest private sector bank in the industry designated as a Domestic Systemically Important Bank (D-SIB), has developed its Recovery Plan (RCP). The Bank has commenced the review of RCP on a quarterly basis commencing from 2023. This plan outlines the Bank's transition from Business-As-Usual (BAU) to different degrees of elevated risk conditions, highlighting the preparedness to the recovery actions, if the financial deterioration occurs and is not rectified.

### **Credit risk**

The risk that the Bank will incur a loss due to its customers or counterparties failing to discharge their contractual obligations, is considered generally under the credit risk assessment.

The Bank manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties, groups of counterparties, geographies, business sectors, and industries by monitoring exposures and possible adverse external factors in relation to such limits.

#### Management of credit risk

Lending Guidelines of the Bank has been formulated based on evolving practices of lending to provide expected granularity of credit assessment and thereby, to ensure strict attention to risks emanating from lending proposals at the time of initiation, analysis, and approval. In addition, Lending Guidelines ensures objective assessment of acceptability of collateral as well as limits on exposures and concentration levels to various sectors, counterparties, geographies and segments etc. A robust risk grading system in line with the Basel guidelines on rating of facilities and counterparties is adopted by the Bank for evaluation of credit proposals. This risk grading framework consists of 10 grades of gradually escalating continuum of risks as indicators for the Lending Officers to evaluate and arrive at suitable risk reward trade-offs in their propositions. These risk grades were validated by internationally accepted consultants and are reviewed by the IRMD regularly.

Credit Risk Review function covers over 30% of the advances portfolio, including non performing credit facilities, of the Bank using the Loan Review Mechanism (LRM). This continuous exercise provides reasonable assurance that all major credit risks embedded in the operation of lending is carried out in line with the stipulated guidelines and within the risk appetite framework of the Bank.

Early Warning Signals (EWS) system which is currently being adopted based on Machine Learning/Regression analysing Prediction model to assist Lending Officers. This will reciprocally affect in detecting problematic advances, industries whilst inversely provide insights to identify potential lending opportunities. This tool is used to maintain the quality of the Loan Book of the Bank.

Portfolio level credit risk analyses are taken up at monthly EIRMC meetings as well as quarterly at BIRMC meetings. Individual credit proposals evaluated by the Lending Officers are approved by the Authorising Officers within the hierarchy in delegated authority levels whilst ensuring a minimum of the Four Eyes Principle, when approving them. Approval levels are escalated based on delegated authority levels attached to exposure levels, final risk ratings, changes of risk appetite for specific industries as well as negative deviation of performance levels as compared to previous facilities extended to borrowers.

The Executive Credit Committee (ECC) and the Board Credit Committee (BCC) are responsible for approving credit facilities with high value while the Board will be the ultimate authority for approving facilities exceeding predetermined threshold levels. Deliberations take place at the BCC level on facilities being considered for approval beyond the specified threshold and recommendations for approval of the Board are made based on quantum of exposures at various levels.

The IRMD provides risk approval for individual proposals above predetermined threshold levels, consequent to a rigorous independent risk evaluation guided by Credit Policy, Lending Guidelines, and circular instructions within a limit framework stemming from risk appetite of the Bank.

Across the globe, Banks are intensifying their approach towards early recognition of impaired credit assets and thereby, taking proactive efforts in readying their institutions to encounter possible economic downturns. Most regulators of the banking sector around the world expect the financial institutions in their markets to implement robust credit risk estimation models and align the decision making process based on such robust models. Forward looking impairment provision approach is significantly different from the traditional approach of providing for Incurred Loss Assets. The Expected Credit Loss (ECL) model introduced under the SLFRS 9 replaced the Incurred Loss Model, which was considered inadequate in recognising credit losses in a proactive manner and had failed in accurately estimating the credit losses during economic stress conditions. Accordingly, the Bank also had duly adopted the ECL modelling in impairment computations. IRMD involves in Independent oversight on Individually Significant Loans (ISLs) to improve accuracy of cash flow projections bringing in a more robust and specific approach to the classification, recognition and measurement of credit facilities. Also the CBSL had issued the Banking Act Direction No. 13 of 2021, which spells out clear procedures to be adopted by banks in impairment computations.

Commencing from January 01, 2022, IRMD has been entrusted with the responsibility of objective assessment of credit facilities for upgrading purpose as per the provisions of the Banking Act Direction No. 13 of 2021. Accordingly, models used for calculation of impairment would be evaluated/recommended by the IRMD under the specific supervision of the Chief Risk Officer. Upgrading of restructured and rescheduled credit facilities shall only be carried out by the IRMD and shall be independent from the credit facility review mechanism.

#### **Social and environmental risk**

The Bank recognises the evolving risks posed by environmental, social, and governance (ESG) factors to both its operations and the businesses it finances. From resource depletion and climate change to social inequalities and ethical lapses, these emerging challenges demand responsible action. In response, the Bank has implemented a comprehensive Social and Environmental Management System (SEMS) aligned with the Central Bank of Sri Lanka's Sustainable Finance Roadmap. This system ensures that ESG considerations are fully integrated into the Bank's lending decisions, promoting not only financial health but also a more sustainable future.

In every loan evaluation, the Bank goes beyond traditional financial metrics. It actively examines the potential positive and negative ESG impacts of each borrower and project, understanding how their practices and activities influence both financial performance and social well-being. This holistic approach guides the Bank's analysis throughout the lending process, from initial screening to ongoing portfolio monitoring. The internationally recognised IFC Performance Standards serve as a valuable framework for identifying and prioritising relevant ESG issues.

The SEMS framework encompasses a broad range of considerations, including resource efficiency, biodiversity conservation, fair labour practices, community engagement, and robust corporate governance. This comprehensive perspective guides the Bank's credit analysis methodology, where ESG factors are woven into the fabric of risk assessment. The Bank meticulously identifies material ESG risks and opportunities specific to each borrower and project, taking into account factors like industry sector, geographic location, and regulatory environment. These insights are subsequently translated into practical actions, potentially shaping borrowing terms, interest rates, or even the decision to extend financing altogether.

Transparency and continuous improvement are the Bank's guiding principles when it comes to ESG integration. It openly discloses its policies and procedures to relevant stakeholders, ensuring accountability and fostering trust. Furthermore, the Bank actively engages with industry peers, regulatory bodies, and civil society organisations, continuously learning and refining its approach to stay ahead of emerging trends and best practices. The Bank's commitment to responsible financing is further evidenced through comprehensive reporting of ESG performance in annual reports and relevant regulatory disclosures.

## Management of social and environmental risk

The implementation of SEMS involves clearly defined roles and responsibilities within the Bank. A dedicated ESG team within the Integrated Risk Management Department spearheads day-to-day integration efforts. Credit analysts are continuously trained to incorporate ESG factors into their assessments, utilising specialised data and tools. Additionally, the Bank leverages the expertise of internal and external sector specialists to address complex ESG challenges unique to particular industries.

As the Bank navigates the evolving landscape of ESG, it actively monitors concentrations of credit exposure to specific factors like climate transition risks and resource dependency. By establishing robust risk limits and mitigation strategies, the Bank manages these exposures proactively. To remain agile and responsive, the Bank continually incorporates insights from emerging ESG trends, particularly those related to climate change, into its risk screening tools and analysis frameworks. The Bank's proactive approach ensures informed decision-making that minimises long-term risks and promotes greater resilience in the face of future challenges.

Through active engagement with stakeholders and ongoing refinement of its ESG integration practices, the Bank strives to ensure that its lending decisions contribute not only to financial prosperity but also to a more equitable and sustainable future for all. The Bank's dedication to responsible financing remains resolute, and it continues to embrace innovative solutions that pave the way for a world where economic progress and environmental well-being go hand in hand.

## **Liquidity risk**

The risk that the Bank will encounter difficulty in meeting obligations associated with the financial liabilities that are settled by delivering cash or another financial asset is focused on this risk domain. Liquidity risk arises because of the possibility that the Bank might be unable to meet its payment obligations or not receiving what is due to the Bank when they fall due under both normal and stress circumstances.

To limit this risk, Management has arranged diversified funding sources in addition to its core deposit base and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis. The Bank has reviewed and strengthened its internal control processes and contingency plans for managing liquidity risk.

## **Management of liquidity risk**

Market Risk Management Policy and the ALM Policy of the Bank approved by the Board of Directors set the tone for managing liquidity risk of the Bank. Liquidity risk of the Bank is given utmost priority when managing a wide range of other risks because it is considered as the most critical risk for any financial institution.

The Bank's Treasury Department is entrusted with managing liquidity of the Bank on a real time basis to ensure smooth functioning of business activities of all other business units of the Bank. Additionally, a team of members of the Corporate Management, comprising the Deputy General Manager – Treasury, Assistant General Manager – Treasury and the Chief Risk Officer, carefully analyse liquidity position of the Bank taking in to consideration, both short term and medium term cash flow gaps, more frequently.

Access to a substantial stable Current Account and Savings Account (CASA) base due to its wide branch network and the top of the mind perception created among the depositors, provide immense strength to the Bank in managing liquidity. Also, the growing balance sheet size, higher rating and continuous rapport maintained with local and international counterparty banks have helped immensely to the Bank to maintain adequate foreign currency liquidity amidst stressed market conditions.

Having an adequate buffer of High Quality Liquid Assets (HQLA) at the disposal of the Bank is another plus factor for the Bank. The strength of such portfolio is amply reflected in the Basel III computation the Bank carries out for arriving at Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) as per the CBSL Directions that recorded very healthy results as compared to regulatory minimum threshold levels.

The Bank has experienced accumulation of rupee liquidity above the minimum regulatory requirements as a result of sluggish economic performance of the country since 2020. However, having adopted many strategies to invest excess liquidity at optimum yields but in staggered maturities and thereby to minimise the negative impact on the bottom line as well as liquidity, the bank is mindful about the excessive exposure to the Government by way of the Government Securities. As such the Bank has reinvigorated the expansion of the Loan Book since the third quarter of 2023.

Contingency funding plans are in force, constant monitoring of salient liquidity ratios and scenario-based stress testing being carried out regularly would enable the Bank to take proactive measures towards overcoming an adverse liquidity position that may arise on a future date. The regular stress testing is conducted under a variety of scenarios covering both normal and more severe market conditions.

## **Market risk**

The risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices comes under the ambit of Market risk. The market risk management is to manage and control market risk exposure within acceptable parameters to ensure the Group's solvency while optimising the return on risk. The Bank classifies exposures to Market Risk into either Trading or Non-Trading portfolios (Banking Book) and manages each of those portfolios separately.

The Market risk for the Trading portfolio is monitored and managed closely having paid attention to the changes on the prices of market.

#### Management of market risk

Market Risk Management Policy, ALM Policy and Foreign Exchange Risk Policy are the three main policies that constitute the framework governing the Market Risk Management function of the Bank. Due to business model adopted by the Bank, exposure to equity and commodity risk was kept at bay throughout the year.

However, Interest Rate Risk arising from the Banking Book as well as Trading Book and Foreign Exchange Risk arising from dealing in assets and liabilities denominated in currencies other than local currency, continued to expose the Bank to associated risk elements.

Declining interest rates since the first quarter of 2023 posed challenges to the Net Interest Margin (NIM) as the demand for advances had stagnated since the COVID-19 period (until the third quarter of 2023) and the economic reforms introduced to the country subsequently.

Interest Rates of the Banking Book is subjected to varying degrees of rate shocks to stimulate and identify impact on earnings perspective in such rate scenarios. The results of such predictions could assist the Bank in formulating strategies to manage the financial position in an effective manner with the limited choices available in the local market.

Trading Book too was subjected to Value at Risk (VaR) framework internally carried out by the Bank on a regular basis. The Bank also carried out sensitivity analysis on a regular basis to ascertain the impact on portfolios maintained, mainly in Government Securities and marking to market of such portfolios to reflect fair value of underlying assets for the decision-making process.

The Sri Lankan rupee appreciated by over 20% against the US dollar by early June, followed by a slight weakening in the latter half of the year. Forex positions were subjected to continuous sensitivity analysis to provide insights to possible losses arising from currency appreciation/depreciation, as the reporting currency of the Bank, being Sri Lankan Rupees.

### **Operational risk**

The risk that the Bank will incur a loss due to failure of systems, human errors, frauds or external events is focused on this risk domain. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications or lead to financial loss. The Bank cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring, escalating, reporting and responding to potential risks.

Circular Instructions and Operational Risk Management Policy play a major part in bringing together business practices with accepted benchmarks to ensure minimum disruption to processes, personnel, technology and infrastructure.

Internal Control framework and audit function with firmly established "three lines of defences" serve the Bank to manage operational risk at current acceptable levels.

Sound Operational Risk Management practices are embedded into the work process through the Bank's culture, internal policy framework and as per regulatory requirements.

IT Risk of the Bank is managed through strict monitoring of Key IT Risk Indicators while Vulnerability Assessment and Penetration Tests are being carried out by both internal and external parties at regular intervals to identify the relevant risks.

Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

## **Conduct risk and reputational risk**

Risk that can arise as a result of mis selling, unethical business practices, professional misbehaviours, governance weaknesses etc, intend to be manage through such elaborate and intricate framework well established over decades of existence.

The risk that the Bank's reputation will be damaged by one or more than one reputation event, as reflected from negative publicity about the Bank's business practices, conduct or financial condition. Such negative publicity, whether true or not, may impair public confidence in the Bank, result in costly litigation, or lead to a decline in its customer base, business or revenue.

Management of the Conduct and Reputational risk is underpinned by a comprehensive policy framework approved by the Board of Directors.

Therefore Refer Note 66 on pages 390 to 420 for "Financial risk review".

A detailed write-up on how the risk management is carried out within the Bank's Risk Management Framework with due consideration given to factors such as governance, identification, assessment, monitoring, reporting and mitigation are discussed in the Section on "Risk Governance and Management" on pages 232 to 258.

## 4. Fair value measurement

"Fair value" is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When one is available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted pricing in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. External professional valuers are involved for valuation of significant assets such as land and building.

An analysis of fair value measurement of financial and non-financial assets and liabilities is provided in Note 27 on pages 316 to 320.

## 5. Changes in Accounting Policies

The Group has consistently applied the Accounting Policies as set out in Notes 6 to 10 on pages 289 to 301 to all periods

presented in these Financial Statements, except for changes arising out of amendments to accounting standards as set out below:

## 5.1 New and amended standards and interpretations

In these Financial Statements, the Group applied for the first time following amendments to Accounting Standards, which are effective for annual periods beginning on or after January 01, 2023. The Group has not early adopted any other accounting standard, interpretation or amendment that has been issued but not effective.

## 5.1.1 Amendments to "Accounting Policies, Changes in Accounting Estimates and Errors" (LKAS 8): Definition of Accounting Estimates

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The amended standard clarifies that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors. I Refer Note 2.12 on page 282 for further details.

### 5.1.2 Amendments to "Income Taxes" (LKAS 12): Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognised in the financial statements or to the related asset component. This judgement is important in determining whether any temporary differences exist on initial recognition of the asset and liability.

Also, under the amendments, the initial recognition exception does not apply to transactions that on initial recognition, give rise to equal taxable and deductible temporary differences. It only applies if the recognition of a lease asset and lease liability (or decommissioning liability and decommissioning asset component) give rise to taxable and deductible temporary differences that are not equal.

## 5.1.3 Amendments to "Presentation of Financial Statements" (LKAS 1): Disclosure of Accounting Policies

Amendments to LKAS 1, provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies.
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The Group has revisited its accounting policy information disclosures to ensure consistency with the amended requirements.

## **Material Accounting Policy Information**

The Material Accounting Policy Information set out below have been applied consistently to all periods presented in the Financial Statements of the Group except as specified in Note 2.11 on page 282.

These Accounting Policies have been applied consistently by the Group.

Set out below is an index of Material Accounting Policies, the details of which are available on the pages that follow:

### Index of Material Accounting Policy Information

			Table – 59
Note	Description	Page No.	Reference to the Notes in Financial Statements
6.	Material Accounting Policies – General		
6.1	Basis of consolidation	289	
6.2	Foreign currency	290	
7.	Material Accounting Policies – Recognition of assets and liabilities		
7.1	Financial instruments – Initial recognition, classification		
	and subsequent measurement	290	26
7.2	Non-current assets held for sale and disposal groups	296	
7.3	Property, plant and equipment	297	38
7.4	Investment property	297	39
7.5	Intangible assets	297	40
7.6	Impairment of non-financial assets	297	36
7.7	Dividends payable	297	25
7.8	Employee benefits	297	48.2 to 48.5
7.9	Other liabilities	299	48
7.10	Restructuring	299	
7.11	Onerous contracts	299	
7.12	Bank levies	299	
7.13	Financial guarantees, letters of credit and undrawn loan commitments	299	57
7.14	Commitments	299	57

## 6. Material Accounting Policies – General 6.1 Basis of consolidation

The Group's Financial Statements comprise, Consolidated Financial Statements of the Bank and its Subsidiaries in terms of the Sri Lanka Accounting Standard – SLFRS 10 on "Consolidated Financial Statements" (SLFRS 10) and the proportionate share of the profit or loss and net assets of its associate in terms of the Sri Lanka Accounting Standard – LKAS 28 on "Investments in Associates and Joint Ventures" (LKAS 28). The Bank's Financial Statements comprise the amalgamation of the Financial Statements of the Domestic Banking Unit, the Offshore Banking Centre and the international operations of the Bank.

#### 6.1.1 Business combinations

Business combinations are accounted for using the acquisition method when control is transferred to the Group as per Sri Lanka Accounting Standard – SLFRS 3 on "Business Combinations" (SLFRS 3). In determining whether a particular set of activities and assets is a business, the Bank assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has ability to produce outputs. The consideration transferred in the acquisition and identifiable net assets acquired are measured at fair value. Any goodwill that arises is tested annually for impairment (D Refer Note 7.6 on page 297). Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if they are related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

## 6.1.2 Non-Controlling Interests (NCI)

Details of NCI are given in Note 56 on page 376.

## 6.1.3 Subsidiaries

Details of the Bank's subsidiaries, how they are accounted in the Financial Statements of the Bank and their contingencies are set out in Notes 36 and 57.4(a) on pages 334 to 335 and 378.

#### 6.1.4 Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Subsequently, it is accounted for as an associate or in accordance with the Group's accounting policy for financial instruments depending on the level of influence retained.

## 6.1.5 Associates

Details of the associate, how it is accounted in the Financial Statements of the investee, together with its fair values and the Group's share of contingent liabilities of the associate is set out in Notes 37 and 57.4 (b) on pages 336 to 337 and 378.

### 6.1.6 Transactions eliminated on consolidation

Intra-group balances, transactions and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions are eliminated in preparing the Consolidated Financial Statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

## 6.1.7 Material gains or losses, provisional values or error corrections

There were no material gains or losses, provisional values or error corrections recognised during the year in respect of business combinations that took place in previous periods.

### 6.2 Foreign currency

## 6.2.1 Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency, which is Sri Lankan Rupees, using the exchange rates prevailing at the dates of the transactions. In this regard, the Bank's practice is to use the middle rate of exchange ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies as at the reporting date are translated into the functional currency at the middle exchange rate of the functional currency ruling as at the reporting date. The foreign currency gains or loss on monetary items is the difference between amortised cost in the functional currency as at the beginning of the year adjusted for effective interest and payments during the year and the amortised cost in foreign currency translated at the exchange rate as at the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated into the functional currency at the spot exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the transaction.

Foreign currency differences arising on translation are generally recognised in profit or loss. However, foreign currency differences arising from the translation of the following items are recognised in OCI:

- Equity instruments measured at fair value through other comprehensive income
- A financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- Qualifying cash flow hedges to the extent that the hedge is effective.

### **6.2.2 Foreign currency translations**

The Group's Consolidated Financial Statements are presented in Sri Lankan Rupees, which is also the Bank's Functional Currency. The Financial Statements of the Offshore Banking Centre of the Bank and the Financial Statements of the foreign operations of the Bank have been translated into the Group's Presentation Currency as explained under Notes 6.2.3 and 6.2.4 below.

## 6.2.3 Transactions of the offshore banking centre

These are recorded in accordance with Note 6.2.1 above, except the application of the annual weighted average exchange rate for translation of the Income Statement and the Statement of Profit or Loss and Other Comprehensive Income. Net gains and losses are dealt through the profit or loss.

### 6.2.4 Foreign operations

The results and financial position of foreign operations that have a functional currency different from the Bank's presentation currency are translated into the Bank's presentation currency as follows:

- Assets and liabilities, including goodwill and fair value adjustments arising on acquisition, are translated at the rates of exchange ruling as at the reporting date.
- Income and expenses are translated at the average exchange rate for the period, unless this average rate is not a reasonable

 All resulting exchange differences are recognised in the OCI and accumulated in the Foreign Currency Translation Reserve (Translation Reserve), which is a separate component of Equity, except to the extent that the translation difference is allocated to the NCI.

When a foreign operation is disposed of such that the control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, then the relevant proportion of the cumulative amount of the translation reserve is reattributed to NCI.

## 7. Material Accounting Policies – Recognition of assets and liabilities

## 7.1 Financial instruments – initial recognition, classification and subsequent measurement

### 7.1.1 Date of recognition

The Group initially recognises loans and advances, deposits and subordinated liabilities, etc., on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the Group becomes a party to the contractual provisions of the instrument.

## 7.1.2 Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their cash flow characteristics and the business model for managing the instruments. Refer Notes 7.1.3 and 7.1.4 for further details on classification of financial instruments.

A financial asset or financial liability is measured initially at fair value plus or minus transaction costs that are directly attributable to its acquisition or issue, except in the case of financial assets and financial liabilities at fair value through profit or loss as per SLFRS 9 and trade receivables that do not have a significant financing component as defined in Sri Lanka Accounting Standard – SLFRS 15 on "Revenue from contracts with customers" (SLFRS 15).

Transaction cost in relation to financial assets and financial liabilities at fair value through profit or loss are dealt with through the Income Statement. Trade receivables that do not have a significant financing component are measured at their transaction price at initial recognition as defined in SLFRS 15.

When the fair value of financial instruments (except trade receivables that do not have a significant financing component) at initial recognition differs from the transaction price, the Group accounts for the Day 1 profit or loss, as described below.

## 7.1.2.1 "Day 1" profit or loss

When the transaction price of the instrument differs from the fair value at origination and fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gains/(losses) from trading. In those cases, where the fair value is based on models for which some inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

The "Day 1 loss" arising in the case of loans granted to employees at concessionary rates under uniformly applicable schemes is deferred and amortised using Effective Interest Rates (EIR) in "Interest income" and "Personnel expenses" over the remaining service period of the employees or tenure of the loan whichever is shorter in line with SLFRS 9 and Sri Lanka Accounting Standard – LKAS 19 on "Employee Benefits" (LKAS 19).

Therefore Notes 13 and 19 on pages 302 and 310.

## 7.1.3 Classification and subsequent measurement of financial assets

As per SLFRS 9, the Group classifies all of its financial assets based on the business model for managing the assets and the assets' contractual terms. Accordingly, the financial assets are measured at either;

- Amortised cost
- Fair value through other comprehensive income (FVOCI)
- Fair value through profit or loss (FVTPL)

The subsequent measurement of financial assets depends on their classification.

### 7.1.3.1 Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level and not assessed on instrument-by- instrument basis because this best reflects the way the business is managed and information is

provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

# 7.1.3.2 Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI test)

As a second step of its classification process the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

"Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

In assessing whether the contractual cash flows are solely payments of principal and interest on principal amount outstanding, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets; and
- features that modify consideration of the time value of money.

The Group holds a portfolio of long-term fixed rate loans for which the Group has the option to propose to revise the interest rate at periodic reset dates. These reset rights are limited to the market rate at the time of revision. The borrowers have an option to either accept the revised rate or redeem the loan at par without penalty. The Group has determined that the contractual cash flows of these loans are solely payments of principal and interest because the option varies the interest rate in a way that is consideration for the time value of money, credit risk, other basic lending risks and costs associated with the principal amount outstanding.

The Group has granted loans that include features that change contractual cash flow based on the borrower meeting certain contractually specified Environmental, Social and Governance (ESG) targets. If the ESG feature could only have an insignificant effect on the contractual cash flow of the loan, then the features do not affect the classification of the loan. However, if the effect of the ESG feature is significant, then judgement is required about whether the feature would be consistent with a basic lending arrangement and meet the SPPI criterion. The Group has concluded such loans with ESG features are insignificant as compared to the entire loan book or are consistent with a basic lending arrangement feature. Accordingly, the Group has determined that the contractual cash flows of these loans are solely payments of principal and interest.

P Refer Notes 7.1.3.3 to 7.1.3.5 below for details on different types of financial assets recognised on the SOFP.

## 7.1.3.3 Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets measured at amortised cost are given in Notes 7.1.3.3.1 to 7.1.3.3.6 below.

## 7.1.3.3.1 Loans and advances to other customers

Loans and advances to other customers include amounts due from loans and advances and lease receivables from the customers of the Group.

Details of "Loans and advances to other customers" are given in Note 33 on pages 326 to 330.

## 7.1.3.3.2 Securities purchased under resale agreements (reverse repos)

When the Group purchases a financial asset and simultaneously enters into an agreement to resale the asset (or a similar asset) at a fixed price on a future date (reverse repo), the arrangement is accounted for as a financial asset in the SOFP reflecting the transaction's economic substance as a loan granted by the Group. Subsequent to initial recognition, these securities issued are measured at amortised cost using the EIR with the corresponding interest income/ receivable being recognised as interest income in profit or loss.

Details of "Securities purchased under resale agreements" are given in the SOFP on page 269.

## 7.1.3.3.3 Debt and other financial instruments measured at amortised cost

Details of "Debt and other financial instruments measured at amortised cost" are given in Note 34 on page 330.

### 7.1.3.3.4 Cash and cash equivalents

Details of "Cash and cash equivalents" are given in Note 28 on page 320.

## 7.1.3.3.5 Balances with central banks

Details of "Balances with central banks" are given in Note 29 on page 321.

## 7.1.3.3.6 Placement with banks

Details of "Placement with banks" are given in Note 30 on page 321.

## 7.1.3.4 Financial assets measured at FVOCI

Financial assets at FVOCI include debt and equity instruments measured at fair value through other comprehensive income.

For financial assets measured at FVOCI II refer Notes 7.1.3.4.1 and 7.1.3.4.2.

## 7.1.3.4.1 Debt instruments measured at FVOCI

Debt instruments are measured at FVOCI if they are held within a business model whose objective is to hold for collection of contractual cash flows and selling financial assets, where the asset's contractual cash flows represent payments that are solely payments of principal and interest on principal outstanding. Details of "Debt instruments at FVOCI" are given in Note 35 on page 332.

## 7.1.3.4.2 Equity instruments designated at FVOCI

Upon initial recognition, the Group elects to classify irrevocably some of its equity instruments held for strategic and regulatory purposes as equity instruments at FVOCI. Details of "Equity instruments at FVOCI" are given in Note 35 on page 332.

#### 7.1.3.5 Financial assets measured at FVTPL

All financial assets other than those classified at amortised cost or FVOCI are classified as measured at FVTPL. Financial assets measured at FVTPL include financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell as discussed in Notes 7.1.3.5.1 and 7.1.3.5.2 below.

## 7.1.3.5.1 Financial assets held for trading

Details of "Financial Assets held for trading" are given in Note 32 on pages 323 to 326.

### 7.1.3.5.1.1 Derivatives recorded at FVTPL

Details of "Derivative financial assets" recorded at fair value through profit or loss are given in Note 31 on page 322.

## 7.1.3.5.2 Financial assets designated at FVTPL

On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL when such designation eliminates or significantly reduces an accounting mismatch that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis.

Financial assets designated at FVTPL are recorded in the SOFP at fair value. Changes in fair value are recorded in "Net gain or loss on financial instruments designated at FVTPL". Interest earned is accrued in "Interest Income", using the EIR, while dividend income is recorded in "Other operating income" when the right to receive the payment has been established.

The Group has not designated any financial assets upon initial recognition as at FVTPL as at the end of the reporting period.

## 7.1.4 Classification and subsequent measurement of financial liabilities

The Group classifies financial liabilities, other than financial guarantees and loan commitments into one of the following categories:

- Financial liabilities at FVTPL, and within this category as –
  - Held-for-trading; or
  - Designated at FVTPL;
- Financial liabilities measured at amortised cost.

The subsequent measurement of financial liabilities depends on their classification.

Refer Notes 7.1.4.1 and 7.1.4.2 as detailed below:

## 7.1.4.1 Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Refer Notes 7.1.4.1.1 and 7.1.4.1.2 below.

7.1.4.1.1 Financial liabilities held for trading Details of "Derivative financial liabilities" classified under financial liabilities held for trading are given in Note 44 on page 356.

#### 7.1.4.1.2 Financial liabilities designated at FVTPL

Financial liabilities designated at FVTPL are recorded in the SOFP at fair value when;

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis, or
- A group of financial liabilities or financial assets and financial liabilities is managed and its performance is evaluated on

a fair value basis, in accordance with a documented risk management or investment strategy, and information about the Group is provided on that basis to entity's Key Management Personnel, or

 The liabilities containing one or more embedded derivatives, unless they do not significantly modify the cash flows that would otherwise be required by the contract, or it is clear with little or no analysis when a similar instrument is first considered that separation of the embedded derivative(s) is prohibited.

Changes in fair value are recorded in "Net fair value gains/ (losses) from financial instruments at FVTPL" with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Bank's own credit risk. Such changes in fair value are recorded in the own credit reserve through OCI and do not get recycled to profit or loss. Interest paid/payable is accrued in "Interest expense", using the EIR.

The Group has not designated any financial liabilities as at FVTPL as at the end of the reporting period.

## 7.1.4.2 Financial liabilities at amortised cost

Financial liabilities of the Group that are not measured at FVTPL are classified as financial liabilities at amortised cost under "Due to banks", "Securities sold under repurchase agreements", "Due to depositors", "Other borrowings" or "Subordinated liabilities" as appropriate, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instrument.

After initial recognition, such financial liabilities are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR.

The EIR amortisation is included in "Interest expense" in profit or loss. Gains and losses too are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

## 7.1.4.2.1 Due to banks

Details of "Due to banks" are given in Note 43 on page 356.

## 7.1.4.2.2 Securities sold under repurchase agreements (repos)

When the Group sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repos), the arrangement is accounted for as a financial liability in the SOFP reflecting the transaction's economic substance as a deposit. Subsequent to initial recognition, these securities are measured at amortised cost using the EIR with the corresponding interest payable being recognised as "Interest expense" in profit or loss.

Details of "Securities sold under repurchase agreements (repos)" are given in the SOFP on page 269.

## 7.1.4.2.3 Due to depositors

Details of "Due to depositors" are given in Note 45 on pages 357.

## 7.1.4.2.4 Other Borrowings

Details of "Other Borrowings" are given in Note 46 on pages 358.

## 7.1.4.2.5 Subordinated liabilities

Details of "Subordinated liabilities" are given in Note 50 on pages 368.

## 7.1.5 Derivatives held for risk management purposes and hedge accounting

Derivatives held for risk management purposes include all derivative assets and liabilities that are not classified as trading assets and liabilities. Derivatives held for risk management purposes are measured at fair value in the SOFP.

The Group designates certain derivatives held for risk management as well as certain non-derivative financial instruments as hedging instruments in qualifying hedging relationships. On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument and hedged item, including risk management objective and strategy in undertaking the hedge, together with the method that will be used to assess the effectiveness of the hedging relationship. The Group makes an assessment, both at inception of the hedge relationship and on an ongoing basis, of whether the hedging instrument is expected to be highly effective in offsetting the changes in fair value or cash flow of the respective hedged item during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80% to 125%. The Group makes an assessment for a cash flow hedge of a forecast transaction, of whether the forecast transaction is highly probable to occur and presents an exposure

to variations in cash flows that could ultimately affect profit or loss.

The Group used cash flow hedging relationships for risk management purposes during the year 2022. Different types of hedges and derivatives are discussed in Notes 7.1.5.1 to 7.1.5.5 below:

### 7.1.5.1 Fair value hedges

When a derivative is designated as the hedging instrument in a hedge of the change in fair value of a recognised asset or liability or a firm commitment that could affect the profit or loss, changes in the fair value of the derivative are recognised immediately in profit or loss in the same line item as the hedged item that is attributable to the hedged risk.

If the hedging derivative expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for fair value hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. However, if the derivative is novated to a central counterparty by both parties as a consequence of laws or regulations without changes in its terms except for those are necessary for the novation, then the derivative is not considered as expired or terminated.

Any adjustment up to the point of discontinuation to a hedged item for which the effective interest method is used, is amortised to profit or loss as part of the recalculated EIR of the item over its remaining life.

## 7.1.5.2 Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability that could affect the profit or loss, the effective portion of changes in the fair value of the derivative are recognised in OCI and presented in the hedging reserve within equity. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

The amount recognised in OCI is reclassified to profit or loss as a reclassification adjustment in the same period as the hedged cash flows affect profit or loss, and in the same line item in the Statement of Profit or Loss and OCI.

If the hedging derivative expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for cash flow hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. However, if the derivative is novated to a central counterparty by both parties as a consequence of laws or regulations without changes in its terms except for those are necessary for the novation, then the derivative is not considered as expired or terminated.

### 7.1.5.3 Net investment hedges

When a derivative instrument or a nonderivative financial liability is designated as the hedging instrument in a hedge of a net investment in a foreign operation, the effective portion of changes in the fair value of the hedging instrument is recognised in OCI and presented in the translation reserve within equity. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss. The amount recognised in OCI is reclassified to profit or loss as a reclassification adjustment on disposal of the foreign operation.

## 7.1.5.4 Other non-trading derivatives

If the derivative is not held for trading, and is not designated in a qualifying hedging relationship, then all changes in its fair value are recognised immediately in profit or loss as a component of net income from other financial instruments at FVTPL.

#### 7.1.5.5 Embedded derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument.

Derivatives may be embedded in another contractual arrangement (a host contract). The Group treats derivatives embedded in financial liabilities and non-financial host contracts as separate derivatives, if:

- the host contract is not itself carried at FVTPL;
- the terms of the embedded derivative would meet the definition of a derivative if they were contained in a separate contract; and

• the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract.

Separated embedded derivatives are measured at fair value, with all changes in fair value recognised in profit or loss unless they form part of a qualifying cash flow or net investment hedging relationship. Separated embedded derivatives are presented in the SOFP together with the host contract. Derivatives embedded in financial assets are classified based on the business model and their contractual terms and are not separated as explained in Notes 7.1.3.1 and 7.1.3.2 on page 291.

## 7.1.6 Reclassification of financial assets and liabilities

Financial assets are not reclassified subsequent to their initial recognition, except and only in those rare circumstances when the Group changes its objective of the business model for managing such financial assets which may include the acquisition, disposal or termination of a business line.

During the year 2022, the Bank reclassified bulk of its treasury bond portfolio, majority of Sri Lanka Development Bond (SLDB) and entire Sri Lanka Sovereign Bond (SLSB) portfolio in FVOCI category to amortised cost category, effective from April 01, 2022, as a result of changes to the business model of managing the assets due to unprecedented changes in the macroeconomic conditions in line with the guidelines issued by the CA Sri Lanka in the form of a Statement of Alternative Treatment (SoAT) on Reclassification of Debt Portfolio as a one off option. Refer Note 35.1 on page 333 for further details.

Financial liabilities are not reclassified as such reclassifications are not permitted by SLFRS 9.

## 7.1.6.1 Timing of reclassification of financial assets

Consequent to the change in the business model, the Bank reclassifies all affected assets prospectively following the change in the business model (the reclassification date). Accordingly, prior periods are not restated.

## 7.1.6.2 Measurement of reclassification of financial assets

## 7.1.6.2.1 Reclassification of Financial Instruments at "FVTPL"

## To FVOCI

The fair value on reclassification date becomes the new gross carrying amount. The EIR is calculated based on the new gross carrying amount. Subsequent changes in the fair value is recognised in OCI. • To Amortised Cost

The fair value on reclassification date becomes the new carrying amount. The EIR is calculated based on the new gross carrying amount.

## 7.1.6.2.2 Reclassification of Financial Instruments at "FVOCI"

### • To FVTPL

The accumulated balance in OCI is reclassified to profit or loss on the reclassification date.

To Amortised Cost

The financial asset is reclassified at fair value. The cumulative balance in OCI is removed and is used to adjust fair value on the reclassification date. The adjusted amount becomes the amortised cost. As a result, the financial asset is measured at the reclassification date as if it had always been measured at amortised cost.

EIR determined at initial recognition and gross carrying amount are not adjusted as a result of reclassification.

## 7.1.6.2.3 Reclassification of Financial Instruments at "Amortised Cost"

## To FVOCI

The asset is remeasured to fair value, with any difference being recognised in OCI. EIR determined at initial recognition is not adjusted as a result of reclassification.

## • To FVTPL

The fair value on the reclassification date becomes the new carrying amount. The difference between amortised cost and fair value is recognised in profit or loss.

## **7.1.7** Derecognition of financial assets and financial liabilities

## 7.1.7.1 Financial assets

The Group derecognises a financial asset (or where applicable a part of thereof) when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss. However, cumulative gain/loss recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit or loss on derecognition of such securities.

Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Group is recognised as a separate asset or liability.

The Group enters into transactions whereby it transfers assets recognised on its SOFP, but retains either all or substantially all risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognised.

When assets are sold to a third party with a concurrent total rate of return swap on the transferred assets, the transaction is accounted for as a secured financing transaction similar to sale and repurchase transactions because the Group retains all or substantially all risks and rewards of ownership of such assets.

When the Group has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on the basis that reflected the rights and obligations that the Group has retained.

## 7.1.7.2 Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

## 7.1.8 Modification of financial assets and financial liabilities

## 7.1.8.1 Modification of financial assets

If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses measured using a pre modification interest rate. In other cases, it is presented as interest income.

As part of Domestic Debt Optimisation (DDO) program implemented by the Government of Sri Lanka during the year, the Bank's SLDBs were converted to Treasury Bonds. With reference to the letter dated on November 01, 2023, by CA Sri Lanka on "Common Framework for the determination of Day 1 Difference arising from the aforesaid DDO programme of the Government of Sri Lanka", the attributable Day 1 Loss arising from the SLDB conversion should fall within the range of 3% to 5%. The range differential was due to the sensitivity of the assumptions considered for the known changes of liquidity risk or interest rate risks at the rate of 15% and 20% respectively. Accordingly, the applicable modification losses were recognised in the profit or loss for the year ended December 31, 2023.

## 7.1.8.2 Modification of Financial Liabilities

Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

### 7.1.9 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the SOFP if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Income and expenses are presented on a net basis only when permitted under SLFRSs, or for gains and losses arising from a group of similar transactions such as in the Group's trading activity.

## 7.1.10 Amortised cost and gross carrying amount

The "amortised cost" of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the EIR method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any ECL allowance.

The "gross carrying amount of a financial asset" is the amortised cost of a financial asset before adjusting for any ECL allowance.

## 7.1.11 Fair value of financial instruments

Fair value measurement of financial instruments including the fair value hierarchy is explained in Notes 4 and 27 on pages 288 and 316.

## 7.1.12 Identification and measurement of impairment of financial assets

### 7.1.12.1 Overview of the ECL principles

The Group records an allowance for ECL for loans and advances to other customers, debt and other financial instruments measured at amortised cost, debt instruments measured at FVOCI, any other financial assets measured at amortised cost, loan commitments and financial guarantee contracts.

SLFRS 9 outlines a "three-stage" model for impairment based on changes in credit quality since initial recognition.

- Stage 1: A financial asset that is not originally credit impaired on initial recognition is classified in Stage 1. Financial instruments in Stage 1 have their ECL measured at an amount equal to the proportion of lifetime expected credit losses (LTECL) that result from default events possible within next 12 months (12M ECL).
- Stage 2: If a significant increase in credit risk (SICR) since origination is identified, the financial asset is moved to Stage 2 and the Group records an allowance for LTECL. Refer Note 7.1.12.2 for a description on how the Group determines when a SICR has occurred.
- Stage 3: If a financial asset is creditimpaired, it is moved to Stage 3 and the Group recognises an allowance for LTECL, with probability of default at 100%. Refer Note 7.1.12.3 for a description on how the Group defines default and credit impaired assets.

## Purchased or originated credit impaired (POCI) financial assets:

Financial assets which are credit impaired on initial recognition are categorised within Stage 3 with a carrying value already reflecting the LTECL. The Group does not have POCI loans as at the reporting date.

The key judgements and assumptions adopted by the Group in addressing the requirements of SLFRS 9 are discussed below:

## 7.1.12.2 Significant Increase in Credit Risk (SICR)

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and expert credit assessment and including forward looking information.

The Group considers an exposure to have significantly increased credit risk when contractual payments of a customer are more than 30 days past due in accordance with the rebuttable presumption in SLFRS 9.

The Group individually reviews at each reporting date, loans and advances above a predefined threshold to identify whether the credit risk has increased significantly since origination, before an exposure is in default. Such indicators include, inter-alia:

- When the risk rating of a customer or an instrument has been downgraded to B+ by an external credit rating agency and/or when there is a two-notch downgrade in the banks internal rating system.
- When reasonable and supportable forecasts of future economic conditions directly affect the performance of a customer/group of customers, portfolios or instruments.
- When there is a significant change in the geographical locations or natural catastrophes that directly impact the performance of a customer/group of customers or an instruments.
- When the value of collateral is significantly reduced and/or realisability of collateral is doubtful.
- When a customer is subject to litigation, that significantly affects the performance of the credit facility.
- Frequent changes in the Board of Directors and Senior Management of an institutional customer.
- Delay in the commencement of business operations/projects by more than two years from the originally agreed date.
- When the customer is deceased/insolvent.
- When the Bank is unable to contact or find the customer.
- A fall of 50% or more in the turnover and/ or profit before tax of the customer when compared to the previous year for two consecutive years.
- Erosion in net-worth by more than 25% when compared to the previous year.
- Number of times credit facilities are restructured.

- Modification of terms resulting in concessions, including extensions, deferment of payments, waiver of covenants etc., due to credit deterioration.
- Any other indicator that the Group believes which indicate an SICR as per expert credit judgement.

Credit facilities/exposures which have one or more of the above indicators are treated as facilities with SICR and assessed accordingly in ECL computations. The Group also considers the conditions stipulated in the Directions issued by the CBSL on identifying SICR criteria for assessing credit facilities for ECL computations. The Group regularly monitors the effectiveness of the criteria used to identify SICR to confirm that the criteria is capable of identifying SICR before an exposure is in default.

For debt instruments having an external credit rating, which are measured at amortised cost or at FVOCI, the Group determines SICR based on the generally accepted investment/non-investment grade definitions published by international rating agencies. Debt instruments are moved to Stage 2, if their credit risk increases to the extent that they are no longer considered investment grade.

## 7.1.12.3 Definition of default and credit impaired assets

The Group considers loans and advances to other customers be defaulted when:

- The borrower is unlikely to pay its obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- The borrower becomes 90 days past due on its contractual payments.

In addition, the Group classifies the financial investments under Stage 3 when the external credit rating assigned to the particular investment is "default".

In assessing whether a borrower is in default, the Group reviews its individually significant loans and advances above a predefined threshold at each reporting date. Further, as per "CBSL Banking act direction No. 13 of 2021", Non-Performing Credit Facilities (NPCF) means all the credit facilities where the contractual payments of a customer are past due for more than 90 days or has remained in excess of the sanctioned limit for more than 90 days, and any other credit facilities classified as Stage 3 credit facility under SLFRS 9.

## 7.1.12.4 Movement between the stages

Financial assets can be transferred between the different categories (other than POCI) depending on their relative change in credit risk since initial recognition. Financial instruments are transferred out of stage 2 if their credit risk is no longer considered to be significantly increased since initial recognition based on the assessments described in Note 7.1.12.2 and also as per the Policy on Upgrading of Credit Facilities. Financial instruments are transferred out of Stage 3 when they no longer exhibit any evidence of credit impairment as described above as per the Policy on Upgrading of Credit Facilities. The Bank has developed a comprehensive Policy on Upgrading of Credit Facilities in line with the CBSL Banking act Direction No. 13 of 2021. Accordingly, credit facilities other than restructured and rescheduled facilities are upgraded to a better stage if all due contractual payments associated with such credit facility as at the date of upgrading are fully settled. Restructured and rescheduled facilities are gradually upgraded upon satisfactory repayment for a stipulated period according to the policy while exercising prudence principles.

## 7.1.12.5 Grouping financial assets measured on collective basis

The Group calculates ECL either on a collective or an individual basis. Asset classes where the Group calculates ECL on individual basis include;

- Credit impaired facilities and facilities identified with SICR which are impaired based on the individual impairment assessment
- The treasury, trading and interbank relationships (such as due from Banks, money at call and short notice, placements with Banks, government securities, investments in debentures etc.)

Those financial assets for which, the Group determines that no provision is required under individual impairment are then collectively assessed for ECL. For the purpose of ECL calculation on collective basis, financial assets are grouped on the basis of similar risk characteristics. Loans and advances to other customers are grouped in to homogeneous portfolios, based on a combination of product and customer characteristics.

Details of the ECL calculation are given in Note 18 on pages 306 to 309.

## 7.2 Non-current assets held for sale and disposal groups

The Group intends to recover the value of non-current assets and disposal groups classified as held for sale as at the reporting date principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable, the asset or disposal group is available-for-sale in its present condition, the management has committed to the sale, and the sale is expected to have been completed within one year from the date of classification.

As per the Sri Lanka Accounting Standard – SLFRS 5 on "Non-current Assets Held for Sale and Discontinued Operations", (SLFRS 5) these assets are measured at the lower of the carrying amount and fair value, less costs to sell. Thereafter, the Group assesses at each reporting date or more frequently if events or changes in circumstances indicate that the investment or a group of investment is impaired. The Group recognises an impairment loss for any initial or subsequent write down of the assets to fair value less costs to sell and also recognises a gain for any subsequent increase in fair value less costs to sell of an asset, only to the extent of the cumulative impairment losses that have been recognised previously. Impairment loss is first allocated to goodwill, and then to the remaining assets and liabilities on a pro rata basis, except that no loss is allocated to financial assets, deferred tax assets or employee benefit assets which continue to be measured in accordance with the Group's other accounting policies. As a result, once classified, the Group neither amortises nor depreciates the assets classified as held for sale.

In the Income Statement of the reporting period and of the comparable period of the previous year, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes, even when the Group retains a NCI in a subsidiary after the sale. The resulting profit or loss (after taxes) is reported separately in the Income Statement.

### 7.3 Property, plant and equipment

Details of "Property, plant and equipment" are given in Note 38 on pages 337 to 349.

## 7.3.1 Depreciation

Details of "Depreciation" are given in Note 20 on pages 310 and 311.

### 7.3.2 Borrowing costs

As per the Sri Lanka Accounting Standard – LKAS 23 on "Borrowing Costs" (LKAS 23), the Group capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of the asset. A qualifying asset is an asset which takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are recognised in the profit or loss in the period in which they occur.

### 7.4 Investment property

Investment properties are initially measured at cost, including transaction costs. The Group subsequently measures investment properties under fair value model. Any gain or loss arising from a change in fair value and the rental income from the investment property is recognised under "Net other operating income".

Details of "Investment Property" are given in Note 39 on pages 349 and 352.

### 7.5 Intangible assets

Details of "Intangible assets" are given in Note 40 on pages 352 to 353.

Amortisation recognised during the year in respect of intangible assets is included under the item of "Amortisation of intangible assets" under "Depreciation and amortisation" in profit or loss.

Refer Note 20 on pages 310 and 311.

### 7.6 Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment properties and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that is largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The "recoverable amount" of an asset or CGU is the greater of its VIU and its fair value less costs to sell. VIU is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

The Group's corporate assets do not generate separate cash inflows and are used by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGUs to which the corporate assets are allocated.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a *pro rata* basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

## 7.7 Dividends payable

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are recommended and declared by the Board of Directors and approved by the shareholders. Interim dividends are deducted from Equity when they are declared and no longer at the discretion of the Bank.

Dividends for the year, that are approved after the reporting date and not provided for, are disclosed as an event after the reporting period in accordance with the Sri Lanka Accounting Standard – LKAS 10 on "Events after the reporting period" (LKAS 10) in Note 68 on page 420.

### 7.8 Employee benefits

#### 7.8.1 Defined Benefit Plans (DBPs)

A DBP is a post-employment benefit plan other than a Defined Contribution Plan (DCP) as defined in LKAS 19.

#### 7.8.1.1 Defined benefit pension plans

## 7.8.1.1.1 Description of the plans and employee groups covered

The Bank operates two types of Defined Benefit Pension Plans for its employees as described below:

(a) The Bank has an approved Pension Fund, which was established in 1992. As per the Deed of Trust, only those employees who were less than 45 years of age as at January 1, 1992 were covered by the Pension Fund in order to leave a minimum contribution for a period of 10 years before they are eligible to draw pension from the Pension Fund. Further, only the employees those who joined the Bank before January 1, 2000, became eligible for this pension scheme.

During 2006, the Bank offered a restructured pension scheme to convert the DBP to a DCP for the pensionable employees of the Bank and over 99% of them accepted it. As a result, the above Pension Fund now covers only those employees who did not opt for the restructured pension scheme and those employees who were covered by the Pension Fund which was established in 1992, but retired before the restructured pension scheme came into effect; (b) Provision for pensions has been made for those employees who retired before January 1, 2000, and on whose behalf the Bank could not make contributions to the Retirement Pension Fund for more than 10 years. This liability although not funded has been provided for in full in the Financial Statements;

The subsidiaries of the Bank do not operate Pension Funds.

The Bank's net obligation in respect of Defined Benefit Pension Plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets, as per LKAS 19 as detailed in Note 48 on pages 359 to 367.

The past service cost is recognised as an expense on a straight-line basis over the period until the benefits become vested. If the benefits are already vested following the introduction of, or changes to, a pension plan, past service cost is recognised immediately.

## 7.8.1.1.2 Recognition of actuarial gains or losses

Actuarial gains or losses are recognised in the OCI in the period in which they arise.

## 7.8.1.1.3 Recognition of retirement benefit obligation

The defined benefit asset or liability comprises the present value of the defined benefit obligation, less past service cost not yet recognised and the fair value of the plan assets out of which the obligations are to be settled directly. The value of any asset is restricted to the sum of any past service cost not yet recognised and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the Projected Unit Credit Method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprises actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Group determines the net interest expense/ (income) on the net defined benefit liability/ (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net-defined benefit liability/(asset), taking into account any changes in the net-defined benefit liability/(asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to DBPs are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a DBP when the settlement occurs.

Amounts recognised in profit or loss as expenses on DBPs and provisions made on DBPs together with the details of valuation methods are given in Notes 19 and 48 on pages 310 and 359 to 367, respectively.

### 7.8.2 Defined Contribution Plans (DCPs)

A DCP is a post-employment plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligations to pay a further amount. Obligations to DCPs are recognised in the profit or loss as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available. The Group has four such plans as explained in Notes 7.8.2.1, 7.8.2.2, 7.8.2.3 and 7.8.2.4.

Amounts recognised in profit or loss as expenses on DCPs are given in Note 19 on page 310.

## 7.8.2.1 Defined contribution pension plan

As explained in Note 7.8.1.1.1 (a), during 2006, the Bank restructured its pension scheme which was a DBP to a DCP. This restructured plan was offered on a voluntary basis to the eligible employees of the Bank. The scheme provides for lump sum payments instead of commuted/monthly pensions to the eligible employees at the point of their separation, in return for surrendering their pension rights. The lump sum offered consisted of a past service package and a future service package. The shortfall on account of the past service package in excess of the funds available in the Pension Fund was borne by the Bank in 2006.

The future service package includes monthly contributions to be made by the Bank for the employees who accepted the offer, to be made during their remaining period of service, at predetermined contribution rates to be applied on their salaries, which are estimated to increase for this purpose at 10% p.a. based on the salary levels that prevailed as at the date of implementation of this scheme. In addition, interest to be earned on the assets of the DCP is also allocated to the employees who opted for the restructured pension scheme.

The assets of this Fund are held separately from those of the Bank and are independently administered by the Trustees as per the provisions of the Trust Deed.

## 7.8.2.2 Employees' Provident Fund

The Bank and employees contribute to an approved Private Provident Fund at 12% and 8% respectively, on the salaries of each employee. In addition, the employees may voluntarily contribute an excess amount. Other local entities of the Group and their employees contribute at the same percentages as above to the Employees' Provident Fund managed by the CBSL.

#### 7.8.2.3 Employees' Trust Fund

The Bank and other local entities of the Group contribute at the rate of 3% of the salaries of each employee to the Employees' Trust Fund managed by the CBSL.

## 7.8.2.4 Defined Contribution Pension Fund (DCPF)

Defined Contribution Pension Fund (DCPF) was established on March 01, 2020, which is managed by a Board of Trustees consisting of representatives of Employee Organisations and the Management.

Employees who joined since the year 2000, and who are not covered under the Restructured Pension Scheme of the Bank and are in the service of the Bank as at March 01, 2020 are eligible for the new DCPF. The initial lump sum, based on Gratuity entitlement as at February 29, 2020, is being transferred to the accounts opened in the names of individual eligible employees.

The Bank contributes monthly, a percentage equivalent of seven decimals five per centum (7.5%) of the monthly salary of each eligible employee starting from March 01, 2020 until cessation of employment to the DCPF.

Employees cannot withdraw money from the DCPF before cessation of employment. In the event of early separation prior to retirement (excluding death), eligible employees are entitled to withdraw the accumulated amounts in their respective DCPF accounts. However, the eligible employees are not entitled to receive any DCPF payment where the completed service is less than 5 years (similar to the Gratuity payments are done in case of a separation as per the Gratuity Act at the point of termination and separation). In the event of death of an employee whilst in service, the accumulated funds in the members account will be released in full to the nominated

parties/legal heirs as the case may be, where the completed service is more than 5 years.

#### 7.8.3 Other long-term employee benefits

The Group's net obligation in respect of longterm employee benefits other than pension plans is the amount of future benefits that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate used as the yield as at the reporting date is the current market rate that has been extrapolated to reflect long-term rate of discount based on market rates of interest on short-term Corporate/Government Bonds and anticipated long-term rate of inflation. The calculation is performed using the Projected Unit Credit Method. Remeasurements are recognised in profit or loss in the period in which they arise.

The Group does not have any "Other long-term employee benefits plans".

## 7.8.4 Terminal benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be wholly settled within 12 months of the reporting date, then they are discounted.

#### 7.8.5 Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

## 7.8.6 Share-based payment arrangements

Share-based payment arrangements in which the Bank receives services as consideration for its own equity instruments are accounted for as equity-settled share-based payment transactions, regardless of how the equity instruments are obtained by the Bank. Executive Employees of the Bank receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions). The Group does not operate any cash-settled share-based payment transactions.

The Group applies the requirements of the Sri Lanka Accounting Standard – SLFRS 2 on "Share-based Payment" (SLFRS 2) in accounting for equity-settled share-based payment transactions, if any, that were granted after January 01, 2012 and had not vested at the same date. As per SLFRS 2, on the grant date, fair value of equity-settled share-based payment awards (i.e., share options) granted to employees is recognised as personnel expense, with a corresponding increase in equity, over the period in which the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of share awards for which the related service and non-market performance vesting conditions are expected to be met, so that the amount ultimately recognised as an expense is based on the number of share awards that do meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The Employee Share Option Plans – 2019 and 2023, which were granted are subjected to the above accounting treatment.

The details of Employee Share Option Plans are given in Note 52 on pages 371 and 372.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share as disclosed in Note 24.1 and Note 24.2 on page 313 and 314.

## 7.9 Other liabilities

Details of "Other liabilities" are given in Note 48 on pages 359 to 367.

### 7.10 Restructuring

Provision for restructuring is recognised when the Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating losses arising on such restructuring are not provided for.

The Group does not have any provision for restructuring as at the reporting date.

#### 7.11 Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract. The Group does not have any onerous contracts as at the reporting date.

### 7.12 Bank levies

A provision for bank levies is recognised when the condition that triggers the payment of the levy is met. If a levy obligation is subject to a minimum activity threshold so that the obligating event is reaching a minimum activity, then a provision is recognised when that minimum activity threshold is reached.

## 7.13 Financial guarantees, letters of credit and undrawn loan commitments

"Financial guarantees" are contracts that require the Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. Undrawn loan commitments and letters of credits are commitments under which, over the duration of the commitment, the Bank is required to provide a loan with pre-specified terms to the customer.

Financial guarantees are initially recognised in the Financial Statements (within other liabilities) at fair value, being the premium received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the income statement and ECL provision, if appropriate.

The premium received is recognised in profit or loss in Note 14.1 on *"Fee and commission income"* on a straight line basis over the life of the guarantee.

The nominal contractual value of financial guarantees, letters of credit and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded on in the SOFP, but included as part of contingent liabilities and commitments. The nominal values of these instruments together with the corresponding ECLs are disclosed in Note 57 on page 377.

Loan commitments at below market interest rates are initially measured at fair value and subsequently measured at the higher of the amount of the ECL allowance and the amount initially recognised less the cumulative amount of income recognised, when appropriate.

### 7.14 Commitments

All discernible risks are accounted for in determining the amount of known liabilities as explained in Note 7.9 above.

Details of the commitments are given in Note 57 on page 377.

## 7.15 Contingent liabilities and commitments

A detailed list of "Contingent liabilities and commitments" and "Litigation against the Bank" are given in Notes 57 and 59 on pages 377 and 379.

## 7.16 Stated capital and reserves

Details of the "Stated capital and reserves" are given in Notes 51, 53, 54 and 55 to the Financial Statements on pages 370 and 373 to 376.

## 7.17 Earnings per Share (EPS)

Details of "Basic and Diluted EPS" are given in Note 24 on page 313.

## 7.18 Operating segments

Details of "Operating segments" are given in Note 61 on pages 382 to 383.

### 7.19 Fiduciary assets

The Bank provides trust and other fiduciary services that result in the holding or investing of assets on behalf of its clients. Assets held in a fiduciary capacity are not reported in these Financial Statements as they do not belong to the Bank.

## 8. Material Accounting Policies – Recognition of income and expense

Details of "Income and expense" are given in Notes 12 to 21 on pages 302 to 311.

### 8.1 Interest income and interest expense

Details of "Interest income and Interest expense" are given in Note 13 on pages 302 to 304.

## 8.2 Fee and commission income and fee and commission expense

Details of "Fee and commission income and commission expense" are given in Note 14 on pages 304 and 305.

## 8.3 Net gains/(losses) from trading

Details of "Net gains/(losses) from trading" are given in Note 15 on page 305.

## 8.4 Net gains/ (losses) from derecognition of financial assets

Details of "Net gains/ (losses) from derecognition of financial assets" are given in Note 16 on page 305.

## 8.5 Dividend income

Dividend income is recognised when the right to receive income is established. Usually, this is the ex-dividend date for quoted equity securities. Dividends are presented in net gains/ (losses) from trading, net gains/(losses) from financial investments or other income (net) based on the underlying classification of the equity investment.

Details of "Dividend income" are given in Notes 15 and 17 on pages 305 and 306.

### 8.6 Leases

The Group assesses at the inception of a contract, whether a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration as per the guidelines of SLFRS 16. This assessment considers whether, throughout the period of use, the lessee has both the right to obtain all of the economic benefits from the use of the identified asset and the right to direct how and for what purpose the identified asset is used.

After the assessment of whether a contract is, or contains, a lease, the Group determines whether it contains additional lease or non-lease (service) components based on the detailed guidance provided in SLFRS 16. Accordingly, the right to use of an identifying asset is a separate lease component if the lessee can benefit from the use of underlying asset either on its own or together with other resources readily available to the lessee and the underlying asset is neither highly dependent on, nor highly interrelated with, the other underlying assets in the contract.

### 8.6.1 Group as a lessee

As per SLFRS 16, when the Group has determined that a contract contains a lease component and one or more additional lease components or non-lease components, the consideration in the contract is allocated to each lease component on the basis of relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

At the commencement date, the Group recognises right-of-use of an asset and a lease liability which is measured at the present value of the lease payments that are payable on that date. Lease payments are discounted using the IBR.

After initial recognition, the Group applies cost model for the right-of-use of an asset and depreciate the asset from commencement date to the end of the useful life of the underlying asset. Where the right does not transfer the ownership of the asset, the Group depreciates it from commencement date to the earlier of the end of the useful life of the right-of-use asset or end of the lease term. In addition, interest expense on the lease liability is recognised in the profit or loss. Details of "Right-of-use asset" and "Lease liability" are given in Notes 38 and 48 respectively, on pages 337 and 359.

### 8.6.2 Group as a lessor

Similar to above, at the commencement of the contract, the Group determines whether the contract contains a lease component and one or more additional lease components or non-lease components. When there is one or more additional lease or nonlease component, the Group allocates consideration based on the guidelines given in SLFRS 15.

### 8.6.2.1 Finance leases – Group as a lessor

As per SLFRS 16, a lease which transfers substantially all the risks and rewards incidental to ownership of an underlying asset is classified as a finance lease. At the commencement date, the Group recognises assets held under finance lease in the SOFP and present them as a lease receivable at an amount equal to the net investment in the lease. Net investment in the lease is arrived at by discounting lease payments receivable at the interest rate implicit in the lease, i.e. the rate of interest which causes present value of lease payments to equal to the fair value of the underlying asset and initial direct costs. The Group's net investment in lease is included in Note 33 "Loans and advances to other customers". The finance income receivable is recognised in "interest income" over the periods of the leases so as to achieve a constant rate of return on the net investment in the leases.

## 8.6.2.2 Operating leases – Group as a lessor

As per SLFRS 16, a lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. The Group recognises lease payments from operating leases as income on straightline basis. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and are recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

### 8.7 Rental income and rental expenses

Rental income and rental expense are recognised in profit or loss on an accrual basis.

## 9. Material Accounting Policies – Tax Expense

## 9.1 Income tax expense

## 9.1.1 Current tax

Details of "Income tax expense" are given in Note 23 on pages 312 and 313.

With the enactment of the Inland Revenue (Amendment) Act No. 45 of 2022, income tax rate was revised from 24% to 30%, effective from October 01, 2022 of the Year of Assessment 2022/2023. Accordingly, Income Tax rate of 30% was applied on the taxable income of the Bank for the 2nd half of the financial year ended December 31, 2022 and also for the year ended December 31, 2023.

## 9.1.2 Deferred tax

Details of "Deferred tax assets and liabilities" are given in Note 41 on pages 354 to 355.

Deferred tax assets and liabilities are assessed based on the revised Income tax rate of 30%, which became effective from October 01, 2022.

## 9.1.3 Tax exposures

In determining the amount of current and deferred tax, the Group considers the favourable/adverse impact to the current tax liability and deferred tax liability due to assessments, revision to legislature etc. Such changes to tax liabilities could impact the tax expense in the period in which such revision is considered, as an over or under provision.

## 9.2 Crop Insurance Levy (CIL)

As per the provisions of the Section 14 of the Finance Act No. 12 of 2013, the CIL was introduced with effect from April 01, 2013 and is payable to the National Insurance Trust Fund. Currently, the CIL is payable at 1% of the profit after tax.

## 9.3 Withholding Tax (WHT) on dividends distributed by the Bank, subsidiaries and associate

## 9.3.1 WHT on dividends distributed by the Bank

The prevailing WHT/AIT rate on dividends distributed by the Bank to residents/ nonresidents is 15%. Dividend paid by the Bank will be exempt in the hands of shareholders to the extent that such dividend payment is attributable to, or derived from dividend received by the Bank from another resident company.

## 9.3.2 WHT on dividends distributed by the subsidiaries and associate

Dividend income received by the Bank of its subsidiaries and associate is liable to WHT/ AIT at the rate of 15%, which will be a final tax for the Bank.

As per the Inland Revenue (Amendment) Act No. 10 of 2021 requirement to deduct WHT on dividend had been removed effective January 01, 2020 as mentioned under Note 9.3.1 above. The dividend income received from subsidiaries and associate was liable for Income Tax at 14% up until September 30, 2022. Applicable income tax rate for dividend received during the period from October 01, 2022 is 15%

As per the Inland Revenue (Amendment) Act No. 45 of 2022, WHT on dividends was introduced effective from January 01, 2023. Accordingly, dividend income received from subsidiaries and associate are liable to WHT at the rate of 15%, which is a final tax for the Bank.

## 9.4 Value Added Tax on Financial Services (VAT FS)

The value addition attributable to the supply of financial services is calculated at the rate of 18% by adjusting the economic depreciation computed on rates prescribed by the Department of Inland Revenue to the accounting profit before income tax and emoluments payable. Emoluments payable include benefits in money and not in money including contribution or provision relating to terminal benefits.

The amount of VAT FS charged in determining the profit or loss for the period is given in Note 22 on page 311.

## 9.5 Social Security Contribution Levy (SSCL)

The Bank is liable to pay SSCL on Financial Services at the rate of 2.5% on the value addition attributable to the supply of financial services. Further, Non-Financial Services are made liable on the turnover at the rate of 2.5%.

## 9.6 Value Added Tax (VAT)

The VAT rate had been increased from 15% to 18% with effect from January 01, 2024.

Further, goods and services which were previously exempt from VAT had been made liable at the rate of 18% effective January 01, 2024. Government Budget proposal for 2024 on reduction of the turnover threshold from Rs. 80 Mn. per annum to Rs. 60 Mn. per annum to register for VAT, is pending enactment.

## 10. Material Accounting Policies – Statement of Cash Flows

## **10.1 Statement of Cash Flows**

The Statement of Cash Flows is prepared using the "Indirect Method" of preparing cash flows in accordance with the Sri Lanka Accounting Standard – LKAS 7 on "Statement of Cash Flows" (LKAS 7). Gross cash and cash equivalents comprise of short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Cash and cash equivalents as referred to in the Statement of Cash Flows are comprised of those items as explained in Note 28 on page 320.

The Statement of Cash Flows is given on page 278.

## 11. Amendments to Accounting Standards issued but not yet effective

There were no new or amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Bank's Financial Statements that result in material impact to the Group.

Sri Lanka Accounting Standard – SLFRS 17 on "Insurance Contracts" (SLFRS 17) is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, SLFRS 17 will replace Sri Lanka Accounting Standard – SLFRS 4 on "Insurance Contracts" (SLFRS 4) that was issued in 2005. SLFRS 17 is effective for annual reporting periods beginning on or after January 01, 2026. The Group does not expect this will result in a material impact on its Financial Statements.

## 12 Gross income

## ACCOUNTING POLICY

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

## 13 Net interest income

### ACCOUNTING POLICY

Interest income and expense are recognised in the Income Statement using the Effective Interest Rate (EIR) method.

Interest income and expense presented in the Income Statement include:

- Interest income on financial assets measured at amortised cost (AC) calculated using EIR method;
- Interest income on financial assets measured at fair value through other comprehensive income (FVOCI) calculated using EIR method;
- Interest income on financial assets measured at fair value through profit or loss (FVTPL) calculated using EIR method;

- Interest expense on financial liabilities measured at amortised cost calculated using EIR method.

### Effective interest rate (EIR)

The EIR is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset: or
- the amortised cost of the financial liability.

When calculating the EIR for financial instruments other than credit-impaired assets, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses (ECLs). For credit-impaired

financial assets which are classified under Stage 3, a credit-adjusted EIR is calculated using estimated future cash flows including ECLs. The credit-adjusted EIR is the interest rate that, at original recognition, discounts the estimated future cash flows (including credit losses) to the amortised cost.

The calculation of the EIR includes transaction costs and fees and points paid or received that are an integral part of the EIR.

For financial assets that were creditimpaired on initial recognition, interest income is calculated by applying the creditadjusted EIR to the amortised cost of the asset. The calculation of interest income does not revert to a gross basis, even if the credit risk of the asset improves.

## 14 Net fee and commission income

Fee and commission income and expense that are integral to the EIR of a financial asset or financial liability are capitalised and included in the measurement of the EIR and recognised in the Income Statement over the expected life of the instrument.

Other fee and commission income, including account servicing fees, investment management fees, sales commission, and placement fees are recognised as the related services are performed. If a loan commitment is not expected to result in the drawdown of a loan, then the related loan commitment fees are recognised on a straight-line basis over the commitment period.

Other fee and commission expenses relate mainly to transaction and service fees, which are expensed as the services are received.

As per SLFRS 15, the Group adopts principles based five step model for revenue recognition.

Accordingly, revenue is recognised only when all of the following criteria are met :

 The parties to the contract have approved the contract/s;

- The Group can identify each party's rights regarding the goods or services to be transferred;
- The Group can identify the payment terms for the goods or services to be transferred;
- The contract has the commercial substance;
- It is probable that the Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

The applicability of SLFRS 15 to the Bank is limited for fee and commission income.

## 17.1 Gains/(losses) on sale of property, plant and equipment ACCOUNTING POLICY

The gains or losses on disposal of property, plant and equipment are determined as the difference between the carrying amount of the assets at the time of disposal and the proceeds of disposal, net of incremental disposal costs. This is recognised as an item in "net other operating income" in the year in which the Group transfers control of the asset to the buyer.

## 17.2 Rental and other income ACCOUNTING POLICY

Rental and other income is recognised in the Income Statement on an accrual basis.

## 18 Impairment charges and other losses

Impairment charges as per SLFRS 9 The Group recognises loss allowances for expected credit loss (ECL) on the following financial instruments that are not measured at FVTPL:

- Cash and cash equivalents;
- Placements with banks;
- Loans and advances to other customers;
- Financial assets at amortised cost-debt and other financial instruments;
- Debt instruments at fair value through other comprehensive income;
- Loan commitments and financial guarantee contracts.

No impairment loss is recognised on equity investments.

The Group assesses the credit risk and the estimates unbiased and probabilityweighted ECL, and incorporates all available information relevant to the assessment, including information about past events, current conditions and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL takes into account the time value of money.

## Impairment charges on loans and advances to customers

For loans and advances above a predefined threshold, the Group individually assesses for significant increase in credit risk (SICR). If a particular loan is individually impaired, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows. If the Group determines that no provision is required under individual impairment, such financial assets are then collectively assessed for any impairments along with the remaining portfolio. The Group computes ECL using three main components; a probability of default (PD), a loss given default (LGD) and the exposure at default (EAD) under the collective assessment. These parameters are generally derived from internally developed statistical models and historical data and then adjusted to reflect forward-looking information.

- PD The probability of default represents the likelihood of a borrower defaulting on its financial obligations (as per Note 7.1.12.3) either over the next 12-months (12m PD) or over the remaining lifetime (Lifetime PD) of the obligation. PD estimates are estimates at a certain date and days past due (DPD) is the primary input into the determination of the term structure of PD for exposures. DPD are determined by counting the number of days since the due date. The Group employs statistical models to analyse the data collected and generates estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.
- LGD The loss given default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. The Group estimates LGD parameters based on historical recovery rates of claims against defaulted counterparties. They are calculated on a discounted cash flow basis using EIR as the discounting factor. LGD is usually expressed as a percentage of the EAD.
- EAD The exposure at default represents the expected exposure in the event of a default. The Group estimates EAD, taking into account the repayment of principal and interest from the reporting date to the default event together with any expected drawdowns of committed facilities. To calculate EAD for a Stage 1 loan, the Group assesses the possible default events within 12 months. To calculate EAD of all other loans, default events over the lifetime of the financial instruments are considered.

## Impairment charges on financial investments

Impairment charges on financial investments include ECL on debt instruments at FVOCI and financial assets at amortised cost.

The Group does not have historical loss experience on debt instruments at

amortised cost and debt instruments at FVOCI. Thus the Group considers PDs published by the external sources (i.e. Bloomberg)

LGD for debt securities issued by the government of Sri Lanka in rupees is considered as 0%, LGDs for foreign currency denominated securities issued by the government are considered at a minimum of 20%. For all other instruments LGD is considered as 45% in accordance with the guideline issued by the Central Bank of Sri Lanka. However, the Group recognises a higher loss rates o/a SLSBs during the year, following the downgrade of the country's sovereign rating and the announcement made by the Government in April 2022 stating the Government's intention to restructure its external public debt.

EAD of a debt instrument is its gross carrying amount.

## Credit cards and revolving facilities

The Group's product offering includes a variety of corporate and retail overdraft and credit cards facilities. The Group reviews the sanction limits at least annually and therefore has the right to cancel and/or reduce the limits. Therefore, the Group calculates only the 12-month ECL (12m ECL) allowance on these facilities. The EAD is arrived by taking the maximum of either sanction limit adjusted for Credit Conversion Factor (CCF) and the gross carrying amount of the loan (utilised amount). EAD of Stage 3 contracts are limited to the gross carrying amount which is the utilised amount since it is assumed that the Group freeze the limits of those contracts up to the utilised amount. The expected 12-month default probabilities are applied to EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

### **Undrawn loan commitments**

When estimating Life Time ECL (LTECL) for undrawn loan commitments, the Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan. For loan commitments and letters of credit, the allowances for ECLs are recognised within "other liabilities".

## **Financial guarantee contracts**

The Bank's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the Income Statement, and the ECL provision. For this purpose, the Bank estimates ECLs based on the present value of the expected payments to reimburse the holder for a credit loss that it incurs. The shortfalls are discounted by the risk-adjusted interest rate relevant to the exposure. The allowances for ECLs related to financial guarantee contracts are recognised within "other liabilities".

### **Forward-looking information**

The Group incorporates forward-looking information into both its assessment as to whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Group also obtained experienced credit judgement from economic experts and Credit and Risk Management Departments to formulate a base case, a best case and a worst case scenario. The base case represents a most-likely outcome and is aligned with information used by the Group for strategic planning and budgeting. The Group has identified and documented key drivers of credit risk both quantitative and qualitative for various portfolio segments. Quantitative economic factors are based on economic data and forecasts published by the CBSL, other reliable sources and statistical models.

Quantitative drivers of credit risk	Qualitative drivers of credit risk
GDP growth rate	Status of industry business
Unemployment rate	e Regulatory impact
Interest rate (AWPL	R) Government policies
Rate of inflation	Average loan to value ratio
Exchange rate	

### The calculation of ECLs

The Group measures loss allowance at an amount equal to LTECL, except for following, which are measured as 12m ECL.

- Loans and advances on which credit risk has not increased significantly since the initial recognition.
- Debt instruments that are determined to have low credit risk at the reporting date.

The Group considers a debt instrument to have a low credit risk when they have an "investment grade" credit risk rating.

ECLs are measured as follows:

 Financial assets that are not creditimpaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive);

- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of expected cash flows;
- Undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the Group if the commitment is drawn down and the cash flows that the Group expects to receive;
- Financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Group expects to recover.

## Financial assets that are not credit-impaired at the reporting date

As described above, the Group calculates 12m ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to EAD and multiplied by the economic factor adjustment, expected LGD and discounted by an approximation to the original EIR. When the financial asset has shown a SICR since origination, the Group records an allowance for LTECLs based on PDs estimated over the lifetime of the instrument.

## Financial assets that are credit-impaired at the reporting date

Impairment allowance on credit-impaired financial assets assessed on individual basis is computed as the difference between the asset's gross carrying amount and the present value of estimated future cash flows. The expected future cash flows are based on the estimate made by credit risk officers' as at the reporting date, reflecting reasonable and supportable assumptions and projections of future recoveries and expected future receipts of interest. The Group regularly reviews the assumptions for projecting future cash flows.

Further, the loans and advances identified as credit impaired in Note 7.1.12.3 will be assessed for impairment with 100% PD.

## **Collateral valuation**

The Bank seeks to use collateral, where possible, to mitigate its risks on financial assets. The collateral comes in various forms such as cash, gold, Government Securities, Letters of Credit/Guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements, etc.

## Write-off of financial assets

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Due to the high level of economic uncertainty, the Bank used management overlays, such as additional provisions on loans in risk elevated industries and loans subject to moratoriums, to capture unforeseeable events that cannot be assessed using modelled outcomes. As a result, the cumulative impairment provision under management overlays as of December 31, 2023 is Rs. 6.697 Bn. (Rs. 10.386 Bn. as at December 31, 2022).

Further, Bank reviewed the default point when assessing EAD under collective impairment paying due consideration for future economic uncertainties.

### Scenario probability weighting (Bank)

## 19.1 Salary, bonus, and pension costs

Salary, bonus, and contributions to defined contribution/benefit plans, reported above also include amounts paid to and contributions made on behalf of Executive Directors.

### 19.2 Share-based payment

The Bank has equity-settled share-based compensation plans, the details of which are given in Note 52 on pages 371 to 372.

## **19.3 Other expenses**

This includes expenses such as overtime payments, leave encashment benefits, medical and hospitalisation charges, expenses incurred on staff training/ recruitment and staff welfare activities, etc.

## 20 Depreciation and amortisation

#### Depreciation

Depreciation is calculated to write-off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives and is recognised in the Income Statement. Freehold land is not depreciated. Right-of-use assets are depreciated over the useful lives of the assets. However, if there is no reasonable certainty that the Group will obtain the ownership by the end of the lease term, the assets are depreciated over the shorter of the estimated useful lives and the lease terms.

The estimated useful lives of the property, plant and equipment of the Bank as at December 31, 2023 are as follows:

Class of asset	Depreciation percentage per annum	Period (years)
Freehold and		
leasehold buildings	2.5	40
Motor vehicles	20	5
Computer equipment	20	5
Office equipment,		
furniture, and fixtures	1	
Office equipment	20	5
Office interior work	20	5
Furniture and fittings	5 10	10

The above rates are compatible with the rates used by all Group entities, and these rates have not been changed during the year.

The depreciation rates are determined separately for each significant part of an item of property, plant and equipment and depreciation commences when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Management. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or the date that the asset is derecognised.

All classes of property, plant and equipment together with the reconciliation of carrying amounts and accumulated depreciation at the beginning and at the end of the year together with other relevant information are given in Note 38 on pages 337 to 349.

Depreciation methods, useful lives, and residual values are reassessed at each reporting date and adjusted, if required. Amortisation of intangible assets

Intangible assets are amortised using the straight-line method to write down the cost over its estimated useful economic lives from the date on which it is available for use, at the rates specified below:

Class of asset	Amortisation percentage per annum	Period (years)
Computer softwa	re 20	5
Trademarks	20	5

The above rates are compatible with the rates used by all Group entities, and these rates have not been changed during the year.

The unamortised balances of intangible assets with finite lives are reviewed for impairment whenever there is an indication for impairment and recognised in the Income Statement to the extent that they are no longer probable of being recovered from the expected future benefits.

Amortisation method, useful lives, and residual values are reviewed at each reporting date and adjusted, if required.

			GRO	UP	BANK

## 21 Other operating expenses

## ACCOUNTING POLICY

These expenses are recognised in the Income Statement on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenses incurred in running the business and in maintaining the property, plant and equipment in a state of efficiency are charged to the Income Statement.

## 23 Income tax expense/(reversal)

## ACCOUNTING POLICY

Income tax expense comprises of current tax expense and deferred tax expenses/ (reversal). Income tax expense is recognised in the Income Statement, except to the extent it relates to items recognised directly in Equity or in OCI.

## **Current tax**

"Current tax" comprises the best estimate of expected tax payable to or (recoverable) from taxation authorities for the year and any adjustment to the tax payable or (recoverable) in respect of previous years. It is measured using tax rates enacted or substantively enacted, as at the reporting date in countries where the group operates. "Current tax" also include any tax expense arising from dividend income.

Accordingly, provision for taxation is made on the basis of the accounting profit for the year, as adjusted for taxation purposes, in accordance with the relevant statutes of tax jurisdictions in countries where the group operates. Major components of tax expense, the effective tax rates and a reconciliation between the profit before tax and tax expense, is computed as required by the Sri Lanka Accounting Standard – LKAS 12 on "Income Taxes".

## **Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities as per Statement of Financial Position and the amount of such assets or liabilities considered for taxation purposes.

Deferred tax liabilities are the amounts of income taxes payable in future periods in respect of taxable temporary differences. Deferred tax liability is not recognised for:

- temporary differences on the initial recognition of goodwill, assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.
- temporary differences at the time of the transaction, does not give rise to equal taxable and deductible temporary differences

Deferred tax assets are recognised for deductible temporary, carried forward unused tax losses and carried forward unused tax credits to the extent that it is probable that future taxable profits will be available, against which they can be used. Deferred tax assets are reassessed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax asset or liability is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted as at the reporting date.

The measurement of deferred tax reflects the tax consequences to the Group as at the reporting date in relation to temporary difference in carrying amount of its assets and liabilities recorded in the Statement of Financial Position and the tax base.

### Entity-wise breakup of income tax expense in the Income Statement is as follows:

	Applicab	le tax rate	GRC	OUP	BAN	NK
For the year ended December 31, Note Page No.	2023 %	2022 %	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000

## 24 Earnings Per Share (EPS)

```
ACCOUNTING POLICY
```

The Group computes basic and diluted EPS for its ordinary shares. Basic EPS is calculated by dividing the profit or loss that is attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by dividing the profit or loss that is attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding, adjusted for the effects of all potentially dilutive ordinary shares, which comprise share options granted to employees under Employee Share Option Plans (ESOP).

Details of Basic and Diluted EPS are given below:

## 24.1 Basic and diluted earnings per ordinary share

			GRC	DUP	ВА	NK
	Note	Page No.	2023	2022	2023	2022
Amount used as the numerator:						
Profit for the year attributable to equity holders of the Bank (Rs. '000)			21,114,675	23,811,914	20,460,962	22,969,791
Number of ordinary shares used as the denominator:						
Weighted average number of ordinary shares for Basic EPS	24.2	314	1,313,734,091	1,313,519,550	1,313,734,091	1,313,519,550
Weighted average number of ordinary shares for Diluted EPS	24.2	314	1,314,665,092	1,313,519,550	1,314,665,092	1,313,519,550
Basic earnings per ordinary share (Rs.)			16.07	18.13	15.57	17.49
Diluted earnings per ordinary share (Rs.)			16.06	18.13	15.56	17.49

### 24.2 Weighted average number of ordinary shares for basic and diluted Earnings Per Share

			Outstanding nu	Imber of shares	Weighted average	number of shares
	Note	Page No.	2023	2022	2023	2022
Number of shares in issue as at January 01,			1,239,778,047	1,194,221,299	1,239,778,047	1,194,221,299
Add: Number of shares satisfied in the form of issue and allotment of new shares from first and final dividend for 2021	51.1	370	-	45,556,748	-	45,556,748
Add: Number of shares satisfied in the form of issue and allotment of new shares from first and final dividend for 2022	51.1	370	73,741,503	_	73,741,503	73,741,503
			1,313,519,550	1,239,778,047	1,313,519,550	1,313,519,550
Add: Number of shares issued under ESOP – 2019	51.1	370	601,578	_	214,541	_
Number of ordinary shares for basic earnings per ordinary share calculation			1,314,121,128	1,239,778,047	1,313,734,091	1,313,519,550
Add: Bonus element on number of outstanding options under ESOP 2019 as at the year end			-	_	931,001	-
Number of ordinary shares for diluted earnings per ordinary share calculation (*)			1,314,121,128	1,239,778,047	1,314,665,092	1,313,519,550

(\*) The weighted average number of ordinary shares for Basic EPS and for diluted EPS are equal, due to the market price of the ordinary voting share being below the offer price of the ESOPs as at December 31, 2022.

## **25** Dividends on ordinary shares

## 25.1 Dividends for 2021

The Bank did not declare cash dividends during the year 2021 (for the year ended December 31, 2021), in conformity with the restrictions imposed by the Central Bank of Sri Lanka on payment of interim cash dividends for the financial year 2021, as per instructions issued via the Banking Act Direction No. 11 of 2021, dated July 13, 2021, on "Restrictions on Discretionary Payments of Licensed Banks".

The Board of Directors of the Bank recommended and paid a first and final dividend of Rs. 7.50 per share which was satisfied in the form of Rs. 4.50 per share in cash (paid on April 07, 2022 and April 11, 2022) and Rs. 3.00 per share in the form of issue and allotment of new shares for both voting and non-voting ordinary shares of the Bank for the year ended December 31, 2021, and these new shares were listed on April 26, 2022. This dividend was recommended and paid after the Financial Statements for the year 2021 were finalised and audited by the Bank's External Auditors and in compliance with the instructions given in the Banking Act Direction No. 11 of 2021.

### 25.2 Dividends for 2022

The Bank did not declare cash dividends during the year 2022 (for the year ended December 31, 2022), in conformity with the restrictions imposed by the Central Bank of Sri Lanka on payment of cash dividends for the financial year 2022, as per the instructions given in the Banking Act Direction No. 02 of 2022, dated May 6, 2022, on "Restrictions on Discretionary Payments of Licensed Banks". The Board of Directors of the Bank recommended and paid a first and final dividend of Rs. 4.50 per share which was satisfied in the form of issue and allotment of new shares for both voting and non-voting ordinary shares of the Bank for the year ended December 31, 2022, and these new shares were listed on April 19, 2023.

This dividend was recommended and paid after the Financial Statements for the year 2022 were finalised and audited by the Bank's external auditors and in compliance with the instructions given in the Banking Act Direction No. 02 of 2022.

## 25.3 Dividends for 2023

The Bank did not declare cash dividends during the year 2023 (for the year ended December 31, 2023), in conformity with the restrictions imposed by the Central Bank of Sri Lanka on payment of cash dividends for the financial year 2023, as per the instructions given in the Banking Act Direction No. 1 of 2023, dated February 2, 2023, on "Restrictions on Discretionary Payments of Licensed Banks". Since the Financial Statements for the year 2023 are finalised and audited by the Bank's external auditors, the Board of Directors of the Bank has now recommended the payment of a first and final dividend of Rs. 6.50 per share to be paid and satisfied in the form of Rs. 4.50 per share in cash and Rs. 2.00 per share in the form of issue and allotment of new shares for both voting and non-voting ordinary shareholders' of the Bank for the year ended December 31, 2023,

Commercial Bank of Ceylon PLC Annual Report 2023 315

subject to the applicable WHT as disclosed in Note 9.3.1 on page 301.

The above first and final dividend recommended by the Board of Directors is to be approved at the forthcoming Annual General Meeting to be held on March 28, 2024 and in accordance with provisions of LKAS 10, the first and final dividend referred to above has not been recognised as a liability as at the year end as disclosed in Note 7.7 on page 297.

## **26** Classification of financial assets and financial liabilities

The tables below provide a reconciliation between line items in the Statement of Financial Position and categories of financial assets and financial liabilities of the Group and the Bank:

## 27 Fair value measurement

### ACCOUNTING POLICY

The Group measures the fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurement. An analysis of fair value measurement of financial and non-financial assets and liabilities is provided below:

Level 1

Inputs that are quoted market prices (unadjusted) in an active market for identical instruments.

When available, the Group measures the fair value of an instrument using active quoted prices or dealer price quotations (assets and long positions are measured at a bid price; liabilities and short positions are measured at an ask price), without any deduction for transaction costs. A market is regarded as active if transactions for asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

## Level 2

Inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using;

- (a) quoted prices in active markets for similar instruments,
- (b) quoted prices for identical or similar instruments in markets that are considered to be less active, or
- (c) other valuation techniques in which almost all significant inputs are directly or indirectly observable from market data.

## Level 3

Inputs that are unobservable.

This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation.

This category includes instruments that are valued based on quoted prices of similar instruments for which significant unobservable adjustments or assumptions are required to reflect difference between the instruments. Valuation techniques include net present value and discounted cash flow models, comparison with similar instruments for which observable market prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, risk premiums in estimating discount rates, bond and equity prices, foreign exchange rates, expected price volatilities and corrections.

Observable prices or model inputs such as market interest rates are usually available in the market for listed equity securities and Government Securities such as Treasury Bills and Treasury Bonds. Availability of observable prices and model inputs reduces the need for Management judgement and estimation while reducing uncertainty associated in determining the fair values.

Models are adjusted to reflect the spread for bid and ask prices to reflect costs to close out positions, credit and debit valuation adjustments, liquidity spread and limitations in the models. Also, profit or loss calculated when such financial instruments are first recorded ("Day 1" profit or loss) is deferred and recognised only when the inputs become observable or on derecognition of the instrument.

### 27.1 Assets and liabilities measured at fair value and fair value hierarchy

The following table provides an analysis of assets and liabilities measured at fair value as at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. These amounts were based on the values recognised in the Statement of Financial Position:

				GF	OUP			В	ANK

## 27.2 Level 3 fair value measurement

### Property, Plant and Equipment (PPE)

Reconciliation from the beginning balance to the ending balance for the land and buildings in the Level 3 of the fair value hierarchy is given in Notes 38.1 to 38.4 on pages 338 to 342.

Reconciliation of Revaluation Reserve pertaining to land and buildings categorised as Level 3 in the fair value hierarchy is given in the Statement of Changes in Equity on pages 270 to 277.

Note 38.5 (b) on page 343 provides information on significant unobservable inputs used in measuring fair value of land and buildings categorised as Level 3 in the fair value hierarchy. Note 38.5 (c) on page 348 provides details of valuation techniques used and sensitivity of fair value measurement to changes in significant unobservable inputs.

#### **Investment properties**

Reconciliation from the beginning balance to the ending balance for the investment properties in the Level 3 of the fair value hierarchy is available in Note 39 on page 349.

Note 39.1 (b) on page 351 provides information on significant unobservable inputs used in measuring fair value of investment properties categorised as level 3 in the fair value hierarchy.

Note 39.1 (c) on page 352 provides details of valuation techniques used and the sensitivity of fair value measurement to changes in significant unobservable inputs.

## 27.3 Financial instruments not measured at fair value and fair value hierarchy

Methodologies and assumptions used to determine fair value of financial instruments which are not already recorded at fair value in the Statement of Financial Position are as follows:

### **Fixed rate financial instruments**

The fair value of fixed rate financial assets and liabilities carried at amortised cost (e.g. fixed rate loans and advances, due to depositors, subordinated liabilities) are estimated based on the Discounted Cash Flow approach. This approach employs the current market interest rates of similar financial instruments as a significant unobservable input in measuring the fair value and hence it is categorised under Level 3 in the fair value hierarchy.

## Sensitivity of significant unobservable inputs used to measure fair value of fixed rate financial instruments

A significant increase/(decrease) in the market interest rate would result in lower/(higher) fair value being disclosed.

## Assets for which fair value approximates carrying value

For financial assets and liabilities with short-term maturities or with short-term re-pricing intervals, it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits and savings deposits which do not have a specific maturity.

The following table sets out the fair values of financial assets and liabilities not measured at fair value and related fair value hierarchy used:

		(			GROUP					BANK

## 27.4 Valuation techniques and inputs in measuring fair values

The table below provides information on the valuation techniques and inputs used in measuring the fair values of derivative financial assets and liabilities in the Level 2 of the fair value hierarchy, as given in Note 27.1 on page 317.

Type of financial instruments	Fair value as at December 31, 2023 (Rs. '000)	Valuation technique	Significant valuation inputs
Derivative financial assets	7,226,484	<b>Adjusted forward rate approach</b> This approach considers the present value of projected	Spot exchange rate
Derivative financial liabilities	2,319,209	forward exchange rate as at the reporting date as the fair value. The said forward rate is projected, based on the spot exchange rate and the forward premium/discount calculated using extrapolated interest rates of the currency pairs under consideration. In computing the present value, interest rate differential between two currencies under consideration is used as the discount rate.	<ul> <li>Interest rate differentials between currencies under consideration</li> </ul>

## **28** Cash and cash equivalents

## ACCOUNTING POLICY

Cash and cash equivalents include cash in hand, demand placements with banks and loans at call/short notice and highly liquid financial assets with original maturities within three months or less from the date of acquisition. These are subject to an insignificant risk of changes in fair value and are used by the Group in the management of its short-term commitments. These items are brought to Financial Statements at face values or the gross values, where appropriate. There were no cash and cash equivalents held by the Group companies that were not available for use by the Group. Cash and cash equivalents are carried at amortised cost in the Statement of Financial Position.

Balances with Bangladesh Bank	37,974,389	30,548,569	37,974,389	30,548,569	
Balances with Maldives Monetary Authority	5,725,865	5,773,115	-	-	
Non-statutory balances with Central Banks					
Balances with Central Bank of Sri Lanka	4,903,453	-	4,903,453	-	
Balances with Maldives Monetary Authority	4,090,136	6,330,506	-	-	
Total	62,633,503	78,597,120	52,817,502	66,493,499	

The maturity analysis of balances with Central Banks is given in Note 60 on pages 380 and 381.

**Balances with Central Bank of Sri Lanka** The Monetary Law Act requires that all commercial banks operating in Sri Lanka to maintain a statutory reserve on all deposit liabilities denominated in Sri Lankan Rupees. As required by the provisions of Section 93 of the Monetary Law Act, a cash balance is maintained with the Central Bank of Sri Lanka. As at December 31, 2023, the minimum cash reserve requirement was 2.00% of the rupee deposit liabilities and this rate was applicable from August 16, 2023. (4.00% as at December 31, 2022). There is no reserve requirement for foreign currency deposits liabilities of the Domestic Banking Unit (DBU) and the deposit liabilities of the Offshore Banking Centre

# **Balances with Bangladesh Bank**

The Bank's Bangladesh operation is required to maintain the Statutory Liquidity Requirement on time and demand liabilities (both local and foreign currencies), partly in the form of a Cash Reserve Requirement and the balance by way of foreign currency and/ or in the form of unencumbered securities held with the Bangladesh Bank. As per the Bangladesh Bank regulations, the Statutory Liquidity Requirement as at December 31, 2023 was 17.00% for Domestic Banking Unit (DBU) and 15.00% for Off-shore Banking Unit (OBU)(17.00% for DBU and 15.00% for OBU in 2022) on time and demand liabilities (both local and foreign currencies), which includes a Cash Reserve Requirement of 4.00% on DBU and 2.00% for OBU (4.00% on DBU and 2.00% for OBU in 2022) and the balance 13.00% is permitted to be

maintained in foreign currency and/or also in unencumbered securities held with the Bangladesh Bank for both DBU and OBU (13.00% for both DBU and OBU in 2022).

#### Balances with Maldives Monetary Authority

According to the Banking Act No. 24 of 2010, the CBM requires to maintain a statutory reserve on all deposit liabilities denominated in both foreign currency and local currency excluding interbank deposits of other Banks in Maldives, letter of credit and margin deposits. According to the regulations laid down by the Maldives Monetary Authority (MMA), the Minimum Reserve Requirement (MRR) as at December 31, 2023 was 10.00% for Maldivian Rufiyaa and USD currency. (10.00% as at December 31, 2022).

# **31** Derivative financial assets

#### ACCOUNTING POLICY

The Bank uses derivatives such as interest rate swaps, foreign currency swaps, forward foreign exchange contracts, currency options, etc. Derivative financial assets are recorded at fair value. Changes in the fair value of derivatives are included in "Net Gains/(Losses) from Trading" in the Income Statement. Under SLFRS 9, embedded derivatives are not separated from a host financial asset and are classified entirely based on the business model and their contractual terms.

Derivatives embedded in non-financial host contracts are treated separately and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract, a separate instrument with the same terms as embedded derivative would meet the definition of derivative and the host contract is not itself held for trading or designated at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value in the trading portfolio with changes in fair value recognised in the Income Statement.

The maturity analysis of derivative financial assets is given in Note 60 on pages 380 and 381.

# **32** Financial assets recognised through profit or loss – measured at fair value

This includes financial assets that are held for trading purposes. The financial assets are classified as held for trading if:

- They are acquired principally for the purpose of selling or repurchasing in the near term; or
- They are held as part of portfolio that is managed together for short-term profit or position taking; or
- They form part of derivative financial instruments entered into by the Group that are not financial guaranteed contracts

or designated as hedging instruments in effective hedging relationships.

Financial assets held for trading are measured at fair value through profit or loss in the SOFP. Interest and dividend income are recorded in "Interest Income" and "Net Gains/(Losses) from Trading" respectively in the Income Statement, according to the terms of the contract, or when the right to receive the payment has been established. Financial assets held for trading include instruments such as Government and other debt securities and equity instruments that have been acquired principally for the purpose of selling or repurchasing in the near term.

Further as per SLFRS 9, financial assets recognised through profit or loss includes all financial assets other than those classified under FVOCI and amortised cost.

# **33** Financial assets at amortised cost – loans and advances to other customers ACCOUNTING POLICY

Financial assets at amortised cost – loans and advances to other customers includes, Loans and Advances and Lease Receivables of the Group.

As per SLFRS 9, "Loans and advances to other customers" are assets that are held within a business model whose objective is to hold the assets in order to collect contractual cash flows and the contractual terms of the assets give rise on specific dates to cash flows that are solely payment of principal and interest on the principal outstanding. When the Group is the lessor in a lease agreement that transfers substantially all risks and rewards incidental to ownership of the asset to the lessee, the arrangement is classified as a finance lease. Amounts receivable under finance leases, net of initial rentals received, unearned lease income and provision for impairment, are classified as lease receivable and are presented within "Loans and advances to other customers" in the Statement of Financial Position.

After initial measurement, "Loans and advances to other customers" are

subsequently measured at gross carrying amount using the EIR, less provision for impairment, except when the Group designates loans and advances at fair value through profit or loss. EIR is calculated by taking into account any discount or premium on acquisition and fees and costs. The amortisation is included in "Interest Income", while the losses arising from impairment are recognised in "Impairment charges and other losses" in the Income Statement.

# **34** Financial assets at amortised cost – debt and other financial instruments

#### ACCOUNTING POLICY

As per SLFRS 9, Financial assets are measured at amortised cost if it meets both of the following conditions and is not designated at FVTPL:

• The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

 The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, these assets are subsequently measured at amortised cost (gross carrying amount using the EIR, less provision for impairment). Amortised cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the EIR. The amortisation is included in "Interest Income" while the losses arising from impairment are recognised in "impairment charges for loans and other losses" in the Income Statement.

(\*) The Bank reclassified bulk of its Treasury Bond Portfolio, majority of Sri Lanka Development Bond (SLDB) portfolio and entire Sri Lanka Sovereign Bond (SLSB) portfolio to amortised cost from Fair Value Through Other Comprehensive Income (FVOCI) category during the year 2022. Refer Note 35.1 on page 333.

(\*\*) Treasury bills & bonds denominated in local currency and SLSBs issued by the Government of Sri Lanka, are classified under Stage 1 and Stage 2 respectively in line with Banking Act Direction No. 14 of 2021 - Classification, Recognition and Measurement of Financial Assets Other than Credit Facilities in Licensed Banks. The Bank considered the latest available information including the indicative terms of the restructuring exercise currently being undertaken by the Government of Sri Lanka in estimating the impairment provision of SLSBs as at December 31, 2023

# **35** Financial assets measured at fair value through other comprehensive income

#### ACCOUNTING POLICY

As per SLFRS 9, this comprises debt instruments measured at FVOCI and equity instruments designated at FVOCI.

#### **Debt instruments at FVOCI**

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI. Interest income, and foreign exchange gains and losses, ECL and reversals are recognised in profit or loss. On derecognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to profit or loss.

#### **Equity instruments at FVOCI**

Upon initial recognition, the Bank occasionally elects to classify irrevocably some of its equity investments held for strategic purpose, as equity instruments at FVOCI when they meet the definition of Equity under LKAS 32 "Financial Instruments: Presentation" and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss instead directly transferred to retained earnings at the time of derecognition. Dividends are recognised in profit or loss in "Net other operating income" when the right of the payment has been established. Equity instruments at FVOCI are not subject to an impairment assessment.

# **36** Investments in subsidiaries

Subsidiaries are investees controlled by the Group. The Group "controls" an investee if it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Group reassesses whether it has control if there are changes to one or more of the elements of control. This includes circumstances in which protective rights held (e.g. those resulting from a lending relationship) become substantive and lead to the Group having power over an investee.

The cost of an acquisition is measured at fair value of the consideration, including contingent consideration. The acquired identifiable assets, liabilities and contingent liabilities are measured at their fair values at the date of acquisition. Subsequent to the initial measurement the Bank continues to recognise the investments in subsidiaries at cost.

The Financial Statements of subsidiaries are included in the Consolidated Financial Statements from the date on which control commences until the date when control ceases.

The Financial Statements of all subsidiaries in the Group have a common financial year which ends on December 31, except for CBC Myanmar Microfinance Company Limited, whose financial year ends on March 31.

The reason for using a different reporting date by CBC Myanmar Microfinance Company Limited is due to requirements imposed by the Financial Regulatory Department of Myanmar. The Financial Statements of the Bank's subsidiaries are prepared using consistent accounting policies.

All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions, income and expenses are eliminated in full.

There are no significant restrictions on the ability of subsidiaries to transfer funds to the Parent (the Bank) in the form of cash dividend or repayment of loans and advances.

All subsidiaries of the Bank have been incorporated in Sri Lanka except Commex Sri Lanka S.R.L., Commercial Bank of Maldives Private Limited and CBC Myanmar Microfinance Company Limited which were incorporated in Italy, Republic of Maldives and Myanmar respectively.

# **37** Investment in associate

#### ACCOUNTING POLICY

Associates are those entities in which the Group has significant influence, but not control, over the variable returns through its power over the investee. Significant influence is presumed to exist when the Group holds 20% or more of the voting power of another entity.

Investments in associates are accounted for using the equity method and are recognised initially at cost, in terms of Sri Lanka Accounting Standards - LKAS 28 on "Investments in Associates and Joint Ventures". The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Consolidated Financial Statements include the Group's share of the income and expenses and equity movements of equityaccounted investees, after adjustments to align the Accounting Policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. Accordingly, under the Equity Method, investments in associates are carried at cost plus postacquisition changes in the Group's share of net assets of the associates and are reported as a separate line item in the Statement of Financial Position. The Income Statement

reflects the Group's share of the results of operations of the associates. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in Equity through OCI. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in associate.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of that interest, including any long-term investments, is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equal the share of losses not recognised previously.

The Group discontinues the use of the Equity Method from the date that it ceases to have significant influence over an associate and accounts for such investments in accordance with the Sri Lanka Accounting Standard – SLFRS 9 on "Financial Instruments".

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

After application of the Equity Method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and recognises the loss under "Share of Profit/ (loss) of Associate" in the Income Statement.

In the separate Financial Statements, Investments in associates are accounted at cost.

As at December 31,				202	3	2022	2
	Incorporation and operation	Ownership interest %	Number of shares	Cost Rs. '000	Carrying value Rs. '000	Cost Rs. '000	Carrying value Rs. '000
Equity Investments Lanka Ltd.	Sri Lanka	22.92	4,110,938	44,331	59,004	44,331	55,302
				44,331	59,004	44,331	55,302

#### 37.1 Reconciliation of summarised financial information

Reconciliation of the summarised financial information to the carrying amount of the interest in the associate recognised in the Consolidated Financial Statements is as follows:

			Equity Investme	ents Lanka Ltd.
	Note	Page No.	2023	2022
			Rs. '000	Rs. '000
Cost of investments			44,331	44,331
Add: Share of profit applicable to the Group				
Investment in associate – As at January 01,			10,971	16,097
Total comprehensive income	37.2 (a)	337	3,702	(5,126)
Share of profit/(loss) of associate, net of tax			3,495	(3,727)
Share of other comprehensive Income/(expense) of associate, net of tax			207	(1,399)
Dividend received			-	-
Balance as at December 31,			59,004	55,302

#### 37.2 Summarised financial information in respect of the associate is set out below:

### 37.2 (a) Summarised Income Statement

For the year ended December 31,	Equity Investme	ents Lanka Ltd.
	2023 Rs. '000	2022 Rs. '000
Revenue	55,198	24,697
Expenses	(39,948)	(40,960)
Income tax	-	-
Profit/(loss) from continuing operations, net of tax	15,250	(16,263)
Group's share of profit/(loss) from continuing operations, net of tax	3,495	(3,727)
Other Comprehensive Income/(expense), net of tax	905	(6,105)
Group's share of Other Comprehensive Income/(expense) from continuing operations, net of tax	207	(1,399)
Share of results of equity accounted investee recognised in Income Statement and Statement of Profit or Loss and Other Comprehensive Income	3,702	(5,126)

#### 37.2 (b) Summarised Statement of Financial Position

As at December 31,	Equity Investm	ents Lanka Ltd.	
	2023 Rs. '000	2022 Rs. '000	
Non-current assets	242,540	241,776	
Current assets	23,451	27,688	
Non-current liabilities	(3,223)	(2,740)	
Current liabilities	(5,335)	(25,440)	
Net assets	257,433	241,284	
Group's share of net assets	59,004	55,302	
Carrying amount of interest in associate	59,004	55,302	

The Group recognises the share of net assets of the associate under the Equity Method to arrive at the Directors' valuation.

The maturity analysis of investment in associate is given in Note 60 on pages 380 and 381.

# **B** Property, plant and equipment and right-of-use assets ACCOUNTING POLICY

The Group applies the requirements of the Sri Lanka Accounting Standard – LKAS 16 on "Property, plant and equipment" in accounting for its owned assets which are held for and used in the provision of services, for rental to others or for administrative purposes and are expected to be used for more than one year.

#### **Basis of recognition**

Property, plant and equipment is recognised if it is probable that future economic benefits associated with the asset will flow to the Group and cost of the asset can be reliably measured.

#### Basis of measurement

An item of property, plant and equipment that qualifies for recognition as an asset is initially measured at its cost. Cost includes expenditure that is directly attributable to the acquisition of the asset and subsequent costs (excluding the costs of day-to-day servicing) as explained below. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use and the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software which is integral to the functionality of the related equipment is capitalised as part of Computer Equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Cost model

The Group applies the Cost Model to all property, plant and equipment except freehold land and freehold and leasehold buildings. These are recorded at cost of purchase together with any incidental expenses thereon, less accumulated depreciation and any accumulated impairment losses.

#### • Revaluation model

The Group applies the revaluation model for the entire class of freehold land, freehold and leasehold buildings for measurement after initial recognition. Such properties are carried at revalued amounts, being their fair value at the date of revaluation, less any subsequent accumulated depreciation on buildings and any accumulated impairment losses charged subsequent to the date of valuation. Freehold land, freehold and leasehold buildings of the Group are revalued by independent professional valuers every three years or more frequently if the fair values are substantially different from carrying amounts, to ensure that the carrying amounts do not differ from the fair values as at the reporting date.

On revaluation of an asset, any increase in the carrying amount is recognised in Revaluation Reserve in Equity through OCI or used to reverse a previous loss on revaluation of the same asset, which was charged to the income statement. In this circumstance, the increase is recognised as income only to the extent of the amounts written down previously. Any decrease in the carrying amount is recognised as an expense in the income statement or charged to Revaluation Reserve in Equity through OCI, only to the extent of any credit balance existing in the Revaluation Reserve in respect of that asset. Any balance remaining in the

Revaluation Reserve in respect of an asset, is transferred directly to Retained Earnings on retirement or disposal of the asset.

The Group revalued its freehold land, freehold and leasehold buildings as at December 31, 2023. Methods and significant assumptions including unobservable market inputs employed in estimating the fair value are given in Note 38.5 (b) and Note 38.5 (c).

The Bank carried out a revaluation of its freehold land, freehold and leasehold buildings as at December 31, 2023 as required by Section 7.1 (b) of the Direction No. 01 of 2014 on "Valuation of Immovable Property of Licensed Commercial Banks" issued by the CBSL and recognised the revaluation gains/(losses) in the Financial Statements.

The next revaluation exercise on the freehold land, freehold and leasehold buildings will be carried out on or before December 31, 2026.

#### Subsequent expenditure

Subsequent expenditure is capitalised only when it is probable that the future economic benefits of the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

# **De-recognition**

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset), is recognised in "Net other operating income" in profit or loss in the year the asset is derecognised.

When replacement costs are recognised in the carrying amount of an item of property, plant and equipment, the remaining carrying amount of the replaced part is derecognised as required by Sri Lanka Accounting Standard – LKAS 16 on "Property, plant and equipment".

#### Capital work-in-progress

These are expenses of capital nature directly incurred in the construction of buildings, major plant and machinery and system development, awaiting capitalisation. These are stated in the Statement of Financial Position at cost less any accumulated impairment losses. Capital work-in-progress is transferred to the relevant asset when it is in the location and condition necessary for it to be capable of operating in the manner intended by Management (i.e., available for use).

#### **Right-of-use assets**

Right-of-use assets are presented together with property, plant and equipment in the Statement of Financial Position.

#### 38.5 (c) Valuation techniques and sensitivity of the fair value measurement of the freehold land and buildings of the Bank and Group

Description of the above valuation techniques together with narrative descriptions on sensitivity of the fair value measurement to changes in significant unobservable inputs are tabulated below:

Valuation technique	Significant unobservable valuation inputs (ranges of each property are given in the table above)	Sensitivity of the fair value measurement to inputs
Market comparable method This method considers the selling price of a similar property within a reasonably recent period of time in determining the fair value of the property being revalued. This involves evaluation of recent active market prices of similar assets, making appropriate adjustments for differences in size, nature, location and condition of specific property. In this process, outlier transactions, indicative of particularly motivated buyers or sellers are too compensated for since the price may not adequately reflect the fair market value.	Price per perch for land Price per square foot for building Depreciation rate for building	Estimated fair value would increase/(decrease) if; – Price per perch for land would increase/ (decrease) – Price per square foot for building would increase/(decrease) – Depreciation rate for building would (decrease)/ increase
Investment method This method involves the capitalisation of the expected rental income at an appropriate rate of years purchased currently characterised by the real estate market.	Gross Annual Rentals Years purchase (Present value of 1 unit per period) Void period	Estimated fair value would increase/(decrease) if; – Gross Annual Rentals would increase/(decrease) – Years purchase would increase/(decrease) – Void period would decrease/(increase)

#### 38.6 Title restriction on property, plant and equipment

There were no restrictions existed on the title of the property, plant and equipment of the Group/Bank as at the reporting date.

#### 38.7 Property, plant and equipment pledged as security for liabilities - Bank

There were no items of property, plant and equipment pledged as securities for liabilities as at the reporting date.

# 38.8 Compensation from third parties for items of property, plant and equipment - Bank

The compensation received/receivable from third parties for items of property, plant and equipment that were impaired, lost or given up at the reporting date of the Bank is as follows:

	Rs. '000	Rs. '000
Total claims lodged	17,926	18,457
Total claims received	(14,486)	(10,916)
Total claims rejected	-	(2,672)
Total claims receivable	3,440	4,869

#### 38.9 Fully-depreciated property, plant and equipment – Bank

The cost of fully-depreciated property, plant and equipment of the Bank which are still in use is as follows:

As at December 31,	2023 Rs. '000	2022 Rs. '000
Computer equipment	4,023,296	3,238,596
Office equipment, furniture and fixtures	4,681,903	4,220,455
Motor vehicles	92,852	68,414

#### 38.10 Temporarily idle property, plant and equipment - Bank

Following property, plant and equipment of the Bank were temporarily idle (until the assets are issued to the business units):

As at December 31,	2023 Rs. '000	2022 Rs. '000
Computer equipment	574,737	190,926
Office equipment, furniture and fixtures	219,744	224,499

#### 38.11 Property, plant and equipment retired from active use - Bank

Following property, plant and equipment of the Bank were retired from active use:

As at December 31,		2023 Rs. '000	2022 Rs. '000
Computer equipment	Cost	531,529	530,971
	Depreciation	516,491	521,973
	NBV	15,038	8,998
Office equipment, furniture and fixtures	Cost	211,090	214,539
	Depreciation	204,980	212,184
	NBV	6,110	2,355

#### 38.12 Borrowing costs

There were no capitalised borrowing costs related to the acquisition of property, plant and equipment during the year 2023 (2022 - Nil).

# **39 Investment properties**

Investment Properties are those which are held either to earn rental income or for capital appreciation or for both.

An investment property is recognised, if it is probable that future economic benefits that are associated with the investment property will flow to the Group and cost of the investment property can be reliably measured.

The Group recognises the investment properties at its fair value.

When a portion of the property is held to earn rentals or for capital appreciation and another portion is held for use in the production or supply of goods or services or for administrative purposes, the Group accounts for the portions separately if these portions could be sold separately (or leased out separately under a finance lease). If the portions could not be sold separately, the entire property is treated as investment property, only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the net other operating income.

# 40 Intangible assets

#### ACCOUNTING POLICY

The Group's intangible assets include the value of acquired goodwill, trademarks, and computer software.

#### **Basis of recognition**

An intangible asset is recognised if it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably in accordance with the Sri Lanka Accounting Standard – LKAS 38 on "Intangible Assets".

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, these assets are stated in the Statement of Financial Position at cost, less accumulated amortisation and accumulated impairment losses, if any.

# Subsequent expenditure

Subsequent expenditure on intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

# Useful economic lives, amortisation and impairment

The useful economic lives of intangible assets are assessed to be either finite or indefinite. Useful economic lives, amortisation and impairment of finite and indefinite intangible assets are described below:

# • Intangible assets with finite lives and amortisation

Intangible assets with finite lives are amortised over the useful economic lives. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates, which require prospective application. The amortisation expense on intangible assets with finite lives is expensed as incurred.

### Goodwill

Goodwill that arises on the acquisition of subsidiaries is presented with intangible assets. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

#### Computer software

Software acquired by the Group is measured at cost less accumulated amortisation and any accumulated impairment losses.

Expenditure on internally developed software is recognised as an asset when the Group is able to demonstrate its intention and ability to complete the development and use the software in a manner that will generate future economic benefits, and can reliably measure the costs to complete the development. The capitalised costs of internally-developed software include all costs directly attributable to developing the software and capitalised borrowing costs, and are amortised over its useful life. Internally-developed software is stated at capitalised cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

# Research and development costs

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
- Its intention to complete and its ability to use or sell the asset.
- The asset will generate future economic benefits.
- The availability of resources to complete the asset.
- The ability to measure reliably the expenditure during development.
- The ability to use the intangible asset generated.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses.

As at the reporting date, the Group does not have development costs capitalised as an internally-generated intangible asset.

# 43 Due to banks

# ACCOUNTING POLICY

These represent call money borrowings, credit balances in Nostro Accounts and borrowings from banks. Subsequent to initial recognition, these are measured at amortised cost using the EIR method. Interest paid/payable on these borrowings is recognised in profit or loss.

	GR	OUP	BANK		
As at December 31,	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000

(\*) Securities sold under repurchase (Repo) agreements are shown on the face of the Statement of Financial Position except for the Repos with banks.

The maturity analysis of due to banks is given in Note 60 on pages 380 and 381.

# **44** Derivative financial liabilities

#### ACCOUNTING POLICY

#### Derivative financial liabilities – Held for trading

Derivative financial liabilities are classified as held for trading. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships. Derivatives embedded in financial liabilities are treated separately and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract, a separate instrument with the same terms as embedded derivative would meet the definition of derivative and the host contract is not itself held for trading or designated at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value in the trading portfolio with changes in fair value recognised in the profit or loss.

Derivatives are recorded at fair value with corresponding gains or losses are recognised in net gains/(losses) on trading in the Income Statement.

	GRO	BANK		
As at December 31,	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000

## **45** Financial liabilities at amortised cost – Due to depositors

### ACCOUNTING POLICY

These include non-interest-bearing deposits, savings deposits, term deposits, deposits payable at call, and certificates of deposit. Subsequent to initial recognition deposits are measured at amortised cost using the EIR method, except where the Group designates liabilities at fair value through profit or loss. Interest paid/payable on these deposits is recognised in "Interest expense" in the Income Statement.

1% increase in discount rate	(11,751)	
1% decrease in discount rate	13,322	
1% increase in salary	13,638	
1% decrease in salary	(12,222)	

## 48.3 Provision for unfunded pension scheme

An actuarial valuation of the unfunded pension liability was carried out as at December 31, 2023 by Mr M Poopalanathan, AIA, of Messrs Actuarial & Management Consultants (Pvt) Ltd., a firm of professional actuaries. The valuation method used by the actuary to value the liability is the "Projected Unit Credit Method (PUC)", the method recommended by the Sri Lanka Accounting Standard – LKAS 19 on "Employee Benefits".

Type of assumption	Criteria	Description
Demographic	Mortality – in service	A 1967-70 Mortality table issued by the Institute of Actuaries
	After retirement	A (90) Annuities table (Males & Females) issued by the Institute of Actuaries
	Staff turnover	The staff turnover rate at an age represents the probability of an active employee leaving within one year of that age due to reasons other than death, ill health and normal retirement. Staff turnover rates used in this valuation have been determined based on the staff turnover statistics of the Bank.
	Disability	Assumptions similar to those used in other comparable schemes for disability were used as the data required to do a "scheme specific" study was not available.
		Disability rates used in this valuation : 10.00% of Mortality table
	Normal retirement age	55 to 60 years as opted by employees.
Financial	Rate of discount	In the absence of a deep market in long term bonds in Sri Lanka, a long term interest rate of 13.00% p.a. (2022 – 18.00% p.a.) has been used to discount future liabilities considering anticipated long term rate of inflation.
	Salary increases	A salary increment of 12.00% p.a. (2022 – 16.00% p.a.) has been used in respect of the active employees.
	Post retirement pension increase rate	There is no agreed rate of increase even though the pension payments are subject to periodic increases, and increases are granted solely at the discretion of the Bank. Therefore, no specific rate of increase was assumed for this valuation.

Total	850,811	865,917

#### 48.5.4 Defined Contribution Plans

#### 48.5.4 (a) Defined Contribution Plan – Pension Fund 2006

During 2006, the Bank restructured its pension scheme which was a Defined Benefit Plan (DBP) to a Defined Contribution Plan (DCP). This restructured plan was offered on a voluntary basis to the eligible employees of the Bank. The scheme provided for lump sum payments instead of commuted/monthly pension to the eligible employees at the point of their separation, in return for surrendering their pension rights. The lump sum offered consisted of a past service package and future service package. The cost to be incurred on account of the past service package in excess of the funds available in the pension fund was borne by the Bank in 2006.

The future service package includes monthly contributions to be made by the Bank for the employees who accepted the offer, to be made during their remaining period of service, at predetermined contribution rates to be applied on their salaries, estimated to increase for this purpose at 10.00% p.a. In addition, interest to be earned on the assets of the DCP is also allocated to the employees who joined the restructured scheme.

#### 48.5.4 (b) Defined Contribution Plan – Pension Fund 2020

The Bank converted its gratuity scheme of Sri Lankan operations, which was a Defined Benefit Plan (DBP), to a Defined Contribution Plan (DCP) during the year 2020. Refer Note 7.8.2.4 for further details on page no. 298.

## 50 Subordinated liabilities

#### ACCOUNTING POLICY

These represent the funds borrowed by the Group for long-term funding requirements. Subsequent to initial recognition these are measured at their amortised cost using the EIR method, except where the Group designates them at fair value through profit or loss. Interest paid/payable is recognised in profit or loss.

(\*) The Bank announced a debenture issue in July 2023 to issue 60,000,000 Basel III compliant - Tier II, listed, rated, unsecured, subordinated, redeemable debentures of Rs. 100/- each, with a nonviability conversion feature amounting to Rs. 6 Bn. with an option to issue up to a further 60,000,000 debentures amounting to Rs. 6 Bn. This debenture issue was opened for investors on December 12, 2023, and initial issue was oversubscribed on the same day. The allotment and the listing of debentures were concluded on December 20, 2023, and December 29, 2023, respectively.

The quantum of funds raised through the above Debenture Issue was/will be utilised to achieve the following objectives as stipulated in the prospectus.

- (a) Improve the Tier II capital base thus, increasing the Capital Adequacy Ratio (CAR)
- (b) Reduce maturity gaps in the assets and liabilities of the Bank
- (c) Expand the lending portfolio

As stated in the prospectus, the following table indicates utilisation of funds raised through the above debentures.

Objective number	Objective as per prospectus	Amount allocated as per prospectus	Proposed date of utilisation as per prospectus	Amount allocated from proceeds (A)	% of total proceeds	Amounts utilised (B)	% of utilisation against allocation (B/A)	Clarification if not fully-utilised including where the funds are invested (eg: whether lent to related party/s etc.)

The shares of Commercial Bank of Ceylon PLC are quoted on the Colombo Stock Exchange. The non-voting ordinary shares of the Bank, rank *pari passu* in respect of all rights with the ordinary voting shares of the Bank except voting rights on Resolutions passed at General Meetings.

The holders of ordinary shares are entitled to receive dividends declared from time to time and holders of voting ordinary shares are entitled to one vote per share at General Meetings of the Bank.

The Bank has offered employee share option plans.  $\square$  Refer Note 52 on page 371.

## 52 Share-based payment

#### 52.1 Description of the Share-based Payment Arrangement

As at the reporting date, the Group had the following equity settled share-based payment arrangement which was granted after January 01, 2012, the effective date of the Accounting Standard SLFRS 2 on "Share-based Payment".

### Employee Share Option Plan – 2019

The Bank obtained the approval of the shareholders at an Extraordinary General Meeting held on January 30, 2020, to introduce an Employee Share Option Plan for the benefit of all Executive Officers in Grade 1A and above by creating up to 2% of the ordinary voting shares at the rate of 0.5% shares in the first two years and 1% share in the last year over a period of three to five years, upon the Bank achieving specified performance conditions. The performance conditions include minimum performance targets over the budget and over the industry peers and the service conditions include the fulfilment of the minimum service period at vesting dates of each tranche.

Key terms and conditions related to the offer are detailed below:

		Tranches	
	Tranche I	Tranche II	Tranche III
Percentage of issue of new voting shares			
(Maximum)	0.50%	0.50%	1.00%
Date granted	January 30, 2020	January 30, 2020	January 30, 2020
Exercise price (Rs.)	91.65	85.13	87.39
Exercisable between	July 01, 2020 to June 30, 2023	October 01, 2020 to September 30, 2023	October 01, 2021 to September 30, 2024
Date of vesting	June 30, 2020	September 30, 2020	September 30, 2021
Vesting conditions	6 Months of service from the grant date and the fulfilment of performance conditions stated above for the Financial Year 2018	6 Months of service from the grant date and the fulfilment of performance conditions stated above for the Financial Year 2019	6 Months of service from the grant date and the fulfilment of performance conditions stated above for the Financial Year 2020
Number of options vested on the date of vesting			
Options granted to key management personnel	56,588	62,821	131,255
Options granted to other executive officers	4,749,197	4,743,061	11,071,741
Total options vested on the date of vesting	4,805,785	4,805,882	11,202,996
Options cancelled due to non-acceptance	(4,732,275)	(4,043,478)	-
Number of options exercised up to December 31, 2023	(73,510)	(762,404)	(239,918
Number of options to be exercised as at December 31, 2023	-	_	10,963,078

All options are to be settled by physical delivery of ordinary voting shares of the Bank. There are neither cash settlement alternatives nor the Bank has a past practise of cash settlement for these types of options.

The exercise price of each tranche is computed based on a volume-weighted average market price of the Bank's ordinary (voting) shares, during the period of thirty (30) market days, six months prior to the date of vesting.

#### 52.2 Measurement of fair value

As required by SLFRS 2 on "Share-based Payment", the fair value of the ESOP 2019 was estimated at the grant date using the Binomial Valuation Model taking into consideration various terms and conditions upon which the share options are granted.

The inputs used in measurement of fair value at the grant date of ESOP 2019 were as follows:

		Tranches	
Description of the valuation input	Tranche I	Tranche II	Tranche III
Expected dividend rate (%)	4.31	4.31	4.31
Risk free rate (%)	8.22	8.22	8.22
Probability of share price increase (%)	55.00	55.00	55.00
Probability of share price decrease (%)	45.00	45.00	45.00
Size of annual increase of share price (%)	19.00	19.00	19.00
Size of annual reduction in share price (%)	(12.00)	(12.00)	(12.00)
Original expected exercise price (Rs.)	100.22	100.74	101.45

Growths in share prices stated above have been based on evaluation of the historical volatility of the Bank's share price over past 10 years, adjusted for post-war growth in All Share Price Index (ASPI) published by the Colombo Stock Exchange.

#### 52.3 Reconciliation of outstanding share options

The number and weighted-average exercise prices of share options are as follows:

Tranche	Tranc	he I	Tranc	che II	Tranche III		
Exercise price	91.0	65	85.	.13	87.39		
Year	2023	2022	2023	2022	2023	2022	
Number of voting shares vested as at January 01,	4,732,275	4,732,275	4,410,885	4,410,885	11,197,249	11,197,249	
Granted during the year	-	-	-	-	-	-	
Exercised during the year	-	-	(367,407)	-	(234,171)	-	
Number of options expired	(4,732,275)	-	(4,043,478)	-	-	-	
Number of voting shares vested as at December 31,	-	4,732,275	-	4,410,885	10,963,078	11,197,249	

#### **Employee Share Option Plan – 2023**

The Bank obtained the approval of the shareholders at an Extraordinary General Meeting held on October 06, 2023, to introduce an Employee Share Option Plan (ESOP) for the benefit of all Executive Officers in Grade 1A and above by creating up to 3% of the ordinary voting shares at the rate of 0.5% shares in the first two years and 2% share in the last year over a period of three to five years, upon the Bank achieving specified performance conditions. The performance conditions include minimum performance targets over the budget and over the industry peers and the service conditions include the fulfilment of the minimum service period at vesting dates of each tranche. The first tranche under this ESOP will come into force from April 01, 2024.

#### 52.4 Expense recognised in Income Statement

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date, reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. Accordingly, the expense in the Income Statement represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. The Refer Note 19 on page 310.

## 52.5 Certificate from Auditors on ESOP schemes

The Bank has obtained a certification from the external auditors that the above ESOP schemes have been implemented in accordance with the requirements of the Section 5.6 of the Listing Rules of the CSE and the Special Resolutions passed at the General Meetings at which the schemes were approved by the shareholders.

## 53 Statutory reserves

### ACCOUNTING POLICY

Several statutory and voluntary reserves are maintained by the Group in order to meet various legal and operational requirements. The details of these reserves including the nature and purpose of maintaining them are given in Notes 53, 54 and 55 on pages 373 to 376.

			GRO	UP	BANK		
As at December 31,	Note	Page No.	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000

Total			13,586,534	12,079,670	12,375,906	11,352,858	

#### 53.1 Statutory reserve fund

	GRO	UP	BANK	
	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000
Balance as at January 01,	12,079,670	10,590,338	11,352,858	10,204,368
Transfers made during the year	1,852,259	1,766,584	1,023,048	1,148,490
Statutory reserve attributable to non-controlling interest	(373,145)	(277,252)	-	-
Transfers to non-distributable capital reserve	27,750	-	-	-
Balance as at December 31,	13,586,534	12,079,670	12,375,906	11,352,858

The statutory reserve fund of the Bank is maintained as per the requirements under Section 20 (1) of the Banking Act No. 30 of 1988. Accordingly, the fund is built up by allocating a sum equivalent to not less than 5% of the profit after tax, but before declaring any dividend or any profits that are transferred elsewhere until the reserve is equal to 50% of the Bank's stated capital and thereafter a further sum equivalent to 2% of such profit until the amount of the said reserve fund is equal to the stated capital of the Bank.

The balance in the statutory reserve fund of the Bank will be used only for the purposes specified in the Section 20 (2) of the Banking Act No. 30 of 1988.

#### 55.2 General reserve

#### ACCOUNTING POLICY

The Bank transfers the surplus profit, after payment of interim dividend and after retaining sufficient profits to pay final dividends proposed, from the retained earnings account to the General Reserve account. The purpose of setting up the General Reserve is to meet potential future unknown liabilities.

Balance as at December 31,	1,964,013	72,270	1,963,995	78,743

## 55.4 Foreign currency translation reserve

#### ACCOUNTING POLICY

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the Financial Statements of foreign operations.

As at the reporting date, the assets and liabilities of the Bank's Bangladesh

Operation and the foreign subsidiaries of the Bank were translated into the presentation currency (Sri Lankan Rupee) at the exchange rate ruling at the reporting date and the Statement of Profit or Loss and Other Comprehensive Income was translated at the average exchange rate for the period. The exchange differences arising on the translation of these Financial Statements are taken to foreign currency translation reserve through other comprehensive income.

Balance as at December 31,	-	36,554	-	36,554

## **56** Non-controlling interest

#### ACCOUNTING POLICY

Non-Controlling Interest (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Accordingly, the Bank has non-controlling interest in three subsidiaries namely, Commercial Development Company PLC (NCI of 10%), Commercial Insurance Brokers (Private) Limited (NCI of 40%) and Commercial Bank of Maldives Private Limited (NCI of 45%) as at the reporting date as follows:

	2023 Rs. '000	2022 Rs. '000

Balance as at December 31,	4,503,786	4,107,408

#### Commercial Bank of Ceylon PLC Annual Report 2023 377

## 57 Contingent liabilities and commitments ACCOUNTING POLICY

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be readily measured as defined in the Sri Lanka Accounting Standard – LKAS 37 on "Provisions, Contingent Liabilities and Contingent Assets".

To meet the financial needs of customers, the Bank enters into various irrevocable commitments and contingent liabilities. These consist of financial guarantees, letters of credit and other undrawn commitments to lend. Letters of credit and guarantees commit the Bank to make payments on behalf of customers in the event of a specific act, generally related to the import or export of goods. Guarantees and standby letters of credit carry a similar credit risk to loans.

In the normal course of business, the Bank makes various irrevocable commitments and incurs certain contingent liabilities with legal recourse to its customers. Contingent liabilities are not recognised in the Statement of Financial Position but are disclosed unless its occurrence is remote.

Even though these obligations may not be recognised on the Statement of Financial Position, they may contain credit risk and are therefore part of the overall risk of the Group.

## 59 Litigation against the Bank

Litigation is a common occurrence in the banking industry due to the nature of the business. The Bank has an established protocol for dealing with such legal claims. In respect of pending legal claims where the Bank had already made provisions for possible losses in its Financial Statements or has a realisable security to cover the damages are not included below as the Bank does not expect cash outflows from such claims. However, further adjustments are made to the Financial Statements if necessary on the adverse effects of legal claims based on the professional advice obtained on the certainty of the outcome and also based on a reasonable estimate.

All legal cases against the Bank have been tabled at the Board Integrated Risk Management Committee and the progress has been discussed. Accordingly, set out below are the unresolved legal claims against the Bank as at December 31, 2023 for which, adjustments to the Financial Statements have not been made due to the uncertainty of its outcome. In addition, there are cases filed against the Bank which have not been listed below since the impact on of the same is considered immaterial to the Bank's operations.

Plaintiff	Nature of the case	Courts and Case No.	Value of the Action ('000)	Description of the case	Present status
Customer	Recovery of money	Commercial High Court 52/2020 (Formerly District Court of Colombo DMR 2855/18)	Rs. 55,000	Court action has been initiated by the Plaintiff to claim 10% of the sale price deposited at a property auction held by the Bank, since the Plaintiff failed to deposit the balance 90% within 30 days of the auction.	The Cross claimed fixed for Exparte trial on May 29, 2024.
Customer	Recovery of money	Commercial High Court CHC/ 771/19/MR	Rs. 60,000	The Plaintiff has filed this action seeking an order to prevent the Bank who is the first Defendant from paying and/or disbursing funds on the five Bank Guarantees favouring the Beneficiary who is the second Defendant.	Pre-Trial on February 26, 2024.

# 61 Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by the Corporate Management Team headed by the Managing Director/Chief Executive Officer (being the chief operating decision-maker) to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available.

The Group has five strategic divisions (operating segments) which are reportable segments, namely:

- Personal Banking
- Corporate Banking
- International Operations
- Dealing/Treasury
- NBFI, Real Estate & Services

Segment performance is evaluated based on operating profits or losses which, in certain respects, are measured differently from operating profits or losses in the Consolidated Financial Statements. Income taxes are reported at the group level and are not allocated to operating segments.

The following table presents the income, profit and asset and liability information of the Group's strategic business divisions for the year ended December 31, 2023 and comparative figures for the year ended December 31, 2022.

	Personal	banking	Corporate	banking	
For the year ended December 31,	2023 Rs. '000	2022 Rs. '000	2023 Rs. '000	2022 Rs. '000

#### ACCOUNTING POLICY

The Bank carried out transactions in the ordinary course of business on an arm's length basis at commercial rates with parties who are defined as Related Parties as per the Sri Lanka Accounting Standard – LKAS 24 "Related Party Disclosures", other than, transactions that the Key Management Personnel (KMP) have availed under schemes uniformly applicable to all staff at concessionary rates.

#### 62.1 Parent and ultimate controlling party

The Bank does not have an identifiable parent of its own.

#### 62.2 Transactions with Key Management Personnel (KMP)

According to Sri Lanka Accounting Standard - LKAS 24 on "Related Party Disclosures", KMP are those persons having authority and responsibility for planning, directing and controlling the activities of the entity directly or indirectly.

#### **KMP of the Bank**

The Board of Directors of the Bank (including Executive and Non-Executive Directors) has been identified as KMP of the Bank.

#### **KMP of the Group**

As the Bank is the ultimate parent of the subsidiaries listed out in Note 1.3 on page 279, the Board of Directors of the Bank has the authority and responsibility for planning, directing and controlling the activities of the Group directly or indirectly. Accordingly, the Board of Directors of the Bank is also KMP of the Group. Therefore, officers who are only Directors of the subsidiaries and not of the Bank have been classified as KMP only for that respective subsidiary.

#### 62.2.1 Compensation to KMP

	GROUP			BANK		
For the year ended December 31,	2023 Rs. '000	2022 Rs. '000	2023 Rs. ′000	2022 Rs. '000

Post-employment benefits	9,926	70,257	9,926	70,257		
Total	261,394	339,531	250,727	331,531		

#### 62.2.2 Transactions, arrangements and agreements involving KMP and their Close Family Members (CFM)

CFM of a KMP are those family members who may be expected to influence, or be influenced by, that KMP in their dealings with the Bank. They may include KMP's domestic partner and children, children of the KMP's domestic partner and dependents of the KMP or the KMP's domestic partner. CFM too have been identified as Related Parties of the Group/Bank.

#### Introduction

As a financial intermediary, the Bank is exposed to various types of risks including credit, market, liquidity and operational risks which are inherent in the Bank's activities. Managing these risks is critical for the sustainability of the Bank which plays a pivotal role in all activities of the Bank. Risk management function strives to identify potential risks in advance, analyse them and take precautionary steps to mitigate the impact of risk whilst optimising through risk adjusted returns within the risk appetite of the Bank.

#### **Risk management framework**

The overall responsibility and oversight of the risk management framework of the Bank is vested with the Board of Directors (BOD). The Board Integrated Risk Management Committee (BIRMC), a mandatory subcommittee set up by the Board, in turn is entrusted with the development of the Bank's Risk Management Policies and monitoring of due compliance of same through the Executive Integrated Risk Management Committee (EIRMC).

The Risk Management Policies spell out the risk appetite of the Bank and has incorporated risk exposure limits and controls to monitor and adherence to the limits in force. These Policies and Systems are reviewed regularly to reflect the changing market dynamics in light of the products and services offered.

The Bank strives to inculcate a risk management culture through continuous training, work ethics and standards.

Refer Note 3.2 on page 285 for more information on the risk management framework of the Bank.

#### Integrated Risk Management Department (IRMD)

Business Units are the risk owners and have the primary responsibility for managing risk stemming from these activities. The IRMD acts as the second line of defence in managing the risk. The IRMD through Chief Risk Officer reports to the BIRMC thus ensuring its independence.

#### **Risk measurement and reporting**

The Bank uses robust risk measurement techniques in line with industry best practices. The Bank also carries out stress testing on regular basis which is a key aspect of the Internal Capital Adequacy Assessment Process (ICAAP). The risk management framework of the Bank provides an insight on the impact of extreme, but plausible scenarios on the Bank's risk profile. The results of the stress testing are reported to the EIRMC and then to the BIRMC on a periodic basis.

The Bank establishes policies, and sets limits and thresholds within the risk appetite of the Bank. These limits reflect the business strategy and market environment which the bank as well as the level of risk that the Bank is willing to accept (risk appetite). The monitoring and control mechanism therefore, is based on risk appetite of the Bank.

#### 66.1 Credit risk

The financial loss resulting from a borrower or counterparty to a financial instrument failing or delaying to meet its contractual obligations is referred to as credit risk. It arises principally from the loans and advances to banks and other customers, investments in debt securities and other financial instruments. In addition to the credit risk from direct funding exposure (i.e. on balance sheet exposure), indirect liabilities such as Letters of Credit, Guarantees etc. also would expose the Bank to credit risk.

The Bank ensures stringent credit risk management practices to manage overall elements of credit risk exposures (such as individual obligor default risk, country and sector concentration risks etc.).

## 66.1.1 Credit quality analysis

## 66.1.1 (a) Maximum exposure to credit risk by risk rating

The following tables set out information about the credit quality of financial assets measured at amortised cost, debt instruments measured at FVOCI and contingent liabilities and commitments.

As at December 31, 2023			Carrying	Not subject to ECL	Subject to			
			amount		12-month ECL (Stage 1)	not credit impaired	Lifetime ECL – credit impaired (Stage 3)

#### 66.1.2 Credit-impaired financial assets

Reconciliation of changes in the net carrying amount of lifetime ECL credit impaired (Stage 3) loans and advances as detailed below:

	2023 Rs. '000	2022 Rs. '000
Stage 3 loans and advances to other customers as at January 01,	68,361,454	44,010,435
Newly classified as impaired loans and advances during the year	39,885,302	35,938,834
Net change in already impaired loans and advances during the year	(10,827,227)	(3,775,606)
Net payment, write-off and recoveries and other movements during the year	(17,072,785)	(7,812,209)
Impaired loans and advances to customers as at December 31,	80,346,744	68,361,454

There is a set of the set of the

Details of provision for impairment for loans and advances to other customers, are detailed in Note 33 on page 326.

Set out below is an analysis of the gross and net carrying amounts of life time ECL credit impaired (Stage 3) loans and advances to other customers by risk rating.

As at December 31,	20	23	2022		
	Gross carrying amount Rs. '000	Net carrying amount Rs. '000	Gross carrying amount Rs. '000	Net carrying amount Rs. '000	
Rating 0-4: Investment grade	15,035,664	10,165,762	12,696,806	10,561,921	
Rating 5-6: Moderate risk	37,304,130	25,057,434	23,507,688	15,430,726	
Rating 7-8: High risk	34,335,606	19,713,569	24,622,313	16,284,152	
Rating 9: Extreme risk	56,888,191	25,409,979	53,912,048	26,084,655	
Total	143,563,591	80,346,744	114,738,855	68,361,454	

#### 66.1.3 Sensitivity of impairment provision on financial assets

The Bank has estimated the impairment provision on loans and advances to other customers, off balance sheet credit facilities and FCY denominated Government securities as at December 31, 2023, subject to various assumptions. The changes to such assumptions may lead to changes in the impairment provision recorded in the Statement of Financial Position.

The following table demonstrates the sensitivity of the impairment provision on loans and advances to other customers, off balance sheet credit facilities and FCY denominated Government securities of the Bank as at December 31, 2023, to a feasible change in impairment parameters.

Impairment parameters		effect on Stater e/(decrease) in			Sensitivity effect	
	Stage 1	Stage 2	Stage 3	Total	on Income Statement	
	Rs. '000	Rs. '000	Rs. '000	Rs. '000	Rs. '000	
Sensitivity of impairment provision on loans and advances to other customers and off balance sheet credit facilities						
1% increase in Marginal PD add on factor across all age buckets	111,554	128,116	-	239,670	(239,670)	
1% decrease in Marginal PD add on factor across all age buckets	(111,554)	(128,116)	-	(239,670)	239,670	
5% increase in LGD	1,729,424	2,212,697	3,265,198	7,207,319	(7,207,319)	
5% decrease in LGD (*)	(1,378,741)	(2,205,912)	(3,256,124)	(6,840,777)	6,840,777	
Probability weighted forward looking macro economic indicators (**)						
– Base case 10% increase, worst case 5% decrease and best case 5% decrease	(36,847)	(40,841)	-	(77,688)	77,688	
- Base case 10% decrease, worst case 5% increase and best case 5% increase	36,847	40,841	-	77,688	(77,688)	
Sensitivity of impairment provision on foreign currency denominated government securities						
2% increase in loss rate	N/A	3,689,292	N/A	3,689,292	(3,689,292)	
2% decrease in loss rate	N/A	(3,689,292)	N/A	(3,689,292)	3,689,292	

(\*) LGD decrease is capped at 0%, if applicable.

(\*\*) Please refer Note 18 for explanation on forward looking Macro Economic Indicators.

#### 66.1.4 Collateral held

#### Loan-to-value ratio of residential mortgage lending

The table below stratifies eligible credit exposures by ranges of loan-to-value (LTV) ratio. LTV is calculated as the ratio of the gross amount of the loan to the value of the collateral, which is used for the computation of Capital Adequacy Ratios. The value of the collateral for residential mortgage loan is based on the forced sale value determined by professional valuers.

As at December 31,		2023	20	)22	
		Composition	mposition		
	Rs. 'C	000 (%)	Rs. '000	(%)	
LTV ratio					
Less than 50%	19,593,5	10 31.29	18,404,643	26.38	
51% - 70%	15,856,3	88 25.33	17,607,065	25.23	
71% – 90%	16,215,5	57 25.90	17,951,133	25.73	
91% – 100%	1,285,4	.07 2.05	1,798,987	2.58	
More than 100% (*)	9,658,9	81 15.43	14,008,690	20.08	
Total	62,609,8	43 100.00	69,770,518	100.00	

(\*) LTV ratio of more than 100% has been arisen due to subsequent disbursements made to the borrower after the initial valuation of the property (the denominator).

The total amount mentioned above does not tally to the total of residential mortgage lending by the Bank, as some of the residential mortgage lending are not eligible to apply preferential risk weight used in the calculation of Capital Adequacy Ratio.

#### Assets obtained by taking the possession of collaterals

Repossession of collaterals is resorted to in extreme situations where action is necessitated to recover the dues. The repossessed assets are disposed, in an orderly and a transparent manner and the proceeds are used to reduce or recover the outstanding claims and the amounts recovered in excess of the dues are refunded to the customers.

#### 66.1.5 Concentration of credit risk

By setting various concentration limits under different criteria within the established risk appetite framework (i.e. single borrower/group, industry sectors, product, counterparty and country limits etc.), the Bank ensures that an acceptable level of risk diversification is maintained on an ongoing basis. These limits are continuously monitored and periodically reviewed by the Credit Policy Committee (CPC), EIRMC and BIRMC to capture the developments in the market, political and economic environment both locally and globally to strengthen the dynamic portfolio management practices Notes to the Financial Statements

and to provide an early warning signals on possible credit concentrations.

The maximum exposure to credit risk in respect of each item of financial assets in the Statement of Financial Position as at the reporting date, as per the industry sector and by geographical region of financial assets is given below:

#### 66.1.5 (b) Geographical distribution of loans and advances

The Western Province has recorded a higher percentage of lending based on geographical distribution of the Bank's lending portfolio. It has accounted for 78% (approximately) of total advances portfolio of the Bank (excluding Bangladesh operations) as at December 31, 2023. Although, Western Province is attracted with highest credit concentration, we believe that a sizable portion of these lending has been utilised to facilitate industries scattered around the country. For example, most of the large corporates which have island-wide operations are being accommodated by the Bank's branches and corporate banking division located in the Western Province thereby reflecting a fairly diversified geographical concentration as given below.

As at Decem	ber 31,	2023

Please refer Note 33 on pages 326 to 330 for the gross carrying amount of the loans and advances to other customers.

#### 66.2 Liquidity risk

66

Liquidity risk arises because of the possibility that the Bank might not be able to meet on or off-balance sheet contractual financial obligations on its payments or not receiving what is due to the Bank when they fall due, without incurring unacceptable losses. The principal objective in liquidity risk management is to assess the need for funds to meet such obligations, make sure receipt of funds when they are due and to ensure the availability of adequate funding to fulfill those needs at the appropriate time, under both normal and stressed conditions.

Therefore, the Bank continuously analyses and monitors its liquidity profile, maintains adequate levels of high quality liquid assets, ensures access to diverse funding sources and has contingency funding agreements with peer banks to meet any unforeseen liquidity requirements. Exposures, and ratios against tolerance limits as well as stressed scenarios are regularly monitored in order to identify the Bank's liquidity position and potential funding requirements.

#### Assets and Liability Management Committee (ALCO)

ALCO chaired by the Managing Director, has representatives from Treasury, Corporate Banking, Personal Banking, Risk and Finance Departments. The Committee meets fortnightly or more frequently to monitor and manage the assets and liabilities of the Bank and also the overall liquidity position to keep the Bank's liquidity at healthy levels, whilst satisfying the regulatory requirements.

#### 66.2.1 Exposure to liquidity risk

The Bank uses the key ratios given below for managing liquidity risk:

		Minimum re	equirement		
		2023	2022	2023	2022
		%	%	%	%
Liquid Assets Ratio (LAR)					
LAR calculates the percentage of liquid assets to total liabilities excluding shareholders' funds. For this purpose, "liquid assets" include cash and cash equivalents, placements with banks and Government Securities (net).	Consolidated (Sri Lankan Operation)	20.00	20.00	46.06	35.88
Liquidity Coverage Ratio (LCR)*					
This ratio determines the ability of the Bank to withstand adverse shocks	Rupee Liquidity				
(i.e. sudden withdrawal of a significant portion of deposits) by holding high	Requirement	100.00	90.00	491.61	405.91
quality liquid assets in a 30 day time span.	All-Currency Liquidity				
	Requirement	100.00	90.00	516.27	293.91
Net Stable Funding Ratio (NSFR)*					
This ratio measures the availability of Stable Funds against the Required Funds of the Bank. NSFR, requires banks to maintain a stable funding profile by creating additional incentives to fund their activities with more stable source of funding on an ongoing basis, over a longer time horizon.		100.00	90.00	193.70	173.58

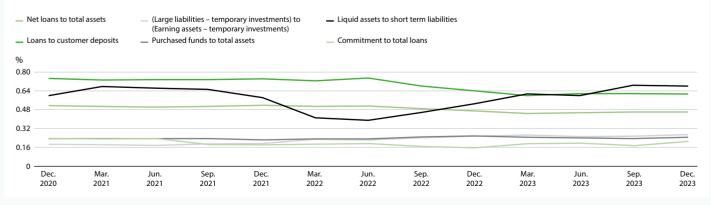

\*Details of LCR and NSFR are given in Disclosure 04 and 05 under Basel III disclosures under Pillar III on page 453.

Details of the reported LAR of liquid assets to external liabilities of the Domestic Banking Unit (DBU) and the Off-shore Banking Centre (OBC) as at reporting dates are as follows:

	Domestic B	anking Unit	Off-shore Banking Centre		
	2023 %	2022 %	2023 %	2022 %	
As at December 31,	46.40	35.01	31.06	32.37	
Average for the period	41.93	32.17	30.34	30.46	
Maximum for the period	47.00	39.68	34.57	34.49	
Minimum for the period	36.36	25.37	28.30	26.15	

The graph below depicts the trends in liquidity ratios of the Bank calculated on a quarterly basis during the period from December 2020 to December 2023:

#### 66.2.2 (b) Non-derivative financial assets and financial liabilities expected to be recovered or settled after 12 months from the reporting date

The table below sets out the carrying amounts of non-derivative financial assets and financial liabilities expected to be recovered or settled after 12 months from the reporting date:

As at December 31,	2023 Rs. '000	2022 Rs. '000
Non-derivative financial assets		
Balances with central banks	1,034,175	3,079,972
Financial assets at amortised cost – Loans and advances to other customers	382,427,884	392,676,522
Financial assets at amortised cost – Debt and other financial instruments	457,675,291	541,901,422
Financial assets measured at fair value through other comprehensive income	64,573,012	2,838,745
Total	905,710,362	940,496,661
Financial liabilities		
Non-derivative financial liabilities		
Securities sold under repurchase agreements		78,788
Financial liabilities at amortised cost – Due to depositors	85,690,098	92,694,864
Financial liabilities at amortised cost – Other borrowings	5,963,886	4,530,616
Subordinated liabilities	35,878,919	23,878,921
Total	127,532,903	121,183,189

#### 66.2.2 (c) Undiscounted cash flow of financial assets and financial liabilities – Bank

The following table shows the expected undiscounted cash flows for financial assets and financial liabilities as at December 31, 2023:

As at December 31, 2023	Up to 3 months Rs. '000	3 to 12 months Rs. '000	1 to 3 years Rs. '000	3 to 5 years Rs. '000	More than 5 years Rs. '000	Total Rs. '000
Financial assets

(\*) Market value of securities pledged as collateral is considered as encumbered.

#### 66.3 Market risk

Market risk is the risk of losses on or off-balance sheet positions arising out of movements in prices affecting foreign exchange exposures, interest rate instruments, equity/debt instruments and commodity exposures. The Bank monitors market risk in both trading and non-trading portfolios on an ongoing basis.

#### 66.3.1 Exposure to market risk - Trading and non-trading portfolio

The table below sets out the allocation of assets and liabilities subject to market risk between trading and non-trading portfolios:

As at December 31, 2023				Market risk r	neasurement
	Note	Page No.	Carrying amount Rs. '000	Trading portfolios Rs. '000	Non-trading portfolios Rs. '000
Assets subject to market risk					
Cash and cash equivalents	28	320	110,991,157	-	110,991,157
Balances with central banks	29	321	42,877,842	-	42,877,842
Placements with banks	30	321	81,344,696	-	81,344,696

Financial liabilities at amortised cost – Other borrowings	46	358	16,150,356	-	16,150,356
Subordinated liabilities	50	368	61,400,967	_	61,400,967
Total			2,071,450,204	2,880,667	2,068,569,537

#### 66.3.2 Exposure to interest rate risk – Sensitivity analysis

#### 66.3.2 (a) Exposure to interest rate risk – Non-trading portfolio

The possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments and hence expose the Bank to fluctuations of Net Interest Income (NII) give rise to interest rate risk. The Bank's policy is to continuously monitor portfolios and adopt hedging strategies to ensure that interest rate risk is maintained within prudent levels.

The tables below analyse the Bank's interest rate risk exposure on financial assets and financial liabilities. The Bank's assets and liabilities are included at carrying amounts and categorised by the earlier of contractual re-pricing or maturity dates.

As at December 31, 2023	Up to 3 months Rs. '000	3 to 12 months Rs. '000	1 to 3 years Rs. '000	3 to 5 years Rs. '000	More than 5 years Rs. '000	Non-sensitive Rs. '000	Total Rs. '000

Cumulative gap	(190,255,353)	(582,037,700)	(207,248,638)	(46,182,664)	95,416,121	131,970,868	

#### 66.3.2 (b) Exposure to interest rate risk - Non-trading portfolio

The management of interest rate risk against interest rate gap limits is supplemented by monitoring the sensitivity of the Bank's financial assets and financial liabilities to various interest rate scenarios. A fundamental reform of major interest rate benchmarks is being undertaken globally, replacing some Interbank Offered Rates (IBORs) with alternative nearly Risk-Free Rates (RFRs). The Bank actively embraced this transition in 2023, shifting towards the Secured Overnight Financing Rate (SOFR) as a primary index. As at December 31, 2022, the Bank held a portfolio of financial assets and liabilities indexed to LIBOR. In line with the industry-wide move, some of these IBOR-related indices have either stopped being provided or are no longer representative after June 30, 2023. Financial risk attached to the transition is primarily related to interest rate risk, and impact to the financial statements was insignificant as of the date of transition.

#### Interest rate shocks

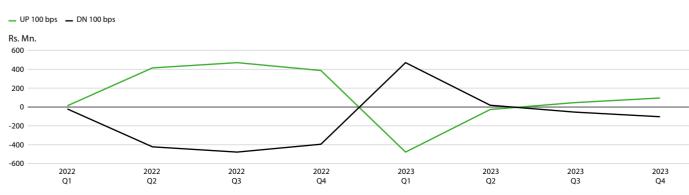

The following table demonstrates the sensitivity of the Bank's Income Statement (net impact) due to change in interest rates by 100bps on rupee denominated assets and liabilities and 25bps on FCY denominated assets and liabilities with all other variables held constant as at the reporting date.

#### Sensitivity of projected net interest income

	2	023	2022	2
Net Interest Income (NII)	Parallel increase Rs. '000	Parallel decrease Rs. '000	Parallel increase Rs. '000	Parallel decrease Rs. '000
As at December 31,	100,792	(101,013)	392,200	(392,737)
Average for the period	(18,795)	16,928	369,472	(369,892)
Maximum for the period	276,499	(276,604)	813,181	(813,616)
Minimum for the period	(576,068)	557,037	19,531	(20,281)

The impact of changes in interest rates on NII is measured applying interest rate shocks on static balance sheet. In line with the industry practices, interest rate shocks of 100 bps is applied on LKR denominated assets and liabilities and 25 bps is applied on FCY denominated assets and liabilities. The potential impact on the Bank's profitability due to changes in rupee and foreign currency interest rates is evaluated to ensure that the volatilities are prudently managed within the internal tolerance limits.

#### Graph - 77 : Impact of a rate shock on the net interest income

#### 66.3.3 Exposure to currency risk – Non-trading portfolio

Currency risk arises as a result of fluctuations in the value of a financial instrument due to changes in foreign exchange rates. The Bank has established limits on position by currency and these positions are monitored on a daily basis.

The table below indicates the currencies to which the Bank had significant exposures as at December 31, 2023 and December 31, 2022 and the exposure as a percentage of the total capital funds:

#### Foreign exchange position as at December 31, 2023

The Bank regularly carries out sensitivity analysis on Net Open Position (NOP), to assess the exposure to Foreign Exchange (FX) Risk due to possible changes in the USD/LKR exchange rate. An appropriate shock based on historical USD/LKR exchange rate is applied on the NOP which is measured against the Board approved threshold limits.

#### Graph – 78 : Sensitivity Fx Position-Impact of 1% change in Exchange Rate (Sri Lankan Operation)

66

#### 66.3.4 Exposure to equity price risk

Equity price risk arises as a result of any change in market prices and volatilities of individual equities. The Bank conducts mark-to-market calculations on a daily, guarterly and on a need basis to identify the impact due to changes in equity prices.

The table below summarises the impact (both to Income Statement and to equity) due to a change of 10% on equity prices.

		2023			2022	
	Financial assets recognised through profit or loss Rs. '000	Financial assets at fair value through other comprehensive income Rs. '000	Total Rs. '000	Financial assets recognised through profit or loss Rs. '000	Financial assets at fair value through other comprehensive income Rs. '000	Total Rs. '000
Market value of equity securities as at December 31,	2,555,173	137,086	2,692,259	2,024,806	150,566	2,175,372
Stress Level	Impact on Income Statement	Impact on OCI	Impact on equity	Impact on Income Statement	Impact on OCI	Impact on equity
Shock of 10% on equity prices (upward)	255,517	13,709	269,226	202,481	15,057	217,538
Shock of 10% on equity prices (downward)	(255,517)	(13,709)	(269,226)	(202,481)	(15,057)	(217,538)

#### 66.4 Operational risk

Operational Risk arises due to inadequate or failed internal processes, people and systems or from external events. Operational Risk events which include legal and regulatory implications could lead to financial and reputational losses to the Bank.

The operational risk management framework of the Bank has been defined under the Board approved operational risk management policy. Operational risk is managed by establishing an appropriate internal control system that requires a mechanism for segregation of related responsibilities within the Bank, and a detailed testing and verification of the Bank's overall operational systems, and achieving a full harmony between internal and external systems and establishing a fully independent backup facility for business continuity planning.

## 66.5 Capital management and Pillar III disclosures as per Basel III

#### **Objective**

The Bank is required to manage its capital, taking into account the need to meet the regulatory requirements as well as the current and future business needs, stakeholder expectations and available options for raising capital.

#### 66.5.1 Regulatory capital

Capital Adequacy Ratio (CAR) is calculated based on the CBSL directions stemming from Basel III accord. These guidelines require the Bank to maintain a CAR not less than 10.00% with minimum Tier 1 capital with buffers in relation to total risk weighted assets and a minimum total CAR with buffers of 14.00% in relation to total risk weighted assets.

As at December 31,	2023 Rs. '000	2022 Rs. '000
Common equity Tier 1 (CET1) capital after adjustments	156,847,378	154,397,407
Total common equity Tier 1 (CET1) capital	198,223,532	191,849,110
Equity capital (stated capital)/assigned capital	62,948,003	58,149,621
Reserve fund	12,375,906	11,352,858
Published retained earnings/(accumulated retained losses)	2,250,494	4,755,271
Published accumulated other comprehensive income (OCI)	9,819,529	17,440,828
General and other disclosed reserves	110,829,600	100,150,532
Unpublished current year's profit/(losses) and gains reflected in OCI		
Ordinary shares issued by consolidated banking and financial subsidiaries of the Bank and held by third parties	_	_
Total adjustments to CET1 capital	41,376,154	37,451,703
Goodwill (net)	-	-
Other intangible assets (net)	3,736,504	3,563,120
Revaluation losses of property, plant and equipment	-	-

Investment in own shares	-	-
Others (specify)	-	-
CET1 capital	156,847,378	154,397,407
Total Tier 1 capital	156,847,378	154,397,407
Total capital	207,684,979	198,689,451

#### 66.5.2 Capital allocation

The Management monitors the capital adequacy ratio on a regular basis and ensure that it operates within the internal limit set by the Bank. The allocation of capital between specific operations and activities, to a large extent, driven by optimisation of return on the capital allocated. The amount of capital allocated to each operation or activity is based primarily on regulatory capital requirements, but in some cases the regulatory requirements do not fully reflect the varying degree of risks associated with different activities. In such cases, the capital requirements may be flexed to reflect differing risk profiles, subject to the overall level of capital to support a particular operation or activity not falling below the minimum required level by the regulator.

#### 66.5.3 Pillar III disclosures as per Basel III

Disclosures under these requirements mainly include the regulatory capital requirements and liquidity, risk weighted assets, discussion on adequacy to meet current and future capital requirements of banks and linkages between financial statements and regulatory exposures. It is required to disclose the templates specified by the Central Bank of Sri Lanka as per Basel III – Minimum disclosure requirements with effective from July 01, 2017. Refer Annex 2 on pages 451 to 463.

## 67 Repurchase and reverse repurchase transactions in scripless treasury bonds and scripless treasury bills

The following additional information on repurchase and reverse repurchase transactions are disclosed as required by the "Registered Stock and Securities Ordinance and Local Treasury Bills Ordinance Direction No. 1 of 2019", issued by the Central Bank of Sri Lanka (CBSL).

#### 67.2 Haircuts for repurchase and reverse repurchase transactions

Minimum haircuts applicable for each maturity bucket as at December 31, 2023 are given below.

	Minimum	n haircut (%)
Remaining term to maturity of the eligible security	Repurchase transactions	Reverse repurchase transactions
Up to 1 year	4	4
More than 1 year and up to 3 years	6	6
More than 3 years and up to 5 years	8	8
More than 5 years and up to 8 years	10	10
More than 8 years	12	12

## 67.3 Penalties imposed on the Bank for non-compliance

No penalties have been imposed on the Bank for non compliance with the above mentioned Direction No. 01 of 2019 issued by the CBSL during the years ended December 31, 2023 & 2022.

#### 68 Events after the reporting period

No circumstances have arisen since the reporting date which would require adjustments or disclosure in the Financial Statements other than disclosed below.

#### First and final Dividend for 2023

The Bank did not declare cash dividends during the year 2023 (for the year ended December 31, 2023), in conformity with the restrictions imposed by the Central Bank of Sri Lanka on payment of cash dividends for the financial year 2023, as per the instructions given in the Banking Act Direction No. 1 of 2023, dated February 2, 2023, on "Restrictions on Discretionary Payments of Licensed Banks". Since the Financial Statements for the year 2023 are finalised and audited by the Bank's external auditors, the Board of Directors of the Bank has now recommended the payment of a first and final dividend of Rs. 6.50 per share to be paid and satisfied in the form of Rs. 4.50 per share in cash and Rs. 2.00 per share in the form of issue and allotment of new shares for both voting and non-voting ordinary shareholders' of the Bank for the year ended December 31, 2023, subject to the applicable WHT as disclosed in Note 9.3.1 on page 301.

The above first and final dividend recommended by the Board of Directors is to be approved at the forthcoming Annual General Meeting to be held on March 28, 2024 and in accordance with provisions of LKAS 10, the first and final dividend referred to above has not been recognised as a liability as at the year end as disclosed in Note 7.7 on page 297.

#### 67.1 Value of securities allocated for repurchase transactions

	BANK				
As at December 31,	2023 Rs. '000	2022 Rs. '000			
Market value of securities allocated for repurchase transactions	158,089,757	112,129,521			
Market value of securities received for reverse repurchase transactions	_	2,048,509

## Annex 1: Compliance with Governance Directions, Rules and Codes

### **Annex 1.1: Compliance with Banking Act Direction**

The Banking Act Direction No. 11 of 2007 and subsequent amendments thereto on Corporate Governance for Licensed Commercial Banks in Sri Lanka issued by the Central Bank of Sri Lanka (the Direction)

Section	Principle, compliance, and implementation	Complie
3 (1)	Responsibilities of the Board	
3 (1) (i)	The Board has strengthened the security and the soundness of the Bank in the following manner:	
a.	Setting strategic objectives and corporate values	$\bigotimes$
	The Bank's strategic objectives and corporate values are determined by the Board as set out on pages 54 to 96 and Pages 177 to 194. These are communicated to all levels of employees through structured meetings and reinforced monthly at team meetings which review performance vis-à-vis strategic goals. The corporate values are included in the Code of Conduct and Business Ethics which is communicated to all employees via hard copy and Bank's intranet, through orientation programmes and reinforced at meetings.	
э.	Approving overall business strategy including risk policy and management	$\bigotimes$
	The Board provided direction and guidance for preparation of the five year Corporate Strategic Plan from 2024-2028 which was approved by the Board after discussing related issues in detail with the Corporate Management. It is aligned to the overall Risk Strategy of the Bank through involvement of the Independent Risk Management Committee. The risk appetite of the Bank is embedded throughout the corporate plan in allocation of capital, adoption of risk matrix to measure the risk levels and in defining key performance indicators which include both quantitative and qualitative criteria. Additionally, governance and compliance are embedded into the Bank's Risk Management Policy Framework and included in the strategic goals.	-
	The Bank's Strategic Plan for 2024-2028 was approved on December 20, 2023 by the Board at a special Board meeting with the presence of all the members of Corporate Management.	
•	Risk management	Ø
	The BIRMC is tasked with approving the Bank's Risk Policy, defining the risk appetite, identifying principal risks, setting governance structures and implementing systems to measure, monitor and manage the principal risks. <i>"Risk Governance and Management"</i> on pages 232 to 258 and the "Report of the BIRMC" on pages 199 and 200 provide further insights on risk management policies and processes of the Bank.	
ł.	Communication with all stakeholders	$\checkmark$
	The Board has approved and implemented the following communication policies with stakeholders:	Ŭ
	• Shareholders – The Shareholder Communication Policy of the Bank explicitly provides for effective and timely communication to shareholders of material matters and performance. Interim Financial Statements are made available to shareholders within 45 days for the first three quarters and within 60 days for the last quarter from the end of the relevant quarter and a press release is issued providing a review of the Bank's performance on a quarterly basis. Performance of the Bank is set out in the Annual Report of the Bank which is circulated to shareholders 15 working days prior to the Annual General Meeting (AGM).	
	The AGM is the key forum for contact with shareholders and the Bank has a history of well attended AGMs where shareholders take an active role in exercising their rights. Details of attendance of the shareholders at AGMs during the past five years is given in the Table 44 on page 191.	5
	The AGM 2023 was held in the form of a physical meeting.	
	Additionally, the "Investors" page on the Bank's website contains the Interim Financial Statements and Annual Reports together with key disclosures on risk management.	
	The Bank also provides information to equity analysts to facilitate high quality information in research reports which are made available to investors by stockbrokers.	
	• Customers – Customers include, <i>inter alia</i> , depositors and borrowers. The Bank's Customer Complaint Handling Policy has been disseminated to all customer contact points in all three languages. This document outlines the policy set out by the Bank to handle customer complaints, provides contact numbers to reach the Bank as well as the Financial Ombudsman. There is a 24-hour trilingual customer hotline set up for this purpose and reports are reviewed by both the EIRMC and BIRMC.	
	<ul> <li>Staff – Employees and representatives of the trade unions are given unrestricted access to the Management to discuss their concerns. The Deputy General Manager – Human Resource Management coordinates communication between the Board and the employees.</li> </ul>	

Section	Principle, compliance, and implementation	Complied
e.	Internal control system and management information systems	$\langle \rangle$
	The Board is assisted in this regard by the BAC who reviews the adequacy and the integrity of the Bank's internal control system and management information system. The BAC has reviewed reports from the Internal Audit Department and the External Auditors in carrying out this function and also reviewed management responses on same, during the year.	U
f.	Key Management Personnel (KMP)	$\langle \rangle$
	KMP are defined in the Sri Lanka Accounting Standard – LKAS 24 on "Related Party Disclosures", as the persons who significantly influence policy, direct activities and exercise control over business activities, operations and risk management. All appointments of designated KMP are recommended by the BNGC and approved by the Board.	Ū
	For financial reporting purposes, the Board of Directors of the Bank (including Executive and Non-Executive Directors) is considered as KMP of the Bank.	
	Further, for corporate governance reporting and monitoring purposes, the Bank has also included all members of the Corporate Management into the category of KMP.	
g.	Define areas of authority and key responsibilities for Directors and KMP	$\bigotimes$
	The Board Charter sets out the matters specifically reserved for Board, defining the areas of authority and key responsibilities of the Board of Directors. Areas of authority and key responsibilities for members of the Corporate Management are stated in the job descriptions of each member.	0
h.	Oversight of affairs of the Bank by KMP	$\bigotimes$
	The Board reviews the performance of the Bank vis-à-vis the strategic plan and receives reports from its Committees on financial reporting, internal control, risk management, changes in KMP and other relevant matters delegated to the Committees.	
	Additionally, KMP make regular presentations to the Board on matters under their purview and are also called in by the Board to explain matters relating to their areas.	
i.	Assess effectiveness of own governance practices	$\bigotimes$
	Completed Board evaluation forms were received from all Board members for 2023 for review and the responses were discussed at a BNGC meeting and at a subsequent Board meeting. Matters of concern noted are followed-up and improved upon during the year to continuously improve the governance practices of the Bank.	C
j.	Succession plan for KMP	Ø
	There is a formal succession plan in place with named successors for KMP together with development plans to ensure their readiness.	-
k.	Regular meetings with KMP	$\bigotimes$
	Progress towards corporate objectives is a regular agenda item for the Board and members of the Corporate Management are regularly involved in the Board level discussions on the same. Additionally, they make key agenda items or are called in for discussions at the meetings of the Board and presentations on its Committees on policy and other matters relating to their areas on a regular basis.	
I.	Regulatory environment and maintaining an effective relationship with regulator	$\bigotimes$
	Directors are briefed about regulatory developments at Board meetings by the KMP to facilitate effective discharge of their responsibilities. Members of the BAC and the BIRMC are also briefed on regulatory developments at their meetings by the Heads of Internal Audit, Risk, and Compliance. Board members attend the Director Forums arranged by the CBSL as well.	Ŭ
m.	Hiring External Auditors	Ø
	The Bank as a practice follow a policy of rotation of auditors, once in every five years, in keeping with the principles of good corporate governance. At the end of the five-year period, quotations are called from suitable audit firms, prior to the recommendation of new auditors. In addition, External Auditors submit a statement annually confirming their independence as required by Section 163 (3) of the Companies Act No. 07 of 2007 (as amended) in connection with external audit.	
	Messrs Ernst & Young completed six consecutive years of external audit with the audit of the Financial Statements for year ended December 31, 2023. Although the Bank used to rotate the external auditor every five years, Messrs Ernst & Young was retained as the external auditor of the Bank for an additional year, considering the fact that the CBSL deployed Messrs KPMG to conduct an Asset Quality Review on the Banking Sector in the country in year 2023.	
	However, with the recommendation of the BAC Messrs KPMG will be proposed as the External Auditor of the Bank at the forthcoming AGM.	
3 (1) (ii)	Appointment of Chairman and CEO and defining and approving their functions and responsibilities	$\bigotimes$
	Positions of the Chairman and the Managing Director/Chief Executive Officer (CEO) are separated in the Board Charter to maintain a balance of power. Further, functions and responsibilities of the Chairman and the CEO are defined and approved in line with Section 3 (5) of the Direction as further explained on pages 426 and 427.	-

Section	Principle, compliance, and implementation	Complied
3 (1) (iii)	Regular Board meetings	$\langle \rangle$
	Board meetings are held each month on a regular basis and special meetings are scheduled as and when the need arises at which Directors present at the meeting and actively participate in deliberating matters set before the Board. Attendance at Board meetings is given on pages 182 and 183 together with the number of meetings of the Board. The Bank has minimised obtaining approval via circular resolutions and it is carried out only on an exceptional basis and such resolutions are ratified by the Board at the next meeting.	U
3 (1) (iv)	Arrangements for Directors to include proposals in the agenda	Ø
	Notice of Meeting is circulated two weeks prior to the meeting and Directors may submit proposals for inclusion in the agenda on discussion with the Chairman on matters relating to the business of the Bank.	
3 (1) (v)	Notice of Meetings	$\bigotimes$
	Notice of Meetings, together with the agenda and Board papers for the Board meetings are circulated to the Directors seven days prior to the meeting providing Directors adequate time to attend and submit any urgent proposals.	
3 (1) (vi)	Directors' attendance	$\bigotimes$
	The Directors are apprised of their attendance in accordance with the Direction. Details of the Directors' attendance are set out on page 183. No Director has been absent from three consecutive meetings.	
3 (1) (vii)	Appointment and setting responsibilities of the Company Secretary	$\bigotimes$
	The Board appoints and sets responsibilities of the Company Secretary in accordance with the Companies Act, Banking Act Directions, and the Articles of Association of the Bank under advisement of the BNGC. [1] Refer <i>"Role of Company Secretary"</i> on page 188 for further details.	
3 (1) (viii)	Directors' access to advice and services of the Company Secretary	$\bigotimes$
	All Board members have full access, to the advice and services of the Company Secretary to ensure that proper Board procedures are followed and all applicable rules and regulations are complied with.	
3 (1) (ix)	Maintenance of Board minutes	$\bigotimes$
	Company Secretary maintains the minutes of the Board meetings and circulates same to all Board members after review by the CEO and the Chairman. The minutes are reviewed and approved at the next Board meeting after incorporating any amendments/inclusions proposed by other Directors.	
	Additionally, the Directors have access to past Board papers and minutes through a secure electronic link.	
3 (1) (x)	Maintaining minutes with sufficient details to serve as a reference for regulators and supervisory authorities	$\bigotimes$
	The minutes of the meetings include:	
	(a) a summary of data and information used by the Board in its deliberations;	
	(b) the matters considered by the Board;	
	(c) the fact-finding discussions and the issues of contention or dissent;	
	<ul> <li>(d) the testimonies and confirmations of relevant executives with regard to the Board's strategies and policies and adherence to relevant laws and regulations;</li> </ul>	
	(e) matters regarding the risks to which the Bank is exposed and an overview of the risk management measures including reports of the BIRMC;	
	(f) the decisions and Board resolutions including reports and minutes of all Board Committees; and	
	(g) the actions to be taken by the KMP.	
3 (1) (xi)	Directors' ability to seek independent professional advice	$\bigotimes$
	Directors can obtain independent professional advice, as and when necessary, in discharging their responsibilities according to a procedure approved by the Board. This function is coordinated by the Company Secretary.	
3 (1) (xii)	Dealing with conflicts of interest	$\bigotimes$
	The Directors make declarations of their interests at appointment, annually and whenever there is a change in same. A quarterly report is sent to the Board on possible areas of conflict (if any). Directors withdraw from the meeting, abstain from participating in the discussions, voicing their opinion or approving in situations where there is a conflict of interest.	-
	Additionally, such Director's presence is disregarded in counting the quorum in such instances. Key appointments of the Directors in other entities are indicated in their profiles appearing on pages 162 to 167 and "Directors' Interest in Contracts with the Bank" as disclosed on pages 230 and 231.	

Section	Principle, compliance, and implementation	Complied
3 (1) (xiii)	Formal schedule of matters reserved for Board decision	$\bigotimes$
	The Board has put in place systems and controls to facilitate the effective discharge of Board functions.	Ŭ
	Pre set agenda of meetings ensures the direction and control of the Bank are firmly under Board's control and authority in line with regulatory codes, guidelines and international best practice.	
3 (1) (xiv)	Inform Central Bank on probable solvency issues	$\bigotimes$
	The Bank is solvent and no situations have arisen to challenge its solvency. A Board approved procedure is in place to inform the Director of Bank Supervision prior to taking any decision or action if the Bank is about to become insolvent or about to suspend payments to its depositors and other creditors.	
3 (1) (xv)	Capital adequacy	$\bigotimes$
	The Board monitors capital adequacy and other prudential measures to ensure compliance with regulatory requirements, and the Bank's defined risk appetite. The Bank is in compliance with the minimum capital adequacy requirements.	
	Refer Annex: 2 Basel III – Disclosures under Pillar III as per Banking Act Direction No. 01 of 2016 on pages 451 to 463	
3 (1) (xvi)	Publish Corporate Governance Report in this Annual Report	$\bigotimes$
	Corporate Governance Report of the Bank is set out on pages 177 to 194 of this Annual Report	
3 (1)(xvii)	Self-assessment of Directors	$\bigotimes$
	The Bank has adopted a system of self-assessment, to be undertaken by each Director, annually. Each member of the Board carried out a self-assessment of his/her own effectiveness as an individual as well as the effectiveness of the Board as a whole. Further, each Director carries out an assessment of "fitness and propriety" to serve as a Director.	
3 (2)	Board Composition	
3 (2) (i)	Number of Directors	$\bigotimes$
	As per the Direction and Articles of Association of the Bank the number of Directors should not be less than seven and not more than thirteen. The Bank's Board comprised of Twelve Directors as at December 31, 2023.	
3 (2) (ii)	Period of service of a Director	$\bigotimes$
	The period of service of a Director is limited to nine years excluding the Executive Directors as per the Direction issued to Licensed Commercial Banks. Details of their tenures of service are given on page 183.	
3 (2) (iii)	Board balance	$\bigotimes$
	There are two Executive Directors and ten NEDs which is compliant with the requirement to limit the number of Executive Directors to one-third of the total.	
3 (2) (iv)	Independent NEDs	$\bigotimes$
	The Board has ten Independent Directors which is well above the regulatory requirement to have at least one third of the total number of Directors, to be INEDs to satisfy the criteria for determining independence.	
3 (2) (v)	Alternate Directors appointed to represent an Independent Director	$\bigotimes$
	There are no Alternate Directors on the Board of the Bank.	
3 (2) (vi)	Criteria for Non-Executive Directors	$\bigotimes$
	NEDs are persons with proven track records and necessary skills and experience to bring independent judgement to bear on issues of strategy, performance and resources.	
	Directors nominate names of eminent professionals or academics from various disciplines to the BNGC who peruse the profiles and recommend suitable candidates to the Board.	
3 (2) (vii)	More than half the quorum to comprise Non-Executive Directors	$\bigotimes$
	This requirement is strictly observed and it is noteworthy that the majority of the Board are NEDs.	
3 (2) (viii)	Identify Independent Non-Executive Directors in communications and disclose categories of Directors in this Annual Report	$\bigotimes$
	The Independent NEDs are expressly identified as required in all corporate communications that disclose the names of Directors of the Bank. The composition of the Board, by category of Directors, including the names of Executive and Non-Executive Directors and Independent and Non-Independent Directors are given on page 183.	

Section	Principle, compliance, and implementation	Complied
3 (2) (ix)	Formal and transparent procedure for appointments to the Board	$\langle \rangle$
	The Board has established a BNGC, Terms of Reference of which comply with the specimen given in the Code of Best Practice on Corporate Governance. The Board has also developed a succession plan together with the BNGC to ensure the orderly succession of appointments to the Board.	Ŭ
3 (2) (x)	Election of Directors filling casual vacancies	$\bigotimes$
	All Directors appointed to the Board are subject to election by shareholders at the first AGM after their appointment.	
3 (2) (xi)	Communication of reasons for removal or resignation of Director	$\bigotimes$
	Resignations of Directors and the reasons are promptly informed to the regulatory authorities and shareholders together with a statement confirming any matters that need to be brought to the attention of shareholders.	
3 (2) (xii)	Prohibition of Directors or employees of a Bank becoming a Director of another bank	$\bigotimes$
	The Board and the BNGC take into account this requirement in their deliberations when considering appointments of Directors.	
	None of the Directors are directors or employees of any other bank registered in Sri Lanka. Ms Lee, Director of the Bank, is also on the Board of Directors of DBS Group Holdings Ltd., Singapore and DBS Bank Ltd., Singapore. The CBSL has communicated that it has no objection to the said appointment.	
3 (3)	Criteria to assess fitness and propriety of Directors	
3 (3) (i)	Age of Director should not exceed 70	$\bigotimes$
	There are no Directors who are over 70 years of age.	
3 (3) (ii)	Directors should not be Directors of more than 20 companies/entities/institutions inclusive of subsidiaries or associate companies of the Bank.	$\bigotimes$
	No Director holds directorships in excess of 20 companies/entities/institutions inclusive of subsidiaries or the associates of the Bank.	
3 (4)	Management functions delegated by the Board	
3 (4)(i)	Directors shall carefully study and clearly understand the delegation arrangements.	$\bigotimes$
3 (4) (ii)	Extent of delegation should not hinder the Board's ability to discharge its functions	$\bigotimes$
3 (4) (iii)	Review delegation arrangements periodically to ensure relevance to operations of the Bank	$\bigotimes$
	The Board reviews and approves the delegation arrangements of the Bank annually and ensures that the extent of delegation addresses the business needs of the Bank whilst enabling the Board to discharge their functions effectively. Consequently, the Board takes time to study and understand the delegation arrangements as referred to in the Section 3 (4) (i) and (ii) above.	
3 (5)	The Chairman and Chief Executive Officer	
3 (5) (i)	Separation of roles	$\bigotimes$
	There is a clear separation of duties between the roles of the Chairman and the CEO, thereby preventing unfettered powers for decision-making being vested with one person.	
3 (5) (ii)	A Non-Executive Independent Director as the Chairman or if not independent, designation of an Independent Director as the Senior Director	$\bigotimes$
	The Chairman is an Independent Non-Executive Director.	
3 (5) (iii)	Disclosure of identity of Chairman and CEO and any relationships with the Board members	$\langle \rangle$
	The identity of the Chairman and the CEO are disclosed in the Annual Report on pages 162 and 163 on Board of Directors and Profiles.	<u> </u>
	The Bank has set in place a mechanism to monitor this aspect and any development in relation to same is to be notified to the Board.	
	The Board is aware that there are no relationships whatsoever, including financial, business, family, any other material/relevant relationship between the Chairman and the CEO during the year under review. Similarly, no relationships prevail among the other members of the Board.	
3 (5) (iv)	Chairman to provide leadership to the Board	$\bigotimes$
	Board approved list of functions and responsibilities of the Chairman includes, "Providing leadership to the Board" as a responsibility of the Chairman. The Board's Annual Assessment Form includes an area to measure the "Effectiveness of the Chairman in facilitating the effective discharge of Board functions".	-
	All key and appropriate issues are discussed by the Board on a timely basis.	
3 (5) (v)	<b>Responsibility for agenda lies with the Chairman but may be delegated to the Company Secretary</b> The Company Secretary draws up the agenda for the meetings in consultation with the Chairman.	$\bigotimes$

Section	Principle, compliance, and implementation	Complied
3 (5) (vi)	<b>Ensure that Directors are properly briefed and provided adequate information</b> The Chairman ensures that the Board is sufficiently briefed and informed regarding the matters arising at Board meetings. The following procedures ensure that:	$\bigotimes$
	<ul><li>(a) Circulation of Board papers including minutes of the previous meeting, seven days prior to meeting</li><li>(b) Clarification of matters by KMP when required</li></ul>	
3 (5) (vii)	Encourage active participation by all Directors and lead in acting in the interests of the Bank This requirement is addressed in the list of functions and responsibilities of the Chairman approved by the Board.	$\bigotimes$
3 (5) (viii)	) <b>Encourage participation of Non-Executive Directors and relationships between Non-Executive and Executive Directors</b> Ten members of the Board are NEDs which creates a conducive environment for active participation by the NEDs. Additionally, NEDs chair the Committees of the Board providing further opportunity for active participation.	$\bigotimes$
3 (5) (ix)	<b>Refrain from direct supervision of KMP and executive duties</b> The Chairman does not get involved in the supervision of KMP or any other executive duties.	$\bigotimes$
3 (5) (x)	<b>Ensure effective communication with shareholders</b> The Bank historically has active shareholder participation at the AGM. At the AGM the shareholders are given the opportunity to take up matters for which clarification is needed. These matters are adequately clarified by the Chairman and/or CEO and/or any other officer. The AGM 2023 was held in the form of a physical meeting. The shareholder participation at AGMs is given on page 191 of the "Annual Corporate Governance Report".	Ø
3 (5) (xi)	CEO functions as the apex executive in charge of the day-to-day operations	$\bigotimes$
	The day-to-day operations of the Bank have been delegated to the CEO by the Board of Directors.	
3 (6)	Board appointed committees	
3 (6) (i)	Establishing Board Committees, their functions and reporting The Board has established ten committees of which six are mandatory with the remainder appointed to meet the business needs of the Bank. Pursuant to the provisions of the Banking Act Directions No. 01 of 2023 dated February 02, 2023 issued by the Central Bank of Sri Lanka (CBSL) all licensed banks are, inter alia, mandatorily obliged to establish a Board level Subcommittee to operate during the years 2023 and 2024, entrusting the responsibility of evaluating and approving, non-essential and/or non-urgent expenditure and/or capital expenditure to be incurred by the Bank, if any. Accordingly, the Bank being legally obliged, established a Board Capital Expenditure Review Committee (BCERC) to ensure compliance with the provisions of the said Direction. All the Board Committees of the Bank have its own written Terms of Reference. Each Committee has a Secretary to arrange the meetings and maintain minutes, records, etc., under the supervision of the Chairman of the Committee. The Reports of the Board Committees are given on pages 195 to 215.	Ø
	The Chairpersons of the Committees are available at the AGM to clarify any matters that may be referred to them by the Chairman.	
3 (6) (ii) a.	Board Audit Committee (BAC) Chairman of the Committee shall be an Independent Non-Executive Director who possesses qualifications and experience in accountancy and/or audit Chairman of the Committee, Mr Senanayake is an Independent Non-Executive Director with qualifications and experience in accountancy. Mr Senanayake's profile is given on page 164.	$\bigotimes$
b.	Committee to comprise solely of Non-Executive Directors	$\bigotimes$
	All members of the BAC are Independent Non-Executive Directors.	Ŭ
с.	Board Audit Committee functions         In accordance with the Terms of Reference, the BAC has made the following recommendations:         (i) the appointment of the External Auditor for audit services to be provided in compliance with the relevant statutes;         (ii) the implementation of the Central Bank Guidelines issued to Auditors from time to time;         (iii) the application of the relevant Accounting Standards; and         (iv) the service period, audit fee and any resignation or dismissal of the Auditor.         The BAC ensures that the service period of the engagement of the External Audit partner shall not exceed five years, and that the particular audit partner is not re-engaged for the audit before the expiry of three years from the date of the completion of the previous term.	Ø

Section	Principle, compliance, and implementation	Complied
d.	Review and monitor External Auditor's independence and objectivity and the effectiveness of the audit processes The Board has adopted a policy of rotation of Auditors, once in every five years, in keeping with applicable standards and	$\bigotimes$
	best practices. Please refer Section 3 (1) (i)m on "Hiring External Auditors" regarding retaining Messrs Ernst & Young for one more year, as the External Auditor.	
e.	Provision of non-audit services by External Auditor	$\bigotimes$
	The Bank had developed a comprehensive Board Approved Policy on engagement of External Auditor for Non Audit services. Following action is taken prior to the assignment of non-audit services to External Auditors by the Bank:	Ŭ
	(i) Considered whether the skills and experience of the audit firm make it a suitable provider of non-audit services	
	(ii) If the Management is of the view that the independence is likely to be impaired with the assignment of any non-audit services to External Auditors, no assignment will be made to obtain such services.	
	(iii) Further, relevant information is obtained from External Auditors to ensure that their independence is not impaired, as a result of providing any non-audit services.	
	(iv) Pre approval of the BAC and the approval of the Board is obtained prior to engagement of the External Auditor for Non Audit services as per the Policy.	
f.	Determines scope of audit	$\bigotimes$
	The Committee discussed the Audit Plan, nature and scope of the audit with External Auditors to ensure that it includes:	-
	<ul> <li>(i) an assessment of the Bank's compliance with the relevant Directions in relation to corporate governance and the Management's internal controls over financial reporting; and</li> </ul>	
	(ii) the preparation of Financial Statements for external purposes in accordance with relevant accounting principles and reporting obligations.	
	(iii) the co-ordination between the audit firms, when more than one audit firm is involved within the Group.	
g.	Review financial information of the Bank	$\bigotimes$
	The BAC reviews the financial information of the Bank, in order to monitor the integrity of the Quarterly/Annual Financial Statements, quarterly reports prepared for disclosure, Annual Report and the significant financial reporting judgements contained therein. The review focuses on the following:	U
	(i) major judgemental areas;	
	(ii) any changes in accounting policies and practices;	
	(iii) significant adjustments arising from the audit;	
	(iv) the going concern assumption; and	
	(v) compliance with relevant Accounting Standards and other legal requirements.	
	The BAC makes their recommendations to the Board on the above on a quarterly basis.	
h.	Discussions with External Auditor on interim and final audits	$\langle \rangle$
	The BAC discusses issues, problems and reservations arising from the interim and final audits with the External Auditor.	U U
	The Committee met on two occasions with the External Auditor, without the presence of executive staff of the Bank.	
i.	Review of management letter and Bank's response	$\bigotimes$
	The BAC has reviewed the External Auditor's Management Letter and the Management's response thereto.	Ű
j.	Review of internal audit function	$\langle \rangle$
-	The Annual Audit Plan prepared by the Internal Audit Department is submitted to the BAC for approval. This Plan covers the scope, functions and resource requirements relating to the Audit Plan and has the necessary authority to carry out its work.	Ŭ
	The services of four audit firms have been obtained to assist the Internal Audit Department to carry out the audit function. Prior approval of the BAC has been obtained in this regard.	
	The Committee reviewed the reports submitted by Internal Audit Department and ensures that appropriate action is taken on the recommendations.	
	The Deputy General Manager – Management Audit (DGM-MA), who leads the Internal Audit Department, reports directly to the BAC and his performance appraisal is reviewed by the BAC.	
	The BAC is to recommend any appointment, terminations/resignations of the head, senior internal audit staff members and outsourced service providers to the internal audit function.	
	The above processes ensure that audit function is independent of the activities it audits and that it is performed with impartiality, proficiency and due professional care.	
	Ensure that the Committee is appraised of resignations of senior staff members of the internal audit department including the DGM – MA and any outsourced service providers, and to provide an opportunity to the resigning senior staff members and outsourced service providers to submit reasons for resigning.	

Section	Principle, compliance, and implementation	Complied
k.	Internal investigations	$\bigotimes$
	The Committee shall consider the major findings of internal investigations and Management's responses thereto.	
l.	Attendees at Board Audit Committee meeting	$\bigotimes$
	The Chief Financial Officer, DGM-MA and a representative of the External Auditors normally attend meetings. Other Board members and Managing Director/CEO may also attend meetings upon the invitation of the Committee.	
	The Committee met with the External Auditors without the Executive Directors being present on 2 occasions during the year. Refer the <i>"Report of the BAC"</i> given on pages 195 to 198.	
m.	Explicit authority, resources and access to information	$\bigotimes$
	The Terms of Reference for the BAC includes:	
	(i) explicit authority to investigate into any matter within its Terms of Reference;	
	(ii) the resources which it needs to do so;	
	(iii) full access to information; and	
	(iv) authority to obtain external professional advice and to invite outsiders with relevant experience to attend, if necessary.	
	Refer the "Report of the BAC" on pages 195 to 198.	
n.	Regular meetings	$\langle \rangle$
	The BAC had scheduled regular quarterly meetings and additional meetings were scheduled when required. Accordingly,	U
	the Committee met 9 times during the year. Members of the BAC are served with due notice of issues to be discussed and the conclusions in discharging its duties and responsibilities are recorded in the minutes of the meetings maintained by the Secretary of the BAC.	
0.	Disclosure in Annual Report	$\langle \! \rangle$
	The "Report of the BAC" on pages 195 to 198 includes the following:	Ŭ
	(i) details of the activities of the BAC;	
	(ii) the number of BAC meetings held in the year; and	
	(iii) details of attendance of each member at such meetings.	
р.	Maintain minutes of meetings	$\langle \rangle$
	DGM-MA serves as the Secretary for the BAC and maintains minutes of the Committee meetings	Ŭ
q.	Whistle-blowing policy and relationship with External Auditor	
	The Bank has a whistle-blowing policy which has been reviewed and approved by the BAC and the Board of Directors. Board's responsibility towards encouraging communication on any non-compliance and unethical practices are addressed in the Board Charter.	
	A process is in place and arrangements are in effect to conduct a fair and independent investigation and appropriate follow-up action regarding any concerns raised by the employees of the Bank, in relation to possible improprieties in financial reporting, internal controls or other matters.	$\bigotimes$
	The BAC is the key representative body for overseeing the Bank's relations with the External Auditor and meets the External Auditor on a regular basis to discharge this function.	
3 (6) (iii)	Board Human Resources and Remuneration Committee (BHRRC)	$\bigotimes$
	Charter of the Committee	-
	The BHRRC is responsible for:	
	(a) determining the remuneration policy relating to Directors, CEO and KMP;	
	(b) setting goals and targets for the Directors, CEO and KMP; and	
	(c) evaluating performance of the CEO and KMP against agreed targets and goals and determining the basis for revising remuneration, benefits and other payments of performance-based incentives.	
	(d) The CEO attends all meetings of the Committee, except when matters relating to the CEO are being discussed.	
	Refer the <i>"Report of the BHRRC"</i> on pages 203 and 204.	

Principle, compliance, and implementation	Complied
	$\bigotimes$
The Committee has developed and implemented a procedure to appoint new Directors, CEO and the members of the Corporate Management of the Bank.	
The Committee has also developed a proactive process for planning and assessment of candidates for the succession of Executive and Non-Executive Directors, CEO and KMP appointments within the Bank, its Subsidiaries, and the Associate (the Group).	
The Committee also oversee appointment and composition of the Sharia Supervisory Board (SSB or Sharia Board) of the Bank's Islamic Banking Unit (IBU).	
The Committee is chaired by the Chairman of the Bank as at December 31, 2023 and comprises three other NEDs, who are independent. The CEO may be present at meetings by invitation. Refer the "Report of the BNGC" on pages 201 and 202.	
Re-election of Directors	$\bigotimes$
The Committee makes recommendations regarding the re-election of current Directors, considering the performance and contribution made by the Director concerned towards the overall discharge of the Board's responsibilities also considering the requirements of the Articles of Association. Refer the "Statement of Compliance" given on pages 216 to 223.	
Eligibility criteria for appointments to key managerial positions including CEO	$\bigotimes$
The Committee sets the eligibility criteria to be considered, including qualifications, experience and key attributes, for appointment or promotion to key managerial positions including the position of the CEO. The Committee considers the applicable statutes and guidelines in setting the criteria.	
Fit and proper persons	$\bigotimes$
The Committee obtains annual declarations from Directors, CEO and COO to ensure that they are fit and proper persons to hold office as specified in the criteria given in the Section 3 (3) of this Direction and as set out in the statutes. Similarly the appointment of consultants is also subject to the assessment of their fitness and propriety conduct by the Bank according to the aforementioned criteria.	
Further, the BNGC obtains declarations from KMP to ensure that they too are fit and proper persons to hold office as specified in the said Direction.	
Succession plan and new expertise	$\bigotimes$
The Committee has developed a succession plan for the Directors and KMP. The need for new expertise may be identified by the Board or its Committees and brought to the attention of the BNGC who will take appropriate action.	
Committee to be chaired by an independent Director	$\bigotimes$
The Committee was chaired by an Independent Non-Executive Director and the CEO attended the meetings by invitation.	
Board Integrated Risk Management Committee (BIRMC)	$\langle \rangle$
Composition of BIRMC	Ű
The Committee comprises NEDs, the Managing Director/CEO and the Chief Risk Officer (CRO) who serves as a non-board member. Other KMP supervising credit, market, liquidity, operational, and strategic risks are invited to attend the meetings on a regular basis.	
Risk assessment	$\bigotimes$
The Committee has approved the policies on Credit Risk Management, Market Risk Management and Operational Risk Management, which provide a framework for management and assessment of risks. Further, Internal Capital Adequacy Assessment Process is being reviewed by the Committee annually. Accordingly, monthly information on pre-established risk indicators is reviewed by the Committee in discharging its responsibilities as per the Terms of Reference.	
Refer the "Report of the BIRMC" on pages 199 and 200.	
Review of management level Committees on risk	$\bigotimes$
The Committee shall review the adequacy and effectiveness of all management level Committees such as Credit Policy Committee (CPC), Asset and Liability Management Committee (ALCO), Executive Integrated Risk Management Committee (EIRMC), Executive Committee on Monitoring NPAs (ECMN), Management Committee (MC), Product Development Committee (PDC), Executive Human Resources Steering Committee (EHRSC), Retail Channel Management Committee (RCMC), Information Security Council (ISC), Information Technology Steering Committee (ITSC), Business Continuity Management Steering Committee (BCMSC), Executive Strategy Development Committee (ESDC), and Executive Investment Committee (EIC) to assess their adequacy and effectiveness in addressing specific risks and managing them within the quantitative and qualitative risk limits specified by the Board of Directors. These limits are set out in the Risk Appetite Statement of the Bank and are reviewed by the Board on a regular basis.	
	Boad Nominations and Governance Committee (BNGC) Appointent of Directors, CEO and KMP The Committee has developed a proactive process for planning and assessment of candidates for the succession of Executive and Non-Executive Directors, CEO and KMP appointments within the Bank. Its Subdialidiris, and the Associate (the Group). The Committee has also developed a proactive process for planning and assessment of candidates for the succession of Executive and Non-Executive Directors, CEO and KMP appointments within the Bank. Its Subdialidiris, and the Associate (the Group). The Committee also oversee appointment and composition of the Sharia Supervisory Board (SSB or Sharia Board) of the Bank's Islamic Banking Unit (BU). The Committee is chaired by the Chairman of the Bank as at December 31, 2023 and comprises three other NEDs, who are independent. The CEO may be present at meetings by invitation. Refer the "Report of the BNGC" on pages 201 and 202. Re-dection of Directors The Committee makes recommendations regarding the re-election of current Directors, considering the performance and contribution made by the Director concerned towards the overall discharge of the Board's responsibilities also considering the requirements of the Articles of Association, Refer the "Statement of Compliance" given on pages 216 to 223. Eligibility criteria for appointments to key managerial positions including Qualifications, experience and key attributes, for appointment or promotion to key managerial positions including the position of the CEO. The Committee considers the applicable statutes and guidelines in setting the criteria. Fit and proper persons The Committee was specified in the criteria given in the Section 3 (3) of this Direction and as set out in the statutes. Similarly the apoontiment of consultants is also subject to the assessment of the Rines and propriety conduct by the Board according to the adromentioned criteria. Further, the BNGC obtains declarations from KMP to ensure that they too are fit and proper persons

Section	Principle, compliance, and implementation	Complied
d.	Corrective action to mitigate risks exceeding prudential levels	$\langle \rangle$
	Actual exposure levels under each risk category are monitored against the tolerance levels when preparation of "Risk Profile Dashboard" of the Bank, which is circulated among members of the BIRMC monthly and discussed in detail at quarterly meetings.	Ũ
	The Committee takes prompt corrective action to mitigate the effects of specific risks in case, such risks are at levels beyond the prudent levels decided by the Committee on the basis of the Bank's policies and regulatory and supervisory requirements.	
e.	Frequency of meetings	$\bigotimes$
	The Committee meets quarterly and schedules additional meetings when required. The agenda covers matters assessing all aspects of risk management including updated business continuity plans. The Committee met 5 times during 2023.	
f.	Actions against officers responsible for failure to identify specific risks or implement corrective action	$\bigotimes$
	The Committee refers such matters, if any, to the Human Resources Department for necessary action with observations and suggestions.	
g.	Risk Assessment Report to the Board	$\bigotimes$
	A comprehensive report of the meeting is submitted to the Board after each Committee meeting, by the Secretary of the Committee for their information, views, concurrence or specific directions.	
h.	Compliance function	$\bigotimes$
	A compliance function has been established to assess the Bank's compliance with laws, regulations, regulatory guidelines, internal controls and approved policies on all areas of business operations. This function is headed by a dedicated Compliance Officer who reports to the BAC and the BIRMC. The Compliance Officer submits a Positive Assurance Certificate on Compliance with mandatory banking and other statutory requirements on a quarterly basis to BAC and BIRMC.	
3 (7)	Related Party Transactions	
3 (7) (i)	Avoid conflict of interest	$\bigotimes$
	The BRPTRC oversees the processes relating to this subject and its Report is given on pages 205 and 206 All members of the Board are required to make declarations of the positions held with related parties at the time of appointment and annually thereafter. In the event of any change (during the year), the Directors are required to make a further declaration to the Company Secretary.	
	Directors refrain from participating at relevant sessions, in which lending to related entities Note 62 to the Financial Statements on "Related Party Disclosures" on pages 384 to 388 are discussed to avoid any kind of influence and conflict of interest.	
	Transactions carried out with related parties as defined by the Sri Lanka Accounting Standard - LKAS 24 on "Related Party Disclosures", in the normal course of business, are disclosed in Note 62 to the Financial Statements on "Related Party Disclosures" on pages 384 to 388.	
	Directors' interest in contracts, which do not fall into the definition of related party transactions as per LKAS 24, are reported separately in the Annual Report, excluded from Notes to Financial Statements. Refer page 230 for more details.	
3 (7) (ii)	Related party transactions covered by the Direction	$\langle \rangle$
	The Related Party Transactions Policy approved by the Board, covers the following transactions:	Ŭ
	(a) The grant of any type of accommodation, as defined in the Monetary Board's Directions on maximum amount of accommodation;	
	(b) The creation of any liabilities of the Bank in the form of deposits, borrowings and investments;	
	(c) The provision of any services of a financial or non-financial nature to the Bank or received from the Bank;	
	(d) The creation or maintenance of reporting lines and information flows between the Bank and any related parties, which may lead to sharing of potentially proprietary, confidential or otherwise sensitive information that may give benefits to such related parties.	
3 (7) (iii)	Prohibited transactions	$\langle \rangle$
	The Bank's Related Party Transactions Policy prohibits transactions, which would grant related parties more favourable treatment than that accorded to other customers. These include the following:	
	(a) Granting of "total net accommodation" to related parties, exceeding a prescribed percentage of the Bank's regulatory capital;	
	(b) Charging of a lower rate of interest than the Bank's best lending rate or paying more than the Bank's deposit rate for a comparable transaction with an unrelated comparable counterparty;	
	(c) Providing of preferential treatment, such as favourable terms, covering trade losses and/or waiving fees/commissions, that extend beyond the terms granted in the normal course of business undertaken with unrelated parties;	
	(d) Providing services to or receiving services from a related party without an evaluation procedure;	
	(e) Maintaining reporting lines and information flows that may lead to sharing potentially proprietary, confidential or otherwise sensitive information with related parties, except as required for the performance of legitimate duties and functions.	2

Section	Principle, compliance, and implementation	Complied
3 (7) (iv)	Granting accommodation to a Director or close relation of a Director	$\langle \rangle$
	A procedure is in place for granting accommodation to Directors or to a close relation/Close Family Member (CFM) of Directors. Such accommodation requires approval at a meeting of the Board of Directors, by not less than two-third of the number of Directors, other than the Director concerned, voting in favour of such accommodation or through circulation of papers, which require approval by all. The terms and conditions of the facility include a proviso that it will be secured by such security, as may from time to time be determined by the Monetary Board as well. Refer section on "Conflicts of Interest" on page 182 for more details.	U

### Annex 1.2: Compliance with Code of Best Practice on Corporate Governance

Compliance with the Code of Best Practice on Corporate Governance 2023 (the Code) issued by The Institute of Chartered Accountants of Sri Lanka

Code ref.	Compliance and implementation	Complied
Α.	Directors	
A.1	The Board	$\bigotimes$
	The Board of Commercial Bank comprises twelve eminent professionals drawn from multiple fields and ten out of them are NEDs. They bring diverse perspectives and independent judgement to deliberate on matters set before the Board.	
	Directors are elected by shareholders at the AGMs with the exception of the Chief Executive Officer (CEO) and the Chief Operating Officer (COO) who are appointed by the Board and remain as Executive Directors until retirement, resignation or termination of such appointment. Casual vacancies are filled by the Board based on the recommendations of the Board Nominations and Governance Committee (BNGC) as provided for in the Articles of Association. The Board is assisted by the Company Secretary.	
A.1.1	Regular meetings	$\bigotimes$
	The Board meets on a monthly basis and each Board Committee also has its own schedule of meetings as set out in the respective Committee reports. The regularity of Board meetings and the structure and process of submitting information have been agreed to and documented by the Board. Attendance at meetings is summarised in Figure 41 on page 183.	
	Information required to be reported to the Board under this Section is reported on a regular basis.	
A.1.2	Role and responsibilities of the Board	$\bigotimes$
	The roles and responsibilities of the Board are set out in the Board Charter as summarised on page 186.	Ŭ
A.1.3	Act in accordance with laws	$\bigotimes$
	The Board has an approved working procedure in place to facilitate compliance with the relevant laws, CBSL Directions and guidelines and international best practice with regard to the operations of the Bank. This includes provision to obtain independent professional advice as and when necessary by any Director coordinated through the Company Secretary.	Ŭ
A.1.4	Access to advice and services of Company Secretary	$\bigotimes$
	All Directors are able to obtain the advice and services of the Company Secretary. The appointment and removal of the Company Secretary is a matter involving the whole Board under advisement of the BNGC as it is a Key Management Position.	Ŭ
	The Bank has obtained appropriate insurance cover as recommended by the BNGC for the Board of Directors and the Members of the Corporate Management.	
	Refer Section on "Role of the Company Secretary" on page 188 for further details on role of the Company Secretary.	
A.1.5	Independent judgement	$\bigotimes$
	The Board comprises of senior professionals who are luminaries in their respective fields and use their independent judgement in discharging their duties and responsibilities on matters of strategy, performance, resource allocation, risk management, compliance, and standards of business conduct. The composition of the Board ensures that there is a sufficient balance of power and contribution by all Directors which minimises the tendency for one or a few members of the Board to dominate the Board processes or decision-making.	
A.1.6	Dedicate adequate time and effort to matters of the Board and the Company	$\bigotimes$
	Board meetings and Board Committee meetings are scheduled well in advance and the relevant papers are circulated a week prior to the meeting using electronic means to ensure that Directors have sufficient time to review the same and call for additional information or clarifications, if required. While there is provision to circulate papers closer to the meeting in exceptional circumstances, this is generally discouraged. Members of the Corporate Management Team and external experts make presentations to the Board on the business environment, regulatory changes, operations, and other developments on a regular basis to enhance the knowledge of the Board on matters relevant to the Bank's operations.	
	The NEDs dedicate approximately eighty-four days per annum for the affairs of the Bank and those Directors who are also on the BAC and the BIRMC dedicate at least further ten days each for the affairs of the Bank.	
A.1.7	If necessary in the best interest of the Bank, one-third of the Directors can call for a resolution to be presented to the Board.	$\bigotimes$
A.1.8	Board induction and training	<u> </u>
	Refer Section on "Induction and Training of Directors" on page 189.	-

Code ref.	Compliance and implementation	Complied
A.2	Separating the business of the Board from the executive responsibilities for management of the Company	$\bigotimes$
	The positions of the Chairman and the CEO have been separated in line with best practice in order to maintain a balance of power and authority. The Chairman is an Independent Non-Executive Director whilst the CEO is an Executive Director appointed by the Board. The roles of the Chairman and the CEO are clearly defined in the approved Board paper and the Board Charter.	_
A.3	Chairman's role in preserving good corporate governance	$\bigotimes$
	The Chairman provides leadership to the Board, preserving order and facilitating the effective discharge of duties of the Board and is responsible for ensuring the effective participation of all Directors and maintaining open lines of communication with KMP, acting as a sound board on strategic and operational matters. The agenda for Board meetings is developed by the Chairman in consultation with the Directors, the CEO, and the Company Secretary, taking into consideration matters relating to strategy, performance, resource allocation, risk management, and compliance. Sufficiently detailed information on matters included in the agenda is provided to the Directors on time. Both Executive Directors and NEDs ensure the balance of power on the Board, for the benefit of the Bank, by effectively participating in decision making. All Directors have been made aware of their duties and responsibilities and the Board and Committee structures. All Directors are encouraged to seek information necessary to discuss matters on the agenda. Views expressed by Directors on issues under consideration are recorded in the minutes.	
A.4	Availability of financial acumen and knowledge to offer guidance on matters of finance	$\bigotimes$
	The Chairman of the BAC who is a NED is a Fellow member of the CA Sri Lanka ensuring a sufficiency of financial acumen within the Board on matters of finance. Additionally, EDs and a NED are professionals with vast experience on matters of finance.	
A.5	Board balance	$\bigotimes$
	The Chairman is an Independent Non-Executive Director. The Board comprises of ten NEDs and two EDs facilitating an appropriate balance within the Board. NEDs are independent of management and free of business dealings that may be perceived to interfere with the exercise of their unfettered and independent judgement. They submit annual declarations to this effect which are evaluated to ensure compliance with the criteria for determining independence in line with the requirements of the applicable regulations and this Code. There are no Alternate Directors appointed to represent the Directors of the Bank.	
A.6	Provision of appropriate and timely information	$\bigotimes$
	Board members receive information regarding matters set before the Board a week prior to the meetings. The Chairman ensures that all Directors are properly briefed on same by requiring the presence of members of the Corporate Management when deemed necessary. Management also makes presentations on regular agenda items to the Board and its Committees. Additionally, the Directors have access to members of the Corporate Management to seek clarifications or additional information on matters presented to the Board. Directors who are unable to attend a meeting is updated on proceedings through formally documented minutes, which are also discussed at the next meeting to ensure follow-up and proper recording. Minutes of a meeting is ordinarily provided to Directors at least within two weeks after the meeting date.	
A.7	Appointments to the Board and re-election	$\bigotimes$
	Refer Section on "Appointments/retirements and resignations of Directors" given on page 188 and Report of the BNGC on pages 201 and 202.	
A.8	All Directors should submit themselves for re-election at regular intervals	$\bigotimes$
	Refer Section on "Re-election/election of Directors" on page 189.	
	In the event of resignation of a Director prior to completion of his/her appointed term, such resignation including reasons for decision shall be communicated in writing.	
A.9	Appraisal of Board and Board Committee performance	$\bigotimes$
	Refer Section on "Board and Board Committee Evaluations" on page 190.	
A.10	Annual Report to disclose specified information regarding Directors	$\bigotimes$
	Information specified in the Code with regard to Directors is disclosed within this Annual Report as follows:	
	Profiles including qualifications, expertise, material business interests and key appointments on pages 162 to 167.	
	Directors' Interest in contracts with the Bank on page 230.	
	Remuneration paid to Directors in Note 21 to the Financial Statements on page 311.	
	Related Party Disclosures in Note 62 to the Financial Statements on pages 384 to 388.	
	Membership of Committees and attendance at Board meetings and Committee meetings on page 183 and pages 195 to 215.	
A.11	Appraisal of the CEO	$\bigotimes$
	Refer section on "Appraisal of the CEO" on page 190.

	Compensation to KMP – Refer Note 62.2.1 to the Financial Statements on page 384.	
с.	Relations with shareholders	
C.1	Constructive use of the AGM and conduct of other General Meetings	$\bigotimes$
	The AGM provides a forum for all shareholders to participate in decision-making matters reserved for the shareholders which typically include proposals to adopt the Annual Report and Accounts, election and re-election of Directors and Auditors and other matters requiring special resolutions as defined in the Articles of Association or the Companies Act No. 07 of 2007 (as amended). Separate resolutions are proposed for each material issue. The Chairman ensures the presence of the Chairmen of the BAC, BHRRC, BNGC and BRPTRC to respond to any questions that may be directed to them. Notice of the AGM is circulated together with the Annual Report and Accounts which includes information relating to any other resolutions that may be set before the shareholders at the AGM fifteen working days in advance. The Bank ensures that all valid proxy appointments received for the AGM are counted and properly recorded.	
	A summary of the procedures governing voting at General Meetings is included under "Shareholder engagement and voting" section on page 190 of this Annual Report.	

Where a vote is required on a show of hands, the Bank will ensure that information required under the Code will be made available at the meeting and be published in the website within a month from the date of the AGM.

#### C.2 Communication with shareholders

The Shareholder Communication Policy sets out multiple channels of communication for engaging with shareholders. Channels include investor section of the website at *http://www.combank.lk/investors*, press releases and notices in English, Sinhala and Tamil newspapers and required disclosures to the CSE which are published on the CSE website. The Bank's website provides information on risk management, economy and financial markets in addition to the financial information. The Interim Financial Statements are published in English, Sinhala and Tamil newspapers within stipulated deadlines. Every effort is made to ensure that the Annual Report provides a balanced review of the Bank's performance.

The principal forum for shareholders is the AGM, while matters can also be raised through the Company Secretary. The Company Secretary keeps the Board apprised of issues raised by the shareholders to ensure that they are addressed in an appropriate manner in keeping with the corporate values of the Bank. Matters raised in writing are responded to in writing by the Company Secretary.

#### C.3 Disclosure of major and material transactions

The Shareholders Communication Policy addresses the need to disclose major and material transactions to shareholders as required by the rules and regulations of the SEC and the CSE and the Bank has in place a defined process to comply with the requirements. There were no transactions which would materially alter the Bank's or Group's net assets nor any major related party transactions apart from those disclosed as follows:

- Shareholder engagement and voting on page 190.
- Statement of Compliance on pages 216 to 223.
- Related Party Disclosures as disclosed in Note 62 to the Financial Statements on pages 384 to 388.

#### D. Accountability and audit

## D.1 Present a balanced and understandable assessment of the Company's financial position, performance, business model, governance, structure, risk management, internal controls, and challenges, opportunities and prospects

All efforts are taken to ensure that the Annual Report presents a balanced review of the Bank's financial position, performance, Business Model, Governance, Structure, Risk Management, Internal Controls, and Challenges, Opportunities and Prospects combining narrative and visual elements to facilitate readability and comprehension. Due care has been exercised to ensure that all statutory requirements are compiled within the Annual Report and the issue of interim communications on financial performance which are reviewed by the BAC and recommended prior to publication. The following disclosures as required by the Code are included in this Report:

Code ref.	Compliance and implementation	Complied
	<ul> <li>Management Discussion and Analysis – Refer pages 62 to 159.</li> <li>Annual Report of the Board of Directors – Refer pages 03 and 04.</li> <li>Statement of Compliance – Refer pages 216 to 223.</li> <li>Statement of Directors' Responsibility for Financial Reporting – Refer pages 224 and 225.</li> <li>Directors' Statement on Internal Control over Financial Reporting and Risk Management – Refer pages 226 and 227.</li> <li>Managing Directors' (Chief Everything Officer's and Chief Financial Officer's Statement of Damaging Directors' 200</li> </ul>	Ø

The Annual Report clearly explains how net assets have increased during the year in the Financial Review on pages 120 to 131.</li> </ul>	
D.2	Process of risk management and a sound system of internal control to safeguard shareholders' investments and the Company's assets	$\bigotimes$
	The Board is responsible for determining the risk appetite for achieving the strategic objectives and formulates and implements appropriate processes for risk management and internal control systems to safeguard shareholder investments and assets of the Bank. The BIRMC assists the Board in discharge of its duties with regard to risk management and the BAC assists the Board in the discharge of its duties in relation to internal control which in turn is supported by the Inspection Department. Their responsibilities are summarised in the respective Committee Reports and have been formulated with reference to the requirements of the Code and the Direction on Corporate Governance and the Bank's business needs. The BIRMC is supported by the Integrated Risk Management function of the Bank and a comprehensive report of how the Bank manages risk is given in the Section on "Risk Governance & Management" on pages 232 to 258 and the Report of the BIRMC on pages 199 and 200.	
D.3	Board Audit Committee (BAC)	$\bigotimes$
	The BAC comprises of five independent NEDs and a summary of its responsibilities and activities are given in the Report of the BAC as appearing on pages 195 to 198 It is supported by the Internal Audit function of the Bank reporting directly to the BAC. The Chairman of the Committee is Mr R Senanayake, a Fellow member of CA Sri Lanka. The Committee has also appointed Mr Yohan Perera FCA, FCMA as a Consultant to the Committee, who is invited to the meetings. Refer Report of the BAC on pages 195 to 198.	
	The Board also obtains assurance from its External Auditors on the effectiveness of internal controls on financial reporting which is given on page 228.	
D.4	Board Integrated Risk Management Committee (BIRMC)	$\bigotimes$
	The BIRMC was established in compliance with the Section 3(6) of the Direction No. 11 of 2007, to assist the Board in overseeing the risk management framework of the Bank. It particularly assist the Board oversight of determining risk appetite, identification and classification of risks, reviewing risk management outcomes and mitigation actions, process to manage ESG risks etc. The Committee comprises of 7 NEDs and 1 ED (Managing Director/Chief Executive Officer) and the Committee is chaired by Ms J Lee. The CFO who is also the Secretary to the Committee attend all meetings. CIO and other heads of Strategie Business Units participate for meetings by invitation. A summary of role, responsibilities and activities of the Committee are given in the report of the BIRMC on pages 199 and 200.	,
D.5	Board Related Party Transactions Review Committee (BRPTRC)	
	The BRPTRC Committee comprises of 4 Independent NEDs. The two EDs also attend the meetings by invitation. A summary of responsibilities and activities are given in the report of the BRPTRC on pages 205 and 206.	
	The Bank has a Board-approved Related Party Transactions Policy in place which addresses requirements under this section.	
D.6	Code of Ethics	$\bigotimes$
	The Bank has an internally-developed Code of Business Conduct and Ethics which is applicable for KMP, and all other employees. The Bank also has Board approved policy applicable to dealing in shares of the Bank which are fully compliant with the Listing Rules of the CSE.	
	The Code of Conduct of the Bank is in compliance with the requirements of the Schedule N of the Code on "Code of Business Conduct and Ethics" which encompasses conflict of interest, bribery and corruption, entertainment and gifts, accurate accounting and record-keeping, fair and transparent procurement practices, corporate opportunities, confidentiality, fair dealing, protection and proper use of Company assets including information assets, sexual harassment, discrimination and buse, compliance with laws, rules and regulations (including insider trading laws) and encouraging the reporting of any illegal, fraudulent, or unethical behaviour. Further, the Bank has a well-established whistle-blower process in order to deal with complaints received from various stakeholders in relation to non-compliance with the Bank's code of business conduct and ethics.	Ø
	Refer sections on "Code of Business Conduct & Ethics" and "Whistleblowing" on pages 192 and 193.	

Code ref.	Compliance and implementation	Complied
D.7	Corporate governance disclosures	$\bigotimes$
	The Annual Corporate Governance Report from pages 177 to 194 comply with the disclosure requirements of the Code.	U
E. & F.	Encourage voting at AGM	$\langle \rangle$
	The Bank has 15,857 ordinary voting shareholders as at end 2023, of which 660 are institutional shareholders. The Bank has regular dialogue with the large institutional shareholders and any concerns of these institutional shareholders expressed at the meetings is communicated to the Board as a whole. All shareholders are encouraged to exercise their voting powers at the AGM. The Bank facilitates the analysis of its securities by encouraging both foreign and local analysts covering the Bank with structured meetings where they are able to obtain information and explanations required for evaluating the current and future performance of the Bank, sector and country. Additionally, the investor relations section on the Bank's website has key information required by shareholders and analysts. The Interactive Annual Report also has a tab where investors can provide feedback and request for specified information.	•
	All prospectuses include a clause which require all prospective investors in shares and debentures of the Bank to seek independent professional advice before investing.	
G.	Internet of things and cyber security	$\bigotimes$
	Refer section on "Internet of things and cyber security" on page 193.	Ū
н.	Sustainability: ESG Risks and Opportunities	$\bigotimes$
	The Board considers Sustainability/ESG-related risks and opportunities in the Bank's business model, short-and medium-term planning and in its long-term strategy that could reasonably be expected to affect the Bank's prospects. The Board and the KMPs engage with and consider the views of its stakeholders to better understand and manage the Bank's Sustainability/ ESG-related risks and opportunities and have integrated sustainability/ESG related policies and practices into Bank's strategy, business model, governance and risk management.	J
	The Annual Report contains information which enables investors and other stakeholders to assess how ESG risks and opportunities are recognised, managed, measured and reported as described under following sections of the Annual Report.	
	Connecting with Stakeholders and Material Matters on pages 42 to 47.	
	Business model for sustainable value creation on pages 54 to 61.	
	Management Discussion and Analysis on pages 62 to 159.	
	Governance and Risk Management on pages 160 to 258.	
	This Annual Report has been prepared in accordance with International <ir> Framework – January 2021, GRI Guidelines, "A Preparer's Guide to Integrated Corporate Reporting", "Handbook on Integrated Corporate Reporting" and "Guideline on Non-financial Reporting" published by CA Sri Lanka.</ir>	
Ι.	Establishment and Maintenance of Policies	
I.1	Policies relating to governance are maintained by the Bank and details relating to implementation of such policies are hosted in the website. A List of such policies is given below;	To be complied
	Matters relating to the Board of Directors	on or before
	Board Committees	October 01, 2024.
	<ul> <li>Corporate Governance, Nominations and Re-election</li> </ul>	(Effective date of the
	Remuneration	related

# Summary discussion on adequacy/meeting current and future capital requirements

The Bank prepares the Corporate Plan and Budget for a period of 5 years which is rolled over every year and contains the forecast for key ratios mentioned under Basel III accord including the Capital Adequacy Ratios (CARs).

As part of the budgeting process the CARs are computed based on the movements in risk-weighted assets underlying the budgeted expansion of assets, including business volumes. The Bank has set up an internal threshold on minimum CARs and ensures that appropriate measures are taken to maintain the CARs above the said threshold in preparing the budget. The budget also captures the capital augmentation plan covering both internal and external capital sources. The Bank also takes initiatives well in advance to raise Tier I and Tier II capital as detailed in the Budget as well as in the Capital Augmentation plan. The Bank has a well established monitoring mechanism to periodically monitor the level of achievement against pre-determined targets to take timely corrective action in case of significant deviations.

Additionally, the Bank has a dynamic ICAAP process with rigorous stress testing embodied in addition to taking into consideration the qualitative aspects such as reputational and strategic risks. The ICAAP process also computes the concentration risk ensuring that the Bank has a well-diversified assets portfolio which is not overly exposed to any individual counterparty or sector. In addition ICAAP process also captures the residual risk to assess the amount of risk that remains after controls are accounted for. This process also proactively identifies the possible gaps in CARs in advance, allowing the Bank to take calculated decisions to optimise utilisation of capital.

Methods of improving the CARs are being evaluated on an ongoing basis and in extreme situations, the Bank will deliberate on strategically curtailing the expansion of risk weighted assets. However, prior to taking such decisions, the Bank will assess the impact on the internally developed thresholds of minimum CARs resulting from the short-term asset expansion plans. The Bank periodically analyses the impact of capital by product and by strategic business unit, to understand the extent of capital consumption to ensure the portfolio optimises the available capital. The Bank is committed to maintaining the internal CAR thresholds despite any leniency provided by Central Bank of Sri Lanka (CBSL) during adverse times.

The Bank has set up a separate Committee headed by the Managing Director to suggest improvements with regard to the Capital and CAR. The Committee deliberates on both internal and external improvements in optimising the utilisation of the capital. During the year, Basel Committee met 3 times and monitored the progress of the activities and suggested many initiatives to improve the utilisation of the capital.

The Bank has developed a basic RAROC framework and are in the process of fine tuning it in order to make use of the model specially when taking credit decisions. RAROC could be used as the basic hurdle rate in lending decisions.

When deciding the dividend for FY 2023. the Bank carried out numerous analysis to identify the most feasible dividend payout, while ensuring a sustainable growth for FY 2024. The dividend is proposed also ensuring the Bank maintains a quarterly CAR above the minimum thresholds as per the Basel III guidelines, taking into account the capital augmentation plans for the year 2024. In the present context since the Bank has investments in the defaulted Foreign currency bonds and therefore carries out numerous computations and analysis to identify the possible impact to the profitability and the CAR due to restructuring of the government bond portfolio. In this regard, a world renowned consultant has been appointed to assist the Bank in restructuring negotiations.

A comprehensive analysis of "Managing Funding and Liquidity: Safeguarding Monetary Fluidity" given on page 72.

#### **Disclosure 13**

#### **Bank Risk Management Approach**

Effective risk management is at the core of the Bank's value creation model as we accept risk in the normal course of business. Significant resources are devoted to this critical function to ensure that it is well articulated, communicated and understood by all employees of the Bank as it is a shared responsibility. It is a dynamic and disciplined function increasing in sophistication and subject to stringent oversight by regulators and other stakeholders. The overarching objectives are to ensure that risks accepted are in line with the Bank's risk appetite and strategic priorities and that there is an appropriate trade-off between risk and reward enabling delivery of value to key stakeholders." The risk governance structure, responsibilities attributed throughout the bank, risk management framework, objectives, strategies, policy framework, risk appetite and tolerance limits for key risk types, and the overall risk management approach of the Bank are discussed in the section on "Risk Governance and Management" on pages 232 to 258.

#### **Disclosure 14**

## Risk management related to key risk exposures

The quantitative disclosures relating to key risk areas such as credit, market, liquidity, operational, and interest rate risk in the banking book are presented and discussed in the Section on "Risk Governance and Management" on pages 232 to 258 and in Note 66 of the Financial Statements on Financial Risk Review on pages 390 to 420.

# **Annex 6: Independent Assurance Reports**

Annex 6.1: Independent Practitioner's Assurance Report to the Board of Directors of Commercial Bank of Ceylon PLC on the Sustainability Reporting Criteria Presented in the Integrated Annual Report FY 2023

Ernst & Young Chartered Accountants Rotunda Towers No. 109, Galle Road P.O. Box 101 Colombo 03, Sri Lanka : +94 11 246 3500 : +94 11 768 7869 : eysl@lk.ey.com ev.com

#### Scope

We have been engaged by Commercial Bank of Ceylon PLC to perform a 'limited assurance engagement,' as defined by Sri Lanka Standard on Assurance Engagements, here after referred to as the engagement, to report on Commercial Bank of Ceylon PLC's Economic, Environment, Social and Governance (EESG) indicators (the "Subject Matter") contained in Commercial Bank of Ceylon PLC's (the "Entity's") Integrated Annual Report/Annual Report/Sustainability Report for the year ended 31st December 2023 (the "Report").

Other than as described in the preceding paragraph, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the Report, and accordingly, we do not express a conclusion on this information.

#### Criteria applied by Commercial Bank of Ceylon PLC

In preparing the Subject Matter, Commercial Bank of Ceylon PLC applied the following criteria ("Criteria"):

 The Global Reporting Initiative's (GRI) Sustainability Reporting Guidelines, publicly available at <u>https://www.</u> globalreporting.org

Such Criteria were specifically designed for the purpose of assisting you in determining whether Entity's Economic, Environment, Social and Governance (EESG) indicators contained in the Entity's Report is presented in accordance with the relevant criteria; As a result, the subject matter information may not be suitable for another purpose.

# Commercial Bank of Ceylon PLC's responsibilities

Tel

Fax

Email

Commercial Bank of Ceylon PLC management is responsible for selecting the Criteria, and for presenting the Subject Matter in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the subject matter, such that it is free from material misstatement, whether due to fraud or error.

#### **Ernst & Young's responsibilities**

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our engagement in accordance with the Sri Lanka Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information (SLSAE 3000 (Revised), and the terms of reference for this engagement as agreed with the Commercial Bank of Ceylon PLC on March 01, 2024. Those standards require that we plan and perform our engagement to express a conclusion on whether we are aware of any material modifications that need to be made to the Subject Matter in order for it to be in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

# Our independence and quality management

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) and have the required competencies and experience to conduct this assurance engagement.

EY also applies International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services engagements, which requires that we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### **Description of procedures performed**

Procedures performed in a limited assurance engagement vary in nature and timing from and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Principals: T P M Ruberu FCMA FCCA MBA (USJ-SL), G B Goudian ACMA, Ms. P S Paranavitane ACA ACMA LLB (Colombo), D L B Karunathilaka ACMA, W S J De Silva BSc (Hons)-MIS MSc-IT, V Shakthivel B.Com (Sp)

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the subject matter and related information and applying analytical and other appropriate procedures.

Our procedures included:

- Validated the information presented and checked the calculations performed by the organisation through recalculation.
- Performed a comparison of the content given in the Report against the criteria given in the selected sustainability standards/frameworks.
- Conducted interviews with relevant organisation's personnel to understand the process for collection, analysis, aggregation and presentation of data. Interviews included selected key management personnel and relevant staff.
- Read the content presented in the Report for consistency with our overall knowledge obtained during the course of our assurance engagement and requested changes wherever required.
- Provided guidance, recommendations and feedback on the improvement of the sustainability reporting indicators to improve the presentation standard.

We also performed such other procedures as we considered necessary in the circumstances.

#### **Emphasis of matter**

Economic, Environment, Social management data/information are subject to inherent limitations given their nature and the methods used for determining, calculating and estimating such data. Such inherent limitations are common in Sri Lanka.

We also do not provide any assurance on the assumptions and achievability of prospective information presented in the Entity's Report.

#### Conclusion

Based on our procedures and the evidence obtained, we are not aware of any material modifications that should be made to the information on the Economic, Environment, Social and Governance (EESG) contained in the Integrated Annual Report of Commercial Bank of Ceylon PLC for the year ended December 31, 2023, in order for it to be in accordance with the Criteria.

## Annex 6.2: Independent Practitioner's Assurance Report to the Board of Directors of Commercial Bank of Ceylon PLC on the Integrated Annual Report 2023

Ernst & Young Chartered Accountants Rotunda Towers No. 109, Galle Road P.O. Box 101 Colombo 03, Sri Lanka : +94 11 246 3500 : +94 11 768 7869 : eysl@lk.ey.com ey.com

#### Scope

We have been engaged by Commercial Bank of Ceylon PLC to perform a 'limited assurance engagement,' as defined by Sri Lanka Standard on Assurance Engagements, here after referred to as the engagement, to report on Commercial Bank of Ceylon PLC's Information on how it's strategy, governance, performance and prospects, in the context of its external environment, lead to the creation, preservation or erosion of value over the short, medium and long term (the "Subject Matter") contained in Commercial Bank of Ceylon PLC's (the "Entity's") Integrated Annual Report for the year ended 31st December 2023 (the "Report").

Other than as described in the preceding paragraph, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the Report, and accordingly, we do not express a conclusion on this information.

#### Criteria applied by Commercial Bank of Ceylon PLC

In preparing the Subject Matter, Commercial Bank of Ceylon PLC applied the Integrated Reporting Framework (<IR> Framework) issued by the International Integrated Reporting Council (IIRC) ("Criteria"):

Such Criteria were specifically designed for the purpose of assisting in determining whether the capital management, stakeholder engagement, business model, strategy, organisational overview & external environment outlook presented in the Integrated Annual Report is presented in accordance with the relevant criteria; As a result, the subject matter information may not be suitable for another purpose.

# Commercial Bank of Ceylon PLC's responsibilities

Tel

Fax

Fmail

Commercial Bank of Ceylon PLC management is responsible for selecting the Criteria, and for presenting the Subject Matter in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the subject matter, such that it is free from material misstatement, whether due to fraud or error.

#### **Ernst & Young's responsibilities**

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our engagement in accordance with the Sri Lanka Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information (SLSAE 3000 (Revised), and the terms of reference for this engagement as agreed with the Commercial Bank of Ceylon PLC on March 01, 2024. Those standards require that we plan and perform our engagement to express a conclusion on whether we are aware of any material modifications that need to be made to the Subject Matter in order for it to be in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

# Our independence and quality management

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) and have the required competencies and experience to conduct this assurance engagement.

EY also applies International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services engagements, which requires that we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### **Description of procedures performed**

Procedures performed in a limited assurance engagement vary in nature and timing from and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Partners: D K Hulangamuwa FCA FCMA LLB (London), A P A Gunasekera FCA FCMA, Ms. Y A De Silva FCA, Ms. G G S Manatunga FCA, W K B S P Fernando FCA FCMA, B E Wijesuriya FCA FCMA, R N de Saram ACA FCMA, Ms. N A De Silva FCA, N M Sulaiman ACA ACMA, Ms. L K H L Fonseka FCA, Ms. P V K N Sajeewani FCA, A A J R Perera FCA ACMA, N Y R L Fernando ACA, D N Gamage ACA ACMA, C A Yalagala ACA ACMA

Principals: T P M Ruberu FCMA FCCA MBA (USJ-SL), G B Goudian ACMA, Ms. P S Paranavitane ACA ACMA LLB (Colombo), D L B Karunathilaka ACMA, W S J De Silva BSc (Hons)-MIS MSc-IT, V Shakthivel B.Com (Sp)

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the subject matter and related information and applying analytical and other appropriate procedures.

Our procedures included:

- Performed a comparison of the content of the Integrated Annual Report against the Guiding Principles and Content Elements given in the Integrated Reporting Framework (<IR> Framework).
- Checked whether the information contained in the Integrated Annual Report

   Financial Capital element information has been properly derived from the audited financial statements.
- Conducted interviews with the selected key management personnel and relevant staff and obtained an understanding of the internal controls, governance structure and reporting process relevant to the Integrated Report.
- Obtained an understanding of the relevant internal policies and procedures developed, including those relevant to determining what matters most to the stakeholders, how the organisation creates value, the external environment, strategy, approaches to putting members first, governance and reporting.

- Obtained an understanding of the description of the organisation's strategy and how the organisation creates value, what matters most to the stakeholders and enquiring the management as to whether the description in the Integrated Report accurately reflects their understanding.
- Checked the Board of Directors meeting minutes during the financial year to ensure consistency with the content of the Integrated Report.
- Tested the relevant supporting evidence related to qualitative & quantitative disclosures within the Integrated Report against identified material aspects.
- Read the Integrated Report in its entirety for consistency with our overall knowledge obtained during the assurance engagement.

We also performed such other procedures as we considered necessary in the circumstances.

#### **Emphasis of matter**

Economic, Environment, Social and Intellectual capital management data/ information are subject to inherent limitations given their nature and the methods used for determining, calculating and estimating such data. Such inherent limitations are common in Sri Lanka.

We also do not provide any assurance on the assumptions and achievability of prospective information presented in the Entity's Annual Report.

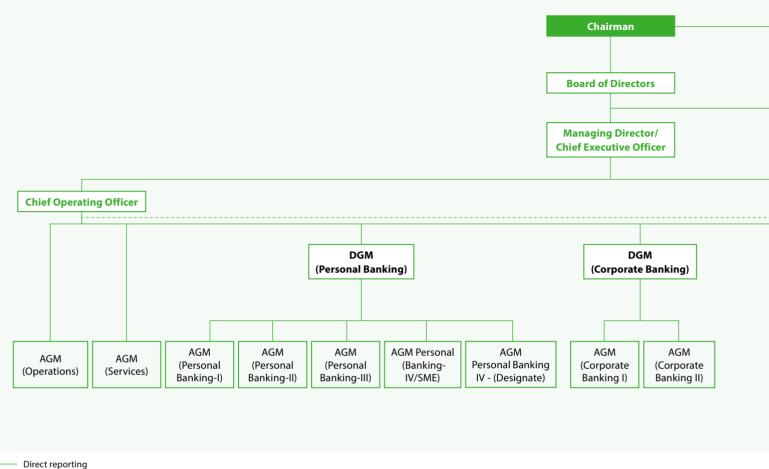

#### Conclusion

Based on our procedures and the evidence obtained, we are not aware of any material modifications that should be made to the information contained in the Integrated Annual Report of Commercial Bank of Ceylon PLC for the year ended December 31, 2023, in order for it to be in accordance with the Criteria.

# Annex 10: Glossary of financial and banking terms

#### Acceptances

Promise to pay created when the drawee of a time draft stamps or writes the word 'accepted' above his signature and a designated payment date.

#### **Accounting Policies**

The specific principles, bases, conventions, rules and practices adopted by an entity in preparing and presenting Financial Statements.

#### Amortisation

The systematic allocation of the depreciable amount of an intangible asset over its useful life.

#### **Accrual Basis**

Recognition of the effects of transactions and other events when they occur without waiting for receipt or payment of cash or cash equivalent.

#### **Actuarial Gain/Loss**

Gain or loss arising from the difference between estimates and actual experience in an entity's pension plan.

#### Associate

An entity over which the investor has significant influence.

#### **Amortised Cost**

Amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and minus any reduction for impairment or uncollectability.

## Average Weighted Deposit Rate (AWDR)

AWDR is calculated by the Central Bank monthly based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

#### Average Weighted Prime Lending Rate (AWPLR)

AWPLR is calculated by the Central Bank weekly based on commercial banks' lending rates offered to their prime customers during the week.

#### Basel III

В

The Basel Committee on Banking Supervision (BCBS) issued the Basel III rules text, which presents the details of strengthened global regulatory standards on bank capital adequacy and liquidity.

#### **Basis Point (BP)**

One hundredth of a percentage point (0.01 per cent); 100 basis points is 1 percentage point. Used in quoting movements in interest rates or yields on securities.

#### **Bills Sent for Collection**

A bill of exchange drawn by an exporter usually at a term, on an importer overseas and brought by the exporter to his bank with a request to collect the proceeds.

#### **Business Continuity Plan**

A document that consists of the critical information an organisation needs to continue operating during an unplanned event. The BCP should state the essential functions of the business, identify which systems and processes must be sustained, and detail how to maintain them. It should take into account any possible business disruption.

#### **Business Model Assessment**

Business model assessment is carried out as the first step of the financial assets classification process. Business model refers to how an entity manages its financial assets in order to generate cash flows. It is determined at a level that reflects how groups of financial assets are managed rather than at an instrument level. SLFRS 9 identifies three types of business models: "hold to collect", "hold to collect and sell" and "other". In order to determine the business model, it is necessary to understand the objectives of each business model. An entity would need to consider all relevant information including, for example, how business performance is reported to the entity's key management personnel and how managers of the business are compensated.

#### C

#### **Capital Adequacy Ratio**

The percentage of risk-adjusted assets supported by capital as defined under the framework of risk-based capital standards developed by the Bank for International Settlements (BIS) and as modified by the CBSL to suit local requirements.

#### **Correspondent Bank**

A bank in a foreign country that offers banking facilities to the customers of a bank in another country.

#### Commitments

Credit facilities approved but not yet utilised by the clients as at the reporting date.

#### **Cost/Income Ratio**

Operating expenses excluding impairment charge for loans and other losses as a percentage of total operating income.

#### **Credit Risk Mitigation**

A technique to reduce the credit risk associated with an exposure by application of credit risk mitigants such as collateral, guarantee and credit protection.

# Cost of credit risk on loans and advances

This ratio is expressed as the impairment charges on loans and advances over gross loans and advances.

#### **Capital Conservation Buffer**

Designed to ensure that banks build up buffers of capital outside any periods of stress and to avoid breaches of minimum capital requirements.

#### Cash Generating Unit (CGU)

The smallest group of assets that independently generates cash flow and the cash flow is largely independent of the cash flows generated by other assets.

#### Contingencies

A condition or situation, the ultimate outcome of which will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events.

#### **Credit Rating**

An evaluation of a corporate's ability to repay its obligations or the likelihood of not defaulting, carried out by an independent rating agency.

#### **Currency SWAPs**

The simultaneous purchase of an amount of a currency for spot settlement and the sale of the same amount of the same currency for forward settlement.

#### **Cash Equivalents**

Short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Cash Generating Unit (CGU) The smallest group of assets that independently generates cash flow and the cash flow is largely independent of the cash flows generated by other assets.

## Collectively Assessed Loan Impairment Provisions

Also known as portfolio impairment provisions. Impairment assessment on a collective basis for homogeneous groups of loans that are not considered individually significant and to cover losses that have been incurred but have not yet been identified at the reporting date.

#### **Corporate Governance**

The process by which corporate entities are governed. It is concerned with the way in which power is exercised over the management and direction of entity, the supervision of executive actions and accountability to owners and others.

#### **Credit Risk**

Risk of financial loss to the Bank, if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the loans and advances to customers and other banks and investment in debt securities.

#### Control

Control is the power over an investee, exposure, or rights, to variable returns from its involvement with the investee, and the ability to use its powers over the investee to affect the amount of the investor's returns.

## D

#### **Deferred Taxation**

Sum set aside in the Financial Statements for taxation that may become payable/ receivable in a financial year other than the current financial year. It arises because of temporary differences between tax rules and accounting conventions.

#### Delinquency

A debt or other financial obligation is considered to be in a state of delinquency when payments are overdue. Loans and advances are considered to be delinquent when consecutive payments are missed. Also known as "Arrears".

#### **De-minimis**

Features that could impact the cash flows of a financial asset by a de minimise amount both on a period by period basis and cumulatively.

#### Density ratio

Risk-weighted assets expressed as a percentage of total exposure.

#### Derecognition

Removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

#### Domestic Systemically Important Banks (D-SIBs)

Systemically Important Banks (SIBs) are perceived as banks that are "Too Big To Fail". D-SIBs are critical for the uninterrupted availability of essential banking services to the country's real economy even during crisis. The CBSL has designated LCBs with total assets equal to or greater than Rs. 500 Bn. as D-SIBs.

#### Derivatives

A derivative is a financial instrument or other contract, the value of which changes in response to some underlying variable (e.g. interest rate) that has an initial net investment smaller than would be required for other instruments that have a similar response to the variable, and that will be settled at a future date.

E

#### Earnings per Ordinary Share (EPS)

The profit attributable to ordinary shareholders divided by the number of ordinary shares in issue.

#### **Effective Interest Rate (EIR)**

Rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instruments or when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

#### **Effective Tax Rate (ETR)**

Provision for taxation excluding deferred tax expressed as a percentage of the profit before taxation.

#### **Equity Instrument**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities.

#### **Exposure at Default (EAD)**

EAD is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal & interest and expected drawdowns of committed facilities.

#### ESOP (Employee Share Ownership Plan) A method of giving employees shares in the business for which they work.

#### Equity Method

This is a method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the postacquisition changes in the investor's share of net assets of the investee. The profit or loss and other comprehensive income of the investor include the investor's share of the profit or loss and other comprehensive income of the investee.

#### Expected Credit Losses (ECLs)

ECL approach is the loan loss impairment method under SLFRS 9 on "Financial Instruments". ECLs are the discounted product of the Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD). ECL measurements are unbiased and are determined by evaluating a range of possible outcomes.

#### **Embedded Derivatives**

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand- alone derivative.

#### Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

#### **Financial Instrument**

A financial instrument is any contract that gives rise to both a financial asset in one entity and a financial liability or equity instrument in another entity.

#### **Financial Assets**

Any assets that is cash, equity instrument of another entity, a contractual right to receive cash or contractual right to receive another financial asset from another entity.

#### **Financial Liabilities**

A contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity.

#### **Finance Lease**

A lease in which the lessee acquires all financial benefits and risks attaching to ownership of the asset under lease.

## Financial Assets Measured at Fair Value through Profit or Loss (FVTPL)

All financial assets other than those classified at Amortised Cost or FVOCI are classified as measured at FVTPL. These are held for trading or managed and their performance is evaluated on a fair value basis as they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

#### **Forward Exchange Contract**

Agreement between two parties to exchange one currency for another at a future date at a rate agreed upon today.

#### Financial Assets Measured at Amortised Cost

A financial asset is measured at amortised cost if the asset is held within a business model whose objective is to hold assets to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

# Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

FVOCI include debt and equity instruments measured at fair value through other comprehensive income. A debt instrument is measured at FVOCI, if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Equity investments may be irrevocably classified as FVOCI when they meet the definition of Equity under LKAS 32 Financial Instruments: Presentation, and are not held for trading.

#### **Financial Intermediation Margin**

Used to measure the robustness of financial intermediation process, it is gross income expressed as a percentage of average total assets.

#### G

**Group** A parent and all its subsidiaries.

#### **Gross Dividend**

The portion of profits distributed to the shareholders including the tax withheld.

## Gearing in terms of on balance sheet assets

This ratio is calculated as total assets over the total equity attributable to equity holders of the Bank as at the reporting date.

#### Guarantees

Three party agreement involving a promise by one party (the guarantor) to fulfil the obligations of a person owing a debt if that person fails to perform.

## Gearing in terms of risk weighted assets

This ratio is calculated as total capital over the total risk weighted assets as per the Capital Adequacy Computation under Basel III.

#### **Global Reporting Initiatives (GRI)**

The GRI is an international independent standards organisation that helps businesses, governments and other organisations to understand and communicate their impacts on issues such as climate change, human rights and corruption. GRI promotes sustainability reporting as a way for organisations to become more sustainable and contribute to sustainable development.

## H

#### Hedging

A strategy under which transactions are effected with the aim of providing cover against the risk of unfavourable price movements (interest rate, foreign exchange rate, commodity prices, etc.).

#### High Quality Liquid Assets (HQLA)

Assets that are unencumbered, liquid in markets during a time of stress and, ideally, be central bank eligible. These include, for example, cash and claims on central governments and central banks.

#### **Historical Cost**

Historical cost is the original nominal value of an economic item.

## Impaired Loans

Loans where the Group does not expect to collect all the contractual cash flows or expects to collect them later than they are contractually due.

#### **Interest Cover**

A ratio showing the number of times interest charges is covered by earnings before interest and tax.

#### **Interest Spread**

Represents the difference between the average interest rate earned on interest earning assets and the average interest rate paid on interest-bearing liabilities.

#### Impaired Loans (Stage 3) Ratio (%)

This ratio shall be calculated by dividing impaired loans (Stage 3) net of Stage 3 impairment, by total loans. (Including undrown amounts.)

#### Impairment

This occurs when recoverable amount of an asset is less than its carrying amount.

#### Intangible Asset

An intangible asset is an identifiable nonmonetary asset without physical substance.

#### Impairment Charge/(Reversal)

An increase/(decrease) of the difference between the carrying value of an asset and the sum of discounted future cash flows generating from the same asset compared to the previous reporting date.

#### Impairment (Stage 3) to Stage 3 Loans Ratio (%)

This ratio shall be calculated by dividing impairment charge (Stage 3), by Stage 3 loans. With respect to computation of above ratios, impaired loans (Stage 3) and total loans shall include total outstanding amount of on-balance sheet credit facilities and their respective undrawn amounts.

#### **Impairment Allowances**

Impairment allowances are provisions held on the Statement of Financial Position as a result of the raising of a charge against profit for the incurred loss. An impairment allowance may either be identified or unidentified and individual (specific) or collective (portfolio).

#### **Interest Rate SWAP**

An agreement between two parties (known as counterparties) where one stream of future interest payments is exchanged for another stream of future interest payments based on a specified principal amount.

#### **Investment Properties**

Property (land or a building – or part of a building – or both) held (by the owner or by the lessee under a finance lease) to earn rentals or capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative services; or sale in the ordinary course of business.

#### Kasula

#### **Knowledge Capital**

Knowledge capital is the intangible value of an organisation made up of its knowledge, relationships, learned techniques, procedures, and innovations. In other words, knowledge capital is the full body of knowledge an organisation possesses.

#### **Key Performance Indicators (KPIs)**

A set of quantifiable measurements used to gauge a company's overall long-term performance. KPIs specifically help determine a company's strategic, financial, and operational achievements, especially compared to those of other businesses within the same sector.

#### Key Management Personnel (KMP)

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director (whether Executive or otherwise) of that entity.

#### Leverage Ratio

A leverage ratio is any one of several financial measurements that look at how much capital comes in the form of debt (loans) or assesses the ability of a company to meet its financial obligations.

#### Loss given default (LGD)

LGD is the percentage of an exposure that a lender expects to lose in the event of obligor default.

## Lessee's incremental borrowing rate (IBR)

The rate of interest that a lessee would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

#### Liquidity Coverage Ratio - LCR

Refers to highly liquid assets held by Banks to meet short-term obligations. The ratio represents a generic stress scenario that aims to anticipate market-wide shocks.

#### Lifetime Expected Credit Losses (LTECL)

Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. According to SLFRS 9 on "Financial instruments", the ECL allowance should be based on LTECL unless there has been no significant increase in credit risk since origination.

#### Loan-to-value ratio (LTV)

The LTV ratio is a mathematical expression which expresses the amount of a first mortgage lien as a percentage of the total appraised value of real property. The LTV ratio is used in determining the appropriate level of risk for the loan and therefore the correct price of the loan to the borrower.

## Μ

#### Market Capitalisation

The value of an entity obtained by multiplying the number of ordinary shares in issue by its market value as at a date.

#### Market Risk

This refers to the possibility of loss arising from changes in the value of a financial instrument as a result of changes in market variables such as interest rates, exchange rates, credit spreads and other asset prices.

#### **Market Risk Premium**

The market risk premium is the difference between the expected return on a market portfolio and the risk-free rate. The market risk premium is equal to the slope of the security market line (SML), a graphical representation of the capital asset pricing model (CAPM).

Ν

#### Non-Controlling Interest (NCI)

Equity in a Subsidiary not attributable, directly or indirectly, to a parent.

#### **Nostro Account**

A bank account held in a foreign country by a domestic bank, denominated in the currency of that country. Nostro accounts are used to facilitate the settlement of foreign exchange trade transactions.

#### **Net Interest Margin (NIM)**

The margin is expressed as net interest income divided by average interest earning assets.

#### Net Assets Value per Share (NAV)

Shareholders' funds excluding preference shares, if any, divided by the number of ordinary shares in issue.

#### Net Interest Income (NII)

The difference between the amount a bank earns on assets such as loans and securities and the amount it pays on liabilities such as deposits, refinance funds and interbank borrowings.

#### Net Stable Funding Ratio (NSFR)

Measures the amount of longer-term, stable sources of funding employed

by a bank relative to the liquidity profiles of the assets funded and the potential for contingent calls on funding liquidity arising from off-balance sheet commitments and obligations.

#### Open Credit Exposure Ratio

Total net non-performing loans and advances expressed as a percentage of regulatory capital base.

#### **Operational Risk**

0

This refers to the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

#### **Off-balance Sheet Transactions**

Transactions that are not recognised as assets or liabilities in the Statement of Financial Position, which give rise to the commitment and contingencies in future.

#### Price to Book Value

Ρ

Market price of a share divided by the net assets value of a share.

#### **Provision Cover**

Total provisions for loan losses expressed as a percentage of net non-performing loans and advances before discounting for provisions on non-performing loans and advances.

#### Price Earnings Ratio (P/E Ratio)

Market price of a share divided by the earnings per share.

#### Probability of Default (PD)

PD is an internal estimate for each borrower grade of the likelihood that an obligor will default on an obligation.

#### Projected Unit Credit Method (PUC)

An actuarial valuation method that sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method).

Prudence Inclusion of a degree of caution in the exercise of judgment needed in making the estimates required under conditions of uncertainty, such that assets or income are not overstated and liabilities or expenses are not understated.

## R –

#### **Related Parties**

One party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, directly or indirectly.

#### **Repurchase Agreement**

Contract to sell and subsequently repurchase securities at a specified date and price.

#### **Right-of-Use Asset (RUA)**

An asset that represents a lessee's right to use an underlying asset for the lease term.

#### **Related Party Transaction (RPT)**

RPT is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

#### **Return on Average Assets (ROA)**

Profit after tax expressed as a percentage of the average assets.

#### **Return on Average Equity (ROE)**

Net profit attributable to owners expressed as a percentage of average ordinary shareholders' equity.

#### **Reverse Repurchase Agreement**

Transaction involving the purchase of securities by a bank or a dealer and resale back to the seller at a future date at a specified price.

#### **Risk-Weighted Assets**

The sum total of assets as per the Statement of Financial Position and the credit equivalent of assets that are not on the Statement of Financial Position multiplied by the relevant risk-weighting factors.

#### **Risk Appetite**

It can be described as an organisation's risk capacity, or the maximum amount of residual risk it will accept after controls and other measures have been put in place.

#### S

#### Segment Reporting

Disclosure of the Bank's assets, income and other information, broken down by activity and geographical area.

#### Subsidiary

An entity that is controlled by another entity.

#### Shareholders' Funds

Total of issued and fully paid share capital and revenue reserves.

#### Significant Increase in Credit Risk (SICR)

According to SLFRS 9, an entity should assess whether the risk of default on a financial instrument has increased

significantly since initial recognition. The assessment should consider reasonable and supportable information that is relevant and available without undue cost or effort. There is a rebuttable presumption in the Standard that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due.

#### Substance over Form

The consideration that the accounting treatment and presentation of Financial Statements of transactions and events should be governed by their substance and financial reality and not merely by legal form.

#### **SPPI Test**

Solely payments of Principal and Interest Test (SPPI) is carried out as the second step of the classification process. "Principal" is defined as the fair value of the financial asset at initial recognition and may change due to repayments of principal or amortisation of the premium or discount.

"Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding. If a financial asset passes the SPPI test, then it will either be classified at amortised cost if the "hold to collect" business model test is met, or at Fair Value Through Other Comprehensive Income (FVOCI) if the hold to collect and sell" business model test is met. If a financial asset fails the SPPI test it must be classified at Fair Value Through Profit or Loss (FVTPL) in its entirety.

T

#### Tier 1 Capital (Common Equity Tier 1 – CET 1)

Common Equity Tier 1 (CET1) is a component of Tier 1 capital that consists mostly of Stated Capital. It is a capital measure that was introduced as a precautionary measure to protect the economy from a financial crisis.

#### Tier 1 Capital (Additional Tier 1 Capital – AT 1)

Additional Tier 1 Capital (AT1) is a component of Tier 1 capital that comprises securities that are subordinated to most subordinated debt, which have no maturity, and their dividend can be cancelled at any time.

#### **Tier 2 Capital**

Capital representing revaluation reserves, general provisions and other capital

instruments, which combine certain characteristics of equity and debt such as hybrid capital instruments and subordinated term debts.

## Twelve Month Expected Credit Losses (12 Month ECL)

The portion of lifetime expected credit losses that represent the expected credit losses that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

#### U

#### Unit Trust

An undertaking formed to invest in securities under the terms of a trust deed.

#### **Useful Life**

The period over which an asset is expected to be available for use by an entity or the number of production or similar units expected to be obtained from the asset by an entity.

#### **Unsystematic Risk**

Unsystematic risk is unique to a specific company or industry. Also known as "nonsystematic risk", "specific risk", "diversifiable risk" or "residual risk", in the context of an investment portfolio, unsystematic risk can be reduced through diversification.

#### Yield to Maturity (YTM)

Discount rate at which the present value of future cash flows would equal the security's current price.

#### **Yield Curve**

A yield curve is a line that plots yields (interest rates) of bonds having equal credit quality but differing maturity dates. The slope of the yield curve gives an idea of future interest rate changes and economic activity. There are three main types of yield curve shapes: normal (upward sloping curve), inverted (downward sloping curve) and flat.

# Notice of Meeting – Annual General Meeting

#### NOTICE IS HEREBY GIVEN THAT the

Fifty-Fifth (55th) Annual General Meeting ('AGM') of the Commercial Bank of Ceylon PLC (the 'Company') will be held on Thursday, March 28, 2024 at 2.30 p.m. at the Galadari Hotel, 'Grand Ballroom', No. 64, Lotus Road, Colombo 01, for the following purposes:

- 1. To receive and consider the Annual Report of the Board of Directors on the affairs of the Company, the Statement of Compliance and the Financial Statements for the year ended December 31, 2023 together with the Report of the Auditors thereon.
- To declare a dividend as recommended by the Board of Directors and to consider and if thought fit, to pass the following resolutions:
  - Declaration of a first and final dividend and approval of its method of satisfaction [Dividend Resolution No. 1]: To consider and if thought fit to pass the following resolution by way of an Ordinary Resolution. [To be passed only by the ordinary (voting) shareholders].

THAT a first and final dividend of Rs. 6.50 per issued and fully paid ordinary (voting) and (non-voting) share constituting a total sum of Rs. 8,541,930,332/- (subject to applicable government taxes) based on the issued ordinary (voting) and (non-voting) shares as at February 20, 2024 [subject however to necessary amendments being made to such amount to include the dividends pertaining to the options that may be exercised by employees under the Commercial Bank of Ceylon PLC (the 'Company') Employee Share Option Plan (ESOP) schemes] be and is hereby declared for the financial year ended December 31, 2023 on the issued and fully paid ordinary (voting) and (non-voting) shares of the Company;

THAT the shareholders entitled to such dividend would be those shareholders [both ordinary (voting) and (non-voting)], whose names have been duly registered in the Shareholders' Register maintained by the Registrars of the Company [i.e. SSP Corporate Services (Pvt) Ltd., No. 101, Inner Flower Road, Colombo 03] and also those shareholders whose names appear on the Central Depository Systems (Pvt) Ltd. ('CDS') as at end of trading on the Record Date [i.e. the third (3rd) market day from and excluding the date of the meeting] (the 'Entitled Shareholders'); THAT subject to the shareholders (a) waiving their pre-emptive rights to new share issues; and (b) approving the proposed allotment and issue of new ordinary (voting) and (non-voting) shares by passing the resolutions set out in Items 2(ii) and 2(iii) below, the declared first and final dividend of Rs. 6.50 per issued and fully paid ordinary (voting) and (non-voting) share be distributed and satisfied partly, by the payment of cash and partly, by the allotment and issue of new ordinary (voting) and (non-voting) shares (the 'distribution scheme') based on the share prices of ordinary (voting) and (non-voting) shares as at February 20, 2024 to the Entitled Shareholders in the manner following:

- The payment in cash of Rs. 4.50 per issued and fully paid ordinary (voting) and (non-voting) share (subject to applicable government taxes); and
- The allotment and issue of new ordinary (voting) and (non-voting) shares in satisfaction of the balance of Rs. 2.00 per share dividend entitlement (subject to applicable government taxes).

**THAT** accordingly and subject to the approval of the shareholders being obtained in the manner aforementioned, the implementation of the said distribution scheme shall be as follows:

#### (a) By way of a cash distribution:

A cash distribution of a sum of Rs. 5,564,463,277.50 (subject however to necessary amendments being made to such amount to include the dividend payable on the options that may be exercised by the employees under the Company's ESOP schemes) shall be made to the Entitled Shareholders of ordinary (voting) shares; and a sum of Rs. 349,180,798.50 shall be made to the Entitled Shareholders of the ordinary (non-voting) shares, on the basis as aforesaid of Rs. 4.50 per ordinary (voting) and (non-voting) share, respectively (subject to applicable government taxes);

#### AND

# (b) By way of the allotment and issue of new shares:

The balance sum of:

 Rs. 2,473,094,790.00 (subject however to necessary amendments being made to such amount to include the dividend payable on the options that may be exercised by employees under the Company's ESOP schemes) to which the ordinary (voting) shareholders are entitled (subject to applicable government taxes); and  Rs. 155,191,466.00 to which the ordinary (non-voting) shareholders are entitled (subject to applicable government taxes),

shall be satisfied by the allotment and issue of new ordinary (voting) and (non-voting) shares to the Entitled Shareholders of the ordinary (voting) and (non-voting) shares, respectively, on the basis of the following ratios:

- 01 new fully paid ordinary (voting) share for every 53.2941180806 existing issued and fully paid ordinary (voting) shares calculated on the basis of the market value of the ordinary (voting) shares as at end of trading on February 20, 2024; and
- 01 new fully paid ordinary (non-voting) share for every 47.2352946190 existing issued and fully paid ordinary (non-voting) shares calculated on the basis of the market value of the ordinary (non-voting) shares as at end of trading on February 20, 2024.

**THAT** the ordinary (voting) and (non-voting) residual share fractions, respectively, arising in pursuance of the aforementioned allotment and issue of new ordinary (voting) and (non-voting) shares after applying the formulas referred to in the sub heading 'Residual fractions of shares' in the 'Circular to the shareholders on the first and final dividend for 2023' dated March 05, 2024 be aggregated and the ordinary (voting) and (non-voting) shares, respectively, arising consequent to such aggregation be allotted to Trustees to be nominated by the Board of Directors of the Company, and that the Trustees so nominated and appointed be permitted to hold the said shares in trust until such shares are sold by the Trustees on the trading floor of the Colombo Stock Exchange, and that the net sale proceeds thereof be donated to a charity or charities approved by the Board of Directors of the Company;

**THAT** the new shares to be issued in pursuance of the said distribution scheme constituting a total issue of 23,202,324 new ordinary (voting) shares, based on the issued and fully paid ordinary (voting) shares as at February 20, 2024, (subject however to the necessary amendments being made to such number to include the dividend on the options that may be exercised by the employees under the Company's ESOP schemes) and 1,642,749 new ordinary (non-voting) shares based on the issued and fully paid ordinary (non-voting) shares as at February 20, 2024 shall, immediately consequent to due allotment thereof to the Entitled Shareholders rank equal and *pari passu* in all respects with the existing issued and fully paid ordinary (voting) shares and the existing issued and fully paid ordinary (non-voting) shares of the Company, respectively, including the entitlement to participate in any dividend that may be declared after the date of allotment thereof and shall be listed on the Colombo Stock Exchange; and

THAT the new ordinary (voting) and (non-voting) shares to be so allotted and issued shall not be eligible for the payment of the dividend declared hereby and which dividend shall accordingly be payable only on the 1,236,547,395 existing issued and fully paid ordinary (voting) shares as at February 20, 2024 (subject to amendments thereto to include the shares arising on the options that may be exercised by the employees under the Company's ESOP schemes) and 77,595,733 existing issued and fully paid ordinary (non-voting) shares as at February 20, 2024.

#### (ii) Waiver of Pre-emption Rights (Dividend Resolution No. 2):

Subject to the passing of the Ordinary Resolution set out in Dividend Resolution No.1 above, to consider and if thought fit to pass the following Resolution by way of an Ordinary Resolution [To be passed by a separate vote of the ordinary (voting) shareholders and of the ordinary (non-voting) shareholders, respectively]:

**THAT** the pre-emptive right to a new issue of shares provided for by Article 9A of the Articles of Association of Commercial Bank of Ceylon PLC (the 'Company'), be and is hereby waived in respect of the following proposed issue of new shares to be effected by the Company for purposes of satisfying the first and final dividend for the year ended December 31, 2023:

'The allotment and issue of 23,202,324 new ordinary (voting) shares (subject however to the necessary amendments being made to such number to include the dividend on the options that may be exercised by the employees under the Company's ESOP schemes), and 1,642,749 new ordinary (non-voting) shares credited as fully paid to Entitled Shareholders and which new shares shall rank equal and *pari passu* with the existing issued and fully paid ordinary (voting) and (non-voting) shares of the Company including the right to participate in any dividend which may be declared after the date of allotment of such shares'.

#### (iii) Approval of an issue of ordinary (voting) and (non-voting) shares (Dividend Resolution No. 3):

Subject to the passing of the Ordinary Resolution set out in Dividend Resolution No. 1 above, to consider and if thought fit to pass the following resolution by way of a Special Resolution [To be passed by a separate vote of the ordinary (voting) shareholders and of the ordinary (non-voting) shareholders, respectively]:

THAT the proposed allotment and issue of 23,202,324 new ordinary (voting) shares [subject however to the necessary amendments being made to such number to include the dividend on the options that may be exercised by the employees under the Commercial Bank of Ceylon PLC (the 'Company') ESOP schemes] and 1,642,749 new ordinary (non-voting) shares credited as fully paid to Entitled Shareholders and which new shares shall rank equal and pari passu with the existing issued and fully paid ordinary (voting) and (non-voting) shares of the Company including the right to participate in any dividend which may be declared after the date of allotment of such shares be and is hereby approved in pursuance of Section 99 of the Companies Act No. 07 of 2007 (as amended) and Article 10 of the Articles of Association of the Company; and

**THAT** accordingly the Company's management be and is hereby authorised to take all requisite statutory and procedural formalities in order to give effect to the aforesaid proposed issue of new ordinary (voting) and (non-voting) shares of the Company.

- To re-elect/elect the following Directors who, in terms of the Company's Articles of Association, retire by rotation or otherwise as given below:
  - (i). To re-elect Mr R Senanayake who retires by rotation in terms of Article 86 of the Articles of Association.
  - (ii). To re-elect Mr S Muhseen who retires by rotation in terms of Article 86 of the Articles of Association.
  - (iii). To elect Mr P M Kumarasinghe who was appointed to the Board in terms of Article 92 of the Articles of Association.

4. (i) To appoint Messrs KPMG, Chartered Accountants, as recommended by the Board of Directors as the Company's Auditors for the financial year ending December 31, 2024; and

(ii) To authorise the Board of Directors to determine the remuneration of the Auditors for the financial year ending December 31, 2024.

5. To authorise the Board of Directors to determine donations for the year 2024.

By Order of the Board of Commercial Bank of Ceylon PLC,

**R A P Rajapaksha** *Company Secretary* March 05, 2024 Colombo

Notes:

- A duly registered and entitled holder of the Company's ordinary (voting) shares is entitled to attend, speak and vote at the AGM and is entitled to appoint a proxyholder to attend, speak, and vote in his/her stead.
- (iii) A duly registered and entitled holder of the Company's ordinary (non-voting) shares is entitled only to attend and speak at the AGM and to vote only on the resolutions set out in items 2(ii) and 2(iii) of the Notice of Meeting. Such a shareholder is entitled to appoint a proxyholder to attend, and speak on his/her behalf and to vote only on the resolutions set out in items 2(ii) and 2(iii) of the Notice of Meeting.
- (iii) A proxyholder need not be a shareholder of the Company.
- (iv) A Form of Proxy is sent along with this Report.
- (v) The Form of Proxy completed legibly should be forwarded to the Company, by facsimile on 011 233 2317 or email to <u>companysecretary@combank.net</u> or by post to Company Secretary, Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, not later than forty-eight (48) hours before the time appointed for the holding of the AGM.

# Circular to the Shareholders on the First and Final Dividend for 2023

## CID COMMERCIAL BANK

#### Dear Shareholder/s,

#### First and Final Dividend for the year ended December 31, 2023 to be Satisfied by the Allotment and Issue of New Shares.

The Board of Directors of the Commercial Bank of Ceylon PLC (the 'Company'), is pleased to inform its Shareholders that, a first and final dividend distribution of Rs. 6.50 per each existing issued and fully paid ordinary (voting) and (non-voting) share has been recommended for the financial year ended December 31, 2023 for due declaration by the Shareholders at the Annual General Meeting ('AGM') to be held on Thursday, March 28, 2024 (the date of the AGM) at 2.30 p.m. at the Galadari Hotel, 'Grand Ballroom', No. 64, Lotus Road, Colombo 01 and such dividend so declared will be paid out of the profits of the Company for the financial year ended December 31, 2023, which would be subject to applicable government taxes.

The Board of Directors is confident that, the Company will be able to satisfy the solvency test set out in Section 57 of the Companies Act No. 07 of 2007 (as amended) ['CA 2007'] immediately post-payment of such dividend. A Certificate of Solvency has been provided by the Company's Auditors, Messrs Ernst & Young, Chartered Accountants.

Subject to obtaining the approval of the Shareholders, the said dividend will be satisfied in accordance with a distribution scheme whereby:

- (i) A cash distribution of Rs. 5,564,463,277.50
   (subject to applicable government taxes) shall be made to the Entitled Shareholders of the ordinary (voting) shares and a sum of Rs. 349,180,798.50 shall be made to the Entitled Shareholders of the ordinary (non-voting) shares of the Company as at February 20, 2024 totalling to Rs. 5,913,644,076.00 in part satisfaction of such dividend; and
- New ordinary (voting) and (nonvoting) shares will be allotted and issued, in satisfaction of the remaining

dividend entitlement, constituting a total sum of Rs. 2,628,286,256.00 (subject to applicable government taxes) based on the issued and fully paid ordinary (voting) and (non-voting) shares of the Company as at February 20, 2024 (subject however to necessary amendments being made to such sum to accommodate the dividend payable on the options that may be exercised by employees under the Company's ESOP schemes).

Accordingly, and in pursuance of the aforesaid distribution scheme, the Company proposes to issue:

- (a) 23,202,324 number of new ordinary (voting) shares, calculated based on the issued and fully paid ordinary (voting) shares as at February 20, 2024 [subject however to necessary amendments being made to such number to include the dividend on the options that may be exercised by employees under the Company's ESOP schemes], and on the basis of their market value (closing price) as at end of trading on February 20, 2024; and
- (b) 1,642,749 number of new ordinary (non-voting) shares calculated based on the issued and fully paid ordinary (non-voting) shares as at February 20, 2024 and on the basis of their market value (closing price) as at end of trading on February 20, 2024.

An announcement will be made by the Company three market days prior to the date of the AGM on the final number of ordinary (voting) and (non-voting) shares to be issued in satisfaction of the said dividend.

The said shares shall be issued in the following ratios to the Entitled Shareholders of the Company as defined below:

(a) 01 new fully-paid ordinary (voting) share for every 53.2941180806 existing issued and fully-paid ordinary (voting) shares calculated on the basis of the market value of the ordinary (voting) shares as at end of trading on February 20, 2024; and (b) 01 new fully-paid ordinary (non-voting) share for every 47.2352946190 existing issued and fully-paid ordinary (non-voting) shares calculated on the basis of the market value of the ordinary (non-voting) shares as at end of trading on February 20, 2024.

The above share ratio is based on a value of Rs. 90.60 per ordinary (voting) share and Rs. 80.30 per ordinary (non-voting) share (subject to applicable government taxes) as at end of trading on February 20, 2024. The Board of Directors is satisfied that the aforementioned values which constitute the consideration for which the new shares are to be allotted and issued is fair and reasonable to the Company and to all its existing Shareholders.

#### **Entitled Shareholders**

Shareholders entitled to participate in the said dividend are those who are duly registered in the Company's Share Register and also those shareholders whose names appear on the Central Depository Systems (Pvt) Ltd. ('CDS') as at end of trading on the Record Date [i.e. the third (3rd) market day from and excluding the date of the meeting] (the 'Entitled Shareholders').

In calculating the number of shares held by a shareholder as at the relevant date for the proposed allotment and issue of new shares, the shareholding of the shareholder as appearing in the CDS and the Shareholders' Register maintained by the Registrars of the Company [i.e. SSP Corporate Services (Pvt) Ltd, No. 101, Inner Flower Road, Colombo 03] will not be aggregated. However, if a shareholder holds shares with multiple stockbrokers, the shares held with multiple stockbrokers will be aggregated for calculation purposes, and the shares arising as a result of the proposed issue and allotment of new shares will be uploaded proportionately to the respective CDS accounts held with each broker. The Company has obtained the approval in principle of the Colombo Stock Exchange ('CSE') for the proposed allotment and issue of new shares.

#### **Residual Fractions of Shares**

The residual fractions arising from the aforementioned allotment and issue of new ordinary (voting) and (non-voting) shares, respectively, will be aggregated and the shares arising consequent thereto will, subject to receiving the approval of the Shareholders therefor, be allotted to Trustees to be nominated by the Board of Directors. The Trustees so nominated, will hold the said shares in trust until such shares are sold by the Trustees on the trading floor of the CSE. The net sale proceeds arising therefrom shall, subject to receiving the approval of the Shareholders therefor, be distributed to a charity/charities approved by the Board of Directors. The sale of such shares will be effected by the Company within a reasonable period of time, following the date on which the approval of the Shareholders has been obtained in this regard.

Residual fractions of ordinary (voting) and (non-voting) shares above-mentioned shall mean the above-mentioned fractions arising after applying the following formulas, respectively:

For voting shareholders -

Number of shares held by a shareholder as at end of trading on the Record Date X 1

53.2941180806

For non-voting shareholders -

Number of shares held by a shareholder as at end of trading on the Record Date X 1

47.2352946190

#### **Status of the New Shares**

The new ordinary (voting) and (non-voting) shares to be so issued, immediately consequent to due allotment thereof to the Entitled Shareholders, shall rank equal and *pari passu* in all respects with the existing issued and fully paid ordinary (voting) and (non-voting) shares, respectively, of the Company.

#### **Listing/Central Bank approval**

An application has been made to the CSE for listing the new ordinary (voting) and (non-voting) shares on the official list of the CSE. This application has been approved 'in principle' by the CSE. The Company will obtain approval of the Department of Foreign Exchange of the Central Bank of Sri Lanka in principle for the allotment and issue of the new ordinary (voting) and (non-voting) shares to the Company's non-resident Shareholders, where applicable.

#### **Shareholder Approvals**

The proposed method of satisfying the abovementioned first and final dividend is subject to Shareholders granting approval therefor by passing the resolutions set out in the attached Notice of Meeting pertaining to the following matters:

 Authorisation to satisfy the first and final dividend by an allotment and issue of new shares:

Article 124 of the Company's Articles of Association provides, in effect, that, subject to the provisions of CA 2007, the Board is empowered to pay a dividend or otherwise make a distribution in whole or in part by the distribution of specific assets and in particular of paid up shares. In pursuance of principles of transparency, the Board seeks the authorisation of Shareholders for the satisfaction of the first and final dividend by the issue of new ordinary (voting) and (non-voting) shares in the manner set out above. The relevant ordinary resolution to be passed by the Shareholders in this regard is set out in item 2(i) of the attached Notice of Meeting.

• Waiver of pre-emption rights to new share issues [Article 9A]:

In terms of Article 9A of the Company's Articles of Association, any issue of shares beyond 500,000 shares must be first offered to the Shareholders in proportion to their holding at the time of the offer, unless otherwise authorised by an ordinary resolution of the Company.

As mentioned previously, the first and final dividend is proposed to be satisfied, by the allotment and issue of new ordinary (voting) and (non-voting) shares in the manner set out above and on the above-mentioned application of the above-mentioned share proportion. The said allotment and issue of new shares would accordingly be in excess of 500,000 shares. As such, the authorisation of Shareholders is sought under and in terms of the above-mentioned Article 9A for the waiver by Shareholders of their pre-emption rights to the new shares to be issued exceeding 500,000 ordinary (voting) and (non-voting) shares. The relevant ordinary resolution to be passed by the Shareholders in this regard is set out in item 2(ii) of the attached Notice of Meeting.

• Alteration of Shareholder Rights [Section 99 of the CA 2007 and Article 10 of the Articles of Association]:

The Company is required, in compliance with the above provisions, to seek Shareholder approval by way of a special resolution for the proposed method of satisfaction of the first and final dividend by an allotment and issue of new ordinary (voting) and (non-voting) shares in the manner set out above. The relevant special resolution to be passed by the Shareholders in this regard is set out in item 2(iii) of the attached Notice of Meeting.

#### **Confirmation of Compliance**

The Board of Directors hereby confirms that the allotment and issue of new shares is in compliance with the Articles of Association of the Company, the Listing Rules of the CSE and the provisions of the CA 2007.

#### **Allotment of the New Shares**

The Board of Directors emphasises that the aforementioned allotment and issue of new shares is in satisfaction of the first and final dividend for the year ended December 31, 2023 and shall be dependent on and subject to the Shareholders passing the requisite resolutions.

#### **Uploading of Shares in to CDS Accounts**

In the event that the requisite resolution declaring the dividend (including its manner of satisfaction thereof) by way of the issue and allotment of new shares is passed by the Shareholders, the accounts of the Shareholders whose shares are deposited in the CDS would be directly uploaded with the new shares to the extent that such Shareholder has become entitled thereto.

The shares would be uploaded within five (05) market days from and excluding the Record Date. If a Shareholder holds multiple CDS accounts, the total entitlement will be directly deposited to the respective CDS accounts proportionately. Pursuant to a Direction issued by the Securities and Exchange Commission of Sri Lanka ('SEC') pertaining to the de-materialisation of listed securities, the Shareholders who hold shares in scrip form (i.e. Share Certificates) as per the Share Register maintained by the Registrars of the Company, will not be issued Share Certificates for the new shares allotted and issued in their favour. Such Shareholders are accordingly requested to open an account with the CDS and to deposit their

Share Certificates in the CDS prior to the date of the AGM of the Company. This will enable the Company to deposit the new shares directly into the Shareholder's CDS Account.

If a Shareholder fails to deposit his/her existing ordinary (voting) and/or (non-voting) shares in the CDS prior to the date of the AGM, such Shareholder's entitlement of new ordinary (voting) and/or (non-voting) shares will be deposited by the Company after such Shareholder has opened a CDS Account and has informed the Company's Registrars in writing of his/her CDS account number. Until such CDS account is opened by a Shareholder as aforementioned, the new ordinary (voting) and (non-voting) shares that are allotted in his/her favour will be registered in such shareholder's account in the Share Register maintained by the Registrars of the Company (subject to compliance with the requirements of the Department of Foreign Exchange of the Central Bank of Sri Lanka as may be applicable in respect of non-resident shareholders). Consequent to the opening of the CDS account by such Shareholder, the new shares will be credited to such CDS account. Direct uploads pertaining to written requests received from Shareholders to deposit such shares will be done on a weekly basis.

#### Annual General Meeting ("AGM")

Attached hereto is the Annual Report comprising the Notice convening the AGM for March 28, 2024 and setting out in item 2 thereof, the relevant resolution to be passed by the Shareholders in the above regard.

#### **Form of Proxy**

Shareholders who are unable to attend the AGM in person are entitled to appoint a proxy to attend and speak and also vote on their behalf, depending on their voting rights. If you wish to appoint such a proxy, kindly complete and return the enclosed Form of Proxy (in accordance with instructions specified therein) to the Company by facsimile on 011 233 2317 or email to companysecretary@combank.net or by post to Company Secretary, Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, not later than forty-eight (48) hours before the time appointed for the holding of the AGM.

Yours faithfully,

By Order of the Board of Commercial Bank of Ceylon PLC

**R A P Rajapaksha** Company Secretary

March 05, 2024 Colombo

# Notice of Meeting – Extraordinary General Meeting

NOTICE IS HEREBY GIVEN THAT an

Extraordinary General Meeting of Commercial Bank of Ceylon PLC ('the Bank') will be held immediately after the conclusion of the Annual General Meeting ('AGM') which has been convened for March 28, 2024 at 2.30 p.m. at the Galadari Hotel, 'Grand Ballroom', No. 64, Lotus Road, Colombo 01, for the following purposes:

 To consider and if thought fit to pass the following resolution by way of a Special Resolution pertaining to the approval of the proposed issue of Debentures in terms of Rule 2.2.1 m. of the Listing Rules of Colombo Stock Exchange (To be passed by the Ordinary Voting Shareholders):

**THAT** the Board of Directors (the 'Board') of Commercial Bank of Ceylon PLC (the 'Bank') be and is hereby authorised:

- To issue and allot up to Two Hundred i. Million (200,000,000) fully paid, Basel III Compliant - Tier 2 Listed Rated Unsecured Subordinated Redeemable Debentures ('Debentures') with a Non-Viability Conversion feature at such interest rates as may be determined by the Board at the time of issue at a par value of Rs. 100/- each for tenures of 5 years, 7 years and 10 years and that Ordinary Voting Shares of the Bank be issued to the holders of such Debentures to the extent of the amounts due and payable on such Debentures (i.e. capital sum paid on the Debentures plus outstanding interest) in the event the Central Bank of Sri Lanka determines that a Trigger Event which warrants the conversion of Debentures to Ordinary Voting Shares as defined in the Circular to Shareholders dated March 05, 2024 pertaining to the proposed issue of Debentures has occurred; and
- ii. To issue upon the occurrence of a Trigger Event, Ordinary Voting Shares to the holders of the Basel III compliant Debentures at the Conversion Price with such price being determined based on the simple average of the daily Volume Weighted Average Price of an Ordinary Voting Share of the Bank as published by the Colombo Stock Exchange during the three (03) month period immediately preceding such Trigger Event;

- iii. To issue upon the occurrence of a Trigger Event such Ordinary Voting Shares to the holders of the Debentures on the aforesaid basis in lieu of the amounts due and payable on the relevant Debentures (i.e. capital sum paid on the Debentures plus outstanding interest) without such Shares being offered in the first instance to the then existing Ordinary Voting Shareholders of the Bank pari passu to their shareholding subject to regulatory approvals from, namely, the Central Bank of Sri Lanka and the Colombo Stock Exchange. Such Ordinary Voting Shares arising from the Non-Viability Conversion will be listed on the Colombo Stock Exchange.
- Subject to the passing of the Special Resolution set out under Resolution No.1 above, to consider and if thought fit to pass the following resolution by way of an Ordinary Resolution pertaining to the waiver of pre-emptive rights (To be passed by the Ordinary Voting Shareholders):

**THAT** the pre-emptive right to a new issue of Shares provided for by Article 9A of the Articles of Association of Commercial Bank of Ceylon PLC (the 'Bank'), be and is hereby waived in respect of the relevant number of Ordinary Voting Shares to be issued by the Bank to the holders of the said fully paid, Basel III Compliant - Tier 2 Listed Rated Unsecured Subordinated Redeemable Debentures ('Debentures') with a Non-Viability Conversion feature, to the extent of the amounts due and payable on such Debentures (i.e. capital sum paid on the Debentures plus outstanding interest) in the event the Central Bank of Sri Lanka determines that a Trigger Event which warrants the conversion of Debentures to Ordinary Voting Shares as defined in the Circular to Shareholders dated March 05, 2024 pertaining to the proposed issue of Debentures has occurred, which Shares shall be issued at the Conversion Price determined based on the simple average of the daily Volume Weighted Average Price of an Ordinary Voting Share of the Bank as published by the Colombo Stock Exchange during the three (03) month period immediately preceding such Trigger Event.

3. Subject to the passing of the Special Resolution set out under Resolution No.1 above, to consider and if thought fit to pass the following resolution by way of a Special Resolution by both the Ordinary Voting Shareholders as well as the Ordinary Non-Voting Shareholders in order to obtain approval for the issuance of Ordinary Voting Shares in pursuance of Article 10 of the Articles of Association of the Bank and Section 99 of the Companies Act No. 07 of 2007 (as amended):

THAT the prospective allotment and issue of new Ordinary Voting Shares by Commercial Bank of Ceylon PLC (the 'Bank') to the holders of the said fully paid, Basel III Compliant-Tier 2 Listed Rated Unsecured Subordinated Redeemable Debentures ('Debentures') with a Non-Viability Conversion feature, to the extent of the amounts due and payable on such Debentures (i.e. capital sum paid on the Debentures plus outstanding interest) which will be effected in the event the Central Bank of Sri Lanka determines that a Trigger Event which warrants the conversion of Debentures to Ordinary Voting Shares as defined in the Circular to Shareholders dated March 05, 2024 pertaining to the proposed issue of Debentures has occurred, which Shares shall be issued at the Conversion Price and credited to the holders of the Debentures as fully paid Ordinary Voting Shares which shall rank equal and pari passu with the then existing issued and fully paid Ordinary Voting Shares of the Bank including the right to participate in any dividend which may be declared after the date of allotment of such Shares be and is hereby approved in pursuance of Section 99 of the Companies Act No. 07 of 2007 (as amended) and Article 10 of the Articles of Association of the Bank.

By Order of the Board of Commercial Bank of Ceylon PLC,

**R A P Rajapaksha** Company Secretary

# Circular to Shareholders Pertaining to the Proposed Issue of Debentures

# .....

#### THIS DOCUMENT IS OF VALUE – If you are in any doubt as to the action you should take, you should consult your stockbroker or other professional adviser immediately.

#### Dear Shareholder/s,

The Commercial Bank of Ceylon PLC (the 'Bank') made a profit of Rs. 20,460.962 Mn. (Group Rs. 21,899.660 Mn., as per the audited financial statements) for the year ended December 31, 2023. Total shareholders' funds improved to Rs. 214,931.002 Mn. (Group Rs. 224,974.493 Mn., as per the audited financial statements) as of December 31, 2023 from Rs. 203,698.676 Mn. (Group Rs. 212,972.574 Mn., as per the audited financial statements) as of December 31, 2022. Figures shown herein are extracted from published financial statements.

The Board of Directors of the Bank, having identified the need to strengthen the Tier 2 Capital Base of the Bank as per Basel III requirements, to reduce maturity mismatches, and in order to facilitate expansion, pursuant to a resolution, adopted on January 30, 2024, decided to initiate, and also to recommend to shareholders,

#### AN ISSUE OF BASEL III COMPLIANT - TIER 2 LISTED RATED UNSECURED SUBORDINATED REDEEMABLE 5 YEAR, 7 YEAR AND 10 YEAR DEBENTURES WITH A NON-VIABILITY CONVERSION TO ORDINARY VOTING SHARES TO BE ISSUED BY THE BANK, SOLELY IF INSTRUCTED TO DO SO BY THE CENTRAL BANK OF SRI LANKA ON OCCURRENCE OF A TRIGGER EVENT.

The proposed issue is to raise a sum of Rupees Ten Billion (Rs. 10,000,000,000/-) through the issuance of up to One Hundred Million (100,000,000) Basel III Compliant - Tier 2 Listed Rated Unsecured Subordinated Redeemable Debentures with a Non-Viability Conversion feature, each with a par value of Rs. 100/-, with an option to raise up to a further Rupees Five Billion (Rs. 5,000,000,000/-) through the issuance of up to a further Fifty Million (50,000,000) Debentures, each with a par value of Rs. 100/- in the event of an over-subscription of the initial issue and with a further option to raise up to a further Rupees Five Billion (Rs. 5,000,000,000/-) through the issuance of up to a further Fifty Million (50,000,000) Debentures each with a par value of Rs. 100/- in the event of an oversubscription of the initial issue and the second tranche (hereinafter collectively called the 'Debentures' or 'Debenture Issue'). Based on the asset value referred to in Section 6 hereof, the proposed issue does not constitute a major transaction for the Bank as defined in Section 185 of the Companies Act No. 07 of 2007 (as amended).

The proposed Debentures will be redeemed after 5 years, 7 years and 10 years from the date of allotment of such Debentures and the principal sum and accrued interest (if any) payable on the redemption of such Debentures will be paid not later than three (03) market days from the date of redemption, unless a Trigger Event occurs as described in this circular.

The proposed issue of Debentures is subject to the approval of the Colombo Stock Exchange and the Central Bank of Sri Lanka and are to be issued under rules and regulations promulgated by the Colombo Stock Exchange and the Central Bank of Sri Lanka, including guidelines issued in relation to Basel III compliance in the Banking Act Directions No. 01 of 2016 issued by the Central Bank of Sri Lanka as may be amended from time to time.

Fitch Ratings Lanka Limited has assigned an expected rating of BBB+ (EXP) (Ika) for the proposed Debenture Issue. The final rating for the proposed Debenture Issue with a convertibility feature in compliance with Basel III requirements will be issued by Fitch Ratings Lanka Limited. Issuance of this rating will be subject to the adoption of a Special Resolution by the Shareholders of the Bank, at the Extraordinary General Meeting ('EGM') that is being convened, and receipt of approval of the Central Bank of Sri Lanka (CBSL). The final Rating Report will be incorporated in the Debenture Prospectus.

## **《 】** COMMERCIAL BANK

#### 1.OBJECTIVES OF THE PROPOSED DEBENTURE ISSUE

The Bank expects to use the funds raised through the Debentures to strengthen Tier 2 capital of the Bank, to bridge asset-liability mismatches, and to support growth of customer loan portfolios with the expected revival of economic activities.

Funds raised through this Debenture Issue are expected to improve the Capital Adequacy of the Bank. The medium to long term duration of the Debentures and the subordinated nature of the instrument issued in compliance with Basel III requirements will enable the Bank to strengthen the Tier 2 Capital Base as per Basel III requirements. Approval will be obtained from the Central Bank of Sri Lanka to include the Basel III compliant Debentures under Tier 2 capital.

Since the Debentures proposed to be issued are of a medium to long term nature, being of tenures of 5, 7 and 10 years, the raising of funds through Debentures can be expected to reduce the mismatch between shorter term liabilities and medium to long term assets.

The Bank intends to lend the proceeds of the Debenture Issue and thereby expand the Bank's loan book in the ordinary course of business over a period of twelve (12) months. The monthly average disbursements for the quarter ended December 31, 2023 stood at Rs. 47 Bn. Therefore, it is unlikely that the Bank would not be able to lend the Debenture proceeds within a period of twelve (12) months.

The Bank as at date of this circular has not recognised related parties for the lending of the Debenture proceeds and therefore plans to disburse the Debenture proceeds in the ordinary course of business. However, in the event the Bank lends funds raised through this Debenture Issue to related parties, the Bank will comply with the requirements stipulated under Section 9 of the Colombo Stock Exchange (CSE) Listing Rules (as applicable). Further, in the event these Debentures are allotted to related parties, the Bank shall comply with all applicable laws/regulations in this regard, including requirements stipulated under Section 9 of the CSE Listing Rules (as applicable).

#### **Current Capital Adequacy Status**

The Bank is in compliance with the Basel III requirements as at December 31, 2023.

Current CAR* position of the Bank as at 31.12.2023 (as per the audited financial statements)		15.151%
Minimum CAR requirement to be maintained as at 31.12.2023 as per the Banking Act Directions No. 01 of 2016		14.000%
Expected CAR position, subsequent to the Basel III compliant Debenture Issue As	s at 31.12.2023 with Rs. 10 Bn.	15.774%
As	s at 31.12.2023 with Rs. 15 Bn.	16.083%
As	s at 31.12.2023 with Rs. 20 Bn.	16.389%

\*CAR = Capital Adequacy Ratio

# The minimum Capital Adequacy requirements under Basel III are as follows:

Components of Capital	Banking Act Directions No. 01 of 2016
Common Equity Tier I Capital with Buffers (CCB** & Surcharge on D-SIB***)	8.500%
Total Tier I Capital with Buffers (CCB & Surcharge on D-SIB)	10.000%
Total Capital Ratio (Tier I + Tier II) with Buffers (CCB & Surcharge on D-SIB)	14.000%

\*\*CCB = Capital Conservation Buffer

\*\*\*D-SIB = Domestic Systemically Important Banks

Subordinated funds raised through this Debenture Issue in compliance with requirements under Basel III, are expected to further improve the Capital Adequacy Ratio of the Bank by increasing its Tier 2 Capital base thus strengthening its Total Eligible Capital as per Basel III requirements.

#### 2.PROPOSED ISSUANCE OF BASEL III COMPLIANT DEBENTURES

# Regulatory aspects regarding Basel III compliant subordinated debt

As per Banking Act Directions No. 01 of 2016 issued by the Central Bank of Sri Lanka, subordinated debt issued by licensed commercial banks needs to be compliant with Basel III requirements effective from July 01, 2017 in order to qualify as Tier 2 capital. According to Basel III guidelines, all subordinated debt issuance should have either a conversion feature allowing conversion to equity or a write-down feature. The Bank is therefore of the view that a Non-Viability Conversion feature should be included in the proposed Debentures, and that such conversion, if applicable, should be to Ordinary Voting Shares of the Bank upon occurrence of a Trigger Event.

The conversion of Debentures to Ordinary Voting Shares will be in accordance with the applicable laws and regulations of Sri Lanka and the new shares will, subject to the approval of the Colombo Stock Exchange, be listed and will be subject to the instructions of the Central Bank of Sri Lanka with regard to application of the Single Holder Limit at the time of conversion of the Debentures in to Ordinary Voting Shares of the Bank.

#### 3.BENEFITS FOR THE BANK AND ITS SHAREHOLDERS THROUGH ISSUING BASEL III COMPLIANT DEBENTURES

- (a) Issuance of Basel III compliant Debentures will improve the capital adequacy ratios of the Bank.
- (b) The funds raised through the proposed Debenture Issue being of a medium to long-term nature will reduce maturity mismatches in the assets and liabilities portfolios of the Bank.
- (c) Issuance of Basel III compliant
   Debentures will raise funds for expansion of the lending portfolio.
- (d) Upon the occurrence of a Trigger Event, any outstanding balance of these Debentures including the total par value of the Debentures and Debenture interest accrued and unpaid as at that date will be converted to Ordinary Voting Shares of the Bank. As a result, the Non-Viability Conversion has the effect of acting as a buffer by reducing outstanding claims from liability holders (Debenture holders) in the event of an occurrence of a Trigger Event.
- (e) Voting rights of the then existing Ordinary Voting Shareholders are not altered as long as the Non-Viability Conversion Debentures are not converted into Voting Shares of the Bank, and to the extent that a Trigger Event does not occur, the issuance of these Debentures is a suitable instrument to improve capital adequacy and fund growth without resorting to a new issue of equity.

#### 4. ISSUANCE OF BASEL III COMPLIANT DEBENTURES

In order for the Debentures to be recognised as Tier 2 Capital of the Bank under Basel III as described in the Banking Act Directions No. 01 of 2016 issued by the Central Bank of Sri Lanka, the Debentures are required to have the following minimum features:

- Issued and fully paid in cash
- Listed on a recognised stock exchange
- Redeemable
- Subordinated to the claims of depositors and general creditors
- Unsecured and not covered by a guarantee or any other arrangement that legally or economically enhances the seniority of the claim above the depositors and general creditors of the Bank.
- Issued with the prior approval from the Central Bank of Sri Lanka for inclusion in Tier 2 capital
- A minimum tenure of 5 years
- Rated by an acceptable Rating Agency
- Have a feature through which, in the event that the Central Bank of Sri Lanka determining that it is appropriate and in the best interest of the Bank and therefore so directs the Bank to convert the Debentures into Ordinary Voting Shares of the Bank such that through issuance of these new Ordinary Voting Shares the new shares issued will cover the total outstanding under the Debentures (resulting from the 'Trigger Event' referred to in this circular).
- The investors in the Debentures have no rights to accelerate the repayment of future scheduled coupons, except in bankruptcy and liquidation of the Bank.
- Neither the Bank nor a banking group over which the Bank exercises control or significant influence can have purchased the instrument and the Bank cannot directly or indirectly have funded the purchase of the instrument.

The Bank may consider allotting up to seventy-five per centum (75%) of the issue value on a preferential basis to identified Qualified Investors of strategic importance.

#### 5.ELIGIBLE INVESTORS FOR BASEL III COMPLIANT DEBENTURES

Investment and trading in Basel III compliant Debentures will be limited to Qualified Investors, as per Colombo Stock Exchange Listing Rule No. 2.2.1 n.

A Qualified Investor for the purpose of determining eligibility to invest in issuances of Basel III compliant Debentures shall be:

- A commercial bank licensed by the Central Bank of Sri Lanka in terms of the Banking Act No. 30 of 1988 (as amended)
- A specialised bank licensed by the Central Bank of Sri Lanka in terms of the Banking Act No. 30 of 1988 (as amended)
- A mutual fund, a pension fund, Employee Provident Fund or any other similar pooled fund
- A venture capital fund/company and private equity company
- A finance company licensed by the Central Bank of Sri Lanka in terms of the Finance Business Act No. 42 of 2011 (as amended)
- A company licensed by the Central Bank of Sri Lanka to carry on finance leasing business under the Finance Leasing Act No. 56 of 2000 (as amended)
- A company licensed by the Insurance Board of Sri Lanka to carry on insurance business in terms of the Regulation of Insurance Industry Act No. 43 of 2000 (as amended)
- A corporate (listed or unlisted) which does not fall under the above categories and is incorporated under the Companies Act No. 07 of 2007
- An investment trust or investment company
- A non-resident institutional investor
- An individual with an initial investment of Rs. 5,000,000/-

# 6. SPECIFIC RISKS CONSIDERING THE OBJECTIVES OF THE ISSUE

Since the proposed total Debenture Issue is to raise up to Rs. 20 Bn. which is a relatively small amount as compared to the overall assets of Rs. 2,580.328 Bn. and liabilities of Rs. 2,365.397 Bn. of the Bank as at December 31, 2023 (as per the audited financial statements), there is no specific risk factor that may lead to non-achievement of the objectives as per the stipulated timelines, since the reliance on the Debenture proceeds for asset growth is marginal. However, an adjustment in asset growth and in maturity mismatch reduction may result to the extent that capital adequacy is not improved due to an under-subscription of the issue. Until full disbursement of the Debenture proceeds, the funds raised through the Debenture Issue will be invested in Short Term Securities. Such investments in Short Term Securities are expected to generate an average return of 9% p.a. at current market rates. In the event the Debenture proceeds are not fully utilised as per stated objectives, such non-utilisation can be expected to lead to a reduction in Net Interest Income as undisbursed Debenture funds would be invested in Short Term Securities as opposed to being utilised in lending activities which can be expected to generate a higher Net Interest Income.

In the event the proposed Debenture Issue is under-subscribed, the Bank may have to adjust asset growth to comply with Basel III requirements. However, under-subscription is not envisaged since there has been reasonable demand for recent Debenture Issues of the Bank. No further Shareholder approval will be needed in the event the proposed Debenture Issue is not fully subscribed for or if the timelines stated above are amended as thought fit by the Bank.

#### 7. CONTINUING DISCLOSURE REQUIREMENTS

The Bank undertakes to disclose the progress of the utilisation of the proceeds of the proposed Debenture Issue in the Annual Report/s and future interim financial statements until funds raised through the proposed Debenture Issue are fully utilised. The format of the relevant disclosures to be made shall be disclosed in the Prospectus.

#### 8. TERMS AND METHOD OF CONVERSION

#### Occurrence of 'Trigger Event'

A 'Trigger Event' is determined by and at the sole discretion of the Central Bank of Sri Lanka (i.e. conversion of the said Debentures upon occurrence of the Trigger Event will be effected by the Bank solely upon being instructed by the Central Bank of Sri Lanka), and is defined in the Banking Act Directions No. 01 of 2016 of Web Based Return Code 20.2.3.1.1.1(10) (iii) (a & b) as a point/event being the earlier of:

- (A) 'A decision that a write-down, without which the Bank would become non-viable, is necessary, as determined by the Central Bank of Sri Lanka.
- (B) The decision to make a public sector injection of capital, or equivalent support, without which the Bank would have become non-viable, as determined by the Central Bank of Sri Lanka'

The Banking Act Directions No. 01 of 2016 dated December 29, 2016, on the web based returns specify in index reference 20.2.3.1.1.1. (10) (i) that, for such Debentures to be qualified as Tier 2 Capital (under Basel III guidelines) they should have a convertibility clause which enables the Debenture to be converted to Ordinary Shares on the occurrence of a Trigger Event. Furthermore, the Bank is of the view that any conversion of debt to equity upon conversion should have the same rights and privileges of the then existing Ordinary Voting Shareholders (ranking equal and *pari passu* with the then existing Ordinary Voting Shares) and hence consider it appropriate to effect conversion of the proposed Debentures to Ordinary Voting Shares.

The Bank on receipt of a Trigger Event notification from the Central Bank of Sri Lanka will immediately make a market announcement of such notification and thereafter announce the 'price' and 'dates' (such as the Trigger Event date and the date of allotment) pertaining to the pending conversion of Debentures to Ordinary Voting Shares.

#### **Conversion Ratio**

Upon the occurrence of the Trigger Event, the Bank shall be required and entitled to issue and allot within twenty (20) days, Ordinary Voting Shares of the Bank ranking equal and *pari passu* with the then existing Ordinary Voting Shares, to the Debenture holders up to the outstanding balance of such Debentures, including the total par value of the Debentures and the Debenture interest accrued and unpaid. This will be at a conversion price which will be based on the simple average of daily Volume Weighted Average Price of Ordinary Voting Shares of the Bank as published by the Colombo Stock Exchange, during the three (3) month period, immediately preceding the date of the Trigger Event. The Central Depository System (CDS) upload pertaining to Ordinary Voting Shares will be completed within ten (10) market days from the date of allotment of such Ordinary Voting Shares. In the event if any Debenture holder being entitled to a fractional allotment of an Ordinary Voting Share on such issuance and allotment, the Bank shall settle the resulting sums in cash, based on the conversion price within fourteen (14) market days from the date of allotment of the said Ordinary Voting Shares.

#### Conversion and Trigger

The Bank has decided to use the simple average of the daily Volume Weighted Average Price (VWAP) as indicated above due to its practicality and equitability to all shareholders as a pricing formula for conversion. This formula takes into account the market price over a three (03) month period preceding the date of the Trigger Event thereby lessening the impact of short-term price volatility and the volume impact in pricing. Due to the formula being applied using publicly available data published by the Colombo Stock Exchange, there is a high degree of transparency that results from the adoption of this method.

Ordinary Voting Shares arising from the Non-Viability Conversion will be listed on the Colombo Stock Exchange.

If there is an issuance of Ordinary Voting Shares to the Debenture holders upon the occurrence of the Trigger Event, a Debenture holder would cease to be a Debenture holder and would become a Shareholder of the Bank to the extent of such issuance and will rank equal and *pari passu* with the then existing Ordinary Voting Shareholders with Voting rights after the allotment of new shares to such Shareholders (being the previous Debenture holders) and will rank superior to the Ordinary Non-Voting Shareholders in respect of the voting rights attaching to the shares issued upon conversion.

Subsequent to the Debenture holders becoming Shareholders of the Bank, due to the occurrence of the Trigger Event and the resultant conversion, they would be entitled to exercise such rights as are exercisable by the other Shareholders of the Bank holding Ordinary Voting Shares. Once the conversion of Debentures is concluded, the Debentures will cease to exist.

# Dilution of Shareholding upon a Conversion of Debentures

In the event of conversion to Ordinary Voting Shares, there would be a dilution of the then existing shareholding percentage held by the then existing Shareholders. However, the extent of the dilution will be dependent on several factors that cannot be determined at this point, as indicated below:

The number of shares to be issued resulting from such a conversion will be determined by the 'Conversion Price' at the 'Trigger Point' as detailed below.

There will be a dilution impact on the shareholdings of the existing Shareholders.

- If the simple average of the daily Volume Weighted Average Price (VWAP) at the point of conversion is low compared to the prevailing share price, it would result in the allocation of a comparatively higher number of Ordinary Voting Shares by the Bank to the Debenture holders, which will dilute the shareholding of existing Shareholders.
- If the simple average of daily Volume Weighted Average Price (VWAP) at the point of conversion is high compared to the prevailing share price, it would result in the allocation of a comparatively lower number of Ordinary Voting Shares by the Bank, which will dilute the shareholding of existing Shareholders to a lesser extent than in the former instance described above.
- In order to avoid dilution of the shareholding of the then existing Shareholders due to a conversion, in the event of there being a likelihood of the occurrence of the Trigger Event, prior to conversion of the said Debentures into Ordinary Voting Shares, the then existing Shareholders will be first called upon to infuse additional share capital and if such infusion is not forthcoming, the proposed Debenture (i.e. Tier 2 Capital) will get converted in to Ordinary Voting Shares of the Bank upon the determination of the 'Non-Viability' point by the Central Bank of Sri Lanka and upon instructions being issued to the Bank in this regard.
- The extent of dilution of the then existing Shareholders will have to be determined by reference to the number of shares that are in issue at the time of such a conversion. The number of shares that are in issue at the time of a conversion can vary during the tenure of the Debentures due to the issuance of new shares by way of scrip dividends, rights issues, capitalisation of reserves, Employee Share Option Plan schemes and/or any other relevant corporate action.

#### Pre-emptive Subscription Rights

#### Waiver of pre-emptive rights

In keeping with the Central Bank regulation, it is the Bank's intention to obtain Shareholder approval for the issuance of Ordinary Voting Shares [which may be required to be issued due to the Central Bank of Sri Lanka instructing the Bank to exercise the convertible feature attached to these Debentures (the occurrence of the 'Trigger Event')] and to waive the pre-emptive rights of the existing Ordinary Voting Shareholders.

#### Non-occurrence of a Trigger Event

In the event of a non-occurrence of a Trigger Event these Debentures will be redeemed after 5, 7 and 10 years from the date of allotment of such Debentures and the principal sum and unpaid and accrued interest (if any) payable on the redemption of Debentures will be paid not later than Three (03) Market Days from the date of redemption, unless otherwise a Trigger Event occurs.

#### 9. ACCOUNTING FOR THE INCREASE IN PORTFOLIO RISK RESULTING FROM THE MACRO ECONOMIC ENVIRONMENT

The Bank performed a comprehensive assessment of individually significant customers as at December 31, 2023, and based on the assessment, those customers who have been impaired due to an increased credit risk were moved from Stage 1 to Stage 2 or Stage 3 based on the higher credit risk, as applicable. The Bank continued to review the key assumptions used in the impairment computation against individually significant customers classified under Stages 2 and 3 during the period under review. Key assumptions such as security realisation period, and factors used to determine the security valuation were continuously monitored in relation to customers who have been affected by the economic downturn and accordingly additional impairment provisions were recognised.

Further, the Bank continued to apply all other prudent assumptions used in 2022, during 2023 as well. The Bank also continued to recognise additional impairment provisions by way of management overlays for facilities in the risk elevated industries during the year 2023.

The Bank reclassified bulk of its Treasury Bond Portfolio amounting to Rs. 197.08 Bn., majority of Sri Lanka Development Bond (SLDB) portfolio amounting to Rs. 55.47 Bn., (USD 152.19 Mn.) and entire Sri Lanka Sovereign Bond (SLSB) portfolio amounting to Rs. 39.60 Bn., (USD 108.63 Mn.) from Fair Value Through Other Comprehensive Income (FVOCI) category to Amortised Cost category, with effect from April 01, 2022, in line with the guidelines issued by the CA Sri Lanka in the form of a Statement of Alternative Treatment (SoAT) on Reclassification of Debt Portfolio due to unprecedented changes in the macro-economic conditions. The fair value of the debt portfolio reclassified on April 1, 2022, and remaining as at December 31, 2023 amounted to Rs. 160.21 Bn., and the cumulative fair value loss thereon amounted to Rs. 27.44 Bn. (Net of tax Rs. 19.21 Bn.).

# 10. REASON FOR CONVENING AN EXTRAORDINARY GENERAL MEETING

As per rule No. 2.2.1 m. of the Listing Rules of the Colombo Stock Exchange, the Bank is required to obtain the approval of the Shareholders in respect of the proposed Debenture Issue by way of a Special Resolution.

It will also be necessary to obtain a waiver of the pre-emptive right to a new issue of shares as prescribed by Article 9A of the Articles of Association of the Bank by means of a duly passed Ordinary Resolution, in respect of the allotment and issue of new Ordinary Voting Shares by the Bank to the holders of the said Debentures in the case of a Trigger Event which warrants such a conversion of Debentures to Ordinary Voting Shares.

Furthermore, it will also be necessary, in compliance with Section 99 of the Companies Act No. 07 of 2007 (as amended) and Article 10 of the Articles of Association of the Bank, to obtain, by means of a duly passed Special Resolution, approval of the Shareholders in respect of the proposed share issue which may arise pursuant to the conversion of Debentures in the case of a Trigger Event, which may in turn affect the rights attached to the Bank's existing Ordinary Voting and Non-Voting Shares.

Therefore, an Extraordinary General Meeting of the Bank is being convened in accordance with the Notice of Meeting attached hereto, for the purpose of passing the Resolutions set out therein.

Shareholders who are unable to participate at the meeting are entitled to appoint a proxy to participate at the said meeting and speak and also vote on their behalf, depending on their voting rights. If you wish to appoint such a proxy, kindly complete and return the enclosed Form of Proxy (in accordance with instructions specified therein) to the Bank by facsimile on 0112332317 or email to companysecretary@combank.net or by post to Company Secretary, Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, not later than forty-eight (48) hours before the time appointed for the holding of the EGM.

By Order of the Board of Commercial Bank of Ceylon PLC,

R A P Rajapaksha Company Secretary March 05, 2024 Colombo

Signed on this ...... Two Thousand and Twenty Four.

Instructions as to completion of this Form of Proxy are given below.

- (i) As regards voting on the Resolutions indicated in the Form of Proxy, if no words are struck out or there is in the view of the Proxyholder doubt (by reason of the way in which the instructions in the Form of Proxy have been stated by the Shareholder) as to the way in which the Proxyholder should vote, the Proxyholder will vote as he/she thinks fit.
- (ii) If the Form of Proxy is signed by an attorney, the relative Power of Attorney (POA) should accompany the completed Form of Proxy for registration in the event such POA has not already been registered with the Company.
- (iii) If the Shareholder is a company or a corporate body, the Form of Proxy should be executed under its common seal or in such other manner as provided for in its constitutional documents, if any, or be signed by its attorney or by an officer on behalf of the company/corporate body, in accordance with its Articles of Association/Statute.
- (iv) Every alteration or addition to the Form of Proxy must be duly authenticated by the full signature of the shareholder signing the Form of Proxy. Such signature should as far as possible be placed in proximity to the alteration or addition intended to be authenticated.
- (v) The use of the word 'Member/s' herein is a reference to 'Shareholder/s'.

# Instructions as to completion of Form of Proxy

- (a) Article 68 of the Articles of Association of the Company provides that: 'An instrument appointing a proxy shall be in writing, and
  - (i) In the case of an individual shall be signed by the appointor or by his attorney; or in the case of a corporation shall be either under the common seal or signed by its attorney or by an officer authorised to do so on behalf of the corporation. The Company may, but shall not be bound to require evidence of the authority of any such attorney or officer.
  - (ii) A proxy need not be a member of the Company'.
- (b) In terms of Article 63 of the Articles of Association of the Company:

'In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose, seniority shall be determined by the order in which the name stands in the Register of members in respect of the joint holding'.

- (c) The full name and address of the proxyholder and of the shareholder appointing the proxyholder should be entered legibly in the Form of Proxy.
- (d) The duly completed Form of Proxy should be deposited at the Registered Office of Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, Sri Lanka or by facsimile on 011 233 2317 or email to companysecretary@combank.net, not later than forty-eight (48) hours before the time appointed for the holding of the meeting.
- (e) Articles 57 to 60 of the Articles of Association of the Company, dealing with voting are quoted below, for information of Shareholders:

## 57. Method of voting

At any General Meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by:

- (i) The Chairman of the meeting; or
- Not less than five persons present in person or by attorney or representative or by proxy and entitled to vote; or
- (iii) A member or members present in person or by attorney or representative or by proxy and representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting.

A demand for a poll may be withdrawn. Unless a poll be demanded (and the demand be not withdrawn), a declaration by the Chairman of the meeting that a resolution has been carried or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the minute book, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded for or against such resolution.

## 58. How a poll is to be taken

If a poll is duly demanded (and the demand be not withdrawn), it shall be taken in such manner (including the use of ballot or voting papers or tickets) as the Chairman of the meeting may direct, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded. The Chairman may (and if so requested shall), appoint scrutineers and may adjourn the meeting to some place and time fixed by him for the purpose of taking and declaring the result of the poll.

## 59. Chairman's casting vote

In the case of an equality of votes, whether on a show of hands or poll, the Chairman of the Meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote.

# 60. Time for taking a poll

A poll demanded on the election of a Chairman of the meeting or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either immediately or at such subsequent time (not being more than thirty days from the date of the meeting) and place as the Chairman may direct. No notice need be given of a poll not taken immediately.'

## Instructions as to completion of Form of Proxy

- (a) Article 68 of the Articles of Association of the Bank provides that: 'An instrument appointing a proxy shall be in writing, and
  - (i) In the case of an individual shall be signed by the appointor or by his attorney; or in the case of a corporation shall be either under the common seal or signed by its attorney or by an officer authorised to do so on behalf of the corporation. The Bank may, but shall not be bound to require evidence of the authority of any such attorney or officer.
  - (ii) A proxy need not be a member of the Bank'.
- (b) In terms of Article 63 of the Articles of Association of the Bank:

'In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose, seniority shall be determined by the order in which the name stands in the Register of members in respect of the joint holding'.

- (c) The full name and address of the proxyholder and of the shareholder appointing the proxyholder should be entered legibly in the Form of Proxy.
- (d) The completed Form of Proxy should be deposited at the Registered Office of Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, Sri Lanka or by facsimile on 011 233 2317 or email to <u>companysecretary@combank.net</u>, not later than forty-eight (48) hours before the time appointed for the holding of the meeting.
- (e) Articles 57 to 60 of the Articles of Association of the Bank, dealing with voting are quoted below, for information of Shareholders:

# '57. Method of voting

At any General Meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by:

- (i) The Chairman of the meeting; or
- (ii) Not less than five persons present in person or by attorney or representative or by proxy and entitled to vote; or
- (iii) A member or members present in person or by attorney or representative or by proxy and representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting.

A demand for a poll may be withdrawn. Unless a poll be demanded (and the demand be not withdrawn), a declaration by the Chairman of the meeting that a resolution has been carried or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the minute book, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded for or against such resolution.

## 58. How a poll is to be taken

If a poll is duly demanded (and the demand be not withdrawn), it shall be taken in such manner (including the use of ballot or voting papers or tickets) as the Chairman of the Meeting may direct, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded. The Chairman may (and if so requested shall), appoint scrutineers and may adjourn the meeting to some place and time fixed by him for the purpose of taking and declaring the result of the poll.

## 59. Chairman's casting vote

In the case of an equality of votes, whether on a show of hands or poll, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote.

## 60. Time for taking a poll

A poll demanded on the election of a Chairman of the meeting or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either immediately or at such subsequent time (not being more than thirty days from the date of the meeting) and place as the Chairman may direct. No notice need be given of a poll not taken immediately.'

Note that instructions as to completion of this Form of Proxy are given overleaf.

- (i). Shareholders of non-voting shares are entitled only to attend and speak at the meeting and to vote only in respect of the Resolution set out in item 3 of the Notice of Meeting.
- (ii). As regards voting on the Resolution indicated in the Form of Proxy, if no words are struck out or there is, in the view of the Proxyholder doubt (by reason of the way in which the instructions in the Form of Proxy have been stated by the Shareholder) as to the way in which the Proxyholder should vote, the Proxyholder will vote as he/she thinks fit.
- (iii). If the Form of Proxy is signed by an attorney, the relative Power of Attorney (POA) should accompany the completed Form of Proxy for registration in the event such POA has not already been registered with the Bank.
- (iv). If the Shareholder is a company or a corporate body, the Form of Proxy should be executed under its common seal or in such other manner as provided for in its Constitutional Documents, if any, or be signed by its attorney or by an officer on behalf of the company/corporate body, in accordance with its Articles of Association/Statute.
- (v). Every alteration or addition to the Form of Proxy must be duly authenticated by the full signature of the Shareholder signing the Form of Proxy. Such signature should as far as possible be placed in proximity to the alteration or addition intended to be authenticated.
- (vi). The use of the word 'Member/s' herein is a reference to 'Shareholder/s'.

# Instructions as to completion of Form of Proxy

- (a) Article 68 of (a) Article 68 of the Articles of Association of the Bank provides that: 'An instrument appointing a proxy shall be in writing, and

  - (i) In the case of an individual shall be signed by the appointor or by his attorney; or in the case of a corporation shall be either under the common seal or signed by its attorney or by an officer authorised to do so on behalf of the corporation. The Bank may, but shall not be bound to require evidence of the authority of any such attorney or officer.
  - (ii) A proxy need not be a member of the Bank'.
- (b) In terms of Article 63 of the Articles of Association of the Bank: 'In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose, seniority shall be determined by the order in which the name stands in the Register of members in respect of the joint holding'.
- (c) The full name and address of the proxyholder and of the shareholder appointing the proxyholder should be entered legibly in the Form of Proxy.
- (d) The completed Form of Proxy should be deposited at the Registered Office of Commercial Bank of Ceylon PLC, 'Commercial House', No. 21, Sir Razik Fareed Mawatha, Colombo 01, Sri Lanka or by facsimile on 011 233 2317 or email to companysecretary@combank.net, not later than forty-eight (48) hours before the time appointed for the holding of the meeting.
- (e) Articles 57 to 60 of the Articles of Association of the Bank, dealing with voting are quoted below, for information of Shareholders:

Form of Proxy (Non-Voting Shareholders) – Extraordinary General Meeting (EGM)

## 57. Method of voting

At any General Meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by:

- (i) The Chairman of the meeting; or
- (ii) Not less than five persons present in person or by attorney or representative or by proxy and entitled to vote; or
- (iii) A member or members present in person or by attorney or representative or by proxy and representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting.

A demand for a poll may be withdrawn. Unless a poll be demanded (and the demand be not withdrawn), a declaration by the Chairman of the meeting that a resolution has been carried or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the minute book, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded for or against such resolution.

## 58. How a poll is to be taken

If a poll is duly demanded (and the demand be not withdrawn), it shall be taken in such manner (including the use of ballot or voting papers or tickets) as the Chairman of the meeting may direct, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded. The Chairman may (and if so requested shall), appoint scrutineers and may adjourn the Meeting to some place and time fixed by him for the purpose of taking and declaring the result of the poll.

## 59. Chairman's casting vote

In the case of an equality of votes, whether on a show of hands or poll, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote.

## 60. Time for taking a poll

A poll demanded on the election of a Chairman of the meeting or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either immediately or at such subsequent time (not being more than thirty days from the date of the meeting) and place as the Chairman may direct.
